STROUD TEA & COFFEE CO

366 George Street, Peterborough. 'Phone 181.

NEWS NUGGETS.

—There will be a meeting of the Fire, Water and Light Committee to-night.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—All Saint's choir are going to Young's Point to take part in a concert there to-night.

—A meeting of the Trent Waterway Association is being held in the Town Council Chamber this afternoon.

—The Little Britain cheese factory has been acquired by the Toronto City Dairy Co. The factory has been renovated and improved and will be operated summer and winter.

—The number of people wishing to procure goods at Fair's fire sale was so large that a boy was stationed at the door letting in one person for every one that went out.

—The social which was to have been held in St. John's School Room this evening under the auspices of the "Men's Success Club" has been postponed for one week, Monday the 23rd.

—The meeting of the Board of Health, which was to have been held this morning at 9.30 o'clock, was postponed until to-morrow morning at 9.30 o'clock.

—There is a movement on foot in Cobourg to organize a town band. It is reported that fifteen members have already promised their services, and that the town council has promised to give a salary to a competent bandmaster. There is no denying that band concerts are very popular, and Cobourg could not do a more satisfactory thing than to fulfil this desire.

Hearts That are Diseased

will never be cured by the false, unnatural stimulation of liquor. First increase your vitality, build up the system, strengthen and purify the blood — then the heart will respond and grow strong.

Ferrozone is precisely what to take. It gives you an appetite and a digestion that will look after everything that is eaten. Ferrozone improves nutrition, makes rich vitalizing blood, and is positively the most powerful restorative and strengthener known to medical science; it improves the nerve tone, regulates the heart's action, makes the feeble strong and the sick well. Ferrozone will do you untold good, and costs only 50c., at Ormond & Walsh's.

Dr. Hamilton's Pills stimulate the Liver.

MARMALADE.

Fine bitter Oranges are now in. Also nice, bright skinned, sweet Oranges suitable for using with the bitter ones. These are very cheap. First-class cooking Figs at 5c per lb. at S. A. OKE'S, 376 George-st.

BE SURE THE PREFIX 1847 IS STAMPED ON EVERY ARTICLE. THESE GOODS HAVE STOOD THE TEST FOR OVER HALF A CENTURY. SOLD BY FIRST CLASS DEALERS.

THEIR PETS

Many of the Best Known People in Britain Find Their Chief Relaxation in Their Society.

The love of animals is so strongly pronounced in this country that it is only natural to find that many of our best known public characters derive much relaxation from the society of their pets, says Lloyd's Weekly. The late Queen Victoria was devoted to animals. Her fondness for dogs was notorious. The Queen had more than fifty dogs, and every day they were taken out of the Royal kennels to be exercised. Three dogs were her special personal attendants—"Roy," a black and tan collie; "Spot," a fox terrier; and "Marco," a small brown Pomeranian. When the Queen was a little girl she owned a dog named "Pero." Walking one day at Malvern with the Duchess of Kent and her governess, Princess Victoria ran on with her dog, and entered into conversation with a girl. The Princess thinking her dog was tired, asked the child to carry it, which she did for a while. The Duchess, on coming up, thanked the little girl for the trouble she had taken and presented her with half a crown. The coin was framed, and hung up in the parlor of her father's house when they learned who had been the donor.

Queen Alexandria is particularly fond of animals. Her dogs, including some magnificent Borzois, have frequently been exhibited. Her Majesty has lately been showing Seabright, Japanese, and Game Bantams, which take many prizes. King Edward is a great lover of dogs. His bulldog "Peter," was a well-known favorite, much lamented by his Majesty when the dog came to an untimely end.

Lion Cub as Pet.

A few years ago Mr. Alfred de Rothschild had a young lion cub as a pet. It was growing well, and was as docile and affectionate as such a beast could be, when, from some inexplicable cause, it gradually drooped and died. The distinguished novelist, Mr. Rider Haggard, had a peculiar pet in his study in the shape of a large brown and white rat. Lady Duff Gordon made a pet of a large green snake, which would come at a call, drink milk from the hand, coil itself round her waist, and go to sleep. The Hon. Mrs. Arthur Cadogan is another snake lover, some recent portraits of that lady showing her fondling a big serpent.

Charles Dickens had great delight in animal pets. A little white cat, called Williamina, showed much devotion to her master. She selected a corner of his study in which to deposit her kittens, bringing them from the kitchen in her mouth, one by one, after the manner of her kind, they were removed, but again brought back so persistently that they were allowed to remain. The kittens made themselves at home, playing round the writing-table, swarming up the curtains, and often being stroked by the novelist.

Bernhardt's Pets.

The celebrated actress, Madame Sarah Bernhardt, has many pets. Amongst others she has had numerous snakes, an opossum, and a number of dogs, including Collies, St. Bernards, and Fox Terriers. Madame Bernhardt is not fond of Bulldogs, nor of very small dogs. Madame Patti always has a number of pets, especially of parrots and other birds.

Miss Elhaine Terriss has had many dogs. She commenced with a Scottish Terrier named Winnie, then she had a St. Bernard, next an Irish Terrier, followed by an Airedale called Bogie, and a black-and-tan Terrier, Nellie. The latter went to America with her mistress, and made her appearance at the Broadway theatre, New York. As Nellie made her stage debut wearing the Yale colors she naturally won a cordial reception. The duet and the dog dance in The Circus Girl, between Miss Terriss and Mr. Seymour Hicks, are said to have been suggested to them by their Fox Terriers. Miss Fanny Brough had a very clever dog named Tadger, and also a cat called "Jimmy," the latter escorting her mistress down the street and meeting her on her return.

Australianism.

At present the Australian Commonwealth pays £105,000 a year for the use of a small British squadron which is supposed also to wander round Maoriland, Fiji, and half the South Pacific. Australia has no control whatever over this squadron, but the understanding is that, if attack really comes, it will be found somewhere within these very wide limits, and ready to do its duty. But the limits are too wide for the squadron to be anything like a reasonable security, and at least one admiral frankly informed this country that if war really eventuated, the squadron would probably make for the seat of hostilities, regardless of the agreement, and leave Australia at the mercy of any casual cruisers which managed, on the wide ocean, to dodge the British vessels. Obviously, under these conditions, it is time for the Commonwealth to give up subsidizing this unreliable fleet, and to spend £300,000 or £500,000 a year on a fleet of its own—one that will be here when wanted, and which should be strong enough to cope with at least a few casual cruisers. Australia thinks of cutting the knot by getting measured for its own cocked hat.—Sydney Bulletin.

Presentation to Mr. Seddon.

The following telegram was received from Wellington, New Zealand, recently. "A portion of the national purse collected before the departure of Mr. Seddon for England, was presented to him to-day in the form of a silver casket containing a draft for £872 Similar presentations are expected in other towns The money was collected as a recognition of the Premier's patriotism and his services to the colony and the Empire The Premier, in accepting the casket and its contents, said that he was pleased to receive the gift as a mark of the colony's appreciation of his services to the Empire."

The Premier Bachelor.

Mr. Balfour is the first bachelor Premier since Pitt. Still, he isn't lonesome, because every Cabinet Minister is assister to him.

Switch Was Tampered With.

Washington, Feb. 16.—Train No. 33 of the New York & Florida Express of the Southern Railway ran into an open switch at Ravensworth Saturday night. Fireman Walter Wigginton, colored, was killed, and Engineer Thomas Purvis is missing. It is thought the switch was tampered with for the purpose of wrecking the train. The train consisted of three sleepers, a mail car and a baggage car. Only the engine and mail car left the track.

YOU CAN TEST THE KIDNEYS

And Find out for Yourself Whether or not you are Becoming a Victim of Painful, Fatal Kidney Disease.

It is not necessary for you to consult a specialist on kidney disease to find out if you are a victim of this dreadful derangement. You can test your kidneys at home, and satisfy yourself on this point.

Allow some urine to stand in a glass for twenty-four hours, and if at the end of that time you find sediment in the bottom of the vessel you can be sure that your kidneys are diseased.

Pains in the small of the back, and smarting when urinating, frequent desire to urinate, especially at night, loss of flesh and strength, are other marked symptoms which indicate kidney disorders. Make this test for yourself. Consider whether you have any of these symptoms, and if you conclude that your kidneys are out of order begin at once to use Dr. Chase's Kidney-Liver Pills. They will bring prompt relief and will thoroughly cure you.

On account of their direct action on the kidneys Dr. Chase's Kidney-Liver Pills cure ailments of the kidneys when ordinary kidney medicines fail. They have proven their efficacy in many thousands of cases, and are endorsed by more people than any other kidney medicine extant.

Mr. C. Noyes, for many years section foreman and now flagman for the G.T.R. at Peterborough, Ont. states:—"For twenty-one years I was section foreman on the G.T.R. and was exposed to all sorts of weather. As a result my kidneys became affected and there was scarcely a day that I was not troubled more or less. At times I would have sharp shooting pains through my back and would get so used up that I felt like giving up work.

"During this time I was also a great sufferer from constipation. As I heard so much about Dr. Chase's Kidney-Liver Pills for kidney disease and constipation I began using them and can say that I was entirely cured of my old troubles in a short time. I cannot say anything too good about Dr. Chase's Kidney-Liver Pills and never lose an opportunity of recommending them."

Dr. Chase's Kidney-Liver Pills; one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates and Co., Toronto.

COUNTRY FOR SPORT

CANADA THE GREATEST IN WORLD FOR GAME.

The Best Hunting Ground on Earth—Lacks But Two Members of the Great Game Family, Buffalo and Wild Pigeons—How Wolves Increased—A Costly Experiment—Wolf as a Hero

At the recent convention of the North American Fish and Game Protective Association at Ottawa, Colonel Turner, the United States Consul at the capital, declared that the Dominion is the greatest country in the world for game. This is a statement which may surprise non-sporting citizens, but which, nevertheless, is quite true.

World's Best Hunting Ground.

Americans come over here by thousands at different seasons of the year for a few days' sport with gun and rod. New Brunswick boasts the most aristocratic fishing clubs in the world, the membership fee of one of which amounts to several thousand dollars. Most of the lakes in all the eastern provinces swarm with bass, said to be the gamest fish in the world, with the exception of the salmon trout. Quail is found in the Western peninsula, and partridge is common in nearly every county in the country. The range of the red deer and the black bear is equally wide, while moose, thanks to a long, close season, elk and cariboo are reported plentiful at the outposts of civilization. With Manitoba and the Territories the home of the prairie chicken, geese, ducks, and sandhill crane, with grizzly and silver tip, mountain sheep, and the grey wolf in the Rockies and the foothills, with sea salmon in British Columbia, besides otter, mink, beaver, and other animals valued for their pelts alone, Canada may assuredly claim to be considered the happy hunting grounds of this world.

Buffalo and Pigeons.

The great game family lacks two members—the lordly buffalo and the wild pigeon. Forty years ago the buffalo roamed the Western prairies by the tens of thousands, while the flights of blue rocks literally darkened the sun. To-day there is not a specimen of either in the country outside of a zoo—except, as to buffalo, the herd at Banff. They have been wiped from the face of the earth. No word but "crime" can be applied to the extermination of the buffalo by white "sportsmen." At the same time, though nothing can compensate for their loss, the wholesale destruction of one great species has served as the most powerful argument for the preservation of others. This is the precedent cited when a close season is desired for any bird or beast. Some years ago it was found imperative to more rigorously protect the deer in Canada. The shooting of moose was prohibited altogether for a time, and the open season for cariboo, elk, and red deer was limited to a very few days. The desired end was achieved and the deer increased in a most gratifying manner.

How Wolves Increased.

Wolves also multiplied in the same proportion, according to the laws of nature; and now they are more numerous than for many years. Wolves in their pleasant home associations with their prey occupy very much the same position as railway rates in relation to freight. A popular working motto for both seems to be "All the Traffic Will Bear." The deer are cast for the somewhat strenuous role of traffic. It might appear at first sight that when the deer are no longer so jealously preserved and the mortality is higher among them, the wolves will decrease accordingly. This is not so, for it must be borne in mind that wolf is far more tenacious of life than a deer, and is one of the most difficult of animals to hunt. Besides, a timber wolf, when reinforced by his immediate family and a few neighbors, is something of a hunter himself. He is not only a nuisance, but a menace to all game, cattle, and even to man himself.

$10 a Head for Wolves.

Ontario realizes this fact, and there is a bounty of $10 for the head of one of these animals, six dollars of which is paid by the county where the animal is killed, and four dollars by the province. Quebec pays no bounty, though the wolves there are much more numerous. Premier Parent, it is said, wishes to place a law on the statute books offering a reward to encourage their extermination, and the Game Protective Association appointed a committee to wait on him and urge the matter. The reason why the Premier of Quebec needs his hands strengthened is a most surprising one. His colleagues are opposed to a bounty because there are so many wolves that it would amount to a large sum. That is to say, wolves are so ravenous that they are almost indispensable. This state of affairs, satisfactory as it may be to some of Mr. Parent's colleagues, cannot continue much longer, for the depredations of the dreaded grey wolf are becoming intolerable.

A Costly Experiment.

Lumbermen have been attacked, and thousands of dollars worth of live stock destroyed. A bounty will not make farmers any more anxious to save their property from the wolf, but will have the effect of encouraging hunters to address their professional attentions to him. In the meantime the farmers have been experimenting with new methods for exterminating these brutes. A settler on the Upper Mattawa, having heard that if a rat is caught, a bell tied to his neck, and he is then turned loose again, he will strike such terror to the hearts of his colleagues that they will desert the house, decided to try the plan with wolves. He secured a wolf, "belled" him, and turned him loose. Then his lambs began to disappear with alarming frequency, and investigation showed that they had fallen victims to a wolf. The owner watched and waited and finally discovered that the wolf he had given his liberty used the bell as a decoy for sheep, and that they, accustomed to the sound, and associating it with one of their kind, actually pursued the wolf into the woods, with what painful results may be readily imagined.

The Wolf as a Hero.

The boldness of the wolves in packs may be their undoing, for then they can be traced more readily, though this is rather a dangerous undertaking. They expose themselves openly, and will even stand gun fire. Cunning comes with adversity; the fewer wolves the greater intelligence. For this reason it will be almost impossible to completely exterminate them, and, indeed, we do not thirst for the last drop of blood of the last timber wolf. Alone and famishing, with the hand of every man against him, hunted by dogs, his path beset with traps, and his lair with pitfalls, the wolf will still do battle. There is a streak of the hero in the gaunt, grey robber, after all.

Blood Disorders

are simply kidney disorders. The kidneys filter the blood of all that shouldn't be there. The blood passes through the kidneys every three minutes. If the kidneys do their work no impurity or cause of disorder can remain in the circulation longer than that time. Therefore if your blood is out of order your kidneys have failed in their work. They are in need of stimulation strengthening or doctoring. One medicine will do all three, the finest and most imitated blood medicine there is.

IS THERE ANYTHING MORE UNSIGHTLY THAN TO SEE A PERSON WITH THEIR FACE COVERED WITH PIMPLES?

IS THERE ANYTHING MORE UNCOMFORTABLE AND PAINFUL THAN TO HAVE BOILS?

BAD BLOOD

Is the Cause of Boils and Pimples.

Bad Blood can be Cured by

Burdock Blood Bitters.

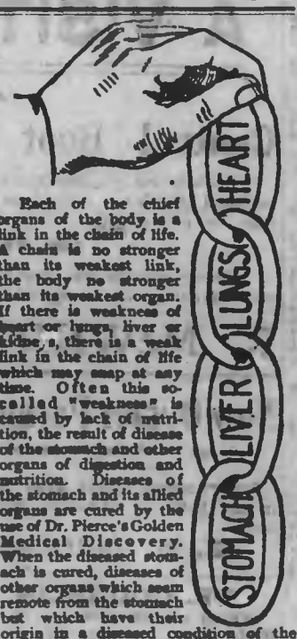
Mr. Wm. O'Malley, Madawaska, Ont., writes:—I used to be terribly bothered with boils and pimples, caused by bad blood and run-down system. I took two bottles of Burdock Blood Bitters, and it made my skin nice and clear, and built up my constitution. Any person using it will never be bothered with skin diseases.

SOMETHING HOT,

—Invigorating and Nourishing can always be had at Long's. Beef Tea, Armour's Bullion, Tomato Bullion, Oyster Soup, Chocolate, etc., served any way you like, any hour of the day or night.

LONG BROS. TWO STORES

Nos. 326 and 414 George St.



Each of the chief organs of the body is a link in the chain of life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of heart or lungs, liver or kidneys, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of disease of the stomach and other organs of digestion and nutrition. Diseases of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

"I was in poor health when I commenced taking Doctor Pierce's medicines," writes Mr. Elmer Lawler, of Volga, Jefferson Co., Ind. "I had stomach, kidney, heart, and lung troubles. Was not able to do any work. I had a severe cough and hemorrhage of the lungs, but after using your medicine a while I commenced to gain in strength and flesh, and stopped coughing right away. Took about six bottles of 'Golden Medical Discovery.' I feel like a different person. I gladly recommend your medicine to all sufferers, for I know it cured me."

The use of Dr. Pierce's Pleasant Pellets will cure that foul breath.

INDIVIDUALITY.

Making of Handmade Goods Will Cultivate It in Canadians.

In Canada, above all other countries, we have great need to encourage individuality, for our system of public education, however excellent, takes but little count of the individual, and from a certain standpoint we are educating on a system which tends to destroy anything like strong individuality. In fact, if you take the spirit which prevails in our smaller towns and villages you will find a positive resentment against the man or woman who dares to strike out in any line of his own. Go into our large stores and you will find one huge table covered with the same form of hat, reproduced a thousand times. Pass into the mantle department, and on great trees hang coats and jackets of the exact cut and make and color; and all this is influencing our people and their view of individuality and its right to assert itself in any line in life. With all our boasted freedom, as compared to the past, we fall into line like mild-eyed sheep and follow the mass. In the old days we might have been led by individuals; to-day it is the unthinking crowd that takes the lead. How many people think or care what has been the origin or inspiration of any fashion we follow so blindly? Surely there is nothing so deadening, so calculated to still the best that is in the human soul, as indifference. Can the Society for Arts and Crafts stir up the public to take an intelligent interest in the thought and virtue which are expressed in the handmade article, they will bring closer to the mass of purchasers in the Dominion the problems which face the men and women who design and execute the work they propose to encourage. Those great factories hide so much from us that is beautiful and worthy in human lives and the struggles of the workers to beautify their own lives by contact with beautiful things. Can we but encourage work which will not separate men and women from their homes and their children, can we but raise the taste of the richer classes in the Dominion so that they will take into consideration all that a good handmade article represents and be willing to pay for that ideal quality of human individuality, as well as for the time and labor expended on its construction, we shall have much to thank the Society of Arts and Crafts in Canada for. —Lally Bernard, in The Globe.

Fever Outbreak in Jamaica.

Kingston, Jamaica, Feb. 16.—The Governor has issued an order raising the prohibition against the importation of Canadian cattle. The order against the importation of cattle from the United States is still enforced.

COSTLY GAME OF WAR.

South African Contingent Cost Canada Almost $3,000,000 and 294 Men.

The sending of the Canadian division South African Constabulary, the 2nd, 3rd, 4th, 5th and 6th Canadian Mounted Rifles to South Africa and the 3rd R. C. R. to Halifax cost Canada $2,823,954. The total of all ranks was 5,372. Of these 7,368 reached South Africa, where there were 476 casualties, 224 deaths and 252 wounded. Those actually killed numbered 63; 31 died of wounds, 127 succumbed to disease, one was accidentally drowned, and two were reported missing and believed to be dead. Ninety-three per cent. of the deaths from disease were due to fever, Privates O. J. Weaver, C.M.R., and W. Winyard, Royal Canadian Dragoons, are missing.

In the supplementary report of the Militia Department, which contains these facts, there are also some appreciative comments by the Earl of Dundonald upon the soldierly qualities and valour of the 2nd Mounted Rifles, under Col. Evans, the splendid equipment and behaviour of the 10th Field Hospital, under Lieut.-Col. Worthington, and the patriotic spirit of the officers and men of the third, fourth, fifth and sixth regiments, who had no opportunity of being under fire. Lieut. R. H. Ryan tells of the surrender of Delarey and Kemp at Dornscomb, June 15, 1902. Only 12 men, one corporal and one officer of the Stadts Artillery, only 12 of the Yarks, formerly a magnificent regiment, and only one officer and six men of Delarey's signaling corps remained.

People With Bad Breath,

Generally suffer from catarrh and should use Catarrhozone Inhaler four times daily, and be cured. The pleasant scented Catarrhozone vapour spread through every air passage of the breathing organs, and reaches the very root of the disease at once. It kills the germs, purifies and cleanses the mucous surfaces and eradicates every vestige of catarrh in a short time.

Pure, sweet breath, free from headache, sneezing and discharge are quickly deprived from the use of Catarrhozone Inhaler. Complete outfit, guaranteed to cure, costs $1. Trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills stimulate the Liver.

Never Wrong the Innocent.

The worst of having inflicted a wrong upon the innocent is that you can never by any means retrieve it. You can repent, and it is probable that your very repentance ensures your forgiveness at a higher tribunal than that of earth's judgment, but the results of wrong cannot be wiped out or done away with in this life; they continue to exist, and, alas! often multiply. Even the harsh and unjust word cannot be recalled, and however much we may regret having uttered it, somehow, it is never forgotten.—Marie Corelli.

The following despatches have been received by E. M. Poussett & Co.:—

New York, Feb. 16.—Market more generally active and strong. Trading still rather extensively in specialties. Waldorf crowd credited with change of position to bull side. Lewisohn followers were leading bull influence in Copper. Trade forecasts were generally rather favourable. Manipulation in rubber goods was by large speculative interests which was credited with good deal of stocks on last booms. Twin City earned and paid 1 p.c. on preferred stock during year while it earned 7.09 p.c. on common and paid 5 p.c.

M. & M.

Financial News Item.—It is said that a "melon will be cut" very shortly by directors of Northern Navigation. Shares are in good demand and bulls talking much higher prices for the stocks. The companies authorized capital is $1,000,000. We have reason to believe that an effort is being made to put these stocks up. The outlook for this season's business is decidedly bright. We believe the shares of this company will touch 175 during the present year.

Buy Northern Nav., Niagara Nav., Dominion Bank, Sao. Paulo, Gen. Elec.

The strength displayed in the leather stocks during the last few days is said to be due to insiders having cleaned up the market and still buying, with little for sale. There is some talk of payment of back dividends on the preferred also that the beef trust has opened negotiations for the purchase of all the hide and leather companies in the U. S.

MILLAR.

London displayed no great interest in market but ruled below N. Y. parity and bought in all 10,000 on balance. General market strong with, in some instances, a good absorbing demand while in the general list there has been a scarcity of stocks ever since the heavy selling of last few days which is now supposed to have been for the interests laregly. The advance in A.C.P. has begun by purchase of 5,000 by Bissell.

The Standard Co. declared a dividen of $20 for the quarter payable March 31th, to stock of record Feb. 20th, an increase of ten on the last payment bu tthe same amount as was declared in Feb. 1902.

M. & M.

Messrs. Haight & Freese have received the following:—

New York, Feb. 14.—*Short covering* should be caused by the announcement of the settlement of the Venezuela trouble this morning and the better prospect based on the currency gain from the interior of a slightly favourable bank statement, together with the knowledge that Keene is not seriously ill. The raid yesterday after the opening was based on the expectation that announcement of gold exports would soon be made. Keene rumours and the disappointment developing on account of the Erie Bond issue. We are inclined to view this as a trading market in which the fancy priced stocks should be sold short on strong points after rallies and the low priced issues bought on weak spots after reactions. Moderate returns should be looked for. We expect to see a rising bull market in the spring, provided nothing adverse develops. We favour corn products, A. H., B.R.T., G.W., for particular reasons, which put them in position to advance independently. We are not bullish on N.Y.C., P.A. nor St. P. There is a tip out to buy Can. Pac. and U. Pac. London heavy.

TOPICS.

New York, Feb. 1.—Venezuela gets its Valentine to-day in shape of the raising of the Blockade. Thus ends another bloodless war and peace once again reigns supreme. London is distinctly bullish on Can. Pac. and is friendly to Southern Pacific and B. O. those ladies act well considering the bulk of the selling is for short account. B. & O. will speedily recover its dividend of 2 p.c. The bank statement to-day will be for five days because of Lincoln's birthday. It will be made up on rising averages so that the actual standing will be infinitely better than appears on the surface. Iron trade outlook is excellent. Stick to steels and copper. The Standard Oil contingents are distinctly bullish on K.T., Rock Island, P.O. and L. & N. are good to buy. Sell Erie com on firm spots.

JOSEPH.

New York, Feb. 14.—Wall street appears indifferent to the country's prosperity. No gold has thus far been engaged; there seems to be a willingness on the part of foreign bankers to sell bills freely at this level

Liverpool wheat closed inactive and unchanged to 1-4 lower.

We believe the prospects for a further extended rise in cotton is very certain and as fully as evident now as at the time we urged its purchase below 8 cents. The conditions which made us decidedly bullish at that time could be read very clearly by cotton experts but there was always an element of doubt due to unexpected developments. In favour of the growing crop, but conditions now can be definitely corrected because they are based on facts and on the evidence of one's eyes rather than on opinions. We can see only a bull side to this market when the spindles of the world call for 11,000,000 bales and no such quantity can possibly be forthcoming, consequently prices must rise to a point that will check consumption. An all important factor in this great rise in cotton is that it is not a speculative one but a stern exemplication of the law of supply and demand.

New York, Feb. 14th, 1903.—To-day's market was a quiet affair with trading rather limited. The recent declines having shaken out the weak-kneed holders, and the market is now in a position to do better. Fractional declines occurred after the publication of the bank statement, but they were of little consequence. American Smelter continues to show evidence of further accumulation and reached the highest point on present rise. Look for further improvement on Monday. A settlement of the Venezuela question is momentarily expected. This matter has helped to keep the public out of stocks for some time, and when it is over there will be a rush to buy. Buyers now will reap the benefit of a good upturn as soon as this matter is settled for good as the public will then come in the market in volume.

Chicago.—With favourable weather we look for the prices of all the cereals to decline a little further from the present prices; should this occur it will give an opportunity to pick up either wheat, corn or oats for a scalp.

W. F. DEVER & CO.

CONDITIONS IN OTHER TOWNS.

What Dresden, Berlin, Wallaceburg and Wiarton Think of the Sugar Beet Factories That Have Been Erected and Operated in These Towns.

In view of the fact that an agitation is on foot to give assistance towards the Peterborough Beet Sugar Company, which proposes erecting a sugar plant in Peterborough, the following statements concerning the establishment of factories at Dresden, Berlin, Wallaceburg and Wiarton, may prove of interest. These statements were furnished the Examiner by the Peterborough Beet Sugar Company, and were, no doubt, obtained from responsible people in the various centres above mentioned:

QUESTIONS.	ANSWERS.			
	DRESDEN.	BERLIN.	WALLACEBURGH.	WIARTON.
What is the population of	1600 by assessment of 1902, but somewhat more now.	10,160.	3,113.	2,600 to 2,800.
What bonus was granted the Beet Sugar Factory, and upon what conditions?	$60,000. See Ont. Stat. for 1902, Chap. 47, for conditions.	$65,000. On the condition that they employ town labourers in preference to others, carry on business for 3 years and in case of failure corp. will rank as ordinary creditors.	You will find answer to same in Stat. Ont. 1901, Chap. 74, page 120.	I enclose by-law.
How many hands have been employed?	About 180.	About 275.	About 150.	100 to 125 but they will not be continously employed during the year.
Has factory had effect of bringing in new families?	Very few.	Yes.	Yes quite a few.	Yes.
What effect has it had— (a) On building operations?	No marked effect.	3 or 4 houses near Sugar Factory erected.	About 50 houses have been erected.	A great stimulus. Buildings are being erected in large numbers and there is still a great scarcity.
(b) On business generally?	Slight increase while factory is running, more noticeable in the hotels and boarding houses.	Good effect, business increased.	Marked effect for better.	All.
Are the citizens satisfied with the investment?	Doubtful at present. Can answer this question much more positively a year hence.	Yes.	Have heard of no complaint, no kick, for granting the bonus to such an institution.	Yes.
What is the general feeling?	Very doubtful.	Satisfied.	No objections raised, seem to be perfectly satisfied.	Favourable.

HOW THE STOOL TOPS WON.

Saturday Night's Interesting Hockey Match

Between Two Teams From the Wm. Hamilton Co.—One Sided Score.

The Examiner has been handed the following account of Saturday's game:

Those who did not witness the hockey match Saturday night between the Wood-butchers and Stool-tops of the Wm. Hamilton Manufacturing Company will only be sorry but once. It was the most spectacular and brilliant game yet played on local ice, the only marring feature being its one-sidedness, for when the smoke of battle cleared away the scoreboard read, Wood-butchers, 1; Stool-tops, 14.

The Wood-butchers were a husky "bunch," in every respect resembling the team from Fowler's Corners, but were outclassed, outplayed, outscored and outstripped by the speedy, clever and cunning Stool-tops. The game, though hard, was free from roughness, only three men decorated the fence, they were Sharpe, Brand and Dorris. Sharpe declared after the game that he lost ten lbs., but from the look on his face, one would think he had lost his last week's board money. McFadden played a good game, but Clegg, his check, played better, in fact the whole team of patternmakers were a bunch of accidents. The line-up was as follows:—

Wood-butchers—Goal, Tiny Sanderson; point, Convict Row; cover point, Gas Pipe Kennedy; forwards, Admie McFadden, Razor Sharpe, Plunger Brand, Glue-pot Dawson.

Stool-tops—Goal, L. M. Doidge; point, J. M. Laing; cover point, L. Potvin; forwards, H. Clegg, J. J. Dorris, R. B. VanEvery, R. Cameron.

Timekeepers — Brown and Dunsford.

Referee—W. Kennedy.

The game started at 10.20, and a rush was immediately made on the Wood-Butchers' goal, which resulted in the Stool Tops' first tally, and before the whistle blew for half time this had been repeated eleven times.

On play being resumed, Gas-Pipe Kennedy came up on the forward line, and a change was noticeable, the play becoming so hot that the north west corner of the ice melted. The Pattern Makers were now working desperately, and succeeded in scoring their first, last, and only goal. The cheering was so loud that two of the rafters fell. Just after the face-off Sharpe declared that he saw more than one puck on the ice, so the bell rang and a search was made, but nothing resulted. The time was just about up so the Wood-Butchers' decided to quit. Having saved themselves from a blank, they were satisfied.

NOTES.

Potvin got so tired waiting for a chance to see the puck that he put his goal pads on the goal posts, and played on the forward line.

The Pattern Makers have withdrawn their six other challenges.

McFadden says he would like to play the ladies a game now.

It is rumoured that Brown, manager of the Wood-Butchers, lost quite heavily.

At the time of going to press none of the Wood-Butchers had showed up.

WANTED — PATTERN MAKERS WHO can play hockey a little bit. Apply to T. T. Emmerson.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT.
January 19th to 23rd.

Sealskin advanced from 20% to 40%	
Persian Lamb advanced from 10% to 20%	
Astrachan Lamb	10% to 20%
Raccon Skins	20%
Skunk Skins	15%
Mink	15%
Black Cattle Skins	10% to 15%
Wombat Skins	15%
Wallaby Skins	15%
Australian Coon	25%
Otter Skins	10%
Opposum Skins	15%
Marten Skins	12%

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

VOL. XXXIV, NO. 40. PETERBOROUGH, TUESDAY, FEBRUARY 17, 1903 PRICE TWO CENTS

Just Like a "Run on the Bank"

THE RUSH OF SHOPPERS TO

Fair's Fire Sale

The way people have been crowding to our Big Fire Sale is like the proverbial "Run on the Bank." It is beyond a doubt the greatest selling event in the dry goods history of Peterborough.

Hundreds of people are sharing in the Bargains, and hundreds were unable to be waited on. Self-interest is the active incentive that bring the crowds of buyers. People respond, because they know that every fact will be verified according as advertised.

In some instances we save you a HALF—even more in others—but the average saving is fully a HALF!

Some Lines of WASH GOODS originally sold at 20c, selling now for only 10c
(It is equivalent to selling a 10c package of Quaker Oats for 2½.)

CORSETS worth $1.00, $1.25, $1.50 and $2.00, selling now for only 50c

The well-known high character of the Golden Lion's Goods make the Bargains all the more genuine.

Big returns for money invested await shoppers, and rich rewards to those who come to buy any of the following:—

Dress Goods	Wash Goods
Silks	Prints
Staples	Gloves
Whitewear	Corsets
Table Linen	Hosiery
Towelling	Underwear
Sheeting	Neckwear
Millinery	Laces
Suits	Skirts
Carpets	Linoleums
Art Squares, etc.	

Nearly all the stock is in such perfect condition that buyers say we are not offering the damaged Goods.

No Goods exchanged or allowed out on approbation during this Sale.

Store opens at 9 o'clock and closes at 5. Extra salespeople have been engaged to wait on the crowds that throng our store.

During this sale all cash discounts will be suspended.

BOY'S PATHETIC STORY.

Russian Lad Who Was Too Glad to See His Parents.

New York, Feb. 17.—The steamship Grat Waldersee arrived here yesterday. As the ship reached dock in Hoboken a 12-year-old Russian boy, named Ulrich, became greatly excited at the prospect of seeing his parents, who came to this country several years ago. He saw his father and mother waiting to greet him, waved a signal to them, and fell dead on the deck.

Has Again Been Represented at

Sutcliffe & Sons'

Annual

Sacrifice Sale

Which commenced this morning and as usual the people that thronged this store through the entire day has again assured us of the "to be" success of this sale.

True, notwithstanding the increased sales staff that we each sale gather together, we never seem to guess big enough—the over doubling of our staff—and to-day as heretofore the people have had to tediously wait, yet the inducements were strong enough to hold the throngs who patiently waited their chances to be served.

We again remind those not attending to-day the advantages to be gained by attending this 10 days' Sacrifice Sale.

STORE WILL OPEN TO-MORROW AT 10 A. M.

TRUSTWORTHY DRY GOODS UNIFORMLY RIGHT PRICES.

CRIMINAL CASE NOW

President Sise of Bell Telephone Company Summoned.

TO BE TRIED NEXT MONDAY

Telephone Rights—The Locust Hill Station Case Reaches Serious Proportions—The Charge Against the Bell Company—President of C.P.R. Summoned as a Witness—The Formal Complaint.

Whitevale, Feb. 17.—Chas. F. Sise, president of the Bell Telephone Company of Canada, was formally charged with the violation of the criminal law yesterday, and a summons issued, commanding him to appear for trial next Monday. This is the climax of the contest that has been waged for several weeks by the rural districts of Ontario County against the Bell monopoly with so much determination. The summons was sent by registered letter to Montreal. This is the first step of the Crown in the case, which promises to become celebrated in Canadian jurisprudence. The penalty is not less than $1,000 nor more than $10,000.

The complaint was filed with Magistrate James Davidson. It was formally sworn to by a member of the Co-operative Company, and dozens of prominent farmers from all parts of the county were present to witness the inauguration of the proceedings by the Crown.

As soon as the complaint was sworn to, Magistrate Davidson certified to subpoenas for a large number of witnesses, which were at once handed to the constable for service. Among others are notices to: Sir Thomas Shaughnessy, president of the C.P.R.; Alpheus Hoover, president of the Markham and Pickering Co-operative Telephone Company; Agent Green of the C.P.R. at Locust Hill; District Agent Stringer of the Bell at Peterboro, and many others.

Here is the formal complaint the Bell Telephone President must answer to: "Now comes Herbert J. Hurd, who saveth: That Charles F. Sise of Montreal, as president of the Bell Telephone, Limited, of Canada, on or about the second day of February, 1903, in the County of Ontario, for and on behalf of said company, did unlawfully conspire, agree or arrange with the Canadian Pacific Railway Company, to unduly limit the facilities for transporting or supplying or dealing in articles and commodities, subjects of trade and commerce, to wit, ordinary farm and other produce, by refusing telephone connection and privileges to one Harriston Johnston and others, contrary to the provisions of the Criminal Code, Section 520.

POSTAL METHODS CHANGED.

Payment of Postage on Large Quantities Taken in Cash.

Ottawa, Feb. 17.—The Postmaster-General, in order to facilitate the posting of printed matter mailed in considerable quantities, addressed for delivery at postoffices within the Dominion of Canada, has decided that payment of postage on same may be effected in cash, instead of postage stamps, in conformity with certain regulations. Each lot of mail matter which is posted under this arrangement must be accompanied by a permit which has been obtained from the postmaster of the office at which it is posted. The application for this must state approximately the number of pieces it is intended to mail, and the postage on each piece at the rate of one cent per two ounces or fraction thereof. The articles posted must be of a uniform weight and must be put up in such a way as to admit of their being readily counted. Circulars are to be put up in packages of 50, 75 or 100, with addressed sides faced all one way. Catalogues must be tied up in neat bundles. Each article must have printed upon its wrapper or cover an impression of an official stamp. The lowest amount which may be received in payment for matter mailed under these regulations is $25. Under these regulations payment may be made only by marked cheque drawn in favor of the postmaster of the office of posting, which must accompany the mail matter at the time it is posted.

Horses Lost in the War.

London, Feb. 17.—At yesterday's meeting of the War Commission, General Sir Charles Mansfield Clarke, Bart., G.C.B., Quartermaster-General put in returns, estimating that 517,665 horses and 150,781 mules and donkeys had been provided in South Africa, at a total cost of £15,329,306, and that of these 349,728 horses and 58,339 mules and donkeys had been expended in the war, exclusive of 15,960 animals lost on the voyage.

N.W.T. Conservatives Called.

Winnipeg, Feb. 17.—R. L. Borden, leader of the Opposition in the Dominion House, has issued a letter calling a meeting of the Conservatives of the Northwest Territories, to be held at Moosejaw on March 25 next, for the purpose of organization and preparing for the next Federal election.

Half Million to Charity.

Berlin, Feb. 17.—Albert Pfaff, who decorated and furnished most of the great transatlantic liners of the Hamburg-American and North German Lloyd Companies, is dead. He bequeathed about $500,000 to various charities.

THE BOARD OF HEALTH.

The Sanitary Inspector Makes a Report.

Dr. Bryce's Analytical Report of the Well Water.

The adjourned meeting of the Board of Health was held this morning in the Town Clerk's Office, there being present,—Mr. Robert Neil, chairman of the Board, and Messrs. G. M. Roger, A. Parker, G. Schneider and Dr. McNulty.

The minutes of the last meeting were read and confirmed.

Chief Ressel said the teachers of the different schools had sent in their report on Friday night and that he had visited the absentees, and had found a great diminution in the numbers absent from school. He had not discovered a single case of contagious disease, but that one case of diphtheria had been reported.

Mr. Neil said that there was not a case of scarlet fever in town except in the hospital, and that he thought the visiting of the absentees might be continued for a short time longer.

Mr. S. R. Armstrong, Secretary of the Board, read the report re the water of the Lake street school, which had been tested by Dr. Bryce, of the Provincial Board.

In face of this report Dr. McNulty thought the well ought to be cleaned out and still further that the well be closed.

On motion it was resolved that the well be closed.

A teacher had reported that three children who had been suffering from measles, went to school for the first time yesterday, and that she (the teacher) had overheard one child saying that her sister had had a slight attack of scarlet fever.

Several members of the Board said that if all the teachers were to be as careful as this one above mentioned, the cases of there being infections at school would be less than heretofore.

Mayor Roger said that he thought the Board ought not to take measures it could not enforce.

The chairman said that if the well was a danger to the public health, the Board had power to order that well to be closed.

The Board then adjourned till next Tuesday morning at 9.30 o'clock.

HOW BLOCKADE CAME.

Venezuelan Blue Book Issued in London —Great Britain's Initiative on the Matter.

London, Feb. 17.—The Venezuelan blue book, issued last evening, shows that, after a conversation between Foreign Minister Lansdowne and German Ambassador Count Wolff-Metternich, July 23 last, the former said: "We should be quite ready to confer with the German Government with the view of joint action," and Germany suggested, August 8, a joint naval demonstration. The British Admiralty officials expressed the opinion that the best form for this demonstration would be a blockade. The seizure of the Venezuelan gunboats was suggested by Great Britain. This, with the other details of the aggression, was submitted for Germany's approval by Lord Lansdowne, Oct. 22. The blue book gives minute details of the British grievances against Venezuela from the month of March, 1901, to the time of the signing of the protocol, the salient features being the persistent endeavor to get President Roosevelt to arbitrate and the minute nature of the German-British agreement.

Handed Over Prizes.

Port Cabello, Venezuela, Feb. 17.—After the blockade had been raised here, the captured Venezuelan sailing vessels were turned over to U. S. Vice-Consul Volkmar.

Diplomacy to Resume.

Berlin, Feb. 17.—Chancellor Von Buelow sent to the Reichstag yesterday a memorandum of the settlement of the Venezuelan disputes. He summarized the terms of the protocol, and concluded that diplomatic relations with Venezuela will be resumed at once.

Wilhelmina May Aid.

Washington, D.C., Feb. 17.—Queen Wilhelmina of the Netherlands may be required by the Washington Government to name the umpire who shall pass on the claims of the United States against Venezuela, in the even that the persons named by the United States and Venezuela cannot agree.

Creameries in Alberta.

Ottawa, Feb. 17.—A number of new creameries are being erected in Alberta this season. The farmers are unanimous in requesting the dairy branch of the Department of Agriculture to take charge of them, in conjunction with the existing Government creameries. As this can be done without expense to the department, the application will likely be granted.

Worn thin?
No! Washed thin! That's so when common soap is used.

SUNLIGHT SOAP REDUCES EXPENSE

Ask for the Octagon Bar

A prominent club woman, Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains and misery by

Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was caused by prolapsus or **falling of the womb.** The words sounded like a knell to me, I felt that my sun had set; but **Lydia E. Pinkham's Vegetable Compound** came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily and each dose added health and strength. I am so thankful for the help I obtained through its use."—MRS. FLORENCE DANFORTH, 1007 Miles Ave., St. Joseph, Mich.

A medicine that has restored so many women to health and can produce proof of the fact must be regarded with respect. This is the record of Lydia E. Pinkham's Vegetable Compound, which cannot be equalled by any other medicine the world has ever produced. Here is another case:—

"DEAR MRS. PINKHAM:—For years I was troubled with falling of the womb, irregular and painful menstruation, leucorrhœa, bearing-down pains, backache, headache, dizzy and fainting spells, and stomach trouble.

"I doctored for about five years but did not seem to improve. I began the use of your medicine, and have taken seven bottles of **Lydia E. Pinkham's Vegetable Compound,** three of Blood Purifier, and also used the Sanative Wash and Liver Pills, and am now enjoying good health, and have gained in flesh.

I thank you very much for what you have done for me, and heartily recommend your medicine to all suffering women."—MISS EMMA SNYDER, 218 East Center St., Marion, Ohio.

"FREE MEDICAL ADVICE TO WOMEN."

Women would save time and much sickness if they would write to Mrs. Pinkham for advice as soon as any distressing symptoms appear. It is free, and has put thousands of women on the right road to recovery.

Mrs. Pinkham never violates the confidence thus entrusted to her, and although she publishes thousands of testimonials from women who have been benefited by her advice and medicine, never in all her experience has she published such a letter without the full consent, and often by special request of the writer.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.
Lydia E. Pinkham Medicine Co., Lynn, Mass.

Daily Examiner.

TUESDAY, FEBRUARY 17, 1903.

WHAT DID HE MEAN?

Why does the Hamilton Spectator make a special editorial of the following six lines, and run it at the top of column, next pure reading matter: "During the recent election campaign Mr. Whitney made a speech in the neighbourhood of Niagara Falls, in which he stated that Niagara power should be 'as free as air' to the people of the Province of Ontario."

Why does not the Spectator go ahead and tell an anxious country Mr. Whitney means when he speaks of Niagara power as being as "free as air?"

The power of Niagara in its natural state is already as free as air, and people can, and do, go and look at it without money and without price. To see the water pouring down is a fine sight. But it costs money to generate electric power there, and the question before the country is the means by which this is to be done.

Does Mr. Whitney mean that anybody—individuals or municipalities—should, in his opinion, be as free to back up their generating plants against the Niagara waterfall as they are to breathe the air?

Or does he mean that the people of the Province of Ontario should be given for nothing electric energy produced at Niagara by the Government?

What he meant is not clear. One cannot even surmise what he meant. He was probably in the same vein as when he grandly said that Ontario should have half a dozen agricultural colleges.—Toronto Star.

NIAGARA POWER QUESTION.

(Woodstock Sentinel-Review.)

The Niagara Power question continues to engage the attention of the Toronto press—and to some extent also the attention of the local press throughout the province. It is a pity that some of the Toronto papers that have been devoting so much space to the subject should not discuss it in a more temperate spirit, with a greater regard for accuracy and the facts—some of which at least are easily procurable. It is a question on which writers and others having the future prosperity of Toronto and the rest of the country at heart, may honestly differ. But, unhappily, it is a question, which, for lack of accurate knowledge on the part of the general public, lends itself to declamation and irrational contention.

The Ontario Legislature has never shown itself hostile to the desire of Toronto and of other municipalities to secure the boon of cheaper electric power and electric light. The form in which the question came before the municipal committee last year fully justified the unanimous action taken upon it. Not even a Toronto member was prepared to defend the crude and unreasonable propositions made in a bill thrust upon the committee towards the close of the session. No member of the Legislature requires either apology or defence for the action then taken. We believe it to have been in the interests of Toronto as well as of the whole province.

But it is not necessary now to discuss the past. The question for the Government and the Legislature is how the problem as it confronts us to-day should be dealt with. We have already dismissed as beyond the field of practical politics the contention of those who ask the Government of Ontario to go into the business of developing electricity at Niagara Falls for distribution among the municipalities and industries of the country. If the Government were to do this, similar demands would be made from other parts of the province. There are not only scores but hundreds of waterfalls throughout the enormous area of Ontario, New and Old, of which the localities interested therein would seek the development, and with quite as much reason as in the case of Niagara. If the Government once entered upon the business of developing electric power and light for general use, it would find itself face to face with a provincial expenditure of, say, from twenty to one hundred millions, and with complications arising through its unnecessary and unnatural relations with the municipalities and the public that would produce not political, but financial difficulties. The Government of Ontario is not likely to enter on any venture that enterprising citizens will shun, lest the credit of the province be launched on the road to bankruptcy.

Besides, it is no longer necessary to discuss the question of government development. That was settled years ago. The agreements already made with power development companies at the Falls prevent the Government from entering upon a policy of this nature. We believe that even the original agreement alone, as amended three years ago, precluded the possibility of either monopoly or extortion. The danger of each is lessened by the fact that there are now three companies on the ground. Our own belief is that in a few years power will go a-begging at the Falls, simply because there will be much more of it than can be utilized on either side of the river. But if the development companies are found to be getting undue profits through high rates, the Government holds the power that would quickly bring them to their senses. There are other locations for electrical development both at the Falls and below which can readily be utilised and placed in the hands of companies under conditions that would bring the existing companies very quickly to reason. The assertions of those who speak of either monopoly or extortion at the Falls, and who declare that the Government has disposed of the heritage of the public for the benefit of corporations, are quite unwarranted by the facts and the probabilities of the situation.

The suggestion has been made in some quarters that the municipalities, or the chief ones, within the zone of possible electrical transmission from the Falls, should unite to develop power there and to transmit it throughout the province, so far as it is practicable to do so. The proposal suggests the enormous difficulties of such a scheme, if not at once the impossibility of execution. No one can seriously imagine the municipalities of the province, with varied populations and wealth and interests, at greatly varied distances from the Falls, raising money for such a purpose and uniting amicably on its expenditure, and on the future management of such a project. The proposal is one that may be dismissed as outside the region of serious discussion.

Then there is Toronto's demand that she shall be allowed to develop electricity at the Falls and to transmit it therefrom for industrial and general use. Premier Ross has now given a qualified assent to Toronto's demand. It is possible to imagine circumstances under which his assent thereto might be justifiable. But we are strongly inclined to think that these conditions need not be allowed to arise. There surely is a better way. It would be a serious thing for Toronto to undertake even the work of transmission. It might be a still more serious matter for other municipalities. If Toronto be allowed to occupy the position alone it might lessen the chances of other municipalities getting what Toronto with her greater wealth and population would secure. The transmission line or lines of the future should have the business of Toronto and of all other municipalities within reach of the Falls, if every municipality within such electrical zone is to obtain the benefits which all desire, and which all ought to have on practically the same terms. It does not seem possible to deal with Toronto without affecting every other municipality within, say, one hundred or two hundred miles of Niagara.

How, then, can the question be dealt with?

Our answer is, in one of two ways: First, it is self-evident that there is a clear difference between development and transmission, and for many obvious reasons. We are inclined to think that the transmission of electricity from Niagara Falls should be in the hands of an independent company; and by this we mean a company independent of the power companies, of any railway or electric light companies, or of any and all of the municipalities. It should be a company with a provincial charter, and a provincial charter only. And its rates should be absolutely under Government control. If such a company had the whole business of transmission, it could give the maximum of advantage to every municipality at the minimum of cost. Government control would be a guarantee to municipalities, and all others, that they need fear neither monopoly nor extortion.

Then there is another—and, perhaps—a better way. The Government might place the work of transmission in the hands of a special commission, which would build the line or lines necessary; raise money by debentures for such expenditures, such debentures to be guaranteed by the province. This would not mean an expenditure of provincial funds, merely the guarantee of an investment that would be profitable in itself. Lines so built could take their electrical currents from one or all of the development companies at the Falls. The Government could fix the rates from time to time in such a way as to secure payment of the interest on the Commission's investment, and a reasonable sum as a sinking fund for depreciation and contingencies. Other parts of the province could not reasonably object where there was no actual expenditure of provincial funds. Indeed, the same principle could be carried out elsewhere, should reasonable demands therefor arise in future. Such a plan, as we have said, would preclude the possibility of monopoly or extortion. Under it Toronto and other municipalities would get electricity at the minimum of cost without the usual extravagance and uncertainties attendant on the expenditure of municipal funds on big undertakings with which the average municipal representative has little knowledge or experience.

As the question now stands, and looking not only at the present but to the distant future, we are strongly inclined to think that the Government and the Legislature should adopt one or other of these two plans. It would mean the solution of the question in the interests of the municipalities and of the people. And it is the municipalities and the people alone that should be considered in dealing with one or any of the assets of the province.

Killed by Chinese Pirates.

Victoria, B. C., Feb. 16.—The steamer Tosca Maru has reached port from Yokohama. She brought news that pirates on the steamer Oanfa, a small vessel on the West River, had killed a European officer and five Chinese.

RETURNS FOR THE SEASON.

Warsaw Cheese and Butter Factory, Shows a Steady Progress and Growth of Trade.

Mr. Henry Smith, salesman and treasurer of the Warsaw cheese factory, has issued the statement of the season's business, as follows: The amount of milk received was 1,582,700 pounds; that of cheese made 139,416 pounds, the average price being 10 11-16 cents per pound; cost of manufacturing 1650 cheese was $1394.16; the amount paid to patrons was $12,709.64; while the gross value amounted to $14,103.83. The amount of milk received at the factory was 895,100 pounds, which yielded 14,153 3-4 lbs. of butter, the sales of which brought in a profit of 21.85 cents per pound. The cost of manufacturing was $524.63, while the amount paid to patrons was $2092.47. The best month in the season for the cheese manufacturing was June, while for the manufacture of butter November took the lead.

Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.

CHEAP FUEL.

We have on hand some excellent hard and soft cord wood, suitable either for stove or furnace use, and are in a position to supply the public with this wood cheap, and save you the trouble of cutting and splitting with the trifling additional cost of 75c split in three, or 75c split in four lengths.

No danger of running short, as we are receiving daily shipments.

I Will Cure You of

Rheumatism

Else No Money is Wanted.

Any honest person who suffers from Rheumatism is welcome to this offer.

I am a specialist in Rheumatism and have treated more cases than any other physician, I think. For sixteen years I made 2,000 experiments with different drugs, testing all known remedies while searching the world for something better. Nine years ago I found a costly chemical in Germany which, with my previous discoveries, gives me a certain cure.

I don't mean that it can turn bony joints into flesh again; but it can cure the disease at any stage, completely and forever. I have done it fully 100,000 times.

I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism, and I will mail you an order on your druggist for six bottles of Dr. Shoop's Rheumatic Cure. Take it for a month at my risk. If it succeeds the cost is only $5.50. If it fails I will pay the druggist myself—and your mere word shall decide it.

I mean that exactly. If you say the results are not what I claim, I don't expect a penny from you.

I have no samples. Any mere sample that can affect chronic Rheumatism, must be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of the blood.

My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met And in all my experience—in all my 2,000 tests—I never found another remedy that would cure one chronic case in ten.

Write me, and I will send you the order. Try my remedy for a month, as it can't harm you anyway. If it fails, it is free.

Address, Dr. Shoop, Box 47, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

JOINT HIGH COMMISSION.

Senator Fairbanks Has Written Sir Wilfrid Suggesting It.

Washington, Feb. 17. — It was learned from the State Department yesterday that Senator Fairbanks has written a letter to Sir Wilfrid Laurier, suggesting that, in view of the ratification of the Alaskan boundary treaty, it would be well for the Joint High Commission to meet soon to take up the questions at issue between Canada and the United States whose settlement was impossible when the commission met last, owing to the overshadowing importance of the boundary dispute. If Sir Wilfrid feels well disposed, it is believed the Commission will be called for some early day in March, either in Washington or Ottawa.

IT IS THE TRUSTED FRIEND OF MILLIONS.

Men and Women of all Ranks of Society Point to

Paine's Celery Compound

As Their Rescuer From Disease and Death.

Millions on this North American continent know that Paine's Celery Compound "makes sick people well."

Paine's Celery Compound is to-day the popular medicine in the wealthy and humbler homes of our vast country. The press has given this wonder-working prescription more note, prominence and praise than has ever been given to any other remedy, and physicians of all schools prescribe it daily.

Paine's Celery Compound has become popular and trusted because its results exceed its promises. It is victorious over sickness and disease. It offers hope and cheer to those pronounced incurable by physicians; it saves such from the grave. It is the one medicine, unfailing and all-powerful that promptly brings true joy and gladness to hopeless victims and their anxious relatives and friends.

It is well to remember that one or two bottles of Paine's Celery Compound will, in the majority of cases, banish tired feelings, weary and clouded brain, headache, debility, constipation, nervousness and sleeplessness, which, if allowed to run unchecked, give rise to serious ailments and diseases. If you are rundown, overworked, have defective digestion and poor circulation, you will obtain blessed results from this grand system-building medicine. Each dose carries new life to all the weak and torpid organs of the body.

Ideas From Uncle Sam.

Ottawa, Feb. 17.—William Smith, B.A., Secretary of the Postoffice Department, is at Washington, looking into the operations of the postal system there and forming the acquaintance of the United States officials.

A Capital Cure for Sore Throat.

Is to use as a gargle a few drops of Polson's Nerviline in sweetened water and before retiring rub the throat and chest vigorously with Nerviline. By morning the soreness and inflammation will have disappeared entirely. Nerviline drives away the pain and cures sore throat that hoarseness quickly, simply because that is what it is made for. Buy a 25 cent bottle from your druggist today.

Dr. Hamilton's Pills stimulate the Liver.

EVIDENCE TOO WEAK

Collingwood Magistrate Discharges Alex. W. Clark.

CORONER'S JURY'S VERDICT.

Ladder Will Be Recorded at Next Sitting—Monday Mrs. Clark Was the Principal Witness—Prof. Ellis' Analysis of the Infant's Stomach Discloses Poison—An Unusual Ending in Criminal Case.

Collingwood, Feb. 17.—The third session of the inquest on the death of Jeanet Clark opened yesterday in the court room, which was packed to the doors. John Birnie, K. C., was associated with the County Crown Attorney.

The first witness was Rev. James A. Grant, pastor of the Baptist Church, who testified that Mrs. Clark had told him a similar story as that given by the neighbors in the former evidence. He believed she was telling the truth, but considered her hysterical at the time.

Mrs. Clark was then put on the stand and at the request of her counsel the court was cleared, as she was in a nervous condition. Mrs. Clark, who is rather a good looking young woman, testified that she was 28 years of age, was married in Markham a little over two years ago, and had since resided in Collingwood. Her husband earned $2.75 a day, but she knew nothing of his financial affairs.

"I determined to have my life insured, my husband was not anxious. It was my idea to insure the baby."

Continuing, the witness related the circumstances of the night the child died. She had given it cheese to eat. Her husband never told her he had brought poison into the house, and couldn't tell where it was put. Clark came home after 9 o'clock, and the child got up on hearing his voice. He brought oysters home and went out for a bottle of beer. It was bitter, and he put sugar in both glasses. "I gave the baby some out of my glass. I never thought it was poisoned. I put the baby to bed, and then went myself and my husband followed. I was not sick in the night, but got up and lit the lamp. After I returned to bed I went to sleep and did not waken until nine the next morning, when the baby was dead. My husband has always been good and kind to me, and is an honest man."

The witness was rigidly but gently cross-examined by Mr. Birnie, but positively refused to answer any question that would get her husband into trouble. She would only repeat what she was told to say, and nothing would alter her determination to be faithful to him while she lived. She thought the Crown Attorney was a cross, old man, and that Chief Maiden would scare one into saying anything.

The coroner then presented the report of the analysis made by Prof. Ellis as follows:

I have found a small quantity of strychnine in the contents of the stomach of the child Jeanet Clark that you sent me for analysis. There was also in the contents of the stomach a very small quantity of alcohol.

The case then went to the jury, and they retired to bring in a verdict, but at 6.15, not being ready, an adjournment was made until 7.30 this evening.

In the meantime Clark was brought before the police magistrate, who, on the advice of the County Crown Attorney, discharged him, as it was considered that sufficient evidence had not been forthcoming to warrant commitment.

INTO "THE BEAUTIFUL."

Women Boarders Ran Screaming From Hamilton Fire Dangers.

Hamilton, Feb. 17.—Early yesterday morning there was an exciting fire at the home of W. A. Douglas, 165 West King street, a boarding-house. The blaze started about 6.30, before the boarders were out of their beds. They were chiefly women, and they got in such a panic that they ran out in the snow in their bare feet. They didn't wait to don their clothes, but came trooping out in a screaming procession, wrapped in bed clothes. The damage amounted to about $2,000.

Canadian Killed at Pittsburg.

Kingston, Feb. 17.—M. K. Armstrong, who was found dead on a bridge, in Pittsburg, Pa., on Thursday last, and in whose case foul play is suspected, was a Canadian, born and reared near Spencerville. He left Ontario thirty-five years ago, settling in Butler, Pa., as an oil man, and where he amassed some wealth.

Murderer Still at Large.

St. Eustache, Que., Feb. 17.—No arrest has yet been made in the Seguin murder case. It developed at the inquest that the aged victim was not only shot but brutally clubbed after death. The dead man was buried Sunday and the largest cortege this parish has ever seen followed him to the grave.

The Morgan Forgeries.

London, Feb. 16.—A warrant has been issued for the arrest of Count Maurice de Bosuard, in connection with the forgeries of J. Pierpont Morgan's signature on a number of bills, purporting to have been given in payment for purchases of pictures and bric-a-brac.

Engineer Was Burned.

St. Thomas, Feb. 16.—Engineer A. D. Waltz of the M.C.R. was severely injured at Atterclife Saturday night. The door of the fire box was burst open by an explosion of gas, and the escaping flames badly burnt Mr. Waltz's hands and face.

Hon. James A. Smart, Deputy Minister of the Interior for Canada, has been invited to occupy a seat in the royal gallery on the occasion of the opening of the British Parliament to-day.

BANISH YOUR RHEUMATISM

W. A. Andrews Banished His When He Was So Bad That He Had Lost Twenty-five Pounds and Was a Complete Wreck.

Hobbling Around on Two Canes He Commenced to Take Powley's Liquified Ozone, Which Instantly Destroyed the Disease Germs.

In Two Days His Appetite Returned, His Sleep Was Natural and Restful, His Pains and Aches Vanished and He Threw Away His Canes.

"Last August I was attacked with severe muscular rheumatism. So bad was this attack that I called in my doctor, who had to administer injections to allay the pain, after which he put me through the sweating system. He attended me well and faithfully for five weeks. When I got up I was compelled to use two canes to get around the house. During all this time I lost about twenty-five pounds in weight; in fact I was a complete wreck. My appetite and sleep left me. I tried a number of good tonics to brace me up and give me an appetite, but none of them helped me.

"About this time my daughter commenced taking Ozone for a chronic sore throat and quinsy, from which she had suffered for years. In a short time she was completely cured of this troublesome disease. So effective was the preparation in her case that I commenced taking it myself, and in two days' time my appetite returned and my sleep became as good as ever. All the pains and aches had vanished by the time I had started on the second bottle, and I threw away my canes. Ozone toned up my system and I became a new man. I gained rapidly in flesh, as all my friends can testify. I look well and enjoy as good health now as ever I did in my life.

"(Signed) W. A. ANDREWS,
"12 Elm St., Toronto."

W. A. ANDREWS.

Ozone Acts Rapidly and Thoroughly.

It is conceded by medical men that the cause of nine-tenths of the disease from which people suffer is disease germs. Powley's Liquified Ozone acts rapidly because it immediately attacks this cause. It acts thoroughly, because it eradicates every trace of it.

In a nutshell, Powley's Liquified Ozone cures disease by destroying the disease germs that cause it. It is especially beneficial in cases of rheumatism and will give relief and effect a permanent cure in the very worst cases.

Powley's Liquified Ozone is sold only by reliable dealers—never by fakirs or peddlers. Price 50 cents and $1.00 per bottle. Our book on Rheumatism free on receipt of name and address.

RURAL LABORERS WANTED.

Deputations From York, Simcoe and Ontario County Councils Get Promise of Co-Operation From Government.

Toronto, Feb. 17.—The scarcity of farm labor in Ontario was the subject of a conference at noon yesterday between Premier Ross and a deputation representing the County Councils of York, Ontario and Simcoe Counties. Mr. C. E. Lundy of Newmarket headed the party, which included Councillors Johnston, Kirby, Pugsley, Hill and Rogers, and Clerk J. A. Ramsden from York; Councillor Alex Hardy from Ontario and Warden Broomfield and Councillors Graham and Mowbray from Simcoe County. Mr. Thomas Southworth, Director of Colonization, was also present.

The Councillors asked that the Province take some distinct step toward securing for old Ontario the men now leaving England, pointing out that the tendency was for them to go to new Ontario and the Northwest, where they became farmers on their own account.

Mr. Southworth told of the demand for labor through his department, and said he believed 10,000 men could be placed this year.

Mr. Hill suggested sending agents to the ports of entry but this was thought to be ineffective, as the men were usually ticketed through to the west.

The Premier expressed his hearty sympathy with the aim of the deputation, and said that while it was too late to do much for this season, he would at once cable the Ontario Immigration agent at Liverpool, Mr. Thomas Byrne, and Mr. W. T. R. Preston, Dominion Agent, at London, of the urgency of the situation. He also favored the commencement next fall of an active propaganda in the old country on the part of Ontario to secure farm help.

WAS HE MURDERED?

Suspicious Circumstances in Connection With the Death of Mr. J. Smith, Hardware Merchant, at Wingham.

Wingham, Feb. 17.—A prominent hardware merchant, resident here for thirty years past, named Mr. J. Smith, a member of the firm of Smith & Pethick, was found some nights ago lying on the sidewalk unconscious, with his skull crushed in. It was first supposed to be the result of a fall on the ice and snow. He was carried to his home nearby, but he never regained complete consciousness, and died early on Sunday morning.

The doctors all now express the opinion that he was the victim of foul play. The unfortunate man had started back to the store from his house, where he had just had supper, a curious fact being that he had counted over the money he had with him at the table before going out, amounting to $114 in bills, which it seems he had neglected or forgotten to deposit in the bank. Very shortly after he was found only a few rods from his door, lying face down on the pavement, and with his soft felt hat still drawn over his head, and all his money gone. As soon as an operation could be attempted severe fractures were discovered extending across the skull, which must have resulted from a severe blow or blows of some heavy, blunt weapon.

20 Years of Itching Piles.

Mr. Alex. McLaughlin, of Bowmanville, Ont., writes, that for twenty years he suffered terribly from itching piles and was told to use Dr. Chase's Ointment. He continued this treatment until entirely cured, and as he has never had any return of his old trouble he considers his cure permanent and remarkable on account of the length of time he suffered.

Hot Wave in Australia.

Ottawa, Feb. 17.—J. S. Larkin, in a letter to the Department of Commerce, dated Sydney, N.S.W., January 10th, reports: "A hot wave has struck this continent, which is burning up vegetation in the pastoral districts, and undoing much of the advantage of the recent rains."

Secretary Now Minister.

Washington, Feb. 17.—The President yesterday sent the following nomination to the Senate: George B. Cortelyou of New York, to be Secretary of Commerce and Labor.

Monkey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery a.

THE DOUKHOBORS.

Decide Finally to Become British Subjects in Due Form.

Ottawa, Feb. 17.—The Department of the Interior has been advised that at a meeting of Doukhobors in the West, attended by Peter Veregin, the Doukhobor leader, and agents of the Immigration Department, it was decided that the Doukhobors would become British subjects, and make entry for homestead patents. Heretofore the Doukhobors have refused to do this, because they were suspicious of the Canadian laws and feared that they might be entrapped into all sorts of obligations.

HOW TO BE

Cured of Piles Without Pain.

First—Change from sedentary occupation to wisely chosen, more active work.

Second—From indoor to outdoor life.

Third—From wrong to right clothing.

Fourth—From unhealthy, rich living, to a mild hygienic diet.

Fifth, sixth and last—Use pyramid Pile Cure regularly and according to directions, for it is the right cure for the trouble, and will cure you as it has hundreds of others.

Don't wait until you are a helpless invalid, for a seemingly simple case of hemorrhoids, or piles, may, if neglected, rapidly lead to worse. The unnatural formations become tumorous and permanent, and the inflammation grows until abscesses form; the disease burrows into the tissues, forming tubular growths which discharge pus; cancerous conditions, and general gangrenous degeneration appear.

What is needed at the start, or at any stage, is something to soothe this inflammation, reduce the swelling and distension, and at the same time restores the diseased parts to normal condition. These three things are accomplished perfectly by the Pyramid Pile Cure. It checks all progress of the disease, and rapidly returns to affected parts to health, besides relieving at once the pain and fearful irritation.

"I began using Pyramid Pile Cure, and in order to make sure of a cure bought five packages; for the past six weeks I have not been troubled in the least, and I had been bothered for thirty-five years, and had spent more than fifty dollars for different remedies; this is the first permanent help I have had, and no one could feel more grateful than I do." L. M. Williams, Conneaut, Ohio.

Pyramid Pile Cure is sold by druggists generally for fifty cents a package, and we urge all sufferers to write Pyramid Drug Co., Marshall, Mich., for their valuable little book describing the cause and cure of piles.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto . . The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unexcelled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

WHY ?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

TUESDAY, FEBRUARY 17, 1903.

Probabilities.

Strong north-westerly winds; fair; temperature much below zero to-night. Wednesday,—Fair and very cold.

A Literary Evening.

The Ladies' Reading Circle of St. Peter's T.A.S., will hold a literary evening in the Lecture Hall on Friday next, Feb. 20th.

Concert and At Home.

An at home and concert, under the auspices of Court Queen, No. 276, I. O. F., will be held in the Foresters' Hall, Simcoe street, on Friday, Feb. 20th. Supper will be served from nine to eleven. Admission, gentlemen, 25c; ladies, 15c. 4d40

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Dance at Kirkfield.

The gentlemen of Kirkfield intend holding a dance on a rather large scale in the town hall of the village this evening. Mr. Gus. Sawers, formerly of town and now of the Trent Valley staff at Kirkfield, is the Hon. Secretary of the dance, and he has not forgotten a number of his old friends here.

An Opportunity to Ladies.

Commencing February 16th and continuing for two weeks, free lessons in art embroidery will be given at the Beehive by a competent teacher every day from 10 a.m. to 4 p.m. As this is an exceptional opportunity for all lovers of art needlework to get valuable pointers and instructions in this work ladies should not lose the chance of visiting The Beehive and taking lessons from the competent teacher that will instruct.

GREAT CROWDS

At Cressman's Fire Sale To-day—Two Stores Crowded.

When the doors opened at Cressman's this morning there was a great rush for bargains. The fire sale was announced to commence at 9 o'clock, but long before that hour the pavement in front of the two stores was crowded with people. The doors were closed at 9.05, and kept closed until noon. As will be seen by advertisement in another column, Mr. Cressman's store will open at 9 o'clock, and remain open until 12 noon. The store will open again at 1 o'clock and remain open until 5 p.m. This arrangement will be followed until further notice.

TO-DAY'S FIRE.

Chimney in T. A. S. Rooms Caught Fire This Morning.

The Fire Brigade was called out to a fire at 11 o'clock this morning in the T.A.S. rooms. The chimney, which has not been cleaned out for years, caught ablaze, but no further damage was done. The Brigade turned out with their new horse.

A DAILY NUISANCE.

A Simple Remedy Which Will Interest Catarrh Sufferers.

In its earlier stages catarrh is more of a nuisance than a menace to the general health, but sooner or later, the disease extends to the throat, bronchial tubes and even to the stomach and intestines.

Catarrh is essentially a disease of the mucous membrane, the *local symptoms* being a profuse discharge of mucus, stoppage of the nostrils, irritation in the throat, causing coughing, sneezing, frequent clearing of the throat and head, and gagging.

The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treatment which removes the catarrhal taint from the blood and the disappearance of the inflammation from the mucous surfaces.

A new remedy which meets these requirements, and which so far has been remarkably successful in curing catarrh is Stuart's Catarrh Tablets.

These Tablets act upon the blood and mucous membrane only. They can hardly be called a secret patent medicine, as they are composed of such valuable remedies as Blood root, Hydrastin, Red Gum and similar cleaning *antiseptics*, which cure by eliminating from the blood and mucous surfaces the catarrhal poison.

Stuart's Catarrh Tablets are large, pleasant-taking lozenges, taken internally, allowing them to dissolve slowly in the mouth. In this way they reach the throat, fauces and entire alimentary canal.

If desired they may also be dissolved in water and used as a *douche*, in addition to the internal use; but it is not at all necessary to use a douche, a few of them dissolved in the mouth daily will be sufficient. However, when there is *much stoppage* of the nose a douche made from these Tablets will give immediate relief, but the regular daily use internally of the tablets will cure the whole catarrhal trouble *without resorting* to the inconvenience of a douche.

Dr. Bement says: "that the internal treatment for catarrh is rapidly taking the place of the old plan of douching and local application and further says that probably the best and certainly the safest remedy at present on the market is Stuart's Catarrh Tablets, as no secret is made of their *composition* and all the really efficient remedies for catarrh are contained in this tablet."

Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized packages. Ask your druggist and if he is honest he will tell you there is no safer, more palatable, more efficient and convenient remedy on the market.

Lovers of Good Writing Paper.

Do you enjoy a good sheet of writing paper? Our new "Dutch Fabric" note paper, in two neat shades, with envelopes to match, is something you should see. Only ten cents a quire; envelopes fifteen cents a package. "Dimity" note paper, in four pretty shades — china white, delf blue, azure and grey, at 15 cents a quire. Envelopes, 15 cents. A. H. Stratton & Co.

LATEST IN SPORTING CIRCLES

T. A. S. to Play Fenelon Falls To-night.

The Bankers' Match Takes Place To-morrow Night—Hockey Notes.

HOCKEY.

AT FENELON.

If the game at Fenelon Falls to-night is as hard as the ice, the T.A.S. will have their work cut out for them.

The T.A.S. must mean to make it hot for Fenelon Falls. They had a smoker at their rooms early this morning. The T.A.S. is great on cold water, and in this connection has made a brilliant record. It is hoped that they will make an equally brilliant "hard"-water record at Fenelon Falls to-night.

TO-MORROW NIGHT'S GAME.

To-morrow night's match between the Bank of Commerce team of the Toronto Senior Bank League, and the local Ontario Bank seven, promises to be one of the best of the season.

The teams will be as follows:

Commerce. — Goal, Strange; point, Wright; cover, Dunsford; forwards, Griggs, Morrison, Bassett, Edmonds.

Ontario. — Goal, Sawers; point, Hollingshead; cover, H. Armstrong; forwards, Ferguson, R. Armstrong, Blomfield and McFarlane.

* * * *

The plan of the balcony at the rink for to-morrow night's inter-bank hockey match, is open at Ormond & Walsh's drug store.

* * * *

A mistake was made in reporting the challenge of Eko Camp Hockey Club. Communications should be sent to Mr. William Comstock, captain and cover point.

* * * *

The Lindsay Juniors will play a game with the Omemee Seniors in the Scugog Town on Thursday night.

* * * *

The Perth Crescents are anxious to meet the Toronto Wellingtons.

* * * *

In the four Intercollegiate senior hockey matches, Queen's scored twenty goals to their opponents' eight.

* * * *

Queen's and McGill hockey teams have met five times in the last seven years, and Queen's won four out of the five matches.

* * * *

Dunlop, one of the R.M.C.I. wing players, was seriously injured at the close of the first half in the match with Varsity II on Friday night in Toronto. His hip was cut open by a skate, and the services of a doctor were required to stitch the wound.

* * * *

Yesterday afternoon Queen's hockey team left for New York. To-night they play Yale at the St. Nicholas rink, and on Wednesday night Princeton. The team is the same as has played throughout the season. Dalton and Brock went as spares, and "Jock" Harty as coach and manager.

* * * *

The Kingston rink directors realize that it will be a great benefit to themselves and the hockey teams if the building is enlarged. They have decided to purchase extra ground in the rear, and with the space already available, the rink can be extended twenty-seven feet. This would admit of twenty feet more ice, making the length 193 feet, and also give more room for spectators. A gallery will also be erected at the far end, capable of holding 200 people.

* * * *

To-morrow night is the date fixed for the hockey match between the Bank of Commerce team of Toronto, and the local Ontario Bank team. In view of the depression of the thermometer the ice will, it is hoped, be in the best condition possible. The teams are in the best condition possible and are said to be very equally matched. The local team it is expected will be the same as that which played against the Imperial Bank of Toronto team of that city. In view of these enticing conditions an exceptionally large attendance is expected to be present. The game will start at 8.30 o'clock sharp.

* * * *

The following teams are still left in the intermediate series of the O.H.A.:—

Belleville or Kingston Ramblers.
Port Perry or Marlboros.
Barrie.
Orangeville.
Gravenhurst.
Paris.
Galt.

Cressman's Stores, during the Fire Sale, will close each day between 12 and 1, and each evening at 5, opening each morning at 9 o'clock.

NEWS NUGGETS.

—There will be a meeting of the Town Council this evening.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—The Militia General's orders just issued, announce that Lieut. R. E. Layfield has resigned his commission in the 57th Regiment.

Queen Alexandra Circle, A. O.F., will hold a prize concert in the S. O.E. Hall on Wednesday, February 18. An excellent programme has been prepared. Refreshments will be served. Tickets only 15c. 2d

—After over three weeks of comparatively mild winter weather, a cold snap has set in, which promises to be severe for the next two or three days. The lowest temperature last night was 8 below zero; this forenoon 10 below was reached, while at noon the thermometer registered 7 below zero. The last previous zero weather was Jan. 24th.

ST. LUKE'S CHURCH.

The mothers' meeting will be held to-morrow afternoon at 3. As this is the last meeting before the pancake social and sale of work, to be held on Shrove Tuesday, Feb. 24th, to make arrangements for the same, a large attendance of officers and members is requested.

Service in St. Luke's to-morrow evening at eight o'clock.

The fortnightly cottage meeting at Auburn, which was to have been held on Thursday next, has been postponed until next week, Rev. Mr. Langfeldt being otherwise engaged on that night.

AT THE CHILDREN'S SHELTER

Two Rather Unusual Cases Admitted.

Raw Material for the Society's Elevating Work.

Two boys, William and John Sheeldice, of Anstruther, aged respectively 14 and 12 years, were recently brought to town under arrest, on a charge of larceny. The children were taken to the Children's Shelter at the corner of Charlotte and Stewart streets. Although this Shelter has been in existence for seven years, the Examiner representative was said to be the first newspaper man who has ever visited this friendly roof. The rooms, which were as neat and clean as any person in town could desire, were shown by Mr. Henry, who is at present custodian of the Shelter. The boys arrived in rags, such as Mr. Henry had never seen before, nor hopes to see again. The boys have been to school for one season, and are able to write their names and read a little, but when set before the dinner table they were at a loss to know what the knives and forks were intended for, and although brought up on a farm they had never tasted butter before. The lads have a mother, aged 38, who has recently married a second time to a man who is 78 years of age, but in spite of this drawback, the boys say, he manages to thrash them much oftener than they consider necessary.

Missionaries are sent to all heathen countries of the world, but surely something ought to be done for the social elevation of the neglected regions of Ontario. As for religion, the children were painfully unconscious of it—did not know what prayer is. If people were to take a greater interest in this friendly home for the destitute and neglected, they would be doing a work of greater proportions than they were previously aware—educate and Christianize the Canadians, then think of "the Fuzzy-Wuzzy in his home in the Soudan."

It is reported that the parents will be dealt with for negligent treatment.

Sale of the Bradley Stock.

Gentlemen, put on your thinking cap! If there has been a sale of more than special interest to men during the past ten years in Peterough it is the sale of the Bradley stock now in progress at No. 353 George street. Quality is everything in gentlemen's attire, and the quality of the suitings and furnishings offered by the yard at this sale is undoubted. The stock has been purchased at 50 cents on the dollar which certainly permits of underselling and phenomenal bargaining. Tweed, worsted and serge suitings, trouserings and overcoatings, are selling at less than cost of manufacture. The price of gentlemen's furnishings — shirts, collars, underwear, gloves, etc., is even less. Its to be a quick sale, and gentlemen are advised to act promptly, if they wish to share in these rare savings. Its not the price alone that appeals to you, but the high grade character of the cloths and furnishings offered at this sale. dtf

QUITE the VOGUE

Two-Third Wall Decorations and Crown Effects.

THIS method of adorning the walls is becoming quite the vogue. A very striking effect is obtained by using a two-tone stripe or plain ingrain paper upon the lower two-thirds, while a floral design decorates the upper one third of the wall. A plate rail, finished to imitate any wood, is placed between to serve as a shelf or divider. From this, pictures and hanging ornaments are suspended.

We have an excellent variety of Wall Papers, suitable for two-third combinations to select from.

Wall Paper Ends and Border Remnants

Before we close our stock-reducing sale we have many chances for those who are on the look-out for bargains in Wall Paper and Border. Those who wish to take advantage of fine days to do some Wall Papering will find lots of snaps worth coming for.

BRING IN YOUR PICTURES

To be framed at the Peterborough Bookstore before they get soiled or torn. Take time and come in and select your Mouldings now, and give us time to have them ready when wanted a r he spring housecleaning.

PETERBOROUGH BOOKSTORE.

Richard Hall & Son

PETERBOROUGH'S MODERN STORE.

NEW SPRING GOODS.

There are many decidedly new features about the New Spring Goods —many decided changes from last year's styles, which you will appreciate the moment you see them.

This week we show a lot of the new ideas for 1903. New Silks, new Dress Goods, new Trimmings, new Wash Dress Goods, new Prints, new Whitewear, New Spring Ready-to-wear Suits, new Skirts, new Carpets, new Goods in every department. We are proud of the season's importations, and will be pleased to show them to you.

NEW DRESS GOODS

in both Black and Coloured, in Plain Broadcloths, Venetians, Voiles, Canvas Sail Cloths, and some of the prettiest Snowflake designs in Tweeds and fine French Goods that you have seen for many a day. The Snowflake design is one of the features of the season.

NEW WASH DRESS GOODS

If you want the very latest for Shirt Waists for the coming season, and a decided change from old styles, you want to buy what we call Mattings or Canvas Cloths or Basket Cloths. They come in plain colours in cotton, linen and silk mixtures. They are certainly the prettiest and nattiest material that has yet come out for the ever-popular Shirt Waist.

NEW READY-TO-WEARS

Many new features about the Ready-to-wears for spring, which will have to be seen to be appreciated. We show some new designs in Norfolk Suits and Russian Blouse Suits, also some very new things in Separate Skirts at decidedly good values. Monte Carlo Silk Coats we show some very nobby styles which you should see early before they get picked up.

WINTER GOODS

We would like to emphasize the fact that you can get anything in the way of Winter Goods at clearing prices at this store.

GRATEFUL RECOGNITION

Of Master Percy Johnston's Bravery in Saving Life.

Mrs. Edward Harris wishes to recognize through the Examiner, the bravery of Master Percy Johnston, in saving the life of her son on the Little Lake on Saturday afternoon last, and to give him her grateful thanks for his gallant rescue of her son, Walter. Her thanks are also due to Master Wise, and Mrs. Wise, for kind attentions after the rescue. Master Johnston may get, as he should do, the medal of the Royal Humane Society, but no more sincere or grateful recognition will his brave act receive than the gratitude of the mother whose boy was saved from death.

OUR OLD FRIENDS
Ever True and Unfailing are the
DIAMOND DYES.

Old friends who are ready and able to help us in our time of need, are indeed true friends.

Diamond Dyes are the old home friends of our Canadian people, and have proved blessings in thousands of homes. When the heart craved for a new dress, skirt, blouse, jacket, opera shawl, fresh bright ribbons or feathers, at times when economy had to be observed, the Diamond Dyes quickly transformed old and faded garments and materials into new creations, thus saving a large amount of money in the home. If you would have the best results in your dyeing work, always use the Diamond Dyes.

Send your address to the Wells & Richardson Co., Limited, 200 Mountain street, Montreal, P.Q., and you will be supplied with the new Dye Book, 45 dyed samples, and artistic designs of the Diamond Dye Mat and Rug Patterns.

See Handsome Prizes in Mr. R. McWhinnie's shoe store window.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant. 34

MUSIC AND DRAMA.

The Opera House was packed to the doors last night, the occasion being the presentation of El Capitan by the Grau Opera Company. It was the first time El Capitan has been put on in Peterborough and the general opinion is that it was a most complete production. The caste included Anna Marie Tyler, Lulu Niven, Ethel Butch, May Leits, Mr. Jos. W. Smith, David Yost, Albert Wilder, John Henderson, Wm. Herman West and a young and handsome chorus. El Capitan, the hero of the evening, with his super-abundance of tin armour, produced great laughter. The singing was excellent whilst the marching of the company was very interesting.

SOCIAL AND PERSONAL.

Mr. Dickson Davidson has gone to Toronto for a few days.

Messrs. Gus and A. J. Gough went back to Toronto this morning.

Mr. William Ferguson, of Lindsay, is in town for a few days.

Rev. D. E. Thompson, of Hastings, was in town yesterday on his way home from Toronto.

Miss Young of Bowmanville, is in town, the guest of Miss Nellie Thompson, 378 Stewart street.

Rev. E. A. Langfeldt is in Lakefield to-day to lecture at Rev. W. A. Mackenzie's school, at The Grove.

The Misses Lyle of Bowmanville, who have been visiting with Miss Nellie McKee and Miss Laura Belleghem, returned home this morning.

Mr. G. H. Williamson, of the Y.M.C.A., is in Toronto, giving a series of lectures in the Y.M.C.A. Training School there. Mr. Williamson went up this morning and returns on Thursday.

Mr. Bert Belleghem, son of Mr. D. Belleghem, is to be congratulated on his promotion. He is with the Ontario Bank at Cornwall, and has been promoted to the position of accountant—not very far from the manager's easy chair. Bert's many friends in town will be pleased to hear of his advancement.

IN MEMORY

Of Maggie V. Hair, who died February 18th, 1902:—

And thou art gone, Maggie,
Out into the great Unknown;
Thou hast finished they life's story,
And glided away alone.
Alone, did I say, nay, rather
With the Heavenly Pilot at hand;
Thou hast passed o'er death's dark river
Right into the Glory Land.

Thy life was short, dear Maggie;
Thy path not always fair,
Of toil thou had'st thy portion,
Of sorrow and of care.
But thy brave, joyous spirit
Looked up where others bowed,
And beheld the silver lining,
Behind the darkest cloud.

They are blessed, said the Master,
Who feed the hungry poor,
And lo! here was a girl
Who turned some from the door.
The weary, the wayward and wandering,
She helped without thought of reward,
And now she has gone up higher,
To meet the smile of her Lord.

We would fain have kept thee, Maggie,
Though we grudged thee not thy bliss.
But a loving God had need of thee,
In a brighter world than this.
So we sadly say good-bye, dear,
As we kiss thy fair brow;
God grant us a glad awakening,
On the resurrection morning.

Your Opportunity to get Well.

You are offered Dr. Chase's Nerve Food as the most perfect restorative, blood creator and system builder that was ever prepared. The name of the discoverer, Dr. A. W. Chase, is enough to guarantee this, and besides you have the testimony of scores and hundreds of cured ones in every part of Canada and the United States. You can use it, knowing that it is bound to do you good.

CHAPTER OF ACCIDENTS.

A Sawmill Mishap—Young Man Injured at Kinmount.

(Lindsay Post.)

Mr. J. Kerry, employed as a carpenter with the bridge and building department of the G.T.R., under the supervision of Mr. Cairns, met with an accident at Kinmount on Saturday afternoon. While Mr. Kerry and some others were engaged in unloading some ties, he slipped and rolled with them, with the result that he was badly bruised about the head and stomach. He was brought to the Ross Memorial Hospital for treatment.

Mr. Walburn Gordon, son of Mr. Ed. Gordon, of the Scotch Line, Verulam, was the victim of a painful accident on Saturday. He was assisting his father and Mr. Wm. Sheriff at the latter's sawmill in cutting slabs, and while operating a circular saw young Gordon had the misfortune to catch the first finger and thumb of the left hand in the saw, injuring them so badly that the was taken to the Ross Hospital where they were amputated. The operation was performed by Dr. Clarke, his physician.

Would You Enjoy Perfect Digestive Vigour?

If You are a Dyspeptic Try

Malt Breakfast Food

The weak and capricious stomach of the dyspeptic calls for a form of nourishment that can be retained, quickly assimilated, and that will afford strength to the body. Malt Breakfast Food fully meets the demands of the dyspeptic by furnishing elements of nutrition that agree with weak stomachs. Malt Breakfast Food gruel is a refreshing and delicious dish for all suffering dyspeptics. The use of this appetising gruel for a few days will tone and strengthen the stomach and digestive organs, after which the patient may commence with the regular Malt Breakfast Food porridge, which will maintain a natural and healthy appetite. Thousands of physicians gladly recommend Malt Breakfast Food. All grocers.

TRENT VALLEY WATERWAY.

A Strong Resolution was Unanimously Adopted.

ASSOCIATION HOLD THEIR MEETING

Pressing Demands Were Made for the Completion of the Work.

Vigorous Speeches Demanding Further Prosecution of Work—Influential Deputations Arranged for.

The meeting of the Trent Waterway Association yesterday afternoon, held in the Council Chamber, though in a sense the annual meeting, took, however, a much more practical shape than the formality one is accustomed to associate with an annual gathering. Though the meeting was not large it was fairly representative, and its spirit was especially aggressive and practical. In the minds of the speakers there seemed to be a feeling that led to the subordination of every interest except that associated with the completion of this great waterway. At no other gathering of the kind, perhaps, has there been shown a more united and earnest spirit. One feeling was uppermost—that the work of completion, or at the least earnest work in the direction of completion cannot be safely delayed. While some favoured work on one unfinished terminal section and some the other, there was a general unanimity as regards something being done no matter at what point. It is probable that as a result of the meeting stronger and more coherent pressure than has ever been brought to bear before will be exercised upon the powers that be at Ottawa and upon the Dominion Parliament.

There were present at the meeting, Hon. J. R. Stratton, President; W. T. C. Boyd, Vice-President; S. R. Armstrong, Secretary-Treasurer; S. R. Stratton, President; W. T. C. Boyd, Vice-President; S. R. Armstrong, Secretary-Treasurer; S. R. Ferguson, Warden of Northumberland and Durham; Mayor Roger, Peterborough; R. Graham, Mayor of Belleville; J. H. Richards, Reeve of Murray Township; J. H. Dickey, Councillor Trenton; Geo. Young, Editor Trenton Courier, Trenton; J. M. Kilbourn, President Lakefield Cement Company, Lakefield; S. J. Fox, M.P.P., Lindsay; Wm. Anderson, M.P.P., East Peterborough; E. J. Toker, J. H. McClellan, D. W. Dumble, John Carnegie, W. H. Meldrum, John Bell, R. R. Hall, R. B. Rogers, C.E.; F. Bartlett, C.E.; W. H. Bradburn, Adam Dawson, Alderman Morrison and R. J. Kidd.

Hon. J. R. Stratton in calling the meeting to order, said the gathering was convened for the purpose of electing officers and in connection with this meeting circulars had been sent out to the several municipalities inviting the presence of representative gentlemen to confer in reference to strongly urging the Government to take prompt action in the direction of entering upon work in connection with completing the two remaining unfinished sections of the Trent Canal. He had had the honour of being President of the Association for several terms, but he found that his other duties so fully occupied his time that he could not devote the attention he would like to do to the work of the Association, and he did not feel justified in taking the position again. He would, however,

CONTINUE TO CO-OPERATE

in every way in his power in promoting the objects of the Association with which he was, as he always had been, in full sympathy. And he would help push on in every way he could the important work of promoting continued construction operations. Referring to the relative merits of the Port Hope and Trenton southern termini of the Canal, Mr. Stratton pointed out that the late Conservative Government had considered the question and had decided in favour of Trenton. The question had been revived and the present Government had also take the matter into consideration, and their conclusion was practically similar, and the Government had no excuse for further delay on this or any other score. And the other conditions were favourable. We had a buoyant revenue, and the time had come when they felt that action must be taken in the direction of completing the remaining sections. We had met that day to express emphatically the determination of the people to have the work pushed to completion.

ELECTION OF OFFICERS.

The election of officers resulted in the return of the old board, with the exception of ex-Mayor Phillips, of Trenton, who was replaced as Vice-President by his successor. The officers for the current year are therefore:

President—Hon. J. R. Stratton.

Vice-Presidents — W. T. C. Boyd, Bobcaygeon, and Mayor J. Funnell, Trenton.

Secretary-Treasurer—Mr. S. R. Armstrong.

Mr. Dumble said that he was saturated with the Trent Valley Canal, and its importance, in both a national and local sense. Some persons seem to think that it is a mere local hobby, and no doubt there had not been given enough consideration to its national importance. But we felt the necessity of completing the canal as a national highway, and not merely as a local work. He pointed out that we had great elevators at Port Arthur and Fort William, and with two railways bringing to these points the immense harvests of the Northwest, these two points would soon constitute the greatest grain distributing point in the world. In view of this, the canal was forced upon us more and more. The pressure of grain traffic from the west had become so great that the railways would not be able to carry the grain. The Trent Valley Canal was part of nature's route through which would flow not only the grain from our own Northwest, but attract a large quantity from Duluth, and the American West. Carrying rates would be cheap, for barges could carry full cargoes of grain to Montreal, and bring to the Northwest return freights, consisting of the goods supplied by Montreal and other places, which our Northwest people needed. As things were, Montreal, as the first seaport, stood to

GET A VERY LARGE SHARE

of the benefit of the completion and operation of the Trent Valley Canal. The completion of this canal was no longer a political question, and he was surprised that the people at Ottawa were so obtuse in regard to its importance and necessity. Mr. Dumble insisted that we should urge on immediate work. The United States were becoming alive to the importance of improving and enlarging their canal communications. They were preparing to spend from 80 to 100 millions in canal enlargement. They saw the necessity and were taking action accordingly, and we must also take action if we do not wish to see the grain trade of the Northwest diverted from Canadian channels. We must urge on work on the canal, and demand, if the Government will not do their duty and act promptly, that they hand over the work to a company, and he thought that there would be no difficulty in getting capital. We must get the men concerned in the completion of the canal more in touch with its merits — take them over the route and show them the capabilities of the enterprise.

A RESOLUTION OFFERED.

The president read to the meeting the following resolution:

Moved by W. T. C. Boyd, seconded by J. M. Kilbourn, and resolved:

That this meeting of the Trent Waterway Association held in the Town of Peterborough, February 16th, 1903, desires to place on record an emphatic declaration of its belief in the necessity of further and immediate construction operations upon the Trent Canal.

That this Association hereby respectfully, but very firmly, calls upon the Dominion Government, through the Department of Railways and Canals, to take immediate steps to give effect to the urgent desire for further construction operations. This is urged in the light of the following considerations, among others, that might be offered:

In view of the national importance of this waterway as one of the outlets of the already immense grain products of the Canadian North-West;

In view of the fact that these products are rapidly increasing, and that their value, depending upon the facilities for their being marketed as promptly and cheaply as possible, is an important factor in the prosperity of the North-West and the Dominion at large;

In view of the fact that the opening and operating of the Trent Canal from Georgian Bay to Lake Ontario, will not only represent increased transportation facilities, but will have an important effect in modifying transportation rates;

In view of the fact that there has already been expended upon Trent Canal construction the sum of over three million dollars, which expenditure will be comparatively valueless, from a national point of view consideration, unless complete construction provides for complete benefit;

In view of the fact that in addition to the importance of the Trent Canal as a national highway, its completion and operation will have a marked effect in the development of the natural resources of an immense district tributary to the line of the canal, and contribute to most important industrial development by improved transportation facilities and rates.

In view of the fact that it is desirable that the Canadian route should be made the only outlet of the great North-West, and in view of the fact that our neighbours to the South are showing great activity and earnestness in the matter of enlarging and improving their internal waterways, with a corresponding object;

And, finally, in view of the fact that the present time—a period of unprecedented prosperity, with a buoyant, and constantly increasing Dominion revenue—is most favourable for the extension of public works of national utility;

Resolved, that this Association hereby urge urge upon the Government of the Dominion, the importance and the necessity of inaugurating immediate additional construction work on the Trent Canal;

And it is the opinion of this Association, that, pending the completion and opening of the entire route of the canal, the opening of the uncompleted section from Trenton to Healey's Falls, is most pressing and desirable, inasmuch as that section completed would open 100 miles of complete internal navigation, and give to a very large area of territory adjacent to it, measured by a shore line of navigable waters of no less than 600 miles of good agricultural country, the benefit of access to the lakes, the St. Lawrence and the seaboard, with all the advantages of transportation cheapness and facilities such a condition would involve.

Therefore this Association would request that the Trenton section of the Trent Canal be immediately let under contract, without prejudice to additional construction work on the other parts of the route.

THE VOICE OF TRENTON.

Mr. Young, of Trenton, said he could add little to what had been said of the merits of the work. What we should do was to forcibly impress upon the Government the conviction that the question must not be made a political football of any longer. We should make the Government feel that they cannot afford to delay and trifle with the Trent Valley Canal matter any longer. The late Conservative Government had pledged themselves to carry on the work as rapidly as the financial resources of the country would permit, and he believed that if the late Government had had the benefit of the prosperity and financial betterment the present Government enjoyed they would have carried out their pledge. He was sorry that he should be compelled to speak in this way, but it was a time when the truth should be spoken. The construction of the canal involved the question whether our North-west grain trade should reach the seaboard by way of New York or by the Trent Valley and the St. Lawrence, and the Government and Parliament must be made to realise it. We must improve and enlarge our waterways to retain control of our north-western grain traffic. The people of the Old Country were seeking shorter access to the fertile fields of the northwest by way of Hudson's Bay, but even if they succeeded in this, there would still be abundant work for the Trent Valley Canal to do.

Mr. Stratton said that copies of the memorial had been sent by the Association to County Councils to be adopted and forwarded to the Government as an expression of their opinion, and also to members of Parliament.

BELLEVILLE IN LINE.

Mr. R. Graham, Mayor of Belleville, said that he and the place he represented were in sympathy with the work. As was to be expected he was present in connection with the adoption of the Trenton terminus of the Canal, as being in the interests of Belleville as well as the entire waterway. He remarked that there was another possible and practicable terminus at Frankford, some four or five miles east of Trenton. The people of Belleville would like to see the Trent Valley Canal completed. It was a national highway and it would be a national benefit.

Mr. Carnegie said in reference to the proposed Port Hope terminus, that it had been talked of and squelched. As far back as the time of Col. Williams a survey had been made, and the proposition to make Port Hope the terminus was condemned. Ending the Canal at Port Hope would destroy it for purposes of through barge navigation. Barges would be exposed to the full sweep of the lake storms many miles before they reached sheltered waters, which they would do at once they reached Trenton. And this fact forbade the consideration of Port Hope as the southern terminus of the Canal. True a ditch might be cut through from Rice Lake to Port Hope, but it would be useless for the purpose of barge navigation.

Mr. Dumble pointed out that the merits of a port at Frankford or Trenton was a mere

MATTER OF ENGINEERING

The respective routes had been surveyed and the matter settled the question. The terminus at either Trenton or Frankford would make little difference to Belleville.

ARREST OF LEADERS

Bulgaria Breaking Up the Macedonian Committee.

TURKEY MASSES 100,000 MEN

Austria Mobilizing Troops on the Balkan Border—Austro-Russian Demands Moderated—Big Protest Meeting in Paris—Albanians Against Reforms—Turkey Relieved by Bulgaria's Attitude.

Sofia, Bulgaria, Feb. 16.— President Michaelovsk of the Central Macedonian Committee; Gen. Zontcheff, the vice-president, President Stanischeff of the Sarafoff Macedonian Committee and many others have been arrested.

It is officially announced that the Government has decided to dissolve the Macedonian Committee in Bulgaria and place a strong military cordon along the Macedonian frontier, thus demonstrating Bulgaria's readiness to fulfil her international obligations.

Dr. Danew, the Premier, announced in the National Assembly yesterday the measures which led to the arrest of the chief officers of the Macedonian Committee, and added that the offices of the Central Macedonain Committee had been seized and all the papers there confiscated. He said the dissolution of the Macedonian Committee in the provinces had been accomplished without opposition.

Macedonians have been summoned to a mass meeting to-day to protest against the action of the Government and to demand the release of the prisoners.

10,000 Protest.

Sofia, Bulgaria, Feb. 16.—A mass meeting of 10,000 Macedonians was held here yesterday to protest against the action of the Government in dissolving the Macedonian committees in Bulgaria. The meeting demanded the re-establishment of the Macedonian Societies and the judicial punishment of individual offenders.

It is reported that warrants are out for the arrest of Boris Sarafoff, I. Yankoff, and other Macedonian leaders.

Sarafoff is said to be now in Macedonia organizing a revolt. Unless Turkey now withdraws her troops from the Bulgarian frontier the Government will suspect her intention and issue an order for the mobilization of Bulgarian forces.

Porte Greatly Relieved.

Constantinople, Feb. 16.—In official circles it is asserted that the Porte has received from the powers assurance regarding Bulgaria's pacific intentions and that it has been greatly relieved thereby. At the same time the military council has completed the plans for the mobilization of the second and third army corps, and has decided that in the event of it becoming necessary to take the field in Macedonia Marshal Edhem Pasha, the Generalissimo in the Grasco-Turkish war, will have supreme command of the quarter of a million of men which would be available there.

Turkey Masses 100,000 Men.

London, Feb. 16.—Developments in the Balkan crisis promise to be more rapid than anticipated ten days ago. There is now ample authority, despite official denials, for saying that Turkey has already massed 100,000 troops on the Bulgarian frontier.

To End Turkish Misrule.

Paris, Feb. 16.—A meeting of four thousand persons, presided over by Baron Constant d'Estournelles and supported by many prominent men, was held yesterday in connection with the Macedonian situation. A resolution was adopted calling on the Government to work energetically to promote the enforcement of the Berlin treaty and to put an end to Turkish misrule in Macedonia.

Reform Demands Pruned.

Vienna, Feb. 16.—The rumor to the effect that owing to the difficulty of obtaining the consent of the other powers or for other reasons, the Austro-Russian demands of reforms in Macedonian have been greatly attenuated since Count Lamsdorff drafted them, was practically confirmed last night by the official Fremdenblatt, which states that the demands are carefully framed so as not to overstep the limits prescribed by respect for the Sultan's suzerain rights, and that being confined to comparatively modest bounds, they are more likely to attain the desired end than if they were more pretentious. They will not, however, says the official organ, succeed if Macedonia is made the theatre of a guerrilla war.

It is regarded here as certain that these half reforms will not satisfy the Macedonian revolutionary party, which demands complete autonomy.

Armed Intervention.

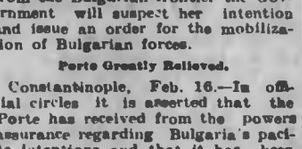
London, Feb. 16.—The correspondent of The Daily Mail at Vienna says he learns that Austria has mobilized two army corps and has concentrated an extra 40,000 men on the Balkan border. Militaty men, adds the correspondent, believe that an armed intervention is inevitable. Field Marshal Rheinlander will command the force.

Albanians Against Reforms.

Vienna, Feb. 16.—A despatch to The Neue Freie Presse from Belgrade says: "Three thousand Albanians, after meeting to protest against the introduction of reforms, marched upon and occupied the town of Ipek, Turkey, which is now completely isolated.

"It is said that the Albanians intend proceeding to Mitrovitza to expel the Russian Consul there."

Dr. Wood's



Norway Pine Syrup

Cures Coughs, Colds, Bronchitis, Hoarseness, Croup, Asthma, Pain or Tightness in the Chest, Etc.

It stops that tickling in the throat, is pleasant to take and soothing and healing to the lungs. Mr. H. Bishop Brand, the well-known Galt gardener, writes:—I had a very severe attack of sore throat and tightness in the chest. Some times when I wanted to cough and could not I would almost choke to death. My wife got me a bottle of DR. WOOD'S NORWAY PINE SYRUP, and to my surprise I found quickly relief. I would not be without it if it cost $1.00 a bottle, and I can recommend it to everyone bothered with a cough or cold.

Price 25 Cents.

A BRUTAL ASSAULT.

Foul Shaver of Seaforth Assaulted—Alleged Assailant Arrested.

Seaforth, Feb. 16.—A most unprovoked and brutal assault was committed upon Paul Shaver of this town while on his way home about 8 o'clock Saturday night by a young man supposed to be Jack Maxwell of Goderich. Shaver was struck by his assailant over the eye and beaten with a piece of board, rendering him unconscious. His nose was broken, and he will lose the sight of the eye. Maxwell was arrested at the Grip House two hours after the assault.

BROKE OUT AGAIN.

Woman Who Whipped Topeka's Mayor Threatens Carrie Nation.

Topeka, Kan., Feb. 16.—Miss Blanche Boies, who distinguished herself last year by publicly horsewhipping Mayor Parker of Topeka, made another raid at 6 o'clock yesterday morning. She broke the glass fronts of seven saloons before the police arrested her. When arrested she threw her axe over her shoulder in true woodman style and marched to the police station.

Jury Failed to Agree.

Indianapolis, Ind., Feb. 16.—After being out forty-eight hours, the jury in the case of Dr. J. C. Alexander failed to reach an agreement, and was discharged at 10 o'clock yesterday morning. On the final ballots the vote stood eight for acquittal and four for conviction. The attorneys for the State have not decided what they will do.

The Dread of an Operation

Stares Many Pile Sufferers in the Face—The Safest and Surest Cure is

Dr. Chase's Ointment.

Possibly you are a sufferer from piles and have been disheartened and discouraged because your physician has told you that nothing short of an operation will cure you.

You dread the thought of a surgical operation, for, besides the expense and strain on the nervous system, there is the risk of life itself. It is only a few months since a member of the Ontario Legislature lost his life as the result of an operation for piles. The risk of an operation is too great, and, besides, it is unnecessary.

Dr. Chase's Ointment has frequently cured piles after surgical operations have failed. It is every day curing cases which physicians have stated to be incurable by any treatment short of an operation.

If you could read a few of the letters we receive from persons who have been cured of piles by using Dr. Chase's Ointment you would soon be convinced of its wonderful control over this frightfully common disease.

Rev. S. A. Dupray, Methodist minister, Consecon, Prince Edward County, Ont., states:—"I was troubled with itching and bleeding piles for years, and they ultimately attained to a very violent form. Large lumps or abscesses formed so that it was with great difficulty and considerable pain that I was able to stoop. At this severe crisis I purchased a box of Dr. Chase's Ointment, but I had little or no faith in it, as I had tried various remedies before and to no purpose.

"Now, imagine how great and joyous was my surprise to find that just the one box cured me, so that the lumps disappeared and also the external swelling. I feel like a different man to-day, and have not the least doubt that Dr. Chase's Ointment saved me from a very dangerous and painful operation, and many years of suffering. It is with the greatest pleasure and with a thankful heart that I give this testimonial, knowing that Dr. Chase's Ointment has done so much for me. You are at perfect liberty to use this testimonial as you see fit for the benefit of others similiarly afflicted."

Dr. Chase's Ointment 60 cents a box. At all dealers or Edmanson, Bates & Co., Toronto.

A TRAGIC DEATH.

Lorne Millward Killed by a Toronto Trolley on Saturday.

Toronto, Feb. 16. — Another life was crushed out beneath the wheels of the relentless trolley on Saturday afternoon. The victim was Lorne Millward, the three-year-old son of Benjamin Millward of 8 Robinson terrace. The little fellow, with a companion, started to cross Queen street, just west of Bathurst street. They passed safely by a westbound car, only to find themselves in front of eastbound Queen car No. 668. Lorne became confused, and passed, and the next instant was on the fender. He rolled off, and under, and, in a moment, his little life was gone. The body was wedged in beneath the forward truck of the car, and firemen had to be procured to raise the car sufficiently to allow the body to be taken out. An inquest will be held.

Kingston Lawyer Dead.

Kingston, Feb. 16. — Saturday night, while on his way to Queen's University to act as judge in the Queen's v. Varsity debate, Edward H. Smythe, K.C., LL.D., was stricken with heart failure, and died within 10 minutes in the home of Richard Wildrom. He was a clergyman's son, born in 1844, and a Conservative candidate on several occasions for legislative honors.

Dodd's Kidney Pills are the only medicine that will cure Diabetes. Like Bright's Disease this disease was incurable until Dodd's Kidney Pills cured it. Doctors themselves confess that without Dodd's Kidney Pills they are powerless against Diabetes. Dodd's Kidney Pills are the first medicine that ever cured Diabetes. Imitations—box, name and pill, are advertised to do so, but the medicine that *does* cure

Diabetes

is Dodd's Kidney Pills. Dodd's Kidney Pills are fifty cents a box at all druggists.

DEED OF UNKNOWN ASSASSIN.

Antoine Seguin, Former Mayor of St. Eustache, Slain.

St. Eustache, Que., Feb. 16.—Antoine Seguin, for twenty-three years Mayor of this town, and for a longer period a justice of the peace, was slain in a cowardly manner on Thursday by an unknown assassin, who lay in wait for his aged victim to enter his barn.

Mayor Seguin had returned from the Liberal convention at Two Mountains, and being an extensive hay dealer he went to his barn to see that everything was all right. This was about 4 o'clock in the afternoon. The old man—he was 71 years of age—had just entered the door, when the muzzle of a 12-bore shot-gun was thrust in his face and discharged.

The whole charge of shot struck him on the side of the face, and literally tore the head from the body.

It appears that Seguin, although much respected, had made enemies in municipal matters.

A SWINDLER'S SUICIDE.

Got $450 From a Victim, But He Lost His Nerve.

St. John, N. B., Feb. 16.—Paul Grey, palmist and clairvoyant, Regent street, West London, left the city suddenly Saturday evening, taking with him $450, which Victor Dikeman, a draughtsman in the McAvity & Sons' brass foundry here says he was bunco'ed out of by Grey. Dikeman informed the police and telegrams were sent to Vancebore to arrest Grey.

The reply came through Saturday night, that he was caught and yesterday morning another telegram was received, which stated that he committed suicide by cutting his throat. Grey came here in December and has been doing a big business.

WAY OF TRANSGRESSOR.

Former Mayor of Minneapolis Arrested in Hancock, N.H.

Hancock, N. H., Feb. 16.—Broken in spirit, a physical wreck and changed probably beyond recognition, Dr. Albert Alonzo Ames, formerly Mayor of Minneapolis, who is wanted in that city on an indictment for attempted bribery, was discovered yesterday in the home of a local minister and placed under arrest by Sheriff Doane of Manchester. So pitiful was his condition that he was not locked up but left in charge of a deputy to await the arrival of officers from Minneapolis.

ENEMY TO MOSQUITOS.

German Scientist Discovers an Insect Long Sought.

Berlin, Feb. 16.—Dr. Dempwolff, who succeeded Prof. Koch as the head of the German anti-malaria expedition to New Guinea, announces that he has discovered an aquatic insect which destroyes the anopheles mosquito. He proposes to cultivate the creature artificially in hope of exterminating the mosquito, thereby exterminating malaria.

Burned in His Cabin.

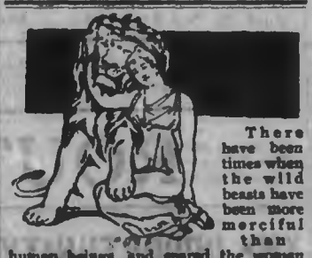
Westport, Conn., Feb. 16.—Capt. Samuel Greenwood, whose home was in Rochester, N. Y., lost his life in his cabin on the steam canalboat J. L. Hyde, yesterday while asleep. The boat was tied to the wharf of Hubbell & Bradley Co. An overheated stove caused a fire which partly destroyed the boat. The firemen who were summoned to fight the flames found the body of the captain. Although it was partly burned, it is believed that death was due to suffocation. Capt. Greenwood leaves a widow and two children in Rochester, N. Y.

Dr. Temple's Will.

London, Feb. 16.—The estate of the late Dr. Frederick Temple, Archbishop of Canterbury, who died on Dec. 23, has been valued at £18,262 8s. 10d., including net personalty of £16,838 8s. 2d. Mrs. Beatrice Blanche Temple, the testator's widow, is also executrix, and to her Dr. Temple left all his property.

Macpherson's Majority Is 237.

Vancouver, Feb. 16.—Full returns from Burrard give Macpherson a majority of 237.



There have been times when the wild beasts have been more merciful than human beings, and spared the woman cast to them in the arena. It is astonishing how little sympathy women have for women. In the home the mistress sees the maid with the signs of suffering she recognizes so well, but she does not lighten the sick girl's load by a touch of her finger. In the store the forewoman sees the pallor and exhaustion which mark womanly weakness, but allows nothing for them. It is work or quit.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well, by curing the womanly diseases which undermine the health and sap the strength. "Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"When I first commenced using Dr. Pierce's medicines," writes Mrs. George A. Strong, of Gansevoort, Saratoga Co., N. Y. "I was suffering from female weakness, a disagreeable drain, bearing-down pains, weak and tired feeling all the time. I dragged around in that way for two years, then I began taking your medicine. After taking the first bottle I began to feel better. I took four bottles of Dr. Pierce's Favorite Prescription, two of 'Golden Medical Discovery,' one vial of the 'Pleasant Pellets,' also used one bottle of Dr. Sage's Catarrh Remedy. Now I feel like a new person. I can't thank you enough for your kind advice and the good your medicine has done me."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

Was Very Weak and Nervous.

Heart Palpitated—
Would Get Many Spells—
Many Canadian Women Troubled in this Way—
Are You One of Them?—
Men, You Can Be Cured!

MILBURN'S HEART AND NERVE PILLS WILL DO IT.

Mrs. Denis Hogan, Hamilcan, Ont., writes:—During the year 1901 I was troubled very much with palpitation of the heart, followed by a fluttering sensation and great pain. I would get dizzy, and was very weak and nervous. Being advised to try MILBURN'S HEART AND NERVE PILLS, I procured three boxes, and since taking them I have not had a bad spell, and feel better than I have for years.

Price 50c. per box, or 3 for $1.25; all dealers or The T. Milburn Co., Limited, Toronto, Ont.

MARKET REPORTS.

Increases All Round in Visible Supply of Grain — Fluctuations Are Within Narrow Limits—Quotations.

Monday Evening, Feb. 16.

Liverpool wheat futures closed unchanged to ¼d lower to-day than on Saturday, and corn future ¼d lower.

At Paris, wheat futures advanced 10 centimes, and flour futures 15 centimes.

At Chicago, May wheat closed ⅛c higher than Saturday; May corn ⅛c higher, and May oats ⅛c lower.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has increased 561,000 bushels; corn increased 960,000 bushels; oats increased 418,000 bushels. Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week of last year:

	Feb. 16, '03	Feb. 9, '03	Feb. 15, '02
Wheat, bu.	48,970,000	48,429,000	55,406,000
Corn, bu	10,490,000	9,510,000	11,122,000
Oats, bu	5,143,000	4,725,000	4,209,000

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 7,617,000 bushels, against 74,980,000 bushels a week ago, and 97,116,000 bushels a year ago.

CATTLE MARKETS.

Cables Steady—Montreal Active, But Prices Easy.

London, Feb. 16.—Live cattle steady at 11½c to 13½c per lb. for American steers, dressed weight; Canadian steers, 11c to 13½c per lb.; refrigerator beef, 8½c to 9½c per lb. Sheep steady, at 13½c to 15c, dressed weight.

MONTREAL LIVE STOCK.

Montreal, Feb. 16.—There were about 650 head of butchers' cattle, 40 calves and 15 sheep and lambs offered for sale at the East End Abattoir to-day. The butchers were out strong and trade was brisk, with lower prices prevailing than were paid last week. Prime beeves were more plentiful than on any market day during the past six weeks, and they sold at from 5c to 5¼c per lb.; medium beasts at from 3¾c to 4¾c, and the common stock at from 2¾c to 3¼c per lb. Calves sold at from $2.50 to $12 each, or from 4c to 5½c per lb. Sheep sold at from 5¼c to 5¾c, and lambs at from 4½c to 4¾c per lb. Fat hogs sold at from 6c to 6¼c per lb., weighed off the cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, Feb. 16.—Cattle—Receipts, 5000 head; butchers' grades, steady; others slow; prime steers, $5 to $5.25; shipping, do., $4.60 to $4.80; butchers' do., $4 to $4.35; cows, $2.75 to $4; heifers, $3.25 to $4.50; bulls, $2.75 to $4.25; feeders, $3.75 to $4.10; stockers, $3 to $4; stock heifers, $2.50 to $3.25; fresh cows and springers, strong; good to choice, $50 to $60; medium to good, $35 to $43; common, $25 to $30. Veals—Receipts, 600 head; 50c higher; tops, $9.50 to $10; common to good, $5.50 to $9.25.

Hogs—Receipts, 15,600 head; active; pigs, 10c to 15c higher, others 5c to 10c; heavy, $3.75 to $7.40; medium, $7.20 to $7.35; yorkers, $7.20 to $7.35; pigs, $7.40 to $7.45; roughs, $5.25 to $6.50; stags, $5.25 to $5.75.

Sheep and lambs—Receipts, 24,000 head; sheep, lambs, 15c to 25c higher; top lambs, $6.50 to $6.60; culls to good, $4.25 to $6.75; yearlings, $5.25 to $6.75; cows, $4.00 to $4.75; sheep, top mixed, $4.75 to $5; culls to good, $2.50 to $4.00.

NEW YORK LIVE STOCK.

New York, Feb. 16.—Beeves—Receipts, 3377; steers, steady to shade lower; bulls and cows, steady; steers, $4.35 to $5.30; fat oxen and stags, $4.75; bulls, $2.75 to $4.30; cows, $1.35 to $4; fat heifers, $4.50; exports to-morrow, 180 beeves. Calves—Receipts, 1772; veals, about steady; little calves, easier; barnyard and western calves, steady; veals, $5 to $6.75; little calves, $3.50 to $4.50; barnyard calves, $3.25 to $4; westerns, $4.10. Sheep and lambs—Receipts, 10,233; sheep, steady; lambs, steady to strong; sheep, $3.25 to $5.25; culls, $3; lambs, $5.60 to $7; culls, $5. Hogs—Receipts, 6204; market 10c to 15c higher; State hogs, $7.35 to $7.40; choice light, $7.50; western hogs, nominal.

CHICAGO LIVE STOCK.

Chicago, Feb. 16.—Cattle—Receipts, 27,000; about steady; good to prime steers, $4.40 to $5.40; poor to medium, $3 to $4.25; stockers and feeders, $2.90 to $4.50; cows, $1.40 to $4.20; heifers, $2 to $4.50; canners, $1.40 to $2.80; bulls, $2 to $4; calves, $3.25 to $8; Texas-fed steers, $3.50 to $4.25.

Hogs—Receipts to-day, 35,000; to-morrow, 35,000; left over, 6000; strong to 10c higher; mixed and butchers, $6.75 to $7.15; good to choice heavy, $7.10 to $7.25; rough heavy, $6.85 to $7.05; light, $6.45 to $6.90; bulk of sales, $6.75 to $7.10.

Sheep and lambs—Receipts, 20,000; steady to higher; good to choice wethers, $4.75 to $5.50; fair to choice mixed, $3.50 to $4.75; native lambs, $4.75 to $6.75; western lambs, $4.75 to $6.60.

People With Bad Breath.

Generally suffer from catarrh and should use Catarrhozone Inhaler four times daily, and be cured. The pleasant scented Catarrhozone vapour spread through every air passage of the breathing organs, and reaches the very root of the disease at once. It kills the germs, purifies and cleanses the mucous surfaces and eradicates every vestige of catarrh in a short time.

Pure, sweet breath, free from headache, sneezing and discharge are quickly deprived from the use of Catarrhozone Inhaler. Complete outfit, guaranteed to cure, costs $1. Trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills stimulate the Liver.

Death Was Accidental.

Toronto, Feb. 17.—Coroner Aikens and a jury yesterday investigated the death of little Lorne Millward, who was killed by a trolley on Saturday afternoon. The verdict returned was "accidental death," the motorman, H. Maywood, being relieved of any responsibility. It was recommended, however, that the proper authorities look into the equipment of motor cars, more particularly into the matter of brakes. Motorman Maywood said that his car was not fitted with a friction brake.

Forsook All and Followed Her.

Winnipeg, Feb. 17. — Rev. H. L. Watts, formerly a prominent Anglican clergyman in the west, and first rector of St. Mary's parish, Virden, Man., becoming enamored of a pretty New York actress, has deserted wife, family and calling and will go on the stage. He stated that he will seek a divorce from his wife.

On the Reserve.

Ottawa, Feb. 17. — Col. Sam Hughes of the Victoria Regiment has been placed on the reserve list.

A GUARANTEED CURE For all Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys.

"Money cheerfully returned if the sufferer is not relieved and improved after the use of one bottle. Three to six bottles effect astonishing cures. If not relieved and cured, you waste no money."

Ormond and Walsh, druggists, Peterborough, Ont.

Immigrants From Minnesota.

Winnipeg, Feb. 17.—The first immigration excursion from Minnesota is advertised for Tuesday, March 15. Large numbers of intending settlers have signified their intentions of coming in on these excursions.

Miss Anthony Is 83.

Rochester, N. Y., Feb. 17.—The 83rd birthday of Susan B. Anthony, Feb. 15, was appropriately celebrated at her home yesterday.

Strathcona to Preside.

London, Feb. 17. — Lord Strathcona presides at the Canada Club dinner on March 4.

SINFUL HABITS IN YOUTH

MAKE NERVOUS, WEAK, DISEASED MEN.

THE RESULT of ignorance and folly in youth, overexertion of mind and body induced by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age, as the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life—the farm, the office, the workshop, the pulpit, the trades and the professions. Nervous Debility and Sexual Weakness are guaranteed cured by our New Method Treatment or No Pay. You run no risk. 25 years in Detroit. Bank security.

CURED WHEN ALL ELSE FAILED. No names used without written consent.

"I am 29 years of age and married. When young I led a gay life. Early indiscretions and later excesses made trouble for me. I became weak and nervous. My kidneys became affected and I feared Bright's Disease. Married Life was unsatisfactory and my home unhappy. I tried everything—all failed till I took treatment from Drs. Kennedy & Kergan. Their New Method built me up mentally, physically and sexually. I feel and act like a man in every respect. They treated me six years ago. They are honest, skilful and responsible financially, so why patronize Quacks and Fakers when you can be cured by reliable doctors."—W. A. Belton.

CURES GUARANTEED OR NO PAY. Consultation Free—Books Free—Question Blank Free for Home Treatment.

The following despatches have been received by E. M. Poussett & Co.:—

New York, Feb. 17.—Governors stock exchange meeting at noon to vote on unanimous resolution of to close stock exchange from Friday until Tuesday morning. General expectation is that it will close. Sub-treasury shows banks lost since Friday $387,000. Stock market very narrow but tone is firm. About 75 p.c. of business been in A.C.P., Smelters, B.R.T., M.R., Wab. and M.O.P. Very little outside business and London not a factor. There is little pressure to sell. No news on tractions except that buying put down to the newly formed local and Philadelphia pools. Talk on copper is that there is a great improvement in copper trade. Foreign exchange firm, but quiet. Demand sterling 487, 50 to 60. Paris exchange on London 25 francs 15 centimes.

Grain; car lots wheat 83, corn 856, Oats 177. Liverpool, 12.30 p.m.—Wheat, unchanged, 1-8 penny higher. Grain steady with trade moderately active. There is some fairc ommon house business on steady cables. Provisions are strong with strength hogs at yards which are closing about 15 cents higher.

New York, Feb. 17.—Market strong all morning but buying largely confined to manipulators. Considering volume of business we think stocks have had rise enough for present and advise taking profits.

Renewed strength in demand sterling up to 487 5-8 has caused revival of talk of Gold exports, but we are unable to learn of even any engagements for this week's steamers. Closing cables report Paris exchange on London 25 francs 15 1-2 centimes. This equals 10 points rise in our exchange rates, so that our advance really offset by Paris fluctuation. Market now very dull and rather inclined to react under pressure from traders.

Bradstreets wheat East of Rockies, Dec. 391,000; Europe and afloat incr. ease 700,000; corn inc. 1,628,000; Oats inc. 492,000.

Grain market dull but steady. The outside trade is conspicuous by its absence.

M. & M.

Messrs. Haight & Freese have received the following:—

New York, Feb. 17.—Buy Erie on any little set back. The industrials will do better. Hold steels and copper. Directors of St. Paul will meet on the 26th. It is still insisted that stock rights will soon be forthcoming. There is bull talk on Manhattan. The failure of the third Rail to work satisfactorily will not interfere with market manipulation of it. Pool in smelters is working assiduously.

JOSEPH.

Fear of the Future.

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 202 Colborne street, Kingston, was in a bad state from kidney disease. She had severe pains in her back and legs, was gradually losing flesh, and had a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine so reliable, none so certain to produce a thorough cure. One pill a dose. 25 cents a box.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

HOLD YOUR ORDERS!
A DROP IN COAL!

Having received a message on Tuesday from Buffalo, will sell on arrival of coal here, Egg, Stove and Nut, at $3.50 per ton. Small nut $7.00. Also remember our Mixed Wood, Tamarac, Hardwood Limbs, at $4.00 per cord. Also in stock, first class long and short hardwood, which will be sold at lowest prices. Wood cut and split as desired.—J. E. A. FITZGERALD.

THE DOMINION OIL CO., LTD.

Chartered Under the Laws of Ontario,

PAID-UP CAPITAL, - - - - - - - $850,000

Has pleasure in announcing that the Directors have, **without cost to the shareholders, and without drawing a dollar from the rapidly accumulating treasury funds,** secured to the Company **300** acres of oil leases, situated in the Wheatley district, twenty-four miles south-west of the Company's holdings in the Raleigh Oil Fields, and adjoining the several wells recently drilled and operated by the Union Gas & Oil Co. The Directors consider this a very valuable acquisition for the Company, the property having been acquired by them upwards of a year ago for personal development. The contracts are now being made for active development upon this property.

The Gard Gusher is steadily producing about 100 barrels of oil per day, and the President states: "I have every reason to expect, as soon as we can make improvements by the installation of an air compressor, that the production will be increased to from **200** to **300** barrels per day."

Owing to the Courtesy of the Standard Oil Co. having, without expense to the Dominion Oil Co., Limited, installed a pipe line from the Gard Gusher, the Company possesses exceptional facilities for marketing this product, which is bringing **THE HIGHEST PRICE OF ANY OIL ON THE NORTH AMERICAN CONTINENT.**

A limited amount of the Treasury Stock is procurable by public subscription for a short time only at

35c PER SHARE

(par value $1.00, full-paid and non-assessable), the proceeds being devoted to the immediate development of the properties.

A monthly dividend of ONE PER CENT upon par, equalling the rate of about THIRTY-SIX PER CENT per annum on the investment at the current price, will be paid MARCH 1ST to all shareholders of record SATURDAY, FEB. 21ST, at which date the books close.

Address all inquiries for full information regarding this very profitable investment and make all checks, drafts and orders payable to the

COLONIAL SECURITIES CO., Fiscal Agents,
Manning Chambers, Toronto.

TRENT VALLEY WATERWAY.

(Continued from page 5.)

Mr. Dickey, of Trenton, spoke in connection with the completion of the Canal, as a means of developing electrical power. When fully developed he believed it would furnish nearly as large a supply as Niagara. The adoption of the Port Hope terminus would mean the construction of costly breakwaters, and then we should not have a sheltered route such as we would have by way of Trenton. Mr. Dickey spoke of an eighteen foot boat having made the voyage in perfect safety from Trenton to Quebec over the same route Trent Canal barges would take from Trenton to the seaboard. He thought it was high time the people interested impressed the fact upon the Government that they were in earnest; that our demand was a bona fide one.

Mayor Roger said that the importation of the political element into the question had been an unfortunate matter. It was time that such considerations should be laid aside and the real merits of the matter be presented. He pointed out that we had local industries that would give paying freight in large quantities, not to speak of the carrying traffic the North-west would develop. These considerations and expenditure already made upon the completed sections furnished an unquestionable warrant for carrying on the work on its merits and not as a political expedient. Mayor Roger mentioned what the press might do in stimulating interest in the work and provide information as to making its merit known.

Mr. Stratton pointed out that the Association had done a great deal in this direction and had distributed large quantities of literature in advocating the Trent Canal.

AS A POWER DEVELOPER.

Mr. Dumble referred to the important results accruing from the Canal in the way of power development. The development of only one power in Peterborough had brought 6,000 horse-power into existence, and a great industry was established using 13 million bushels per year and creating a great local market for grains. The establishment referred to would never have located here except for the advantages expected to be derived from the completion of the Trent Valley Canal. The development of the next dam up the river had resulted in providing power for its own uses, for another large industry which was giving employment to 800 hands, and it was independent of the supply of coal. The next dam up the river was supplying power to a large local industry, and the next dam was used in the interests of the Lakefield Cement Works. The development mentioned had responded instantly to the construction of the canal, and there were greater chances in the Trenton section for water power, and the whole banks of this section might in time be lined with thriving industries.

Mr. W. H. Meldrum pointed out that

AS A MERE INVESTMENT,

the construction of the canal would pay the Government, which would get enough revenue from rentals to pay the interest on the cost of the dams. Montreal had brought in electric power from long distances (about 90 miles) and at a reasonable rate, and the result had been to cut prices of gas for fuel and light in two. Improvements in electrical appliances had made it possible to use electricity for heating purposes, and it could be supplied at a cheaper rate than gas. He insisted that the construction of the canal would pay the Government as an investment, apart from considerations of the canal as a transportation medium of national importance.

Mr. J. H. McClellan was inclined to question the wisdom of the change of the resolution referring to the completion of the lower section first. The Cereal Works and the flouring mills counted upon getting grain supplies by way of Georgian Bay, and it seemed to him that it was most important to complete the northern sections first. We in Peterborough were anxious to see both ends completed. The Minister of Militia was credited with saying that it was possibly the canal was not finished, as Peterborough was a good point for a depot of military stores. Now was a good time to push on the work and bring pressure to bear.

In answer to a question of the president, Mr. R. B. Rogers said if both of the uncompleted ends were placed under contract the annual expenditure would be only about $600,000 per year.

Mr. Young, of Trenton, remarked that the Trenton section was capable, if the canal were built, of developing 75,000 horse power.

Mr. S. J. Fox, M.P.P., remarked that the section from Balsam Lake to Lake Simcoe, was under contract. The feeling of the people was that no matter what Government was in power, work on the canal must be pushed.

Mr. Ferguson, Warden of Northumberland and Durham, believed that the work should be expedited, and that all possible pressure should be brought to bear.

Mr. Wm. Anderson, M.P.P., said the Government having spent so much money that is has was unless further work is done, should be urged to complete the canal. He thought there should be a combination of all interests to urge upon the Government the necessity of further work on the canal.

AS A FREIGHT CHEAPENER.

Mr. J. M. Kilbourne said there was dense ignorance and indifference in regard to the canal among the people of Montreal and Toronto. He related an incident to show that intelligent men were both ignorant of, and prejudiced against, the canal. Montreal, which would be so great a gainer, was indifferent, and the Western members were uninformed in the matter. Our duty was to educate the Members of Parliament. We all realised the importance of the canal in the matter of power, and its influence in the matter of freights was also important. He pointed out that the cement works at Lakefield would be great gainers in the saving of freight on the 90 tons of coal per day used, and also on the cement shipped out. The saving on these two items meant $16,000 per year to the works, and if the canal would result in the saving of expense in making cement, the cost of the canal would be recouped to the people in the shape of lower prices for cement. Therefore the Government should not hesitate, when in addition to these advantages the national importance of the work was borne in mind. If the canal was to be completed at all now was the time to do it.

Mr. Meldrum returned to the question of the investment feature of the work. Mr. Young had said that the Trent section would develop 75,000 horse power. At $2 per horse power, the rental charged by the Government, that would amount to $150,000 per year, the interest on five million dollars of capital. The building of the canal would be therefore a paying investment.

The resolution was put and unanimously adopted.

Moved by Mayor Roger, seconded by Councillor Dickey, Trenton, that the officers of the association wait upon the Government, and urge the completion of the canal.

After some little discussion as to the necessity of further measures to educate the public as to the importance of the canal, it developed that the association needed funds to carry on an educational propaganda, and Mr. Dumble moved, seconded by Mr. Kilbourne,

That inview of the general agreement in the form of taking steps for a fresh meeting to secure the early completion of the Trent Valley Waterway, to that end the municipalities along the route be solicited to again make contributions to the funds of the Association.

Mr. Boyd, of Bobcaygeon, mentioned the fact that Mr. Rogers, Superintending Engineer of the canal, had prepared an admirable lecture on the canal, with stereopticon illustrations, which he had delivered at McGill College, Montreal. It would be a good thing to have that lecture repeated before the Board of Trade of Montreal.

Mr. Dumble spoke very highly of this lecture, which had been delivered in Peterborough.

Mr. McClellan said that he was in Montreal at the time Mr. Rogers had delivered his lecture, and from remarks he had heard he was sure it had had an excellent effect.

The meeting adjourned.

Australian Coon	"	25%
Otter Skins,	"	10%
Opposum Skins,	"	15%
Marten Skins,	"	12%

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

Just Like a "Run on the Bank"

THE RUSH OF SHOPPERS TO

Fair's Fire Sale

The way people have been crowding to our Big Fire Sale is like the proverbial "Run on the Bank." It is beyond a doubt the greatest selling event in the dry goods history of Peterborough.

Hundreds of people are sharing in the Bargains, and hundreds were unable to be waited on. Self-interest is the active incentive that bring the crowds of buyers. People respond, because they know that every fact will be verified according as advertised.

In some instances we save you a HALF—even more in others—but the average saving is fully a HALF!

Some Lines of WASH GOODS originally sold at 30c, selling now for only 10c
(It equivalent to selling a 10c package of Quaker Oats for 3c.)

CORSETS worth $1.00, $1.35, $1.50 and $2.00, selling now for only 50c

The well-known high character of the Golden Lion's Goods make the Bargains all the more genuine.

Big returns for money invested await shoppers, and rich rewards to those who come to buy any of the following:—

Dress Goods	Wash Goods
Silks	Prints
Stuffs	Gloves
Underwear	Corsets
Table Linen	Hosiery
Towelling	Underwear
Sheeting	Neckwear
Millinery	Laces
Suits	Skirts
Carpets	Linoleums
Rugs, squares, etc.	

Nearly all the stock is in such perfect condition that buyers say we are not offering the damaged Goods.

No Goods exchanged or allowed out on approbation during this Sale.

Store opens at 9 o'clock and closes at 5. Extra salespeople have been engaged to wait on the crowds that throng our store.

During this sale all cash discounts will be suspended.

Schneider,

JEWELER and OPTICIAN

LEGISLATURE IS CALLED,

The House Will Meet on March 10.

A Late Session—Political Situation is now Clear—No Startling Legislation Expected.

The Legislature has been called to meet on the 10th of March. The announcement, though long delayed, will not be unexpected, as the time has already passed when the House is usually in session. The uncertainty of the political situation for the past few months, has no doubt, led to the lateness of the session. As it now stands, the Government will meet the representatives of the people with a working majority, and should both North York and Centre Bruce return Liberal members on the 26th inst., the Government's hands will be still further strengthened. In any case, the causes of embarrassment which existed previously, will have vanished, and a session marked by less political bitterness than would otherwise have been the case, may be expected.

So far no hint has been given of any legislation likely to be of great moment, unless it be the amendments to the Liquor Act, which have been promised, and possibly wider privileges to municipalities with reference to the development of power. Some amendments are expected in the act respecting the Temiskaming & Northern Ontario Railway, rendered necessary in the working out of the plans. Beyond this, the programme of any important Government legislation has not been divulged. With the House meeting so late, it is improbable that prorogation will be reached before the second or third week in May, unless the rural members become impatient and demand to be released for their spring work.

All Day Long

From one end of the store to the other—upstairs — downstairs — a C-O-N-T-I-N-U-A-L crowd, and why? Because the inducements are here. Every department contributes some extraordinary Bargains during this Ten Days' Sale. Never before have we offered bigger reductions—never before more desirable lines. Quantities large enough to last the ten days (not all lines, but many lines.) The inducements are strong, and the crowds must continue.

J. SUTCLIFFE & SONS.

P.S.—We will have to ask the kind indulgence of those whose parcels were not delivered as quickly as we should have liked. Notwithstanding the extra delivery force, we have been compelled to disappoint some.—J. S. & S.

THE COUNCIL'S SPECIAL MEETING.

The Beet Sugar Company's Proposition.

WILL TOWN TAKE STOCK?

The Matter to be Fully Considered by the Town Council—Mr. Garvin Explained the Position of the Company.

A special meeting of the Town Council took place last night in the Council Chamber for the purpose of discussing the propositions of the promoters of the Sugar Beet Company. There were present,—Mayor Roger, chairman; Aldermen Corkery, Clinkscale, McWilliams, Morrison, Shortly, Edgecombe and Best.

The minutes of the last meeting were taken as being read and were confirmed.

COMMUNICATIONS.

The Town Clerk read the following correspondence received by him:—

From Mr. E. Hall, Town Solicitor, re the approval of the Lt. Govenor of bylaw No. 1010.—Received.

From W. H. Meldrum, Managing Director Otonabee Power Company, asking for a change in the agreement made with the Peterborough Town Council, re the supply of light and power to their citizens.—The letter was received.

From S. B. Armstrong, Secretary-Treasurer of the Trent Valley Waterway Association, asking the Peterborough Town Council to join in making an effort for the completion of the incompleted sections of the Trent Valley Waterway.—On motion Mr. Armstrong was instructed to convey the assent of the Council to the request.

From W. J. Green, Tax Collector, asking the Council to remit him the Statute Labour Tax.—Referred to the Court of Revision.

From Mr. S. B. Armstrong, Secretary local Board of Health, requesting that the Town Council have the sewers properly flushed once a month, the year round.—Referred to Board of Works.

TOWN BUILDINGS.

Alderman McWilliams said that the Town Buildings were inadequate, and that there was no place for committee meetings except in the Town Clerk's office, which fact continually interfered with important business. It was a general source of annoyance that the fire hall was so centrally located and in view of this fact he suggested that this building be converted into a place where council meetings might be held and that another fire hall be built. The speaker moved that the matter be referred to the Property Committee and that they be instructed to look at the matter in this light, and then state the figure at which the necessary accommodation could be obtained.

This motion was carried.

BEET SUGAR DEPUTATION.

Mayor Roger then remarked that he had called a special meeting to consider the proposals of the Beet Sugar Co.

It was on motion resolved that the deputation be heard.

The secretary then read the company's proposal, after which Mr. Garvin, on behalf of the company, addressed the meeting.

Mr. J. W. Garvin said that the Cereal Works had had exemption from taxes for forty years, and that a short time back a site for another factory in town was given. In Berlin, said Mr. Garvin, there was a beet sugar factory, such as has been offered to Peterborough, and that city had given the factory a bonus of $25,000, a free site, and exemption from taxes for ten years. Promoters at home ought to receive as fair treatment as outsiders. He said the projected beet sugar factory would be of vital interest to the community. The amount of $165,000 worth of stock was available for local subscription, and $25,000 worth of bonds, and $25,000 worth of stock would be given for the $50,000 asked for from the town. The employees would be well paid, and the company would have no difficulty in paying five per cent. on their bonds. Other factories had realised dividends amounting to more than ten per cent. If the stock paid ten per cent the town would make $350 per annum. The industry, Mr. Garvin said, had been established more than a century ago in Germany and France, these two countries having a total of more than 300 factories. Last year four new factories had been built in Michigan, in addition to the seventeen built during the preceding years. This showed that the industry must be a success. Sugar, like water, was necessary, and must be had, and being a staple article it would take 400 factories to supply Canada and the United States, while in reality there are only 40 in existence. Every farmer who grows beets for the factories is hopeful of its success. In fifty years time the population of Canada would be augmented some thirty or forty per cent, and consequently the consumption of sugar would also greatly increase. The company did not ask for total exemption of taxes, but for a moderate reduction and he hoped the council would see their way to thinking favourably of this proposition.

Mr. A. P. Poussette said that in the years 1899 to 1900 the increase of consumption of beet sugar, over the previous year was 47 per cent. In the course of his remarks Mr. Poussette said that the industry would never languish, the quantity consumed would increase with the population. In this district where land is being obtained for the growth of the beets there was practically no chance of a failure of crops, and no other crop was ever so successful as the sugar beet crop, for beets are sure to grow no matter what the weather, and he concluded by saying that he could support the proposition with pleasure as it was to the ultimate good of the town.

Mr. T. H. Stewart said it was proposed that a member of the council would be on the Board of Directors of the Company.

Alderman Morrison said he was able to get some American statistics, and that he found the average beets per acre in 1901-2 was 10 tons, equivalent to $60 per acre. Germany was the great exporter of beet sugar. The reason for the success of the Germans in this respect was because they were able to get large profits, by paying the men low wages. From three factories in Nebraska the figures obtained showed a total profit amounting to 20 per cent. on the investment. He said further that the success of the industry depended on the farmer, but that if they would grow beets year after year there was no reason why a factory should not be a complete success. After reference to the borrowing powers of the town, limited to $80,000, and its debenture obligations, the speaker pointed out that there was the questions of the town building a Collegiate Institute, of municipal improvements, of improvements to town buildings and perhaps their enlargement. He did not think, in view of these questions, that this town could go to the Legislature and ask to extend its borrowing powers. Several concerns had approached the council last year—one wanted to borrow $25,000 to build a factory for the purpose of manufacturing steel bath tub works—this of course was refused. Another wanted a straight bonus of $5,000 and a free site and further favours. The whole question must be considered. He believed the investment was good, but he did not think the town would do right to launch out into this venture.

Mr. Edgecombe said that the sugar beet industry would pay well if the farmers would grow the beets. These men should be canvassed and it should be found out what they are willing to do. Mr. Edgecombe then gave an instance of a factory which had been built in Michigan, but the farmers did not raise the beets and the factory never made a pound of sugar, and was pulled down soon afterwards. The first thing to be done was to canvass the farmers and from them find out whether they think the industry will be successful and whether they will grow the beets.

Mr. Bradburn said that at the present time there were 19 canvassers out, and they had already met with good success.

Mr. Gerrie said that if town small syndicates had been formed to purchase land, for the sole purpose of growing beets for the projected factory. He expected that 3,000 acres would supply a sufficient amount of beets for the factory the first year.

Mr. Bradburn said that the company would employ men in the winter months. He thought that hired men on farms who did not have much work to do in the winter, could engage with the factory during these bleak months, and then return to the farm during the summer.

Mr. Poussette admitted that if, as Alderman Morrison had stated, the town could only borrow $91,000, the amount asked by the company, ($50,000), was a large sum, but he felt certain the company was offering a valuable security. Literature, he said, had been freely circulated among the farmers since last May, and that the outlying country for a space of fifty miles was speedily being canvassed, and special rates for the transportation of beets had been secured from the railways and steamboat companies. The industry, as was shown by the successful factories, was quite secure, and the promoters were all honourable gentlemen of the town, and he was sure the factory would be of invaluable worth to the town.

Mr. McWilliams said that in his opinion a few facts ought to be made clearer to every citizen of the town, and not be only known by those who had taken time and trouble in looking up data. Firstly, looking at the matter as an investment proposition—would it pay at the present protection, or would they require more protection? Then, if the company could show the industry is a secure, paying and reliable one, he would advise the town to assist the company.

Mr. Bradburn said that the Ontario Government had done all in its power to help in the promotion of the beet sugar industry.

Mr. Garvin said that the employees would number about 200 men, working from the first of November until the first of March. If the company were able to secure 60,000 tons of beets they would pay $4 a ton to the farmers the first year, thus paying the farmers a grand total of $240,000. The price would increase year by year, and probably in the second year some $300,000 would be paid out to the farmers, and so on continuously. If no obstacle is placed in the way by the Sugar Trust, the company could pay a good dividend, and the Government would doubtless protect the industry from the Sugar Trust.

Mr. McWilliams asked how soon

(Continued on page 8.)

Perpetual Motion.

When George Stephenson was asked, "Do you believe in perpetual motion?" he replied, "Yes, if you lift yourself by the waist-band of the trousers, and carry yourself three times round the room."

Just so, and a woman would just as soon believe that she has not to pay dearly for common premium soaps, in the low quality of soap, in ruined hands and clothes. She would be kept in perpetual motion trying to do with common soap what she could so easily do with Sunlight Soap—Octagon Bar. 316

The Dry Cough of Bronchitis
The Distressing Asthma Gasps

The chest pains and soreness, the tightness and desperate struggle for breath, with recurring and increased violence, drive many to despair who have not yet learned of the efficiency of

Dr. Chase's Syrup of LINSEED AND TURPENTINE

Bronchitis and Asthma are very similar in nature and frequently go hand in hand They require similar treatment, for in both diseases the distressing symptoms result from contraction and closing up of the bronchial tubes and hence difficult breathing, coughing and expectoration.

Dr. Chase's Syrup of Linseed and Turpentine not only affords prompt relief, which in itself is considered sufficient reason for its use, but actually cures these ailments and prevents their recurrence. This great prescription should not be compared with ordinary cough mixtures, for it is entirely different, acting, as it does on the whole system and entirely overcoming disease.

BRONCHITIS

Or "cold on the chest," as it is known to many, is marked by chest pains and soreness, which become more severe on taking a long breath and are aggravated with coughing. The cough is at first dry and harsh and and there is little expectoration. As the disease continues the cough becomes looser and expectoration more profuse and less painful, being frothy, viscid and often streaked with blood.

Bronchitis is most dreaded because it has a tendency to become chronic and return again and again until the patient becomes worn out or falls an easy prey to consumption or pneumonia. Only the most robust constitutions can throw off bronchitis. Aged people, children and all who are in delicate health or have weak lungs have every reason to fear this ailment.

Because it is mistaken for an ordinary cold bronchitis is too frequently allowed to fasten itself on the system. Just as soon as there is a feeling of tightness in the chest or soreness on taking a long breath you have reason to fear bronchitis and any delay at this point is dangerous to say the least.

ASTHMA

Occurs in paroxysms and usually at night. The patient awakens with a feeling of suffocation; he is unable to lie down, but finds relief in sitting with his elbows on his knees, head thrown back and mouth open. Breath is drawn with the greatest effort and air is expelled from the lungs with a wheezing sound. The face is pale, the skin cool, perspiration is profuse and the countenance exhibits anxiety and distress.

There is considerable coughing with asthma and expectoration of mucus, but this varies according to the amount of accompanying bronchitis. That there is relief and cure for asthma is attested by all who have used Dr. Chase's Syrup of Linseed and Turpentine for this ailment. The great remedy gives relief by clearing the bronchial tubes, making breathing easy and soothing the excited nerves.

Language fails to express the gratitude which asthma sufferers feel for the discoverer of Dr. Chase's Syrup of Linseed and Turpentine when it has freed them from one of the frightful paroxysms, and many state positively that it is a permanent cure as well as a prompt relief.

Be Suspicious of the Substitutor

When you decide that Dr. Chase's Syrup of Linseed and Turpentine will be of benefit to you do not allow your dealer to persuade you to accept something said to be "just as good." No substitute is just as good as the article it is made to take the place of or why should it not sell on its own merits. Any dealer who would substitute another remedy in place of what you ask for would not hesitate to substitute one drug in place of another in the prescription you give him to fill. Insist on seeing the portrait and signature of Dr. A. W. Chase on the bottle you buy. No medicine can have a stronger guarantee. **25c. a bottle, family size, three times as much, 60c., at all dealers or Edmanson, Bates & Co., Toronto.**

PROTECTION OF CHILDREN.

Why our Prisons and Refuges are so Necessary.

How Quickly Neglected Children Respond to Good Influences.

(By J. J. Kelso, Toronto)

Some years ago when visiting a town to assist in organizing a Children's Aid Society a woman came along and offered to sober up and lead a moral life if the movement to form a Society were dropped. She had a little girl and was fully convinced that her profligate life had led to the meeting being called. An almost similar case occurred in a western town where a man who for years had been a bar-room loafer, living on the earnings of a long-suffering wife, went to work and supported his children the next day after a Society was formed. Children who have been begging on the streets day after day for years have suddenly stopped their appeals when the parents have read in the papers of the new Society, and some degree of cleanliness and decency has been introduced into homes that were foul and corrupt before.

To know what the home life has been it is only necessary to hear the language and witness the actions of some of the children when first taken to the Shelter. One boy of six, who knew nothing else, could use the most dreadful profanity with perfect ease, while girls of eight and ten have displayed a familiar knowledge of immorality simply astonishing to the good woman who subsequently took them in hand.

A most surprising thing too, has been the number of children of advanced school age who were unable to read or write, who had never said a prayer, and who had never received any of the ordinary moral instruction which is supposed to be given to all children. These are the children who, grown to manhood and womanhood, make our prisons and refuges so necessary, and if a Children's Aid Society can lay kindly hands on them before it is too late and turn their feet into paths of usefulness and honour surely they are doing a work for the whole community worthy of the highest praise!

But the support given to these societies in the past has been merely words. In no instance does a Children's Aid Society receive adequate support, while in several places the work has had to be given up entirely because sufficient money was not contributed to pay expenses. In one town where a splendid work for neglected children is possible, thousands of dollars have been sent away to heathen lands, while the contributions of the public to the Children's Aid Society totalled $11 for the year, and the secretary had to pay the bills out of his own pocket! There are many good people ready to direct a work of this kind, but if the money is not forthcoming and they cannot support an agent they are apt to grow discouraged and give up altogether, turning their attention to other movements that are more popularly supported. Without a fair amount of money this work cannot be developed, nor its possibilities revealed, and if a few wealthy men would come to the aid of their local Children's Aid Society a beautiful, economical and permanent work for homeless and destitute children would reward their enterprise.

To those who are engaged in the actual work of child-rescue, it is gratifying to observe how quickly neglected children respond to good influences. After a thorough washing, some new clothes, a few smiles and kind words, they throw aside their foul conversation, their lies and their bad habits, and develop a new life with amazing rapidity. The fact is that to the majority of these children a pure and decent life is more congenial than vice and filth, and the failures are in nearly every case among those who have got too old and too settled in their ways to be influenced by kindness and good example.

GOOD NEWS FROM NEW ONTARIO.

W. J. Dixon Cured of Rheumatism by Dodd's Kidney Pills.

He Could Hardly Walk or Sleep, but is now Strong and Hearty Once More.

Barwick, P.O., Rainy River, Feb. 16.—(Special.)—The hardships endured by the settlers of a new country so often brings on Rheumatism that any well authenticated cure is eagerly discussed and carefully investigated in this neighbourhood. For this reason the recent cure of Wm. John Dixon has created a sensation. He was a familiar figure, limping around with his stick, and his cure was so speedy and complete that it is little wonder that people are looking on Dodd's Kidney Pills as something to swear by.

"I had an attack of typhoid fever," Mr. Dixon says in telling his story, and after I got over it and started to work, rheumatism set in. I had pains in my back and in my right hip so bad that I had to use a stick to walk, and I had no comfort in sleeping. I could no more than dress myself for nearly two months, and for three or four months I could not lace my right shoe or put my right leg on my left knee.

A brother of mine advised me to try Dodd's Kidney Pills, and after taking three boxes I began to walk around and do my work and lace up my shoes.

Six boxes cured me completely."

Irish Emigration.

The capacity of Ireland for sending out emigrants has been one of the marvels of the world. During 1901 the island sent out 39,870 emigrants or nine in every 1,000 of population, of whom 80.5 per cent. were between the ages of 15 and 35. Even this large total is some 7,000 smaller than that of 1900.

Unprecedented.

"IS MAN IMMORTAL?"

An Interesting and Instructive Catechism

Taken From Bible Students' Library of Oakland, Cal.—To be Continued.

The Examiner has been asked to publish the following catechism from the Bible Students' Library, on the subject, "Is Man Immortal?"

QUESTIONS ON IMMORTALITY.

1. Who is immortal? Ans. "The King Eternal, immortal, invisible, the only wise God." 1 Tim. 1:17.

2. Are not men created immortal? Ans. God "only hath immortality." 1 Tim. 6:16.

3. Is this immortality revealed by nature? or is it through Jesus Christ and his gospel? Ans. "By the appearing of our Saviour Jesus Christ, who hath abolished death, and hath bought life and immortality to light through the gospel." 2 Tim. 1:10.

4. Who has power to bestow immortality upon man? Ans. "The gift of God is eternal life through Jesus Christ our Lord." Rom. 6:23.

5. God will give this gift to all persons, whatever their works may be? Ans. God "will render to every man according to his deeds." Rom. 2:6.

6. What will be the end of those who obey not the Gospel? Ans. "Whose end is destruction." Phil. 3:19.

7. To whom will God impart immortality? Ans. "To them who by patient continuance in well-doing, seek for glory and honor and immortality." Rom. 2:7.

8. What shall be there reward? Ans. "Eternal life." Rom. 2:7.

9. Upon what conditions may we obtain this blessing? Ans. "Fight the good fight of faith, lay hold on eternal life." 1 Tim. 6:12.

10. When do men obtain immortality? Is it at death or at the resurrection? Ans. "The dead shall be raised incorruptible." 1 Cor. 15:52.

11. How shall those who are not dead become incorruptible? Ans. "We shall be changed." 1 Cor. 15:51.

12. When will this change take place? Ans. "At the last trump." 1 15:52.

13. How suddenly will the change occur? Ans. "In a moment, in the twinkling of an eye, at the last trump." 1 Cor. 15:52.

14. Will this change be a change of the eternal, or of the external and physical, or corruptible, man? Ans. "This corruptible must put on incorruption." 1 Cor. 15:53.

15. What, then, becomes immortal? Ans. "This mortal must put on immortality." 1 Cor. 15:53.

16. What scripture will be fulfilled when this corruptible shall have put on incorruption, and this mortal shall have put on immortality? Ans. "Then shall be brought to pass the saying that is written, Death is swallowed up in victory." 1 Cor. 15:54; Isa. 25:8.

17. Who will be raised from the dead? Ans. "All that are in the graves shall hear his voice and shall come forth." John 5:28,29.

18. Will different classes of characters arise in the resurrection? Ans. "There shall be a resurrection of the dead, both of the just and unjust." Acts 24:15.

19. For what purpose will the good be raised? Ans. "They that have done good, unto the resurrection of life." John 5:29.

20. To what will others be raised? Ans. "They that have done evil, unto the resurrection of damnation." John 5:29.

21. Will a man's destiny at last be in accordance with his previous life? Ans. "Whatsoever a man soweth, that shall he also reap." Gal. 6:7.

22. What will be the portion of the ungodly? Ans. "He that soweth to his flesh shall of the flesh reap corruption" Gal. 6:8.

23. What will be the reward of the saints? Ans. "He that soweth to the Spirit, shall of the Spirit reap life everlasting." Gal. 6:8.

24. Where now is the Christian's life? Ans. "Your life is hid with Christ in God." Col. 3:3.

25. When, then, should we live? Ans. "Let us not be weary in well-doing; for in due season we shall reap, if we faint not." Gal. 6:9.

26. What shall be the fate of those who sow to the flesh? Ans. They "shall utterly perish in their own corruption." 2 Pet. 2:12.

27. Is it possible for man to be utterly destroyed? Ans. "Fear Him which is able to destroy both soul and body in hell." Matt. 10:28.

28. What is the wages of sin? Ans. "The wages of sin is death." Rom. 6:23.

29. Is this death merely a bodily death? Ans. "The soul that sinneth, it shall die." Ezek. 18:20.

30. If the wicked turn away from his wickedness and do right, what then? Ans. "He shall save his soul alive." Esp. 18:27.

31. When a righteous man turneth away from his righteousness, and committeth iniquities, and dieth in them," what shall be his fate? Ans. "For his iniquity that he hath done shall he die." Ezek. 18:24.

32. As he that divorces his iniquity, and then dies for his iniquities, what must this last death be called? Ans. "The second death." Rev. 21:8.

33. What is the result attained by the man who 'covereth a sinner from the error of his ways? Ans. He "shall save a soul from death." James 5:20.

34. What has God placed before us to excite us to action? Ans. "I call Heaven and earth to record this day against you that I have set before you life and death, blessing and cursing." Deut. 30:19.

35. How does God manifest his love to men? Ans. "God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life." John 3:16.

36. What is our Saviour's complaint concerning mankind? Ans. "And ye will not come to me that ye might have life." John 5:40.

37. What is the command of God to all? Ans. "Cast away from you all your transgressions; for I have no pleasure in the death of him that dieth, saith the Lord God; wherefore turn yourselves and live ye." Ezek. 18:31,32.

Coinage of the Victorian Era.

It may be of interest now to note the coinage carried out in the lengthened reign of Queen Victoria. There were three distinct coinages bearing the Queen's effigy executed under the proclamation (a) of July 5 and 18, 1838, (b) of May 13, 1887; and (c) Jan. 30, 1893. Under the first, gold was coined in two denominations to the value of £195,523,073—the silver and copper coinages amounting in nominal value to £21,482,661 and £213,355 respectively. Under the second, gold was coined in four denominations to the value of £40,083,967, and the silver pieces amounted in nominal value to £6,280,326 (an issue of sixpences also taking place to the nominal value of £989,819, under a subsequent separate proclamation of Nov. 28, 1887.) Under the third, gold was coined in four denominations to the value of £55,511,695, the silver pieces struck for issue amounting in nominal value to £11,175,299. In 1860 bronze coins took the place of copper. Of the copper there had been coined a total of £218,555 in nominal value. In addition, a sum of £8,541 in half-farthings had been coined under a proclamation of June 13, 1842, giving a total amount of £221,916 in copper coinage bearing Her Majesty's effigy.

Sheep—Receipts, 12,000; sheep and lambs, strong and higher; good to choice wethers, $5 to $5.75; fair to choice mixed, $3.60 to $4.75; native lambs, $5 to $7.

Upon further reports from the threatening conditions in Honduras, and because American interests there are likely to be endangered, U.S. Secretary Moody Tuesday decided to send Admiral Coghlan's fleet of cruisers, gunboats, now cruising in the Carribean, to the Gulf coast of Honduras.

SILICATE BRICK.

Public notice is given that I have acquired the exclusive right to manufacture and sell, within the Province of Ontario, Silicate Brick, made out of sand lime and other materials, mixed, and treated under the invention and processes of C. Hugo Anderson, for which Letters Patent for Canada were granted on 10th December 1901, under No. 74,661. Companies have been formed at Montreal, Sydney and Ottawa, to operate under this patent. The works at Sydney and Montreal will be turning out brick in February, and at Ottawa in April next.

I am prepared to sell rights under the above patent in Ontario and solicit correspondence.

Any persons infringing these Patents Rights will be prosecuted. Address

D. O'CONNOR, K. C.,
35 Sparks Street, Ottawa.

Dec. 31, 1902.

WILL BUY A DOZEN SHIPS.

Sir William Van Horne Confirms Report re. Elder-Dempster Line.

New York, Feb. 18.—Sir William Van Horne, Chairman of the Board of the Canadian Pacific Railway, arrived yesterday from Havana.

Sir William Van Horne was asked whether it was correct that the Canadian Pacific was negotiating for the North Atlantic fleet of the Elder-Dempster Line. He replied: "I have been away from home for some time, and I do not know whether or not the negotiations have been concluded. I do not know just how far the matter has gone, but we have been negotiating with the line for the purchase of from a dozen to a dozen and a half of their ships for some time. I cannot say just what number we have been figuring on, but it is somewhere between these figures."

THINK IT OVER.

Something You can see in any Restaurant or Cafe.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men at the tables; men whose ages run from 60 to 80 years; many of them bald, and all perhaps gray, but none of them feeble or senile:

Perhaps the spectacle is so common as to have escaped your observation tion or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dilating and an endeavour to live upon bran crackers.

There is a certain class of food cranks who seem to believe that meat coffee, and many other good things are rank poisons, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not do so, and certain foods cause distress one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty because they supply just what every weak stomach lacks, pepsin, hydro-chloric acid, diastase and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus gives a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the travelling public for years have pinned their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages and any druggist from Maine to California, if his opinion were asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

SEVENTEEN DROWNED.

Cyclone Struck the Steamer Olive and Sent Her to Bottom of Chowan River.

Norfolk, Va., Feb. 18.—A cyclone struck the passenger steamer Olive, which plies between Franklin, Va., and Edenton, N.C., at 9.30 o'clock Monday night, and sent her to the bottom of the Chowan River, off Woodley's Pier, Mount Pleasant and Olive's Wharf.

Seventeen people are known to have been drowned, and others who were rescued are in a serious condition.

At 6 o'clock yesterday morning the river steamer Petit hove in sight and rescued the almost frozen survivors.

Boy Shoots Comrade.

Cornwall, Feb. 18.—The ten-year-old son of Norton Yates, a cheesemaker, of Cornwall Centre, was seriously shot Monday by his companion, another youngster, named Runions. It appears Runions had a gun loaded to shoot sparrows, and Yates told him he could not shoot the buttons of his (Yates') coat. The young lad playfully levelled the gun and pulled the trigger. The shot took effect in the side of the boy, and his condition at the present time is very serious.

BERLIN CONFERENCE

Considers the Whole Question of Niagara Falls Power.

GOVERNMENT TO BE ASKED.

To Undertake the Work, and Failing That, to Empower Municipalities to Co-operate and Do It by Means of a Commission—Resolutions Against Granting Further Charters to Private Companies.

Berlin, Feb. 18.—Not in many years has there been held a meeting fraught with greater import to the municipalities of Ontario than that of municipal and manufacturing representatives assembled here yesterday to the number of over ninety to discuss ways and means of insuring to all consumers cheap electrical energy. The municipalities represented were Toronto, Stratford, St. Thomas, Hamilton, Guelph, Ingersoll, St. Catharines, London, Galt, Dundas, Waterloo, Brantford, Berlin, Bridgeport, Woodstock, St. Mary's, and in addition there were present representatives from several Boards of Trade of the shire municipalities, and a deputation from the Toronto branch of the Canadian Manufacturers' Association.

The meeting to consider the question of Niagara power is the growth of a movement which originated in this city last summer. No close knit organization was then formed, but a sort of general committee, representing the chief manufacturing centres of Western Ontario, tentatively called the Western Manufacturers' Association, was instituted. Of this Mr. E. W. B. Snider of St. Jacob's, and D. B. Detweiler of Berlin have been respectively chairman and secretary, and have acted as a special committee to organize and obtain information.

Some of Those Present.

Some of those present were: P. W. Ellis, R. J. Christie, J. O. Thorn, and J. F. M. Stewart represented the Toronto Branch of the Canadian Manufacturers' Association; G. D. Forbes, Hespeler; Samuel Carter, Guelph; Ald. Gerry, London; W. Cowan, Galt; R. Morton Hamilton, Galt; David Bean, Waterloo; J. H. Hamilton, Guelph; J. P. Downey, Guelph; John H. Eby, S. B. Biehn, Berlin; Mayor A. Beck, London; Thomas Hepburn, Preston; J. A. Lang, Berlin; Mayor Hepburn, Stratford; George McLogan, president Board of Trade, Stratford; John Whyte, G. H. Doughas, Ald. W. S. Dingman, City Engineer Smith, James A. Gray, Stratford; City Engineer Jones, Brantford; Mayor C. F. Maxwell, St. Thomas; Ald. S. Chant, St. Thomas; D. Spiers, Galt; Mayor W. J. Morden, Hamilton; William Snider, Waterloo; C. K. Hagedorn, Berlin; E. A. C. Pew, Toronto; City Engineer Angus Smith, Stratford; W. S. Brewster, K. C., Brantford; S. Noxon, Ingersoll; Mayor H. Cant, Galt; S. Buchanan, Galt; J. R. Minhinnick, London; T. H. Preston, M.P.P., Brantford; S. J. Cherry, Preston; L. Goldie, Guelph; Peter Shirk, Bridgeport; D. R. Ross, Embro; Mayor W. D. Burgoyne, Ald. J. W. King, St. Catharines; C. H. Connor, city solicitor, St. Catharines; Mayor M. K. Halloran, Ald. Brewster, Brantford; Mayor White and Ald. Nesbitt, Woodstock; D. B. Wood, Brantford.

REPORT OF COMMITTEE.

Prospects Are Most Encouraging For Realizing the Project.

To the Committee of Manufacturers and Consumers of Motive Power interested in the transmission of electric power from Niagara Falls:

"Your sub-committee appointed to investigate the practicability of this proposal to transmit electrical power from Niagara Falls to cities and towns within reasonable distance from the Falls, and the probable cost of power so transmitted, beg to report that the prospects are most encouraging for realizing the project within a comparatively short time, either through dealing with existing power companies for the required power, or by direct efforts of the municipalities interested. Interviews have been had with officials of the various existing companies, and terms have been discussed with them; and while we were not in a position to close any contracts, and therefore are not authorized to place before you any definite proposals from any of these companies, yet from conversations with their officers and from our knowledge of the conditions affecting the operations of the companies, we believe that we are justified in assuming that electrical power can be obtained at a price, if taken in large quantities, of about $7 to $8 per continuous h. p. per annum delivered at Niagara Falls, or from $14 to $15 per h. p. delivered to the various municipalities.

Of the two methods thus suggested your committee recognizes that the latter plan, the power company delivering the power to the various municipalities, is by far the less difficult to put into operation, while the former plan, under which the municipalities would own and operate the means of transmission, has the advantage, that in case at any time the municipalities should desire to change their source of supply or to undertake by a co-operative scheme to develop their own power, they would have in their own hands the means of transmission. It is perhaps not likely that the occasion will arise within the near future that municipalities will desire to enter upon the development of power, since existing companies will, within two years, be in a position to deliver far more power than is likely to be demanded for a much longer time, but the possibility is worthy of being kept in mind in considering the method to be adopted of obtaining power.

PROPERTY OF THE COMPANY.

This Company has secured 10,000 acres of the choicest wheat lands in Assiniboia, Canada, having paid to the owners in addition to cash, 60,000 shares of its Capital Stock, for which the owners are completely equipping the property with all the necessary buildings, steam plows, steam threshers, drills, wagons, tools, fences, and everything necessary to operate the said 10,000 acres. In addition, the Company is to pay to the Canadian Pacific Railway Company and the other vendors of the said lands $50,000 in yearly installments of $10,000 each, being the balance of the purchase money.

These lands are capable of producing, at a fair estimate, 30 bushels to the acre of the best wheat produced in the world, or a total capacity of 300,000 bushels per year. Owing to the rich, prolific nature of the Northwestern Canadian soil, this product can be duplicated each year indefinitely. The Company's property will always be equipped with all the latest improved steam plows, drills, threshers, and necessary machinery to produce wheat at the lowest cost. It is the intention of the Company to have its own elevator, of a capacity sufficient to store its entire production, thus enabling them to take advantage of the highest market prices from time to time. The market for wheat is the same as for gold—it is unlimited.

The Company also has an option on 10,000 additional acres of the same character of wheat land as the 10,000 acres above mentioned, the property being located seven miles from the Canadian Pacific Railway, where large elevators are ready to receive the product.

This is an investment that will enhance in value as time goes by, not only from the large production of wheat, but the increased value of the Company's lands from year to year.

APPROXIMATE EARNINGS OF THE COMPANY

Are Estimated as Follows:

The average yield of wheat in Western Canada varies but little under all conditions. In some years the average has been over thirty-five bushels per acre. Many individual cases report as high as forty-five and even fifty-five bushels to the acre. But, taking the lowest average, there is no industry that will produce better profits. Owing to the modern steam machinery and economical methods employed in cropping, harvesting, thrashing and marketing, as well as the especial ease with which in the prairie country of Western Canada, wheat is produced, there is always a splendid profit. The cost of raising an acre of wheat, being placed by farmers and experts at about $5.00 per acre, there have been cases in the past few years where as much as $35.00 has been realized, less the cost of $5.00, leaving a net profit of $30.00 per acre.

A safe and conservative estimate of the Company's earnings, taken much below the above figures, is herewith given:

APPROXIMATE YEARLY STATEMENT.

10,000 ACRES AT 30 BUSHELS OF WHEAT PER ACRE—300,000 BUSHELS, WORTH ON THE CANADIAN PACIFIC RAILWAY, 60c. PER BUSHEL.....$180,000

Cost of Steam Plowing	10,000 acres at $1.00 per acre,		$10,000
" Harrowing	"	.20 "	2,000
" Cultivating	"	.40 "	4,000
" Seed for	"	.60 "	6,000
" Drilling	"	.22 "	2,200
" Binding	"	.33 "	3,300
" Threshing	"	1.25 "	12,500
" Incidentals, wear and tear on machinery, etc.		.20 "	2,000
Salary of General Manager, per year			5,000
Clerks, office expenses, per year			5,000
			$50,000
Annual Deferred Payments on Land			10,000
To pay Dividends of 15 per cent. per annum			82,500
Estimated Surplus, after payment of Dividends			37,500
			$180,000

ESTIMATED NET PROFITS PER YEAR.

It will be seen that, after paying the expenses of raising wheat on 10,000 acres, amounting to $50,000 each year, and paying $10,000 per year to the Canadian Pacific Railway (for 5 years) as yearly payments on the property, it is estimated there will still remain a profit of $120,000 per year, or over 20 per cent. per annum on the stock issued.

TREASURY ASSETS.

The Company now have, after paying the 60,000 shares to the owners for the lands, improvements and equipment, 140,000 shares still in the Treasury, the same being set aside as a Treasury Fund. 50,000 of these shares are now being offered for subscription in Canada and England, and are to be sold for the purpose of taking up the option, and acquiring the 10,000 acres of new wheat territory, and the equipment of the same, together with working capital.

By acquiring the additional 10,000 acres, making 20,000 in all to be owned and operated by the Company, the profits will be more than doubled, or over 40 per cent. on the 110,000 shares of stock issued.

The balance of 90,000 shares will be held as an asset of the Company, which can be sold when required for extending the operations of the Company.

DIVIDENDS.

Dividends of, say, 15 percent. per year, it is estimated, can be paid semi-annually, December 1st and June 1st of each year. Outside of the amount paid in dividends, the surplus earnings will be accumulated, and will either be divided among the shareholders as extra dividends, or used to purchase new wheat territory; or be otherwise employed as may be hereafter determined.

WESTERN CANADA

is fast becoming the Eldorado of Great Britain. Its wheat lands will create more wealth than all the gold and diamond mines of the Empire. The failure of a crop is unknown. (See the report of Hon. Clifford Sifton, Minister of the Interior, Canada, extracts of which are published in the prospectus of this Company.) The wheat of Western Canada is well known to be extremely Hard No. 1, the best quality grown in the world; the yield also being considerably more per acre than in the United States. The sub-soil throughout the intense heat of summer is kept moist by the slow melting of the deep winter frosts, the moisture ascending to the surface and moistening the roots of the grain, thus stimulating growth and producing a beautiful crop.

DEMAND FOR WHEAT.

The demand for wheat from England alone is over 180,000,000 bushels per year, and from other European countries about 250,000,000 bushels, most of which is obtained from the United States, but of a poorer quality than can and will be furnished by Canada. The Canadian Pacific Railway runs within easy hauling distance of the property and is doing everything in its power to increase wheat raising.

A RELIABLE INVESTMENT.

This Company has an advantage over other industrial enterprises through the fact that while the Company's earnings from its wheat products will be constantly growing, and advancing the price of the Company's shares, the land of the Company is continually enhancing in value, creating a double source of values.

There is no business in the commercial world so profitable as raising wheat, and the investment is as safe as first-class Railroad Bonds, for the reason that the land and improvements of the Company are always a security for its shares, besides its ability to raise immensely profitable crops. The possibilities of this Company are unlimited, as the surplus earnings can be devoted to the acquisition of additional wheat lands, thereby increasing the earning capacity of the Company and lowering the average cost of production.

Owing to the intrinsic value of the property of this Company, and its estimated vast earning power, a rapid advance in the price of these shares will doubtless take place, and we confidently expect that this issue of 50,000 shares will be largely over-subscribed.

SUBSCRIPTION TERMS.

The full amount of $5.00 per share must accompany the order. The right is reserved to allot a smaller number of shares than the amount subscribed for, in which event the balance of the money will be returned with the shares allotted.

Application will be made for a settlement of these shares on the London, Montreal and Toronto Stock Exchanges in due course.

MONEY MAY BE SENT BY POST OFFICE ORDER, EXPRESS, REGISTERED LETTER, OR BY CHEQUE.

Address all communications, including applications for shares, to

The Trusts and Guarantee Company, Limited,

WM. MORRIS' HOME SOLD.

"More a poem than a house," was pante Gabriel Rossetti's description of the Red House, Bexley Heath, the home of the late William Morris, which was sold by auction at Tokenhouse-yard on Dec. 16, 1902.

The house with its old-world quaintness of design, is bowered in trees and surrounded by an old English garden, while the exterior has attractions in the shape of fittings designed by Morris himself and walls decorated by Sir Edward Burne-Jones.

The bidding began at £2,200, and eventually reached £3,300, at which sum the property, covering an acre and a half, was bought by Mr. Henry Muff of Yorkshire, gentleman.

Strong westerly and north-westerly winds; fair and extremely cold, with snow flurries. Thursday — Fair and very cold.

Lovers of Good Writing Paper.

Do you enjoy a good sheet of writing paper? Our new "Dutch Fabric" note paper, in two neat shades, with envelopes to match, is something you should see. Only ten cents a quire; envelopes fifteen cents a package. "Dimity" note paper, in four pretty shades — china white, delf blue, azure and grey, at 15 cents a quire. Envelopes, 15 cents. A. H. Stratton & Co.

An Opportunity to Ladies.

Commencing February 16th and continuing for two weeks, free lessons in art embroidery will be given at the Beehive by a competent teacher every day from 10 a.m. to 4 p.m. As this is an exceptional opportunity for all lovers of art needlework to get valuable pointers and instructions in this work ladies should not lose the chance of visiting The Beehive and taking lessons from the competent teacher that will instruct.

"Never Struck Better Snaps."

That's the verdict of buyers at the sale of the Bradley stock. When you're down town come in and see for yourself. Men who want extra fine suit lengths for spring or summer, or spring overcoats or trousers; ladies who want handsome cloths suitable for skirts, costumes or jackets; boys, who want good suits for school or college—it's no trouble to sell, when everybody can see the cloth is worth so much more money. Stylish imported patterns—it's a mistake to miss them. Then the furnishings are so correct, and the prices so remarkably small. Do not let anything keep you from such surprising bargains. Remember that the stock was bought at 50 cents on the dollar, and it's a quick sale—can't last long at No. 359 George street.

SOCIAL AND PERSONAL.

Mr. F. E. Fairbairn, of Brockville, is in town.

Miss Aikins, of Manvers Station, is visiting friends in town for a few days.

Mrs. G. O. Britton, of Gamamoque, is visiting her sister, Mrs. (Dr.) Scott.

Dr. and Bernard Tate have gone to the Philipines on a pleasure trip for some months.

Mrs. George M. Schreiber left by the early train yesterday morning for her home in Chicago, Ill.

Miss Mabel Harrison, of Norwood, is in town visiting Miss Rose Hall, Ashburnham, 295 Brock street.

County Police Magistrate Edmison will hold a session of the County Court at Havelock to-morrow.

Mrs. (Rev.) E. B. Lanceley, of Port Hope, after spending a few days with Mrs. (Dr.) Scott, returned home to-day.

Miss Nellie Wood, Ashburnham, has returned home from a visit in Toronto, where she attended the wedding of her brother, Mr. Rolland Wood.

OBITUARY.

The Late Mrs. Michael Ryan.

The community will learn with deep regret of the death of Mrs. Michael Ryan, which took place at the family residence, No. 199 Dalhousie street. Death came suddenly on Tuesday morning at nine o'clock, being due to an affection of the heart.

The deceased lady had reached the venerable age of 79 years. Many years ago Mrs. Ryan came with her husband from Asphodel township, and has since lived in Peterborough, enjoying the deep respect of a wide circle of friends, and of the community generally. Mrs. Ryan leaves behind her to suffer the loss of a loving wife and mother, her husband and six children, four daughters and two sons. The latter are Mr. John Ryan, Stewart street, and Mr. Jas. Ryan, Westwood. The daughters are Sister St. James, of St. Joseph's Sisterhood, Port Arthur; Sister Margaret Mary of the same order, Lindsay; Mrs. E. J. Lynch, Westwood; and Miss Mary Ryan, residing at home.

The funeral will take place from the family residence, 199 Dalhousie street, on Thursday morning at 9 o'clock, to St. Peter's Cathedral, and thence to the Roman Catholic Cemetery.

MEETING CALLED

Of the Ashburnham Civic Association for Friday Evening.

A meeting of the Ashburnham Civic Association will be held on Friday evening of this week in the Village Council Chamber. As matters of interest to the villagers will come up for discussion, the officers are anxious that there should be a large attendance of the villagers. The meeting is called for 8 o'clock.

NEWS NUGGETS.

—Fourteen below zero was the lowest last night.

—George street choir will practice on Thursday evening at 7.30 o'clock.

—A leak in the water main in front of Tate's Optical Store, has been repaired.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—There will be a meeting of the Special Committee on Electric Light and Franchise to-morrow night.

—Ladies' Auxiliary of Y.M.C.A. will meet to-morrow afternoon at 3 o'clock sharp, in the Y.M.C.A. parlours.

—The Carnival Committee will meet to-night at eight o'clock in the Foresters' Hall. A full attendance of the Committee is requested as this will be the last meeting before the carnival, which takes place on Friday evening.

—Next month the property owners of Fenelon Falls will vote on a bylaw to authorise the purchase for the corporation of $15,000 worth of first preference stock in the Standard Woodenware Co., Limited. Messrs. F. Sandford, Donald J. McKinnon and John McEachren form the company. They agree to erect a large factory for the manufacture of furniture and woodenware, and to employ at least an average number of fifty men for a period of twenty years.

OBITUARY.

The friends of Mr. and Mrs. Alex. T. Dugan will sympathise with them in the loss of their little child a few weeks old, who died Monday night. The funeral took place yesterday morning.

BIRTH.

HAULTAIN.—At Glace Hospital Toronto, Canada, on Sunday, [illegible] 1903, the wife of Arnold Haultain, of a daughter.

BROWN.—At Port Sydney, Port Huron, Mich., on Thursday, Feb 12th, Cameron, Lauder, the late Rev. Robt. Brown, formerly of Peterborough, Ont.

Interred at the family burying place Rice Lake, on Saturday, February, 14th.

RYAN.—At the family residence, 199 Dalhousie street on Thursday, February 17th, 1903, Jane Ryan, wife of Mr. Michael Ryan, aged 79 years.

Funeral from the above address to St. Peter's cathedral, on Thursday morning at 9 o'clock.

EVANGELISTIC MEETING

Last Night in George St. Methodist Church—Large Attendance.

There was a large attendance at the evangelistic services in the George street Methodist church last night. Mr. Whidden conducted the song service. Revs Mr. Kerby and Mr. Turk sang most effectively during the services.

Rev. Mr. Turk preached from Luke xix. 10, "For the Son of Man is come to seek and save that which was lost." He emphasized the fact that Zaccheus was a lost man in

1. Because he was a slave of Money. One of the great troubles of the present day was the inordinate passion to get rich.

2. He was lost, because he was in a hated business, and a mean business will pull a man down to its mean level. This is true, whether a man is himself the publican or the owner of a disreputable business. Any person or company of persons, who derive revenue out of a sinful business are partners in the iniquity.

3. Zaccheus was lost, because he was an extortionist. This, too, was a common sin of to-day—grinding down the borrower, and then swooping down like an eagle upon the whole property. Thus shall some men become rich.

But Zaccheus was not happy; he was restless, anxious and miserable, which was a healthy condition. He was anxious now to see Christ, and he would overcome all difficulties in so doing. He was small of stature, and precede the crowd and climbs a sycamore tree. Here Christ notices him and calls to him without hesitation. Zaccheus descends and receives Christ joyfully—no time wasted, not waiting for feeling, but at once he found peace! How do we know?

1. Christ said, "To-day is salvation come to this house."

2. He made restitution, which is always a good sign of a man's conversion.

The meetings will be continued in the George street church at 7.45 each evening, and all are earnestly invited to attend.

A PLEASANT EVENING.

Concert Given by All Saints' Choir at Young's Point, on Monday Night.

On Monday night last 20 members of All Saint's Choir went to Young's Point to take part in a concert held under the auspices of the St. Aidan's church. Tea was first served in the basement and an excellent programme was rendered in Heard's Hall. There was a large attendance present, who gave the choir an enthusiastic reception, in spite of the fact that the the choir had only had one week in which to prepare the programme which consisted as follows:

Solos by Miss Mary Rush and Miss M. Rickey, and Messrs. B. Rickey, J. Legg, R. H. Shepherd and Rev. W. L. Armitage.

Miss D. Duncan and Miss M. Bullen gave a vocal duet which received most hearty applause.

An instrumental duet was given by Messrs. J. Legg and R. Heiderman.

A ladies' quartette was beautifully rendered by Misses Rickey, Duncan, Broadbent and Bullen.

This excellent item was balanced by a male quartette by Messrs. J. Legg, Tully, Shepherd and Rev. W. L. Armitage, which was most heartily received by the audience.

Master F. Hooper gave some recitations, which were justly applauded.

The evening was a most enjoyable one, and the programme heartily encored in many places. The choir came home the same evening, in great elevation at their hearty reception.

YOUNG MEN'S GUILD.

Regular Monthly Meeting Held Last Night—The Programme.

The Young Men's Guild of St. Andrew's church, held a regular meeting last night. The programme was a debate, "Resolved, that Canada has greater advantages for a young man than the United States." The affirmative was taken by Messrs. G. McDonald and Robert Reid, and the negative by Messrs. W. Richardson and W. Bathgate. The debaters were all new at the work, but the points brought out on both sides showed considerable study to have been given to the subject.

Regular business was disposed of and arrangements made for the programme for next meeting, which will take place on Tuesday, the 2nd of March.

These meetings are always interesting, and every young man is invited to attend.

WEDDING BELLS.

Mr. J. W. Kelly, of Bridgenorth, Married to Miss Cora E. Blewett.

The wedding took place on Wednesday of last week at the residence of the bride's parents, Mr. and Mrs. Milton Blewett, of Smith, of their daughter, Miss Cora Edith, to Mr. James William Kelly, of Bridgenorth. The ceremony was performed by Rev. J. W. Bunner. The bride was attended by her cousin, Miss Gertrude Blewett, of Young's Point, whilst Mr. Noble Kelly, brother of groom was best man. About 50 friends and relatives of the contracting parties were present at the happy event.

Mr. and Mrs. Kelly will reside at Bridgenorth.

THE LAST HOP

Of the Never Learn Club was Held Last Night.

The regular dances of the Never Learn Club closed last evening with a very pleasant hop. It [illegible] the intention of the club to hold an [illegible] on [illegible] next, for which invitations are being issued. The Never Learn Club has had a most successful series of dances, which have invariably been largely attended.

DAIRY COMPANY MEETING.

Provisional Directors Met Last Night.

Stock Being Taken in the Venture by Prominent Townspeople—Success Assured.

A meeting of the provisional directors of the City Dairy Company of Peterborough, was held last night, the chair being occupied by the President, Dr. Halliday.

The meeting was called for the purpose of receiving reports as to the progress that has been made with stock subscriptions. It was ascertained that about 100 of the prominent citizens of the town, including most of the physicians and clergymen, as well as the principal merchants and hotelkeepers had taken stock of various amounts, thus assuring the success of the venture. It was decided to communicate with Prof. Robertson, of the Experimental Farm, Ottawa; with the Principal of the Agricultural College, Guelph; the Principal of the Dairy School in connection with Queen's University, Kingston, and with the Manager of of the Toronto City Dairy Company, asking their views with regard to the project and also asking for their suggestions as to a suitable man to manage the Peterborough concern. The directors feel that it is necessary to obtain a man with a technical education together with a combined business and executive ability. When a man of this class is secured a public meeting will be held at which addresses will be given by dairy experts upon the hygienic aspect of the new venture. It is hoped that public interest may be excited in this manner and support given to the company.

QUITE the VOGUE

Two-Third Wall Decorations and Crown Effects.

THIS method of adorning the walls is becoming quite the vogue. A very striking effect is obtained by using a two-tone stripe or plain ingrain paper upon the lower two-thirds, while a floral design decorates the upper one-third of the wall. A plate rail, finished to imitate any wood, is placed between to serve as a shelf or divider. From this, pictures and hanging ornaments are suspended.

We have an excellent variety of Wall Papers, suitable for two third combinations to select from.

Wall Paper Ends and Border Remnants

Before we close our stock-reducing sale we have many chances for those who are on the look-out for bargains in Wall Paper and Border. Those who wish to take advantage of fine days to do some Wall Papering will find lots of snaps worth coming for.

BRING IN YOUR PICTURES

To be framed at the Peterborough Bookstore before they get soiled or torn. Take time and come in and select your Mouldings now, and give us time to have them ready when wanted a [illegible] he spring housecleaning.

PETERBOROUGH BOOKSTORE.

Richard Hall & Son

PETERBOROUGH'S MODERN STORE.

NEW SPRING GOODS.

There are many decidedly new features about the New Spring Goods—many decided changes from last year's styles, which you will appreciate the moment you see them.

This week we show a lot of the new ideas for 1903. New Silks, new Dress Goods, new Trimmings, new Wash Dress Goods, new Prints, new Whitewear, New Spring Ready-to-wear Suits, new Skirts, new Carpets, new Goods in every department. We are proud of the season's importations, and will be pleased to show them to you.

NEW DRESS GOODS

in both Black and Coloured, in Plain Broadcloths, Venetians, Voiles, Canvas Sail Cloths, and some of the prettiest Snowflake designs in Tweeds and fine French Goods that you have seen for many a day. The Snowflake design is one of the features of the season.

NEW WASH DRESS GOODS

If you want the very latest for Shirt Waists for the coming season, and a decided change from old styles, you want to buy what we call Mattings or Canvas Cloths or Basket Cloths. They come in plain colours in cotton, linen and silk mixtures. They are certainly the prettiest and nattiest material that has yet come out for the ever-popular Shirt Waist.

NEW READY-TO-WEARS

Many new features about the Ready-to-wears for spring, which will have to be seen to be appreciated. We show some new designs in Norfolk Suits and Russian Blouse Suits, also some very new things in Separate Skirts at decidedly good values. In Ladies' Monte Carlo Silk Coats we show some very nobby styles which you should see early before they get picked up.

WINTER GOODS

We would like to emphasize the fact that you can get anything in the way of Winter Goods at clearing prices at this store.

BURNHAM'S POINT MILL SITE

Protest Against Little Lake Being Monopolized by Logs.

Some Comments Pertinent to the Subject.

A correspondent under the heading of "An Outrage" has sent in the following letter:—

To the Editor of The Examiner:

Dear Sir, — Happening to go along the Canadian Pacific Railway track yesterday eastwards from the station, I was passing the shores of the Little Lake, when I saw a number of very large stones resting on the ice. Upon inquiry I was told that these were the anchors for holding the booms that the Dickson Company were going to put there for holding their logs. This boom is to reach from Burnham's Point right over to the foot of the street that runs through the centre of the village, where there is a steamboat wharf. This means that the Dickson Company intend to shoot logs between this and the west end of the lake. This will practically [illegible] about one half of the lake. We are all so proud of, being again used for boating purposes. At the present time Mr. McDonald monopolizes all the south shore and now the Dickson Company want to monopolize only the north part of the lake. What right has a company to come and take away from this whole town such a pleasure place, merely in order to make a little more money for the company?

Any summer night numbers of tourists and other visitors can be seen full of people (many of them of the poorer classes) enjoying a sail on our beautiful lake, and all of this is to be done away with in order to make a rich company richer. What are our Town Council and our Board of Trade doing? Surely such a matter should attract their attention. We [illegible] are one of our parks better than we can do without our beautiful lake. There never was such a condition of affairs before, with the exception of when the C.P.R. induced the Town Council at that time to actually memorialize the Government to allow them to shut off our water front by filling up the river with an embankment and placing a fixed bridge across, as they have done. However, the less said about this transaction the better.

I trust that our present Town Council, Board of Trade, and Labour Unions, will exert every effort to prevent such an outrage being carried out.

Yours truly,
CITIZEN.

Peterborough, Feb. 16, 1903.

The above letter is a very natural outburst of surface feeling under the circumstances. A great many people will be inclined to share this feeling, but a dispassionate consideration of the conditions will show that there are two sides to the question. It is undeniable that from considerations of civic beauty, and the pleasure of the public, the use of a spot like Burnham's Point, for any industrial purpose, is quite undesirable and, in a certain sense, a calamity. This would, however, apply to the whole river front. We have to make choice between having industrial establishments, representing conditions that make a town or city, and preserving the natural beauties of scenery; and it comes about that business considerations have extensively prevailed over sentiment. We have the entire river front, on both sides, from Inverlea to the cemetery, disfigured — from one point of view — by manufacturing and other establishments. And there is no point on the river, in the space named, more beautiful, in its primeval natural condition, on both sides of the river, than that fronting on the premises of our most important industry, the Direct Works. Only [illegible] reveals what was the native beauty of the region, in the bluff abutting on the roadway between McDonel and London streets. From a beauty point of view it would be desirable to sweep away all the industrial buildings and establishments that mar the beauty of our river front, but in doing so we would [illegible] Peterborough [illegible] Hamilton Company's works occupy what was [illegible] condition one of the prettiest sites for a park in the town, and the same applies to the Auburn Woollen Mills. No one [illegible] our streets would be more beautiful if they were not disfigured by telegraph, telephone and electrical wire poles. But can we do without these and the things our industrial establishments and other things represent, and still be a modern town.

Is not this a progressive age when business overcomes sentiment, and beauty has in the great majority of cases to give way to utility?

The acquirement of Burnham's Point was a straight business transaction and it is stated that that point being the only available site for a mill, the company's taking their industry and its material and labour-giving advantages out of town, was the only alternative to procuring this site.

In connection with Little Lake's use as a pleasure resort for the "poorer classes," which the correspondent speaks of, should not the point also be considered, that the mills will give large employment to labour, besides contributing — what was felt to be a distinct benefit during the late fuel stringency—a supply of cheap wood? Should not both aspects of the subject receive calm consideration?

Was not the purchase of this site, bought in the open market, a legitimate business transaction? The property was for sale and the company bought it in preference to moving their mills outside the town.

It is natural to call upon the town council to take action. But the town council is too late. The town, if indeed it had had power to purchase property outside the corporation, had it is said, a chance to buy Burnham's Point at much less price than it was sold for a few days ago. But the offer was not accepted and we have the results.

And it is difficult to see how the matter can be remedied now. No one can contest the legal right of the company to take the action it has taken. They have the legal right to purchase the property and to make legitimate industrial use of it. If in so doing they interfere with the legal rights of any person there is a legal remedy.

Of course it is an "outrage" to have a beauty spot desecrated, but it is difficult to see how we are to stop the onward roll of the Juggernaut of modern progress. This is a material age and the genius of the time sacrifices beauty and sentiment to utility and materialism with unsparing insistence.

"Citizen" from his point of view, and from many points of view, is justified in deploring what he calls an "outrage."

The company he speaks so strongly of is not to blame when business considerations are taken into account. They represent the spirit of the age when beauty of scenery possesses no sacredness for the spirit of enterprise. The chief aim of this spirit is to avoid legal responsibility. If it insures this it has no reason to expect favours. "Business is business" is the cold creed that rules the world to-day, and while we shrink as our beauty spots are wiped out by mills and factories, we have no remedy, without immense expenditure of money, unless in the process legal rights are invaded.

The OPENING DAYS of the Year 1903.

The opening days of the year 1903 have come with a volume of trade which is a surprise to ourselves and causes us to redouble our efforts, with increased staff and we feel sure you can supply your needs to great advantage by trading with us. Read over a few of the many tempting prices which this store contains —

SPLENDID GAME AT PENELON.

T. A. S. Defeated the Trent Valley Champions.

THE SCORE WAS 7 TO 2.

Special Train to Cataract Town Last Night.

First Time Penelon Team Were Ever Beaten on Their Own Ice—T. A. S. Supporters are Jubilant now.

St. Peter's T.A.S.—7.
Fenelon Falls—2.

"Well Capt. Donnelly your team is the first that ever won a victory over Fenelon on their ice," was a statement made by President Junkin, of the Trent Valley Hockey League, at the close of one of the greatest hockey matches ever played in the history of the League.

It was indeed a grand game, fast, clean and scientific, and one that over and over carried the spectators away, and made them almost wild with joy and groan with despair.

The T.A.S. team and their supporters, who numbered over one hundred, left the G.T.R. station at 7 o'clock bound for Fenelon. The boys were in fine fettle, and had made up their minds to go on the ice with a determination to put up a stiff fight, and endeavour to keep down the score, if unsuccessful in coming off victors.

Their supporters had very little to say in reference to the possible outcome of the contest. They felt that the boys would do their best, and that is all that was expected of them; but to think that they could not only do this, but also treble the score of the champion Fenelon team, was not for a moment considered by the most sanguine supporter of the team. But the boys surprised them all and their grand victory is due alone to their brilliant work on the ice and the splendid combination displayed by each one of the septette. "It was Saturday night's fine practice that put the boys in such fine fettle," was the remark of one of their supporters, and there is undoubtedly considerable logic in that contention, for the T.A.S. team has certainly been practicing assiduously and the result was apparent last evening.

The run to Lindsay was made in about 45 minutes and about eighteen boarded the train at that point. Fenelon was reached about 8.30, and to the credit of the village, be it said, that a goodly number was on hand to welcome visitors.

[illegible] repaired to the Tweedie House, where no time was lost in getting ready for the struggle. A good crowd had gathered at the rink eager to see the game, and when the red and black uniforms of the T.A.S. team appeared on the ice, a mighty shout went up from the throats of their supporters, who were bunched in a very conspicuous place in the rink. Next Fenelon sextette appeared, attired in yellow and black, and their supporters cheered them to the echo.

After a few preliminary dashes by both teams, Referee, Ernie Wasson called the teams together and gave them a little fatherly advice as regards their actions on the ice, after which the teams lined up in the following order:—

St. Peter's, T.A.S.—Goal, Molloy; point, Donnelly; cover point, Cluney; forwards, Parnell, George, Lynch and McGrath.

Fenelon Falls—Goal, Ellis; point, McAllen; cover point, Bell; forwards, Belcan, Dayman, Patterson and Ingram.

Goal umpires—W. Grady and Editor Moore; timekeepers, Messrs. Turcott and Junkin.

There was silence deep as death when the puck was faced off, and Parnell secured it, passed to Lynch who handed it over to Billy George, who scored in the short space of three seconds—so fast so quick was the trick done that the spectators were simply amazed.

Both teams settled to with the tenacity of drowning man and it was soon apparent that a splendid game was on for the evening. Fenelon tried hard to [illegible] the stonewall defence of the T.A.S. team, but it was like a flight of fireflies against the Chinese wall and in a few minutes a mighty shout went up from over a hundred throats for the cold water seven had scored again. Score, 7—0.

Excitement was now up to concert pitch and in the third game some beautiful hockey was played. On the Fenelon team Belcan and Dayman tried time and again to score, but Crowley and Molloy had their working clothes on and were still doing business at the old stand. Kills in goal for the Ontarcat team was the objective point of a fusilade of shots from the T.A.S. supporters, and their point and cover point players were kept hustling at all times, but they could not withstand the assault very long. But a very pretty piece of combination the T.A.S. forwards came up the ice, and "no lighter did a swallow skim along the smooth lake's level brim" as did the speedy four, and the result of this rush was another goal, making the score at the end of the first half 5—0.

In the second half the same story might be told. Time and again did Fenelon make a desperate dash and time and again did the T.A.S. defence repel the onslaught and feed their speedy forward line. McCoy in goal during this half, was called upon quite often to show what he was capable of doing, and he simply surprised the supporters of both teams by his brilliant work. He covered himself with glory between the flags last night, and although Fenelon scored twice in this half, still they were shots that would pass the most experienced goal keepers. "Galley" McCoy had certainly his eagle eye on the puck last evening, and filled the position with credit.

Fenelon during the last half fought with a desperation born of despair, but the T.A.S. team notched four more goals and virtually played them off their feet. When time was up the scene was an exciting one. A wild rush was made for the ice and the visitors were carried on the shoulders of their supporters, and the rink rang with the shouts of victory. Of the condition and work of the T.A.S. team, a great deal could be said. McCoy's work has already been referred to, but Meagher and Crowley, it can safely be said, put up the games of their lives. They were after the puck all evening, and the manner in which they intercepted the rushes of the Fenelon forwards was "a thing of beauty and a joy forever." McGrath, who is at all times a hard worker, and a steady, reliable forward, dished up a quality of hockey last evening that was of the gilt edged variety. It can safely be asserted that he never played a finer game, and the manner in which he followed up the lifts last night was a feature of the contest. George Lynch, who was supposed to be watched and guarded during the evening, surprised the guards and made them look like toy sentinels. His playing was really magnificent, and although he received some hard bumps during the night still he came up with a smile on his face like the opening of spring-time. Parnell was also in fine condition, and played a faultless and scientific game, bristling with beautiful passes and lightning rushes. "Wally" was certainly in superb condition last evening. Billy George, who played rover, was a bright star, and his work last night in that position [illegible] to witness. He is a fine stick handler, cool and tricky, and up to all the fine points of the game. He played the game of his life last evening, and his work was highly spoken of by the Fenelon team.

As regards the Fenelon Falls team it can only be said that every man can play hockey, and good fast hockey at that. They have achieved a reputation as a very swift bunch, and they certainly deserve it, but as one of the players expressed it, "they rap into a better team."

The game was a remarkably clean one, only three men decorating the fence during the night, and that was for very slight transgressions. Ernie Wasson made a capital referee. Both teams expressed themselves as highly satisfied with his decisions, although he did not please a small element in the crowd that not only did not represent the sporting fraternity of the village.

The T.A.S. boys are loud in their praises of the treatment they received at the hands of not only the Fenelon team, but also the citizens as a whole. An oyster supper had been arranged for the boys, and it was with feelings of regret that they were unable to partake of the spread, as they were obliged to catch their train. A large number of the villagers accompanied the boys to the station and gave them a send-off.

NOTES.

The Fenelon rink is a trifle narrow, but is well lighted, and is the property of the hockey boys.

The ice was in splendid condition for good fast hockey.

Fenelon plays Norwood on Thursday night in Norwood.

Rev. Dr. O'Brien accompanied the boys and was well pleased with the result.

It behooves the T.A.S. team to practice from now on with a determination to rank as top-notchers in the League.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpright, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

NOT JUST AS GOOD

Did you ever inquire at a store for certain articles and get for a reply "We have something just as good"? Did it ever occur to you that "Something just as good" is something the dealer has been able to buy much cheaper than the articles you inquire for? This is true in drugs, fabrics, groceries, hardware, and in fact every line, including silver-plated ware. If you inquire for 1847 Rogers Bros.' Knives, Forks or Spoons, don't accept any bogus Rogers' stamp because your dealer tells you it's just as good.

1847 ROGERS BROS. TRADE MARK

The above trade mark has been stamped on every article of the original and genuine Rogers Bros.' goods for over 50 years. Get this and you get the best that is made.

MR. GAMEY EXPLAINS

Meeting at Gore Bay of the Conservative Executive.

NOT ASKED TO RESIGN SEAT.

The Member States His Reason For Supporting the Ross Government—Executive Condemns His Course—Mr. Gamey Replies That He Would Abide by Decision of a Convention If One is Called.

Gore Bay, Feb. 17.—A meeting of the Conservative Executive, fairly well attended, was held yesterday, at which the action of Mr. R. R. Gamey, as outlined in the recent interview, was discussed.

Mr. W. H. Williams, who recently returned from Toronto, was asked to give his views as from the outside Tory party. He strongly condemned the course taken by Mr. Gamey and charged that serious rumors were afloat as to the motive for that course. He did not produce one particle of evidence.

Mr. T. Robinson, a delegate from the country, took the ground that Mr. R. R. Gamey had promised to take an independent stand during the campaign last spring if the Government was sustained, and that he had received a great many Liberal votes on that account.

Mr. E. Battye did not understand any such stand to have been taken during the campaign.

Mr. Gamey's Explanation.

Mr. Gamey attended and explained his position in a clear and careful manner, alleging that his duty was to his constituency first, and that he had only done what he considered in the best interests of his constituency. He particularly asked them to suspend judgment for the present. He also expressed an opinion that the executive had no power to ask him to resign, and said that he would be pleased to have a convention called and abide by their decision, as he knew from letters and interviews the great majority of the people were well satisfied with his recent action.

A strongly-worded resolution endorsing Mr. Whitney and condemning the recent interview was passed, but no attempt was made to introduce a resolution asking for Mr. Gamey's resignation. The majority of the delegates personally favored Mr. Gamey, and have still confidence in him doing the best for the riding. Quite a number of voters were around the town, expecting to hear a public debate, but there was no public meeting.

The almost unanimous opinion expressed by those voters was favorable to Mr. Gamey.

NORTH YORK.

Large Crowd at Joint Meeting Held at Aurora—Audience Gave Each Candidate a Fair Hearing.

Aurora, Feb. 17.—The first joint meeting in the North York campaign passed off without riot or bloodshed. It was, in fact, a distinctly orderly and good-natured meeting, at which strong partisans stood for four hours tightly wedged against one another, without losing their temper. The two candidates were the only speakers. Mr. Davis spoke first, dealing admirably with the administration of the Ross Government. Mr. Lennox dealt exclusively with the settlement of the protest, and Mr. Davis replied to him on that question. The audience gave each candidate a fair hearing.

The doors were opened at 7.15, and the excited crowds who had surged about the doors for half an hour before made a mad rush over the backs of chairs and benches, and soon every seat was filled, the aisles were wedged tight, and the carefully-reserved platform was literally jammed. Ladies were present in unusually large numbers. About 1,000 people were in the hall, many of them having come from towns ten and twelve miles distant.

Eating Became a Dread.

HOW MANY PEOPLE ARE ALMOST AFRAID TO SIT DOWN TO THEIR MEALS?

YOU MAY BE ONE OF THEM. IF YOU ARE, THERE IS A CURE FOR YOU.

BURDOCK BLOOD BITTERS

CURES INDIGESTION, DYSPEPSIA, BILIOUSNESS, SOUR, WEAK AND ALL STOMACH TROUBLES.

Mr. J. G. Chasis, Barasy's River, N.S., tells of what this wonderful remedy has done for him:—It is with gratitude that I can testify to the wonderful curative powers of B.B.B. I was so badly troubled with indigestion that whatever I ate caused me so much torture that eating became a dread to me. I tried numerous physicians, but their medicines seemed to make me worse. I thought I would try B.B.B., so got a bottle, and after taking a few doses felt a lot better. By the time I had taken the last of two bottles I was as well as ever, and have had no return of the trouble since. I recommend your medicine to the highest degree. B.B.B. is for sale at all dealers.

EIGHT PERSONS KILLED.

Cane Factory Bursts Into Flames in a Twinkling.

Toledo, O., Feb. 17. — A special from Fostoria says: Eight persons were killed and four injured by an explosion in the Peter & Fox Magazine Cane Factory yesterday. The magazine contained a large supply of high explosives used in the manufacture of caps for magazine canes. The cause of the explosion is unknown. There was a terrific shock, and, in a moment the entire factory was in flames.

LEADER OF IRISH P. P.

John Redmond Re-elected—New Land Bill—Devlin to Succeed Lynch.

Dublin, Feb. 17.—At a meeting of the Irish parliamentary party John Redmond was re-elected leader, and a resolution was passed to the effect that in view of the rumored intention of the Government to depart in the text of the new Land Bill from the terms adopted by the recent land conference the party places itself on record as announcing that these terms are the lowest the tenants could accept.

Devlin to Succeed Lynch.

London, Feb. 17.—It is said that Charles R. Devlin, Canadian Government agent at Dublin, will likely be chosen by the U.I.L. to succeed Co. Lynch as member for Galway. If Mr. Devlin is chosen on Friday, he will resign his present position. As an Irish M.P. he will draw $5 a day from the league's fund.

WINTER'S COLDEST BLAST.

Forty Below Zero at Winnipeg Sunday—The Cold Wave.

Winnipeg, Feb. 17.—Sunday was the coldest of the entire winter here, the mercury dropping to 40 degrees below zero.

West Superior, Wis., Feb. 17.—The mercury yesterday recorded 28 degrees below zero, the coldest of the winter.

Omaha, Neb., Feb. 17.—Ten degrees below zero was registered here yesterday morning, the coldest of the year. The cold wave covers the States of Iowa and South Dakota.

Will Mean Big Loss.

Winnipeg, Man., Feb. 17. — The Rossland Miner says: The strike at the Crow's Nest Pass Coal Mines, if allowed to continue, must eventually result in a complete tie up of the mining and smelting industries of Southern British Columbia.

North Grey Nominations.

Owen Sound, Feb. 18.—Nominations were held here yesterday for the bye-election to be held in North Grey on the 24th inst. Matthew Kennedy, manufacturer, of Owen Sound, was nominated as the Liberal candidate, and T. Inkerman Thomson, merchant, of Owen Sound, as Conservative standard-bearer.

Fell Into Boiling Water.

Brockville, Feb. 18.—A little child between two and three years of age named Casselman was terribly burned by falling into a pail of boiling water yesterday afternoon. It is doubtful if the child will recover.

Your Opportunity to get Well.

You are offered Dr. Chase's Nerve Food as the most perfect restorative, blood creator and system builder that was ever prepared. The name of the discoverer, Dr. A. W. Chase, is enough to guarantee this, and besides you have the testimony of scores and hundreds of cured ones in every part of Canada and the United States. You can use it, knowing that it is bound to do you good.

R. J. C. SUTHERLAND

Keeps in hand a full stock of Plumbers' and Steam Fitters' Supplies. Gurney and other makes of Furnaces; Steam and Hot Water Boilers; Enamelled Baths, nickel and best castings, with fine nickle plate fittings; W. Closets of the best makers, fitted with walnut, oak or cherry wood; also Sinks, Lavatories, etc. Private dwellings, churches, schools and public buildings fitted with the best description of Furniture; Boilers and Piping and heated on the most scientific and economical principles. Repairs of every description done promptly and at very reasonable charges.

Orders left at 328 Water street, or, 328 George street, and by Phone 238, will receive prompt attention.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay rent to be put out in real to be turned out. When five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrape and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

BERLIN CONFERENCE.

Continued from third page.

To enable municipalities to so purchase and sell or otherwise distribute electrical power legislation would of course, be necessary, and we recommend that prompt action be taken towards securing from the Legislature at the approaching session the necessary powers enabling municipalities to undertake such work. Such legislation should empower municipalities to co-operate when authorized by vote of the property owners of the respective municipalities to develop and transmit or distribute electrical energy; or to buy and transmit such power; or to buy power delivered at the several municipalities, and to sell and distribute the same within their own limits.

In case of municipalities co-operating in such work, it would be necessary to devise means whereby the interests of the various municipalities would be protected, the rate for power kept uniform in the several municipalities and a scale of rates maintained which would prevent any municipality from cutting rates as against any other. In carrying out such co-operative scheme provision must be made for apportioning the cost among the various municipalities in proportion to population, and provision should be made for subsequent admission of other municipalities into the group upon a basis, as to cost, which would be fair to the original municipalities forming the union.

Should, however, the plan of municipal action in this direction fail to receive the approval of the Legislature, your committee recommends that consumers take united action forthwith thereafter and close arrangements with one of the existing power companies for transmission of electrical energy, either direct to the consumer or to local organizations in each town and city who would purchase the power in quantity and distribute to consumers in their several municipalities.

Your committee feel very strongly that to ensure success under either of the methods above proposed, and to obtain the best results, the united efforts of as large a number as possible of either municipalities or individual consumers is absolutely essential, since companies prepared to dispose of power will be willing to give much better terms if large quantities of power can be disposed of in a single transaction than if only small quantities can be sold.

The meeting then adjourned for lunch.

Discussion and Resolutions.

Chairman Snyder said the main thing for the meeting to consider was how to proceed to induce the Government to give the municipalities what they wanted. The Government was apparently unwilling to enter upon the work themselves, and if they should be prepared to accede to the wishes of the municipalities it was essential that municipalities should act unitedly.

After luncheon Mayor Eden of Berlin welcomed the delegates. He thought the Government should have taken the matter up and developed and transmitted power to the municipalities as near cost as possible. The purpose of the meeting was to seek a way of getting power as cheaply as possible.

Government Should Transmit Power.

Mayor Urquhart of Toronto held that the meeting should add to the report a resolution urging the Government to take up the question of transmission. There were difficulties in the way of the municipalities doing the work; there was none in the way of the Government. He knew the Government had been considering the matter, and he thought their hands should be strengthened. He had had interviews with Premier Ross, and he knew that the Government was prepared to give the municipalities the powers asked. He knew the Canadian Niagara Power Company had offered the Pellatt-Mackenzie syndicate power at the Falls at $18, and the report stated that the municipalities could get it even cheaper than that. He said a two-circuit pole plant between Niagara and Toronto with transformers at Toronto could be constructed for $600,000. Buffalo got 20,000 horsepower from Niagara, and part of it was used to operate 300 miles of electric railway in and about the city. There was no reason why all of Western Ontario should not get its power from Niagara. He thought the Government should be urged to transmit it, and if they would not they should appoint a commission to do it for the municipalities. He had gathered from interviews with Premier Ross that the Government were ready to introduce a measure of that kind as a Government bill.

Mayor Urquhart's Amendment.

"Resolved, that we respectfully suggest to and urge upon the government of the Province of Ontario the advisability of the government building and operating, as a government work, lines for the transmission of electricity from Niagara Falls to the towns and cities of Western Ontario, or that they extend the powers of the present Niagara Falls Park Commission, so that they may, as a public work, build and operate the necessary lines to transmit electric energy from Niagara Falls, and that, for this purpose, they be empowered to issue debentures, which might be guaranteed by the government, but which would be eventually paid out of the receipts from the sale of electrical energy, thus entailing no charge upon the Provincial funds.

"And, that the municipalities here represented call upon their representatives in the Legislative Assembly of Ontario to urge upon the government to carry out this resolution."

Wasting Time to Ask It.

Chairman Snyder said the committee had assurances that the Government would not undertake transmission, and that to act upon that line would be a waste of time.

Mayor Beck, M.P.P., of London, said: "The first thing we should do is to send a strong resolution to the Government to assist this part of the country to be a manufacturing centre, to provide for the wants of the rapidly growing Northwest Territory. As to the Government contracting power no one would be better pleased to get it from the Government than we would. I may say, too, that the Ontario Government should get it, and the only expense should be what it cost the Government to give it to us. If the Ontario Government will not develop the power itself it has no right to refuse us the permission to handle the power ourselves."

Mayor Eden of Berlin said: "We are a manufacturing town, and have prospered without any natural facilities. If we can get power from anywhere cheaper than we can get it here, we are satisfied to do it. We will thus prosper greater than we have done in the past. What we want is information. Personally, my opinion is that the Government should do what they can for us, anyway."

Mayor Halloran of Brantford said: "Get the power to our factories cheap—no matter where it comes from. We hope to gain with you the best conditions possible. The Park Commissioners should control the power as they control the park." He congratulated Waterloo County on bringing the mayors together.

Mayor Morden of Hamilton praised the work of the Cataract Power Company in that city, but would do better if possible.

Mayor Hamilton of Guelph was pleased to hear that Mayor Urquhart had the assurance of the Government that Toronto could get permission to transmit power."

Mayor Hepburn of Stratford was satisfied that his city would have lots of factories if the cheap power could be obtained.

Mayor Cant of Galt thought it was almost impossible for the municipalities to combine, and that the best course would be for the Government to regulate the rates of private companies. He urged that the municipal scheme be dropped, and that the Government be asked to grant charters to private companies, under restrictions.

Mayor White of Woodstock favored the municipal co-operative scheme, and thought the Government might be asked to guarantee the bonds.

Mr. S. Noxon of Ingersoll approved the stand taken by the Mayor of Galt in favor of private enterprise under Government regulation of rates.

Mayor Maxwell of St. Thomas told how franchises in his city had been given away, and the city had been glad to buy them back. He thought the Government should take hold of the power question, and it should be impressed upon the Government that the power had to be reserved for the manufacturers of Ontario. If the Government would not do it the municipalities should be allowed to. Mayor Maxwell said the municipal enterprises in his town were paying.

Mayor Butcher, St. Mary's said there municipal electric light plant was paying, and he advocates the Government taking hold of the power question.

Mayor Lawson of Dundas said he would do all he could to give a helping hand in regard to cheap power.

Mayor Burgoyne of St. Catharines said they had lots of water power there, but if they could do better by a union of municipalities they were quite willing to do it. They would be glad to co-operate with any municipality. "However," Mayor Burgoyne remarked; "We have powers from the Legislature to develop from DeCew Falls, and we are now in a position to buy it and sell it."

Ex-Mayor Wood of Brantford moved the following resolution, which was defeated:

"That this meeting is not in possession of any information as to the cost of transmitting Niagara or other power to the many places interested, and that the chairman be authorized to appoint a special committee to thoroly investigate as to the feasibility and cost of said transmission, and to report to another meeting, to be called by him, with the view of submitting complete information to the government regarding the matter."

No More Private Franchises.

Mayor Hamilton of Guelph, as the meeting was closing, moved that the Government be asked to refrain from giving any more franchises to private individuals in connection with power from Niagara Falls.

This carried unanimously.

The following committee was appointed to protect municipal interests:

To look after legislation—George McLogan, Stratford; Ald. F. S. Spence, Toronto; Mayor C. F. Maxwell, St. Thomas; Mayor J. H. Hamilton, Guelph; ex-Mayor W. Mills, Ingersoll; Mayor Burgoyne, St. Catharines; Mayor Beck, London; Mayor Cant, Galt; Henry Bertram, Dundas; William Snyder Waterloo; Mayor Halloran, Brantford.

The delegates went to their homes on the evening trains.

Lumbago

is a symptom of the backache. The cause is Uric Acid in the blood. If the kidneys did their work there would be no Uric Acid and no Lumbago. Make the kidneys do their work. The only positive and only cure for Lumbago is

BRECHE A MANON LADY

TELLS OF HER EXPERIENCE WITH

DOAN'S KIDNEY PILLS

The Great and Well-Known Kidney Specific for the Cure of all Kidney and Bladder Troubles.

Mrs. P. Bertrand, Breche A Manon, Que., writes:—I think it nothing but right for me to let you know what DOAN'S KIDNEY PILLS have done for me. For five months I was badly troubled with a sore back, and such severe pains in my kidneys that I could scarcely walk at times. I got a box of DOAN'S KIDNEY PILLS, and before I had them half taken I was greatly relieved, and with another box I was completely cured. I cannot help but give them all the praise I can, and will never fail to recommend them to all kidney sufferers.

DOAN'S KIDNEY PILLS

are 50c. box, or 3 for $1.25; all dealers or The Doan Kidney Pill Co., Toronto, Ont.

12 Minutes for Lunch.

That is the average time spent in a large city restaurant by three thousand lunchers. It takes three hours to digest a fresh egg soft boiled; three hours to digest a boiled apple dumpling; three hours to digest fresh roast beef. In fact, three hours is about the time required to digest the average twelve minute lunch. The object of the hasty lunch is to let the busy man get back to his office work. But when the brain is active, the stomach is inactive for lack of necessary blood. The natural consequence is indigestion, and indigestion opens the door to many diseases.

Indigestion is cured by the use of Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food.

"It is with heartfelt gratitude that I send this testimonial which I wish you to publish with my name and address," writes Mr. Willis Seaman, of Washingtonville, Orange Co., N. Y. "I had chronic trouble from childhood and suffered with it more or less as I grew up. At the age of 26 I was broken down with dyspepsia. My suffering was terrible. Could not eat without distress. Could only eat a few certain things and was not able to work half the time. Every thing I tried only gave me temporary relief. My wife finally persuaded me to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I took six bottles of the 'Golden Medical Discovery' and two vials of Dr. Pierce's Pleasant Pellets.' I then felt so well that I stopped taking medicine. Several months have passed and I can do the hardest kind of work, can eat anything that is set before me and enjoy it. I am 27 years old and this is the first time I have ever been well."

Free. Dr. Pierce's Common Sense Medical Adviser in paper covers is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*; or 50 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

The following despatches have been received by E. M. Poussett & Co.:—

New York, Feb. 18.—It is beginning to look like we are not going to have a bull market till spring. The big men have apparently made one or two attempts the past month to start a general upward movement but seem to have given it up for the present. February is a month of increasing loans and decreasing bank reserves which are hardly favourable to a bull campaign. It is also a month when many of the big men who make the market are away under Sunny Southern Skies. In February of past years stocks have usually proved listless and downward. Finally spring advances running into a bull market of more or less importance. Indications point to a similar state of things this year.

Railway earnings continue to show up favourably. Gold exports still uncertain.

New York, Feb. 18.—Unpaired publications this morning the close of the market Saturday and London manipulation this morning lead to the belief that some improvement is likely in the stock market to-day. The support extended to the market Saturday after the bank statement showed the position of the manipulators. The difficulty experienced by those who sell short in covering is another indication of the stand of those behind prices. As the market is highly manipulated it is the best policy to act for turns. There are indications of upward movements in A.C.P., A.R., B.R.T., Canadian Pacific, Rubber goods, Southern Ry. and U. P. London irregular.

Demand sterling exchange 487 1-8; Paris, exchange on London 25 francs 15 centimes. There is slight profit in shipping gold at these quotations. There was only moderate demand for [illegible] yesterday. Chiefly Erie, copper and Reading. There does not appear to be much short interest left for bull sledgehammer market and think you can buy N.Y.C. cheaper next week.

[illegible] firm [illegible] 25 advance; sales 2,000 shares; receipts 2,000. Antwerp [illegible] opened firm [illegible] up [illegible] 20 francs 1 off [illegible] opened better than expected. Probably witness an [illegible] morning here with [illegible] short and aggressive operations [illegible] bull crowd. The bull interests are taking advantage of severe weather in cotton [illegible] right receipts from it. It now looks as though a ten cent basis would be reached before present movement ends but we still advise caution. Liverpool 2.30 futures 4 points higher.

London weak all day. Money 2 p.c. in New York. Trading in T.C.I. limited [illegible] Impression exists that there is a pool in it. Sloss Jan. net $788,000, bond interest and preferred dividend 54,000, balance 134,000.

Pressed steel car annual meeting held at Jersey City to-day. Nothing done but election of directors.

M. of M.

Mason Heights & Fraser have received the following:—

New York, Feb. 18.—The New York Stock Exchange will be closed Saturday, Feb. 21st, and Monday, Feb. 23rd.

New York, Feb. 18. — Wheat 1-4 higher; corn steady, 1-4 higher.

GREAT WHEAT CROPS.

Western Canada Most Attractive to Those Looking for a Profitable Investment.

An opportunity to make money! That's what Western Canada [illegible] for to-day. The [illegible] to her great future, as "the finest field of the world," is so recent that the speculator does not have to [illegible] opportunities, but finds them waiting for him. Manitoba no longer marks the limit of Canada's Commercial West. Authorities say that for three hundred miles west of that province the prairie is equally as fertile, and the strenuous efforts of the Canadian Pacific, Grand Trunk and Canadian Northern Railways are making it equally accessible. For years the plains of Western Canada have been regarded as a wilderness. The experiences of the past few years have revealed the real facts to the ignorant, however, and the fame of her great wheat fields, which averaged 25 to 35 bushels to the acre, and amounted to 68,000,000 bushels in the past year, has assured her future in the mind of the agriculturist world. The best conditions for raising the best wheat in the world, good climate and all requisites for a rapid development, make Western Canada very attractive, not only to the man who would send his money there, although he cannot go himself, but to the settler who is looking for a future home. The great corporations, such as the British-Canadian Wheat Raising Company, which are being organized for the purpose of raising wheat on an extensive scale, are practically certain of the large returns they are looking for.

LOCAL LEGAL.

The following is the report of the proceedings in the Divisional Court, Osgoode Hall: Central Canada Loan & Savings Co. v. Porter.—Judgment (L.) on appeal by defendant from judgment of Robertson, J. (I.O.W.R. 483), in favour of plaintiffs in an action of ejectment tried at Peterborough. The trial Judge found as a fact that defendant's title by possession never matured so as to displace the paper title of plaintiffs. The court holds that, upon a perusal of the evidence and the exhibits, there is no reason for disturbing the result arrived at by the trial Judge, the whole question being one of fact, the onus being on defendant, and he having, in the opinion of the trial Judge and of the court, failed to satisfy the onus. The plaintiffs are purchasers for value with a registered and without notice of the paper title of defendant, which was not registered until after this action was brought. Plaintiffs' paper title must, therefore, prevail also. Appeal dismissed with costs.—E. B. Stone (Peterborough) for appellant, D. W. Dymble, K. C., for plaintiffs.

Queen Alexandra Circle, A. O.F., will hold a prize concert in the S. O.E. Hall on Wednesday, February 18. An excellent programme has been prepared. Refreshments will be served. Tickets only 15c. 2d.

HOLD YOUR ORDERS!

A DROP IN COAL!

Having received a message on Tuesday from Buffalo, will sell on arrival of coal here, Egg, Stove and Nut, at $6.50 per ton. Small nut $7.00. Also remember our Mixed Wood, Tamarac, Hardwood Limbs, at $4.00 per cord. Also in stock, first class long and short hardwood, which will be sold at lowest prices. Wood cut and split as desired.—J. H. A. FITZGERALD.

THE DOMINION OIL CO., LTD.

Chartered Under the Laws of Ontario,

PAID-UP CAPITAL, - - - - - - - - $850,000

Has pleasure in announcing that the Directors have, **without cost to the shareholders, and without drawing a dollar from the rapidly accumulating treasury funds,** secured to the Company **600 acres** of oil leases, situated in the Wheatley district, twenty-four miles south-west of the Company's holdings in the Raleigh Oil Fields, and adjoining the several wells recently drilled and operated by the Union Gas & Oil Co. The Directors consider this a very valuable acquisition for the Company, the property having been acquired by them upwards of a year ago for personal development. The contracts are now being made for active development upon this property.

The Gurd Gusher is steadily producing about 100 barrels of oil per day, and the President states: "I have every reason to expect, as soon as we can make improvements by the installation of an air compressor, that the production will be increased to from **300** to **500** barrels per day."

Owing to the Courtesy of the Standard Oil Co., having, without expense to the Dominion Oil Co., Limited, installed a pipe line from the Gurd Gusher, the Company possesses exceptional facilities for marketing this product, **BEING IN RECEIPT OF THE HIGHEST PRICE OF ANY OIL ON THE NORTH AMERICAN CONTINENT.**

A limited amount of the Treasury Stock is procurable by public subscription for a short time only at

35c PER SHARE

(par value $1.00, full-paid and non-assessable), the proceeds being devoted to the immediate development of the properties.

A monthly dividend of ONE PER CENT upon par, equalling the rate of about THIRTY-SIX PER CENT per annum on the investment at the current price, will be paid MARCH 1ST to all shareholders of record SATURDAY, FEB. 21ST, at which date the books close.

Address all inquiries for full information regarding this very profitable investment and make all checks, draft- and orders payable to the

COLONIAL SECURITIES CO., Fiscal Agents,

LATEST IN SPORTING CIRCLES

The Toronto Bank of Commerce Seven

Will Play the Ontario Bank Team Here This Evening—Curling Notes.

HOCKEY.

TO-NIGHT'S GAME.

The longed for day has at last arrived, and the hockey enthusiasts are more than impatiently waiting for to-night's match between the Bank of Commerce team of Toronto and the local Ontario Bank team. The home team will consist of much the same players as when they played the Imperial Bank team of Toronto. This interbankers match is expected to be one of the most exciting of the season, and the balcony seat plan is open at Ormond & Walsh's drug store. The ice is in the best condition possible, owing to the prevailing temperature, and a very large attendance is expected.

* * * *

A player on Collingwood team took a peculiar, not to say unsportsmanlike stand, on the occasion of his team's going to Barrie for the last game. At the station he informed the management that $25 was the necessary sum to induce him to play in the Barrie match. He was not taken. Now he has been discharged by his employers and is ostracized by the townspeople.

* * * *

Mr. James T. McCabe is in Belleville to-night refereeing a sudden death game between Varsity 3rd and the Beach Groves of Kingston.

* * * *

The Wm. Hamilton Manufacturing Company, last night, defeated the Ackerman team by a score of 10 to 6. Mr. Ross Craig refereed the match.

* * * *

The Cordage Company team is anxious to meet the Wm. Hamilton seven.

* * * *

The Commerce is bringing a strong team from Toronto for to-night's game. Morrison, of the Bank of B. N. A., and formerly of Upper Canada College, is on the line-up.

* * * *

Mr. Ernie Wasson will referee to-night's Bank match between the Bank of Commerce team of Toronto and the local Ontario Bank septette.

CURLING.

The ice at the Charlotte street curling rink was, as was only natural, in first class condition yesterday, and the following game was played in the afternoon and the two others in the evening:

District Medal.

The following rinks met in the afternoon:

J Stanger,	J S Knapman,
A Blade,	C N Brown,
D Davidson,	C Rutherford,
T Rutherford, sk...13	S Ray, sk....23

The evening games were:

T J Mowat,	G Cox,
S Bradburn,	H Foote,
R J Frost,	D Hall,
R Neill, sk.....11	O N Brown, sk..13
G Kerr,	M Tooley,
R Waddell,	H Snowden,
G H Giroux,	A Blade,
J S Knapman, sk...20	G Fitzgerald.15

Quite a number of members turned up and the games were thoroughly enjoyed.

THE KENNEL.

The Mail and Empire of Toronto, has the following item on Canadian dogs in New York:—

Canadian dog fanciers are more than holding their own in the Westminster Kennel Club show, at New York. In some breeds they have swept the boards. Mrs. Theodore Coleman's Bedlingtons and Mr. George H. Gooderham's fox terriers defeated everything in their class, while Mr. J. A. Laurin, of Montreal, and Father O'Gorman, of Gananoque, furnished the winning Airedale and Irish terrier, respectively. The latter two gentlemen showed imported dogs, but those of Mrs. Coleman and Mr. Gooderham were bred in Copper Cliff and Toronto. Their winning therefore, is all the more a tribute to their owners' judgment and skill. It is conceded that the Norfolk Kennels on Jarvis street contain the best smooth-coated fox terriers on the continent, if not in the world. Year after year Mr. Gooderham has won blue ribbons, challenge cups and championships. Unless he should send some of Champion Vernasity's descendants over to England, where he could meet the best of the breed in Europe, it would appear that there are no more world's for him to conquer. Such noted authorities as Mr. George Raper and Mr. Theo. Marples, both Englishmen, are of opinion that their countrymen can produce nothing better than the Gooderham dogs. Bedlingtons would not be subjected to such a killing competition, in point of numbers, at least, as fox terriers. The average quality might be as high, however, so that Mrs. Coleman's success must have been a very gratifying triumph, especially in view of the fact that her most promising terriers were poisoned some time ago, as readers of Kit's page will remember. As Mr. Foxall Keene is a great fancier of Airedales, it will be seen that Mr. Laurin's victory could not be lightly won. Irish terriers, too, are very popular in the United States at present, and among others Mrs. Kernochan, the wife of a millionaire, and a great sportswoman herself, has made them a particular hobby. Messrs. W. H. Hammill and W. P. Fraser, of Toronto, also showed winning terriers, although the latter's Matchmaker, is a direct English importation. In English foxhounds, Ottawa fanciers had nothing to stop them, and in Manchester and toy terriers the winners were provided by Canadians. Collies and spaniels, in which classes there would undoubtedly be the fiercest competition, are breeds in which Ontario Quebec breeders won honours.

It may be rather late in the day to voice the regret that this country had never been able to develop a new breed of dogs. American fanciers have their especial foxhound, their Chesapeake Bay dog, and their Boston terrier; France has her diminutive bulldog and her poodle; Germany the griffon and the Great Dane; Russia the Borzoi; Ireland, her spaniel, her setter, and her terrier; Scotland, her collie, the "die hard" deer hound and the Gordon setter, and England all the others. Even Mexico and China have dogs of their own, hairless creatures, to be sure, but dogs after all. The woods are full of dogs, but few of them are bred for anything but their looks. The average intelligence of the race has deserted. A show dame has more intelligence than a show bulldog, and the latter has the constitution of a rat. A dog with the pluck of a Boston terrier and the coat, the intelligence of the old sheep dog, the temper of a St. Bernard, the size of an Airedale and the aristocratic appearance of the collie would be a jewel that money could not buy. Undoubtedly such a breed could be produced, and undoubtedly Canadian breeders would not care to admit that they are unequal to the task. Then, again, is the fanciers who wants to have his game live with that of Llewellyn? A glorious opportunity is his.

COUNCIL'S SPECIAL MEETING

(Continued From 1st Page.)

they would want help and money from the town.

Mr. Bradburn said that sugar machinery was coming into the country free of duty until the first of April of this year. The company would like the council to take action as soon as possible.

The Mayor thanked the deputation for their proposal, and said that it would come under the immediate serious consideration of the council.

Alderman Best read a report recommending the granting of the application of the Otonabee Power Co., asking to place additional poles. The report was adopted. He then read the report of the Sewerage Works, which was as follows:

Your Board of Works beg leave to report as follows:

1. A request was received from the Otonabee Power Co. for permission to place the following poles: One on Water street, two on the Market Square, one on Stewart street at Mr. Sheltons, one on Rubidge street at Mr. Laehs, and one on Chapman's creek. We recommend that the request be granted subject to the approval of and under the supervision of the Town Engineer, providing the Company furnishes plans showing the location of the poles.

2. A request was received from the Peterborough Light and Power Co. for permission to place one pole on Water street in addition to the permission granted at the last council meeting. We recommend the request be granted subject to the approval of and under the supervision of the Town Engineer, providing the Company files a plan showing the location of the poles.

All of which is respectfully submitted.

H. BEST,
Chairman.

Your Fire, Water and Light Committee beg leave to report and recommend as follows:

1. That this committee be authorized to purchase 4 gals. of rubber spots, 4 Babcock extinguishers, 400 feet of hose, two branches, and other small requirements for the fire hall, and that the Chairman be authorized to go to Toronto and engage other help and appliances to report to the Committee, and that the Treasurer be authorized to pay his expenses.

2. We recommend that the sale of the bay team in the fire hall for $160 and the purchase of a horse and the payment therefor of $160 be confirmed and that the Committee be authorized to purchase another horse and that it be paid for on the certificate of the Chairman of this Committee.

All of which is respectfully submitted.

R. CLINKSCALE,
Chairman.

The report was adopted and the council then adjourned.

WOMEN'S ILLS.

Promptly Relieved and Cured by Dr. William's Pink Pills.

Dr. Williams' Pink Pills are woman's best friend. They enrich the blood, tone up the nerves, and strengthen the vital organs to perform their functions regularly. They bring the rosy cheeks and shapely forms that tell of good health and happiness. To the growing girl they are invaluable. To the mother they are a necessity. To the woman of forty-five they mean relief and ease. Dr. Williams' Pink Pills are the best medicine that science has devised for women at all periods of life. These pills succeed when all else fails. Thousands of grateful women endorse the truth of these statements. Mrs. John White, Sahanatien, Ont., says: "It gives me pleasure to bear testimony to the great value of Dr. Williams' Pink Pills as a cure for the ailments that afflict so many women. I suffered greatly and the periods were very irregular, but thanks to these pills I am now quite well and free from the pains that made my life almost a burden. I cheerfully give my experience for the benefit of suffering women."

Remember that substitutes cannot cure and see that the full name "Dr. Williams' Pink Pills for Pale People" is on the wrapper around every box. If in doubt send direct to the Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be mailed, post paid, at 50c. per box, or six boxes for $2.50.

A NOTE OF WARNING and A NOTE OF ADVICE.

BIG REDUCTIONS IN PRICE OF **Furs!**

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT.
January 19th to 23rd.

Scalskin advanced from 20% to 40%		
Persian Lamb advanced from 10% to 20%		
Astrachan Lamb	"	10% to 25%
Racoon Skins	"	20%
Skunk Skins	"	15%
Mink	"	15%
Black Cattle Skins	"	10% to 14%
Wombat Skins	"	15%
Wallaby Skins	"	15%
Australian Coon	"	25%
Otter Skins	"	10%
Opposum Skins	"	14%
Marten Skins	"	12%

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

JEWELER and OPTICIAN

INSURANCE SWINDLE.

Detectives Expect to Unearth a Plot Within a Few Days.

Montreal, Feb. 19.—An insurance swindle with extensive ramifications is now being investigated by detectives, which may result in arrests within the next few days. Six cases, amounting to $20,000, are at present being investigated. The swindle is said to have consisted of misrepresentation at the time policies were taken out, and the scheme was worked by an organized party to defraud the companies. An investigation of past claims is also likely to result.

"Burke and Hare" in New York.

New York, Feb. 19.—Assistant District Attorney Krotal said yesterday that the insurance fraud case now under investigation in this city promises to develop into one of the most startling in the criminal history of the city. "I should not be surprised," he said, "if it were proved that the conspirators went so far as to murder in cold blood to get bodies for the purpose of collecting on the policies. The fate of Sarah Weber was but a single instance."

Anarchist After Emperor William.

Barcelona, Spain, Feb. 19. — The newspapers yesterday publish an account of an anarchist meeting recently held here, at which a German engineer, who had been in Barcelona a fortnight, and who has started for England, declared he pledged himself to make an attempt on the life of Emperor William of Germany.

Child Blinded by Hot Poker.

Port Jarvis, Feb. 19.—Bessie McCarty, aged five years, and her sister Grace, aged three years, were playing about the kitchen stove yesterday, when Bessie ran against the point of a red-hot poker which her little sister held. The point of the poker ran into her right eye, blinding it.

All Day Long

From one end of the store to the other—upstairs — downstairs — a C-O-N-T-I-N-U-A-L crowd, and why? Because the inducements are here. Every department contributes some extraordinary Bargains during this Ten Days' Sale. Never before have we offered bigger reductions—never before more desirable lines. Quantities large enough to last the ten days (not all lines, but many lines.) The inducements are strong, and the crowds must continue.

J. SUTCLIFFE & SONS.

P.S.—We will have to ask the kind indulgence of those whose parcels were not delivered as quickly as we should have liked. Notwithstanding the extra delivery force, we have been compelled to disappoint some.—J. S. & S.

SHOT "OLD DAD."

Five of His Good Friends Killed Him for a Bear.

SENT UP FOR MANSLAUGHTER

Coroner's Jury Returns a Verdict in the Case of Robert Johnson of East Toronto, Who Was Killed by His Comrades Near Utterson in Muskoka on Thursday of Last Week.

Bracebridge, Feb. 19.—On Thursday of last week, Robert Johnson of East Toronto was shot on the Long Swamp road, three-quarters of a mile from Utterson, in the District of Muskoka.

The coroner's jury returned a verdict that Johnson came to his death from wounds received from a Martini rifle in the hands of Edward Hunter of Wyevale, and that Henry Guest of Wyevale, Edward Dunn and Albert Laking of Utterson and Samuel Burley of Orillia were equally culpable.

The preliminary investigation was concluded before Police Magistrate Spencer of this place, and all of the prisoners were committed for trial on a charge of manslaughter.

It appeared from the evidence that the defendants and the deceased were engaged at a lumber camp near Utterson. Johnson left the camp the morning of Feb. 11, after breakfast, and went to Utterson, where he became intoxicated. About 5 o'clock in the evening he started up the North road towards the camp. No one saw him alive to speak to him after that.

About 7.30 o'clock in the evening, the defendants, Laking and Dunn, left the camp for Utterson, and, as they came to the end of the Long Swamp road, saw what they took to be a bear lying at the edge of the track. They hurried back towards camp, and met the other three boys, and told them there was a bear in the road, and asked Hunter to get his rifle. He went back to the camp, and, in a short time, returned with the rifle.

The five then proceeded along the road until they came within about 30 yards of the supposed bear. It had not yet moved. They all still supposed it to be a bear, and three shots were fired. Two penetrated the body. They then approached and ascertained that it was their comrade, Johnson that had been shot.

They surrendered themselves at Utterson, and had the body brought there where the post-mortem was held the next day. They were all good friends with the deceased, and familiarly called him "Old Dad" in the camp.

Deer Hunters Must Beware.

Albany, N.Y., Feb. 19.—It will no longer be an accident to shoot a human being by mistake for a deer, if Assemblyman Mathews' bill, introduced yesterday, becomes law. Under its terms, the killing of any person by a hunter in this manner becomes manslaughter in the second degree, and to wound him thus without fatal results a felony, punishable by imprisonment for five years or a fine of $500.

CUTE VENEZUELA.

Attempt to Make Foreigners Pay Amounts Owed to Powers.

Washington, Feb. 19.—The following cablegram was received at the State Department yesterday from United States Charge d'Affaires Russell at Caracas: "Minister of Foreign Affairs has decreed 30 per cent. increase in duties on all imports, as war measures."

Practically all of Venezuela's imports are in the hands of foreigners, and it is evidently the intention to make them pay the indemnity which Venezuela is to pay the powers. Thirty per cent. of customs receipts at La Guayra and Puerto Cabello are to be assighed to the claimant nations.

M. C. R. KILLED HIM.

John Davis of Hagersville Victim of Railway Accident.

St. Thomas, Feb. 19.—A fearful accident occurred on the M. C. R. at Perry Station about midnight Tuesday night. John Davis of Hagersville was killed. Mr. Davis was in the caboose of a west-bound freight on which he had a carload of horses, when a west-bound light freight ran into the freight, wrecking the caboose and killing Mr. Davis. No one else was injured.

Cutting Down Taverns.

Windsor, Feb. 19.—A communication has been received from headquarters in Toronto by the license inspectors for North Essex, stating that the number of hotels in the riding must be materially decreased, and that some of the licenses are not to be renewed for the coming year. To-day there is a tavern in North Essex for every 325 inhabitants, and in South Essex one for every 900.

GERMANY TO TURKEY.

Advises the Porte to Execute Reforms in Macedonia.

Berlin, Feb. 19.—It was semi-officially announced yesterday that Germany had instructed her Ambassador at Constantinople to endeavor to persuade the Porte to execute the Austro-Russian program of reforms proposed for Macedonia.

WEDDED THIS MORNING.

Mr. Daniel J. Devine Joins the Ranks of Benedicts.

The wedding took place at St. Peter's Cathedral at 10 o'clock this morning of Miss Annie O'Connell, daughter of Mrs. T. O'Connell, Ashburnham, to Mr. Daniel J. Devine, of town. The ceremony was performed by Rev. Dr. O'Brien. The bride was attended by her cousin, Miss Mary O'Connell, whilst Mr. W. P. Crowley, of town, supported the groom. At the conclusion of the marriage ceremony the wedding party repaired to the residence of the bride's mother, where a sumptuous wedding breakfast was partaken of.

Mr. and Mrs. Devine will take up residence on George street, town.

The bride is one of Ashburnham's most popular young ladies, whilst the groom is well known to Peterborough people as one of the town's most progressive insurance men. He is also prominently connected with the hockey club in connection with St. Peter's T.A.S. The Examiner joins in extending to Mr. and Mrs. Devine the best wishes of a wide circle of friends.

WEDDING BELLS.

Mr. Michael O'Brien And Miss Elizabeth Slattery the Contracting Parties.

A very pretty wedding was celebrated last Tuesday morning at 8 o'clock, the contracting parties being Miss Elizabeth Slattery and Mr. Michael T. O'Brien.

The wedding was performed in St. Peter's Cathedral, and the bride, who looked most charming in blue, was supported by Miss Sullivan, and the groom had as his best man, Mr. Wm. McCormack. After the ceremony had been performed, a most excellent wedding breakfast was served.

The presents received by the bride were numerous.

The newly married couple will reside in Ashburnham.

MILITARY MATTERS.

Important and Interesting Changes in the Militia Officers.

In the latest Militia General orders, the following changes of promotions or resignations, are conspicuous:

3rd "The Prince of Wales Canadian Dragoons"—G. H. F. Hayward, having been discharged from special service in South Africa, is reinstated as lieutenant. To be 2nd lieutenant, provisionally, R. W. F. Jones.

13th "Gananoque" Field Battery — Major S. A. McKenzie, on completion of command is transferred to the reserve of officers. To be major and command the battery, Captain J. B. Robinson, vice Major S. A. McKenzie.

34th (Ontario) Regiment — Lieutenant F. J. Clysdale resigns his commission.

45th (Victoria) Regiment—To be lieutenant-colonel and to command the regiment, Major R. H. Sylvester, vice Lieutenant Colonel S. Hughes, M. P., transferred to the reserve of officers. Major W. J. Neill is transferred to the unattached list.

46th (Durham) Regiment—To be captain, W. C. Frank.

49th Regiment (Hastings Rifles)—Provisional 2nd Lieutenant H. F. Ketcheson having failed to qualify, his name is removed from the list of officers of the active militia.

57th (Peterborough Rangers) — Lt. R. E. Layfield resigns his commission.

SENTIMENT OF THOROLD.

Board of Trade's Resolution on the Power Question.

At a meeting of the Thorold Board of Trade Monday evening the question of electric power was fully discussed, and the following resolutions unanimously adopted:—"That this Board of Trade do hereby enter a protest in regard to the action of the City of Toronto, and favouring to obtain a monopoly of the transmission and distribution of the electrical energy now being developed by different companies at Niagara Falls, to the detriment of the municipalities in this district. And that this Board of Trade is of the opinion that the municipalities in close proximity to the point of development should not be charged the same rate per horsepower as municipalities at a greater distance, owing to less cost of transmission."

BEET SUGAR INDUSTRY.

Peterborough Likely to Have a Factory Next Summer.

(Lindsay Post.)

Lindsay and Peterborough people started in together to talk up a beet sugar factory, but they're not likely to come out together. The enthusiasm of our pioneer agitators was dashed by the cool reception given the project by our farmers, who did not evince any eagerness to cultivate beets at the prices deemed remunerative in Michigan and elsewhere. Peterborough people, however, displayed the right kind of pluck, and as a result there is a strong probability that in the near future many of our farmers will be making contracts with a Peterborough factory.

SUNLIGHT SOAP

Unless the soap you use has this brand you are not getting the best

Ask for the Octagon Bar. 245

Miss Alice Bailey, of Atlanta, Ga., tells how she was permanently cured of inflammation of the ovaries, escaped surgeon's knife, by taking Lydia E. Pinkham's Vegetable Compound.

"I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it **inflammation of the ovaries**, and proposed an operation.

"I felt so weak and sick that I felt sure that I could not survive the ordeal. The following week I read an advertisement in the paper of **Lydia E. Pinkham's Vegetable Compound** in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, and in the end I was cured by it. I had gained eighteen pounds and was in excellent health." — MISS ALICE BAILEY, 50 North Boulevard, Atlanta, Ga. — *$5000 forfeit if original of above letter proving genuineness cannot be produced.*

The symptoms of inflammation and disease of the ovaries are a dull throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with occasional shooting pains. The region of pain sometimes shows some swelling.

Daily Examiner.

London (England) office—168 Fleet street, E. C., Central Press Agency Limited, Special Agents.

THURSDAY, FEBRUARY 19, 1903.

POLICY OF EXPEDIENCY.

The Ottawa Citizen wails lugubriously over the "giving away" of Niagara franchises for $80,000 a year "spending money." Will it assuage the Citizen's grief, asks the Hamilton Times, to be told that when the companies now chartered under stringent Government regulations, get to work fully, they will pay into the coffers of the people of Ontario $308,500 a year (not $80,000 only) "spending money?" And the "people" as a people will not be burdened with interest on a huge debt to develop power, while those who get the benefit of power, which is the gift of nature to all of us, will pay to the common fund a reasonable sum for using it. The Times might have suggested that the Citizen expend some of its indignation upon the proposal of Mr. Whitney, who, speaking at Niagara Falls in the Welland bye-election of 1900, declared that his policy was that Niagara Falls power be "free as air," and if invested with the Government of the province, he would do all in his power to make it so. Mr. Whitney's policy, enunciated with a view of bribing the electors of Niagara Falls to vote for his candidate, would have wiped out not only "$80,000 spending money," but a present revenue of $308,500, and a prospective revenue of a million, if all the power available should be developed and pay into the coffers of the province, in proportion to the contributions of existing power companies. A policy of expediency leads its author and apologists into many blind lanes.

EDITORIAL NOTES

The Trade Review is quoted to show that very large exports of pulp wood are being shipped from Quebec to the United States—the estimate being 100,000 cords the next season of navigation. This shows by contrast the superiority of the Ontario system by which not a stick of pulp wood can be exported in an unmanufactured condition. Yet at the last general election some Conservatives were urging this Province to adopt the Quebec system of dealing with its pulp wood. The Ontario Government has adopted the policy of Ontario for Ontarians.

From 1884 to 1890 the Conservatives collected $169,675,994. From 1890 to 1896 the same party called upon the people to pay "taxes" to the amount of $168,866,363, thus effecting a reduction of $810,631, as compared with the corresponding period immediately preceding.

Sir Wilfrid then came into power with his pledges of economy. From 1896 to 1902 his Government has taken from the people in "taxes" $213,558,036, or an increase of $44,692,673 as compared with the last six years of Conservative rule. —Belleville Intelligencer.

Admitting the absolute correctness of the foregoing figures, the inference drawn may be called absolutely incorrect and misleading.

The fact is that under the Liberal administration the rate of taxation was lowered, and therefore there has been no increased taxes. But there has been under Liberal rule an exuberant prosperity, and with abundant employment, high wages, and extraordinary activity in all industrial and commercial spheres, more money came into the people's pockets, enabling them to buy more dutiable goods, and, therefore, with even a lower rate of customs duties, there was a tremendous increase in revenue. If the Intelligencer could treble its subscription list, even with lower subscription rates, it would proportionately increase its receipts, without imposing additional "taxes," except, perhaps, in additionally taxing the credulity of its readers with such specious and clap-trap argument, as that quoted above.

SIR OLIVER MOWAT.

London News.

It is announced that the injuries which Sir Oliver Mowat sustained in a fall five weeks ago are such as to make it impossible for the Lieutenant-Governor to be seen in public again. The profound sympathy of the entire Dominion will be aroused by the announcement, for probably no more brilliant Canadian lives than the man, who after half a century of public life, still fills the position of Lieutenant-Governor of the most important province of Canada. Like Gladstone, this Grand Old Man has chosen to wear out rather than rust out, but the greatest of men must sooner or later pass off the stage of life. Sir Oliver has made every young man in Ontario his debtor, whilst every man in Canada is likewise indebted to him. During all the years he held office in Ontario, not a single act can be traced to his Government, which was not in the interests of liberty and equality amongst all classes. His has been a noble life's work, and now as he lingers in the misty shadows of ripe old age, Canadians one and all hasten to do him honour and to acknowledge their appreciation of a Canadian life well spent for Canadians. The spectacle of the brilliant but aged statesman tottering on the brink of the Unseen, recalls to mind the words of an old verse, entitled, "From Shore to Shore."

In Childhood's hour, with careless joys
upon the stream we glide;
With Youth's bright hopes we gaily
speed to reach the other side.
Manhood looks forth with careful glance.
Time steadily plies the oar;
Whilst Old Age calmly waits to hear
the keel upon the shore.

NOT DEAD YET.

The magazines are full of reasons why Great Britain has lost her manufacturing supremacy. Some *attribute it to her free trade policy*, others to her trade unions, while the drinking habits of her workingmen and the superior intelligence of their rivals in other countries are occasionally mentioned among the causes of her decadence. But there is another side to the story. Here are the figures which show the exports of manufacturers by the other chief exporting nations:

United Kingdom	£230,000,000
Germany	150,000,000
France	85,000,000
United States of America.	80,000,000

Commercial Intelligence remarks that 76,000,000 Americans, with their enormous territory and resources and all the free advertising placed at their disposal by British press agencies, "invade" the world at large with less manufactured articles than do the 39,000,000 inhabitants of the "dying nation" France. Britons, half as numerous as the citizens of the United States, export nearly three times as much in value of manufactured goods. Britain exports £6 per head of her population, the United States £1 per head. If Britain has lost her manufacturing supremacy, the purchasing nations of the world have not yet become aware of the fact.—Hamilton Times.

AN EASY WAY.

A person injured by an explosion of gasoline brought suit at St. Paul against the Standard Oil Company, and the jury before which the case was tried gave the plaintiff $10,000 damages. The St. Paul papers state that the Standard Oil at once advanced the price of oil in that city, and in nine days collected from the local public enough in extra price to pay the full amount of the judgment and costs. It is not the centralization of business in the hands of the great corporations so much as high-handed acts of this character that stir up the public against them.

LAKEFIELD WEEKLY BUDGET.

The Work on Dam No. 3, is Progressing.

Some Personal Mention—Keene Interest in Curling—Visited the Rink Here.

(From our own Correspondent.)

Mr. J. M. Kilbourn left on Monday for a trip to Toronto, Hamilton and Owen Sound.

Keen interest is being taken in curling just now in the village, as the president and vice-presidents matches are being run off.

Mr. E. W. Tanner spent Monday and Tuesday in Toronto on business.

A jolly crowd of skaters drove to Peterborough on Friday evening and partook of a skate at the new rink, after which they were entertained at the home of Mrs. Lightfoot.

A number of persons from Lakefield took in the opera at Peterborough on Monday evening, which they enjoyed very much.

Miss Jennie Quinn left on Tuesday for Calgary, N.W.T., where she intends residing in future.

The Spaldings of Peterborough, played a game of hockey with The Grove Preparatory School here on Saturday last, which resulted in a victory for the home team.

Mr. Clare Bravender, of Peterborough Collegiate Institute, is spending a week at home owing to ill-health.

Mr. Stuart Fraser, who was detained from school last week, owing to illness, has again resumed his studies at the Peterborough Collegiate Institute.

Mr. Wm. Patterson, of the Bell Telephone Co., of Peterborough, is in the village installing a telephone in the Grove Preparatory School.

The work on the Lakefield Portland Cement Co's dam, No. 3, is rapidly nearing completion under the able management of Mr. Edward Wade.

Miss Mead, trained nurse, Peterborough, who has been attending a case in the village, has returned home.

Miss Young is visiting relatives in Peterborough.

Miss Robertson, of Peterborough, is the guest of Miss Cox, of the village.

Echo Club of Peterborough, drove to Lakefield last Friday evening and partook of a sumptuous oyster supper served by Mine Host John Craig.

A DAILY NUISANCE.

A Simple Remedy Which Will Interest Catarrh Sufferers.

In its earlier stages catarrh is more of a nuisance than a menace to the general health, but sooner or later, the disease extends to the throat, bronchial tubes and even to the stomach and intestines.

Catarrh is essentially a disease of the mucous membrane, the local symptoms being a profuse discharge of mucus, stoppage of the nostrils, irritation in the throat, causing coughing, sneezing, frequent clearing of the throat and head, and gagging.

The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treatment which removes the catarrhal taint from the blood and the disappearance of the inflammation from the mucous surfaces.

A new remedy which meets these requirements, and which so far has been remarkably successful in curing catarrh is Stuart's Catarrh Tablets.

These Tablets act upon the blood and mucous membrane only. They can hardly be called a secret patent medicine, as they are composed of such valuable remedies as Blood root, Hydrastin, Red Gum and similar cleaning antiseptics, which cure by eliminating from the blood and mucous surfaces the catarrhal poison.

Stuart's Catarrh Tablets are large, pleasant-taking lozenges, taken internally, allowing them to dissolve slowly in the mouth. In this way they reach the throat, fauces and entire alimentary canal.

If desired they may also be dissolved in water and used as a douche, in addition to the internal use; but it is not at all necessary to use a douche, a few of them dissolved in the mouth daily will be sufficient. However, when there is much stoppage of the nose, a douche made from these Tablets will give immediate relief, but the regular daily use internally of the tablets will cure the whole catarrhal trouble without resorting to *the inconvenience of a douche.*

Dr. Bement says "that the internal treatment for catarrh is rapidly taking the place of the old plan of douching and local application and further says that probably the best and certainly the safest remedy at present on the market is Stuart's Catarrh Tablets, as no secret is made of their composition and all the really efficient remedies for catarrh are contained in this tablet."

Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized packages. Ask your druggist and if he is honest he will tell you there is no safer, more palatable, more efficient and convenient remedy on the market.

SOUTH MONAGHAN.

An Interesting Open Meeting of the Young People's Club.

(From our own Correspondent.)

An open meeting of the Young People's Club in connection with the Presbyterian church of this place, was held on Monday night of last week. A debate, "Resolved that labour unions should be suppressed," was given by members of the club. The affirmative was supported by Messrs. M. Roberts and E. Anderson; the negative by Messrs. Pickup and W. Brown. The affirmative won by one point. The programme was quite lengthy and varied, and showed how much may be done towards cultivating the mind by practice on the platform. Special mention might be made of a recitation given by Miss May McIntosh, which brought down the house. The programme was as follows:

Chorus ... ...Members of club
Chairman's address..... ....
Instrumental duet...H. Wood and H. Bateman
Solo..... ... .J. H. Isbister
Debate..... ....
Recitation..... ....Miss McIntosh
Dialogue..... ....Club
Song..... ....Club members
Critic's report..... ....
National Anthem.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and bake when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

FIRE THAT WAS FATAL.

Escape of Guests of St. Clair Hotel, Port Huron—A Yardsman Missing and a Fireman Fatally Crushed.

Port Huron, Mich., Feb. 19.—The St. Clair Hotel, one of the largest hostelries of this city, was burned early yesterday. Yardman Worthy is missing. Milton Campbell, a fireman, was fatally crushed under falling walls. Three firemen were slightly injured. All the hotel guests made their escape. Many fled in their night clothes when they awoke to find the house filled with a dense smoke. The fire started in a bakery.

Child Fatally Burned.

Toronto, Feb. 19. — Mamie, the four-year-old daughter of Charles McConnell, janitor at 37 Yonge street, was terribly burned about the face, neck and shoulders yesterday morning. The little girl was seated beside the kitchen range about 8 o'clock, when a spark from the stove dropped on her clothing. In an instant she was enveloped in flames. Mrs. McConnell, with great presence of mind, picked up a blanket and smothered the flames. The child died shortly afterwards.

Firemen Rescued Girls.

Gloversville, N. Y., Feb. 19.—Fire, which broke out shortly after 6 o'clock last evening, totally destroyed the two-storey brick structure occupied by the Glenn Telephone Company in Johnstown. The local exchange, consisting of over 1,000 telephones and newly instituted and valuable apparatus, is ruined. The telephone girls were cut off from escape and were rescued by firemen from the second storey. The damage is placed at between $15,000 and $20,000.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Concession to Fish Company.

Toronto, Feb. 19.—The Manitou Fish Company, capitalized at $40,000, have been granted twenty-year concessions on Manitou Lake, and Manitoulin Island. Their catch is limited to 200 tons the first year, and not more than 400 tons in any succeeding year. They are bound to establish a hatchery and to deposit 10,000,000 fry of trout, whitefish and pickerel in the lake. They will pay a graded scale of rentals, amounting to $1,500 for the first year, $2,000 for the second year, $3,000 for the third, $4,000 for the fourth and $5,000 for the fifth and each subsequent year.

C.P.R. IS NOT EXEMPT

North West Territories Can Tax the Big Railway.

MR. HOWELL'S ARGUMENT.

Claims That the Interests of the Railway Were Not Safeguarded When the Territories Were Established and That Consequently They Have the Right of Taxation — Manitoba's Case.

Winnipeg, Man., Feb. 19.—The argument in the tax exemption cases was continued before the full court yesterday. Mr. Harvey, the Deputy Attorney-General of the Territories, was present to watch the proceedings. The counsel for the plaintiffs, H. M. Howell, who is acting, in reality, under instructions from the Minister of Justice, has brought into the discussion an argument hitherto unheard of, that has created a great stir in legal circles. It is, in effect, that the Dominion Parliament, in granting, in 1888, powers of taxation to the Territories, failed to safeguard the rights of the Canadian Pacific to an exemption from taxation in its lands, in consequence of which oversight, the Territorial Government has been free since that date to levy taxes on the lands of the company.

By the Dominion Act, passed on March 21, 1881, for the extension of the boundaries of the Province of Manitoba, it was provided that the terms and conditions upon which such increase was made were as follows: All the enactments and provisions of all the acts of the Parliament of Canada, which had, since the creation of the Province of Manitoba, been extended into and made to apply to the said Province, should extend and apply to the added Territories as fully and effectually as if the same had originally formed part of the Province, and the boundaries thereof had, in the first instance, been fixed and defined, as was done by the act. Further, the said increased limit and the territory thereby added to the Province of Manitoba should be subject to all such provisions as might have been, or should thereafter be, enacted respecting the C.P.R. and the lands to be granted in aid thereof.

Seven years later, in erecting the North West Territories, and giving them certain powers of legislation, the Dominion Act did not contain any proviso that the Territory should be subject to the provisions respecting the C.P.R. and the lands granted in aid thereof.

Mr. Howell argued, in support of the Springdale School District case, that, as the N.W.T. Act did not contain the provision stated above, the Territories were not bound by the provisions of the C.P.R. contracts.

At the opening of the court yesterday morning, Mr. Howell stated he adhered to the agreement which he had previously advanced, and Mr. Ewart, for the C.P.R., addressed the court in reply.

EATS BREAKFAST NOW.

Mrs. A Waddell used Dodd's Dyspepsia Tablets, has Her Dyspepsia and Found an Appetite.

Some people have Dyspepsia and do not know it. They know they have headaches, that they are nervous and irritable, troubled with sleeplessness and generally run down. But they never think of charging up their troubles to where they spring from—the stomach.

If the stomach does not do its work properly—digest the food properly—the necessary nourishment is not supplied to the different organs and the latter become overtaxed and worn and unable to supply the demands the day's work makes on them.

The remedy is to have the food properly digested. Dodd's Dyspepsia Tablets digest the food and the body supplied with the nourishment it requires, does its work readily and easily. The headaches disappear and the tired, restless feeling with them. Mrs. A. Waddell, 34 Simcoe street, Hamilton, has proved this. She says:

"I had been troubled for four years with heavy headache and heartburn. I doctored with the best doctors, but they failed to help me. I commenced using Dodd's Dyspepsia Tablets and soon found I was cured.

"I can now eat breakfast in the mornings; before I could not touch a bite."

LEFT MANY CREDITORS.

Claims Aggregate $20,000 With Only $500 in Goods.

Montreal, Que., Feb. 19.— "I have not the face to meet my creditors," was one of the statements made in a letter written to a friend a few days ago by George Margolius, who has been doing business for the past six months at the corner of Notre Dame street and Dollard lane, but who has left the city for parts unknown. The more the case is looked into, the worse does it appear. So far the total list of liabilities foots up to $20,000, and, perhaps, a larger sum, and the missing man did not leave $500 worth of goods behind him, hence the chagrin and ire of the creditors.

Although the wholesale men have good reason to complain, their faces were not half so long as the personal friends who endorsed notes, loaned money, and became personally responsible for comparatively large sums of money.

A large creditor explained last evening that Margolius, who has been in business six months, had purchased goods from all who would give him credit, and then sold the same to outsiders for cash, at 20 per cent. less than invoice price. Buttons, it happens, were one of his specialties, selling them here at 12 cents a gross, when the wholesale trade realized that they had cost 16 cents in New York.

Laxative Bromo Quinine Cures a Cold in One Day, Grip in 2 Days. E. W. Grove on every box. 25c

DISGRACELUL SCENE

Mr. Munns Roughly Handled by a Mob at Aurora.

FREE SPEECH WAS DENIED

Dead Skunk Hurled at the Prohibition Candidate in the Hall—Outside He Was Knocked Down Several Times and Rescued by Friends—Repudiated by Prohibition Workers.

Aurora, Feb. 19.—Mr. Wm. Munns, the third candidate in the field for the riding of North York in the Provincial bye-election, who claims to represent the temperance cause, went through an experience last night which has seldom been paralleled in Canadian annals, and which reflects no credit upon the participants in the disorder. The meeting at Newmarket Tuesday night was rough enough, but Aurora's performance tonight eclipsed it completely. The commencement of the meeting promised well, but soon the disorder began. Mr. Munns succeeded, however, in saying a few things, and then gave up because of exhaustion.

Mr. J. M. Walton, Secretary of the Grand Division of the Ontario Sons of Temperance, made a brief speech, showing that Mr. Munns was not supported by any responsible temperance organization, and that the Dominion Alliance had yesterday afternoon passed a resolution regretting that Mr. Munns was in the field. Mr. Walton was the only one to obtain a fair hearing.

When the meeting had broken up as a result of Mr. Munns' failing to tell who had brought him out as a candidate he was roughly handled. A dead skunk was thrown at him from the hall, and a rush was made for the platform that upset everything, benches, chairs and tables. Upon the platform the mob formed a ring about Mr. Munns while he put on his coat and rubbers. Some one then was shoved forward, and soon the luckless candidate was standing at bay in a corner of the wall. Next he was buffeted about and shoved off the platform.

Slowly he made his way to the door, being pushed about and hit at from all quarters, while the young girls in the audience stood up on their chairs, waved their handkerchiefs and shouted. The mob followed along the street, laughing, hooting and flinging derisive epithets at Mr. Munns.

As they neared the hotel Mr. Munns ran a few steps. The crowd doubled up, some jostled him and knocked him down several times. On the steps of the hotel one of the mob jumped upon him and dragged him down the steps, and others piled on. For a moment the situation appeared dangerous, but a few cooler heads interfered, and Mr. Munns was permitted to enter the hotel and go to his room.

For an hour or more the men crowded the hall, hoping for a further chance to molest Mr. Munns, but it was not presented, and in the end peace was obtained.

Mr. J. A. Nicholls, of Montreal, who appeared on behalf of Mr. Munns, also had a difficult time, but managed to find safety with Mr. Walton. As the crowd dispersed many threats were made about the morrow.

Joint Meeting at Sutton.

Sutton, Feb. 19.—The third of the series of joint meetings arranged between Hon. E. J. Davis and Mr. T. Herbert Lennox in the Drill Hall here last night was, like those which have preceded it, orderly and good-natured. Towards the close there was an inclination to interupt the speakers, but the appeal of the Chairman was in every case effectual in restraining the ardor of enthusiasts, and both candidates received a good hearing.

Mr. Davis in the course of the evening took up the Jackson-Elliott matter, and stated that Mr. Elliott's application for a position was made in the ordinary way, a year or more before the election. He had not given any promise of an appointment, but had merely written a courteous letter, as he did to every applicant. As Commissioner of Crown Lands, it was, Mr. Davis said, his duty as well as his pleasure to give any information and assistance he could to any elector of North York who was desirious of locating in new Ontario, in order to enable him to secure a good location.

OVERDOSE KILLED HIM.

Former Port Perry Man Takes Too Much Chloroform.

Kingston, Feb. 19.—E. L. Ebbles was found dead in bed yesterday morning. He had been addicted to the use of drugs and took an overdose of chloroform. The death occurred at Irwin's, a fashionable boarding house. Ebbles was in the best of spirits, and Tuesday joined a fraternal society, the I.O.O.F. His father is a prominent barrister of Port Perry, Ont. He came here in August and bought out E. C. Mitchell, druggist, and started up for himself. There will be no inquest. Ebbles was 28 years old.

Sixteen Fell in Africa.

London, Feb. 19.—At the annual meeting of the Royal Colonial Institute, Sir Henry Norman unveiled the memorial tablet to sixteen fellows of the Institute who lost their lives during the recent war in South Africa.

Lemon Crop Killed.

Los Angeles, Cal., Feb. 19.—The cold wave which has swept over southern California during the past four or five days, bringing snow and frost, is broken. In certain localities, the entire lemon crop was killed. It is conservatively estimated that the loss will be between ten and twenty per cent. of the entire crop.

CRIME FOR $40,000.

Master and Shipper Sentenced to Four Years' Penal Servitude.

St. John's, Nfld., Feb. 19.—Alder Nicholls, formerly master of the British schooner Bessie Dodd, and George Jarrett, the shipper of her cargo of fish, pleaded guilty yesterday of casting away the schooner on the Labrador coast last October to secure $40,000 insurance. They were sentenced to four years' penal servitude.

Reward of Excessive Virtue.

A curious example of the reward of excessive virtue is the case of certain British pickle manufacturers, who have been making their pint bottle hold a little more than a pint, to be on the safe side of the British law. When these pint bottles arrived in Canada they found that there was a law in operation which provides that any package measuring more than a pint must pay duty as a quart!

Choking With Bronchitis.

Madame Gauthier, of Montreal, Suffered for Two Long Years Before She Obtained Any Relief.

Then She Tried Powley's Liquified Ozone—The Disease Germs Were Speedily Destroyed and She Was Better.

She Is Now Completely Cured and Pronounces Ozone a Truly Marvelous Remedy.

I rejoice to be able to state that after two long years of great suffering from bronchitis, in which I was the victim of a most distressing choking and smothering sensation, I have been completely cured by Powley's Liquified Ozone.

I consider it a truly marvelous remedy and warmly recommend it to all.

(Signed) MME. T. GAUTHIER,
701 St. Paul St., Montreal, P.Q.

MADAME GAUTHIER.

The following are brief extracts from the letters of a few of the many hundreds of persons who have been cured of bronchial affections by Powley's Liquified Ozone:

JOHN M. SMITH,

225 Wellington street, London, says: "I suffered from chronic bronchitis from childhood. I tried every remedy I could hear of, but got no relief until I got Ozone. I consider it a great boon to humanity, and hope the public soon learns to appreciate it."

MRS. B. HENDREN,

59 St. Clarens ave., Toronto, says: "For four or five years I suffered terribly from bronchitis and asthma. I tried all kinds of remedies but got no better. Ozone helped me at once. Since commencing to take it I have gained 20 pounds in weight, have much greater vitality and sleep splendidly, something I could never do before."

J. W. KIRKUP,

781 St. Urbain street, Montreal, says, "I had taken but two bottles of Powley's Liquified Ozone when I was cured of a very serious attack of bronchitis, and to-day I am entirely free from this trouble. I consider this remedy the greatest discovery of the age for curing disease."

Ozone is a Healer and Cannot Injure.

Many drug preparations used to alleviate the symptoms in pulmonary and bronchial affections give a certain amount of temporary relief, but at the same time prove injurious to different organs of the body. This is especially true in the case of persons with weak stomachs. Powley's Liquified Ozone contains no drugs, and instead of irritating a delicate stomach soothes and heals it. In fact it is impossible for Ozone to prove anything but beneficial to every organ of the body. It simply cures disease by destroying the disease germs that cause it.

Powley's Liquified Ozone is sold only by reliable dealers—never by peddlers. Price 50 cents and $1.00 per bottle. Our free book on receipt of name and address.

Probabilities.

Fresh westerly winds; fair; low temperature again to-night. Friday, southerly winds, fair and weather gradually moderating.

St. Andrew's

Church choir practices to-night at 8 o'clock. A full attendance is requested.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Costumes for Carnival.

Parties wishing to secure rich outfits for the Foresters' Carnival, can see on view this evening, a collection of beautiful costumes for both ladies and gentlemen that are in keeping with the excellent prizes offered by the Carnival Committee. The costumes will be exhibited by a local gentleman in the T.A.S. Rooms, to-night and to-morrow night.

Lovers of Good Writing Paper.

Do you enjoy a good sheet of writing paper? Our new "Dutch Fabric" note paper, in two neat shades, with envelopes to match, is something you should see. Only ten cents a quire; envelopes fifteen cents a package. "Dimity" note paper, in four pretty shades — china white, delf blue, azure and grey, at 15 cents a quire. Envelopes, 15 cents. A. H. Stratton & Co.

An Opportunity to Ladies.

Commencing February 16th and continuing for two weeks, free lessons in art embroidery will be given at the Beehive by a competent teacher every day from 10 a.m. to 4 p.m. As this is an exceptional opportunity for all lovers of art needlework to get valuable pointers and instructions in this work ladies should not lose the chance of visiting The Beehive and taking lessons from the competent teacher that will instruct.

Prominent Men.

The New York Evening Post discusses the prominent men of Canada. The article deals first with Hon. Geo. A. Cox, president of the Bank of Commerce, of the Canada Life, of the British American and Western Assurance Companies, and a director in many other companies. And closely associated with him is Mr. J. W. Flavelle, President of the National Trust Company, and proprietor of the Toronto News. He, too, has rapidly ascended the ladder of fortune.

MESSRS. KERBY AND TURK.

Successful Meetings in George Street Church.

Large Attendance at Last Night's Service—The Song Service—To-morrow's Meeting.

Notwithstanding the extremely cold night a very large and enthusiastic meeting was held in George street Methodist church.

After the song service, led by Messrs. Wildgust and Mulligan, Evangelist Kerby preached a most forcible and earnest sermon from St. John 14; 6,—"And Jesus saith unto him, I am the Way, and the Truth and the Life, no man cometh unto the Father but by Me."

Men are anxious to find the truth. There was never as age when there was so much doubt. But men get what they seek—the carcass or the nectar, from God's goblets, the flowers.

A man's duty to the truth is to believe it. One thing believed in is better than 1,000 things not believed in. The men who are saving the world to-day from sin and corruption are the men who get on positive ground regarding truth.

Our third duty to the truth is to hold on to it. A man's security for time and eternity is his grip on the truth. Many a man has been swept under the wave of temptation and sin because he had nothing to hold on to.

The fourth duty to truth is to live it—not merely to seek it— or to believe it, or to hold on to it, but to live it. There is nothing so powerful as living the truth; nothing so penetrating as living the truth, and not so convincing as living the truth.

If men cannot endow a college, or a hospital; if they cannot preach, they can live the truth—in the store, bank, home, factory, farm, you may live out the truth.

In positive form then our duty to the truth is: To seek it, that means *to seek Christ, for Jesus is the truth*. To believe the truth, means to believe Christ as He is freely offered to us in the Gospel. To hold on to it, implies that you cling to Christ, and to live the truth means to reveal the Christ in all your ways.

Messrs. Turk and Kerby sang "He Waits to Pardon You."

The business men's meeting has been growing in attendance and interest each morning at 10 o'clock at Y.W.C.A. rooms.

To-morrow, (Friday) afternoon at 4 o'clock there will be a large mass meeting for Sunday School teachers and scholars, and for all public school scholars and teachers. Parents are urged to come with their children to this service.

On Sunday afternoon a mass meeting for men at 4 o'clock. All male singers are requested to meet at 3.45. Mr. Mulligan will arrange for accommodation for 75 singers.

POLICE COURT.

A Liquor Case was on the List This Morning.

At the Police Court to-day, three men were charged with buying intoxicating liquor during prohibited hours at Dunn's Hotel, George street. Mr. Dunn was charged with selling liquor to the three accused men on Saturday night after 7 o'clock.

Police Magistrate Dumble enlarged Mr. Dunn's case until Saturday morning next at 10 o'clock.

In answer to the charge of buying liquor during prohibited hours, the three accused men pleaded not guilty, but said they were not ready to proceed with their defence as they had not been able to procure counsel.

As the penalty could not exceede $3, Police Magistrate Dumble said the case could not be enlarged. At the conclusion of the hearing of the evidence, Police Magistrate Dumble found one man guilty, and fined him $2 to be paid in 10 days, but acquitted the other two.

THE TORONTO BANKERS WON

Last Night's Match in Brock Street Rink.

The Score was 12 to 9—The Toronto Men Were Picked From Several Banks.

The attendance at last night's exhibition hockey match, was disappointly small, which fact, may to a certain extent be due to the very cold weather. The match was supposed to be between the Bank of Commerce seven of Toronto, and the Ontario Bank team, of town. The Toronto aggregation was victorious by a score of 12 to 9.

The most disappointing feature of the game was the fact that the visitors, while playing under the Bank of Commerce name, were picked from various banking institutions. Only three of the players were Bank of Commerce men. Brundrette and Hiscock are Ontario Bank men; Morrison is of the Bank of British North America, and Lamont belongs to some other financial institution.

The teams were composed as follows:

Bank of Commerce — Goal, H. Strange; point, Brundrette; cover point, Bassett; forwards, Griggs, Hiscock, Morrison and Lamont.

Local Ontario Bank team. — Goal, Sawers; point, Hollingshead; cover point, H. Armstrong; forwards, Ferguson, R. Armstrong, Blomfield and McFarlane.

At the conclusion of the game the score was 12 to 9 in favour of the visiting seven.

At the outset it looked as if the home team was going to add another victory to its previous number, but second "looks" are best, and in spite of the fact that at the outset the game was four to one in favour of the Peterborough team, the half time score was four to seven in favour of the visitors.

On resuming the attack the Bank of Commerce men again scored, but this was followed, amidst great applause, by a goal scored by R. Armstrong after a magnificent rush down the ice. Another score for the visitors, and then the local team put in three consecutive goals, two of them scored by Blomfield and the third by Ferguson. At this juncture of the game the score was 10 to 8 in favour of the visitors, but it looked as if the "Ontario boys" were once more going to draw themselves ahead, but Hiscock, the dashing forward of the visiting team, twice passed the defence and scored, and the game was concluded after another goal had been scored by Roy Armstrong.

Both teams were well satisfied with the impartial way in which Mr. Ernie Wasson officiated as referee. Mr. E. R. Dewart was timekeeper.

SOCIAL AND PERSONAL.

Mr. W. J. E. Gillott, one of Millbrook's hustling business men, was in town this morning.

An item in yesterday's Examiner conveyed the impression that Dr. Tate was leaving on a trip to the South. The item was intended to refer to Dr. Tate's brother, Mr. Bernard Tate.

Miss Noble of the Turnbull Co's millinery department, is in Detroit on her semi-annual buying tour. Next week she goes to Toronto, where she will be met by her assistants, Miss Harper and Miss Knox.

Mr. J. W. Garvin has made arrangements with the Manufacturers' Life Insurance Company, whereby he will remain in Peterborough until the end of March. His connection with the North American Life ceases on February 28th, however. Mr. Garvin will spend the next month promoting the beet sugar industry in and around Peterborough.

Foresters' Carnival
Brock Street Rink
Friday Evening, Feb. 20.

See Handsome Prizes in Mr. R. McWhinnie's shoe store window.

NEWS NUGGETS.

—Always use the Examiner's want column.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—Have you anything to dispose of? Let the public know about it through the Examiner "For Sale" column.

—There will be no meeting of Court Peterborough, No. 29, to-morrow night on account of the Foresters' Carnival.

—There will be service as usual at All Saint's church this evening. Rev. E. A. Langfeldt will deliver the address.

—Charlotte street Methodist church choir will practice this evening at 7.30 o'clock in the Sunday School room.

—Messrs. Jackson, Dusty and Waller have entered in the race which will be one of the leading attractions at the carnival on Friday evening.

—Those who attend the Foresters' Carnival in costume, are requested to hand in at the door a card bearing the name of the character they are supposed to represent as well as the real name.

—The cold weather continues with but little abatement. Last night we had it down to 12 degrees below zero, and the temperature will probably go to low figures again to-night. More moderate weather is on the way here from the west.

"Never Struck Better Snaps."

That's the verdict of buyers at the sale of the Bradley stock. When you're down town come in and see for yourself. Men who want extra fine suit lengths for spring or summer, or spring overcoats or trousers; ladies who want handsome cloths suitable for skirts, costumes or jackets; boys, who want good suits for school or college—it's no trouble to sell, when everybody can see the cloth is worth so much more money. Stylish imported patterns—it's a mistake to miss them. Then the furnishings are so correct, and the prices so remarkably small. Do not let anything keep you from such surprising bargains. Remember that the stock was bought at 50 cents on the dollar, and it's a quick sale—can't last long at 150. 253 George street.

RECEIVED WITH THANKS.

Messrs. R. Fair & Co. Kindly Remembered the Fire Brigade.

Mr. T. Rutherford, Chief of the Fire Department, has received the following letter from Messrs. Robert Fair & Co.:

T. Rutherford, Esq.,
Chief of the Fire Department.

Dear Sir, — There is no public duty more trying and onerous, and that calls for greater endurance, under trying circumstances, than that undertaken by your brigade in their efforts to extinguish fires.

The difficulties are enhanced during winter weather, and those of our citizens who saw your efforts at the late fire that inflicted damage on our premises, have nothing but words of praise for your work.

I should be glad to be allowed to, in some small way, recognize your invaluable services, and beg to enclose a cheque, and to add that it is most heartily at your service, and that it gives me great pleasure so to do.

Yours respectfully,
ROBERT FAIR.

Messrs. R. Fair & Co's kindness is, it is scarcely necessary to say, heartily appreciated by the members of the Brigade. The amount of the cheque was $25.00.

A NEW BRIDGE

Will Probably be Built at Gannon's Narrows.

Yesterday afternoon Warden Crowe, Mr. G.W. Fitzgerald, chairman of the Road and Bridge Committee, and County Engineer Belcher, drove down to Wallace's Point Bridge to inspect the structure. The Engineer has recommended that 20 cords of stone be placed around the piers, and as will be noticed in the Examiner's advertising column the County is advertising for the required amount of stone.

This morning, the Warden, Mr. Fitzgerald and Mr. Belcher left for Gannon's Narrows with a view of taking measurements for the purpose of a bridge at that point from Ennismore to Harvey.

QUITE the VOGUE

Two-Third Wall Decorations and Crown Effects.

THIS method of adorning the walls is becoming quite the vogue. A very striking effect is obtained by using a two-tone stripe or plain ingrain paper upon the lower two-thirds, while a floral design decorates the upper one third of the wall. A plate rail, finished to imitate any wood, is placed between to serve as a shelf or divider. From this, pictures and hanging ornaments are suspended.

We have an excellent variety of Wall Papers, suitable for two-third combinations to select from.

Wall Paper Ends

and

Border Remnants

Before we close our stock-reducing sale we have many chances for those who are on the look-out for bargains in Wall Paper and Border. Those who wish to take advantage of fine days to do some Wall Papering will find lots of snaps worth coming for.

PETERBOROUGH'S MODERN STORE.

NEW SPRING GOODS.

There are many decidedly new features about the New Spring Goods —many decided changes from last year's styles, which you will appreciate the moment you see them.

This week we show a lot of the new ideas for 1903. New Silks, new Dress Goods, new Trimmings, new Wash Dress Goods, new Prints, new Whitewear, New Spring Ready-to-wear Suits, new Skirts, new Carpets, new Goods in every department. We are proud of the season's importations, and will be pleased to show them to you.

NEW DRESS GOODS

in both Black and Coloured, in Plain Broadcloths, Venetians, Voiles, Canvas Sail Cloths, and some of the prettiest Snowflake designs in Tweeds and fine French Goods that you have seen for many a day. The Snowflake design is one of the features of the season.

NEW WASH DRESS GOODS

If you want the very latest for Shirt Waists for the coming season, and a decided change from old styles, you want to buy what we call Mattings or Canvas Cloths or Basket Cloths. They come in plain colours in cotton, linen and silk mixtures. They are certainly the prettiest and nattiest material that has yet come out for the ever-popular Shirt Waist.

NEW READY-TO-WEARS

Many new features about the Ready-to-wears for spring, which will have to be seen to be appreciated. We show some new designs in Norfolk Suits and Russian Blouse Suits, also some very new things in Separate Skirts at decidedly good values. In Ladies' Monte Carlo Silk Coats we show some very nobby styles which you should see early before they get picked up.

WINTER GOODS

We would like to emphasize the fact that you can get anything in the way of Winter Goods at clearing prices at this store.

LATEST IN SPORTING CIRCLES

T. A. S. Team and Peterboroughs Should Meet.

Fenelon Falls Team Playing in Norwood To-night—Curling Notes.

The result of the Trent Valley League game in Fenelon Falls on Monday night is the topic of conversation in local hockey circles. It was a surprise all round. The more enthusiastic of the T.A.S. people felt that their team would defeat Fenelon on Fenelon's own ice, but the general opinion was that the visitors would come back vanquished. There were reasons for such predictions. The Fenelon team was never defeated on its own ice; it has for the past two years carried off the championship of the League, and has in fact for some years past trimmed everything it came across. On the other hand the T.A.S. team is a new aggregation—not a great deal is really known about it as yet, but from present indications the public will see plenty of it before the season is over. It is conceded by all that the T.A.S. boys won on their merits and that they are entitled to all the glory that such a victory may bring. It is also admitted by those who have given local hockey matters some study this winter, that the team that can defeat Fenelon Falls on Fenelon ice can give any team in this district a pretty stiff argument. That being the case it might be in order to arrange a series of two matches between the Peterborough O.H.A. seven and the Trent Valley League prospective champions, the T. A.S. team of town. The managements of the two teams should come together and arrange for at least two good matches, goals to count.

• • • •

Should Varsity defeat McGill tomorrow night, the three teams in the Intercollegiate League, McGill, Queens and Varsity, will be a tie for the championship. Varsity and Queens in that case will play a sudden death game and the people of Peterborough will have the privilege of witnessing it. It is understood that correspondence is in progress between the rink management and the Intercollegiate Union in reference to the matter.

• • • •

The T.A.S. team has issued bills announcing the game between Norwood and T.A.S. here on Monday evening next. This should prove to be one of the best drawing cards of the season. The people of Peterborough have seen the Norwood team play before and if they put up the same class of hockey as they did against Keene a red-hot exhibition may be expected.

• • • •

Peterborough papers are not given to "roasting" visiting teams, but the aggregation which visited Peterborough last night is deserving of a little comment to say the least. The team was advertised and was supposed to be a team picked exclusively from the Bank of Commerce, but as a matter of fact there were not any more than three out of the seven who are connected with that institution. The other four were picked men from the best bank hockey teams in the city. Amongst the number was our old friend Edgar Brundrette who returned to play against the boys with whom he learned the game. Of course there is nothing particularly offensive in this regard, but the Toronto bank clerks should pick their teams from their own particular institutions if they wish to travel under the names of their respective banks.

• • • •

Once more the Examiner sounds a note of warning to the lovers of lacrosse in Peterborough. If the town is to have a first-class team it is time that there was something doing. A meeting should be called at once to discuss the situation. The city league last year developed a lot of good blood that can be placed in the fastest company in the Province.

HOCKEY.

LINDSAY'S VIEW OF IT.

The Lindsay Post has the following to say concerning the game in Fenelon Falls:—

"The unexpected happened last night at the Cataract village. Fenelon Falls, last year's champions of the Trent Valley League, had it put over them by the husky chaps known as the T.A.S. team, to the tune of 7 to 2. It was a big surprise for everybody—even the Peterborough men themselves. They are at a loss to know how they did the trick, but it was done, and done well, and no person can say that either team did not get a fair deal as far as the referee was concerned. Mr. Wasson's decisions were fair and impartial, and there should be no complaint coming from that source. This is the first time the northern boys have ever been trimmed on their ice. Lindsay tied the score once, but could not beat them. In the past the Fenelon team has always administered a crushing defeat to their opponents, and the Otonabee boys, knowing this, naturally expected a trimming last night.

"The game was a splendid exhibition, and the ice being keen the play was fast at times. T.A.S. no doubt had the heavier team, and they used their weight to good advantage. They played an aggressive game from start to finish, checked hard, and displayed some pretty combination work at times. Their defence is a veritable stone wall, and is the main stay of the team. Crowley at cover point was always on the alert, and was given fine support by Meagher and McCoy, the latter stopping several fine shots at goal. T. A. S. forwards worked with a determination to win. Capt. Lynch and Parnell played a star game."

BOBCAYGEON WON.

The Lindsay Post says: The Bobcaygeon team won their first game of the season last night by defeating the L.C.I. septette by a score of 5 to 3. On account of other attractions and the very cold weather, the attendance was small. There were only about fifty spectators present. The ice was in fine condition for fast work, but the play was slow and proved rather wearisome to those accustomed to seeing superior hockey."

• • • •

The Lindsay Post says: "The Peterborough Intermediates say that the ice in Markham last Friday was soft and heavy, and as Port Perry were the heavier team they were greatly handicapped. On hard ice they are confident that they could easily trim Port Perry. It's easy for them to talk, but there's a gentleman in Lindsay who is willing to bet dollars to cents that the Port boys can trim the Otonabee lads on either hard or soft ice. Peterborough is not in the game this year."

• • • •

A correspondent writes to say that the machinists' hockey team of the Wm. Hamilton Company wish to contradict the report in last night's Examiner to the effect that the game between the Ackerman hockey team and them resulted in a score of 10—5 in favour of them. It should have been 14—0 in their favour, although the official score was 12 1-2—0 in favour of the Hamilton men. They further wish to state that they are open for challenges from any scrub team in town, although they are not afraid of the best team in town. They say that the Ackerman team might be in trim to play marbles by next fall.

• • • •

The Fenelon Falls team passed through town to-day on their way to Norwood to play their Trent Valley League game with the team of that town.

• • • •

The junior drug apprentices of the town have issued a challenge to the Independents for a game to be played any night next week.

• • • •

The firemen wish to challenge the moulders of the Lock Works to a game of hockey, to be played at the leisure of the latter people.

CURLING.

The Points games are to be started to-night, and will continue both afternoon and evening so that they can be completed on Saturday night. There will be a number of medals given to the players who score the most number of points during the contest, which is open to all members of the Association. The games for the cups are expected to begin next Monday night.

• • • •

Rev. J. W. McMillan finds it hard to drop Lindsay. Although he almost said good-bye to his congregation he placed himself at the disposal of the curling club and played in the Tankard finals.

LACROSSE.

There is some talk of a lacrosse club being organized in Lindsay this year and a strong team will be entered in the C.L.A. We understand Mr. C. Cameron an old lacrosse player, and Mr. Jos. Carroll, are taking the matter up, and if it goes through Lindsay will have a team that won't be afraid of Oshawa or the Ontarios of Port Hope.—Post.

RACING.

Mr. Jack O'Leary, of Lindsay, would like to hear from Mr. O. Dusty in regard to a matched race. He is acting for a gentleman who is anxious to meet Dusty on a race.

NEW MUNICIPAL BUILDINGS.

To the Editor of The Examiner:

Dear Sir,—In reading the report of the council meeting last night, I noticed that Alderman McWilliams suggested that the civic business required more room, and recommended that the fire station be removed elsewhere, and the available room devoted to the enlarging of the civic premises.

Some two years ago I spoke to the then presiding Mayor, asking if the time had arrived when Peterborough could have adequate civic offices, which would at once be a credit, and a necessary improvement over the present building. I have heard, through the daily press, complaints of the unhealthy and unsanitary situation of the lock-up, police court room and premises generally, owing to the connection to the stables of the fire hall, and think that the present building could be fitted up to meet the growing requirements of the fire hall, and the civic offices removed to new quarters.

In this respect we are most fortunate in having a splendid site where a municipal building could be built, which would improve the location and would add solidity to the town generally. I refer to the Central Park which could still be used for park purposes, and beautified, by setting the building back say two or three hundred feet. In connection there might be built a modern theatre, which would not conflict with the present hall, for I believe the public desire to have a more modern theatre, which would induce more real good plays to town, to the detriment of the questionable variety which frequently comes to us. This would not interfere with the Messrs. Bradburn, as I understand they have given up their intention of building a modern theatre. It would pay the town to lease it, or to pay a first-class man to run it. However these are details which would require to be thought out. The object of this letter is to see if any others think as I think, that it is time for adequate municipal building.

Yours sincerely,
J. J. TURNER, JR.

Peterborough, Feb. 19th, 1903.

THE COAL SUPPLY.

Arrival of Eight Car Loads at R. Hicks and Co's Yard.

We beg to announce the receipt of a consignment of eight cars of best mined hard coal—the quality that gives satisfaction.

The Oldest Established and Leading Fur Manufacturer, 417 George Street.

AN ENTERTAINMENT

That was Given in S. O. E. Hall Last Night—The Programme.

The second anniversary of Queen Alexandra Circle, No. 136, A. O. F., was successfully celebrated last evening in the S. O. E. Hall. A silk drape, a marble match box, and a beautifully dressed doll, were the prizes drawn. Special mention is due to Lt.-Col. Miller and also to Miss Dolly Harcourt and Mr. Bert Stuart, whose humorous numbers were of a most pleasing character, and repeatedly brought peals of laughter from the large audience. Mr. W. J. Carey occupied th chair.

The following programme was rendered:

Instrumental solo ....Miss Edna Pratt
Song, "When the Roses Bloom again" Miss Dolly Harcourt
Reading, "Love in a Balloon"..... Miss Lizzie Smith
Song.... ... ...Mr. Edwards
Reading, "Father Phill's Collection" Lt. Col. Miller
Humorous sketch, "Some People I Have Met" ... ...Mr. Bert Stuart
Refreshments..... ....
Song..... ....Miss King
Humorous sketch, "Domestic Squabbles"...Miss Dolly Harcourt and Mr. Bert Stuart.
Baton juggling... ... ...Mr. Andrews
Instrumental duet...Masters Ernie Hubble and Willie Bourne
Song, "Sweet Germany"..... ..... Miss Dolly Harcourt
God Save the King.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

A COLD WEATHER FRIEND.
RUBBER HOT WATER BOTTLES

"An ounce of prevention is better than a pound of cure"—a kettle of hot water and Rubber Bottle in the beginning of inflammation of any kind, will often check in a few minutes what otherwise might prove serious. Nothing better for cold feet at night. Price, according to size and qualities—from

60 Cents to $2.00 Each.

NOT JUST AS GOOD

Did you ever inquire at a store for certain articles and get for a reply "We have something just as good"? Did it ever occur to you that "Something just as good" is something the dealer has been able to buy much cheaper than the articles you inquire for? This is true in drugs, fabrics, groceries, hardware, and in fact every line, including silver-plated ware. If you inquire for 1847 Rogers Bros.' Knives, Forks or Spoons, don't accept any bogus Rogers' stamp because your dealer tells you it's just as good.

1847 TRADE MARK ROGERS BROS.

The above trade mark has been stamped on every article of the original and genuine Rogers Bros.' goods for over 50 years. Get this and you get the best that is made.

COAL WAGON BACKED.

Joseph O'Neil Killed in Peculiar Manner at Toronto University.

Toronto, Feb. 19. — John O'Neil, an employe of the Rogers Coal Company, living at 220 Ontario street, met an untimely death at the University yesterday. For the last two weeks he has been employed with a mate in shifting coal in the bins of University College. Yesterday, when a load of coal arrived, he went up from the bin to assist in getting it in. No one apparently saw the accident. It is surmised that he was in the act of blocking the wheel of the wagon, when it backed, crushing him against the wall. The accident took place at about 3 o'clock, and he died half an hour later. Coroner Johnson has issued a warrant for an inquest to-morrow afternoon.

VOLUNTARY STARVATION.

Cornwall Murderer Seeking to Avoid the Hangman's Gallows.

Cornwall, Ont., Feb. 19. — Halil Perhome, the Assyrian murderer, who is awaiting trial here at the March Assizes, is slowly starving himself to death in the Cornwall jail. For some time past Perhome has partaken of very little prison fare, but recently he has become more morose and refuses to talk to anyone. Only occasionally will he partake of the victuals placed before him. He is gradually becoming weaker and his mental faculties are declining.

Despaired of Being Cured.

Mrs. W. E. Jeffries, 44 Hicks avenue, Kingston, Ont., says: "I suffered agony with itching piles. In fact I don't believe that any person who has not had piles can realize what I endured. The first application of Dr. Chase's Ointment brought me relief, and it has since entirely cured me. I hope that this testimonial will be the means of bringing comfort to other sufferers by making known the great power of this ointment."

10TH MARCH IS DATE

Legislature of Ontario Called for Dispatch of Business.

PREMIER CABLES FOR HANDS

U.S. Fleet Ordered to Gulf Coast of Honduras—6 Below Zero in Toronto Tuesday—Mr. Smith's Death at Wingham—John Mitchell Coming to Toronto—J. W. Foster Will Direct U.S. Case.

The Legislature of Ontario has been called to meet on March 10.

Hon. Mr. Evanturel is ill with pneumonia, at his home in Alfred.

Tuesday Surgeon-Lieut.-Col. Caird Ryerson Maclean died and deprived Meaford of one of its most esteemed citizens.

Hon. R. L. Borden, the leader of the Conservative party, will leave Halifax on Saturday to take up his Parliamentary duties in Ottawa.

There was a session of the Cabinet Tuesday, with Sir Richard Cartwright presiding. Premier Laurier was confined to the house with a slight cold.

A Venezuelan Presidential decree issued Tuesday establishes a war contribution in the form of an extra duty of 30 per cent. to be levied on all imports.

A protocol re. Venezuela was signed at Washington Tuesday. It deals with claims of Americans. Queen Wilhelmina will name an umpire for The Hague Tribunal.

The Minister of Education has replied to a letter from Mr. Lawrence Baldwin, Toronto, refusing the recognition of voluntary schools as part of the Public school system.

The "Soo" Line steamers, run in connection with the Canadian Pacific Railway, will make Windsor their railway terminal point this season, instead of Owen Sound, as formerly.

La France's bindery and Mercier's printing house in Quebec were destroyed by fire Tuesday. Also George Belleau's wholesale dry goods store and stock. The total loss is about $90,000.

Fire in the carpet and house furnishing store of A. F. Banfield, Winnipeg, Tuesday, gutted the building and destroyed the stock. Loss $100,000. Tenants in the building lose $12,000.

Former Secretary of State John W. Foster has been selected to take charge of the case of the United States in the presentation of the Alaskan boundary question to the special commission.

The Western University, London, has received intimation from the Hon. Richard Harcourt, that its request for Government aid in the establishment of an institute of sanitary science cannot be granted.

The Jamaica Legislature has adopted a resolution authorizing the Government to pay $12,500 annually towards a subsidy for establishing a new, fast, direct steamship service between Canada and Jamaica.

John Armour, Brant county constable, living at Onondaga, is charged with having shown leniency in prosecution by reason of having received various sums of money. Judge Hardy will investigate the matter.

Premier Ross cabled to W. T. R. Preston, Dominion Agent in London, and to Peter Byrne, the Liverpool agent, Tuesday, requesting them to look up as many single men as possible to come out to work on Ontario farms.

President John Mitchell of the United Mine Workers will be in Toronto on the first Monday in April. The Executive of the American Federation of Labor meets here then. All labor bodies will join in great reception.

The Furness-Withy Company, who received the contract for the South African service, announced at Montreal on Tuesday that the service had proved a failure. The reason given by them was lack of wharfage and lighterage at South African ports.

Wingham people are divided in opinion over the possibility of Mr. Smith of that town having been murdered as stated in Monday's telegrams. The injuries were probably from a fall, and there is no evidence that he had the money on him at the time of his death.

The United States Government has formally accepted the offer of the Panama Canal Company, to sell to the United States the canal property and all of the company's rights therein for $40,000,000, subject only to the ratification of the pending treaty with the Republic of Colombia.

The following are the ranges of temperature at different points throughout Canada on Tuesday:—Prince Albert, 38 below—10 below; Battleford, 40 below—12 below; Qu'Appelle, 24 below—16 below; Winnipeg, 28 below—18 below; Port Arthur, 24 below—6 below; Parry Sound, 18 below—zero; Toronto, 6 below—7 above; Ottawa, 10 below—zero; Montreal, 6 below—4 above; Quebec, 4 below—zero.

It was reported at the annual dinner of the Lumbermen's Association of Ontario in Toronto on Tuesday that lumbermen had had a good year. Wages doubled in the twelvemonth, however, and railway facilities were not what are desired. A resolution was unanimously passed that no export duty should be placed on any product of the forest, but that the timber, being the property of the provinces, the policy of dealing with it should be left in their hands. W. D. Lunnis of Toronto was elected president, and W. B. Tindall, Toronto, secretary-treasurer.

Still Making Money.

New York, Feb. 17.—The Standard Oil Company has declared a dividend of $20 per share, payable March 16. This is $10 more than the last dividend declared, but is the same as the one declared at this time last year.

Fulfilled.

He—I am afraid I made an awful big fool of myself over you.

She—Yes, you have fulfilled my utmost expectations.—New York Herald.

WOULD HAVE TO STOP HER WORK AND SIT DOWN.

HOW MANY WOMEN HAVE TO DO THIS FROM DAY TO DAY?

MILBURN'S HEART AND NERVE PILLS are a blessing to women in this condition. They cure Palpitations, Shortness of Breath, Fainting or Dizzy Spells, Weakness, Nervousness, and all troubles peculiar to the female sex.

Mrs. James Taylor, Salisbury, N.B., in recommending them says: About eight months ago I was very much run down, was troubled greatly with palpitation of the heart and would get so dizzy I would have to leave my work and sit down. I seemed to be getting worse all the time, until a friend advised me to try MILBURN'S HEART AND NERVE PILLS. I can truthfully say that their use has given claim for praise, and I can recommend them to all run down women.

Price 50c. per box, or 3 boxes for $1.25; all dealers, or The Milburn Co., Limited, Toronto, Ont.

THE KING'S OPENING

Commoners and Lords Discuss His Majesty's Speech.

BRILLIANT SCENE IN LONDON

Campbell-Bannerman Comments Adversely on Britain-Germany Alliance re. Venezuela — Kaiser Called Strong But Rough—Balfour Declares Chamberlain's Actions in S.A. Have Cabinet's Approval.

London, Feb. 18.—King Edward, accompanied by Queen Alexandra, and surrounded by the court and all the officers of State, opened Parliament yesterday afternoon.

The King's Speech.

"My Lords and Gentlemen:

"My relations with all the foreign powers continue friendly.

"The blockade of Venezuelan ports has led to negotiations for the adjustment of all the matters in dispute. I rejoice that a settlement has now been arrived at which has justified the blockading powers in bringing all hostile naval operations to an immediate close.

"Negotiations have taken place for an adjustment of the questions which have arisen in regard to the boundary of my possessions in North America and that of the territory of Alaska. A treaty providing for the reference of these questions to an arbitral tribunal has been signed and ratified."

The speech next referred to the Balkan question, saying:

"The condition of the European Provinces of Turkey gives cause for serious anxiety. I have used my best efforts to impress on the Sultan and his Ministers the urgent need of practical, well-considered measures of reform."

After noting that Austria and Russia have been considering the reforms, which the signatories of the treaty of Berlin should recommend to the Sultan, the speech said:

"I trust that the proposals will prove sufficient for the purpose, and that I shall find it possible to give them my hearty support."

The King next mentioned the Aden hinterland dispute and the Somaliland expedition, and then turned to South Africa, on which subject he said:

"The progress of events in South Africa has been satisfactory. The visit of the Colonial Secretary already has been productive of the happiest results and the opportunity it has provided for personal conferences with Lord Milner and the Ministers of the self-governing colonies and the representatives of all interests and opinions has greatly conduced to a smooth adjustment of many difficult questions and to the removal of many occasions of misunderstanding."

The speech concluded with an intimation that the budget estimates of the expenditure inevitably will be large, and with promising the introduction of bills dealing with the Irish land question, London education, sugar bounties and the London docks.

In regard to the Irish measure, the King said: It will, I trust, complete the series of measures which already have done so much to substitute single ownership for the costly and unnecessary conditions still attaching to the tenure of agricultural land over a large portion of Ireland.

The King and Queen returned to Buckingham Palace at 3 o'clock. The crowds everywhere greeted their Majesties with enthusiasm.

Debated in the Commons.

When the House of Commons assembled for the transaction of business yesterday afternoon, Speaker Gully read the King's speech to a somewhat slim gathering. Mr. Gratton, Conservative, moved the address in reply to the speech.

The Liberal leader, Sir Henry Campbell-Bannerman, said he desired information of the subjects of Venezuela and Macedonia, and on the great question of the settlement of affairs in South Africa. He commented on the fact that Germany was not mentioned in the King's speech in connection with Venezuela. He opposed co-operation with Germany in a matter like the Venezuelan question. Germany was strong, but rough. Germany, also, was not favorable to the Monroe Doctrine. If there had ever been a case for arbitration, the Venezuelan affair was one, and, if this course had been adopted in the first place, a great precedent would have been established towards the peaceful settlement of international questions.

Referring to South Africa, Sir Henry said they might have differed in the past over the war, but now the war was over, he urged that they all work for the common purpose of laying the foundations for a new life in that part of the world. He heartily concurred in the sentiments and desires expressed by Colonial Secretary Chamberlain, for the fusion of the two white races in South Africa, but wanted to know if Mr. Chamberlain's acts were subject to the approval of his colleagues. If a bargain were made, who was to speak with authority for the nation?

In conclusion, Sir Henry, who spoke for an hour, criticized the growth of the national expenditures.

Premier Balfour, in reply, said Mr. Chamberlain had consulted his colleagues. He added: "We entirely endorse and make ourselves responsible for the general policy he has declared in South Africa." In regard to the conditions prevailing in Macedonia, he said they were a constant menace to the peace of Europe. The administration of the laws was defective there. An incorruptible government was needed to introduce the primary elements of order in Macedonia.

In conclusion, he defended the action of the British Government towards Venezuela. Broadly speaking, he added, the negotiations were carried out with the greatest regard, not only for the feelings of the American people and Government, but for the feelings of Venezuela.

The debate was then suspended.

Passed in the Lords.

On the reassembling of the House of Lords, the Duke of Roxburghe (Unionist) moved the address in reply to the King's speech and the Earl of Leitrim seconded the motion.

The motion providing for the address in reply to the King's speech was then agreed to, and the House adjourned.

Almost Racked to Pieces.

MISS SADIE E. RUSK, OF RUSKVILLE, ONT., HAS A TRYING EXPERIENCE.

Ruskville, Ont., March 1st, 1902.—It affords me much pleasure to testify to the excellency of DR. WOOD'S NORWAY PINE SYRUP. About a year ago I was attacked by a hacking cough. It was so distressing that I was almost racked to pieces by its violence. I saw DR. WOOD'S NORWAY PINE SYRUP highly recommended for coughs like mine, so I purchased a bottle, and it completely cured me. I find it equally beneficial for colds in the head, and any obstruction of the nasal passages. It is an excellent preparation, and too much cannot be said in its favor.—Sadie E. Rusk.

DR. WOOD'S NORWAY PINE SYRUP contains all the essential lung healing principles of the pine tree, and is a wonderful cure for Coughs, Colds, Bronchitis, Hoarseness, Pain or Tightness of the Chest, and all Throat and Lung Troubles.

Price 25c. Bottle, at all Dealers.

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto.

Dr. Chase's Ointment

R. J. C. SUTHERLAND

Repairs of every description done promptly and at very reasonable charges.

Orders left at 356 Water street or 322 George street and by Phone 333, will receive prompt attention.

Love is unequally yoked with sickness. Labor is lightened by love, but love cannot lighten pain or relieve it. Many a man looks on at his wife's suffering willing to do anything to aid her and able to do nothing.

Sometimes, however, the husband's attention is directed to Dr. Pierce's Favorite Prescription and its remarkable cures of womanly diseases. He may not have much hope of a cure, but he is led to try the medicine, with the result that in almost every case there is a perfect and permanent cure.

Dr. Pierce's Favorite Prescription cures irregularity. It dries the drains which weaken women, heals inflammation and ulceration, and cures female weakness.

As a tonic for women who are nervous, sleepless, worn-out and run-down "Favorite Prescription" is unequaled.

"In answer to your letter I will say, my wife commenced to complain twenty years ago," writes Lewis A. Miller, ex-Chief-of-Police, of 33 Prospect St., Weisport, Pa. "We have tried the skill of twelve different doctors. She took gallons of medicine during the time she was ill, until I wrote to you and you told us what to do. She has taken eight bottles of Dr. Pierce's Favorite Prescription and six of the 'Golden Medical Discovery.' She can do her own work now and can walk around again and is quite smart."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Dr. Pierce's Pleasant Pellets invigorate stomach, liver and bowels.

MARKET REPORTS.

Wheat Lower in Liverpool and Chicago and Corn Cables Unchanged—The Latest Quotations.

TOO MANY FAKIRS.

Hon. John Dryden Gives Good Advice to the Fair Managers.

Toronto, Feb. 19. — The annual meeting of the Canadian Association of Fairs and Exhibitions was opened in Richmond Hall yesterday afternoon, and the president, J. Thomas Murphy, of Simcoe, gave his address. He referred to what he had said at last year's meeting in regard to the matter of expert judges. He remarked that this society inaugurated the one-judge expert system in 1886, and thought that it has proved so satisfactory that no thought was ever entertained as to its being abolished. Mr. Murphy mentioned the Whitby Fair as being highly appreciated by all, and will have the effect of inducing others to follow in the same lines.

Mr. G. C. Creelman, superintendent, gave his report of the association, and a short talk on "Does the Toronto Exhibition Help or Hinder the Progress of Other Fairs in Ontario?" was given by Col. John McGillivray.

The evening session was presided over by Hon. John Dryden, Minister of Agriculture. He thought the various boards which the delegates represented should do away with old ideas in regard to fair management. There were too many fakirs and objectionable amusements on the grounds. Every fair should have something of interest to all classes, not only for the farmer, but for the townspeople as well. The speaker suggested to the managers the necessity of having original ideas, and not to copy each other's exhibits and methods.

Dr. James Fletcher addressed the gathering for upwards of an hour on the subject of "Children and the Fair," impressing the great necessity of educating the young children in nature study.

C. C. James, Deputy Minister of Agriculture, arriving late, gave only a short address upon what fairs have done for Ontario, dealing chiefly with the history of exhibitions throughout Canada.

Shot by His Hired Man.

Qu'Appelle, N. W. T., Feb. 19. — Frederick Nicholas, the young farmer who was accidentally shot by his hired man on Monday, died Tuesday night.

Beresford Accepts Command.

London, Feb. 19.—Lord Charles Beresford announced at Woolwich last night that he had been offered and would accept the command of the Channel squadron.

The command of the Channel Squadron, which involves responsibility for the protection of the coasts of the British Isles, ranks in importance next to the command of the Mediterranean squadron, of which Lord Beresford was second in command until his resignation last year. The squadron consists of six battleships and six cruisers.

Speaker of N.S. Legislature.

Halifax, Feb. 19.—The Local Legislature will be formally opened at 3 p.m. to-day by Lieut.-Gov. Jones. Last night a Government caucus was held to select a Speaker for the House of Assembly. Hon. F. A. Laurence of Queen's was elected.

For Colds and Worry Over Little Things.

Feelings of Languor and Despondency the First Symptoms of Nervous Exhaustion—Reconstruct the Wasted Nerve Tissues by Using

Dr. Chase's Nerve Food.

When you become restless and peevish, worry over little things, and are afflicted with dyspepsia, which cannot be attributed to error in diet, you may be sure that the trouble arises from nervous disorders.

Other symptoms are sleeplessness, headache, low spirits, and a tendency to put off the duties of the day. Life seems to lose its brightness, and things go wrong. When in such a condition you will find yourself very susceptible to change of air. When the atmosphere is fresh and clear you have plenty of vitality, but with heavy weather you drag yourself about feeling more dead than alive.

The first necessity is rest from work and worry, and as much fresh air as possible. Then the system must be built up and the wasted nerve force restored by the use of Dr. Chase's Nerve Food.

So much mystery and uncertainty has formerly surrounded diseases of the nerves that people often make the dreadful mistake of neglecting them. They feel weak, miserable, and nervous, but try to console themselves that it will wear away. Not so. Nervous diseases do not get well of themselves, but gradually weaken the system until there is nothing left to build on.

Mrs. S. Derocher, 495 Bethune street, Peterborough, Ont., states:—"I was troubled a great deal with nervousness and sleeplessness and began a treatment with Dr. Chase's Nerve Food. I can say for a certainty that it is a splendid medicine for besides steadying my nerves it built up my system wonderfully and enabled me to rest and sleep well. We have used Dr. Chase's Kidney-Liver Pills and Ointment in our family for years and consider them excellent. For skin diseases I think the Ointment cannot be equalled and the pills are a most satisfactory laxative."

Dr. Chase's Nerve Food may not cure you in a week or even a month, but it is bound to benefit you, and will naturally and certainly restore vigour to body and nerves. There is no treatment so thourough and effective in curing nervous disorders and none which has been so generously endorsed by physicians and laymen alike. The secret of its remarkable power lies in the fact that it is a food for the nerves, and acts in accordance with nature's laws. 50 cts. a box, at all dealers or Edmanson, Bates & Co., Toronto. 16

DOMINION OIL CO., LIMITED.

Chartered Under the Laws of Ontario,

PAID-UP CAPITAL, - - - - - - - $850,000

Every Shareholder of record Saturday, Feb. 21st, participates in the next monthly dividend, payable March 1st, of One per cent. on par.

This is practically THREE per cent. on the investment at the present price of stock.

35c PER SHARE

(par value $1.00, fully paid and non-assessable.) All mail applications for stock must, in order to secure this dividend, bear date and postmark not later than Feb. 21st,

The Mail & Empire of Toronto says under the heading, "Our Petroleum Industry":

"For several years past the average value of production has been about one and three-quarter million dollars per annum. With the large development now being actively pushed by the Dominion Oil Company, Limited, a Canadian corporation chartered for the purpose of acquiring a new discovery known as the Raleigh Oil Fields, near Chatham, and which own an interest in the now far-famed Gurd Gusher, the largest well ever discovered in the Dominion, the value of the output should very shortly be doubled."

The Chatham Daily News of Jan. 20th says: "The Gurd Gusher is again at work, and demonstrating the fact that she is not a freak well, but a good, money-making proposition. The oil is all going to Sarnia, and so far the Petrolea refinery has not had a show. The good price paid and the compensation for the output prove the great demand for crude oil. The Dominion Oil Company has acquired interests in the Gusher and taken over the leases held by the Gurd Company."

The president of the Dominion Oil Company states, in regard to the production of the Gurd wells, now about 100 barrels of oil per day, that he expects through the installation of an air compressor that this production will be increased to 400 or 500 barrels per day.

This product is now bringing the HIGHEST PRICE OF ANY OIL ON THE NORTH AMERICAN CONTINENT.

The company has also just added to its holdings by securing leases on 360 acres additional in the Wheatley district, a very valuable acquisition, and contracts are now being made for active development upon this property. This has been done without drawing a dollar from the rapidly accumulating treasury funds.

An early advance in the price of this stock is probable, and investors should secure it now, while there is time. Remember that the books close Saturday, February, 21st, for the March 1st dividend.

Address all inquiries for full information regarding this very profitable investment and make all checks, drafts and orders payable to the

COLONIAL SECURITIES CO., Fiscal Agents,

The following despatches have been received by E. M. Poussett & Co.:—

New York, Feb. 19.—The St. Louis and S. F. have put out another small attractive bond issue. It announces that the proceeds of its $5,149,000 additional refunding 4 p.c. bonds will be used to take up $3,549,000 of the underlying bonds and the balance $1,600,000 will be appropriated for improvements.

Market weak, acts as if going lower. There is an uneasy feeling around The weakness in M.R. and M.R. securities is marked and is main cause of weakness.

Bulletin, Chicago.—There will be no session of Board of Trade on Monday next, Feb. 23rd.

Grain.—Cincinatti says wheat went under snow covering in good condition Some apprehension felt in the sleet which preceded the snow, and bare spots, but not to an important extent. Interior movement of all grains is light. Because of bad roads Liverpool opened wheat 3-8 to 1-2 lower, corn ¼ lower; Car lots wheat, 11; corn 146; oats 72.

M. & M.

New York, Feb. 18.— Americans in London steady about parity. Stockholders authorized 20,000,000 increase in Great Western capital. Recent private sales of Metropolitan said to have been made to Standard Oil interests. Ten roads 2nd week Feb. average gross increase 21 p.c. 95 roads average net inc. 7.50 p.c. No immediate action on St. Paul. New stock expected. Light demand for stocks in loan crowd. Time money rates hardening. Banks lost to sub-treasury since Friday $954,000. Manhattan officials expect entire system will be operated by electricity by April 1st. Bank of England rate of discount unchanged.

DOW, JONES & CO.

Letter.—General sentiment is somewhat depressed by the disappointing action of market yesterday in face of only mod rate selling by trading element only moderate selling by trading element. Absence of support in general railroad list has been noticeable all week, and if it were not for manipulation in low-priced industrials and bull movemant in copper, general list would show even further decline. The apathy of outsiders and unwillingness of large banking interests to buy stocks in any quantity, with the adverse sentimental influence of foreign exchange hovering at the gold shipping point, and leading the belief that several millions might be engaged by any fast steamer any day, and syndicates being tied up with unsaleable securities, accounts as off set to very bullish underlying conditions, and the result is reflected in the present dull and dragging market.

M. & M.

Messrs. Haight & Freese have received the following:—

New York, Feb. 18.—Take advantage of present opportunities to buy Paul, L.N., Pacifics, Atch., or coalers. Big things are impending in Erie, Readings and Norfolk.

Threatened labour troubles in the Wabash will help bears raid these issues. N.Y.C. prospective arrangements with Man. will be beneficial to both corporations. Hold some copper. Average steels on even fractional declines. Pool in smelters halting.. Buy Sugar moderately.

JOSEPH.

A rally is due to-day. If the rally comes I am rather in favour of taking profits wherever you see them; but if the market should continue very weak till this afternoon you might buy for a turn at least.

RIDGLEY.

We remain bullish on copper, but think it wise to take profits on part of holdings from time to time. B.R.T. should be bought on reactions for moderate returns. Those who have sold short New York Central on these advices should not wait too long to cover. Buy R. I. on further reactions. We think Peoples Gas a purchase on any further decline. Morning London market for Americans was heavy.

TOPICS.

New York, Feb. 18.—The stock market was fairly active all day and its action was peculiar in that every active stock rose and practically every stock not heavily dealt in sagged off closing at about the lowest price of the day. Eliminating Amer. cop., T.C.I. and A.L.C. the list was weak but the three stocks named were by all odds the leading issues in the days market. The campaign in A.C.P. was the most extensive and that in T.C.I. is a largely local affair the buying of the stock at the opening was admitted by everyone to be of sterling character afterwards professional Room traders seemed to control its market absolutely and accounted for all days advance. Despatches from the south say that the coal and iron companies of the Birmingham district generally are now making more money than ever before in their histories and this is probably true. There is no reason whatever that this class of stocks should not be strong. It is merely by comparison with others that they lack more popular favour.

About Drainage

You know the deadly consequences if a house is badly drained. Only a madman or a criminal would himself incur the risk, or subject others to it, for one unnecessary minute.

But do you realise the danger of a badly drained body? Are you aware that it poisons the blood, the very fountain of life?

Constipation is Bad Drainage

KINMOUNT.

Home Coming of a Newly Married Couple.

After a wedding, the next joyful occasion is the home-coming of the happy couple. Such a pleasing event took place on Tuesday, the 17th inst, when Mr. Joseph McGuire, one of our most genial and esteemed young men, returned with his bride, nee Miss Clara, youngest daughter of the late Mr. Edward Morrissey, of Downeyville. The wedding, and also the home-coming, was quiet, owing to a recent bereavement in the bride's family. The bridal party arrived by the evening train from Lindsay, and were met at the Kinmount station by friends, who accompanied them to their future home, where a very social evening was spent, honoured by the presence of their beloved pastor, Rev. Father O'Leary.

One more hearth and home made happy
With a smiling bride,
May joy and every blessing
With them bye abide.

SUNDAY CHEESEMAKING.

The Lord's Day Alliance Will Endeavour to Stop it in Toronto.

Rev. T. Albert Moore, the new Secretary of the Lord's Day Alliance, has taken up his abode at the alliance offices in the Confederation Life buildings, Toronto. Mr. Moore will continue to act as pastor of Zion Tabernacle in Hamilton and as President of the Hamilton Methodist Conference until June, but he will devote most of his time to the work of the alliance, having engaged supplies for his pastoral work.

Rev. J. G. Shearer has just returned from a trip to the Province of Quebec and eastern counties of Ontario. He organized 25 new branches of the alliance. Mr. Shearer says there has been a good deal of Sunday cheese making, and it is notable that the French factories have ceased Sunday work. Practically all that is done is by English people. Mr. Shearer says there has been a lot of Sunday cheesemaking in South Oxford and certain other parts of Ontario, and it is the intention of the alliance to see the law uniformly enforced in the coming season.

WESTWOOD.

Death of Little Kenneth, Son of Mr. and Mrs. James Robb.

(From our own Correspondent.)

Death has again visited this village and entered the family of Mr. Mrs. James Robb, taking their eldest son, Kenneth, aged 14 years, making the first break in the home circle. The sincere sympathy of the whole neighbourhood will be freely extended to the sorrowing parents and friends in their sad and sudden bereavement.

Our respected citizen, Mr. James Ryan has received a phone message of the sudden death of his mother, Mrs. Michael Ryan, Dalhousie street, Peterborough. Deceased has not been in good health for a length of time, but the sad news of her death was unexpectedly sudden. On account of the many years of residence in this village the family have the sympathy of all who know them.

EAST RIDING CAPITAL.

A Newsy Letter From the Examiner's Norwood Correspondent.

The pupils of the High School will be at home to their friends on Friday evening, Feb. 20th. Entertainment has been provided for by local and foreign talent and a pleasant evening is assured.

One of the games in the finals of the Trent Valley Hockey League will be played here on Thursday between the old rivals, Fenelon Falls and Norwood. These two teams have played in the finals of this League during the past two seasons, and although on both these occasions Norwood lost, it is hoped that the third time will prove the turning point for Norwood in this respect.

Mr. W. P. Plant, of Hastings, passed through here on Monday on his way to Coe Hill.

Miss Florence Miller, of Peterborough, is the guest of her sister, Mrs. Wm. Eaton.

The Rathbun Company shipped two cars of cedar to Deseronto last week.

Rev. McDonald of Kingston, conducted the services in the Presbyterian church last Sunday.

Mr. Geo. Stevens shipped a car load of ashes to Massachusetts last week.

The South Dummer Epworth League visited the League in Norwood on Monday evening, and conducted the meeting. Rev. Foley gave a very interesting and instructive address on "The Evangelization of the World in this Generation." There was also special music. After the meeting the two Leagues were entertained at the home of Mr. Thos. Fraser.

Messrs. Buck & Walsh shipped a car load of hogs to Matthews', Peterborough at $5.50 a cwt.

The auction sale of the farm of Mrs. Richard Healy, three miles east of Norwood, is to take place at McNichol's Hotel, on the 4th of March, at 3 o'clock.

Messrs. Roxburgh & Son shipped a car load of wheat to Lynn; one car load of oats to Cereal Works, Peterborough, on Monday, and one car load of oats to New York.

For a Certainty I am Cured.

Mr. James Treueman, butcher, 536 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely get around. He never used any medicine that did him so much good as Dr. Chase's Kidney-Liver Pills, and knows for a certainty that this treatment cured him. One pill a dose; 25c a box.

MARMALADE.

Fine bitter Oranges are now in. Also nice, bright skinned, sweet Oranges suitable for using with the bitter ones. These are very cheap. First-class cooking Figs at 5c per lb at S. A. OKE'S, 376 George-St.

INTERNATIONAL COLPORTAGE MISSION.

Annual Visit of Mr. George Buskin of New Ontario.

Mr. George Buskin of the Colportage Mission of Algoma and the Northwest, is making his annual visit to Peterborough in behalf of it, after twenty years work. The past year's work was more extensive than that of any previous year; 3700 copies of Scriptural books were supplied in 7 languages and taken account of, and many more not recorded. The expenses paid outside of the missionary's subsistence, was two thousand two hundred dollars. More than 40,000 copies of additional publications were printed by the mission for its work last year, and two more editions are in progress of publication, one being a dictionary in the Ojibway and English languages. This will be the sixth edition published by the Mission for the Indians, all of which are necessary to meet their conditions. The dictionary will be sold for about 25c per copy. The personal visiting in the work last year extended to Fort William, but finances were too limited to go farther west. The missionary gratefully acknowledges $38.55 contributed last year in Peterborough. The depot is at 202 King street east, Toronto.

Mr. Buskin left with the Examiner interesting literature concerning the work he represents, amongst it a little pamphlet of letters of commendation, including those from His Majesty King Edward, Sir Oliver Mowat, Lord Minto and Lord Strathcona.

Dr. Pitcher Cures A Little Boy.

His Mother Delighted With the Rapid and Wonderful Results of the Treatment.

Mothers anxious about their children who are suffering from weakness of the kidneys and bladder, should not hesitate in procuring Dr. Pitcher's Backache Kidney Tablets. There is nothing to equal this remedy for healing and strengthening the weak kidneys and giving to the little child vigour and animation.

Mrs. G. Grove, 70 Euclid avenue, Toronto, says, "My little boy, Robbie, has been subject to kidney and bladder weakness for some time past, which caused me much anxiety. I gave him half a bottle of Dr. Pitcher's Backache Kidney Tablets, and he was completely cured and has not been troubled since. The Tablets not only have strengthened his weak kidneys, but in addition has made him healthier and brighter than he ever was before."

Dr. Pitcher's Backache Kidney Tablets at 50 cents a bottle, at druggists, or by mail. The Dr. Zina Pitcher Company, Toronto, Ont. 11

RUSH POINT.

(From our own Correspondent.)

The annual cheese meeting of Round Lake Factory, was held on Saturday. Mr. Patrick was elected president, and Mr. J. Pollock, salesman.

Mr. Henry Buchanan met with a sad accident on Friday last. He was wrestling with another young man in the Havelock round house, when he was thrown violently upon an iron hook, which separated his spine. The physicians have little hope of his recovery.

Things are very quiet around the jail just now.

Heart Strength is Whole Strength

THE blood is your life; when it stops coursing you're dead. If it half stops,

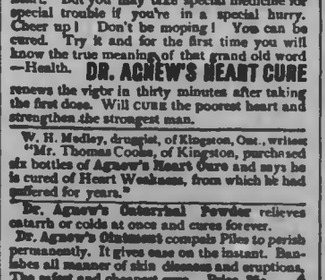
YOU'LL BE HALF DEAD.

Your pain, your weakness, your eternal weariness will all disappear if you strengthen your heart. But you may take special medicine for special trouble if you're in a special hurry. Cheer up! Don't be moping! You can be cured. Try it and for the first time you will know the true meaning of that grand old word —Health. **DR. AGNEW'S HEART CURE** renews the vigor in thirty minutes after taking the first dose. Will CURE the poorest heart and strengthen the strongest man.

W. H. Medley, druggist, of Kingston, Ont., writes: "Mr. Thomas Cooke, of Kingston, purchased six bottles of Agnew's Heart Cure and says he is cured of Heart Weakness, from which he had suffered for years."

Dr. Agnew's Catarrhal Powder relieves catarrh or colds at once and cures forever.

Dr. Agnew's Ointment compels Piles to perish permanently. It gives ease on the instant. Banishes all manner of skin diseases and eruptions. The safest and cheapest cure. Price, 25c. 6



ELITE CONFECTIONERY.

Competents critics of the finest confectionery have nothing but praise to offer concerning the candies furnished by LONG BROS. Natural flavours, luscious to the taste and made of pure materials.

A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT.
January 19th to 23rd.

Sealskin advanced from 20% to 40%		
Persian Lamb advanced from 10% to 20%		
Astrachan Lamb	"	10% to 25%
Racoon Skins	"	20%
Skunk Skins	"	15%
Mink	"	15%
Black Cattle Skins	"	10% to 15%
Wombat Skins	"	15%
Wallaby Skins	"	15%
Australian Coon	"	25%
Otter Skins,	"	10%
Opposum Skins,	"	15%
Marten Skins,	"	12%

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto * * The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

The Amethyst

Is the gem for those born in the month of February. By a bordering of brilliants the Amethyst can be made very ornamental.

"The February-born shall find
Sincerity and peace of mind;
Freedom from passion and from care,
If they the Amethyst shall wear."

Schneider,

JEWELER and OPTICIAN

THE EVANGELISTIC SERVICES

Large Crowds Attend George Street Methodist Church.

Men's Meeting in Opera House on Sunday Afternoon—Evangelist Turk Last Night.

A large crowd of earnest people assembled at George street Methodist church last night to greet and hear Evangelists Turk and Kerby. There is no mistaking the message delivered by these men. With great force and courage the whole truth is spoken; without fear the warning note is sounded, and with the tenderness and fidelity of anxious parents do they appeal to the conscience and heart of the individual hearer. As singers of the Gospel story they have as great facility and power as in preaching, and their songs last night reached many a soul.

Evangelist Turk gave a very interesting and practical exposition of 1 Thess.,1; 1—10, dwelling particularly on verses 5—7. Three points among others emphasized ought not to be forgotten:

1. That there is a Gospel message to the sinner.
2. That the gospel came in power and that the gospel is the power of God unto salvation to those who believe.
3. That there is a call to be sample Christians. Paul could always refer to the Thessalonians as being samples of what Christians ought to be. By our lives we can lead men to Christ.

A careful and prayerful reading of this chapter will be a valuable help to everyone.

Remember the meeting to-night at 7.45.

Men's meeting in the Opera House on Sunday afternoon at 4 o'clock.

A BROKEN G.T.R. RAIL

Chicago Express Rolled Down an Embankment at Whitby.

44 PEOPLE WERE INJURED.

Miraculously None Were Killed, Though Two of Those Hurt Are Seriously Wounded—The Terrible Slide of Six Cars With Their Precious Freight—Report of Dr. Riordan, G.T.R. Physician.

Whitby, Feb. 20.—By good fortune, nothing short of providential, there are only injuries to record of a railway accident which occurred at Whitby Junction, 100 yards east of the station, about 8 o'clock yesterday morning. The frost had caused a rail to break. The first train to pass over the track yesterday morning, the Chicago express, tumbled thirty feet into the field below. Six cars followed each other over the steep embankment just east of the junction, and rolled down the hill, all but one overturning.

Train No. 8, the express, was two hours late, and was running immediately ahead of a local train, and on the local train's time. Engineer Ireland, the driver, had just slackened speed for Whitby Junction, when he felt the hind trucks of his Mogul engine leave the tracks. He tried to stop the train, but the engine rushed on, dragging car after car from the rails. The faulty rail was at a sharp switch, and, instead of following the tender, the baggage car shot over the rails and down the embankment. The second-class coach, which was filled with immigrants, followed, and then each coach went over in turn, until all were piled in a heap at the bottom.

150 Passengers on Board.

There were over 150 passengers on the train, and the fact that not one was killed is regarded as without a parallel in the annals of railway wrecks. About thirty passengers received more or less serious injuries, but in view of all the circumstances none complained, but all expressed thankfulness at their miraculous escape from death.

George Le Page, the baggageman, received injuries that may prove fatal, but the others were not dangerously wounded. Le Page was frightfully bruised and cut up about the head, and his recovery is very problematical. His right ear was cut off, and in addition to the bruises he was very seriously cut with broken glass.

Michael Cusack, the brakeman, had his right leg broken and his left shoulder dislocated. Many passengers sustained severe cuts about the head and several had ribs broken.

The train, which left Montreal at 10 Wednesday night, was composed of an engine, baggage car, two day coaches, and two Pullmans. It was due in Toronto at 7.15 yesterday morning, and as it was an hour late when nearing Whitby, and running at a high rate of speed in order to make up time. When within two hundred yards of the station, and while crossing the high embankment at that point a defective rail snapped.

A Terrible Slide Down Hill.

The engine crossed it safely, but the rear coaches were carried along for nearly two hundred yards by the momentum of the train. The passengers knew that an accident had occurred and were clinging to their berths when the terrible slide down the hill began. The light baggage car shot out and, turning completely over, lay on its top. The second-class car also overturned and lay at a right angle to the baggage car, and following it was the first-class coach which was the single car on the train not overturned.

The three Pullman coaches suffered the worst, and they were piled about like great toys, two of them lying on their sides with their trucks interlocked, and the other lying on its top behind them.

Then followed a scene of indescribable confusion. Few passengers in the day coaches escaped without some injury. The broken glass caused the most havoc, many being severely cut about the head and neck.

There were a number of foreigners on the first coach, who were going through to Chicago. The second coach was crowded with delegates returning to their homes from the Royal Templars convention at Cobourg. The ladies suffered severely from the shock, and not a few of them were attacked with hysteria.

Wrecking Train Sent.

A wrecking train was sent out from York at 9 o'clock and was only 30 minutes in reaching the scene of the accident. Dr. Walters was on board. By this time a staff of fourteen doctors from Whitby and Cobourg were in attendance. The station was converted into a hospital, and the work of bandaging up the injured was proceeded with.

There were many cases of miraculous escapes. In fact, to a person standing on the track after the accident and looking down the embankment on the dismembered cars below it seemed utterly incredible that any of the passengers should have lived to tell the tale. Some of the injured people exhibited great heroism

The Most Seriously Injured.

Toronto, Feb. 20.—Many of the passengers on the wrecked train arrived here at noon yesterday. While over thirty people were injured, the two most serious cases are those of Michael Cusack, the brakeman, and George Le Page, the baggageman. The former had his leg broken and shoulder dislocated, while Le Page was badly cut about the head. One ear was torn almost completely off, and had to be sewn on by the doctor. W. Cook of Montreal had his leg injured, while John M. Spencer, manager for Evans & Sons, of Toronto, who was in one of the sleepers, was thrown right through the window, and was injured in the leg and shaken up. A little two-year-old girl named Lela Kay, of Mimico, was with her nurse in the washroom when the train went down the gully, and, while both were jammed, it is not believed that their injuries are serious. Victor Ross, of The Globe, who had been attending the convention of the Templars of Temperance at Cobourg, was on the train and received a cut on the head, but is not seriously hurt.

The Official Casualties.

The official list of injured is as follows:

Conductor C. Stuart, slight injury to face, and injury to chest and side, and two cuts on top of head.

E. A. Wilson, express messenger, scratch on face, injury to left side of chest and shoulder, and left hand slightly bruised, and slight cut on top of head.

T. Koehn, Pullman conductor, generally bruised.

M. Cusack, brakeman, injury to ribs on left side and shoulder, fracture of both bones of left leg.

George Le Page, baggageman, injury to head, left ear cut, also cut on left side top of head and bruise to bones back of left ear.

Archibald Mains, 528 Adelaide street, Toronto, head slightly injured.

Wm. Tullack, 93 Cumming street, Toronto, head, hand and ear badly cut; Montreal to Toronto.

George Helleur, 32 John street, Montreal to Toronto; ribs bruised.

J. Necht, Montreal to Toronto, back slightly injured.

Mrs. E. B. Holden, Lowell to Toronto, hand bruised.

Mrs. John Kay, Montreal to Toronto, body, nose and lip slightly injured.

Miss R. Wood, 7 Murray street, Toronto; Boston to Toronto; head cut and bruised and left arm bruised.

G. W. Cook, 400 Elm avenue, Sherbrooke street, Montreal, scalp wound and left shoulder sprained.

Arthur Lapraik, 386 Berkeley street, Toronto, cut over eye and shoulder bruised.

J. M. Spencer, 161 Dowling avenue, Toronto, foot cut.

Twenty-four other passengers, en route to points in the Eastern States and to Washington Territory, were broken up and bruised.

The entire medical arrangements made by the Grand Trunk were under the direction of Dr. B. L. Riordan, who attended 44 cases yesterday. That is the number, so far as can be ascertained, of those injured in the accident, and, of course, in very many cases the injuries are slight.

Lost Both Legs.

Whitby, Feb. 20.—A young man known as Karl Brown, from Oshawa, last evening had one leg cut off, and the other so badly crushed that amputation was necessary, as the result of attempting to board a passing freight. He had been here to see the wreck, and thought to steal a ride home.

SCHOOL CHILDREN MANGLED.

Nine Young Folk Killed Outright and Fifteen Wounded by a Flying Train Crashing Into a Trolley Car.

Newark, N. J., Feb. 20.—Running at almost full speed, a train on the Delaware, Lackawanna & Western Railroad crashed into a trolley car loaded with pupils on their way to the high school yesterday morning. Eight or nine children were killed. At least fifteen were injured, some so badly that it is feared they will die.

The accident occurred at the Clifton avenue crossing, long noted as a dangerous spot. The trolley car was one of the special vehicles which the North Jersey Street Railway Co. runs between 8 and 9 o'clock five mornings in the week for the special accommodation of high school pupils. It had on board young men and women from all parts of the city, many of whom had transferred from other lines. So full was the car that the front platform was crowded with boys.

The motorman saw the train, and threw on the full power of the brakes. The car, however, slid upon the icy rails until the front platform projected over the tracks. A moment later the crash came. The pilot of the engine struck the front platform and swung the car around, and it toppled over. By the force of the collision the pupils were precipitated under the wheels of the engine. To some death came instantly. Others lingered a moment in fearful agony. The motorman's skull was fractured. It is thought he will die. The scene of the accident resembled a shambles. Dead and injured children lay everywhere.

Two bye-elections take place Feb. 26.

Thoroughness.

Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, states that "Sunlight Soap has "a thorough cleansing power, without danger to the clothing or skin." Women who want washing done thoroughly cannot use better than Sunlight Soap—Octagon Bar. Unlike common soaps, there is no damage to the clothing, and no danger to the skin; hence the saying: Sunlight Soap reduces expense. Try Sunlight Soap—Octagon Bar—next wash day, and you will see that Prof. Ellis is right. He should know. 218

FRIDAY, FEBRUARY 20, 1903.

PRICE OF CEMENT AND TRANSPORTATION.

Last year Hamilton paid $1.60 per barrel for cement, with which to construct sidewalks. This year the lowest tender—that of the Cayuga Lake Company, in the United States—is $2.16 per barrel; and the next in order, from Lakefield, Ontario, is $2.25. Accepting the lowest tender, we shall have to pay 56 cents per barrel more than last year. Out of the $2.16 the Dominion Government will receive about 45 cents in customs duty. The duty is 12 1-2 cents per 100 lbs., and a barrel of cement contains 350 pounds, but the duty has to be paid upon the weight of the package as well as upon the cement contained therein. It will be in order for good consistent protectionists to inquire why Hamilton's Tory council should "send the money out of the country" to buy Yankee cement at $2.16 per barrel, when Canadian cement could be obtained for an additional nine cents per barrel. Perhaps they would like to have the duty increased by Parliament in order to compel them to be be good and patriotic. As the Spectator would remark, what is the use of a protective duty that does not protect? It would be so much nicer and more economical, you know, to pay 54 cents in extra price to some Canadian cement manufacturer than to pay 45 cents to the Canadian Government.

There is room for differences of opinion as to the wisdom of calling for cement tenders at so early a date this year. We understand that the production both in Canada and the United States, has been seriously restricted by the coal famine. The quantity on the market is less than it would have been if fuel had been available, and the cost of the limited amount that has been produced has been greatly increased. A couple of months hence cement may be cheaper, but Hamilton will be bound by the contract made in February.—Hamilton Times.

If the Hamilton people do business on business principles — buy in the cheapest market, counting the added duty — Lakefield will get the contract for the Ambitious City's cement. The Times hints that the increased cost of fuel has added to the price of cement. Not only that, but in the case of Lakefield, high railway freights not only increased the price of the coal used, but high railway freights added to the price of outgoing products. Mr. Kilbourn, president of the Lakefield Portland Cement Company, at the opening of the cement works last year, stated that railway freights absorbed about a quarter of the profit of manufacture. With the Trent Canal completed and in operation the cost of haulage of both raw materials and finished products would be much less, and the public would benefit accordingly. Hamilton, and Western Ontario generally, are hostile, or at least indifferent to the Trent Canal, and its importance as a freight reducer and freight regulator, but here is a concrete instance where Hamilton would have made money in the purchase of cement, if the canal had been in use. The route of this canal is admirably adapted for the development of motive power, and cheap motive power at that—and will ultimately be the seat of more varied and important industries than at present, whose products will find their way to every part of the Dominion, and the cheaper these products can be manufactured, the greater the gain of the people at large. The proposition is too self-evident to need particular elaboration.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E.W. Grove's signature is on each box. 25c.

GOVERNMENT AID ASKED.

Deputation From Berlin Wish for 5,000 Immigrants.

Germans Preferred for the Industry—Premier Ross Promises to Give Favourable Consideration.

A deputation from Berlin representing the Ontario Sugar Company, waited upon Premier Ross and Hon. Mr. Dryden yesterday, and asked for Government assistance in bringing out, if possible, 5,000 immigrants, preferably from Germany, to settle in the neighbourhood of Berlin, and help in the sugar beet growing industry of the district. Last year the farmers of the Berlin district who put in large crops of sugar beets were greatly handicapped in their harvesting operations by the scarcity of labour. It was found almost impossible to take off the harvest with the help available. Chinamen were brought in from Toronto and other cities, some 400 Indians were hired, and finally a great harvesting bee in which hundreds of school children assisted, was gotten up to save the crop. This year it is expected that the area under crop will be quite as large as last year, and that the labour problem will be just as serious unless active steps are now taken to bring immigrants into that part of the country. New sugar factories are also talked of in Whitby, Peterborough, Lindsay, Newmarket and St. Catharines, and in case they materialize and the industry grows accordingly, the Government will have its hands more than full in meeting all the demands for assistance in securing labour.

The Berlin deputation preferred German immigrants, if possible, because the Germans are best adapted for the character of the work required. The German farmer is assisted in the fields by his whole family.

Premier Ross promised favourable consideration of the request made and Government assistance will be given the effort to induce immigrants to settle in the sugar beet districts. The deputation consisted of Messrs. S. J. Williams, M. McLaughlin, and Hugh Blain.

MR. GAMEY AND MANITOULIN.

(Woodstock Express)

The Conservatives of Manitoulin have repudiated Mr. Gamey for announcing his intention to give an independent support to the Ross Government. "We desire," says the executive, "to repudiate any wish on our part to have the slightest connection with one who is not faithful to our cause and policy, and we unhesitatingly express our loyalty to the policy and principles of the great Conservative party and our unbounded confidence in our esteemed leader, James P. Whitney." There is a theory that when a man is elected he represents, not merely the party which brought him out, but the constituency as a whole. According to this theory, which is freely advanced by both parties, Mr. Gamey represents not merely the Conservatives of Manitoulin, but the people of Manitoulin as a whole, and his duty is to do the best he can for the constituency as a whole. He believes he can do more for Manitoulin by supporting the Government than by opposing it, and it is not unreasonable to believe that he can. "Manitoulin," he says, "is my politics," and who will say that such politics are not good politics? Assuming that Mr. Gamey is perfectly sincere and that his motives are honestly represented by his words, is not his course a patriotic one? The Conservatives repudiate him for not remaining loyal to "the policy and principles of the great Conservative party;" but what are "the policy and principles of the great Conservative party in Ontario, and especially with reference to Manitoulin? That would be a very difficult question to answer; but evidently the policy is not Manitoulin, otherwise Mr. Gamey would not be repudiated for making Manitoulin his politics.

"THE UNSPEAKABLE SCOT."

If Scotchmen possess all the merits attributed to them in the following poem printed in the Dundee News, the Scotch curlers can go home well satisfied, even after Lindsay's cold water reception, and Winnipeg's inhospitable reference to the Caledonian's fondness for a wee drappie, and be willing to drain a generous dochan-dorrach on the head of their general hearty and hospitable reception in Canada:

Ye may gang east an' west ye may
gang north an' south,
Ye may gang tae the farthermaist
spot,
An' ye'll find like plum stickin' fast
tae the thumb
O' some powky "unspeakable Scot."

He thrives in Hong Kong an' he thrives
in Japan,
An' he thrives amang icebergs and
snaw;
Should ye ca' upon Mars, gosh! yer
greetin' wad be—
"Oh, hulloo, Tammy Tamson, hoo's
a'?"

If ye want tae find brains, perseverance
an' grit,
Wi' guid sense keepin' gaird ower the
lot,
Ye'll find there the hall-mark without
e'er a doo t
O' ilk sturdy, "unspeakable Scot."

There's a Scot at the helm o' the braw
ship o' state,
'Mang the crew mony clansmen there
be;
An' mune noo anither "unspeakable
Scot,"
Will be ruler of England's High See.

Despaired of Being Cured.

Mrs. W. E. Jeffries, 44 Hicks avenue, Kingston, Ont., says: "I suffered agony with itching piles. In fact I don't believe that any person who has not had piles can realize what I endured. The first application of Dr. Chase's Ointment brought me relief, and it has since entirely cured me. I hope that this testimonial will be the means of bringing comfort to other sufferers by making known the great power of this ointment."

BENEFORT NEWS.

Father and Son Bridge Through the Ice While Drawing Wood.

(From Our Own Correspondent.)

The oyster supper which was promised to all who drew brick for a local building a few years ago, was given last Thursday night. Although all who helped with the brick were not present at the supper there were others to take their place, and all arrived home in good time after spending the evening very pleasantly.

Several of our young people crossed the lake to Gore's Landing on Tuesday evening to an entertainment given by the Methodist Sunday School. They enjoyed the trip very much.

Mr. W H Thompson and his son had a narrow escape from being drowned last week while drawing wood. The load of wood broke through the ice opposite Steamboat Creek, both man and boy went in with it, but managed to hold on till help arrived and were pulled out much cooler than when they went in.

Mr. and Mrs. Geo. Cowling, of Peterborough, have been visiting friends around Bensfort for a few days.

Mrs. David Morrison has returned home from Peterborough, where she has been spending a few weeks with her nieces, the Misses Robertson.

One of our North Monaghan friends who came down on Sunday last, happened with a slight mishap. He upset his cutter and let his horse run away, but no serious harm was done.

Where are all our hunters? Several foxes have been seen around our village lately.

Mr. W. Perrin, who was taken suddenly ill while at Mr. John Moncrief's last Thursday evening, is able to be out again.

Miss Mary Nicholson has scarlet fever, but it is hoped she will soon recover with Dr. Montgomery in attendance.

Mr. and Mrs. C. Dawson entertained about sixty young people on Friday night, who thoroughly enjoyed dancing till daylight. The music was furnished by Messrs. Byers, Robson, Sutton and Wood.

Any person wanting lumber cut will make no mistake in drawing their logs to Wm. Smith's mill, as he is doing a rushing business at present.

Mr. John Fletcher and Mr. Jim Wedlock got their ice in last week. It is about 15 inches thick.

Mr. John Riddell, who has been indisposed for some time is recovering slowly.

THINK IT OVER.

Something You can see in any Restaurant or Cafe.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men at the tables; men whose ages run from 60 to 80 years; many of them bald, and all perhaps gray, but none of them feeble or senile:

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavour to live upon bran crackers.

There is a certain class of food cranks who seem to believe that meat coffee, and many other good things are rank poisons, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not do so, and certain foods cause distress one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty because they supply just what every weak stomach lacks, pepsin, hydro-chloric acid, diastase and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus gives a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form—and eating as they have to, at all hours and all kinds of food, the travelling public for years have pinned their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages and any druggist from Maine to California, if his opinion were asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

MEANING OF "THE HAGUE."

Did you ever stop to ask yourself or your knowing friend the meaning of "The" in the place named the Hague? If you are looking for something that will knock the above mentioned knowing friend off his feet just ask him the significance of the three letters quoted. When he fails three letters quoted. When he fails to answer the question, tell him that the "The" as it occurs in the instance cited is simply the anglicised form of the Dutch word St. Gravenhaas, or "S. Gravenhage," either of which in the Dutch language means "the count's hedge," or 'the count's grove," or "woods."

Originally the site now occupied by the City of The Hague was the hunting grounds of the counts o fHolland. About the year 1240 a palace was built in the grove. Presently a village sprang up around the palace—still it was called "The Count's Hedge," and finally, and lastly, a large city, which in the Dutch language has its original signification, but which in modern parlance has been evolated into "The Hague."

Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.

FROM MT. PLEASANT.

Plenty of Wood Being Taken out—Other Notes of Interest.

(From Our Own Correspondent.)

Rev. Mr. Potter, missionary, will occupy the pulpit of the Presbyterian church in Mount Pleasant on the 22nd inst., at 6.30 p.m.

After visiting his brother and the various institutions of our town, and giving the necessary instructions, Mr. Morris Rosenberg returned to his work in Peterborough feeling much better as a result of inhaling so much of the pure air that is to be found in and around Mount Pleasant.

Wood, and nothing but wood, is the order of the day this winter. The Yankees will not fool us another year in withholding the fuel that we were so long dependent on, and for which they gathered so much of our cash. With our peat industry and the large quantity of wood that has been taken out this winter, this will lead us to think of our independence of Uncle Sam—so far as fuel is concerned. There are sufficient bogs in Canada from which peat can be manufactured to supply the wants of all Canada for years to come—unless the Yankees monopolize our valuable peat industries.

Many infectious diseases are spread by school children attending school too soon after recovering from the disease, so that we highly commend the action taken by the Peterborough Board of Health in looking after the absentees. We regret that so many of our people try to, and actually do, set the law aside which is intended to stamp out all contagious diseases. We have no doubt that the visit of the Sanitary Inspector will be the means of exposing any attempt to hide diseases that should be placarded. The teachers in all schools should give notice of the absentees so that inquiry may be made as to their absence.

We can boast of having in our town a man of about 70 years of age who cut about 50 cords of wood this fall and winter.

Wasting Away.

Lack of fat in the food is the beginning of a wasting condition. So many people that we meet are thin and keep getting thinner. Perhaps there are some in your own family. Look for the cause and it is more than likely you will find that such people do not eat the fatty portions of their food. They either will not or cannot eat fat, and yet it is the absence of this element in their ordinary food that causes a wasting condition.

For such people we offer Scott's Emulsion as containing in the most palatable and easily digested form the element of fat they need. It supplies, and more than supplies, the lack of fat in ordinary food. A small quantity (a teaspoonful for a child and a tablespoonful for an adult three times a day) will enable the body to get the strength and proper fat supply that it needs.

Scott's Emulsion is cod liver oil so prepared that all of it is utilized by the system. Raw cod liver oil is not only repulsive to the taste but only a part of it is taken into the system the weakened organs being unable to digest it all.

The emulsion passes almost immediately through the stomach and into the blood. The stomach is scarcely aware of its presence there. It shows itself first in the nourishment it affords and the new strength that it gives. The weight gradually increases and the flesh becomes firmer. It is the return to health; the stopping of the wasting condition. Scott's Emulsion has supplied the elements of fat that the body needed.

It is not a question of how much you eat or can eat or even of appetite. It is rather what becomes of the food. Does it contain the proper nourishment and the right proportion of fat? If the food does you no good it does you harm, for digestion is work, and when the body is in a wasting condition the stomach must work to some purpose. Scott's Emulsion saves a great deal of this work, and what is more makes it effectual.

We place on every package of Scott's Emulsion our trade mark label of a man with a big fish on his back. It is our personal guarantee that the emulsion is right in every respect. If this label is missing you are not getting the genuine Scott's Emulsion, which means that you are not getting the full value of the oil or the kind of a preparation you need.

We'll send you a sample free upon request.

ALASKA COMMISSION

Report That Canada Will Have Two Representatives On It.

WHY THERE IS NO UMPIRE.

Other Questions at Issue Between Canada and the United States—Washington Suggests Early Meeting of Joint High Commission and Cuts Out Some Work For It to Do—Warships on Lakes.

Ottawa, Feb. 20.—The report was in circulation yesterday that Sir Louis Davies and Mr. Justice Armour of the Supreme Court would be the Canadian representatives on the Alaska Tribunal.

The U.S. Objected to Umpire.

Ottawa, Feb. 20.—There has been much comment over the fact that no provision was made for an umpire on the tribunal. It is now stated that the appointment of an umpire was opposed by the United States. Great Britain after standing out for some time gave way on the point in return for the abandonment by the United States of its contention that Dyea and Skagway should be reserved from consideration by the tribunal. The selection of London as the place of meeting was a compromise, the United States being in favor of the tribunal sitting at Washington.

"JOINT HIGH" WORK.

Some Questions United Statesers Wish to Bring Before It.

Washington, Feb. 20.—It is learned that Senator Fairbanks addressed Sir Wilfrid Laurier respecting reconvening of the Joint High Commission. The Alaskan boundary question being out of the way through its submission to a special commission under the treaty, it is purposed to take up the other questions, most important of which is the one to amend the treaty of Washington so as to permit the building of warships upon the Great Lakes; to define the boundaries in the Rainy Lake section; to define the rights of American and Canadian fishermen on the Great Lakes and to regulate the use of the bonding privilege for goods in transit from one part of the country to another, crossing part of the territory of the other country.

OFFICIAL EXPLANATION.

British and German Co-Operation Dated From July 23.

London, Feb. 20.—The Foreign Under-Secretary, Lord Cranborne, was asked in the House of Commons yesterday when the United States was informed of the intention of Great Britain and Germany to co-operate in the collecting of claims against Venezuela. He replied that no formal intimation of the intended co-operation was made to the United States, but the representatives of the two countries informed the American Government at different times that Great Britain and Germany might be compelled to resort to coercion. Before the commencement of the hostile operations, it was arranged that Mr. Bowen should take charge of the British and German interests at Caracas. The first definite proposal for co-operation was made in a despatch from the German Ambassador, July 23. At the beginning of 1902, the British Government became aware that Germany was contemplating a resort to coercion, and, by the middle of July, the British Government concluded it might have to do the same.

Still Flies German Flag.

Porto Cabello, Feb. 20.—The Venezuelan gunboat Restaurador, which was captured by the German cruiser Vineta on Dec. 12, anchored here yesterday still flying the German flag. The authorities have not yet been notified that she will be returned to Venezuela.

INJURIES CAUSED DEATH.

J. P. Brown of Niagara Falls Passed Away Thursday Night.

Niagara Falls, Feb. 20.—One of Niagara Falls' most highly respected citizens died last evening in the person of Joseph Pell Brown, chief clerk in H. M. customs. Mr. Brown last Saturday evening when driving into the yard of his residence was caught around the neck with a wire clothes line, and thrown out of his vehicle on the frozen ground, dislocating his spinal column. He lingered until last evening, when death relieved him of his suffering.

A LEADER'S VIEWS.

Michaelovski Says Russians and Bulgarians Don't Know Macedonian Question.

Vienna, Feb. 20.—President Michaelovski of the Central Macedonian Committee, who was arrested by order of the Bulgarian Government on February 18, has been interviewed in the prison at Sofia. He asserted that the arrest of the Macedonian leaders had not restrained the Macedonian avalanche, and declared that the Bulgarian and Russian Governments and diplomats fail to understand the Macedonian question.

Died at Age of 104.

Belleville, Feb. 19.—William Burley of Hungerford Township, Hastings County, is dead at the great age of 104 years. His wife, to whom he was married 67 years ago, survives him.

President Sise Served.

Montreal, Feb. 20.—The contest of Ontario County farmers with the Bell Telephone monopoly reached Montreal yesterday, when a criminal summons was served on President Sise of the Bell Telephone Co. At the same time a subpoena was served on the president of the C. P. R. A special constable from Whitevale arrived with the papers at noon Mr. Sise was found in his office. He did not seem surprised and received the constable cordially.

BANQUET AT BRANTFORD.

Local Manufacturers Dine the Canadian Manufacturers Association.

Brantford, Feb. 20.—One of the most notable banquets held in this city in recent years took place at the Kerby House last night when the manufacturers of Brantford entertained two hundred members of the Canadian Manufacturers' Association in a most sumptuous manner. Representatives were present from Toronto, Montreal, Hamilton, London, Buffalo and many other points, and throughout the entire evening the most cordial feeling existed. Bright speeches were made by the various guests, and President Birge in the course of his speech said: It should be the desire of every patriotic Canadian to formulate a tariff for Canada alone, regardless of Great Britain, the United States or any other country.

DEATH OF A SAILOR.

Fire in Cabin of Fishing Schooner at Boston the Cause.

Boston, Mass., Feb. 20.—Fire in the cabin of the fishing schooner Gertrude, lying at wharf here yesterday, caused the death of two of the crew. Theodore Doucet, a Nova Scotian, who joined the vessel Wednesday night was one of the victims. Eighteen others, scantily clad, narrowly escaped. They suffered severely from the cold. One man, crazed by pain from his burns, jumped overboard, but was rescued.

BATS BREAKFAST NOW.

Mrs. A Waddell used Dodd's Dyspepsia Tablets, has Her Dyspepsia and Found an Appetite.

Some people have Dyspepsia and do not know it. They know they have headaches, that they are nervous and irritable, troubled with sleeplessness and generally run down. But they never think of charging up their troubles to where they spring from—the stomach.

If the stomach does not do its work properly—digest the food properly—the necessary nourishment is not supplied to the different organs and the latter become overtaxed and worn and unable to supply the demands the day's work makes on them.

The remedy is to have the food properly digested. Dodd's Dyspepsia Tablets digest the food and the body supplied with the nourishment it requires, does its work readily and easily. The headaches disappear and the tired, restless feeling with them. Mrs. A. Waddell, 34 Simcoe street, Hamilton, has proved this. She says: "I had been troubled for four years with heavy headache and heartburn. I doctored with the best doctors, but they failed to help me. I commenced using Dodd's Dyspepsia Tablets and soon found I was cured.

"I can now eat breakfast in the mornings; before I could not touch a bite."

MINER'S HEAD CRUSHED.

Instantaneous Death of the Skip Tender at Le Roi Mine.

Rossland, B. C., Feb. 20.—Harry Love, skip tender at the Le Roi Mine, was killed yesterday. He was engaged about the cages when he was caught and his head crushed in such a terrible manner as to cause instant death. Deceased had worked for the past two years in the mine and had accummulated sufficient money to purchase a farm in Ontario. He proposed to quit mining next month for this purpose.

LEGISLATURE OF NOVA SCOTIA.

The Second Session of the Tenth Parliament Formally Opened.

Halifax, Feb. 20.—The second session of the tenth Parliament of Nova Scotia was formally opened yesterday afternoon by Lieutenant-Governor Jones. The speech from the throne referred to the great development of the mining industry of the province. The output of coal last year exceeded that of all previous years. Hon. F. A. Lawrence was elected Speaker.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyses and reviews industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest news agency of Wall street. $12 the year, $1 the month. Subscriptions and renewals taken at the Examiner office, Peterborough.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to search and beg when a life policy would prevent it? Why not call at Lindsay & Micht's Real Estate and Insurance Office for any of these?

Costumes for Carnival.

Parties wishing to secure rich outfits for the Foresters' Carnival, can see on view this evening, a collection of beautiful costumes for both ladies and gentlemen that are in keeping with the excellent prizes offered by the Carnival Committee. The costumes will be exhibited by a local gentleman in the T.A.S. Rooms, to-night up to 8 o'clock.

To-night's Carnival.

Everything looks exceedingly favourable for a huge success at the Foresters' fancy dress carnival to-night. There are five entries in the mile race with a probability of six. Some very handsome costumes are being prepared, and every arrangement is complete for the success of the affair and the comfort of those attending. A full band in attendance.

"Never Struck Better Snaps"

That's the verdict of buyers at the sale of the Bradley stock. When you're down town come in and see for yourself. Men who want extra fine suit lengths for spring or summer, or spring overcoats or trousers; ladies who want handsome cloths suitable for skirts, costumes or jackets; boys, who want good suits for school or college—it's no trouble to sell, when everybody can see the cloth is worth so much more money. Stylish imported patterns—it's a mistake to miss them. Then the furnishings are so correct, and the prices so remarkably small. Do not let anything keep you from such surprising bargains. Remember that the stock was bought at 50 cents on the dollar, and it's a quick sale—can't last long at No. 263 George street.

If you want a real bargain in books, call at Salisbury's

AN ACCIDENT

That Occurred at the Canadian General Electric Company.

Mr. R. D. Foster, a young man who is employed in the Testing Department of the Canadian General Electric Company, met with a serious and very painful accident this morning. He happened to take hold of two live wires, one in each hand, with the result that he received a shock of 1,200 volts. His hands were horribly burned, and it is likely that he will lose the index fingers of each hand. He was removed in the ambulance to the Nicholls Hospital, and was attended to by Dr. Young.

NEWS NUGGETS.

—Always use the Examiner's want column.

—There will be a meeting of the Legal Committee this evening at 5 o'clock.

—Evangelistic services in the George street Methodist church this evening.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—Have you anything to dispose of? Let the public know about it through the Examiner "For Sale" column.

—There will be no meeting of Court Peterborough, No. 29, C.O.F., to-night on account of the Foresters' Carnival.

—Remember the carnival at the Brock street rink this evening. Doors open at 7.15. Mile race commences at 7.45. Band in attendance.

—It is feared that the eager bargain seekers at Cressman's fire sale will have more to pay in doctor's bills than they will gain in bargains.

—The carpenters are already at work in the back premises of Grafton & Co's new store, which is about to undergo a complete renovation.

—Three rinks of curlers have gone to Lakefield to-day. It is to be sincerely hoped that they will keep up the reputation gained during the recent bonspiel held in this town.

—Those who attend the Foresters' Carnival in costume, are requested to hand in at the door a card bearing the name of the character they are supposed to represent as well as the real name.

—The fire brigade galloped up George street to-day to attend to Mr. Denne's chimney, which had caught fire. The fire was not serious and the services of the gallant men did not come into requisition.

—Mr. P. B. Mellbargey made his usual weekly shipment of hogs to the Geo. Matthews Co., Peterborough, yesterday. There were 105 in the lot, and the price paid was $5.60 per hundred.—Lindsay Post.

—The Warden of the county, Mr. G. W. Fitzgerald, chairman of the Road and Bridge Committee, and Mr. John E. Belcher, County Engineer, paid a visit to Gannon's Narrows to make soundings, with a view of constructing a bridge at that point in the near future.

—The "Artistic" new barber shop, lately opened by Alf Haskill, east of George street, on Simcoe street, has already been re-inforced with a large three-chair mirror case, replacing a two-chair case at first put in. This beautiful quarter-cut design has a carved swell front, canopy supported by pillars resting on hand carved animals and antiseptic cupboards. The mirrors are British plate glass bevelled. A new pedestal hydraulic chair has also been added and another artist engaged to man the chair.

10 CENT BAND CONCERT
Opera House
Tuesday Evening, 24th Inst.

Entirely new Programme by Band, and "Joe" Halpany, Comic Vocalist, in New Songs and Dances.

An Opportunity to Ladies.

Commencing February 16th and continuing for two weeks, free lessons in art embroidery will be given at the Beehive by a competent teacher every day from 10 a.m. to 4 p.m. As this is an exceptional opportunity for all lovers of art needlework to get valuable pointers and instructions in this work ladies should not lose the chance of visiting The Beehive and taking lessons from the competent teacher that will instruct.

TRIP TO THE LUMBER CAMPS

Two Citizens Visit the Dickson Co's Limits.

A Pleasant Outing and a Novel Experience in the Back Woods.

Yesterday Mr. J. C. Shook, Manager of the Dickson Company, accompanied by Rev. J. A. Wilson and Alderman Rush returned from a four days visit to the lumber camps of the Dickson Company in Cavandish and Anstruther Townships. The journey brought the party about a score of miles beyond civilization — that is normal civilization, for in the lumber camps they found comforts and conveniences far superior to much enjoyed by many in town and cities. About forty miles north of town settlement practically ceases and the road pursued twists its sinuous way amongst the dark holes of the primeval forest, with only here and there the hut of a squatter or stray settler. There is perhaps a little more snow in the woods in the north than further south, but it lies level and is not blown into drifts.

The visit to the lumber camps and the details of lumbering operations were very interesting to the visitors. The central point of the camps, is the shanty of course, a structure of logs capable of furnishing accommodation to between fifty and sixty men. This is the centre of the little settlement which each camp with its stables, stores and offices constitutes. The routine of life from day to day, and in each camp, is very much alike. The men rise before daylight, and are at work in the woods as soon as possible. The earlier they get to work the earlier they quit at night. The men spend the evenings in the camp according to their list—some reading, some playing games, and some idling very much in the same way people in town's improve, or waste, their time.

In the woods, the work of felling trees is done by a gang of three. The axeman decides which way a tree is to fall, and while he is cutting a deep notch on that side, two men with a saw are cutting through the trunk. The logs are then cut into lengths by other sawmen, and then drawn to the ponds formed by dams, and placed on the ice in regular rows. From the ponds, branching in various directions into the woods, winter roads are made by flooding the snow and this freezing forms a track as hard as ice. These roads are used to draw the logs, which are very skilfully loaded on the heavy sleighs. The splendid sleek, strong, well-fed horses draw immense loads. Mr. Wilson saw one load of 42 logs, large and small as they run, piled on one sleigh, and drawn to the dump on the pond.

The visitors speak in the highest terms of the food supplied to the men, in both quality and style of cooking. The beef is better than much that is got in town, for the company feeds its own stock for beef purposes. Indeed the camps are quite self contained, with their own blacksmith shop, store, offices, and other necessary buildings. On the limit six camps were visited, each containing about fifty or sixty men, so that the camps collectively form a community of about 300 people. The visitors were struck with the good character and behaviour of the men employed. Mr. Wilson only heard profane language used by one man. On Tuesday night Mr. Wilson conducted religious service in one of the camps. He was much struck with the reverent attitude and respectful attention of the men. There were prayers and singing of familiar gospel hymns. To the latter the men contributed a great volume of sound and there were many good singing voices in the company. He spoke on the subject of "Lessons from the Lumber Camps," drawing spiritual lessons from what he had seen.

Rev. Mr. Wilson and Mr. Rush wish to acknowledge the marked kindness of Mr. James Eakins, superintendent of the camps, and also of the Dickson Company in giving them the privilege of making so delightful a visit, and enjoying a novel and instructive experience.

A CONCERT.

Foresters of Court Zion Held Their Anniversary Entertainment.

The Foresters' of Court Zion held their anniversary entertainment in their hall at Zion, last evening. The programme was given by two English entertainers, Mr. Bert Stuart and Dolly Harcourt, who have gained an excellent reputation since coming to this continent. Their entertainis styled "Grave and Gay," and the large audience last evening were not slow to demonstrate their hearty appreciation of the efforts of the performers. Dolly Harcourt has a beautiful soprano voice, and a winsome presence, whilst her co-worker, Bert Stuart is a clever elocutionist. In their songs and sketches they displayed wonderful versatility, and though about twenty numbers were contributed by the two artists, the audience clamoured for more. A return engagement of Mr. Bert Stuart and Dolly Harcourt would no doubt be both pleasant and profitable to the Foresters' of Zion.

Mrs. Metherall of Peterborough, ably accompanied the entertainers.

SOCIAL AND PERSONAL.

Mr. Charles Leach, Millbrook, was in town this morning.

Misses Mamie and Florence Hamilton have returned from a visit to Toronto.

The Toronto News says that Miss Sara Robinson of Peterborough, is in the city.

Mrs. Allan Stevenson, (Miss Mamie Rackham,) of Niagara Falls South, is seriously ill.

Mr. Jack Gillogly has successfully undergone an operation for appendicitis in St. Joseph's Hospital.

Rev. J. A. Wilson, Alderman Rush, and Manager Shook, of the Dickson Company, have returned to town, after a few days trip to the lumber camps.

Mr. Webber Turner has arrived home after a five weeks' business trip to New Ontario. His return home was made sooner than it otherwise would have been owing to an accident to Mr. Turner, he having fallen and cut his face.

AN ACCIDENT.

Lathe Hand has Three Fingers Badly Broken and Torn.

At the Canadian General Electric Works yesterday. Herbert Fair, a lathe hand, was drilling a piece of brass when the drill came off the cutter, and the dog slipped and caught his hand. At the time of the accident the lathe was travelling at a high speed, and two of the unlucky employee's fingers were smashed, while the third was badly torn.

CIVIC ASSOCIATION

Will Meet This Evening in Ashburnham.

The citizens of Ashburnham are reminded of the meeting of the Ashburnham Civic Association, which will be held in the Council Chamber this evening, and at which matters of importance to the villagers will come up for discussion.

TO-NIGHT'S MEETING

Of the University Alumni Association of Peterborough.

A meeting of the Toronto University Alumni Association, for the County of Peterborough, is called for Friday, February 20th, at 8 p.m. in the Y.M.C.A. The meeting is called for the purpose of electing officers and the discussion of important university matters. Mr. Duncan Walker, school inspector, is the secretary of the local association.

QUITE the VOGUE

Two-Third Wall Decorations and Crown Effects.

THIS method of adorning the walls is becoming quite the vogue. A very striking effect is obtained by using a two-tone stripe or plain ingrain paper upon the lower two-thirds, while a floral design decorates the upper one third of the wall. A plate rail, finished to imitate any wood, is placed between to serve as a shelf or divider. From this, pictures and hanging ornaments are suspended.

We have an excellent variety of Wall Papers, suitable for two-third combinations to select from.

Wall Paper Ends

and

Border Remnants

Before we close our stock-reducing sale we have many chances for those who are on the look-out for bargains in Wall Paper and Border. Those who wish to take advantage of fine days to do some Wall Papering will find lots of snaps worth coming for.

BRING IN YOUR PICTURES

To be framed at the Peterborough Bookstore before they get soiled or torn. Take time and come in and select your Mouldings now, and give us time to have them ready when wanted a he spring housecleaning.

PETERBOROUGH'S MODERN STORE.

NEW SPRING GOODS.

There are many decidedly new features about the New Spring Goods—many decided changes from last year's styles, which you will appreciate the moment you see them.

This week we show a lot of the new ideas for 1903. New Silks, new Dress Goods, new Trimmings, new Wash Dress Goods, new Prints, new Whitewear, New Spring Ready-to-wear Suits, new Skirts, new Carpets, new Goods in every department. We are proud of the season's importations, and will be pleased to show them to you.

NEW DRESS GOODS

in both Black and Coloured, in Plain Broadcloths, Venetians, Voiles, Canvas Sail Cloths, and some of the prettiest Snowflake designs in Tweeds and fine French Goods that you have seen for many a day. The Snowflake design is one of the features of the season.

NEW WASH DRESS GOODS

If you want the very latest for Shirt Waists for the coming season, and a decided change from old styles, you want to buy what we call Mattings or Canvas Cloths or Basket Cloths. They come in plain colours in cotton, linen and silk mixtures. They are certainly the prettiest and nattiest material that has yet come out for the ever-popular Shirt Waist.

NEW READY-TO-WEARS

Many new features about the Ready-to-wears for spring, which will have to be seen to be appreciated. We show some new designs in Norfolk Suits and Russian Blouse Suits, also some very new things in Separate Skirts at decidedly good values. In Ladies' Monte Carlo Silk Coats we show some very nobby styles which you should see early before they get picked up.

WINTER GOODS

We would like to emphasize the fact that you can get anything in the way of Winter Goods at clearing prices at this store.

NORWOOD DEFEATED FENELON

In a Trent Valley Legue Game Last Night,

The Score was 8 to 1—The Northern Boys Outplayed by Easterners.

Norwood, Feb. 20th.

Fenelon Falls and Norwood played in the finals in the Trent Valley League, on Norwood ice, last night. The game resulted in a victory for Norwood, by 8 to 1.

There's certainly luck in odd numbers. Norwood lost to Fenelon for two years; now Fenelon loses to Norwood.

The Fenelon boys came by way of G.T.R. to Hastings, and then drove up from Hastings to Norwood.

The puck was faced at 9.25, the green and white showing up prettily besides the black and yellow. The teams lined up as follows:

Fenelon Falls — Goal, Ellis; point, McIllen; cover point, Bell; forwards, Britain, Dayman, Pearce and Ingram.

Norwood — Goal, Fife; point, Pearce; cover point, Nicholl; forwards, Pearce, Kempt, Rathwell and Miller.

Referee, Mr. E. Wasson, Warsaw; umpires, J. A. Stanton, Fenelon Falls, E. Knox, Norwood; timekeepers, Mr. McCallum, Fenelon Falls; C. W. Waters, Norwood.

The crowd was decidedly smaller than witnessed the Keene match, but probably Keene has lost all interest in the Trent Valley League League since they couldn't pass Norwood, with its large population, consequently they didn't come to see Norwood defeat Fenelon Falls.

The playing was scientific and clean in every respect, but players from both teams decorated the fences. All the boys played with a determination to win. The umpire for Fenelon Falls was rather too much in favour of his own team. There was a hole in the net and the puck went went through, but he couldn't see how it could be a goal, even if it did go between the posts.

Fenelon played deseperately until the last, but fate was against them.

Now Norwood goes to Peterborough to play the T.A.S., and we hope they will win out.

THE COAL SUPPLY.

Arrival of Eight Car Loads at R. Hicks and Co's Yard.

We beg to announce the receipt of a consignment of eight cars of best mined hard coal—the quality that gives satisfaction.

Coal and wood dealers.
Corner of Murray and Bethune streets; alongside G. T. R. track. Telephone No. 43.

LATEST IN SPORTING CIRCLES

Marlboroughs Defeated Belleville Seven.

Norwood and T. A. S. Play Here Monday Evening—Notes on Curling.

The result of last night's match in Norwood practically puts Fenelon out of the running for the championship of the Trent Valley League. In order to even tie the other teams they must win against T.A.S. here and against Norwood on Fenelon ice. Judging from the result of the two games already played this seems most unlikely. Taking it for granted then that the championship lies between T.A.S. and Norwood, the game here on Monday night and the game in Norwood on Friday night should decide the championship of the League.

HOCKEY.

MARLBOROS BEAT BELLEVILLE.

Before a wildly excited and enthusiastic audience, the speedy little Marlboros defeated the redoubtable Belleville team in the first of the semi-final O.H.A. intermediate games at the Mutual street rink, Toronto, last night by a score of 9 to 4. At half time the Marlboros were ahead 3 to 1. Belleville came up with an unbroken string of victories to their credit, and backed by a large contingent of supporters, primed with thoughts of victory, and bulky pocket books. When the contest was over there was a decided shrinkage in their bank rolls, and their confidence in the ability of the husky red shirts was shaken somewhat. The Marlboros who were pounds lighter than their opponents, who claimed to average 170 pounds on the defence, and 155 on the dash division, showed up as faster skaters, better shots, and infinitely better stick handlers. The combination of the team was also pretty and more effective than that of the visitors, who relied principally on individual effort to accomplish their net finding designs. Every goal secured by the Marlboros was of the clean cut variety, while there was considerable dubiousness about two of the tallies given Belleville. The latter team's first goal was netted by Maguire, who when he connected with the puck was many feet offside, but Referee Telfer, whose work was fair and impartial on the whole, did not detect it. In the second half, Burrows lifted clear on the nets, and Gorrie, who was almost caught napping, apparently cleared nicely. The goal umpire, who was a Belleville man, held up his hand claiming that the puck had gone between the posts a couphe of inches, and despite the strenuous protests of the Marlboros, refused to recede from his position. A change of officials was demanded and granted by the referee. Belleville used their weight unsparingly, and were not above doing a few stunts in the tripping line when they thought they could get away with it. The Marlboros also indulged in some questionable work, but taking the game on the whole it was comparatively clean, and in many respects one of the fastest and best played of the season. Gorrie, the little goal tender of the Marlboros, was in great form, and some of his stops were scintillating. He had an eye like a hawk, and nothing escaped him. Belrose at point, who has been considered the weak man of the team, demonstrated conclusively that he is fully fast enough for the company. He was a little slow in clearing, but he lifted well, blocked finely, and was always in his position. C. Earls at cover was practically impassable, and he kept the forwards well fed. Birmingham was the king-pin of the attack, and his shooting and stick-handling could not have been improved upon. J. Earls nicked in well with him, and Ferguson and Reid on the sides were generally up with the procession. For Belleville Winchester in goal performed almost as well as Gorie. Wallace was a little slow at point. Brown at cover got in many nice rushes, but he spoiled his work by a tendency to indulge in rough-house methods, and twice in the second half he adorned the fence. Maguire and his cherry top was the most conspicuous of the forwards, and Allen on the wing showed a great turn of speed. Kennedy and Burrows were outplayed by their checks.

PORT HOPE VS. PETERBOROUGH.

The hockey loving public of Peterborough, will be pleased to learn that the Peterborough and Port Hope teams have arranged to play a series of home and home games for a $50 tzophy. The first of these games will be played on Wednesday evening of next week in Port Hope, and the return game here the following week.

* * * *

The Jewelers and the Druggists are to play off their tie on Tuesday evening next. A good exhibition of hockey is expected as the last game resulted in a tie, 2—2. Both teams have been practicing hard. The Jewellers are somewhat handicapped, as the Druggists refuse to play if Wasson is in goal. Don't fail to see the game.

* * * *

The Athletic Lacrosse Club have accepted the challenge of the Eko camp for a game of hockey.

CURLING.

The following rinks played a scratch game at the Charlotte street curling rink last night:

A Cox,	F. Stenton,
T. F. Matthews,	A. McNeil,
T. Brightman,	S. Clegg,
C. N. Brown, sk...13	J. Stanger, sk.11

The ice was in first class condition and the rinks were plenty and the players few.

Some players were initiated into the mysteries of the points games, but the actual scoring of points will begin this afternoon.

SCOTS RESENT THE CHARGE.

A Winnipeg dispatch says: "Owing to recent occurrences in Winnipeg, which the touring Scotch curlers consider almost direct personal insults, it is not at all likely that the visitors will regret when the time of departure from Canada arrives. The majority of the Scotchmen seem much displeased with references that have been made to their alleged intemperance as regards intoxicating liquor on their part, and the climax was reached on Friday night here at an entertainment given by St. Andrew's Society, when four of their number arose and indignantly left the hall while Prof. Patrick, Principal of Manitoba College, was making an address, in which he made some references to the drinking habit in Scotland. Principal Patrick, who has been out from Scotland only a few years himself, said in his address that he believed Canada was far in advance of Scotland in the way of temperance, and that on one occasion the fact had been deeply impressed upon him when he arrived at Leith, from Germany, and noticed the preponderance of drunks on the streets. This, he said was in direct contrast to the state of affairs in Canada.

"While Patrick was speaking there were cries of 'Libel' and murmurs of resentment, and then four Scotchmen snatched up their coats and left the hall. One of these was to have contributed to the programme. When Prof. Patrick concluded Rev. J. Kerr, captain of the Scotch team, made a warm reply, resenting the imputation of intemperance and justifying the action of those who left the hall. He said that if there was more drinking in Scotland people were not hypocrites, a characteristic which he had noticed much in Canada. He cited the instance of asking a Montreal clergyman to have a drink with him, but the latter refused to go into a bar, though intimating that he would take one in a room.

"Principal Patrick closed the incident by stating that he had meant no personal reference to the Scotch team. Scots seem annoyed at the action of the press here, which has used a lot of cheetnut references to alleged Scottish tendency to drink liquor, and the fact that a commercial institution of national fame has fences covered with posters advertising their brand of whisky by the use of figures of the curlers has not pleased them either."

GOLF.

A Toronto paper says: — A despatch from Detroit says the Scotch curlers may return in the summer time to play golf in that city.

"GET YOUR HAIR CUT."

George Street Tobacconist in Partnership With a First Class Barber.

Mr. W. O'Brien, the well known tobacconist of George street, two stores north of the Examiner, has gone into partnership with Mr. Edward Webster, of Toronto, formerly of Peterborough. The tobacconist store has been enlarged and a barber shop has been fitted up. The fittings of this part of the store are the best procurable. The tobacconist part of the establishment will still be supervised by Mr. O'Brien, while Mr. Webster personally attends to the faces and heads of customers who have a superabundant growth of hair. Mr. Webster is an excellent barber, and a most pleasant man, and the ultimate success of "O'Brien & Webster's tobacconist and barber shop," is positively assured.

PLEASANT EVENING.

The Lady Maccabees Held an At Home Last Night.

The ladies of the Maccabees held their first annual at home last night in the Foresters' Hall, Simcoe street. It was a grand success in every way, between 40 and 50 couple being entertained. The hall was handsomely decorated and the music was furnished by Miss McCabe. Master of Ceremonies, Mr. A. Moore, performed his duties admirably. The managing committee consisted of Mrs. Brooks, Mrs. McCallum, Mrs. Pratt, Mrs. Cheverill, Mrs. Morgan and Mrs. Moore.

POLICE COURT.

At the Police Court to-day, Geo. Wright, of town, was charged before Police Magistrate Dumble with being able to work and support his wife and family, and not doing so.

The accused was remanded for one week until witnesses might be obtained.

COUNTY POLICE COURT.

At the County Police Court at Havelock yesterday, before County Police Magistrate Edmison, George Parcels was charged with a violation of the game laws, he having opened some musk rat houses and placed traps in them.

After a considerable amount of evidence had been heard County Police Magistrate Edmison enlarge the case for one week.

BEET SUGAR INDUSTRY.

What the Monetary Times has to Say.

It Advises Caution in the Matter Pending Experiments.

(The Monetary Times.)

No one interested in the industrial and agricultural welfare of Canada can look without interest on the efforts which are being made to establish beet sugar factories in the province. Such efforts are entitled to, and we have no doubt, receive the earnest sympathy and support of all. Starting on this basis, we shall not be misunderstood if we say a word of warning to those inclined to push the development of this indistry too rapidly. Factories have been built at several points in the province, where differing conditions prevail as to soil, cost of production, transportation facilities and the like, and these are under different sets of managers, so that we may reasonably hope that in one or more of them efficient management may be looked for.

Under these circumstances we think that no further factories should for a time be undertaken, and that this time should be more than a season or two. We have every reason to believe that we can grow, and continue indefinitely to grow, beets suitable for the purpose, at a price which will justify their use in the production of sugar and at the same time reward the farmer for his labour. We cannot, however, be sure of this until it has been tried for some years, and it has become clear from extended experience, that the necessary return to the soil of the constituents removed by the growth of beets can be carried on in such a way as to maintain the saccharine value of the product, and at a cost not incompatible with a reasonable profit. It is not sufficient to prove that for a year or two we can grow the right kind of beets; their probable cost after years of growing them, is the point of most importance.

That the business is not all plain sailing is evidenced by the conditions at Bay City, Michigan, a state to which the promoters of beet sugar making in Canada have been used to point as an example. The past season there has been unprofitable, both to beet factories and farmers growing beets. The factories have, we are told, been obliged to shut down frequently for want of beets, for the first time in their history. This may be to some extent due to the falling off in shipments of these roots from Ontario, consequent on the establishment of factories on this side. Some of the farmers who supply the Bay City factories have put out what is described as an ultimatum, demanding a higher price for their beets, and the abolition of the test for percentage of sugar, and it is clear that, whatever the merits of the controversy may be, the business there is not at present in a satisfactory position.

Our view is, briefly, that Canadians should let the present experiments be thoroughly tried before further expanding our beet sugar interests.

The Monetary Times has perhaps general knowledge that may justify to some extent the pessimistic views it takes. The Peterborough district, which according to the Government experiments, is capable of growing beets — the largest quantity per acre, and of the highest sugar per centage, of any district in the province, is certainly one of the most favourable places for the establishment of a beet sugar factory, properly built, equipped and managed. The suggestion that beets may remove from the soil certain characteristic constituents, may be possibly warranted, but it may also be remembered that on the large farms of this district, the growth of beets need not be confined to one plot, and a proper rotation of crops, of which every good farmer knows the value, will obviate the danger suggested. As to over-doing the industry, that is a question for business men to consider, but if the Monetary Times had experience of the difficulty experienced in establishing a beet sugar factory, it would, perhaps, conclude that there was no very great danger of over-production.

The Beehive

"Whatever We Do, We Do It Well."

Fancy Collars and Belts

We have just received a full stock of all the newest and latest ideas in Fancy Collars and Belts.

All the smartest styles that are in vogue in Paris, London and New York are represented here.

HAPPY WEDDING.

Miss Lottie Green Marries Mr. John F. Stoll, of Stratford.

(Millbrook Reporter.)

At the residence of Mrs. James Donaldson, Tupper street, Millbrook, on Wednesday, Feb. 11th, the happy marriage was celebrated of Miss Lottie Green, a former resident of Millbrook, youngest daughter of the late G. W. Green, and sister of Mr. G. Walter Green, Peterborough, to Mr. John F. Stoll, of Stratford.

Rev. Wm. Johnston performed the ceremony, the bride being given away by Mr. Arthur Donaldson.

The bride looked very charming indeed, as she stood under an arch of geraniums, dressed in skirt of navy lady's cloth trimmed with navy silk velvet, and waist of white silk trimmed with applique and chiffon, and wearing in her hair a white chiffon rosette.

Only the immediate friends were invited.

The bride's many friends in Millbrook, Peterborough and other places were not unmindful of her on the auspicious occasion, lavishing on her many lovely presents.

The happy couple left on the afternoon train for Toronto and other western points, followed by oceans of good wishes. May they be blessed with many happy and useful days in their new home.

BLAIRTON.

(From Our Own Correspondent.)

The topic of the day last week was "Very wet." The topic of to-day, "Very cold."

Everyone around here is taking all the wood available to market.

Some time ago John Milligan so fixed a bucksaw for himself, by filing and setting the teeth in various ways, that it cuts with extraordinary rapid speed. Not only does Mr. Milligan profess to be able to cut a cord of maple inside of one hour, but he does it at will.

Sales of farm stock by wall to do farmers about to move to the west are very numerous around this part of the country at present.

Farmers around here are more than usually bothered with agents for every kind of a machine, from a threshing machine to a cream separator. After listening with patience, I may repeatedly bow them out, but nothing less than a dozen frank and well emphasized refusals to purchase will secure their exit.

HOLD YOUR ORDERS!

A DROP IN COAL!

Having received a message on Tuesday from Buffalo, will sell on arrival of coal here, Egg, Stove and Nut, at $3.50 per ton. Small nut $7.00. Also remember our Mixed Wood, Tamarac, Hardwood Limbs, at $4.00 per cord. Also in stock, first class long and short hardwood, which will be sold at lowest prices. Wood cut and split as desired.—J. E. A. FITZGERALD.

Travelling Art Exhibit of Grand Trunk Railway System

Arrangements have been completed by the passenger department of the Grand Trunk Railway System, whereby its annual travelling exhibit, that has created such favourable comment throughout the United States, will start out on a three months' tour, commencing on February 1st. The itinerary of the trip covers some of the principal Southern and Middle States, and includes the following cities: Atlanta, Ga.; Birmingham, Montgomery and Mobile, Ala.; New Orleans, La.; Houston, San Antonio and Dallas, Texas; Memphis, Nashville, Chattanooga and Knoxville, Tenn.; Richmond, Va.; Harrisburg, Reading and Williamsport, Pa.; Elmira, Binghampton and Utica, N.Y. The tour is so arranged that the exhibit will be on view in New Orleans, La., during the "Mardi Gras" festival, which will take place February 22-24. The exhibition will be composed of more than 100 of the large advertising pictures, illustrating the several summer resort districts, located on the line of the railway, and including the regions in the "Highlands of Ontario," the several resorts in the White Mountains of New England, and the bathing beaches on the coast of Maine. In addition to these there will be a series of mounted fish native to the waters of Canada, including black bass, maskinonge, wall-eyed pike, (dore), brook trout and other varieties. A representative of the company will accompany the exhibit and handsome illustrated descriptive publications will be distributed gratuitously at each point.

Telephone 330.

THE MINING CONVENTION.

Asks For the Appointment of a Minister of Mines—Resolutions Passed—Premier Ross Thanked Them.

Toronto, Feb. 19. — The mining convention was continued at the Board of Trade yesterday, and it brought out a most interesting discussion of the question of the admission of bituminous coal from the United States free of duty, during the time the United States admitted Canadian coal on like terms.

B. T. A. Bell, secretary of the Mining Institute, Ottawa, urged that no concession be given to the United States.

R. McKay said that Ontario was the banner Province in Canada in manufacturing, and used more coal by far than the others, and the tax on American coal increased the cost of production all round. He thought the arrangement should be made.

James Conmee, M.P.P., also supported the resolution, which was carried by the convention, urging the Dominion Government to obtain from the United States an arrangement for reciprocity in coal.

The Ontario Government will also be asked to support this request.

A resolution to the effect that a Minister of Mines was now a necessity in the Ontario Cabinet was supported by Mr. Conmee and John McKay, and opposed by Major Leckie. There was considerable divergence of opinion as to whether the meeting was representative enough to demand it, and Mr. Bell, on the ground that it was not, moved an adjournment. It was lost, and Messrs. Bell, Cost and Leckie left the room. The resolution passed.

It was also resolved and carried, that the Province be divided into mining divisions, and officers be appointed, with powers to apportion locations, and to possess power to them similar to that now exercised by the inspectors of divisions.

It was also resolved to ask for sufficient transportation for the mining industries.

The Government will be asked that the Commissioner of Crown Lands be empowered to sell to a discoverer of valuable mineral the pine timber at its true value on such mining location where the same has not already been sold by the Crown.

A deputation appointed by the convention waited on the Premier at five o'clock and pressed the above subjects upon his attention.

The Premier expressed himself as being much obliged for the valuable information the mining men had brought him.

CANADA-ALASKA.

Question Must Be Disposed of First Before Canada Will Consider Meeting of Joint High Commission.

Ottawa, Feb. 19.—Sir Wilfrid Laurier has recovered from the slight cold which confined him to the house for the past two months and was once more at his office yesterday morning. He received several callers and was in excellent spirits.

The Prime Minister has received a letter from Senator Fairbanks suggesting that the Joint High Commission should resume its sittings and naming a date early in March for the first meeting. Sir Wilfrid has replied, and it is believed he has taken the ground that it would be better to defer going on with the Joint High Commission until the Alaskan boundary question is out of the way. A second reason assigned is that, although the sittings of Congress will shortly terminate, thus releasing American politicians from their Legislative labors, the Dominion Parliament is just about to enter upon a session which may be very protracted. It is unlikely, therefore, that any of the members of the Government will be at liberty to participate in the joint high commission until late in the coming summer.

The Globe's statement that Hon. Edward Blake would be leading counsel for Canada was verified yesterday, when it transpired that the Premier had asked for his appointment. If the precedent of the Bering Sea arbitration is followed, there will be four Canadian counsel.

NEW STEAMSHIP LINE.

Vessels Will Run Between Rotterdam and Montreal.

London, Feb. 19.—Thomas Ronaldson Co. of Rotterdam announce that they have concluded arrangements with Wm. Peterson of Newcastle-on-Tyne to run a regular line of steamers, under the title, Canadian Ocean Inland line, between Rotterdam and Montreal. The vessels will call at Quebec, when they have sufficient cargo, and will take goods on through bills of lading to all interior points in Canada. The first sailing from Rotterdam will be on April 15th.

THE FAIR MANAGERS.

Racing Should Be Held Subordinate to the More Educational Features—The Need of Expert Judges.

Toronto, Feb. 20.—The two-days' session of the Canadian Association of Fairs and Exhibitions came to a close yesterday afternoon. In the morning Alex. McFarlane of Otterville addressed the meeting on "How to keep a set of Fair Books," and his remarks were practical and lucid. Several speakers thought that educational attractions were what was needed for the permanent success of a fair. W. R. Mowbray showed how the Whitby Model Fair had grown along this line. H. B. Cowan, speaking of the Carleton County Model Fair, thought that fake attractions and horse racing were the bane of fairs. If more attention were given by fairs to educational features he thought the Government would give greater encouragement. A model kitchen and athletic contests had taken the place of horse races in the Carleton County Fair to its great advantage.

F. W. Hodson, Dominion Live Stock Commissioner, called for practical judging. Too much attention was given to the marking and build of cattle, and too little to the producing capacity. He also suggested that judges be guided by a standard of excellence established by cattle-breeders' associations. He had no objections to horse races in themselves, but fairs should not be allowed to degenerate into race meetings. He advocated the placing of a director over each division of a fair, one over the sheep, one over the horses, one over the pigs and so on. All of these directors should be responsible to the secretary, who would be a managing director.

In the afternoon "Expert Judges" were treated by H. B. Cowan and M. A. James. Mr. Cowan touched on their work in the Ottawa Valley, while Mr. James treated them from a manager's standpoint. An excellent paper was read by T. H. Race on "The Relation of Horticultural Societies to our Fall Fairs."

A resolution was passed asking the Government to appoint itinerant expert judges in grains, fruits and roots.

Mr. Creelman, superintendent of fairs, gave notice that a free course would be given from March 17 to March 28, for training those who wished to fit themselves to become expert judges. He recommended that fairs place a fee of one dollar on each exhibitor's first ten entries, and ten cents for every exhibit over this number. He thought this would effectually discourage the professional exhibitor.

BIG FIRE AT SYDNEY.

Washing Plant of Dominion Iron and Steel Company Destroyed.

Sydney, C. B., Feb. 20.—The washing plant of the Dominion Iron and Steel Company, situated at the coke ovens, was completely destroyed by fire yesterday morning, and, along with it, three adjoining buildings. Loss is estimated from $100,000 to $200,000.

Claims Growing Up.

Montreal, Que., Feb. 20.—The Margolius matter was the talk of the whole town yesterday, and additional claims reaching at least $10,000 have been filed. The day before leaving he purchased good silk hangers, and labels from G. W. Lawson for $750, goods from the representative of a New York clothing agents of Bradford and Manchester houses.

BAD BLOOD.

Miss Mary M. Allan, Aston, Que., says.—For nearly a year I was troubled with pimples on my face. I tried several remedies but none of them seemed to help me until I got Burdock Blood Bitters. I think it is a great remedy for bad blood, and take pleasure in telling you how that it did me more good than all the other remedies I tried.

B.B.B. Cures Boils, Salt Rheum, Dyspepsia, and all Skin Diseases.

DYSPEPSIA.

Miss Alberta Murray, Campbellton, N.B., says.—For five years I was troubled with Dyspepsia, and whenever I ate anything I suffered untold agony. My parents got numerous medicines for me but they did me no good. I saw Burdock Blood Bitters advertised and something seemed to say, "get a bottle." I did so, and to my surprise before I finished the bottle I found relief. I took all told 3 bottles, and have had no return of the trouble.

HEADACHES.

Miss Peter Sandreau, Glen Lovit, N.B., says.—It is with pleasure and gratitude that I can testify to the wonderful power of Burdock Blood Bitters. My daughter was ailing for three years with headache and run down system. I tried several kinds of medicines but to no effect. At last a friend urged me to try B.B.B. for her, and after using five bottles she was like another being. I can never praise it enough. It is a God-send to all.

CONSTIPATION.

Miss Hallie Huggan, Meriperchik, N.B., says.—I was troubled with constipation for a year and tried different medicines, but they did me no good. I then took Burdock Blood Bitters and it cured me so that I have not been troubled since.

Mr. Wharton Buckley, Morrisburg, Ont., says.—I took three bottles of Burdock Blood Bitters for constipation and found a complete cure effected.

UP IN NORTH YORK

Hon. E. J. Davis and Mr. Lennox the Only Candidates.

RETIREMENT OF MR. MUNNS

Commissioner of Crown Lands Asks the Young Men of the Riding to Rise Above the Petty Peanut Idea of Politics Sought to Be Foisted Upon Them by His Opponent.

Newmarket, Feb. 20.—The nominations for the bye-elections in North York were held here yesterday, and the occasion was one which, for interest and excitement, has never been equalled in this riding. When the Town Hall was opened at a quarter to 1 o'clock, there was a crowd awaiting outside the hall which took a quarter of an hour to get inside the hall. By 1 o'clock every seat was filled, the aisles were closely packed, the window sills were covered, and the hallways were full of enthusiastic electors, who stood for four hours, listening as best they could, and echoing the cheers which arose from within.

Mr. J. J. Pearson, Registrar of Newmarket, acted as returning officer, and the writ for the election was read by J. Robinson, solicitor, of Newmarket; Mr. Pearson remarked that he thought there must be something unusual afoot. He had been returning officer for 40 years, and had never before seen such a crowd attending a nomination.

The first nomination presented was that of Mr. T. Herbert Lennox, by John Curry of Newmarket, and seconded by Lieut.-Col. Wayling of Sharon.

Hon. E. J. Davis was nominated by Mayor H. S. Cane of Newmarket and W. C. Bogart of Kettleby.

Mr. Munns Retires.

As 2 o'clock approached, and there was no sign of a nomination for Mr. Munns, the audience became restive. When the returning officer arose and declared the nominations closed, the audience broke loose, and the noise was deafening. Mr. Pearson, in a few words, called up Mr. Munns, giving him an invitation to open the meeting by making an address, and explaining his position. Mr. Munns accepted the opportunity and stepped forward. For a moment the uproar was great, but curiosity presently mastered the spirit for mischief, and the people listened to Mr. Munns during his brief speech. He had been appealed to, Mr. Munns said, since coming to the hall, by a number of leading men to withdraw from the contest, and leave Mr. Lennox and Mr. Davis to fight the election between them. For several days he had been the recipient of many similar requests. After consulting his mover and seconder, therefore, he had decided to retire. He had been assured by Hon. E. J. Davis that, if elected, he would give them all the legislation that the act of 1902 would allow. Mr. Davis interrupted to say that he had said nothing of the sort. Mr. Munns altered his statement, saying that he had understood Mr. Davis had said that he would go just as far as his leader. Mr. Davis assented to this correction. Mr. Munns continued that he did not expect much from either of the parties or their leaders. If they did not however, obey the referendum mandate, he warned them that he would "carry the war to the gates."

Mr. Lennox's Address.

Mr. T. H. Lennox, the Conservative candidate, was the next speaker. He devoted his entire time to a discussion of the recent protest proceedings.

Mr. Davis' Speech.

When Hon. E. J. Davis stood up to reply he was greeted with an ovation of applause that showed clearly the overwhelming Liberal tendencies of the audience. He devoted some time to the explanation of the protest settlement. Mr. Lennox had accused him, he said, of running away when the election protest was pending. The running away could not be done without Mr Lennox's consent, and he was to blame for not insisting upon the protest if he could prove his charges.

He asked the young men if they could not rise above the political level of Mr. Lennox's campaign. Would they put up with those methods of digging for private letters, scavenging for personalities, or would they give up those peanut politics for more elevated ways? Mr. Davis concluded with some references to the public questions of the day, which Mr. Lennox had refused to discuss.

Mr. Munns's Assailants.

Aurora, Feb. 20.—Mr. Wm. Munns before leaving here for Newmarket secured the names of several of the ringleaders of Wednesday night's mob. He intends to lay information against them before High Constable Ramsden at Toronto and have them all summoned.

Centre Bruce Nominations.

Chepstow, Feb. 20.—Dr. J. M. Stewart, Liberal, and Hugh Clark, Conservative, were nominated here yesterday to contest Centre Bruce for the Ontario Legislature. The election will take place on Feb. 26.

Mr. Fielding in North Grey.

Ottawa, Feb. 20.—Hon. W. S. Fielding left last night for Owen Sound, where he will address two meetings to-day in the interest of the Liberal candidate in North Grey, one in the afternoon and the other in the evening.

Cross Petition in North Norfolk.

Toronto, Feb. 20.—Holman, Drayton & Slaight, barristers, have filed a cross-petition against Dr. Snider, the Conservative candidate in North Norfolk.

Judgment on Saturday.

Paris, Feb. 20.—Judgment in the Humbert case will be given Saturday.

Residence—178 Harvey Street Peterborough.

IT SOARES PEOPLE

Who come of a consumptive family when they begin to cough and the lungs are painful. But it is a fact beyond disproof that consumption is not and cannot be inherited. The microbe which breeds disease must absolutely be received by the individual before consumption can be developed.

Men and women who have been afflicted with obstinate coughs, bronchitis, bleeding of the lungs, emaciation and weakness, have been perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the cough, heals the lungs, and builds up the body with solid flesh.

"When I commenced taking your medicines, eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sunderland, of Chaneyville, Calvert Co., Md. "At times I could not even walk across the room without pains in my chest. *The doctor who attended me said I had lung trouble, and that I would never be well again.* At last I concluded to try Doctor Pierce's medicines. I bought a bottle of 'Golden Medical Discovery,' took it, and soon commenced to feel a little better, then you directed me to take both the 'Golden Medical Discovery' and the 'Favorite Prescription,' which I did. Altogether I have taken eighteen bottles of 'Golden Medical Discovery,' twelve of the 'Favorite Prescription,' and five vials of 'Pellets.' I am now almost entirely well, and do all my work without any pain whatever, and can run with more ease than I could formerly walk."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to cover expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

HOW TO BE

Cured of Piles Without Pain.

First—Change from sedentary occupation to wisely chosen, more active work.

Second—From indoor to outdoor life.

Third—From wrong to right clothing.

Fourth—From unhealthy, rich living, to a mild hygienic diet.

Fifth, sixth and last—Use pyramid Pile Cure regularly and according to directions, for it is the right cure for the trouble, and will cure you as it has hundreds of others.

Don't wait until you are a helpless invalid, for a seemingly simple case of hemorrhoids, or piles, may, if neglected, rapidly lead to worse. The unnatural formations become tumorous and permanent, and the inflammation grows until abscesses form; the disease burrows into the tissues, forming tubular growths which discharge pus; cancerous conditions, and general gangrenous degeneration appear.

What is needed at the start, or at any stage, is something to soothe this inflammation, reduce the swelling and distension, and at the same time restores the diseased parts to normal condition. These three things are accomplished perfectly by the Pyramid Pile Cure. It checks all progress of the disease, and rapidly returns to affected parts to health, besides relieving at once the pain and fearful irritation.

"I began using Pyramid Pile Cure, and in order to make sure of a cure bought five packages; for the past six weeks I have not been troubled in the least, and I had been bothered for thirty-five years, and had spent more than fifty dollars for different remedies; this is the first permanent help I have had, and no one could feel more grateful than I do." L. M. Williams, Conneaut, Ohio.

Pyramid Pile Cure is sold by druggists generally for fifty cents a package, and we urge all sufferers to write Pyramid Drug Co., Marshall, Mich., for their valuable little book describing the cause and cure of piles.

MARKET REPORTS.

Grain Prices Irregular—Wheat Lower at Liverpool and Firm at Chicago—The Latest Quotations.

Thursday Evening, Feb. 19.

Liverpool wheat futures closed ⅝d to ¾d lower to-day than yesterday, and corn futures unchanged to ¼d lower.

Wheat futures declined 10 centimes, and flour futures declined 20 centimes at Paris to-day.

At Chicago May wheat closed unchanged to-day from yesterday; May corn ¼c higher, and May oats ⅛c higher.

CATTLE MARKETS.

Cables Steady—Trade Slow at Montreal, But Prices Are Steady.

London, Feb. 19.—Live cattle unchanged at 11¼c to 12¼c per lb. for American steers, dressed weight; Canadian steers, 11c to 12¼c per lb.; refrigerator beef, 8½c to 8¾c per lb.

TORONTO LIVE STOCK.

Receipts of live stock amounted to 54 carloads, composed of 862 cattle, 600 hogs, 356 sheep and yearling lambs, 6 spring lambs and about 20 calves.

Export Cattle—Choice loads of heavy shippers are worth $4.40 to $4.75, common rough exporters, $4 to $4.25.

Export Bulls—Choice heavy export bulls sold at $4; light export bulls, $3.50.

Butchers' Cattle—Choice picked lots of butchers' cattle, equal in quality to best exporters, 1075 to 1150 lbs. each, are worth $4.25 to $4.40; loads of medium butchers', $3.40 to $3.75; loads of good butchers' sold at $4 to $4.25; common butchers', $3 to $3.35; rough, $2.80 to $3; canners, at $2.00 to $2.60.

Feeders—Feeders, 1000 to 1100 lbs. each, are worth $4 and light feeders, 800 to 900 lbs. each, $3.75 per cwt.

Stockers—Stockers, 500 to 700 lbs. each, of good quality, are worth $3 to $3.50 per cwt.; off colors and poor quality of the same weight are worth $2.75 to $3 per cwt.

Milch Cows—Milch cows and springers are worth $37 to $60 each.

Calves—Calves sold at $3 to $10 each, or from $4.50 to $6 per cwt.

Yearling lambs—Lambs sold at $4.50 to $5.50.

Sheep—Prices $3.90 to $4.25 per cwt. for ewes, and bucks at $2.50 to $3.25.

Hogs—Best select bacon hogs, not less than 160 lbs. nor more than 200 lbs. each, off cars, sold at $5.80 per cwt.; lights, at $5.60; sows, $4.50 to $5 per cwt., and stags, $3 per cwt.

MONTREAL LIVE STOCK.

Montreal, Feb. 19.—There were about 300 head of butchers' cattle, 20 calves and 60 sheep and lambs offered for sale at the East-end Abattoir to-day, and a considerable number of cattle and calves were sold yesterday. Higher prices were demanded for good cattle than on Monday's market, but trade was very slow and but few sales were made in the early part of the day. Prime beeves sold at from 5c to 5¼c per lb., medium cattle at from 4c to 4¾c and the common stock at from 2¾c to 3¾c per lb. The calves were small veals and sold at from $3 to $6 each. Sheep sold at from 3¼c to 3¾c per lb. and the lambs at from 4¼c to 4¾c per lb. Good lots of fat hogs sold at from 6c to 6¼c per lb., weighed off the cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, N.Y., Feb. 19.—Cattle—Receipts light; steady. Veals—Receipts, 81 head; steady; tops, $9.25 to $9.75; common to good, $5.50 to $8.

Hogs—Receipts, 3260 head; active; 10c to 15c higher; heavy, $7.05 to $7.70; mixed, $7.25 to $7.35; Yorkers, $7.20 to $7.25; pigs, $7.25 to $7.30; roughs, $6.25 to $6.40; stags, $5.50 to $6.

Sheep and lambs—Receipts, 6200 head; sheep steady; lambs 10c higher; top lambs, $6.85 to $7; culls to good, $4.50 to $6.85; yearlings, $6.25 to $6.75; cows, $4.25 to $4.75; sheep, top mixed, $4.75 to $5; culls to good, $3.25 to $4.60.

NEW YORK LIVE STOCK.

New York, Feb. 19.—Beeves—Receipts, none; steady city dressed veals, 11¼c to 14½c. Sheep and lambs—Receipts, 5879; firm; sheep, $3.75 to $4.50; lambs, $5.75 to $7.12½; dressed mutton, $7 to $9; dressed lambs, $9 to $11. Hogs—Receipts, 4775; steady; state hogs, $7.50.

CHICAGO LIVE STOCK.

Chicago, Ill., Feb. 19.—Cattle—Receipts, 10,000; steady; good to prime steers, $5.50 to $6; poor to medium, $3.25 to $4.80; stockers and feeders, $2.25 to $4.50; cows, $1.40 to $4.60; heifers, $2 to $4.60; canners, $1.40 to $2.50; bulls, $2 to $4.25; calves, $5.50 to $8; Texas-fed steers, $3.90 to $4.25.

Hogs—Receipts to-day, 24,000; to-morrow, 25,000; left over, 3500; opened 5c to 10c lower; close active; strong; mixed and butchers, $6.85 to $7.32½; good to choice, heavy, $7.20 to $7.40; rough and heavy, $6.85 to $7.15; light, $6.45 to $6.90; bulk of sales, $6.80 to $7.20.

Sheep—Receipts, 12,000; sheep and lambs strong to 10c higher; good to choice wethers, $5 to $5.75; fair to choice mixed, $4 to $5; native lambs, $4.75 to $7.10.

IN FACE OF A BLIZZARD.

Seminole Cannot Reach Schooner Locked in by the Ice.

St. John's, Nfld., Feb. 20. — The United States revenue cutter Seminole made another attempt yesterday to get to Bay of Islands to release the ice-bound schooners. She was unable to do so, in the face of a blizzard which sprung up. It is now conceded that the Seminole's mission is hopeless.

Indian Sent to Jail.

Brantford, Feb. 20.—Joshua Miller, an Indian, was yesterday tried at Police Court for having liquor in his possession at the pagan feast on the Indian reserve in January last. He was found guilty and fined $25 and costs or 10 days in jail. Miller, having no money to pay the fine, was sent to jail.

Colmer Resigns His Position.

London, Feb. 19.—J. G. Colmer, C.M.G., secretary for the High Commissioner for Canada, has resigned. He was formerly private secretary of the Hon. J. J. C. Abbott, and later of Sir Alex. Galt. He served under Sir Charles Tupper here. He goes into banking

Suicide at Brandon.

Brandon, Man., Feb. 19.—A young Englishman named Coombes committed suicide here yesterday morning between the hours of 6 and 7, by taking a large dose of strychnine. He was about 25 years of age,

British Steamer Sunk.

Para, Brazil, Feb. 19.—The British steamer Kelvinside, from Buenos Ayres, Feb. 1, for this port, has been sunk in the Para River. Her captain and eight of the crew were drowned.

The Food System the Source of Life

Any Derangements of Liver or Kidneys That Interfere With Digestion and Assimilation of Food Rob and Deplete the Body.

Dr. Chase's Kidney-Liver Pills.

It matters not how good your appetite, how you relish your food or how much you eat, so long as there is anything to interfere with proper digestion and assimilation of the food by the body, strength and vigour will gradually decline and weakness and debility take their place.

The most frequent cause of disordered digestion is sluggish action of the liver, kidneys and bowels. The whole alimentary canal, through which the food passes on its way through the body, becomes choked and clogged, and the system is poisoned and diseased.

Dr. Chase's Kidney-Liver Pills have been marvellously successful in exactly this class of diseases, principally because they act directly on the kidneys, liver and bowels, regulating and invigourating their action, and restoring them to health.

Mr. R. Beach, 225 Sherbrooke street Peterborough, Ont., states: "About two years ago I became subject to cramps, which were caused, I was told, from acute indigestion. I was so bad that I would be laid up for weeks at a time. These attacks came on periodically, and distressed me greatly.

"I then began using Dr. Chase's Kidney-Liver Pills, and have found them a wonderful medicine. They have entirely prevented a recurrence of my trouble, corrected the derangement of my digestive organs, and made me feel like a different person."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 11

BLITE CONFECTIONERY.

DOMINION OIL CO., LIMITED.

Chartered Under the Laws of Ontario,

PAID-UP CAPITAL, - - - - - - - $850,000

Every Shareholder of record Saturday, Feb. 21st, participates in the next monthly dividend, payable March 1st, of One per cent. on par.

This is practically THREE per cent. on the investment at the present price of stock.

35c PER SHARE

(par value $1.00, fully paid and non-assessable.) All mail applications for stock must, in order to secure this dividend, bear date and postmark not later than Feb. 21st,

The Mail & Empire of Toronto says under the heading, "Our Petroleum Industry":

"For several years past the average value of production has been about one and three-quarter million dollars per annum. With the large development now being actively pushed by the Dominion Oil Company, Limited, a Canadian corporation chartered for the purpose of acquiring a new discovery known as the Raleigh Oil Fields, near Chatham, and which own an interest in the now far-famed Gurd Gusher, the largest well ever discovered in the Dominion, the value of the output should very shortly be doubled."

The Chatham Daily News of Jan. 20th says: "The Gurd Gusher is again at work, and demonstrating the fact that she is not a freak well, but a good, money-making proposition. The oil is all going to Sarnia, and so far the Petrolea refinery has not had a show. The good price paid and the compensation for the output prove the great demand for crude oil. The Dominion Oil Company has acquired interests in the Gusher and taken over the leases held by the Gurd Company."

The president of the Dominion Oil Company states, in regard to the production of the Gurd wells, now about 100 barrels of oil per day, that he expects through the installation of an air compressor that this production will be increased to 400 or 500 barrels per day.

This product is now bringing the HIGHEST PRICE OF ANY OIL ON THE NORTH AMERICAN CONTINENT.

The company has also just added to its holdings by securing leases on 200 acres adjoining in the Wheatley district, a very valuable acquisition, and contracts are now being made for active development upon this property. This has been done without drawing a dollar from the rapidly accumulating treasury funds.

An early advance in the price of this stock is probable, and investors should secure it now, while there is time. Remember that the books close Saturday, February, 21st, for the March 1st dividend.

Address all inquiries for full information regarding this very profitable investment and make all checks, drafts and orders payable to the

STOCK TRANSACTIONS.

Monetary Times.

A perusal of the table of transactions on the Toronto Stock Exchange for the 1902, a copy of which appears elsewhere in his number, will be of interest. It shows that the range of securities dealt in on the local Exchange is still growing and that the figure cut by stock speculation in the Canadian business world is one of growing importance. Whether this feature, under present circumstances, where so many amateurs are taking to dabbling in stocks, is a good encouraging sign for the future or not is a point we need not discuss in this connection. The table is of particular interest, showing, as it does, the highest and lowest range of prices; and during the year the fluctuations were certainly very large, as many people know to their cost. Bank and loan companies, perhaps, held steadiest, taking the year as a whole. Even among those, we notice such differences as 229 in January against 226 in November for the Bank of Toronto; 200 in January, against 226 in November, for the Bank of Ottawa; 180 in January, against 180 in December, for the Traders'; 60 in February, against 160 in May for the London and Canadian Loan and Agency, and so forth. But it was the industrial and miscellaneous shares which showed the most remarkable variations. Canada North-West Land varied between 20 and 150; Northern Navigation between 105 3-4 and 178; Sao Paulo, between 50 and 109; Dominion Coal, between 53 3-4 and 146; Dominion Iron and Steel, between 25 and 79 1-4; Nova Scotia Steel and Coal, between 44 and 118 1-8, while Consol, Lake Superior, dropped from 34 in May to 7 in December.

Summarizing the whole table roughly, it would appear that the highest prices were realized on the largest number of stocks in April and September, May and August following next, while the month in which the largest number reached the lowest values was January with February and December coming after. We have also before us a comparative table, showing the transactions on the Montreal Stock Exchange for the years 1901 and 1902. This, like the Toronto sheets, gives evidence of course of remarkable fluctuations. From it as well we are able to gather a comparison of the actual transactions made in any of the various stocks in each year. For example, the number of shares of C.P.R. sold in 1902 was 489,198, as against 262,483 in 1901. Montreal Street Railway shows, however, a decline from 170,426, in 1901, to 56,729 last year; Richelieu & Ontario also declined from 77,165 to 34,457. Dominion Iron and Steel made a leap from 19,356, in 1901, to 60,546, in 1902, while of preferred, of which 23,768 were sold in 1901, 84,146 changed hands in 1902. Of Dominion Coal, common, 178,184 shares were sold last year, against 97,883 the year before, while preferred showed contrariwise, the number declining from 5,543 to 1,106. Bank shares, naturally, do not show such active transfer as some of the other stocks, still they attracted at least as much interest last year as before, and it is a satisfaction to realize that the purchases along this line were generally for legitimate investment purposes.

Messrs. Haight & Freese have received the following:—

New York, Feb. 19.—The market continues dull and narrow. There is little to be said on the general list, except that it held pretty well, so far as I can see it is simply a traders market. Some decline is possible but barring unexpected accidents, the advance when it comes will be much more prolonged and considerable than any decline. Meanwhile all that can be done, is to buy when weak on scale down and take small profits, or else just look on until stocks show a more definite trend. No one can trade every day and make money. If people would wait and watch being ready for opportunities immediately they arrive they would be better off.

New York, Feb. 20.—Predicted gold shipments and an extra session of Congress were the reasons for the break in prices Wednesday. There has been more bear capital made on the possible gold shipments than would have been warranted by the actual shipment of money. A continuous upward movement will probably come as predicted and follow the gold exports. The advice last Monday to get out of long stocks on strong spots has proved sound, although I do not apprehend any serious break on this afternoons reaction, the third day of the decline the market should be a buy in the natural order of events for a turn at least.

RIDGLEY.

New York, Feb. 20.—We look for an unsettled market to-day; the holidays and the probably unfavourable bank statement have been about discounted by the raid of yesterday. The short line has increased considerably. On any further reaction we believe the purchase of Smelters, B.R.T., Leather, preferred, will prove profitable. We are bullish on Virginia Chemical, and are inclined to think that short selling of N.Y.C., Ill., C.P., will prove moderately profitable if sales are made after rallies. There are bull points out on Sanf. and Readings. Amns heavy in London.

TOPICS.

Liverpool opening wheat opened quiet 1-4 higher; corn inactive 1-4 higher.

New York, Feb. 20.—The triple holiday that begins this afternoon will scarcely invite any fresh outside commitments on the long side. The disposition is to do little until the resumption of business on Tuesday next. The bank statement will, it is said, in clearing house circles show a moderate loss in reserves with an increase in loans. Money, however, is in ample supply, nor will there be any stringency. There is a fair short interest in the traction shares. They should be bought for a turn at least. Insiders having supporting orders in Steels, Coppers and the buyin gof Pacifics on a scale, is by the Pine St Fractions. Union Pac will sell ex. div. two p.c. on Tuesday. N.Y.C. will rally smartly.

The following despatches have been received by E. M. Poussett & Co.:—

Vir. Chemical declared div. 1 p.c. on common stock payable in quarterly instalments on March 10, June 1st, Sept 1st and Dec. 1st. This is increase of 1 1 p.c. over last year. Chances strongly against gold shipments Tuesday. Manhattan operating ratio will be reduced to under 5 p.c. on completion of electrical facilities. Rumors current on M.R. authoratively denied. Banks lost to sub-treasury $2,000,000 since Friday. Erie will make very big showing of earnings for Jan. N.Y.C. officials deny selling treasury stock in market.

DOW, JONES & CO.

New York, Feb. 20.—Market Letter: It is quite likely trading to-day will be developed chiefly to evening up speculative deals by the traders over the holidays. Prospects of another unfavourable bank statement together with foreign exchange at gold shipping point, with continued apathy of public will probably keep market narrow and professional. Rumours about Metropolitan are denied. The technical speculative condition has been much improved by recent selling and there is now a fair sized short interest in the general list.

Liverpool opening, wheat up 1-4, corn 1-8.

New York, Feb. 20.—Grain.—car lots, wheat 9; corn 209; oats 59. Liverpool closed, wheat 1-8 higher; corn 1-8 higher.

Stocks.—Foreign demand foreign exchange sterling closed 487 3-4 flat. Paris exchange on London 25 francs, 16 1-2 centimes. No fast steamers until next week and there is no likelyhood of any gold engagements been announced over holidays, but it seems more than probable some gold will go away during next week. Covering of the shorts been feature of the trading since opening. There has not been much pressure to sell anywhere and out commission houses buying very unimportant. No special news and London not a factor.

Cotton.—Liverpool spot prices advanced, mids 5.28 advance 14 points, sales 12,000, rects 12,000, futures opened 5 to 5 1-2 up and at 21.30 p.m. firm 2 to 5 points up from opening. Liverpool 2.29 —Cotton 10 points higher than last night's close. Better than expected. We will have strong and advancing market here; May will probably go to 10 cents. We still advise caution at this prices and would take profits to this advance. When cotton was 7.90 we said it was a great buy, now we say look for top around 10 cents a pound and get short of it for a good turn.

M. & M.

New York, Feb. 19th, 1903. — Bullish sentiment received quite a set-back today; declines being general throughout the list. Support by the leading interests appeared to have been withdrawn, leaving the market in a condition to be easily hammered. Most of the selling to-day was by room traders with very little liquidation going on. Think the decline has gone far enough and think purchases made now should show good profits in a very short time as to-day probably recorded lowest prices for some time to come. Would favour Brooklyn in purchasing as from what can learn this is destined for a higher level. Stocks to-day are considerable below what may be considered their normal levels. The technical situation alone is sufficiently bullish to warrant the expectation of materially higher prices.

Chicago.—Wheat opened somewhat easier. Market is now in a position to have a fair rally to about 78 1-2. Profits should be taken on the bulge and short sales made around that price. The conduct of market past few days indicates lower levels later on for May option especially. Corn holds steady without particular feature. Closing prices—Wheat, May, 77 3-8; corn, May, 45 3-8; Oats, May, 35 3-4; Pork, May, 17.65; lard, May, 9.65.

W. F. DEVER & CO.

"MADE IN CANADA."

The February 2nd issue of that popular farm journal, "The Farming World," appears in its former up-to-date, three column form. When the Canadian circulation of the Farm and Home was taken over in November last, some concessions had to be made to the tastes of different readers, and provision had to be made for the manufacture of the paper, with its combined circulation of 40,000 readers. The publishers' plans are now taking shape and afford facilities for making thob est agricultural paper on the continent, as the current issue shows.

"The Farming World" is an out and out Canadian product; Canadian capital, Canadian editorial skill, Canadian enterprise, employing Canadian labour and using Canadian material, all combine in producing a strictly "made in Canada" paper.

Another Bank for Campbellford.

There is a street rumour that another bank is to be established in Campbellford before the summer arrives. Representatives of three different banking institutions, one of them the Sovereign, were visitors here last week, who it is said had this business in view, but there is no assurance of such a move being made, although some had it located in the Wallace Block, and others in the Frederick Block. One is inclined to think that one Bank is sufficient to meet all demands in Campbellford. —Herald.

Calls It Repudiation.

Winnipeg, Feb. 20.—Argument before the full court on the C. P. R. land taxation case has concluded, and judgment is expected on March 7.

Mr. Ewart, for the C. P. R., replying to Mr. Howell's argument, stated that the question was whether, admitting that the Dominion Parliament had power to repudiate it had really done so.

For a Certainty I am Cured.

Mr. James Treveman, butcher, 536 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely get around. He never used any medicine that did him so much good as Dr. Chase's Kidney-Liver Pills, and knows for a certainty that this treatment cured him. One pill a dose; 25c a box.

MARMALADE.

Fine bitter Oranges are now in. Also nice, bright skinned, sweet Oranges suitable for using with the bitter ones. These are very cheap. First-class cooking Figs at 5c per lb at S. A. GRAY'S, 376 George-St.

ELECTRICITY FOR HEATING.

Prospect of Successfully Defying Coal-cornerers.

Montreal's Experience Points to it as a Commercial Possibility.

The result of the completion of the line to transmit 8,000 electric horse power from Shawinigan Falls to Montreal, (over 80 miles,) has been to greatly reduce the price of electrical power, and what is more interest to the public, to bring electricity to a price to make its use for heating purposes commercially practicable. This is the statement of the Montreal Herald:

Mr. H. McLean Walbank announces that manufacturers, from now until the first of next October, will be granted power at one-half the usual rate.

The company also purposes making a house to house canvas throughout the city upon those now utilizing gas for lighting purposes. The company will then offer to provide light for every householder at a figure similar to that paid the gas company. The rate will be a flat one, but an appliance will be introduced to show that the privilege is not being abused. That is to say, no one will be permitted to use twice the amount of electricity as they formerly used of gas for the same figure.

For cooking purposes electricity will be introduced for those using gas ranges at one-half the price being paid for gas.

Only during the summer, however. Next October a new rate will go into effect, but Mr. Walbank does not anticipate that it will be greatly in excess of the one which will obtain throughout the summer.

"Is much electricity likely to be used for domestic purposes?" asked the reporter.

"I think so," answered Mr. Walbank. "We have had many applications to heat houses this winter, but we only experimented upon the home of one of our employees. The attempt, I need not say, was much more successful than that of a gentleman who had gas installed in his furnace, but who found, to his dismay, that he was using $6 worth of gas every day.

"Already we are supplying electricity to heat the irons in the British American laundry and in Gault's shirt factory.

"Of course, with a cheapening of the commodity, electricity will be used much more extensively — for chafing dishes, for urns in bars, for foot-warmers, for curling-tongs, for teapots, for cooking ranges, and so on almost indefinitely."

We have heard before of the possibility of the substitution of heat from fuel for heat by electricity. Now comes the assurance of an expert that electricity can economically take the place of gas in ranges and in the large variety of cases where an intense and concentrated heat is required. That electricity could be so used is generally known, but not that for such uses it is a commercial possibility — something not merely possible, but possible at moderate prices. Perhaps something should be allowed for the sanguinidness of a manager of an electric company, nevertheless the explicitness of his statement produces a forcible impression that the day of cheap electric heat is nearer than has been generally supposed.

Wallaby Skins	"	15%
Australian Coon	"	25%
Otter Skins,	"	10%
Opposum Skins,	"	15%
Marten Skins,	"	12%

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto * * The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $12,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

May stand for seven years, or pay off at any time. This is a rare chance for an industrious man to get a good home at a low price, and on very easy terms. Will be out of the market if not taken this week. See me at once, if you want this.

House 134 Rubidge street, 7 rooms, good lot, central to work; only $900.

T. HURLEY, 282 Hunter St., or, P.O. Box 681

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

THE POPE'S JUBILEE

Happiest Day in the Life of the Venerable Pontiff.

SELF-PRISONER FOR 25 YEARS

A Brilliant Spectacle—Gorgeous Decorations in the Hall of Beatification—A Brilliant Escort of Cardinals at the Chief Functions—The Presentation of a Gold Tiara—His Holiness' Blessing.

Rome, Feb. 21.—The Pope completed the functions of his jubilee yesterday without undue fatigue. Upon returning to his apartments the Pontiff exclaimed:

"This is really the happiest day of my life. It seems impossible that it is twenty-five years since I have been there," was the Pope's exclamation as he looked from a window of his apartments yesterday morning into the sunlit piazza of St. Peter's. This was the Pontiff's only reference to his long term of self-imposed imprisonment in the Vatican during which he has never gone beyond the palace grounds and St. Peter's, which is considered to be part of the Vatican.

The hall of beatification, above the portico of St. Peter's, where the Pontiff held his jubilee reception, presented a beautiful scene. It was beautifully hung with antique brocades and illuminated by thousands of electric lights and wax candles. The boxes along the long, narrow hall were filled to their capacity with members of the Roman aristocracy, diplomats, women with black veils, men in evening dress and monks and sisters in varying garb. Here and

POPE LEO XIII.

there groups of Papal guards in bright uniforms lent color to the whole. Notable among the diplomats was Count Almodovar, head of the special mission sent to represent the King of Spain at the jubilee.

The struggle to get into the hall was terrible. People were swept off their feet, and women were overcome, but no one was injured. The babel of tongues raised in protest testified to the world-wide character of the gathering.

Long Live the Pope-King.

There was a long and tedious wait before the ceremony commenced, and the audience was growing restless when suddenly a great roar of "Long live Leo," and "Long Live the Pope-King," announced the arrival of the Pontiff. His Holiness was borne in the sedia gestatoria on the shoulders of eight men habited in red brocade. The Pope himself wore gorgeous robes, and had the triple crown on his head. He bestowed his benediction right and left as he passed through the cheering concourse, whose enthusiasm was so great and whose desire to touch the hem of the Pope's gown was so intense that the presence of the guards seemed really necessary for his protection.

Presentations Made.

The Pope was accompanied by Cardinals Mocenni, Petrauld, Ferrari, Satulli, Respighi, Boschi and Macchi and escorted by the much-admired noble guards.

Cardinal Respighi, Vicar of Rome, read an affectionate Latin address expressing loyalty and devotion, and offered the gold tiara, the jubilee present of the Catholic world, which cost $25,000. Cardinal Ferrari (Archbishop of Milan), in behalf of a pilgrimage from Lombardy, presented an address of felicitation to the Pope and the gold, silver and bronze commemorative medals. The Pope thanked the Lombardy pilgrims and gave them his benediction. Cardinal Boschi read a third address, and presented to His Holiness the symbolic keys, one of gold and the other of silver, accompanied by an offering of $40,000 in gold coins. The Roman committee for the jubilee fetes presented a rich parchment volume, which contained the signatures of all who had contributed to the offerings, with another $40,000 to be devoted to the restoration of Basilica of St. John Lateran. Other committees followed with addresses and offerings.

The Pope then charged Monsignor Bisleti, his master of the Chamber, to read a Latin speech addressed "to my venerable brothers and beloved children," in which His Holiness expressed satisfaction at the manifestation of which he is the object on the part of the whole Catholic world. For the second time in a century, continued Pope Leo, Christ has wished to glorify his Vicar on earth by allowing him to reach the years of St. Peter.

The address ended by saying that the Pontiff was happy to celebrate his jubilee amidst the homage and veneration of the Catholic Universe.

After bestowing the Apostolic blessing the Pope returned to his apartments amid the enthusiastic plaudits of the multitude.

Explosion Killed Four Workmen.

The Navy Magazine at Fort Lafayette, New York, exploded yesterday afternoon, killing four workmen.

A COLLISION AT THE DIAMOND

The Belleville Express Was Struck Amidship.

NARROW ESCAPE OF PASSENGERS

The Baggage Car Hurled From the Track Into the Ditch.

C. P. R. Freight Train Backed Into Passenger Train—C. P. R. Main Line and Belleville Line of G. T. R. Blocked by Wreckage—How It Occurred.

Peterborough this afternoon contributed to the number of railway wrecks that are taking place from time to time throughout the Province. An accident occurred to the Belleville express, which leaves the Grand Trunk station at 2 p.m., and the escape from serious injury of a number of passengers is nothing short of miraculous. Fortunately there was no one injured, but the damage to the rolling stock of the Grand Trunk will be considerable.

The accident occurred at what is known as the Diamond, where the C.P.R. and Grand Trunk cross, and a yard engine of the latter Company is a party to the wreck. The wreck was the result of direct disobedience of the semephore signal by the crew of either one of the trains. The Grand Trunk people claim it was caused by the C.P.R. people failing to comply with the order of the semephore.

THE CRASH.

When the Belleville train left the Grand Trunk station at its regular hour there was an exceptionally large number of people on board. The coaches were filled with people from Hastings, Keene, Campbellford, Belleville and other points along the line. There were also on board a number of Peterborough ladies and gentlemen. The train was in charge of Conductor Dan. McMillan, with Engineer H. Levoy. The train came to a stand still as usual some distance from the diamond and then proceeded on its journey. When the baggage car was directly across the C.P.R. rails there came a crash. A yard engine of the C.P.R. was doing some shunting. The engine, had Martin Doyle at the lever, and in charge of Yard Master D. A. Connor, and was to the west of the Grand Trunk track. It was backing up at at a pretty good rate of speed, when it struck the baggage car of the Belleville train. The baggage car immediately rolled over into the ditch, breaking off a telegraph pole it came in contact with, like a pipe stem.

The mail car and smoker also left the track, and was on the verge of toppling over with its cargo of human freight. The occupants of the car had a severe shaking up. The first class coach was not damaged to any great extent, but the passengers were given a severe shock.

The C. P. R. box car which collided with the smoker of the Grand Trunk, was badly wrecked, and the main line of the C.P.R., and the Belleville line of the Grand Trunk, were blocked as a result of the collision.

An order was quickly despatched to Lindsay for an auxiliary, and the local train men at once set about to clear the track. It is expected that the road will be cleared about six o'clock this evening, when Conductor McMillan will proceed on his "run." The passengers were taken back to the Grand Trunk station.

WHO IS RESPONSIBLE?

Some one is certainly responsible for the wreck, for it is quite apparent that some one ignored the signal of the semaphore. In this regard Station Agent Sandy and Engineer LeVoy state emphatically that the semaphore was against the C. P. R. The local officials of the C.P.R. have made no statement in regard to the matter.

Mr. Thomas Rhois, was in charge of the "diamond house," and when asked by an Examiner representative to state against which train the semephore was set, he said he preferred to say nothing at the present time.

One traveller, who was on board the train, states that it is the second wreck he has been in this week, having been in the Whitby railway accident a few days ago.

Station Agent Sandy was immediately on the scene of accident and superintended the clearing away of the wreck.

SPLENDID PICTURE

Taken by Mr. G. E. Whiten—The Peterborough Rugby Team.

For some years past the next most important event in connection with the Peterborough Rugby team, to the annual dance, is the annual picture taking. Indeed the boys have now quite a collection of group pictures. The picture of last year's team is just completed and is on exhibition in the window of Messrs. A. H. Stratton & Co., George street. The picture is the work of Mr. G. E. Whiten, Peterborough's well known photographer, and certainly reflects credit upon that gentleman's ability as an artist. The design is quite out of the ordinary. It is much larger than the regular group picture and the arrangement of the players and officers is excellent. The picture is 24 x 32 inches in size, and is incased in a handsome heavy frame which shows off the boys to perfection. The men are taken separately and they are arranged around the trophy which they have won several times in carrying off the Ontario Intermediate championship. The scrolling is nicely done and altogether the picture is one of which the boys as well as Mr. Whiten might well feel proud. The picture will remain on exhibition for some time yet.

PETERBOROUGH MARKETS.

There was a large market this morning in spite of the inclemency of the weather, the farm produce remaining about the same as last Wednesday. Turkeys were very scarce and as high prices as $1.25 and $2.00 were asked for them; geese were selling at 50 and 90c; chickens at from 75 to 80c; butter at 20 and 22c and eggs were selling from 18 to 20c. The grain market was steady, and the same prices as last week were attained.

Off Duty.

Mr. Sandford Laidlaw, the genial locomotive engineer, has abandoned his cab for a few days under doctor's orders. On Tuesday while out on his run, a sudden lurch of the engine hurled him against a corner of the seat with sufficient force to fracture a rib. He hopes to be able to report for duty in about a week.

ADMITS THE MURDER

Theophile Belanger Tells Why He Killed Antoine Seguin.

AVENGE DAUGHTER'S HONOR

Murderer, Against Whom Evidence Was Weak and Largely Circumstantial, Made a Confession—After Slaying His Victim, Belanger Took Body to the Farm, Where It Was Subsequently Discovered.

Montreal, Que., Feb. 21.—The St. Eustache murder mystery has been cleared up by the arrest and subsequent confession of the murderer, Theophile Belanger, who has been under suspicion for some days, but against whom the evidence was believed to be weak and largely circumstantial. Detective McCaskill, chief of the provincial detectives, telephoned to the city yesterday morning from St. Scholastique that at 1 o'clock in the morning Belanger admitted having committed the crime. He said he was driven to the deed by the discovery that Antoine Seguin, the murdered man, had illicit relations with his [illegible] old daughter.

Antoine Seguin was half-brother to Belanger's wife, and lived with them, being unmarried.

I Did Not Feel That I Could Walk

"DEAR MRS. PINKHAM:—It is with thankfulness I write that **Lydia E. Pinkham's Vegetable Compound** has been of the greatest help to me. My work keeps me standing on my feet all day and the hours are long. Some months ago it didn't seem as though I could stand it. I would get so dreadfully tired and my back ached so I wanted to scream with the pain. When I got home at night I was so worn out I had to go right to bed, and I was terribly blue and downhearted. I was irregular and the flow was scanty, and I was pale and had no appetite. I told a girl friend who was taking your medicine how I felt, and she said I ought to take it too. So I got a bottle of **Lydia E. Pinkham's Vegetable Compound** and commenced to take it. It helped me right off. After the first few doses menstruation started and was fuller than for some time. It seemed to lift a load off me. My back stopped aching and I felt brighter than I had for months. I took three bottles in all. Now I never have an ache or pain, and I go out after work and have a good time. I am regular and strong and am thankful to you for the change.

"I recommend **Lydia E. Pinkham's Vegetable Compound** whenever I hear of a girl suffering, for I know how hard it is to work when you feel so sick."—MISS MAMIE KEIRNS, 553 9th Ave., New York City.

Women should not fail to profit by the experiences of these women; just as surely as they were cured of the troubles enumerated in their letters, just so certainly will Lydia E. Pinkham's Vegetable Compound cure others who suffer from womb troubles, inflammation of the ovaries, kidney troubles, irregular and painful menstruation, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

Miss Amanda T. Petterson, Box 131, Atwater, Minn., says:

"DEAR MRS. PINKHAM.—I hope that you will publish this testimonial so that it may reach others and let them know about your wonderful medicine.

"Before taking **Lydia E. Pinkham's Vegetable Compound** I was troubled with the worst kind of fainting spells. The blood would rush to my head, was very nervous and always felt tired, had dark circles around eyes.

"I have now taken several bottles of **Lydia E. Pinkham's Vegetable Compound** and am entirely cured. I had taken doctor's medicine for many years but it did me no good.

"Please accept my thanks for this most excellent medicine which is able to restore health to suffering women."

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.
Lydia E. Pinkham Medicine Co., Lynn, Mass.

SATURDAY, FEBRUARY 21, 1903.

THE ENGLISH EDUCATION ACT

More Orderly and More Legal Administration.

A Careful Review of the Present Situation—Powers of Town and County Councils.

There has been so much bitter controversy involved in the discussion of the new English Education Act—more outside parliament, perhaps, than in it—that it is not easy to arrive at an entirely unprejudiced summary of the changes in the system that are actually involved—whether they are beneficial or not time alone will prove. One advantage will most certainly assure a more orderly, as well as more legal, administration, inasmuch as by a gradual, and almost imperceptible, process of development, there has sprung up a considerable amount of overlapping of functions, with the result that the same class of teaching was often being given in duplicate, where consolidation was not only possible, but extremely desirable.

This arose mainly through there being several responsible authorities. The school boards, for instance, elected triennially, were supposed to confine themselves strictly to elementary education, but a great deal of dispute arose as to what the word elementary embraced, and under the more progressive boards it eventually came to include some very advanced teaching. For this, or secondary, education, as it is called in England, there was no public provision whatever, and theoretically at least, it was confined to grammar schools and similar institutions under more or less private control and ownership. But beyond this, again, lay technical instruction, which was entrusted, not to the school boards, but to town and county councils, elected for purposes of general administration, and without regard to education at all. One of the principal objects of the new bill, when it was introduced, was to create one single authority for the entire system, and bring under control all education in any way dependent on grants of public money.

It would seem that the proper bodies to be entrusted with this work would have been the school boards. But these did not exist everywhere, and would, in many districts, have had to be created. Partly on financial, and partly on other grounds, there was almost everywhere an objection to introduce them where, by any possible means, this could be avoided. The first thing they always did when elected was to impose a special education tax, small to begin with, but sure to assume larger proportions as time went on. But the principal opposition to them was religious; they were bound to establish and maintain their schools on strictly undenominational principles, whereas two denominations, the Church of England and the Roman Catholic, everywhere strove to enforce education according to the tenets of their own special creeds. This antagonism, so far from being overcome, was rather intensified where school boards, under the act of 1870, were actually in existence, and a sharp contrast was drawn between the two classes of schools. Over the board, or public, schools, the elected school board had absolute authority; over the denominational, or so-called voluntary ones, none whatever; the only control exercised in their case—and that often of the smallest—being by the central board of education in London. The public schools, with almost unlimited resort to the pockets of the local taxpayers, rapidly outstripped their rivals in general efficiency, and so became the object of much envy, and at times of bitter hatred.

When it became necessary, therefore, to select a local body to which all schools in receipt of public money should be made amenable, the school board excited immediate antipathy. It was, however, the institution itself, much more than the individuals composing it; so to avoid friction, it was

DECIDED TO ABOLISH

it entirely and transfer the powers to the town and county councils. It is the custom of these bodies to transact every department of their business through committees of their own members, so a special education committee will have to be favoured, though in numerous instances it will be largely a reconstruction of the existing one devoted to technical instruction. But there will be a departure from the general rule, inasmuch as only a portion of this committee is to consist of elected members of the parent body, the rest being drawn from outside for special qualifications they possess, or as representatives of groups of schools, it being feared that councils with strong political views may deal unjustly with any class of school they socially dislike. This was provided against on the school boards by means of the cumulative vote, giving to each elector as many votes as there were members to be elected, which could be distributed as he liked. Hence, any sect or body able to control a fractional number of votes corresponding to the total membership, was in a position to return a candidate of its own.

Direct popular election thus becomes a thing of the past, and as it was invariably conducted more on religious than educational grounds, its disappearance is not to be altogether regretted. As it will be almost impossible to import religion into the selection and return of candidates for local governing bodies, and if it were, there can be no assurance that members so elected will be placed on the the education committee, there is strong probability that in a very short time the English schools will be conducted entirely with the view to their educational efficiency, and not, as sometimes happens at present, as nurseries for particular churches.

(To be continued.)

ABOUT CIGARETTE SMOKING

Its Evils and the Efforts to Counteract it.

The General Work of the Anti-Narcotic Department of the W. C. T. U.

The general work of the Anti-Narcotic Department of the Women's Christian Temperance Union has been to disseminate information about the hurtfulness of narcotics of various kinds, and thus to endeavour educationally to built up opposition to their use. But four years ago we bent our energies towards one specific aim, and that was to try and secure the prohibition of the manufacture, sale and importation of the cigarette for the Dominion of Canada. We know that we are battling against large moneyed interests, and that last year the revenue from cigarettes amounted to $400,000, but we also feel that the value of the incoming nation cannot be measured by dollars and cents, and that to allow this traffic to increase to the extent it has done during the past three years will mean ushering in subjects whose capabilities are not only wrecked mentally and physically, but whose morals are corrupt beyond redemption. We feel that we do not stand alone in this undertaking, but are substantially backed up by public sentiment, and the chivalry of the men and women are aroused in defence of the weak, the ignorant and the erring. The circulation of petitions in our own city has been most satisfactory, many of our leading, prominent men stating they would gladly sign them with both hands. Not a single druggist or barber who sold cigarettes refused to sign, and only one tobacconist, many of the latter wishing us success and hoping to see the total abolition of the cigarette, for they said there were no profits in them, and they brought them into more disrepute than all the rest of their trade. A Principal in one of our large public schools informed the writer that he believed the majority of the boys in his class were cigarette users, and that their standard in their classes was rapidly lowering. An investigation set on foot in Winnipeg by the Tribune, of that city, revealed that on their own admission nearly one-fourth of the lads attending the city schools used tobacco. Last year a deputation of physicians and leading citizens waited on the Kingston City Council begging that something tangible be done to guard the school children from the cigarette. The 154 teachers in the London schools signed a petition to the School Board, asking that the parents of the scholars should be in some way warned of the injury cigarette was doing. The Toronto School Board was so impressed with the ravages of the habit amongst Toronto children they threw open the schools to a lecturer upon the cigarette, permitting him to address the scholars during schools hours. Mr. C. Ferrier, Principal of the Victoria Industrial School, Mimico, in giving his testimony stated that fully 75 per cent. of all youths committed to his care are cigarette users. The Superintendent of the Illinois State Reformatory said that of the 278 boys confined there, 256 were cigarette users. Last winter three cigarette boys were confined in No. 3 Police Station over night for law breaking, having no opportunity to indulge in that favourite passtime one of them went into delirium tremens, and would have dashed his brains out against the stone wall had he not been tied down securely. The tobacco trade has now come out as the open opponent of the temperance reform. The deputation that last year waited on the government to oppose the granting of Prohibition was almost as largely composed of tobacco men as of liquor men. Mr. Joseph Smith, President of the tobacco industry of London, the largest in Canada outside of Montreal, said on Dec. 2nd, in the London News, that if the Liquor Act carried, and bars were abolished, they would not sell 500 cigars, where now they sold 5,000; in fact that prohibition would hit the tobacco trade about as hard as the liquor business. Very large representative petitions have been secured from all the Provinces including the Northwest Territories, and Sir Wilfred Laurier has arranged to meet the deputation at noon on Tuesday, which will include Mrs. A. O. Rutherford, Dominion President of the W.T.C.U.; Mrs. S. G. McKee, Provincial President of Ontario; Dr. Brown, of Toronto, and the Dominion Superintendent of anti-narcotics from Ontario.

Jennie Waters.

Physicians attribute the prevalence of the white plague, consumption, in many cases to cigarette smoking, and on examination have found abscesses and ulcers saturated with nicotine.

Despaired of Being Cured.

Mrs. W. E. Jeffries, 44 Hicks avenue, Kingston, Ont., says: "I suffered agony with itching piles. In fact I don't believe that any person who has not had piles can realise what I endured. The first application of Dr. Chase's Ointment brought me relief, and it has since entirely cured me. I hope that this testimonial will be the means of bringing comfort to other sufferers by making known the great power of this ointment."

CEMENT FOR BUILDING.

With cement costing 56 cents more per barrel than last year's price, this may not be an opportune time to say anything about using cement instead of brick in house building, but when the supply of Canadian cement catches up to the demand, the realization of Edison's scheme for "poured" houses may be looked for. It ought to work well in just such a case as that of north-east Hamilton where a number of houses are to be built under single contracts to accommodate the workmen in the Deering factory. A gang of men could proceed from house to house in the row, adding a layer to the height of each house per day, and finishing the walls of the whole batch in a fortnight or three weeks. The saving in labour would be enormous but the builders could not afford to pay fancy prices for cement.

BURLEIGH.

(From our own Correspondent.)

Mr. Darge, of the Park Hotel, was busily engaged last week in putting in ice. He is making big preparations for the coming season's trade.

Mr. John Tleford gave a party to a number of young people at his home on Friday night of last week. About 25 were present and spent an enjoyable evening.

Mr. E. Wigg gave a party to a number of his friends on the evening of Friday, Feb 13th, to celebrate his wedding. A very pleasant time was spent.

Miss Vera Stone is taking music lessons from Mr. W. Creswick, at Young's Point.

Mr. R. Stone has returned home from visiting friends at Havelock.

The people around this settlement are all very busy at present taking out timber and wood. Complaints are made that the swamps are very soft. The Captain is working away, and is getting along very nicely. He works steadily and seems to get along as well as those that are in a hurry. There is no danger of him breaking anything.

Mr. Jacob Bates is preparing to build a new house. He intends to have it ready to move into about April 12.

Mr. R. Stone bought a beautiful colt the other day.

Mr. W. Patterson lost a valuable steer a few days ago. Too much marsh hay was the trouble.

Nearly all the young men around here have bought new cutters this winter, for the purpose, it is said of takin their sweethearts out for a drive. After they got the cutters they could get no girls to go with them. One young man went to ask his girl to go for a drive with him and when she refused he got mad, jumped into his cutter and drove it over a big rock, breaking the runner.

WOMAN'S WORK

Often Leads to a Breakdown in Health.

Severe Headaches, Loss of Appetite, Dizziness, Palpitation of the Heart and Other Distressing Symptoms Follow.

Woman's cares about the household are many and often worrying, and it is no wonder that the health of so many give way under the strain. To weak, tired-out, depressed women everywhere, the story of Mrs. Geo. L. Horton, the wife of a well known farmer living near Fenwick, Ont., will come as a message of hope. To a reporter who interviewed her on the subject, Mrs. Horton said: "Yes, I am quite willing to give my testimony to the great good Dr. Williams' Pink Pills have done me, as my experience may help some other sufferer. A couple of years ago my health began to give way, and I suffered from anaemia, with most of the depressing symptoms of that trouble. I became much emaciated, had distressing headaches, and a very poor appetite. At first I thought the trouble would pass away, but in this I was mistaken, as I continued to grow worse. My heart began to palpitate violently at the least exertion; my rest at night was broken and finally a bad cough set in, and I was scarcely able to do a bit of work about the house. An aunt in England who had been ill had written me that Dr. Williams' Pink Pills had restored her to health, and I determined to give the pills a trial. After the use of a few boxes I noticed a distinct improvement in my condition, and after using the pills for a few weeks more the trouble had completely left me. I could sleep well at night, the cough left me; the headaches that had made me so miserable vanished, my appetite returned, and I could again perform my housework with ease. I shall always feel grateful for what Dr. Williams' Pink Pills have done for me, and strongly recommend them to other ailing women."

Dr. Williams' Pink Pills have accomplished just such good results in thousands of other cases among ailing men and women, and sufferers from any of the numerous ailments resulting from poor, watery blood who will give these pills a fair trial will soon be on the high road to health and strength. Imitations are sometimes offered by unscrupulous dealers, who care more for their own profit than for their customers' health. Be sure that the full name, "Dr. Williams' Pink Pills for Pale People," is found on the wrapper around every box you buy. If your dealer does not keep these pills send to the Dr. Williams' Medicine Co., Brockville, Ont., and they will be mailed post paid at 50c. per box or six boxes for $2.50.

THE TITTLE-TATTLE PARTY.

Hamilton Times.

The Tories seem to be apprehensive that Hon. J. I. Tarte may not be as useful to them as they had hoped he would be, so they are trying one scheme after another to nettle him against his old colleagues and fellow Liberals. A few days ago they gave Mr. Cowan of Essex, as their authority for some unkind words by Sir Wilfrid Laurier about Mr. Tarte, who remarked at the time that he did not believe Sir Wilfrid had used any such language. Mr. Cowan has since written to Mr. Tarte, as follows:

"In any conversation which Sir Wilfrid had with me or in my presence, if your name was mentioned he never spoke otherwise than kindly of you. And I never made a statement to anyone that Sir Wilfrid had even mentioned your name, let alone referred to your conduct as treacherous."

That bubble having been effectually pricked, the Tories have now put into the mouth of Hon. Mr. Blair, a slighting reference to Mr. Tarte, who writes regarding it:

"I doubt very much whether Mr. Blair has made the statement attributed to him; but, even, if such a high authority as the Minister of Railways and Canals has said that I am dead and buried, I will beg to be allowed to live as long as Providence will be good enough to tolerate me on the surface of the earth."

SILICATE BRICK.

Public notice is given that I have acquired the exclusive right to manufacture and sell, within the Province of Ontario, Silicate Brick, made out of sand lime and other materials, mixed and treated under the invention and process of O. Hugo Anderson, for which Letters Patent for Canada were granted on 18th December 1901, under No. 74,967. Companies have been formed at Montreal, Sydney and Ottawa, to operate under this patent. The works at Sydney and Montreal will be turning out brick in February, and at Ottawa in April next.

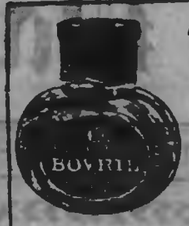
I am prepared to sell rights under the above patent in Ontario and solicit correspondence.

Any person infringing these Patents Rights will be prosecuted. Address

D. O'CONNOR, K. C.,
35 Sparks Street, Ottawa.

Dec. 21, 1902.

Two Ounces of Solid Strength



is what every two-ounce bottle of **Bovril** holds. **Bovril** is the only essence of meat in which you get **all the beef.** *Extracts* contain the *juices*, only. Bovril contains all the muscle forming Fiber, too; giving it staying power, as well as stimulating properties.

Just Try To Get Well

Find out what I know.
Learn why my offer is possible.
Write me a postal—that's all.

Then I will mail you an order—good at any drug store—for six bottles Dr. Shoop's Restorative. You may take it a month on trial. If it succeeds, the cost is $5.50. If it fails, I WILL PAY THE DRUGGIST MYSELF, and your mere word shall decide it.

Note What That Means.

No matter about your prejudice and doubts. They are natural—but put them aside for once.

Look at it this way:—If my treatment succeeds, you are well. If it fails, it is free. You whole risk is the postal your write.

And consider this:—You see this offer everywhere, and thousands every week accept it. Don't you realize that I must be curing these thousands, else the offer would ruin me?

And can't you believe—in view of the faith I show—that my vast experience may have solved a way to cure you?

Don't be too hesitating when your health is at stake. Just try for a month to get well. Then, if you are still doubtful, let your druggist send the bill to me.

My Method Is This:

My Restorative strengthens the inside nerves. It is my discovery—the result of my lifetime's work.

Instead of doctoring the weak organ, I bring back the nerve power which alone makes each vital organ act. I give it the strength to do its duty, just as I would give a weak engine more steam.

I nearly always succeed. My records show that 39 out of every 40 who get my Restorative on trial, pay for it gladly, because they are cured. The best of other treatments cannot cure one chronic case in ten.

My book will tell you why.

CUT OUT THIS COUPON.

For we all resolve to send for something, but forget. Mark the book desired and mail this with your name and address to

Dr. Shoop, Box 47 Racine, Wis.

Book 1 on Dyspepsia	Book 4 for Women.
Book 2 on the Heart	Book 5 for Men (sealed).
Book 3 on the Kidneys	Book 6 on Rheumatism.

Mild cases, not chronic, are often cured by one or two bottles. At all Druggists.

Dr. Shoop's Restorative on Trial.

TWO TRAINS FROZEN IN.

100 Passengers Fast Without Food in Uninhabited Newfoundland.

St John's, Nfld., Feb. 21. — Two passenger trains are frozen in snow banks in the almost uninhabited interior of Newfoundland. They have nearly one hundred persons on board, who are short of provisions. One train, the farthest from relief, has only two days' food. The relief trains were also blocked. One relief engine was ditched yesterday, and most of the working party of 80 men were frost-bitten.

The chief trouble is that the relief parties are unable to venture far from their own trains, because of the blizzard, which has been raging during the past week.

An expedition with dog sleds, laden with food will start at daylight to-day in an endeavor to reach the distressed passengers. Snow banks 20 feet high extend for miles, and the cuts made by the engines fill again almost instantly. Thursday one train made only two miles.

The whole railway service is paralyzed. The trains having consumed all their coal, are now burning the wood of fences and trees alongside the tracks. No mail has come in or gone out of the colony for over a week.

A DAILY NUISANCE.

A Simple Remedy Which Will Interest Catarrh Sufferers.

In its earlier stages catarrh is more of a nuisance than a menace to the general health, but sooner or later, the disease extends to the throat, bronchial tubes and even to the stomach and intestines.

Catarrh is essentially a disease of the mucous membrane, the local symptoms being a profuse discharge of mucus, stoppage of the nostrils, irritation in the throat, causing coughing, sneezing, frequent clearing of the throat and head, and gagging.

The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treatment which removes the catarrhal taint from the blood and the disappearance of the inflammation from the mucous surfaces.

A new remedy which meets these requirements, and which so far has been remarkably successful in curing catarrh is Stuart's Catarrh Tablets.

These Tablets act upon the blood and mucous membrane only. They can hardly be called a secret patent medicine, as they are composed of such valuable remedies as Blood root, Hydrastin, Red Gum and similar cleaning antiseptics, which cure by eliminating from the blood and mucous surfaces the catarrhal poison.

Stuart's Catarrh Tablets are large, pleasant-taking lozenges, taken internally, allowing them to dissolve slowly in the mouth. In this way they reach the throat, fauces and entire alimentary canal.

If desired they may also be dissolved in water and used as a douche, in addition to the internal use; but it is not at all necessary to use a douche, a few of them dissolved in the mouth daily will be sufficient. However, when there is much stoppage of the nose a douche made from these Tablets will give immediate relief, but the regular daily use internally of the tablets will cure the whole catarrhal trouble without resorting to the inconvenience of a douche.

Dr. Bement says "that the internal treatment for catarrh is rapidly taking the place of the old plan of douching and local application and further says that probably the best and certainly the safest remedy at present on the market is Stuart's Catarrh Tablets, as no secret is made of their composition and all the really efficient remedies for catarrh are contained in this tablet."

Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized packages. Ask your druggist and if he is honest he will tell you there is no safer, more palatable, more efficient and convenient remedy on the market.

El Mosebbi Killed.

Madrid, Feb. 21.—A despatch received here from Tangier, Morocco, says it is persistently reported there that El Mosebbi, the Minister of War, was killed in battle Feb. 12.

Ralph Smith, M.P., Ill.

Vancouver, B. C., Feb. 21.—Ralph Smith, M. P., is seriously ill with appendicitis.

PREMIER AT AURORA

An Elevating, Eloquent and Inspiring Address by Mr. Ross.

DEVELOPMENT OF ONTARIO.

What Has Already Been Accomplished Toward That End—In Coring For the New the Development of the Old Has Not Been Lost Sight of — The Niagara Power Question.

Aurora, Feb. 21.—Any person who fancied that orderly meetings and calm discussion of public affairs had ceased in North York would have been agreeably disappointed if present at last night's great Liberal meeting in Mechanics' Hall. The gathering, except for its occasional cheers, might be compared to a church service in the dignity and temperateness of the audience.

The Chief Attraction.

The chief attraction of the evening was the Premier of Ontario. Hon. G. W. Ross, who came to speak for his colleague, Mr. Davis, and gave one of the most elevating, eloquent and inspiring addresses he has delivered since he became Premier. His general opening tone was a business talk, in which he showed how his Government had sought, by developing the newer regions and adding more intelligence to the older occupations, to give employment, to add to the wealth and the happiness of every person in the Province. He avoided the discussion of local issues, and in his concluding words, glanced hastily at the recent development of Canada, which, with its incalculable resources, called for the abandonment of party squabbles and for the application by everyone of his best energy for his country's welfare.

Discovered Niagara Falls.

Recently, he proceeded, after discussing the various older issues with which the electorate are more or less familiar, the Conservatives had discovered Niagara Falls. The Government had discovered it ten years ago and began to improve it. Now three companies had been given franchises to develop power, and under the agreements they would pay to the Province about $300,000 when they had completed their works. That was equal to a capital of nearly $7,000,000 at the disposal of the Province. On the American side the expenditure had been $2,000,000, compared with $600,000 here, and they did not receive a cent of rental from the power companies. They were willing to let Toronto for her civic works or for her manufacturers have all the power they wanted, or a union of municipalities might establish a commission and get power for themselves. One thing we are resolved upon, and that is, we shall not bring the Province of Ontario into any debt because of any investment the Government is expected to make or is asked to make to develop electrical power for any part of the Province, unless we can do it for the whole Province. (Applause.) We are not opposed to development, but to the risks of development at the expense of people who cannot benefit. Let those who are to benefit take the risk, and we allow them freely to assume the obligations. (Applause.) Mr. Ross touched briefly on the referendum, and then concluded his address in the following words:—

Canada's Expansion.

Who cannot help feeling a thrill of enthusiasm from the unprecedented expansion of commerce and industry apparent on every side. Our trade with the outside world now exceeds four hundred million dollars, being nearly double per capita the trade of the United States, showing the wonderful resources of our forests, mines and farms. What part Ontario will take in this vast empire is for the electors of the Province to say. Shall we waste our energies in petty squabbles and party feuds, or shall we rise to the importance of the situation and demonstrate to the world that we are worthy of this great heritage? If we look to the undeveloped lands of new Ontario they will furnish us ample scope for our surplus energies.

Development of Older Ontario.

Nor should we confine ourselves to the breaking up of fresh soil. Old Ontario yields but a small fraction of what it is capable of producing. We must emulate the skill of Denmark in dairying; the thrift and frugality of France in marketing the small products of the farm; the thoroughness of Midlothian and the central counties of England in agriculture. To these ends we must not be afraid to incur a reasonable expenditure. The exports of our farms and stockyards last year amounted to about $90,000,000; they could be doubled with improved methods of husbandry and more labor. We are spending annually nearly $800,000 for agricultural purposes, all designed to make farming more renumerative, and to establish the science of agriculture as the supreme industry of the Province. We are spending as a Government nearly a million dollars for education, to raise the intelligence of our people to that high level which will enable them not only to compete with any other nation in the world, but to enjoy the fruits of their own industry as intelligent citizens only can.

The temptations which beset both young and old from the sale of intoxicating liquors we hope to restrict and minimize.

Free From Entanglements.

Though we claim to be a party Government, we are a Government for the people, irrespective of party, race or creed. So far as I can bring it about, the humblest citizen shall share in the bounty, as well as in the protection of Government, equally with the rich. We shall neither be dominated by corporations nor beguiled by popular generalities. The Government at this moment has no entangling alliances. Every member of the Government is as free to act in the public interest as any one of the 600,000 electors in the Province, and the personal character of every member of the Government is as free from reproach—and I say this advisedly—as the personal character of their strongest supporters or their bitterest opponents. We have but one ambition, that is to represent the matured intelligence of the best citizens in our methods for promoting public prosperity and protecting public morality, and although in respect of all of these we admit our shortcomings, I think I may say without excess of confidence that we hope to realize our expectations quite as fully as the average citizen realizes the ideals which he has set before him in the management of his own affairs or in the direction of his personal conduct. (Loud cheers.)

The meeting closed shortly before 11 o'clock with the singing of "God Save the King," and with hearty cheers.

EATS BREAKFAST NOW.

Mrs. A Waddell used Dodd's Dyspepsia Tablets, has Her Dyspepsia and Found an Appetite.

Some people have Dyspepsia and do not know it. They know they have headaches, that they are nervous and irritable, troubled with sleeplessness and generally run down. But they never think of charging up their troubles to where they spring from—the stomach.

If the stomach does not do its work properly—digest the food properly—the necessary nourishment is not supplied to the different organs and the latter become overtaxed and worn and unable to supply the demands the day's work makes on them.

The remedy is to have the food properly digested. Dodd's Dyspepsia Tablets digest the food and the body supplied with the nourishment it requires, does its work readily and easily. The headaches disappear and the tired, restless feeling with them. Mrs. A. Waddell, 34 Simcoe street, Hamilton, has proved this. She says: "I had been troubled for four years with heavy headache and heartburn. I doctored with the best doctors, but they failed to help me. I commenced using Dodd's Dyspepsia Tablets and soon found I was cured.

"I can now eat breakfast in the mornings; before I could not touch a bite."

REFERENDUM OFFENDERS.

Two Impersonators Get a Year in Central Prison and Must Pay a Fine of $400—Two Cases Adjourned.

Toronto, Feb. 21.—The trial of the personation cases arising out of the referendum vote was continued before Judge McCrimmon yesterday. After hearing the evidence presented, His Honor disposed of the case as follows:

F. B. Carlile, impersonation, one year in Central Prison and fine of $400.

Robert Raynor, impersonation, one year in Central Prison and fine of $400.

J. D. Coulter, procuring; held that case had been made out; judgment reserved till Tuesday.

Daniel Cohen, impersonation, failed to answer; adjourned till Tuesday.

Joseph O'Mella, impersonation, adjourned till Tuesday.

In the case of Raynor, baggagemaster of the steamer Chippewa, who swore he was so drunk that he had no recollection of voting anywhere, his counsel held that he was simply a tool in other men's hands, and Crown Attorney Dewart consented to permission being accorded to plead for remission of the sentence for special reasons, and an attempt will be made to have the sentence lightened.

G. T. WRECK AT WHITBY.

Not Due to Spreading of Rails but to a Forward Truck.

Whitby, Feb. 21.—Manager McGuigan, Superintendent Blackstock and other officials of the G.T.R., arrived yesterday morning from Montreal, and inspected the scene of the wreck of Thursday. Careful examination of the track shows clearly that the accident was due not to the spreading of the rails, though that was an after incident of the actual occurrence, but to something happening to the forward truck of the second car of the train, a combination coach for first and second class passengers.

Toronto, Feb. 21.—Most of those who were injured in the Grand Trunk wreck at Whitby Junction Thursday are progressing favorably. Michael Cusack, the brakeman, and George Lappage, the baggageman, who are in St. Michael's Hospital, are doing as well as could be expected, considering the serious injuries of both men. Cusack received the worst injuries, although a fatal result is not expected in his case.

POISON IN SWEET CAKE.

Man Residing Near Wabigoon, Ontario, Had a Close Call.

Wabigoon, Feb. 21.—A man named Chiverton at Goldrock, on Friday last received a box of chocolates by mail with a slip of paper on which was written, "Jack, a few candies for yourself." His companion, who merely tasted one, was seized with violent pains, exhibiting all the symptoms of being poisoned. He and the candies were taken to the doctor's house, while the candies were on the table, J. Joy took one before the doctor could warn him, and was seized with convulsions, which would have finished him had the doctor not been there and applied immediate remedies. The donor of the chocolates is unknown, but there are evident signs of the candies having been tampered with. Dr. Murdock has forwarded the package to the provincial authorities at Toronto, who will, no doubt, prosecute a thorough and searching investigation into the facts of the case.

WOMEN, WHY SUFFER?

Paine's Celery Compound

Permanently Banishes Nervousness and the Many Female Weaknesses That Afflict Women Young and Old.

Nervous disorders and diseases are on the increase, and women of all ages are sufferers. Digestion gives out, there are pains in the head, the tongue is coated, the muscles ache, there is constipation, heart palpitation, gloomy fears oppress continually and sleep is broken and disturbed. The only reliable remedy that medical science has given to women for their emancipation from suffering and weakness is Paine's Celery Compound, now so largely prescribed by physicians with the happiest results. In critical times, Paine's Celery Compound has saved life and restored health when all other medicines proved failures. Jessie M. Ross, Quyon, Que., who found Paine's Celery Compound to be "a woman's best friend," writes as follows:

"It affords me much pleasure to testify to the great good that Paine's Celery Compound has done for me. I was completely run down in health and a victim of female weakness and after using three bottles of your wonderful medicine I was completecured. It is the best blood purifier I know of, and I recommend it to all who are troubled as I was."

To Enlarge Canada's Market.

Newcastle, Feb. 21.—William Peterson, the Newcastle shipowner, will start a line of live freight steamships between Montreal, London and Rotterdam as soon as the passageway is free of ice. This is the first attempt ever made to establish direct commercial communication between the Upper Lakes and Europe.

Tucker's Medicines.

PROPERTY OF THE COMPANY.

This Company has secured 10,000 acres of the choicest wheat lands in Assiniboia, Canada, having paid to the owners in addition to cash, 60,000 shares of its Capital Stock, for which the owners are completely equipping the property with all the necessary buildings, steam plows, steam threshers, drills, wagons, roofs, fences, and everything necessary to operate the said 10,000 acres. In addition, the Company is to pay to the Canadian Pacific Railway Company and the other vendors of the said lands $50,000 in yearly installments of $10,000 each, being the balance of the purchase money.

These lands are capable of producing, at a fair estimate, 30 bushels to the acre of the best wheat produced in the world, or a total capacity of 300,000 bushels per year. Owing to the rich, prolific nature of the Northwestern Canadian soil, this product can be duplicated each year indefinitely. The Company's property will always be equipped with all the latest improved steam plows, drills, threshers, and necessary machinery to produce wheat at the lowest cost. It is the intention of the Company to have its own elevator, of a capacity sufficient to store its entire production, thus enabling them to take advantage of the highest market prices from time to time. The market for wheat is the same as for gold—it is unlimited.

The Company also has an option on 10,000 additional acres of the same character of wheat land as the 10,000 acres above mentioned, the property being located seven miles from the Canadian Pacific Railway, where large elevators are ready to receive the product.

This is an investment that will enhance in value as time goes by, not only from the large production of wheat, but the increased value of the Company's lands from year to year.

APPROXIMATE EARNINGS OF THE COMPANY

Are Estimated as Follows:

The average yield of wheat in Western Canada varies but little under all conditions. In some years the average has been over thirty-five bushels per acre. Many individual cases report as high as forty-five and even fifty-five bushels to the acre. But, taking the lowest average, there is no industry that will produce better profits. Owing to the modern steam machinery and economical methods employed in cropping, harvesting, threshing and marketing, as well as the especial ease with which in the prairie country of Western Canada, wheat is produced, there is always a splendid profit. The cost of raising an acre of wheat, being placed by farmers and experts at about $5.00 per acre, there have been cases in the past few years where as much as $35.00 has been realized, less the cost of $5.00, leaving a net profit of $30.00 per acre.

A safe and conservative estimate of the Company's earnings, taken much below the above figures, is herewith given:

APPROXIMATE YEARLY STATEMENT.

10,000 ACRES AT 30 BUSHELS OF WHEAT PER ACRE—300,000 BUSHELS, WORTH ON THE CANADIAN PACIFIC RAILWAY, 60c. PER BUSHEL $180,000

Cost of Steam Plowing	10,000 acres at $1.00 per acre,		$10,000
" Harrowing	"	.20 "	2,000
" Cultivating	"	.40 "	4,000
" Seed for	"	.60 "	6,000
" Drilling	"	.22 "	2,200
" Binding	"	.33 "	3,300
" Threshing	"	1.25 "	12,500
" Incidentals, wear and tear on machinery, etc.		.20 "	2,000
Salary of General Manager, per year			3,000
Clerks, office expenses, per year			5,000
			$50,000
Annual Deferred Payments on Land			10,000
To pay Dividends of 15 per cent. per annum			82,500
Estimated Surplus, after payment of Dividends			37,500
			$130,000

ESTIMATED NET PROFITS PER YEAR.

It will be seen that, after paying the expenses of raising wheat on 10,000 acres, amounting to $50,000 each year, and paying $10,000 per year to the Canadian Pacific Railway (for 5 years) as yearly payments on the property, it is estimated there will still remain a profit of $120,000 per year, or over 20 per cent. per annum on the stock issued.

TREASURY ASSETS.

The Company now have, after paying the 60,000 shares to the owners for the lands, improvements and equipment, 140,000 shares still in the Treasury, the same being set aside as a Treasury Fund. 50,000 of these shares are now being offered for subscription in Canada and England, and are to be sold for the purpose of taking up the option, and acquiring the 10,000 acres of new wheat territory, and the equipment of the same, together with working capital.

By acquiring the additional 10,000 acres, making 20,000 in all to be owned and operated by the Company, the profits will be more than doubled, or over 40 per cent. on the 110,000 shares of stock issued.

The balance of 90,000 shares will be held as an asset of the Company, which can be sold when required for extending the operations of the Company.

DIVIDENDS.

Dividends of, say, 15 percent. per year, it is estimated, can be paid semi-annually, December 1st and June 1st of each year. Outside of the amount paid in dividends, the surplus earnings will be accumulated, and will either be divided among the shareholders as extra dividends, or used to purchase new wheat territory; or be otherwise employed as may be hereafter determined.

WESTERN CANADA

is fast becoming the Eldorado of Great Britain. Its wheat lands will create more wealth than all the gold and diamond mines of the Empire. The failure of a crop is unknown. (See the report of Hon. Clifford Sifton, Minister of the Interior, Canada, extracts of which are published in the prospectus of this Company.) The wheat of Western Canada is well known to be extremely Hard No. 1, the best quality grown in the world; the yield also being considerably more per acre than in the United States. The sub-soil throughout the intense heat of summer is kept moist by the slow melting of the deep winter frosts, the moisture ascending to the surface and moistening the roots of the grain, thus stimulating growth and producing a bountiful crop.

DEMAND FOR WHEAT.

The demand for wheat from England alone is over 160,000,000 bushels per year, and from other European countries about 250,000,000 bushels, most of which is obtained from the United States, but of a poorer quality than can and will be furnished by Canada. The Canadian Pacific Railway runs within easy hauling distance of the property and is doing everything in its power to increase wheat raising.

A RELIABLE INVESTMENT.

This Company has an advantage over other industrial enterprises through the fact that while the Company's earnings from its wheat products will be constantly growing, and advancing the price of the Company's shares, the land of the Company is continually enhancing in value, creating a double source of values.

There is no business in the commercial world so profitable as raising wheat, and the investment is as safe as first-class Railroad Bonds, for the reason that the land and improvements of the Company are always a security for its shares, besides its ability to raise immensely profitable crops. The possibilities of this Company are unlimited, as the surplus earnings can be devoted to the acquisition of additional wheat lands, thereby increasing the earning capacity of the Company and lowering the average cost of production.

Owing to the intrinsic value of the property of this Company, and its estimated vast earning power, a rapid advance in the price of these shares will doubtless take place, and we confidently expect that this issue of 50,000 shares will be largely over-subscribed.

SUBSCRIPTION TERMS.

The full amount of $5.00 per share must accompany the order. The right is reserved to allot a smaller number of shares than the amount subscribed for, in which event the balance of the money will be returned with the shares allotted.

Application will be made for a settlement of these shares on the London, Montreal and Toronto Stock Exchanges in due course.

MONEY MAY BE SENT BY POST OFFICE ORDER, EXPRESS, REGISTERED LETTER, OR BY CHEQUE.

Address all communications, including applications for shares, to

Daily Examiner.

SATURDAY, FEBRUARY 21, 1903.

All Saints' Church.

Rev. W. L. Armitage will preach at both services on Sunday.

Probabilities.

Strong west and north-west winds; fair, and a little colder again to-night. Sunday — Fine and moderately cold.

Charlotte Street Church.

The pastor will preach to-morrow. Morning subject, "Sonship." Evening subject, "Instability." Special evangelistic service at the close.

Y. W. C. A. Notes.

The regular Sunday afternoon service will be held to-morrow at 4.15, led by Miss Moodie. Subject, "The Living Temple." All young women are invited.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Smooth, Dry Potatoes.

Our last car is turning out exceptionally nice. If you want any be sure and get them.

W. H. HAMILTON.

The Pentecostal Hymnal

With music, as used by the evangelists, Messrs. Kerby and Turk, now on sale at the Peterborough Bookstore. Everything you need for Sunday reading in books, magazines and periodicals. We have all the good books that are being read. Any special book not on our shelves, procured promptly. A. H. Stratton & Co.

New Barber Shop.

We have started a new barber shop in W. O'Brien's cigar store, 423 George street. It is fitted with a handsome two-chair artistic mirror case and two pedestal base hydraulic chairs, which can be raised, lowered, revolved and reclined at will. The shop is neatly furnished with suitable floor and wall coverings, new shop furniture and fixings, cup cases, wash stands, a jacket heater for heating water and complete barbers' outfit.

9d4 O'BRIEN & WEBSTER.

10 CENT BAND CONCERT
Opera House
Tuesday Evening, 24th inst.
SPECIAL:
Entirely new Programme by Band, and "Joe" Halpany, Comic Vocalist, in New Songs and Dances.

Musical Services.

The music in George street church to-morrow will be of an evangelistic nature.

The orchestras of George street and Charlotte street Sunday Schools with Mr. Wildgust at the piano and Mr. G. W. Mulligan leading, will assist the men's chorus to-morrow afternoon in the Opera House. All the singers and orchestra members be at the Opera House at a quarter to four. Every male singer in town will be welcome. All familiar songs will be used. This will be a rousing time.

"Never Struck Better Snaps."

That's the verdict of buyers at the sale of the Bradley stock. When you're down town come in and see for yourself. Men who want extra fine suit lengths for spring or summer, or spring overcoats or trousers; ladies who want handsome cloths suitable for skirts, costumes or jackets; boys, who want good suits for school or college—it's no trouble to sell, when everybody can see the cloth is worth so much more money. Stylish imported patterns—it's a mistake to miss them. Then the furnishings are so correct, and the prices so remarkably small. Do not let anything keep you from such surprising bargains. Remember that the stock was bought at 50 cents on the dollar, and it's a quick sale—can't last long at No. 383 George street.

If you want a real bargain in books, call at Sailsbury's

CHILD BURNED TO DEATH.

An Awful Accident in Dummer Township.

An Infant Burned to a Crisp—Another Child Also Frightfully Burned.

(Special to the Examiner.)

Norwood, Feb. 21.

A most distressing accident occurred at the home of Mr. James Drain, who lives at Purdy's Mills, about eight miles north of Norwood, in the Township of Dummer. Mr. Drain's three-months-old child was burned to death, and his little three-year-old daughter is so badly burned that she cannot recover.

Mrs. Drain had left the house, leaving the two children at home. About a quarter of an hour after she had left the place the neighbours noticed flames arising from the Drain house. When the children were reached the little boy was burned to death, and the clothing of the three-year-old child was in flames. It is not known how the unfortunate accident occurred.

Gerald and Dora Barrie, children of Mr. David Barrie, of the township of Dummer, died of inflammatory croup, Gerald dying on Feb. 17, and Dora on the 18th. Both were buried in the Norwood cemetery. The parents have the sympathy of all.

Miss Annie Birt, who has been visiting friends in Peterborough, returned home on Wednesday.

Messrs. Buck & Walsh shipped a carload of stockers to Toronto yesterday.

Mrs. William Elliott, of Spring street, who moved into town about two weeks ago, was found dead in her bed on Thursday morning. On Wednesday afternoon she was down town, apparently as well as usual. She retired about 9.30, and when her son went to call her in the morning, receiving no response, he went to her room, and found her dead. The cause of death was supposed to be heart failure. The deceased was 64 years of age.

THE EVANGELISTS.

The Meeting to be Held in the Opera House To-morrow Afternoon.

Rev. Mr. Turk will preach at St. Paul's Presbyterian church at 11 o'clock on Sunday, and Rev. Mr. Kerby will take the morning service in the Murray street Baptist church at 11 o'clock.

On Sunday afternoon at four o'clock, there will be a meeting for men in the opera house, when Rev. G. R. Turk will speak on the subject, "The Church and the Workingman." There will be special music at this service by a male chorus of 75 voices under the direction of Mr. Mulligan and Mr. Wildgust. Revs. Turk and Kerby will also sing.

At seven o'clock Sunday evening both evangelists will be at the George street Methodist church.

On Monday, Tuesday and Wednesday the evangelistic services will continue in the George street church at 7.45 each evening.

On Wednesday afternoon, February 25th, at 3 o'clock, there will be a special meeting for women only in the George street Methodist church. Rev. Mr. Turk will speak on "The 20th Century Woman," and Rev. Mr. Kerby on "A Call to Young Womanhood." By special request the evangelists will sing "The Holy City." A special offering will be taken at this meeting.

The closing service of the series will be held in the George street church on Wednesday evening, at 7.45 o'clock.

Thank-offering envelopes will be found in the pews of the various churches on Sunday. They may be returned on the regular collection plates in the churches on Sunday, or at any of the subsequent meetings, but preferably on Sunday or Monday.

NEWS NUGGETS.

—As usual there will be skating at the Brock street rink to-night.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—Letters of administration in the estate of Henry Gear, late of the Township of Kalabar, in the county of Lennox and Addington, have been granted to the Trusts and Guarantee Company, Limited, Toronto. The deceased died in September last, leaving an estate composed of real estate, money secured by mortgages and farm stock.

FORESTERS' CARNIVAL LAST NIGHT

Held in the Brock Street Hockey Rink.

JACKSON WON THE RACE.

A Very Large Attendance of Spectators.

Some Excellent Costumes Were in Evidence—Band was Present and Ice was in Good Condition.

The carnival that was given in the new Brock street rink last night under the auspices of Court Peterborough, No. 29, Canadain Order of Foresters, passed off very successfully. It was not only the first carnival that was given in the Brock street rink, but it was the first that has been given in Peterborough for several years, so that it proved to be a great drawing card. The attendance was very large; the costumes were splendid, but the number of masqueraders was not quite up to the expectations of the promoters of the carnival. There were, in fact, some exceedingly pretty and original costumes giving the judges no little trouble in arriving at conclusions in the various contests.

The scene when the masqueraders took the ice was quite pretty. The band played rag time and the clown, the scissors grinder, and the washerwoman began to cut matters loose. Many of the old time favourites were in evidence but they were just as much a matter of amusement for the small boy who hugged the boards along the sides.

THE RACE.

The masqueraders were not allowed on the ice until 8.15, and previous to this hour the spectators were privileged to witness a race of 1 mile for the championship of Peterborough, Victoria, Northumberland and Durham counties. There were three entries, viz,—Messrs. Dusty, Jackson and Waller. The latter took matters easy as he was scarcely in the same class with the other two contestants. Dusty took the lead and for several laps it looked as though he wouldn't be so "Dusty." However, about the tenth lap Jackson leaped ahead and after a close dash in the last lap Dusty fell and the men finished in the following order: Jackson 1st; Dusty 2nd; Waller 3rd.

In the second heat, the men started out in the same order but after a few laps Jackson took the lead. In an attempt to again get first place, the judge claimed that Dusty fouled his opponent and Jackson was awarded the race.

The officials of the race were, judge, H.R.H. Kenner; timer, Alex. Gibson; clerks of the course, Messrs. Alex. Harvey and Jim McCabe.

THE PRIZES.

The prizes for the various costumes were awarded as follows:

One mile race — Walter E. Jackson.

Special, "Canada"—Reg. Turner, as "Miss Canada."

Fancy Costume.

Best dressed lady — 1st prize, Miss MacMillan, as Moonlight; 2nd prize, Mrs. Snyder, as Queen of Oduh.

Best dressed gentleman — R. B. Morrison, as Count of Monte Christo.

Best dressed girl — Miss Annie Brooks, as Mexican Girl.

Best dressed boy — Gordon Campbell, as Richard Carvel; Edward Wood, as Prince Arthur.

Comic Costume.

Best dressed lady — 1st, L. Sawyers as Summer Girl and Chaperone, 2nd Miss Maud Adams, as Coon Song Singer.

Best dressed gentleman — Percy Crane, as Punch.

Best dressed girl — Miss Guerin as Milkmaid.

Best dressed boy — Carl Halpany as Cowboy.

The judges were Mr. and Mrs. Bert Sutcliffe and Dr. and Mrs. F. J. Bradd.

THE MASQUERADERS.

The following is a partial list of those who attended in costume, as well as the characters they represented:

LADIES.

N. Barrie ..... Old Maid
Effie McWhinnie ..... Fairy
Clara Guerin ..... Milkmaid
Maud Hay ..... Tambourine Girl
May V. Taylor ... Italian street singer
Sadie Chrowe ..... Egyptian Princess
E. Robertson ..... Tambourine Girl
A. E. Cox ..... Cleopatra
L. Sawyer ... Summer Girl & Chaperone
Evaline Guerin ..... Spanish Dancer
Gertrude McClellan .....
Banks Clemenh ..... Sunflower Girl
Mildred Brightman ..... Mexican Girl
Gertie Armitage ..... Liberty Bell
Q. Gordon ..... Nurse
Gertrude McCabe ... Egyptian Princess
Edna Stainger ..... Gypsy Girl
Lyle McMillan ..... Moonlight
Margaret Brooks ... Italian Street Singer
Anna Brooks ..... Mexican Girl
Nellie Graham ..... Canada
Roxie Nimmo ..... Canada Summer
Edna Rogers ... Old Woman who Lived in a Shoe
Mrs. M. Snyder ..... Queen of Oduh

GENTLEMEN.

Ernest Hamilton ..... Mephisto
H. Young and R. Trap ... Spanish drum-majors
Wallace Harris ..... Sailor
A. Pearson ..... Turkish Sailor
Chas. Ackerman ..... Mephisto
Arthur Vanlewery ..... Boy Knight
Jas. Dorris ..... 16th Century Count
Chas. Banks ..... Drunken Pat
Will Morris ..... Capt. D'Treville
Hammond Lab ..... Venetian Count
Ed. Cheshem ..... Military K.H.
A. E. Cranfield ... Silly Bill and His Grandmother
Percy Crane ..... Punch
Harry Evans, Jr. ..... Santa Claus
Chesley Mowry ..... Scissors Grinder
Percy Johnson ..... Clown
Jack McCabe ..... Calus Marcius
Will Maher ..... British Sailor
Gordon Campbell ..... Richard Carvel
Ernest Tovey ..... Negro Minstrel
Frank O'Shea ..... Little Dutchy
Mason Buller ..... Queen of Stars
Roy Gerrin ..... Jerry the Tramp
Robt. Nicholl ..... Coon Swell
Carl Halpany ..... Cowboy
Alex Gordon ..... French Soldier
Joe Mercier ..... Court Jester
Eddy Wall ..... Chinaman
Alf Smith ..... Monte Christo
Orville Hooper ..... Messenger Boy
Louis Legrandeur ..... French Soldier
W. Gowie ..... Gentleman Adventurer
Frank Sawers ..... Negro Gentleman
Charles Kingscote ..... John Bull
Peter White ..... Clown
Willie Stewart ..... Cool Bird
Harold Dunford ... Oregon Twelfth Knight
Joe Diagnault ..... Jockey
Bob Dutton ..... Highland Laddie
Russell Elliott ..... Woodcutter
Dixon Nicholls ..... Faust
Will Faux ... Bowery Slim the Hobo
Alex. Mersney ..... Cowboy
E. White ..... Red Streak
Cyril Loch ..... Mexican
W. Tougas ..... Texas Bill
John Brady ..... Shantyman
Norman Dusty ..... Clown
Roy Cavanagh ..... Bill Bounce
Elmer Fox ..... Indian Boy
R. B. Morrison ... Count of Monte Christo
H. C. F. Poste ... Canada (winter)
Harry G. Rogers ..... John Bull
Reg. Turner ..... Miss Canada
R. Rousseau ..... Hungarian Count
Ed. H. Wood ..... Prince
Arthur V. Wood ... Colored Minstrel
Harry Hall ..... Sailor
H. Haye ..... Fuzzy
Ed. Simmons ..... Chinaman
W. Breen ..... Prince Paul
C. Graham ..... Spanish Toreador
Bradley Mowry ..... Sailor Boy
Joseph Legg ..... Pet Cat
Garnet Tovey ..... Highland Laddie
Joseph Duffis ... Canadian Coronation Contingent
Harold Meldrum ..... Sailor
J. Bows ..... Prince from Ermine
G. V. Dredge ..... Brownie
H. Routley ..... Jew
R. Carleton ..... Sailor
C. Kingan ... Rube from the South

The committee which had charge of the arrangements for the carnival is certainly deserving of congratulations upon the very excellent manner in which every detail was carried out.

FEDERAL LIFE ASSURANCE CO.

Peterborough Branch now Occupy Handsome and Commodious Premises in the Centre of the Town.

The upto-date premises which have just been completed in the Schneider Block, for the growing business of the local branch office of the Federal Life Assurance Company, is a credit to all concerned. The handsome suite of rooms are well situated on the ground floor fronting the main thoroughfare, and in close proximity to the centre of the chief business portions of the town.

The interior of these premises gives ample accommodation for conducting a systematic insurance business. The main office and consulting rooms are very conveniently arranged, and the fittings and furnishings bear the stamp of a practiced and experienced mind, possessing an eye for good taste and effect.

Mr. J. K. McCutcheon, the company's efficient Superintendent, has had the supervision of the work, connected with the opening of these new offices, at No. 400 George street. He has personally visited the town on different occasions, and has reason to be well satisfied with his fortunate selection of a central location, as well as in seeing the offices completed in so creditable a manner.

The Federal Life could not have shown any stronger proof to the people of Peterborough of the prosperity of its company than these commodious new offices indicate. It is a purely Canadian company, and offers advantages to its policy holders equal to any obtainable from other Life Companies. Its capital and assets are $2,500,000, with a surplus to policy holders of nearly a million and a quarter. The affairs of the Company are known to be economically administered. At the head of the Company is Mr. David Dexter, the President and Managing Director. To his untiring efforts is largely due the present prosperous financial condition of the Federal in wisely directing a business extending from ocean to ocean. Arrangements are being made for the further extension of the Company's business in Peterborough and district. A District Manager is to be appointed for this territory. For the present Mr. Geo. G. Pope, who has represented the Company for the past ten years as district inspector, will have charge. Mr. Pope will leave for British Columbia in May to accept a preferment in the employ of the Company. Mr. H. B. Meharry, who has also been connected with the Company as local agent, contemplates a visit to the North-West early in the spring, in connection with his real estate interests there.

ELECTION OF OFFICERS

Of Royal Scarlet Chapter on Thursday Night.

At a regular meeting of the Royal Scarlet Chapter of West-Peterborough, held Thursday evening, the following officers were elected for the ensuing year:—

Comp. Allen McCarthy ... W. C. in Com.
" W. A. Kindred ..... Ex.-Comp.
" Jos. Jones ..... Comp. Chaplin
" W. H. G. Armstrong ..... Scribe
" John Briggs ..... Treas.
" Geo. W. Hall ..... Sir H. at Arms
" Jos. Jones ..... Inward Herald
" Wm. Geo. Bartley ... Outward Herald

Several members were also exalted to this illustrious degree, which is the highest in the Orange Order, after which the Chapter adjourned.

SAFETY FOR LITTLE ONES.

Mothers Should Exercise Great Care in Choosing Medicine for Children.

Every little one needs a medicine at some time, and mothers cannot be too careful in making a selection. The so-called soothing preparations invariably contain opiates and other harmful drugs, which stupify the little one and pave the way to a constant necessity for the use of narcotic drugs. Undoubtedly the very best and the very safest medicine for little ones is Baby's Own Tablets. They are mildly laxative, and gentle in their action and cure all stomach and bowel troubles, relieve simple fevers, break up colds, prevent croup and allay the irritation accompanying the cutting of teeth. Where these Tablets are used little ones sleep naturally, because the causes or irritation and sleeplessness are removed in a natural way. Experienced mothers all praise this medicine. Mrs. H. H. Fox, Orange Ridge, Man., says: "Baby's Own Tablets are the best medicine I have ever used for children of all ages. They are truly a blessing to baby and mother's friend."

These Tablets are guaranteed to contain no opiate and can be given to a new born baby. Sold by all druggists, or sent post-paid at 25 cents a box, by writing direct to the Dr. William's Medicine Co., Brockville, Ont.

SOCIAL AND PERSONAL.

Mrs. William O'Brien of Millbrook, was in town this morning.

Messrs. L. F. Clarry, barrister, and Dr. Berry, of Hastings, were in town to-day on business.

Miss Louie Sandercock, of Woodstock, who has been the guest of Miss Laura Ganoulis, of town, left for Oshawa to-day.

UNIVERSITY ALUMNI ASSOC'N

Annual Meeting Held Last Night in Y. M. C. A. Hall.

Officers Elected—University Dinner to be Given.

The University of Toronto Alumni Association, for the County of Peterborough, held its annual meeting in the Y.M.C.A. Hall last evening. The attendance was not very large.

The following officers were elected:

President—D. W. Dumble, B.A.

Vice-Presidents — J. Davidson, M.A., D. Fraser, M.D., W. T. Harrison, M.D.

Secretary-Treasurer—A. Stevenson, B.A.

Councillors — M. A. Morrison, D.D.S., H. H. Edmison, Phm.B., D. Walker, B.A., W. D. Scott, M.D., W. J. Francis, C. E., E. B. Edwards, M.A., LL.B., J. H. Burnham, B.A., F. D. Kerr, B.A.

Mr. W. Sadler, B.A., of Toronto, addressed the meeting and gave considerable information regarding what steps had already been taken and what was yet to be done in connection with the proposed University Convocation Hall. A committee was appointed to solicit subscriptions for this building.

A committee was also appointed to make arrangements for a University dinner to be given probably on March 6th. It is intended to invite the Chancellor and Vice-Chancellor, Sir William Meredith and Chief Justice Moss, to be present at this function.

Mr. W. F. Sadler, of Toronto, representing the Convocation Hall scheme was present, and four contributions to the fund totalled $110, and it is hoped that many others will contribute to the fund for a Convocation Hall, worthy of their alma mater.

There are 71 University of Toronto graduates in this county—24 in arts, 15 in medicine, and the remainder divided among pharmacy, dentistry and science.

If your system needs toning up, take Miller's Compound Iron Pills. For sale by all druggists.

Rubbers Reduced!

MEN'S 85c RUBBERS 50c
Sizes—9 1-2, 10, 10 1-2, 11.

WOMEN'S 50c RUBBERS 35c
Sizes—3, 4, 5, 6, 7.

QUITE the VOGUE

Two-Third Wall Decorations and Crown Effects.

THIS method of adorning the walls is becoming quite the vogue. A very striking effect is obtained by using a two-tone stripe or plain ingrain paper upon the lower two-thirds, while a floral design decorates the upper one third of the wall. A plate rail, finished to imitate any wood, is placed between to serve as a shelf or divider. From this, pictures and hanging ornaments are suspended.

We have an excellent variety of Wall Papers, suitable for two-third combinations to select from.

Wall Paper Ends and Border Remnants

Before we close our stock-reducing sale we have many chances for those who sup on the look-out for bargains in Wall Paper and Border. Those who wish to take advantage of fine days to do some Wall Papering will find lots of snaps worth coming for.

BRING IN YOUR PICTURES

To be framed at the Peterborough Bookstore before they get soiled or torn. Take time and come in and select your Mouldings now, and give us time to have them ready when wanted a he spring housecleaning.

A. H. STRATTON & CO.
PETERBOROUGH BOOKSTORE.

NO UPSTAIRS

You just walk right in off the pavement and take a seat in our studio, on the ground floor. Excellent sun and skylight—that's the secret of the good photographs you get at LENDRUM'S Ground Floor Studio, Charlotte street.

Dr. T. Popham McCullough
EYE, EAR, NOSE AND THROAT,
has removed to 166 Brock Street formerly Dr. Clark's.

PETERBOROUGH'S MODERN STORE.

NEW SPRING GOODS.

There are many decidedly new features about the New Spring Goods—many decided changes from last year's styles, which you will appreciate the moment you see them.

This week we show a lot of the new ideas for 1903. New Silks, new Dress Goods, new Trimmings, new Wash Dress Goods, new Prints, new Whitewear, New Spring Ready-to-wear Suits, new Skirts, new Carpets, new Goods in every department. We are proud of the season's importations, and will be pleased to show them to you.

NEW DRESS GOODS

in both Black and Coloured, in Plain Broadcloths, Venetians, Voiles, Canvas Sail Cloths, and some of the prettiest Snowflake designs in Tweeds and fine French Goods that you have seen for many a day. The Snowflake design is one of the features of the season.

NEW WASH DRESS GOODS

If you want the very latest for Shirt Waists for the coming season, and a decided change from old styles, you want to buy what we call Mattings or Canvas Cloths or Basket Cloths. They come in plain colours in cotton, linen and silk mixtures. They are certainly the prettiest and nattiest material that has yet come out for the ever-popular Shirt Waist.

NEW READY-TO-WEARS

Many new features about the Ready-to-wears for spring, which will have to be seen to be appreciated. We show some new designs in Norfolk Suits and Russian Blouse Suits, also some very new things in Separate Skirts at decidedly good values. In Ladies' Monte Carlo Silk Coats we show some very nobby styles which you should see early before they get picked up.

WINTER GOODS

We would like to emphasize the fact that you can get anything in the way of Winter Goods at clearing prices at this store.

RICHARD HALL & SON 190, 192, 194 GEORGE STREET DIRECT IMPORTERS,

THE STORE THAT NEVER DISAPPOINTS

Fire Sale TO-NIGHT

We will put on sale a large quantity of Goods saved from fire not before offered for sale. Both stores open from

7.30 to 10 O'clock.

Stores closed all day Monday.

TO VISIT PETERBOROUGH.

The Annual Outing of the Toronto Engineers' Club.

The Trip Will Last Two Days—Mr. J. W. Culverwell Arranging Matters.

The Engineers' Club of Toronto, will go to Peterborough for their annual outing this spring, having formally decided the matter at Thursday night's meeting, at the request of Mr. J. Alexr. Culverwall, of Peterborough.

The trip will extend for two days, and will take place shortly after the opening of navigation.

It is expected that the Mayor and Council of Peterborough will offer the Society a formal reception, and will take advantage of this opportunity of showing this influential body the large manufacturing and hydraulic developments at Peterborough.

The members of the Society have expressed a particular desire to inspect the hydraulic lift lock on the Trent Canal, at Peterborough, and it should be an opportune moment for the Trent Valley Waterway Association to explain to the engineering profession of this province the importance and advantage this national highway will be to the province and the country, and the urgent necessity for its completion.

By invitation of Mr. Culverwell, Society will accept a trip by steamer on the waters north of Peterborough, and will also be tendered a luncheon by him at Burleigh Falls.

The Engineers' Club of Toronto, has a membership of one hundred and twenty-five, distributed throughout Ontario, and the president is C. H. Rust, City Engineer, Toronto; Vice-President, C. M. Cassniff; Secretary, Willis Chipman, Treasurer, H. F. Dart, Chairman, Publication Committee, J. Alexr. Culverwell. The Past Presidents are Elvas Tully, A. L. Hertzberg, of the C. P.R., and Major H. A. Gray of the Public Works Department.

THE COAL SUPPLY.

Arrival of Eight Car Loads at R. Hicks and Ogle Yard.

We beg to announce the receipt of a consignment of eight cars of that mined hard coal—the quality that gives satisfaction.

HANNALANE.

Fine bitter Oranges are now in. Also nice, bright skinned, sweet Oranges suitable for using with the bitter ones. These are very cheap. First-class cooking Figs at 5c per lb.
H. A. OKE'S, 378 George St.

GENERALLY SPEAKING

A CORRESPONDENT suggests that the Fire, Water and Light Committee of the Council, instead of going to Toronto for rubber boots, required for fire brigade invite tenders from local dealers. The report, which was adopted, recommended that the chairman go to Toronto and that the treasurer pay his expenses. There is fair play in this suggestion anyway. Local boot and shoe merchants pay their share of the taxes, and are therefore better entitled to the profits from the transaction mentioned than outsiders. Possibly a little better figure may be got in the outside market, but when we add the expense of the journey there may not be so much difference in price after all. And if the price for these goods as supplied by local dealers was a little higher, the average citizen would not object, especially in view of the town entering into competition with local merchants as it would do in going into wholesale market.

• • •

THERE IS A GREAT DEAL of talk these days of municipal ownership and a good deal of fallacy and fadism too. What is the municipality in reality but the ratepayers of the town collectively? It is the combination of the individual industrial and commercial enterprise of the ratepayers that makes the town. If the corporation enters extensively into competition with private undertakings, it takes a course that discourages private enterprise, and operates injuriously upon the interests of the citizens, who, in the mass, comprise the corporation. The principle of municipal ownership, applied to its limit, would extinguish private business enterprise and compel citizens to seek other places to earn a livelihood. Within reasonable limits, the operation of public utilities by a town may be justifiable, but some bounds must be drawn.

• • •

THE PURCHASE of Burnham's Point for a saw-mill site seems to have raised a point that deserves serious consideration. In connection with such an enterprise there must be some facilities for the storage of logs and here the point arises. Everybody recognizes what a nuisance saw logs in the river are in respect of navigation and the use of the river for pleasure purposes. This has been the case for years, for Peterborough's present position as a town is due very largely to the lumbering industry. During certain seasons of the year the river has been filled with logs, and we all have experienced the inconvenience and detriment to navigation, especially on the stretches of the river below town. The public pleasure from steamer excursions has been marred, and steamboat owners have been put to no little annoyance and expense. Many an anathema have commenders poured upon floating logs in the river.

• • •

THE NUISANCE of these floating logs is undeniable, but can the river be closed to lumbermen, who have their rights under the statute? It does not appear possible. Therefore the next best thing is to minimise the nuisance as much as possible. The presence of log-booms in Little Lake is an objectionable necessity. Can it be prevented? Can the McDonald booms be shut out? Can the Dickson Company be prevented from using a portion of the lake? If they cannot, the obvious thing is to make the best of the situation and effect some compromise.

• • •

THIS SHOULD BE DONE, especially in the interests of navigation and the pleasure of the citizens from the shore of our waters. The subject should be approached in a compromising and conciliatory spirit, and in a manner not to arouse hostilities and bad feeling that would make compromise more difficult. Peterborough, Ashburnham — Ashburnham especially — the navigation interests, the Dickson Company, and Mr. McDonald, are all concerned in the controversy that has arisen. Would it be unwise to have a conference of the representatives of the several interests involved, and attempt to arrive at some understanding? At such a conference, much would doubtless be brought out respecting navigation rights, rights in regard to flotation and storage of logs, and their relation to each other, as well as to the rights of the public, that would give all concerned a clearer idea of their position.

• • •

WITHOUT PRONOUNCING upon the feasibility or commercial practicability of the proposal, might it not be possible to limit the space used in the Little Lake at one time for storage of logs? Would it be possible or practicable to store logs in some basin farther up the river, and have them released at intervals, and in moderate quantities, so as to limit, as much as possible, the space used by the the mills in Little Lake?

• • •

AFTER THE FOREGOING paragraph was in type a meeting of the Ashburnham Civic Association has been held and the subject discussed in a fairly conciliatory spirit. The appointment of a committee to confer with the parties concerned seems to be a move in the right direction. At least it shows a desire to bring about what is most desirable—an amicable arrangement—and will do much more good than writing inflammatory and irritating letters to the newspapers.

• • •

THE SAWLOG POLICY of Ashburnham seems to be to have the logs manufactured into lumber in Ashburnham. The Examiner is assured that that is the general feeling. What this means is shown by the fact that the Dickson Company is making a large cut of logs this season and the manufacture of these at Burnham's Point will give large employement to labour, which will be a direct advantage to the village. At the same time as was shown at the meeting of the Civic Association last night, there is a desire that the advantages of having the mills of the Company in Ashburnham, should be attended with as little inconvenience and detriment as possible to other interests. And it is stated that that is the desire of the Company also, and of the public generally. With a pliable and give-and-take disposition applied to the situation a solution of the difficulty, reasonably satisfactory to all interests concerned may be had.

• • •

"ARE HEIRS of deceased veterans, who are entitled to locate lands under the Volunteer Lands Act of 1901, entitled to locate lands?" is a question asked by many persons. In the list of persons specified by the act as entitled to locate lands — Section 2, sub-section (b) — the following appears: "Persons who are the next of kin of any person so enrolled, who may be since deceased." That is, residents of Ontario, who served in the South African war, or, as subsection (c) recites, the next of kin of persons who lost their lives during services in 1866 or 1870, or who died within six months, as the result of such service. The act does not seem to apply to the heirs of veterans of any of the other classes entitled to a land grant. This means that the next of kin of a veteran belonging to these specified classes, who has received his certificate of who has received his certificate of location, is entitled to select a lot of 160 acres, on the same conditions as if he had performed the services for which the father or other relative received a certificate.

• • •

IN THIS CONNECTION, an interesting incident might be mentioned. It is stated that a Peterborough veteran who received his certificate, sent it to a relative in the Rainy River District, who located for him a farm, for which the veteran has since received an offer of $1,600.

• • •

IF THIS IS TRUE, and it is said to be so, the political charge made that the Government was offering the volunteers only barren, rocky and worthless lands, receives a substantial shock. Many townships have been set apart for volunteer land grants, in different parts of the province, and the land may possibly vary in quality and value for farming purposes, as lands in different parts of a township may do in the most fertile parts of the province. The Government has made an earnest effort to recognize in a substantial and lasting way, the services of the brave volunteers who served the country at various times.

St. Luke's Church.

The Rector will preach at both services to-morrow. Subject for the morning service, "A Contrite Heart," and for the evening service, "The Kingdom of Heaven Suffereth Violence, and the Violence take it by Force."

GRIP

LITTLE LAKE SAW LOG POLICY.

Interesting Discussion at a Meeting Last Night.

THE CIVIC ASSOCIATION.

Ashburnham Residents State Their Views.

They Propose That the Dickson Company purchase Another Mill Site—Committee to Wait Upon Company.

A special meeting of the Ashburnham Civic Association, was held last night in the village council chamber, Mr. E. A. Peck, the president, being in the chair. There were present: Messrs. R. M. Roy, W. A. Sanderson, W. Faint, F. Adams, A. Weir, A. McCarthy, J. Drain, P. Glover, W. Gibbe, A. Rutherford, John Butcher, A. Fitzgerald, H. Neil, H. Morgan, — Burlie, J. Ball, H. T. Strickland, J. Z. Rogers, C. B. McAllister, R. B. Rogers, S. S. Moore, Geo. McWilliams, J. Doupe, and T. B. Manlece.

Mr. E. A. Peck said that the order of the meeting was very simple. Any matter of interest to the village would be gladly discussed. Owing to the absence of the secretary, Mr. George McWilliams was on motion, asked to act as secretary pro tem., after which the meeting was declared open for discussion.

Mr. H. T. Strickland handed in a correspondence from himself re the Dickson Company's proposed action in erecting a sawmill at Burnham's Point.

THE LETTER.

The letter was as follows:

To the Chairman of the Ashburnham Civic Association.

Sir, — In respect to the evident intention of the Dickson Company to take possession of a large portion of the navigable part of the Little Lake for the purpose of booming logs to supply the sawmill they propose erecting on Burnham's Point, I much regret that the Point should have been diverted for such a purpose, (though I do not for a moment question the right of the estate to sell or the company to buy), instead of being kept for a public park, which would have been to the lasting interest of the whole community.

But I most emphatically protest against the water front, from Burnham's Point to the steamboat wharf, in Ashburnham, being closed by logs, thus destroying the appearance of our pretty little lake and putting a stop, practically, to all access to the water, and the navigation thereon, which has been a means of enjoyment during the summer for so many years past, particularly as there is just as good a site for a mill on the old Ludgate property, which was used for that purpose by the late Samuel Dickson, and the late J. Ludgate, using for booming purposes that part of the lake which was not navigable, thus doing the least possible damage to the lake and its surroundings. I know that this property can be bought from Mr. Alfred McDonald for the same amount that he paid for it (plus the interest) a few months ago, and is, in my opinion, more suitable for a sawmill than where the company purpose building. I am, sir,

Yours truly,
H. T. STRICKLAND.

THE DISCUSSION.

Mr. F. Adams, said that the rights on the lake asked by the Dickson Co. were not within the power of the village council to grant. The letters in the newspapers had magnified the whole controversy. Mr. Adams held that the Dickson Company had no right to blockade the boathouses with the logs they intended to float in the lake. He suggested that the Ludgate property would be a more desirable location for the proposed sawmill than the one now purchased, and he would be glad to see the association take steps in the matter and advise the council of their conclusion. The residents ought not to take a dog-in-the-manger policy but at the same time the Dickson Company should not be allowed all the privileges they propose to take.

Mr. Butcher, to use his own words, remarked that in his opinion the company "had taken a big bite." He personally did not think that they themselves ought to hinder commerce in any way but ought at the same time to make the company confine themselves in as small a space as possible, and he would like to know what right the village council had in the affair.

The president said that he had not looked up the details of the matter, but he thought that the rights pertaining to navigation rested with the Dominion Government.

Mr. R. M. Roy said that pleasure navigation would be greatly hindered by the booming of the logs, which were going to be stationed at the only deep part of this lake.

Mr. C. B. McAllister said that taking into account the friction which bids fair to arise over the company's action, he did not see why the Dickson Company would object to purchasing the McDonald property, which was for sale on exceedingly reasonable terms, he understood.

Mr. F. Adams, in speaking again, stated that if the McDonald property was for disposal, he thought it would be wise for a committee to wait on the Dickson Company, and propose the transaction.

THE RIGHTS OF COMPANIES.

In answer to a question as to what powers any company had regarding of navigation, Mr. Peck said that it was a matter that would have to be decided by the Government.

Mr. Roy remarked that should the municipality disagree with the company's projected scheme, he doubted whether the Government would not decide in favour of the company rather than the opposing municipality.

On motion of Mr. H. T. Strickland, seconded by Mr. J. Z. Rogers, it was resolved,

That in the opinion of this meeting the use of the Little Lake for the booming of logs, as indicated by the booms anchor being placed by the Dickson Company, would be most detrimental to the interests of the village, and town residents, by depriving them of the privileges, pleasures and rights in the water of the lake, which they have so far enjoyed.

It was on motion resolved that Messrs. Strickland, Adams, Neil and Peck be appointed a committee to wait upon the Dickson Company, Mr. MacDonald and Mr. Lundy, and see if arrangements cannot be made for the erection of the proposed sawmill on the old Ludgate property instead of at Burnham's Point.

Mr. E. A. Peck said that Ashburnham was rather a small place to have a Civic Association, and he would like the opinions of those present as to the advisability or otherwise of holding these monthly meetings any longer. Good work had been done in the past, but the community did not seem to interest themselves to any great extent in the movements of the Association.

In expressing his opinion on the subject Mr. R. B. Rogers said that in his opinion Ashburnham was not too small to support a Civic Association, more especially if that Association was capable of good work. In his opinion the members would be better able to discuss matters if a programme was arranged before hand, and people thus be made aware of what the Association had in front of itself.

In the free and easy discussion that followed the much talked of ultimate union between Ashburnham and Peterborough, Mr. Adams said that he thought the former place should have two representatives on the City Council. In 1894 this question, re the union between the two places, was seriously discussed and both town and village were eager for a union, but some hitch occurred over the then proposed sewerage and the "wedding" of the two was not celebrated. Of course to-day it depended almost entirely on the terms as to the union.

Mr. J. Butcher firmly stated that Ashburnham ought certainly to keep free, and then they would manage their own affairs, manage their streets, police force, etc., and their taxes would not be heavier as would be the case should Ashburnham and Peterborough be united.

Mr. Adams thought the taxes in his mind would be decreased if the union were to take place. The two were practically one in all except name.

246 Queen St. West, Toronto. Phone M 2026

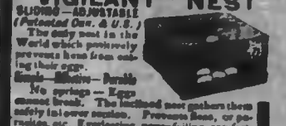
ROUTLEY

370 George St. Peterborough. Phone 366.

They transacted business together, they paid the town for water, fire protection, education, and the like, all amounting to a considerable sum of money, and he personally would be in favour of severing entirely from Peterborough or else being united with the town as one city. In any case the present relation ought not to be continued.

The meeting then adjourned subject to being called again at an early date to discuss the advisability of a union between the village and the town.

"VIGILANT" NEST



SLIDING—ADJUSTABLE
(Patented Can. & U.S.)
The only nest in the World which positively prevents hens from eating their eggs.

"I GAINED 25 POUNDS"

Tardy Development of Girls

is marked by pallor of face, slimness of body, aching head, stomach pains, nervousness, irritability and despondency.

The regular use of Dr. Chase's Nerve Food will help all such to

VIGOROUS WOMANHOOD

roundness of form, erect, graceful carriage, elastic step and healthful glowing complexion.

Where is there a woman who does not desire the qualities of vigorous womanhood? She may not be handsome in face or feature, but when filled with the vigor and vitality of health she possesses a charm and attractiveness which make her beautiful.

Most women who are thin, scrawny and angular in form, weak, nervous and irritable, subject to attacks of sick, nervous headache, backache, dizziness and fainting spells, women who suffer greatly at certain times and experience weakness and irregularity of the feminine organism usually trace their trouble to the time when they were merging into womanhood. This is the most trying time in woman's life and careful use of Dr. Chase's Nerve Food at this period may save many years of suffering.

Woman's system demands an enormous amount of rich, red blood both to make up for the loss at regular periods and to keep up the nerve force—the controlling power of the body. Nine-tenths of the ailments of girls and women are due to lack in quantity or quality of blood and weakness of the nervous system and as Dr. Chase's Nerve Food actually forms new, red corpuscles in the blood and creates, new nerve force it is successful above all treatments in curing the ills and weaknesses peculiar to women.

GAINED 25 POUNDS

MISS ANNIE EVANS, 32 Gottingen St., Halifax, N.S., writes:—"About ten years ago I became very much run down in health and in spite of various treatments I could not get rid of my ailments. I could not sleep, was very nervous and so weak that I could scarcely drag myself about. Some months ago I began the use of Dr. Chase's Nerve Food and persevered in the treatment, until to-day I am pleased to say that I am completely restored to health.

"I have gained over twenty-five pounds in weight, sleep well, feel strong and well and fully believe that I owe my present good health to the use of this medicine."

Dr. Chase's Nerve Food

By weighing yourself while using this great food cure you can prove positively that new, firm flesh and tissue is being added to your body. No treatment was ever put to a more severe test, but experience has proven that Dr Chase's Nerve Food can be relied upon absolutely to restore and build up the system, round out the form and instil new energy and vitality in every organ of the body. 50 cents a box, 6 boxes for $2.50. At all dealers, or EDMANSON, BATES & CO., Toronto.

We will forfeit $500.00 if this testimonial is not genuine.

ABOUT POOR DADDY HAYES.

How He Stole a Book From a Library.

An Interesting Story of an Old Gentleman, by Arthur Hayden—An Incomplete Letter.

Daddy Hayes, as he was called by all the dwellers in Pease's Buildings, was a strange old man. His silvery-white hair shone in the sun-light as he slowly passed through the noisy group of squalid children who romped in the asphalt court-yard which formed partly a play ground and partly a drying ground for the inmates of the buildings.

Daddy Hayes made his way from the gloomy, prison-like block across Oxford street towards the British Museum. His coat, which had once been black, was now a shiny green and almost threadbare, and was buttoned up closely to conceal the want of a paint coat. His boots were carefully blacked over and looked as though their shattered constitutions would not last through the winter.

In spite, however, of his poverty of dress, Daddy Hayes was at heart a gentleman, and moreover he was a scholar. He entered the portals of the British Museum, and made his way to the reading room, which he had daily attended for many years. He wrote tales for little children, sweet tales that made the tears start to the eyes of those who read them.

Not only did Daddy Hayes write Santa Claus, who dwells in the forest home of ice wonders, but he put his theories into practice. The little blind girl in Pease's Dwellings, living with her grandmother, who was in receipt of out-door relief, always welcomed the well-known footstep, and Daddy Hayes would often read one of his legendary tales to his little blind protege before he sent it to his publishers, and the beldame, who was deaf, and could hear none of the sweet sayings, nor catch the fragrance of the story, would hobble up to him as he was leaving, and say, "It's a great tie upon me, that it is; it ain't as if she could work a bit, but, helpless as she is, she is a drag." And the door shut upon him, and the little blind child's life grew darker.

BRITISH MUSEUM

Christmas was fast coming on. Daddy Hayes looked colder and thinner, and drew his shabby coat around him closer than ever. He had planned a wonderful Santa Claus surprise on Christmas morning for his little friends. There were to be in all fourteen little Christmas puddings each of which he was going to send up smoking hot, early on Christmas morning to his friends. Now fourteen puddings require a good deal of cooking, but after due deliberation with Mrs. Murphy, the housekeeper at Pease's Buildings, he had arranged all that. The puddings he was to buy in tins, and as for their cooking, upon his undertaking to have in a sack of coals, and to pay Mrs. Murphy and her nice five shillings for "a-billin' o' the puddens," she had pledged herself to have one delivered to each of his charges. Besides this he had eight little dolls and six boxes of bricks, together with a goodly pile of oranges, and little bags of raisins, which were eventually to find their way to the recipients of the puddings. The whole thing was planned, and Santa Claus had but to touch his wand and fourteen hearts would instantaneously beat with joy.

The snow had fallen in London, and the streets were slippery as glass. It was Christmas week, everyone was hurrying homewards, laden with parcels and beaming with pleasure. Daddy Hayes, too, looked quite gay. He had bought himself a red woollen comforter, which helped out his old coat considerably. His last sovereign was burning a hole in his pocket; he longed to make the final purchases for his Christmas morning surprise. Lost in pleasure at the coming venture, his foot slipped, and he fell heavily on his back. Daddy Hayes was not long in picking himself up, but he had had a nasty fall, and was very much shaken. Nothing daunted, however, he made his way slowly and painfully to the shop where puddings were sold. He gave his order, which the wondering shopman executed, but on putting his hand into his pocket for the money, Daddy Hayes to his horror, found that it was gone. Search though he might, the ugly fact still remained, and the poor old man, half-dazed, stole out of the shop and silently wended his way home to Pease's Buildings. Half the night he sat up attempting to find some way of procuring the necessary money on the morning for the coming treat. He racked his brain in vain.

CHRISTMAS COMING

The morning dawned. Poor Daddy Hayes sallied forth as usual to the British Museum reading room. There he sat, until aroused by the attendant who bought him some half dozen of his beloved volumes. Presently as if an electric current had gone through him, Daddy Hayes' tranquility was disturbed by some all-powerful thought. Three hours before his accustomed time he left the Museum with bowed head, and after crossing and re-crossing Oxford street as though in fear of pursuers, he reached home; and shortly after he issued forth and stealthily made his way through the mazes of Holburn up a side street into a pawn-broker's shop, where he stayed for some minutes, and came out looking as if ten years had been added to his life.

Christmas morning came; the puddings were safely delivered, the rejoicing was great. Fourteen innocent hearts blessed Daddy Hayes. Mrs. Murphy sounded the praises of Daddy Hayes as she went to and fro with the steaming puddings, and all the neighbours came out to see her go by with her load. They all said "Daddy Hayes was a good sort, that he were." "God bless 'un, say I," added the great navvy, whose tongue did not usually give utterance to blessings. "God bless 'im," added all.

Daddy Hayes sat with his head on his hands. They found him so when they came in. In one hand he held a pawnticket of a book pledged only the night before. In the other was a dry pen, and on the table an unfinished letter, which ran as follow:

"To the trustees of the British Museum,—

"Gentlemen, — I enclose a pawn ticket as evidence that I have committed one of the gravest crimes that it is possible for a scholar to commit. I have stolen one of the books from the National Library in a moment of great temptation. There only remains now for me to give myself up to the officers of justice. I await your pleasure. I ——"

The letter was incomplete. It would never be completed. Daddy Hayes was dead.—Arthur Hayden.

Crown a London Landlord.

Among the great ground landlords in London the Crown is one of the greatest, owning properties in various parts of the capital yielding in ground rents £460,000 per annum. Fifteen years ago the estates produced £250,000 only, but many leases have fallen in within that time, and the increased rents have been exacted for renewal fines or for new leases. The Carlton Hotel is a striking instance of the increased value of ground in London. Formerly the site on which the hotel stands was held for the Crown for a ground rent of £763 per annum; now £4,200 yearly has to be paid.

A GREAT "SCOOP."

How Yet Old Journalism Has Its Points of Superiority.

The old journalism has its points of superiority over the new, says The London Star. The Times the other morning had a great "scoop" story of the disastrous defeat of the Emperor of Morocco by the Pretender, and printed it in the usual place for news from Fez, on the foreign page, with the plain heading, "The Moorish Revolt. Sultan's Army Routed." The new journalism would have filled a column with headlines alone. The story comes from The Times' own correspondent, who got away from Fez just in time, and arrived in Tangier on Saturday morning, having ridden through without change of horse, and the last 90 miles without halting. The correspondent in question is Mr. Walter B. Harris, the well-known traveler and author, who has throughout kept The Times exceptionally well informed of the progress of this Moroccan trouble, and who has had more than one interview with the Emperor himself. Mr. Harris was reputed, just a year ago, to have been attacked and robbed by Arabs in the interior of Morocco, but that story fortunately proved to be unfounded. He has written several books on Morocco and Western Asia, and accompanied Sir Arthur Nicholson's Special Embassy to Morocco in 1896. He married a daughter of the fourth Earl of Mexborough, whose second daughter married the Prince Lowenstein Wertheim, who disappeared so mysteriously three years ago, and was afterwards reported to have fallen while fighting as an adventurer against the Americans in the Philippine war.

COAL ON TAHLTAN CREEK.

Seam Discovered That Extends a Mile and a Quarter.

Vancouver, B. C., Feb. 21.—Murdock McKay, for many years in the Hudson Bay Company's service, has arrived here from Atlin, where he reports the discovery of immense coal fissures on Tahltan Creek, ten miles above Telegraph Creek, where the seam is stated to extend one and a quarter miles on both sides of the creek. The coal closely resembles the cannel coal of England, and is easily placed for mining.

In order to feed the Kootenay smelters, should the interruption of work in the Crow's Nest field continue, arrangements are being made for large shipments of coke from the Union Vancouver Island ovens.

Knocked Down by Trolley.

Toronto, Feb. 21.—Mrs. Alexander Champion, an elderly lady living at 76 Claremont street, was knocked down and seriously injured by a trolley car yesterday. She had a broken collar bone and several bad cuts about the head when she was picked up.

3,000 Iowans For Canada.

Winnipeg, Man., Feb. 21.—A St. Paul despatch says between two and three thousand well-to-do people from Iowa are to settle on Canadian Northwest lands within 30 days.

Rheumatism..

is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Sheep—Receipts, 7500; opened strong, closed weak; lambs opened strong and closed weak; good to choice wethers, $5 to $5.70; fair to choice mixed, $4 to $5; native lambs, $4.75 to $7.

THE FIRSTBORN.

Why is it that the firstborn child is so often the healthiest of a family of children? The reason seems to suggest itself. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, for her child.

Expectant mothers who use Doctor Pierce's Favorite Prescription find that it keeps them in vigorous health. They eat well, sleep well and are not nervous. When baby comes its advent is practically painless, and the mother is made happy by the birth of a healthy child. If you would be a healthy mother of healthy children use "Favorite Prescription."

"I will be very glad to say a few words for Dr. Pierce's Favorite Prescription," writes Mrs. P. E. Douglas, of Mansonville, Brome Co., Quebec. "During the first four months, when I looked forward to becoming a mother, I suffered very much from nausea and vomiting, and I felt so terribly sick I could scarcely eat or drink anything. I hated all kinds of food. At this time I wrote to Dr. Pierce, and he told me to get his 'Favorite Prescription' and a bottle of 'Golden Medical Discovery.' I got a bottle of each, and when I had taken them a few days, I felt much better, and when I had taken hardly three parts of each bottle I felt well and could eat as well as any one, and could do my work without any trouble (I could not do anything before). I feel very thankful to Dr. Pierce for his medicine, and I tell all who tell me they are sick, to get these medicines, or write to Dr. Pierce."

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, *free*. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

SUBSTITUTED BODIES.

Insurance Agent Received Hundreds of Dollars From an Undertaker.

New York, Feb. 21.—Testimony of a startling nature was given by witnesses in the examination of Joseph Trepani, an undertaker, one of the six men under arrest, charged with swindling life insurance companies by substituting bodies, which came up in the Police Court yesterday.

Francis H. Foster, formerly an insurance agent, testified that he had agreed, at Trepani's suggestion, to swear to the death of men insured in his company, while he knew the body of some one else had been substituted. Foster said he received sums of $160 to $600 from Trepani, when the policies were paid.

Foster was arrested, and Trepani was held in $5,000 bonds to the Grand Jury.

Assistant-District Attorney Krotel made public last night a confession made by Prisoner Foster, detailing the methods pursued by the insurance swindlers.

$12,000 RECOVERED.

How Martineau, Clerk in Militia Department, Embezzled Trust Funds.

Ottawa, Feb. 21.—It now transpires that the sum of $12,000 was found on Martineux, the Government clerk, when arrested Thursday.

Information was laid against Martineau at noon yesterday, charging him with forging on July 7 a cheque for $9,300, and later on a second cheque for $6,700. He is also charged with breach of public trust, 135 of the criminal code. He was arraigned at 3 o'clock and committed for trial. The first forgery is allowed to have been committed six days after his appointment to the Militia Department. It is learned that the cheques were made out in the name of Charles Dakota, made payable on the Bank of Montreal, and cashed at the Sovereign Bank.

90 Turks Put Away.

London, Feb. 21.—According to a despatch from Sofia, published in this morning's Morning Leader, desperate fighting has occurred between a small band of revolutionaries and 800 Turks in a defile close to the Village of Berik, near Kastoria, Albania. The Turks had 90 killed. The insurgents lost heavily, but succeeded in gaining the mountains.

NEW HOTELS.

Gorgeous Establishments Are Displacing Homely, Historic Houses in London the Great.

The impending erection in Piccadilly of two immense hotels, one on the site of St. James' Hall and adjoining property, and the other on the site of the present Walsingham and Bath Hotels—emphasizes the fact that the West End is becoming the chief area for hotel life in London.

A few years ago the Strand and Trafalgar Square could claim pre-eminence as the centre of the most celebrated hotels—the Savoy, the Cecil, the Metropole, Morley's the Golden Cross, etc.—but quite recently a new and improved style of "hotel de luxe" has come into existence, and within a brief space of time it seems probable that the West End will be "hotelized" on a scale both of magnitude and luxurious refinement, surpassing the airiest dreams of the hotel manager of fifteen years ago.

While the wonderful Ritz Hotel, to reach from Arlington street to the Green Park, promises to be the most splendid in London, Claridge's, just off Grosvenor Square, has already introduced the modern hotel life into the very heart of Mayfair. Very startling is the contrast—now non-existent—between the richness of Claridge's and the plainness, almost amounting to poverty, of the old Bath Hotel, stripped of the homely old mahogany furniture which may have been there since Thomas Adams, the first American Ambassador, put up at the hotel.

The Old Bath Hotel.

For nearly 150 years the old Bath Hotel has been looked upon by generations of Londoners as one of the mysteries which only the aristocratic might penetrate. There is something forbidding in the words, painted on the Piccadilly side of the house, "Bath Hotel—for Families and Gentlemen," and millions of people must have looked upon the plain, dowdy old corner building, with its coat of dirty paint, and have fancied the interior to be, by contrast, a marvel of comfort.

But now, being doomed to destruction, the old place has been subjected daily to inspection by brokers, and the auctioneer has sold its contents. And the famous Bath Hotel stands revealed as a wretched jumble of passages and rooms, devoid of attraction, and fit only for the house-breaker. Its floors have reached the "switchback" stage. There are unsuspected little steps, some up and some down, into many of the rooms. The old portable baths—in a Piccadilly Hotel!—emphasize the change which has taken place between the era of the Bath and the era of Claridge's and the Carlton.

All over the West-end the "hotel de luxe" is springing up. In Sloane Street, the Cadogan, close by the Hans Crescent, in Mount Street, the Cobourg, in Kensington Gore, the De Vere and Royal Palace Hotels, all tell the same tale. And the middle-aged hotels in Albemarle Street and thereabout are blossoming into a new and more luxuriant existence.

BURNED TO DEATH.

Nine Hotel Guests at Cedar Rapids—Forty-two Were Injured.

Cedar Rapids, Feb. 21.—Fire early yesterday morning destroyed the Clifton Hotel, burned to death nine of the guests and caused injuries to forty-two persons who were scorched or forced to jump to the frozen street from second and third storey windows. After an all-day search in the debris, four bodies have been recovered. It is now believed that five more bodies remain in the ruins of the hotel. Forty men have been working on the rubbish all day and will continue to dig for the remains of the burned persons all night. The loss is $60,000.

Youthful Postoffice Burglars.

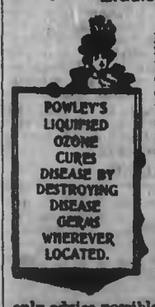
Acton, Feb. 21.—Mr. H. P. Moore, J.P., on the evidence submitted, has sent Malcolm McEachren; a 15-year-old boy, for trial for burglarizing the postoffice of about $35 and a number of registered letters. $30 of the money was recovered from McEachren's comrades, who will likely be tried for receiving money knowing it to have been stolen.

Never Too Old To Get Well.

Stricken With Paralysis at Eighty-Eight Years of Age, Mr. F. A. Knapp Comes Very Near Death's Door.

Without Hope of a Cure He Tried Powley's Liquified Ozone and Was Pleasantly Surprised With Beneficial Results.

Gradually He Improved, Day by Day Growing Stronger, Until Every Trace of This Usually Fatal Disease Was Eradicated.



It is with great pleasure I add a few particulars of the perfect relief of a somewhat dangerous and very disagreeable ailment with which I have been afflicted for about three years past.

The several consultations I have had on the nature of this complaint doubtlessly convinces medical men that I was suffering from paralysis, and the only advice possible to give under the circumstances was to keep quiet, without any hopes of a perfect eradication of the disease itself.

In order to exhibit to you a more detailed synopsis of the usual operation of the disease I will relate how the last attack proceeded in its course. On May 14, 1902, while spending the day with friends at Shannon street, the first symptoms appeared in the third finger of the left hand, very similar to a gentle shock of electricity. In this manner it crept up the arm, reaching the brain, when all power of articulate speech ceased and a comatose state supervened, lasting about four hours, when sensation gradually returned. Since that time very slight symptoms of ptyliam have been experienced, but at present no remains exist.

Now, in order to account for so sudden a total cure of such a generally fatal affliction, we have to refer to two causes, either the interminate counsels of Higher Powers or the result of happily having taken the contents of a small bottle of Powley's Liquified Ozone, taken, not with the hope of curing paralysis, but to try its effect on the system.

I have since seen wonderful results from the use of this remedy, and earnestly recommend its application to all sufferers.

I am, yours sincerely,
(Signed) F. A. KNAPP,
98 Huntley st., Toronto, Ont.

Toronto, Oct. 25, 1902.

MR. F. A. KNAPP.

The Reason Why Ozone Cures.

"How is it," enquires a correspondent, "that Ozone cures Rheumatism as well as Consumption, Asthma as well as Kidney Trouble, and Catarrh as well as Dyspepsia? These diseases are not at all similar, and a medicine that would cure one of them would probably be useless with the other."

The answer to this is: Powley's Liquified Ozone is not a medicine. It contains no drugs, but simply cures by destroying disease germs wherever located. Medical men are unanimous in stating that nine-tenths of all disease is caused by disease germs in some form. It has been conclusively proven in hundreds of different cases that Ozone destroys these germs and that when they are destroyed the patient invariably gets well. It is for this reason that Ozone effects cures that seem almost impossible and it is also the reason it cures so many different diseases.

Powley's Liquified Ozone is sold only by reliable druggists—never by peddlers. The price is 50 cents and $1.00 per bottle. Our free booklet on receipt of your name and address.

SHOWINTER MILLINERY.

Models Composed of Florida Violets, Pale Tinted Folts.

Delightful models are made up with parma violets and their leaves. Equally fetching combinations are of grey felt with cream tinted roses or of white felt trimmed with pink roses and a chine scarf. The fur and lace picture hats are quite irresistible.

There are a good many novelties in headgear at this time of the year. Even in this cold weather we see wearing crowns of ruched tulle, and, while for

PRACTICAL SHIRT WAIST.

some time fruits and nuts made of velvet have been the rage, women are now beginning to adopt vegetables, and radishes are not being discarded.

Hats, muffs and pelerines made for weddings and gay occasions are often made of satin and chiffon.

Blues and greens were always worn by young people, but now that white hair has become the fashion light blue can be worn with impunity by elderly women who have a touch of pink in their cheeks. Those whose figures are well developed should abstain from light shades altogether.

The picture shows a smart shirt waist which can be carried out either in silk or flannel.

JUDIC CHOLLET.

A GUARANTEED CURE For all Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys. "Money cheerfully returned if the sufferer is not relieved and improved after the use of one bottle. Three to six bottles effect astonishing cures. If not relieved and cured, you waste no money."

Ormond and Walsh, druggists, Peterborough, Ont.

A Comparative Statement.

Miss Deanmaird occupied the chair. A choice musical programme was also presented.

LOCAL LEGAL.

Hughes v. Metcalfe.—D. O'Connell (Peterborough), for plaintiffs, appealed from order of Street, J., sitting in chambers, dismissing a motion by plaintiffs to strike out certain paragraphs of the statement of claim, and this also was dismissed with costs. The action was brought by Isabella Hughes, the administratrix of the estate of the late Mary Metcalfe, against James Metcalfe, Wm. Metcalfe, Ann Moore and Mary Elmhirst, for the purpose of setting aside certain conveyances, made by Mary Metcalfe, during her life, on the grounds of fraud and undue influence, the said Mary Metcalfe being incapable of understanding the nature of the transactions. W. H. Blake, K.C., for defendant, Wm. Metcalfe,; J. H. Spence, for defendant Jas. Metcalf and A. E. Hoskin, for defendant Ann Moore, opposed the appeal. Appeal dismissed with costs. Time for plaintiff to deliver reply extended for two weeks.

PAID-UP CAPITAL, - - - - - - - - $850,000

Every Shareholder of record Saturday, Feb. 21st, participates in the next monthly dividend, payable March 1st, of One per cent. on par.

This is practically THREE per cent. on the investment at the present price of stock.

35c PER SHARE

(par value $1.00, fully paid and non-assessable.) All mail applications for stock must, in order to secure this dividend, bear date and postmark not later than Feb. 21st,

The Mail & Empire of Toronto says under the heading, "Our Petroleum Industry":

"For several years past the average value of production has been about one and three-quarter million dollars per annum. With the large development now being actively pushed by the Dominion Oil Company, Limited, a Canadian corporation chartered for the purpose of acquiring a new discovery known as the Raleigh Oil Fields, near Chatham, and which own an interest in the now famed Gurd Gusher, the largest well ever discovered in the Dominion, the value of the output should very shortly be doubled."

The Chatham Daily News of Jan. 20th says: "The Gurd Gusher is again at work, and demonstrating the fact that she is not a freak well, but a good, money-making proposition. The oil is all going to Sarnia, and so far the Petrolea refinery has not had a show. The fixed price paid and the compensation for the output prove the great demand for crude oil. The Dominion Oil Company has acquired interests in the Gusher and taken over the leases held by the Gurd Company."

The president of the Dominion Oil Company states, in regard to the production of the Gurd wells, now about 100 barrels of oil per day, that he expects through the installation of an air compressor that this production will be increased to 600 or 800 barrels per day.

This product is now bringing the HIGHEST PRICE OF ANY OIL ON THE NORTH AMERICAN CONTINENT.

The company has also just added to its holdings by securing leases on 200 acres additional in the Wheatley district, a very valuable acquisition, and contracts are now being made for active development upon this property. This has been done without drawing a dollar from the rapidly accumulating treasury funds.

An early advance in the price of this stock is probable, and investors should secure it now, while there is time. Remember that the books close Saturday, February 21st, for the March 1st dividend.

Address all inquiries for full information regarding this very profitable investment and make all checks, drafts and orders payable to the

COLONIAL SECURITIES CO., Fiscal Agents, Manning Chambers, Toronto.

ONE SPOONFUL

Will build for you good health, through good nerves, by using

South American Nervine

Almost all disease is the result of poor nerve action. Without good nerves neither brain, nor stomach, nor liver, nor heart, nor kidneys, can work well. Nerve food must be such that it will be *absorbed* by the nerve ends. Such a food is **South American Nervine**, the greatest tonic known, a cure for dyspepsia and all stomach ailments.

ADOLPH LE BODIE, B.C.L., Montreal's well known barrister, writes: "I was suffering from insomnia and nervous debility, prostration and exhaustion. I took five bottles of South American Nervine, and am wholly recovered.

The Great South American Rheumatic Cure is the only one that has not a single case of failure in its record. Cure sure within three days, relief instantly.

Hamilton Ladies to Play in Peterborough.

T. A. S. VS. NORWOOD GAME

Oliver Dusty Wants to Race Walter Jackson.

Some Notes on Curling—What Belleville Thinks of the Hockey Situation—Omemee vs. Lindsay.

The winter is not going by without the people of Peterborough having the privilege of witnessing a ladies-hockey match. Failing to induce the young ladies of Toronto to come to Peterborough, the local ladies' hockey club has made arrangements with the ladies' team Hamilton to come to Peterborough on Tuesday of next week. The ladies of Hamilton are noted for their hockey playing, and hold the championship of Western Ontario. There is being considerable interest worked up in the matter, and a keenly contested game is anticipated.

HOCKEY.

WHAT THEY THINK OF IT.

The Belleville Intelligencer, concerning the defeat of their team says:—

"Nine—four. That tells the story. The red and white boys went down to defeat last night, and there are several reasons for it. One was the forward line of the Marlboros, which had speed and combination to throw away; another was the wide Mutual street rink, which had the local lads all at sea in their shooting; but the principal reason, in the estimation of a lot of people, was the damages inflicted on a few of the boys by that crowd of foul players from dear old Kingston, who couldn't beat a carpet themselves, but managed to smash Kennedy's thumb and cut Brown's head open, besides inflicting other minor injuries on some of the boys, with the result that they weakened in the mix-ups last night and faded away when the crucial moment came. But there! Let's take our medicine when it comes, like true sportsmen. The boys met a better team last night, a team which had the best of the luck and played the best hockey. Whether they can hold up their end with the red and white boys on the Belleville rink, remains to be seen. We don't believe they can, but paste this in your hat—they can play hockey of the up-to-date kind, which will compel the admiration of anybody, whether friend or foe. Straightforward Harry McGuire told the truth when he shook hands with one of their supporters in the dressing-room afterwards, and said "The best team won, but I think we can beat them when they come to Belleville."

BELLEVILLE HOWL.

The Kingston Whig contains the following item concerning the Belleville team:

"If the Belleville papers are to be interpreted as representing the sentiment of the Belleville hockey players, then it is manifest that the hockey-ist-wof-that town are a lot of whiners who should give up the game and adopt ping-pong. In Belleville the home team used their superior weight to play rough-house with the Ramblers, who took their defeat in good part and said nothing. However, they were badly used in Belleville, both by the team and spectators; the latter at every opportunity squirted tobacco juice in the faces of the Kingston men during the progress of the game. Then when the team were driving away from the hotel a mob of hoodlums jeered them and threw lumps of ice and other missiles after them; one Kingston man carries a lump on his head yet that testifies to the "meekness" of the average Belleville crowd. Hockey is essentially a rough game and the team that expects to play it with this feature eliminated had better quit it at once."

OMEMEE DEFEATED.

The Lindsay Juniors demonstrated last night that they are the coming champions of Lindsay. They played the Omemee seniors an exhibition game last night and defeated them by a score of 7 to 6. The ice was keen for fast work and the match was well worth witnessing. It furnished abundance of amusement for the spectators. It was a game in which hockey and shinney were evenly combined. The visitors were a heavier aggregation than the locals, and consequently were able to check harder. The Juniors displayed some fair combination at times, but their opponents resorted to individual play entirely.—Lindsay Post.

* * *

The Peterborough hockey team have arranged a series of home and home games with Port Hope for a $50 trophy. This series will be opened by Peterborough going to Port Hope on Friday next. The Port Hope team will come up to play in the Brock street rink on the Wednesday following.

* * *

The Rovers hereby challenge the Independents for a game of hockey to be played any night next week.—Joe Primeau, captain.

* * *

The match on Monday night in the finals of the Trent Valley League between Norwood and T.A.S. promises to be largely attended. The game will be refereed by Mr. Kruse Wasson. Mr. R. M. Glover had been selected by the Executive to officiate but he finds it impossible to arrange matter.

* * *

The Lock Works team will play the firemen any time the latter are ready.

* * *

Tickets for the T.A.S.-Norwood hockey match may be had at the T.A.S. rooms, at O'Brien's cigar store or at Mr. Potvin's restaurant.

* * *

Kingston people have about as much love for Belleville as Port Hope has for Cobourg. The Kingston and Belleville papers are at the present time saying rude things about each other. The Whig of yesterday has the following:

"Belleville is in mourning. It was always recognized as dead, but now darkness has fallen over Intelligencerville, and there is crape on every door. Its hockey team, the only thing that kept any life in the old Bay of Quinte Burg has bitten the dust at last. It met its Waterloo in Toronto last night when the Marlboroughs virtually won the Intermediate O.H.A. championship by defeating Belleville, 9 to 4. That's why an unusual stillness reigns in the dear old town. A flag flies at half-mast over the Intelligencer office, and from within the houses come sobs and moans. The glory of an over-rated team hath departed.

RACING.

To the Sporting Editor of the Examiner:

Dear Sir, — Owing to the poor judgment on the part of the judges in giving Jackson the decision in the skating race last evening, I hereby challenge Walter Jackson to a race for any distance from one to two miles. Heats, best two out of three, for fun, money or marbles. Race, to be skated any time to suit Jackson during the balance of the winter.

Oliver Dusty.

P.S.—This challenge is to test the merits of the two men, same as the last two races, and will decide which is the better man.—O.D.

CURLING.

Quite a number of players turned out to take part in the Points games which took place last night in the Charlotte street rink. The highest scores were:

W. G. Ferguson 39
R. Kerr 36
C. Rutherford 34

These scores reflect great credit on the ability of the several players.

* * *

The following scratch game between Skips W. G. Morrow and J. Crane was also played last night:

J Gibson	T Mowat
W. J. Thompson	S Clegg
G. Whites	G Giroux
W. G. Morrow, sk...14	J Crane, sk...12

* * *

Two rinks went to Lakefield yesterday and returned home last night with the flush of victory on their manly brows. The following are the Peterborough players with opposing skips:

Peterborough.	Lakefield.
T. Brightmann	
T. F. Matthews	
R. J. Frost	
R. Neil, sk...23	Levi Payne, sk...12
M. Tooley	
J. Hall	
T. Rutherford	
A. Blade, sk...14	Strickland, sk...13

* * *

It is rumoured that three or four rinks are going to Orillia next Tuesday. It is to be hoped that these will have the same success as did their confreres at Lakefield.

For a Certainty I am Cured.

Mr. James Treneman, butcher, 536 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely get around. He never used any medicine that did him so much good as Dr. Chase's Kidney-Liver Pills, and knows for a certainty that this treatment cured him. One pill a dose; 25c a box.

Ex-M.P.P. Dead.

Cobourg, Feb. 21. — Last night John C. Field, ex-M.P.P., one of Cobourg's most highly respected citizens, "crossed the bar" and departed this life in the 81st year of his age.

Principal Auden Arrives.

Toronto, Feb. 21.—Principal Auden, the new head master of Upper Canada College, arrived here yesterday. He was greatly pleased with its welcome to Canada.

WHEN YOUR COSTLY WATCH

is out of order you have it regulated; you don't at once throw it aside. Why, then, when your bowels are out of order, do you treat them as useless?

That is precisely what it means to take violent cathartics. They do not regulate the bowels, but take their work away from them, debilitate them, and make you more constipated than ever.

You had far better throw away your good watch than treat your bowels roughly. You can get another watch, but you cannot renew your intestines.

The only cure for Constipation is a gentle laxative with tonic action.

IRON-OX TABLETS

Are the Perfect Tonic Laxative

SEVERE BACKACHE AND HEADACHE.

A Hamilton Lady thanks Dr. Pitcher for Pain Relieved and Health Restored.

If women would only consider what an important part of their organism the kidneys are, how necessary that these little filters and purifiers of the blood be kept active and healthy, they would suffer fewer pains and aches. Dr. Pitcher's Backache Kidney Tablets are a specially adapted remedy for the kidney ailments of women. They cure backache, weak or sore back, pain in the loins, or over the bladder, swelling of the feet and legs, puffiness under the eyes, constipation and liver trouble, severe headache, urinary troubles of whatever nature, and all kidney derangements.

Mrs. E. Berryman, whose picture appears above, and who resides at 129½ Bay Street North, Hamilton, Ont., expressed her thanks for the benefits derived from Dr. Pitcher's Backache Kidney Tablets in the following terms:—"For some time I was greatly troubled with headaches, so bad that often in the mornings I could hardly raise my head from the pillow. I also suffered a good deal from backache, and at times took dizzy spells. I had only used half a box of Dr. Pitcher's Backache Kidney Tablets before I found them helping me. In all I have taken three boxes, and I feel splendid. The Tablets are certainly a good remedy.

Dr. Pitcher's Backache Kidney Tablets are 50c. a bottle, or 3 for $1.25, at all druggists, or by mail. The Dr. Ziba Pitcher Co., Toronto, Ont.

PRINCE CALLED CRIMINAL.

Sensational Charges Made in the Austrian Reichsrath.

Vienna, Feb. 21. — Sensational charges against Prince Philip of Saxe-Coburg-Botha, who is an Austrian field marshal and husband of the Princess Louise of Belgium, eldest daughter of King Leopold, were made yesterday during the debate on the army bill in the Reichsrath, by Herr Daszynaski, the Polish leader. The latter denounced the Prince as a criminal, and referring to the imprisonment of the former lieutenant of Hussars, Mattasich, who eloped with the Princess Louise of Coburg several years ago, and was sentenced to four years' imprisonment in December last for forging the signature of Princess Stephanie, Countess of Lonyay, asserted that while in prison Mattasich drew up a formal accusation charging Prince Philip with forcing the Princess Louise, who was confined in an asylum for the insane near Dresden, some time after her elopement, to encourage the advances of the late Baron Hirsch, and with compelling her to ask the Baron for money.

MONDAY, THE DAY SET.

The Venezuelan Gunboat, Captured by the Germans, Due Then.

Caracas, Feb. 21. — The German commodore has notified the authorities at Puerto Cabello taat the Venezuelan gunboat Restaurador, which was captured by the Germans, will be returned to Venezuela on Monday, Feb. 23.

90 Miles From Caracas.

Caracas, Feb. 21.—A revolutionary army, estimated at 2,800 men, has reached a point about 20 miles south of Caracas. The revolutionists and the Government troops sent out against them occupy strong positions.

A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT. January 19th to 23rd.

Sealskin advanced from	20% to	30%
Persian Lamb advanced from	10% to	20%
Astrachan Lamb	"	10% to 20%
Racoon Skins	"	20%
Skunk Skins	"	15%
Mink	"	15%
Black Cattle Skins	"	10% to 15%
Wombat Skins	"	15%
Wallaby Skins	"	15%
Australian Coon	"	25%
Otter Skins,	"	10%
Opposum Skins,	"	15%
Marten Skins,	"	12%

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

Militia Officials' Estimate of Martineau's Defalcations.

ACCUSED BY THE MINERS.

Yukon Officials Charged With Beating Miners Out of Their Claims—Hon. Mr. Sifton Has Ordered Mr. Wood to Suspend Both Officials and Make Complete and Thorough Investigation.

Ottawa, Feb. 23.—The officials of the Militia Department think that the defalcations of Martineau will aggregate $75,000. It will be a day or two yet before the exact amount is known. At present the accountant and his staff are going over the entries in the departmental day book for the past twelve months and comparing them with the statement furnished by the Bank of Montreal of the checks which it has cashed within the same period. Until this comparison is completed the estimate of the defalcations is only an approximate one. It would appear that the first bank in which Martineau made deposits was the Quebec Bank. He did so under the name of Chas. D. Cote. He next opened an account at the Sovereign Bank, under the same name. To the local manager of the Sovereign Bank he was, it is stated, introduced by a former member of the staff of the Quebec Bank. In the Royal Bank he also made deposits. The amount standing to his credit in the Sovereign Bank is said to be $9,800. It is reported, but cannot be confirmed, that the sums in the other banks are larger. The extent of Martineau's transactions in stocks used to amaze some of his associates. They thought, however, that by reason of his having had considerable experience he was acting for wealthy clients. Martineau once boasted of having made as much as $18,000, but he confessed also to having experienced losses.

Charge Against Yukon Officials.

The Department of the Interior has been advised that two Yukon Officials, Messrs. Hinton and Young, who formerly belonged to Ottawa, and who were employed in connection with the recording of claims on Duncan Creek, about 200 miles from Dawson, have been accused by the miners of beating them out of their claims. The complaints were made to the department on behalf of the miners, and immediately on learning of them Mr. Sifton ordered Mr. Wood, the acting Commissioner of the Yukon, to suspend both officials. Instructions were also sent to investigate the charges to the fullest possible extent, and if they are established to institute both civil and criminal actions against Hinton and Young.

GREAT NORTHERN DEAL.

The Arrangements Made With Messrs. Mackenzie & Mann.

Quebec, Feb. 23.—With regard to the reported transaction by which Mackenzie & Mann of Toronto will obtain control of the Great Northern Railway, a prominent official of that company has given the following information:

"The proposed transaction with Messrs. Mackenzie & Mann has been under consideration for some time, and with the knowledge of all the directors of the company. The transaction has not yet been closed, but it is hoped that it will be next week, as it will be very much to the advantage of the company and of Quebec that so large a business as Mackenzie & Mann's should be brought to this port for shipment. The nature of the transaction is that Mackenzie & Mann may acquire a certain interest in the stock of the company, and have a representation on the Board of Directors. With this exception the present organization of the company and of its officials will not be disturbed, and the head office and management and operating staff of the company will remain, as heretofore, at Quebec. Messrs. McNaught and Melville are about equal owners in the stock of the company, and neither of them disposes of his interest."

OPPOSED TO SUBSIDIES.

Northwest Needs All the Land It Has and Railways Will Come Anyway, Says Hon. Mr. Bulyea.

Toronto, Feb. 23.—In an interview here last night, Hon. G. H. V. Bulyea, Commissioner of Public Works, N. W. T., Regina, said:

"The Northwest Territories are of course most interested in seeing to it that no more land grants are made, and incidentally I may say I believe the sentiment there is wholly opposed to any kind of subsidy to future railroad projects. We need all the land we have—need it more than we do railroads, and then, too, the railroads will come anyway without grants. Everything indicates this. Our land is very valuable to-day. There is none in the Territories that will not sell for five dollars an acre.

Railway Will Pay.

"I believe that if the Grand Trunk Pacific or any other line was put through Canada it would secure enormous traffic as rapidly as it was completed. With the rush of settlers into that country the rails could not be laid fast enough for them. They would spread out over any section that is pierced with a railroad. In fact I believe in time that part of Canada will support half a dozen transcontinental railroads."

ANOTHER SOUTHERN SHOOTING.

Killing in a North Carolina City Resulted From Scandal.

Raleigh, N. C., Feb. 23.—Ludlow Skinner, a cotton broker, was shot in the street at 4.20 o'clock Saturday afternoon by Ernest Haywood, a prominent lawyer. After the shooting Haywood surrendered himself.

Skinner fell on the street car track and died almost instantly.

The shooting grew out of a scandal and alleged secret marriage of Mrs. W. R. Tucker, a widow and sister to Skinner's wife. The scandal involved three of the most prominent families in Raleigh, and has been more or less discussed for several months.

Skinner was a quiet and inoffensive man. He was the son of the Rev. Dr. T. E. Skinner, a retired minister, who many years ago was pastor of the First Baptist Church here. His mother was buried Friday.

Shot at a Meal.

Chattanooga, Tenn., Feb. 23.—Sylvester Ward shot and instantly killed Richard Arnold Saturday night at Milton, near Murfreesboro, Tenn. They fell out over payment for their meals. Both are members of prominent families. Ward surrendered to the sheriff.

Strike in Shoe Factory.

Quebec, Feb. 23.—A strike is now on among the employes of the boot and shoe manufactory of William Goulet and Garant, in St. Roche. All the men, to the number of about fifty, left the premises. They did not return to work Saturday.

A SPRING UPRISING.

Macedonian Revolution Determined for Last of March.

PRESENT IDENTICAL NOTES.

Austrian-Russian Notes Handed to the Grand Vizier at Constantinople—Reforms Demanded Contain Nothing Objectionable to the Sultan or His Government or to Religion of the Mohammedans.

London, Feb. 23.—The New York Sun correspondent has wired his paper that the date of the Macedonian revolution is fixed for the last week in March.

PRESENTED AT CONSTANTINOPLE.

Austrian-Russian Note Handed to Turkey's Grand Vizier.

Constantinople, Feb. 23.—The Austrian and Russian Ambassadors presented Saturday to the Grand Vizier identical memoranda embodying the demands for reforms in Macedonia. The proceeding was of a semi-official character.

The chief proposal made in the memoranda is the appointment of an inspector-general for three years, with ample powers to act independently, and to requisition troops in case of emergency. The plan of reforms also provides for the re-organization of the gendarmerie and police under instructors, for administrative and financial reforms and for a more equitable collection of taxes. These reforms do not affect the Sultan's prerogatives, or wound the religious susceptibilities of the Mussulmans.

Concentration of Macedonians.

Vienna, Feb. 23.—It is reported that the Macedonian Leader Sarafoff has organized within the past fortnight several well equipped Bulgarian bands in Macedonia, each consisting of about 250 men. The Neue Freie Presse learns that 4,000 armed Macedonians are concentrated 40 miles from Sofia, and are preparing to attack the town of Melnik, in the Turkish Province of Seres. There is an unconfirmed rumor that the Albanians have attacked the Roumanian Consulate at Mitrovitza, Turkey.

25,000 Redifs Moving.

Constantinople, Feb. 23. — The Smyrna-Kassaba Railroad Company has been instructed to prepare for the transportation of 25,000 Redifs, to reinforce the third army corps at Salonica.

RESULT OF A QUARREL.

John McDonald of North Bay Killed by George Williamson.

North Bay, Feb. 23.—On Saturday, Feb. 14, John McDonald and George Williamson quarreled on the Temiskaming toll road. Williamson, the smaller man, drew a knife and stabbed McDonald. The latter was brought to the hospital here, where he died yesterday. A coroner's jury viewed the remains and adjourned till Feb. 27. Williamson has been arrested. Both men are teamsters, and the affray occurred while they were driving out to the lumber camp.

ONE TRAIN RELIEVED.

But Others Are Still Blocked in Snow in Newfoundland.

St. John's, Nfld., Feb. 23.—Relief parties with food yesterday reached the trains which are snowbound in the interior, and supplied them with provisions. The nearest train was freed yesterday afternoon and started for St. John's. The relief train is forging its way forward, trying to clear the track to enable the other two blocked trains to move east. It is impossible to say when they will be released, as the drifts are very heavy.

Lost Her Hand.

London, Feb. 23.—Miss Lilly Nichol, 19 years of age, met with a serious accident Saturday morning at the factory of Reid Bros. & Co., Clarence street. She was engaged feeding a press in the printing department when she failed to draw her hand back before the machine closed. The whole hand was caught, and crushed so badly that its amputation may be necessary.

Died in His Class Room.

Yarmouth, N. S., Feb. 23.—James Cameron, aged 50 years, principal of the Yarmouth County Academy, was found dead in his classroom on Saturday afternoon. Heart disease was the cause of death.

Smash-Up at Windsor.

Windsor, Feb. 23.—Saturday morning a yard engine and two box cars collided with the fast express train. Both engines were damaged. Engineer McCormick had a miraculous escape.

Eve Tempted Adam..

And Adam has been tempting Eve ever since. Imagine a man selling a woman rancid butter while keeping her attention fixed on a "prize" given with the rancid butter! A woman may be tempted by "prizes" to buy common soaps, that she may not know will soon ruin her clothes and hands. But she soon finds out the difference between common soaps and Sunlight Soap. She finds Sunlight Soap—Octagon Bar—a prize in itself. Her clothes last longer, and her hands are saved from eczema.

Stop!

and think for a minute. You need a

PIANO

in your house, and the best that money can buy. A poor instrument is worse than none at all, excepting as an ornament, for a cheap piano is in appearance as good as a good one.

We will be pleased to show you the material that is put into the Stanley. Everything is of the best, for no piano that has yet been built has been too good for the artistic musician. The great beauty of finish, the purity of tone, the sensitive action of the Stanley Piano is unsurpassed.

THE ENGLISH EDUCATION ACT

More Orderly and More Legal Administration.

A Careful Review of the Present Situation—Powers of Town and County Councils.

The following is a continuation of the article in Saturda's issue on the subject of the new Educational Bill about to be introduced into the British Parliament:

Though brought in this way under direct local public control, the denominationalists are by no means wiped out; the second avowed object of the act, is, indeed, to preserve them. In thousands of the more sparsely populated districts of England and Wales, and in not a few of the more thickly peopled ones, they own all the school buildings and equipments, and as these are estimated to be worth at the very least $100,000,000, expropriation is not to be had for nothing. A bargain has been struck, under which the free use of the school premises is to be accorded to the local education authority, which undertakes to defray the entire cost of secular instruction given in them, while not interfering with the religious teaching. This has proved an extremely sore point, and the cause of most of the opposition, because this religious teaching will really cost nothing, when, as in most instances, it is given by the teacher whose salary is defrayed out of the taxpayers money. Moreover, it necessitates that the teacher must belong to the same denomination as the school, which in turn involves a religious test. It is not correct, however, to say that the act imposes this test, because it previously existed in an even more stringent form, and has been substantially mitigated. It was formerly possible to engage a teacher for one of these schools almost disregardless of educational qualifications, and more for reasons personal to the parish clergyman. Selection remains in the same hands as before, but must be confirmed or at least not objected to by the public authority, while dismissal is subject to the same veto. This applies, moreover, to head teachers only, whereas, all were formerly included in the test. Assistant masters and mistresses need not necessarily be members of the particular church, while the greatest grievance of all, associated with pupil teachers, or apprentices to the profession, as they might be more correctly designated, has been removed. It used

TO BE IMPOSSIBLE

for a non-conformist to qualify for this occupation in thousands of districts throughout the country, without first abjuring the faith of his fathers. That at least is to be altered and where there are any more candidates than vacancies, selection is to be by competitive examination and irrespective of creed. True, after admission through the portals the highest position may be denied a nonconformist in the majority of schools throughout the land, but the opportunities afforded by the public schools are so numerous, as well as on the average so much superior, that no real hardship is imposed on any well equipped teacher. Religious tests are objectionable under any circumstances but they have here, at least, been shorn of some of their terror.

Nor will the denominational schools even for purposes of religious instruction be, to quite the same extent, as formerly, the parson's freehold, where he can teach pretty much what he pleases. This privilege was frequently abused, although not often enough, no doubt, as has been imputed on many occasions. It is effected by what is known as the Kenyon-Slaney amendment, though its scope and meaning have been a good deal whittled down from the intentions of its authors. Still it affords what will likely prove to be sufficiently powerful machinery to put an end to the scandals of bigotry, and even worse, that have from time to time shocked public opinion. The principle of definition and doctrinal religious teaching, as represented by denominational schools, is too much part and parcel of the English system to be got rid of all at once, granting that such a course were advisable, and it is at least a step in the right direction to curb the excesses which sometimes resulted rom it.

Broadly, these are the main principles on which the act is constructed. They are enveloped in a mass of detail such as only experts are able to comprehend, and it is the manipulation of such details upon which future success or failure must depend. The most hopeful feature of the situation is that permanent officials called upon to administer the education acts no less than the great majority of elected representatives whose duty is largely to interpret them, have always hitherto been permeated with zeal for educational progress, and there is no reason to suppose there will be any alteration in this respect. England has been sadly handicapped in the race for industrial and commercial progress by the inferiority of her educational system over those of the countries that have been slowly but surely stealing a march upon her. The education act of 1902 affords opportunities for remedying this, if only such portions of it as can be made the basis for religious controversy are thrust on one side. There is a strong inclination to accomplish this, and every elementary school may yet become a centre of real learning as is the case throughout both America and Germany, with the opportunity afforded to every scholar attaining to higher things.

A BEET SUGAR MEETING

Held at Reaboro on Friday Evening Last.

Addresses by Dr. Jeffs, T. E. Bradburn and J. D. Thornton—Great Interest Shown.

A very enthusiastic meeting was held in Reaboro on Friday evening, February 13th, in the C.O.F. Hall, in the interests of the sugar beet industry. The farmers in this vicinity are up-to-date and are well posted in all the matters pertaining to the farming industry, so were very anxious to have a meeting and hear the proposition of the Peterborough Sugar Company.

The meeting was called to order about 8 o'clock, and Mr. Reid was unanimously elected chairman. The meeting was addressed by Mr. T. E. Bradburn, the president of the Peterborough Sugar Company, Mr. J. D. Thornton, of Omemee, and Dr. W. H. Jeffs.

Mr. Reid said that he was very glad the meeting was called to discuss this question. He said he wanted the farmers to view this as a business proposition. He wished them to look into it, and if there was money in the business they should go into it.

Mr. Bradburn went into the extent of the sugar industry. He gave the number of foreign beet sugar factories as 1300. Canada imported $6,000,000 worth of sugar annually, and we just had four factories in Canada at the present time, while there was room for thirty. He said that Peterborough was admirably situated for a beet sugar factory, as we had good railroad facilities, and through the Trent Valley Canal system, a grand opportunity of getting in beets by water. He stated that arrangements had been made with the railway companies to haul in beets for 50 cents a ton for a 50-mile limit, and also had made satisfactory arrangements with the boat companies to bring in beets by barges. He also touched on many other matters in connection with the industry.

Mr. Thornton referred to the good results the meeting in Omemee had borne, in that the farmers around there were now more enthusiastic in contracting acreage, and that there was talk of an acreage company being formed to grow beets.

Dr. Jeffs referred to the benefit that had accrued to the farmers of Michigan from the beet sugar industry. If it was a good thing for the farmers of Michigan it would be a good thing for us. They have made money out of sugar beets and we can do the same. The question of labour was taken up and it was shown that the labour question did not apply to the farmer who was growing 2, 3, 5, or 10 acres of sugar beets, but it was a question only where a man went into growing beets on a large scale, of, say, 25, 30 or 100 acres. The question of the cultivation of the sugar beets was thoroughly gone into, and it was shown that the crop was not hard on the soil.

The interest of the farmers was shown by the number of questions asked the doctor.

At the conclusion of the meeting a hearty vote of thanks was tendered to the chairman.

B. C. Legislature April 2nd.

Vancouver, B. C., Feb. 21.—The Opening session of the Legislature, summoned for March 17, has been postponed until April 2.

THE WATER COMMISSIONERS.

The Secretary's Report in Extenso.

A Statement of Receipts and Expenditures.

The following is the report of the Secretary-Treasurer of the Peterborough Water Commissioners, presented at the meeting held a few days ago:

To the Peterborough Water Commissioners.

Gentlemen,—I herewith submit the financial statement of the Water Works Department for the year 1902.

The amount owing by the water consumers at the end of the years was largely due for metre and other rates for which accounts were sent out at the end of the year.

The amount expended in extention of mains was $4,280.49, and in laying services $6,174.22, a total of $5,276.71. In addition material to the value of $474.90 was purchased and not used and is available for future work.

Respectfully submitted..

S. R. ARMSTRONG,
Secretary-Treasurer.

GIRL LURED FROM TORONTO.

Alma Baker Induced to Go to Buffalo and Turned Adrift.

Buffalo, Feb. 23.—Through the arrest of Alma Baker, a pretty young Toronto woman of 23 years, who was deported to Canada last week, the police have discovered that a shameful and criminal traffic is being carried on between Canada and the United States. It appears that certain concert halls have agents in Canadian cities on the lookout for bright, intelligent young women who can be induced to come to Buffalo on the pretense that good positions await them. The number of victims of these vile criminals is not small.

Alma Baker came to Buffalo eight weeks ago, and was arrested early Thursday on Main street, when she told her story. It was that she met a man named La Bertus in Toronto, whom she was induced to accompany to this city. La Bertus took her to a concert hall on Broadway, where he had an engagement of several weeks. The man disappeared a week ago, leaving her penniless, and she drifted into the street. La Bertus cannot be found.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Mr. McDougall's Mental Condition.

Toronto, Feb. 21.—Alfred McDougall, formerly solicitor to the Treasury Department of Ontario, who is charged with embezzling the public moneys, derived from succession duties, was taken before Judge Morgan in the County Judge's Criminal Court yesterday morning for inquiry into his mental condition. Hon. S. C. Biggs acted for the Crown, and Hon. S. H. Blake, with Mr. Du Vernet, appeared for the prisoner. The defence claimed that prisoner is afflicted with paresis and is therefore irresponsible. The expert testimony given was conflicting, and the case is adjourned till March 3 for argument.

PRETENDER CRUSHED.

Sultan's Commander Says Situation Is Very Satisfactory.

Tangier, Morocco, Feb. 23.—A despatch from Fez, dated Feb. 16 and received here Saturday, says General Sir Harry Maclean (commander of the Sultan of Morocco's Bodyguard), in an interview describes the situation as very satisfactory. He considers that the power of the pretender, Bu Hamara, who, according to these advices is reported lying wounded near Tazza, has been completely crushed, and the Moroccan War Minister, El Menebhi, was advancing at the head of a large force, punishing in turn the rebellious tribesmen.

International Peace Day.

London, Feb. 23.—International Peace Day was celebrated Saturday at a meeting which was presided over by the Right Hon. Leonard Henry Courtney. The presiding officer declared in his opening address that the difficulty of arranging permanent arbitration with the United States was the extremely democratic character of their constitution. There is nobody in that country, the speaker said, who can bind anybody to anything.

Germany Turned Down.

Washington, Feb. 23.—The German Government, through its representative here, Baron Von Sternberg, has made a request of Mr. Bowen for the immediate payment of the £5,500, which it was stipulated in the protocol signed on Feb. 13 should be paid within 30 days from that date as a preliminary to the raising of the blockade against Venezuelan ports. Bowen declined.

Capt. McBride Dead.

St. Thomas, Feb. 23.—Captain A. McBride, aged 83, died yesterday after an illness of two years. He had been Clerk of the Division Court for the past 13 years, and had lived in this city for 22 years. He came to this country when eight years old. He sailed on the lakes as a captain until 1873, and kept the Hutchinson House here for a number of years.

Broke Her Neck.

St. Thomas, Feb. 23.—A report comes from Buffalo that Mrs. Florence Small, better known as Flo Cook, has been killed there by falling downstairs and breaking her neck. The woman's mother still lives in the city, and she also had a brother who, until recently, resided here.

Through Canadian Ports.

Winnipeg, Feb. 23.—The projectors of the Northern Pacific Railway declare that they plan that their new road into Manitoba will divert the shipment of grain to Europe through Canadian ports.

Utah Anti-Treating Bills.

Salt Lake City, Utah, Feb. 23. — Anti-Treating bills were introduced in the Legislature Saturday

Despaired of Being Cured.

Mrs. W. E. Jeffries, 44 Hicks avenue, Kingston, Ont., says: "I suffered agony with itching piles. In fact I don't believe that any person who has not had piles can realize what I endured. The first application of Dr. Chase's Ointment brought me relief, and it has since entirely cured me. I hope that this testimonial will be the means of bringing comfort to other sufferers by making known the great power of this ointment."

A LINGERING COUGH

The cough that holds on in spite of all remedies needs energetic, and, above all, thorough treatment. A mere cough mixture won't do. Root out the cold that causes the cough.

How? Scott's Emulsion.

Why? Because Scott's Emulsion stops the irritation, soothes the tissues and heals the affected membranes.

When? Right away. Scott's Emulsion begins to help with the first dose. Its action is quick and effective.

In a word, Scott's Emulsion cures a cough because it cures the cold.

We'll send you a sample free upon request.

SCOTT & BOWNE, 55 Front St., W., Toronto.

BRAKEMAN KILLED ON G. T. R.

Richard Ford Run Down by an Engine at York.

Toronto, Feb. 23.—After being in the employ of the Grand Trunk Railway but three weeks, Richard A. Ford, a brakeman, met death in the yards at Little York on Saturday night. Ford was out on a run to Belleville during the day, and returned to Little York about 9 p.m. The conductor of the train, on its arrival there, gave Ford instructions to turn a switch, and while walking along the track he was run down by a yard engine. Death was instantaneous. Ford was 23 years of age, and prior to going into the employ of the Grand Trunk Railway was motorman on the Toronto Street Railway, and lived at 112 Sherbourne street.

THINK IT OVER.

Something You can see in any Restaurant or Cafe.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men at the tables; men whose ages run from 60 to 80 years; many of them bald, and all perhaps gray, but none of them feeble or senile?

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavour to live upon bran crackers.

There is a certain class of food cranks who seem to believe that meat, coffee, and many other good things are rank poisons, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not do so, and certain foods cause distress one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty because they supply just what every weak stomach lacks, pepsin, hydro-chloric acid, diastase and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus gives a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the travelling public for years have pinned their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages and any druggist from Maine to California, if his opinion were asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

VERDICT MOVES POLICE.

William Leek, M.C.R. Conductor, Wanted on Manslaughter Charge.

St. Thomas, Feb. 23.—A police officer from Haldimand County arrived in the city yesterday morning with a warrant for the arrest of William Leek, M. C. R. conductor, on the charge of manslaughter. Mr. Leek was acting as pilot for the Pere Marquette crew, in charge of the light freight train which ran into the rear of Conductor Charles Kennedy's M.C.R. freight at Perry Station, disregarding the signal against him, and killing Mr. John Davis of Hagersville. The coroner's jury returned a verdict, placing the blame upon Mr. Leek. Mr. Leek was a conductor previously, and was set back some ten years ago, being recently reinstated, and it is said that the trip on which the collision occurred was his first since reinstatement.

HOPES OF IRISHMEN.

Belief in a Final Settlement of the Land Question.

DUBLIN CONFERENCE PLAN.

Views of the Duke of Abercorn and Mr. John Redmond — All Parties Have Joined Forces to Effect This Bloodless Revolution—Opposing Parties Express Confidence in Bona Fides of Each Other.

London, Feb. 23.—As the result of interviews with the Duke of Abercorn, Lord Dunraven, John Redmond and others, the Associated Press is able to announce authoritatively that the following is the situation to-day, as regards the plan to finally settle the Irish land question:

All the interested parties, Nationalists, Unionists, landlords and tenants, are now, for the first time in the history of Ireland, in agreement upon the lines of the Dublin Conference.

They, also, have joined forces in bringing pressure on the Government to make Secretary Wyndham's forthcoming bill agree in spirit with the recommendations of the conference, and all indications point to the bill conceding those demands.

A Peaceful Revolution.

It will be introduced in Parliament at the end of March, and, if passed, will accomplish what Mr. Redmond and Lord Dunraven agree in saying will be one of the "most extraordinary peaceful revolutions effected."

If Mr. Wyndham, for lack of funds or other causes, fails to meet the views of the conference, he will have on his hands, to quote Mr. Redmond, "an Ireland, such as the world has never seen."

In this view such a strong supporter of the Government as the Duke of Abercorn concurs.

Mr. Redmond adds: "If this agreement of keenly opposing parties lacks fulfilment through the Government's refusal, there will be twice as many counties under the ban of the Crimes Act than there were prior to the present truce.

"This truce will be continued until the terms of the bill are revealed. A great Nationalist conference, at which Bourke Cockran of New York will be one of the principal speakers, will meet in Dublin in April to take action on the subject."

After the Budget.

In consequence of lack of funds, Mr. Wyndham's bill will not be introduced until after the presentation of the budget.

Duke of Abercorn's Views.

The Duke of Abercorn, who is president of the powerful Irish Landlords' Association, which at first declined to join the Earl of Mayo and Lord Dunraven in conferring with the Nationalists, but which later signified its assent, frankly admits that he is amazed at the results achieved, and at the "happy topsey-turvey-dom" now prevailing in Irish politics.

Asked if he thought the Nationalists were sincere in their professions of willingness to settle the long-standing grievances by a compromise, the Duke of Abercorn emphatically expressed his belief in their complete sincerity. The duke could not conceive that the Government "would stand on any quibble," when the solution of the most serious problem of the Empire was within its grasp. He thought the process of changing the holdings from the landlord to the tenant might possibly cost $3.500,000 annually, adding:

"It surely would be cheap at that price."

Neither Mr. Redmond nor Lord Dunraven believes the transfer of the land would involve more than $1,500,000 annually, and both think that the economies resulting from the cheaper administration would greatly reduce this figure, if they do not eventually quite wipe out the necessity for state aid in the payment of the difference between the maximum price the tenant can afford to pay and the minimum price the landlord can accept.

Desperately Hard Up.

The Irish-Unionist leaders are of the opinion that the whole question might be declared settled in advance if the Government were "not so desperately hard up." In consequence of this lack of funds, Mr. Wyndham's bill will not be introduced until after the presentation of the budget, so that any money to carry out the provisions of the bill will not be included in this year's taxes.

The Chancellor of the Exchequer, Mr. Ritchie, while quite sympathetic towards Ireland, now faces a more serious financial situation and more bitter protests against over-taxation than have confronted any Chancellor in recent years. The phenomenally small Government majorities since Parliament reassembled are indications of the storm which is brewing over Mr. Ritchie's head. He must also float a new Transvaal loan before Ireland gets an additional penny, and the Government, with reason, is keenly anxious in this respect.

Consols yesterday were at the lowest point reached this year, and inquiries made at Anglo-American banking houses, such as the Morgans, Seligmans and Speyers, reveal the fact that there is no indication of the United States subscribing to a loan. One financier said:

"If the Government brought out a loan which would really provide means for settling the Irish question, they would get more underwriting than they would know what to do with, both here and in America."

Mr. Redmond's Opinion.

Mr. Redmond was asked point blank if he thought the landlords were in earnest, and he replied:

"I have every reason to think they are just as anxious as we are to settle once and for all Ireland's troubles. If Mr. Wyndham brings in a bill on the line of the decisions arrived at by the Dublin conference the greatest step in the industrial and social history of Ireland will have been accomplished. More than that, it will be a most important step towards Home Rule. Under the new system, the landlords will live in Ireland, derive a benefit from their property, and begin to take a new interest in Irish affairs. They will then see the necessity for an extension of local Government, and will eventually become as anxious as ourselves to secure Home Rule."

M'BRIDE--GONNE.

The Major Marries the Irish Joan of Arc in Paris.

Paris, Feb. 23.—Major McBride, who was a member of the Irish brigade in the Transvaal service during the South African war, was quietly married Saturday afternoon to Maude Gonne in the Church of St. Honore d'Eylau, this city. Only a score of people were present. The ceremony was performed by the former chaplain of the Irish brigade.

YORK COUNTY'S LIVING PROOF

That Dodd's Kidney Pills Will Cure Gravel.

Thomas Harrison Tells of His Sufferings and of His Speedy and Permanent Cure.

St. Mary's Ferry, York Co., N.B., Feb. 23.—(Special.)—York County has a living proof of the efficacy of Dodd's Kidney Pills to bring back health, when all other means have failed, in the person of Thomas Harrison, of St. Mary's Ferry. "I began to suffer with a severe pain in my back, followed by a very lethargic feeling," Mr. Harrison says in speaking of his cure. "This continued for some time, gradually getting worse, when I was obliged to call in a physician, who termed my disease appendicitis. Still I could get no relief, and very shortly I commenced to urinate blood.

"My attention had been called to Dodd's Kidney Pills, but I was skeptical of patent medicines, and it was some time before I made up my mind to try them.

"The first box gave me relief and greater relief followed when I passed a stone that had formed in the bladder. By the time I had finished the third box I was cured. I have had no return of my trouble either, for if I feel any symptoms of its return I get another box of Dodd's Kidney Pills and in that way keep myself clear of that terrible disease."

Mr. Harrison is only one of many here who have benefitted from the use of Dodd's Kidney Pills, and the generally accepted conclusion is "If the disease comes from the Kidneys, Dodd's Kidney Pills will cure it."

New Brunswick Nominations.

St. John, N.B., Feb. 23.—On Saturday nominations for the Legislature were made in this Province. In every riding but one there is a contest. Mr. Culligan having resigned owing to ill health. The Government has thus one supporter elected.

Carl Brown Dead.

[illegible], Feb. 23.—Carl Brown, [illegible] youth, who lost his [illegible] attempt to board a freight [illegible] Bithy, died at the General [illegible] Saturday afternoon.

SILICATE BRICK.

Public notice is given that I have acquired the exclusive right to manufacture and sell, within the Province of Ontario, Silicate Brick, made out of sand lime and other materials, mixed and treated under the invention and processes of O. Hugo Anderson, for which Letters Patent for Canada were granted on 16th December 1901, under No. 74,667. Companies have been formed at Montreal, Sydney and Ottawa, to operate under this patent. The works at Sydney and Montreal will be turning out brick in February, and at Ottawa in April next.

I am prepared to sell rights under the above patent in Ontario and solicit correspondence.

Any person infringing these Patents Rights will be prosecuted. Address

D. O'CONNOR, K. C.,
25 Sparks Street, Ottawa.

Dec. 31, 1902.

Come and Enjoy the Luxury of

A Delightful Spray

Next time you want a Shave, Hair Cut or Shampoo, come to LeGros' Barber Shop and enjoy the luxury of a delightful spray.

I have just installed the **COMPRESSED AIR SPRAYING APPARATUS**, with a distributing cock connected with each of my six chairs. It is used for spraying perfumes, bay rum, witch-hazel, etc., drying the face after shaving, drying the hair after a shampoo, and blowing away the loose hair after a cut.

Gives the most exquisite finishing touches.

LeGROS' *Cigar Store and Tony Tonsorial Parlour.*

PROHIBITS RAILWAY STRIKES.

Railway Men in Holland Test Legality of National Statute.

Amsterdam, Feb. 23.—With the object of preventing the adoption of the proposed law prohibiting railroad strikes, all railroad employes of Holland have decided to cease work to test its virtue. At a meeting of the Workingmen's Union, which represents 90,000 men, it was decided to support such action. The date of the strike, however, has not yet been announced. The situation locally, meanwhile is critical. Trains cannot enter or leave Amsterdam, and additional troops are here to avoid possible trouble.

At a meeting of the Workingmen's Union, held yesterday, it was decided to support the railway men in their strike, the object of which was to prevent the adoption of the proposed law which prohibits railway strikes.

Shut Out Steel Trust.

Mexico City, Mex., Feb. 23.—In order to shut out the Steel Trust from operating in this country, the Mexican Government will issue a decree in a few days still further raising the duties on imported steel.

Canada's New Steamer Arrives.

Halifax, N. S., Feb. 23.—The Canadian Government's new steamer, Lady Laurier, Captain Johnston, eleven days from Glasgow, arrived in port yesterday afternoon.

Reached the Azores.

Berlin, Feb. 23.—The German Cable Company has finished laying its second line to New York so far as the Azore Islands, 1,200 miles.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto . . The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $12,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

Probabilities.

Fresh to strong south-westerly to north-westerly winds; fair to cloudy, with local snow flurries; a little colder to-night. Tuesday — Fair; stationary or a little lower temperature.

Finley in Trouble.

J. Finley, of Ashburnham, was, last week, arrested on a charge of assaulting his wife and causing bodily harm to her. He was remanded on Saturday for one week. He is still in custody.

Young Men's Guild.

A special meeting of the executive of St. Paul's Young Men's Guild is called for Tuesday evening at 7.30 sharp, in the Y.M.C.A. Let every member of the executive be present as business of importance is to come up.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Fatal Scarlet Fever.

The outbreak of scarlet fever in the neighbourhood of Peterborough, is still causing alarm, says the Toronto Globe. In Westwood, in Asphodel township, five deaths have occurred in eleven cases of scarlet fever. Diphtheria is prevalent in the township of Rawdon.

A Rumor Denied.

Mr. Frederic Nicholls, Second Vice-President and General Manager of the Canadian General Electric Co., stated on Saturday afternoon that there was no foundation for the rumour that the Kingston Locomotive Works are about to be merged into the Canada Foundry Co., and removed to Toronto.

Off to New York.

Miss Armstrong, of the Golden Lion's millinery department, and Miss Neild, of the dress and mantle department, left Saturday evening for New York. They carry instructions from their firm to visit the wholesale houses there and make special selections of the newest fashionable novelties in vogue for the spring trade.

St. Luke's Church.

The "Mothers' Meeting" will hold a pancake social and sale of work to-morrow, Shrove Tuesday, in the Sunday school at 8 p.m. A good programme has been prepared, which promises to be very interesting, in which Mr. Bert Stuart and Miss Dolly Harcourt, professional entertainers, will take part. Admission, 10 cents.

New Barber Shop.

We have started a new barber shop in W. O'Brien's cigar store, 423 George street. It is fitted with a handsome two-chair artistic mirror case and two pedestal base hydraulic chairs, which can be raised, lowered, revolved and reclined at will. The shop is neatly furnished with suitable floor and wall coverings, new shop furniture and fixings, cup cases, wash stands, a jacket heater for heating water and complete barbers' outfit.

No Sham Battle!

There's good reason for "marking down" odd lots of special lines of fancy goods to clear. But why "mark down" writing pads? Writing paper is getting dearer all the time, and its a staple of the staplest kind. But we're over-stocked with writing pads, and we prefer to realise in part and invest the money in new stock—the policy that keeps stocks ever fresh and new. See our north window. Its a startler! Silurian Note Paper in pads that were 15c., now only 5c. Letter paper pads that were 25c., now two for 25c. When the Peterborough Bookstore attacks prices its no sham battle. A. H. Stratton & Co.

THE WRECK.

Two Auxiliary Crews Soon Cleared it Away.

The wreck at the diamond on Saturday afternoon, was cleared away in short order, and only a few splinters remain to indicate that an accident of any kind took place at that point. Two auxiliary trains were at work clearing away the wreck. The G.T.R. auxiliary from Lindsay, and the C.P.R. auxiliary from Havelock, arrived on the scene at about the same time. The Belleville train was once more made up and proceeded on its journey about 6.45 o'clock.

WORK STOPPED

But the Mill Will be Erected just the Same.

The fact that building operations at Burnham's Point have been suspended temporarily, leads many to believe that there is little probability now of a mill being erected at that point. The Examiner is in a position to state that the cessation, for the present, at least, of work on the new mill, is not the result of any protest on the part of the people of Ashburnham, or the result of the meeting of the Ashburnham Civic Association. The Dickson Company are not making their business known to the public, but it is understood that a sawmill will be in operation on Burnham's Point in the course of a few months.

$34.75.

Was the Amount Raised Here for the Colportage Mission.

Mr. George Buskin writes to the Examiner, thanking it for its reference to International Colportage Mission and acknowledging the sum of $34.75 raised in Peterborough.

Cressman's Fire Sale. Both stores are closed to-day, with a large staff of employees engaged in bringing down and marking goods from the 3rd and 4th stories, such as Lace and Chenille Curtains, Table Covers, White Quilts, Window Blinds etc., which will be placed on sale, as also Kid Gloves, White and Grey Cottons etc. Stores open at 8.30 sharp.

Mr. Cochrane's Instructions.

A meeting of the Board of Health of North Monaghan was held in Peterborough on Saturday, when Mr. Madill was appointed chairman. A resolution was passed instructing Mr. George Cochrane, High County Constable, to rigidly enforce every provision of the Health Act within the County. This Mr. Cochrane purposes doing forthwith.

Wednesday Bargain Day. 300 Doz. Sweet Oranges 10c doz. or 3 doz. for 25c. R. A. Dutton, 418 George street. 'Phone 304.

"Never Struck Better Snaps."

That's the verdict of buyers at the sale of the Bradley stock. When you're down town come in and see for yourself. Men who want extra fine suit lengths for spring or summer, or spring overcoats or trousers; ladies who want handsome cloths suitable for skirts, costumes or jackets; boys, who want good suits for school or college—it's no trouble to sell, when everybody can see the cloth is worth so much more money. Stylish imported patterns—it's a mistake to miss them. Then the furnishings are so correct, and the prices so remarkably small. Do not let anything keep you from such surprising bargains. Remember that the stock was bought at 50 cents on the dollar, and it's a quick sale—can't last long at No. 353 George street.

10 CENT BAND CONCERT
Opera House
Tuesday Evening, 24th inst.
SPECIAL:
Entirely new Programme by Band, and "Joe" Halpany, Comic Vocalist, in New Songs and Dances.

TO VISIT PETERBOROUGH.

A Deputation from Buffalo Shortly Expected in Town.

The Manager of the McAllister Milling Company has been advised that a deputation consisting of 12 to 15 gentlemen has left Buffalo to visit Peterborough and inspect the new Ultimator Mill, among them being Mr. Ortman, Superintendent of the Urbin Mill, Buffalo; Mr. Parks, Editor of the Roller Miller; Mr. Oliver, Superintendent of the Thornton-Chester Mills, Buffalo; Mr. Knight, Superintendent of the Dominion Mill at Toronto, and several other prominent men in milling circles.

THE BAND CONCERT

To-morrow Night at the Local Opera House.

To-morroiw night will be the occasion of a band concert, by the 57th Regimental Band, in the local Opera House. The band, whose selections from time to time have won such praise, will, it is sincerely expected, turn out in full force, more especially as an excellent programme has been prepared. The Rangers' Band has made its reputation in the matter of band concerts, and it is hoped that many lovers of Apollos' heavenly gift will assemble, in order to encourage the local military musicians. The band will play Godfrey's Reminiscences of Ireland for the first time in Peterborough.

DEER HUNTING.

A Minden Paper States That Shots are Being Fired.

We have been informed by two different parties that there has been deer hunting going on in the north-east corner of Lutterworth, and the south-west corner of Anson, during the past few days, says the Minden Echo. One of our informants heard dogs running and shots fired, the other saw the fresh tracks of a deer, two dogs and snow shoe tracks, besides hearing the dogs giving tongue. We hope this flagrant breach of the game laws will be looked after by the proper authorities.

NEWS NUGGETS.

—There will be a meeting of the Charity Board this evening.

—Mason, the florist, will open a branch store in the Schneider building.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—The evangelistic services will conclude on Wednesday evening in the George street church.

—The Young Men's Guild of St. John's church will hold a social evening to-night in the school room.

—The Lese-Kraduschen class will meet at 8 o'clock this evening at the residence of Mrs. Edgs Pearce.

—Remember the hockey match between Fenelon Falls and Norwood this evening in the Brock street rink.

—Evangelists Kerby and Turk will hold a special meeting for women only on Wednesday afternoon at 3 o'clock in the George street Methodist church. At this service the evangelists will sing "The Holy City."

SOCIAL AND PERSONAL.

Mr. A. P. Choate has returned home.

Mr. E. B. Stone is in Cobourg on business.

Mr. A. E. Ames was in town yesterday, the guest of Mr. W. G. Morrow.

Mr. and Mrs. B. C. Gale and son, of Lakefield, were visiting friends in town yesterday.

Miss Mary Rush gave an excellent interpretation of a solo entitled "The Home Land," during the offertory at All Saints' Church last evening.

Mr. Basil Hall, son of Mr. E. H. D. Hall, town solicitor, who is attending the Royal Military College, at Kingston, is ill with typhoid fever. Mr. Hall went down to Kingston on Saturday night.

HAGGART'S AUCTION SALES.

February 24th—Auction sale of farm stock and implements of Mr. I. S. Boyd, lot 3, in 13 th concession of North Monaghan. Sale at 1 o'clock.

February 26th—Auction sale of farm stock and implements of Mr. James Ferguson, lot 20, in 1st concession of Emily. Sale at 1 o'clock.

March 12th—Auction sale of farm stock and implements of Mr. J. H. Fowler, lot 1, in 2nd concession of Smith. Sale at 12.30 o'clock.

March 19th—Auction sale of horses, cattle, sheep and hogs of Mr. David Guiry, lot 7, in 6th concession of Ennismore. Sale at 1 o'clock.

March 21st—Auction sale at the Munro House, of three parcels of land in North Monaghan. Sale at 2 o'clock.

See posters.

JOHN HAGGART,
Auctioneer.

The Bald-headed Blackbird.

The aesthetic sense of birds, says a writer in Country Life, cannot always dominate their minds in courtship. In the jet blackbird with his golden bill we see the fullest expression up to date of blackbird's ideas of beauty; yet there is an old bald-headed hen blackbird—a positively repulsive-looking creature—who has haunted our lawn for three winters, and who annually secures a mate. The whole of her head and neck are absolutely nude, and her thighs are bare, too, while her plumage has this year become liberally sprinkled with white feathers. Whether her vulturine aspect adds terror to her assaults, or whether she is really a shrewd fighter, I cannot say, but she hunts all the other hen blackbirds mercilessly. One is inclined to pity her for her bald head, and to think that she must feel the cold terribly in winter; but she is always the first to arrive at, and the last to leave, the bird-table, and seems as brisk in mid-winter, when the snow falls on her bare pate, as in summer, when it shines like a marble in the sun.

THE NEW BOARD MET.

The West Peterborough Agricultural Society.

Committees Were Appointed—Honorary Members List—Adjourned for Two Weeks.

The first meeting of the Board of Directors of the West Peterborough Agricultural Society was held last Saturday evening in the Town Council Chamber at 8 o'clock, there being present,—President, Mr. D. Hughes-Charles, and Messrs. C. B. McAllister, E. M. Elliott, G. W. Fitzgerald, T. M. Hunter, D. Moloney, Alex. Elliott, R. Munro, and J. M. Brooks, President of the Driving Park Association.

Two committees consisting respectively of Messrs. R. J. Munro, and Alex. Elliott, and of Messrs. H. P. Kennedy and R. Fair, together with the President of the Board, were appointed for the purpose of calling on the business men of the town and getting subscriptions in order that the new Board might place a fair sum to their credit before starting operations.

Another committee consisting of the President, (Mr. Hughes-Charles) and Messrs. C. B. McAllister and Alex Elliott was appointed to wait, at the first opportunity, upon Mr. R. A. Morrow, the owner of the Agricultural show grounds.

The names for Hon. membership were submitted as follows: — Hon. Senator Cox, and Messrs. J. W. Flavelle, A. P. Choate, E. R. Wood, Father McColl, Father Fitzpatrick, Father Phelan, James Kendry, M. P., John Lang, M.P., Wm. Anderson, M.P.P., T. E. Bradburn, R. A. Morrow, Mayor G. M. Roger, and J. Crowe, Warden of the County.

On motion the meeting then adjourned for two weeks.

It has become necessary for us to devote more space to Wall Papers this season. We are getting away from the common rut in Wall Papers, because artistic effects cost no more to put on your walls, and you will be surprised how little we charge for the most beautiful designs.

Pretty Wall Papers, 3c, 4c and 5c per roll.
Better Grades, 6c, 7c and 8c per roll.
Gilt Papers, 8c, 10c and 12c per roll.
Rich Gilts, 15c, 20c and 25c per roll.

Our choice assortments of Decorative Dining Room Effects are susceptible of many charming and original treatments—such as two-third wall decorations, crown effects, and other combinations.

WINDOW SHADES and CORNICE POLES

We haven't space to describe the display of styles. You can't wish for anything in these lines that we can't supply. No time wasted selecting at the Peterborough Bookstore.

Complete Window Shades, mounted on spring rollers..... 28c, 35c, 40c, 60c, 75c, 90c.
Complete Cornice Poles, ready to put on..... 18c, 25c, 35c, 50c, 60c, 75c.

PETERBOROUGH BOOKSTORE.

Richard Hall & Son

PETERBOROUGH'S MODERN STORE.

NEW DRESS GOODS!

We are being complimented daily on our great showing of new Spring Dress Goods—for colours—for designs—for assortments and for values. This season's importations by far surpass any of our previous efforts. SEE THEM.

SPIRAL VOILES

One of the newest and prettiest of this season's wool fabrics we are showing in seven colourings, viz.: Bisque, pearl grey, resida, green, new blue, mid brown, navy blue and blacks. A material that is bound to be popular—45 inches wide. Our price, per yard, **75c.**

SAIL CLOTH

A cloth we can recommend both for its wearing qualities and for beauty. Heavy enough for suitings as well as nice weight for dressy gowns. One of this season's new cloths shown in six colours, viz.: French grey, the new blue, resida green, brown, navy and black 42 inches wide. Our price, per yard, **75c.**

CREPOLINES

Crepolines will be popular again for this season. We show a lovely quality cloth in some pretty new shades, viz.: Turquoise, resida, biscuit, gray, navy and black, 44 inches wide, Our price, per yard, **75c.**

SNOWFLAKE CANVAS

A beautiful French, all wool, new fancy material. Snowflake effects are the feature of this season's styles. In this pretty cloth we show greys, greens, blues and browns, 42 inches wide, our price, per yard, **85c.**

SNOWFLAKE TWEEDS

Real Scotch Tweeds in beautiful snowflake designs and beautiful shadings of browns, blues and greys, all pure wool, 44 inches wide. Our price, per yard, **$1,00.**

DRESS PATTERNS

We have quite a large assortment of novelty dresses—one of a kind only—in voiles, canvas cloths, eolines, poplins and tweed effects. Elegant rich colourings, and the finest of qualities in silk and wool mixtures.

BLACK DRESS GOODS

The finest assortment of Black Dress Goods ever seen in the district. Canvas cloths, voiles, eolines, grenadines, cashmeres, satin cloths, etc., at all prices. Grand values.

DRESS TRIMMINGS

Sequins, appliques, laces, ribbons, silks, to suit all tastes.

AN INTERESTING DOCUMENT.

Smith Township Assessment Roll for 1828.

Mr. Thomas Stothart has left with the Examiner for presentation to the museum, through the Historical Society, the original assessment roll, or, rather sheet, of the Township of Smith of the year 1828. The document consists of two sheets foolscap size, fastened together with wafers. The total of the assessment which is certified to by Thomas Stothart and Wm. Kelso, is £3,402, 8s., and there were registered 1 saw-mill, 7 horses, "three years old and upwards," 76 oxen, "four years old and upwards," and 62 milch cows. These figures are in slight contrast to those to be found on the assessment roll of Smith Township to-day.

ON A VISIT.

Mr. Wm. O'Connor, of the Children's Aid Society in Town.

Mr. William O'Connor, assistant to Mr. J. J. Kelso, in the Children's Department, was in town Saturday. Department, was in town yesterday. He has been visiting a few foster homes in this district, and reports very favourably of them. Children's Aid Societies are under the supervision of the Children's Branch and a great deal of good has been accomplished by them. The different orphanages co-operate with these societies in placing children in foster-homes, the advantage in favour of the societies being that when parents are totally unfit to care for their children, such children may be taken from them without their consent. In the opinion of all who take more than a passing interest in this question, the family home is the safest, most natural and most economical method of providing for these poor little ones. And what question is of more importance than the ultimate disposal of our neglected and dependent children? Every child of these two classes who is placed in a foster home removes a possible burden or menace to society — a burden as a future pauper, and a menace as a future criminal.

THE COAL SUPPLY.

Arrival of Eight Car Loads at R. Hicks and Co's Yard.

We beg to announce the receipt of a consignment of eight cars of best mined hard coal—the quality that gives satisfaction.

SATURDAY NIGHT'S MATCH.

Machinists of Wm. Hamilton Company and Auburn.

The Game Resulted in a Tie—Each team having Scored 3 Goals—Notes on the Event.

On Saturday night about two hundred people witnessed a very interesting game of hockey between the Machinists Hockey team of the Wm. Hamilton Company and a team picked from the employees of the Auburn Mills. The game though not of the high class, bristled with excitement from the moment the referee blew his whistle till the time-keepers called it off, and the puck was kept on the move all the time. Only half a minute had passed when G. Hays, of the Auburn team, scored. The puck had hardly been faced again when Snapper Kennedy, of the Hamilton team was laid on the shelf for two minutes, and half a minutme later Danny McDonald of the same team got one minute. The excitement was getting higher, wood-chopping being in order, and Tommy McGrath made a rush on the Auburn net, which ended in his scoring the first goal for the Hamilton team. Time—3 minutes. The third goal also went to the Machinists, who seemed to be having their own way. But they had to work like trojans for 9 minutes, when Snapper, after a neat rush up the boards, managed to locate the net. The play was rough during the third act, and Hays got five minutes rest for bodying too hard and M. Shaw made a mark and got one minute. Kennedy also getting another rest of one minute. The score at half time stood stood, 2—1 in favour of the Machinists.

After five minutes' rest the puck was again faced. The players started in to win; the forwards of both teams doing some very nice work at shinny. Belleghem and McDonald practised the lifting act for about two minutes, when Danny missed, and being checked hard by one of the Auburn forwards, G. Hays, lost the puck, M. Shaw securing and placing it in the net. Time 6 minutes. The Hamilton boys began to think they had no cinch, and after the puck was faced, started in again to make things lively. Both teams were getting anxious and were working hard when Tommy McGrath secured the puck, passed to Cole, who after passing a couple Auburn men, passed to Kennedy, who scored. Time—5 minutes. The Machinists' supporters made the rink ring with their cheers, but it wasn't to last long; for when the puck was again faced the Auburn boys started it up towards the Machinists' goal and kept it there, when, after a face off in front of the net, Joe Dingle gave the rubber a knock and in it went. Time—4 minutes. Score 3—3. Both teams worked hard but VanEvery and Dunnette kept their goals clear, and no more scoring was done. Dunford played a good game and relieved his goal many times. Pennick, of the Machinists' forward line was in the game and in the road at the same time. Belleghem, of the Auburns, also did good work. The teams lined up in the following order:—

Wm. Hamilton Company—Goal, Van Every; Point, Dunford; cover point, McDonald; forwards, McGrath, Kennedy, Cole, Pennick.

Auburn Mills — Goal, Dinnette; point, Belleghem; covar point, W. Shaw; forwards, G. Hays, M. Shaw, A. Hays, J. Dingle.

Referee—Fred Whitcroft.—Com.

For a Certainty I am Cured.

Mr. James Treweman, butcher, 336 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely get around. He never used any medicine that did him so much good as Dr. Chase's Kidney-Liver Pills, and knows for a certainty that this treatment cured him. One pill a dose; 25c a box.

If you want a real bargain in books, call at Sailsbury's

FIFTY-SEVENTH REGIMENT.

A Correspondent Criticises Past Management.

Some Suggestions he Makes—Discusses the Matter of the Regimental Fund.

To the Editor of the Examiner.

Dear Sir, — I notice in your issue of a recent date that at a meeting of the officers of the 57th Regiment the paymaster made a statement to the effect that the regiment was in a "flourishing condition financially." I also notice that at the same meeting the usual inducement was offered to those eligible to become recruits, namely, a "committee" has again been appointed to arrange for a trip during the coming summer, etc.

Now that the Battalion has a change in commanding officer, I deem the present time opportune to respectfully suggest to him the advisability of devising some means of bringing the Regiment to a better state of efficiency than it has heretofore obtained. As an observer of the methods practised in the past by the powers that be, I am bound to come to the conclusion that in their efforts to place the Regiment in a "flourishing condition financially," they have lost sight of efficiency—the one great essential in military organization.

Now, sir, in the first place a soldier in the Canadian militia is not expected to be patriotic enough to give his services to his country absolutely gratis, but is allowed by the Government a certain stated amount of pay, by no means a large amount, in lieu therefor, which is determined according to his rank. But is it to be wondered at that the finances of the local corps is in such a "flourishing condition," when it is known that the money which the money which the Government intends should go to pay the soldier for the time he devotes annually to training himself so as to be the better prepared to defend his country from foreign invaders, or domestic traitors, should occasion require, is withheld from him by his officers, and placed in what is called a "Battalion Fund," which fund is controlled exclusively by the officers. Out of this "fund," the Sergeant-Major a man who was imported to Peterborough three years ago to act as instructor, and promoted over the head of capable non-commissioned officers, who had given years of service to the up-building of the Regiment, receives a large salary. This official's services could very well be dispensed with, as they were during the drill season last year, when he was appointed by the late commanding officer of the Regiment to represent Peterborough on the Coronation contingent, although he had hardly been a citizen of the town for three years. If the officers are incompetent to instruct the men in their drill, a capable non-commissioned officer can be procured from the Military School in Toronto without any cost to the men who compose the Regiment, for a few weeks during the annual drill season, and let the position of Sergt.-Major be a promotion in the Regiment which is done in every other corps that I have any knowledge of. Then there is the salary of the band master, amounting to some $500, coming out of this fund, also the fee to Mr. Curtis for the use of the rifle range, about $80 expenses for postage and stationery and several other items of expenditure among which is $10 to each of the "pot hunters" who yearly attend the matches of the Dominion Rifle Association at Ottawa. Now, I ask in all seriousness, why should the soldier's pay be appropriated and expended in this way? Considering the manner in which the men have been gulled and treated in the past is it not a wonder that the Battalion is now existing?

It may be said that elaborate prizes taken from this "Fund" are offered for rifle shooting, but therein lies another grievance. About six or eight men, who take absolutely no interest in the Regiment, who hardly ever turn out to a single parade, and who are only in the institution for what they can get out of it, invariably manage to capture all the prizes that are worth capturing. But still no effort is made to remedy such a state of affairs.

The inevitable result of all this is that a young man seldom remains in the Regiment for a longer period than one year. The Non-Commissioned Officers devote a large amount of time and go to a great deal of trouble in teaching the young recruit his drill and the use of the rifle, only to loose him from the strength of his company the following year, when his place must be taken by another recruit. In this way the Regiment is constantly and perpetually composed of inexperienced and incompetent men. I therefore respectfully submit that something should be done to remedy such a state of affairs. And I do not wish to be understood as bringing this matter to the attention of the public through any spirit of reproach or faultfinding, but solely with the object of endeavouring to have the local unit of our auxiliary forces, on whom the country depends in time of trouble, rendered more capable and more efficient.

Thanking you in advance for your valuable space, I beg to subscribe myself,

"FIAT LUX."

Peterborough, Feb. 23rd, 1903.

A. FITZGERALD.

CHURCH AND WORKINGMEN.

Subject of Evangelist Turk's Address.

Meeting For Men Held in the Opera House Yesterday Afternoon—a Large Attendance.

A special meeting for men only was held by Evangelists Kerby & Turk yesterday afternoon in the Opera House, an orchestra being present, and several prominent divines being on the platform.

The seating capacity both on the floor and in the gallery of the house was taxed to its utmost, with men, whilst many were standing in the corridors. The service was opened by the singing of hymns in which a greater majority of the gathering took an active part.

Mr. Kerby gave a few words of advice and consolation to all present, both young and old, after which he, together with his brother evangelist, sang a duet entitled "Let Canada be Free."

Evangelist Turk gave a most interesting and stirring address on the relation between the church and the workingman, in the course of which he remarked that men are artificially grouped into separate classes, but in reality the workingmen in the sewers, at the forges or in the offices are all on the same level; they are all brothers. Some men, remarked the eloquent speaker, do not attend church because they have not an opportunity, others on account of weariness, others because they have become careless as the result of drift, and still others would prefer to go to some den to hear a rude jest than to go into the house of God where their wrong doing will be made clear before their eyes.

One of the great relations between the church and the workingman, is the nearness of the house of God to the man. The church is gradually attracting the working communities and must not let them out of her reach.

Mr. Turk then dwelt on the evils of the liquor traffic of to-day, which he termed as the greatest evil of the land, and which, in spite of earnest endeavour to suppression, continued to augment its number of victims.

In conclusion Evangelist Turk said that the Lord Jesus Christ was always ready to help the workingman, be he in the sewer, at the forge or in the office.

After a second duet, given by these good men, whose visit quickly and sadly draws to a close, the service was closed by again singing some of the most popular hymns.

LEO, THE GENEROUS.

One Thousand Partook of His Bounty During Jubilee Celebration.

Rome, Feb. 23.—Saturday was a great day for the poor of Rome, a thousand of them being the guests of the Pope at dinner in honor of the Pontiff's jubilee. The guests were waited upon by nuns and the Swiss Guards in brilliant uniforms kept order, their band playing during the repast. The dinner provided included wine and dessert. Great enthusiasm was displayed, and there were repeated cries of "Long live Pope Leo." The Pope desired personally to administer his blessing on the gathering, but although he was well the doctors vetoed his desire in order that he might husband his strength for the coming functions.

Boer Wants Land.

Ottawa, Feb. 23.—W. J. Jough, a Boer commandant, is here, negotiating with the Government for land in the Northwest for a settlement. It is said that he is the agent of 1,000 Boers now in New York who have $10,000 each in cash.

To Purchase Toll Roads.

Ottawa, Feb. 23.—Carleton County Council at a special session on Saturday decided to submit a bylaw to raise $270,000 for good roads, and the purchase of the toll roads, of which there is an extensive mileage in the county.

Twelve Persons Perished.

London, Feb. 23.—According to a special despatch from Moscow, the village of Poultovitsi has been destroyed by fire and 12 persons perished.

A BAD CASE
OF
KIDNEY TROUBLE
CURED BY
DOAN'S KIDNEY PILLS.

Kidney Troubles, no matter of what kind or what stage of the disease, can be quickly and permanently cured by the use of these wonderful pills. Mr. Joseph Leland, Alma, N.W.T., recommends them to all kidney trouble sufferers, when he says:—I was troubled with dull headaches, had frightful dreams, terrible pains in my legs and a frequent desire to urinate. Noticing **DOAN'S KIDNEY PILLS** recommended for just such annoyances as mine, it occurred to me to give them a trial, so I procured a box of them, and was very much surprised at the effectual cure they made. I take a great deal of pleasure in recommending them to all kidney trouble sufferers.

Price 50c. per box, or 3 for $1.25; all dealers or The Doan Kidney Pill Co., Toronto, Ont.

KLEPTOMANIAC BIRDS.

The Ravens of India and the Satin Birds of Australia.

The magpie has long been notorious for stealing things, but he is a saint compared with some Asiatic birds. The ravens which abound in Indian cities steal by wholesale and take anything they can lay their beaks on, whether they can make use of it or not. Jerdon, an English writer, says that in some places every house is surrounded by a flock of these winged robbers on the lookout for booty. They fly in at the windows, rummage workbaskets and carry off gloves and handkerchiefs. They even open tied packages and examine their contents. According to another observer, they have been known to extract nails. A pleasure party assembled in the garden were startled by seeing a bloody knife fall in their midst. A raven had stolen it from the kitchen and dropped it among the merrymakers.

Australian Satin Birds.

The Australian satin birds are more discriminating and take only objects suitable for the establishment of their nests. Among their specialties ate gaudy parrot feathers shells, bright pebbles and whitened bones. The feathers are for the interior of the nest, while the other objects are arranged about its entrance. The natives are so well acquainted with this habit that when an amulet or a pipe is missed it is sought and generally found in the nest of the satin bird.

Another notable collector is the arbor bird, which inhabits parts of the interior of Australia which the foot of man seldom treads. This bird builds long arbors of twigs thatched with grass and secured them against being blown away by weighting them with stones built in at regular intervals both in the walls and in the roof. These dwellings are decorated with shells and white bones, a heap of which is also deposited at each end. These arbors are shelters and for resting only, not breeding nests, and the shells and bones (must be for ornament) can serve an aesthetic purpose only. The birds are grain feeders, and their shelters are often remote from ponds or streams, so that the collection of shells entails a good deal of labor.

Of Course.

Novice (wanting to know)—Pray tell me what an impressionist is. Why is his grass red and his sky green?

Philistine—Well, ordinary artists try to paint what they see. An impressionist paints what he doesn't see, but what he thinks one ought to see.—San Francisco Town Talk.

Evidence.

"They say that a man can't tell a lie with his hands open."

"Yes, and I have evidence of it."

"What?"

"You clinched your fists when you called me a scoundrel the other day."

PALACE OF PEACE.

To Be Erected by Andrew Carnegie at The Hague.

The Hague, Feb. 20.—It is reported that negotiations have been opened between a financial syndicate of The Hague and Andrew Carnegie for the sale of an estate here, which formerly belonged to the grand ducal family of Saxe-Weimar, upon which Mr. Carnegie proposes to erect a "palace of peace."

It is upon the smoothest ice we slip; the roughest path is the safest.

Itching Piles
Most Annoying.

Cause Uneasiness and Often Keen Suffering—There is one Positive Cure—

Dr. Chase's Ointment.

It is a question whether there is another preparation for sale in this country that is so heartily endorsed by persons who have used it as Dr. Chase's Ointment.

Professional and business men and women, farmers, mechanics, railroad men, miners, labourers, all classes of men and women, use and endorse Dr. Chase's Ointment as the only actual cure for piles.

W. E. Talbot, of Talbot Bros., tobacco merchants, 852 George street, Peterborough, Ont., states:—"It is from a desire to help other sufferers that I offer a statement of my experience with Dr. Chase's Ointment as a cure for itching piles. I was for a long time troubled with this unpleasant and torturing disease, and though I tried very many treatments, remained uncured until I came across Dr. Chase's Ointment. It was highly recommended to me, and I find that every word of praise that is given to it is true. I can truthfully say that I am completely cured, and knowing the misery that this ailment produces, I am anxious for others to know of the surprising virtues of Dr. Chase's Ointment."

Mr. John Harvey, Mayor of Arnprior, Ont., states:—"Only persons who have experienced the torture of itching piles can form any idea of what I suffered from this horrible disease. I was advised to try Dr. Chase's Ointment, and can positively say that it has completely cured me. I had tried very many so-called cures for piles, and can truthfully say that there is no remedy on the face of the earth like Dr. Chase's Ointment for this purpose. I would not be without it for any amount of money, and can heartily recommend it to all sufferers, as it is the best thing I ever used."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 12

HIS CRACK JOB

By Jeanette Eaton

Copyright, 1902, by the S. S. McClure Company

Occasionally the gov'ner did society He seldom went into any but the best, because there he found the "smart" young women who emphasized their social standing by minute accounts of their mistresses' diamonds. The gov'ner had often materially increased his bank account by those financial pointers.

One Tuesday night he dropped into Wiley's. It was sometimes a little mixed there, and he met almost immediately a flirtatious young woman who, he found, was general housemaid to a young couple in the suburbs. She prattled interesting things while they were sitting out a dance.

"I am dead tired tonight," she confided. "We had a 1 o'clock luncheon today—twenty-four covers laid, an' the tables one glisten of solid silver an' cut glass. We are 'it' when it comes to solid silver."

"You must have the coin," the gov'ner remarked casually.

"Oh, not special. It's weddin' presents. They've both got rich folks, an' they give them just scads an' scads of solid silver."

The gov'ner regarded her with beaming interest.

"A ganzy battleax like you ought'n't to wear themselves out with work. What's your push out there?" he inquired tenderly.

Miss Nellie tossed her head.

"Just me an' him an' her an' the baby, an' he gone half the time."

She unconsciously lowered her voice.

"He's gone now, an' she thinks I'm there in bed. I am goin' to Mulhall's party tomorrow night too."

"Suppose the crooks do the house, an' her alone?" he suggested.

Miss Nellie squealed.

"Mercy me! You don't think I'd fight 'em if I was there, do you? Oh, she's got a telephone right in her room. She could get help easy enough."

The gov'ner smiled. It was a leisurely matter to finish a job and get comfortably away after the telephone bell had called for help. It was surprising no one had got on to a dead open and shut job like that.

Three o'clock the next morning found him padding gently up the still half country street. Just ahead of him were the dim outlines of a large lawn heavily shaded with trees.

He vaulted the fence and strolled leisurely up through the trees. "Not even a bloomin' dog!" he murmured pityingly.

Ten minutes later he walked quietly into the house and found his way into the hall. He generally found the hall first and radiated from there.

He had hardly stepped in when a door on the upper floor opened shurply.

"Nellie! Nellie!" called a frightened voice. "There is something dreadful the matter with the baby, and the telephone won't work! Nellie!"

The voice rose to a shriek of terror. There was a rush of muffled footsteps through the upper hall.

The gov'ner listened sympathetically.

"Nellie is at Mulhall's an' good until 5 o'clock," he murmured.

There was an instant's silence; then the voice broke out afresh in deeper terror:

"Oh, she's dying—she's dying!"

The gov'ner scratched his head distractedly. He hated to see folks in trouble.

"Baby! Baby!" The voice was heart-breaking. "Isn't there anybody to help me?"

An instant later he stood at the door of the lighted chamber.

"Can I do anything for you, ma'am?" he inquired politely. "I heard you as I was passin.'"

A woman knelt by the bed. She was very childlike looking. She swept the hair back from her face and regarded him with terror stricken eyes.

A baby lay on the bed. Little rings of dark hair curled damply on its pallid forehead. Its little face was ghastly blue and pinched. Suddenly its head drew back more violently and its limbs commenced to twitch in long, convulsive shudders.

She clutched the gov'ner's arm and shook it fiercely.

"Can't you do anything?" she demanded.

"I don't know," he said; then his face cleared. Heaven knows from what recess of his life he drew the information, but he found it.

"I know," he said briskly. "It's hot water. Go get some hot water in somethin' big enough to put the kid in."

She disappeared like an arrow loosed from a bow.

The gov'ner slipped his long, dexterous fingers soothingly along the clammy little body.

There was a sudden splash in the hall, and the girl mother came breathlessly in with a small tin bathtub.

"Get its duds off!" he said authoritatively. "This water ain't hot enough but it'll have to pass now."

The poor little mother's fingers were trembling, so they were nearly useless. She turned great, imploring eyes on him.

"Please put her in!" she half whispered. "I am afraid to lift her."

"Bless!" murmured the gov'ner; then he stooped and lifted the tiny convulsed body into the water. He felt it relax slightly in his hands as the water submerged it.

"Throw a blanket or something over to keep in the heat!" he commanded.

"Then skin out, can't you, an' get some hotter water? Get a move on you too."

She had already gone.

He knelt by the chair, regarding the small face he was supporting above the blanket anxiously. It was less pinched now and lay limply on his hand, small and pathetic.

"Such a little kid," he said softly—"such a bloomin' little kid!"

The long lashes slowly lifted, and the dark eyes gazed into his. Slowly the purpled lids closed again, and a tremor shook its body.

He swore softly. "Ain't she ever comin'? This layout will freeze the kid in a blasted minute!"

He gathered the baby up in the blanket and commenced to pace the floor, watching the tiny face with strained attention.

The blue shadows deepened under its eyes; the tiny waxen nose pinched closer and closer; the small mouth seemed settling into a terrible calm.

He swore as he walked. In that way he managed in a measure to relieve his feelings.

"Is she dead?" asked a choked, breathless voice at the door.

The girl mother's face was ghostly, but the only thing he saw was the steaming kettle in her hand.

"Naw," he snarled; but he was not so sure.

He lowered the child carefully into the water.

"Now, just keep pouring—a little, a little, to keep it warmin' up."

Ten, fifteen, minutes passed.

A faint white glimmer of life commenced to tremble across the baby's face. The blue shadows slowly faded, and the wax white nostrils filled.

The gov'ner heaved a mighty sigh.

"She's comin' through," he announced triumphantly. "Now give me a dry blanket."

He wrapped her warmly in it and laid her, weary and sleepy, but palely pink, on the bed.

Then he shook himself like a man coming out of a trance. He suddenly remembered his burglar's kit in the lower hall. Dawn was breaking, too, and it might not be so easy getting back with it to town.

The girl mother looked at him with moist, grateful eyes.

"You are so good," she said, with quivering voice. "Baby would have died if you hadn't"—

She hesitated. Some way she could not quite place him. He did not look like a workingman. He was not a gentleman. She dimly remembered that he had sworn at her dreadfully.

She went to the dresser and picked up a little steel meshed purse. Inside lay a ten dollar bill and a dollar.

"Would you mind," she said desperately, "if I gave you a dollar? I wish I could give you more, but it is all the money I have, and Fred won't be back until the last of the week."

Her small, tremulous fingers clung to his an instant, and a tear splashed down on them.

"I can't thank you. I can't thank you," she sobbed.

The gov'ner looked at her helplessly, at the $10 in the purse and the little heap of diamonds over on the dresser.

Then he went down stairs, the dollar in his hand.

One of the most dangerous and repulsive forms of Kidney Disease is

DROPSY

for which Dodd's Kidney Pills are the only certain cure. In Dropsy the Kidneys are actually *dammed up*, and the water, which should be expelled in the form of urine, flows back and lodges in the cells of the flesh and puffs out the skin. Remove the filth which plugs up the drain. Restore the Kidneys to health. There is only one Kidney Medicine

DODD'S KIDNEY PILLS

DR. A. W. CHASE'S CATARRH CURE ... 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

THE FIRSTBORN.

Why is it that the firstborn child is so often the healthiest of a family of children? The reason seems to suggest itself. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, for her child.

Expectant mothers who use Doctor Pierce's Favorite Prescription find that it keeps them in vigorous health. They eat well, sleep well and are not nervous. When baby comes its advent is practically painless, and the mother is made happy by the birth of a healthy child. If you would be a healthy mother of healthy children use "Favorite Prescription."

"I will be very glad to say a few words for Dr. Pierce's Favorite Prescription," writes Mrs. P. B. Douglas, of Missouriville, Bronne Co., Quebec. "During the first four months, when I looked forward to becoming a mother, I suffered very much from nausea and vomiting, and I felt so terribly sick I could scarcely eat or drink anything. I hated all kinds of food. At this time I wrote to Dr. Pierce, and he told me to get his 'Favorite Prescription' and a bottle of 'Golden Medical Discovery.' I got a bottle of each, and when I had taken them a few days, I felt much better, and when I had taken hardly three parts of each bottle I felt well and could eat as well as any one, and could do my work without any trouble (I could not do anything before). I feel very thankful to Dr. Pierce for his medicine, and I tell all who tell me they are sick, to get these medicines, or write to Dr. Pierce."

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, *free*. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

CUTTIN A SPLUDGE.

Did you ever in your boyhood try what folks call "showin' off"
(If you quit it with your childhood, you was doin' well enough.)
But in thinkin' back a minute can you recollect a case
When your caper didn't end by puttin' shame into your face?
Didn't old Humiliation come an' give your ribs a nudge?
For we always make a fizzle when we try to cut a spludge.

I have seen folks all my lifetime git along in bully shape
Till they seen some other people that they thought they orto ape;
Then they started for th' breakers under ev'ry inch of sail,
An' they always got their bumpin'—never knowed th' rule to fail.
Then as like as not they'd sour, claimin' some one has a grudge.
People always make a fizzle when they try to cut a spludge.

Them as gits there ain't th' critters 'at goes straisin' round at things;
Swallers makes a heap less flutterin' than chickens with their wings.
Ain't no better way than stickin' to your knittin' right along;
If you can't beat t'others talkin', try to drown 'em with a song.
An' if plain hard work's your specialty just buckle down an' drudge.
But unless you're fond of fizzlin' never try to cut a spludge.

—S. W. Gillilan in Baltimore American.

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal. 25

The Drawing Room.

—New York Times.

Extravagance.

The man was very angry, and now that his tongue was loosed he upbraided his wife bitterly.

"You are extravagant!" he cried. "Only yesterday I paid a bill of $10,000 for the persons you killed with your automobile last month!"

"And everybody is sneering at me because I run over such cheap people!" wailed the woman, rocking to and fro miserably.

This touched Ponsonby's pride. He bit his lip. Should he confess that he was wrong and ask to be forgiven?

After all, it was only what he had always done before.—New York Life

LATEST IN SPORTING CIRCLES

The T. A. S. vs. Norwood Game This Evening.

Ladies of Hamilton Cannot Visit Peterborough—Jackson Ready for Dusty —Other News.

It is stated that Manager Baker, of the Oshawa lacrosse club, is on a little tour at the present time. It is not to be inferred that Manager Baker is out for his health, for as a matter of fact he is out on business. If there can be any credence placed in rumours afloat, the Oshawa magnate is making a clean sweep of the Midland District, and in the course of a few weeks every lacrosse player of note who has a desire to be recuperated financially for his services, will be located in Oshawa. It is stated on good authority that several of Peterborough's fastest stick handlers have been approached, and may take up residence in the manufacturing town to the south in the course of a few weeks.

HOCKEY.

TO-NIGHT'S GAME.

One of the most exciting games of the season will take place in the Brock street rink to-night. This game will be between Norwood and T.A.S. in the finals of the Trent Valley League. This is the first time that the T.A.S. have opposed the Norwood seven, and some pessimists are dubious as to the result of the game, which every Peterborough citizen hopes will be in favour of the home team. Mr. Ernie Wasson, who has made such a name for himself in handling the bell, will officiate in that respect to the great satisfaction of all concerned. In view of these enticing attractions a large number of spectators is expected to turn out to witness the event.

GAME CALLED OFF.

The match which was to have taken place here to-morrow night between the Hamilton ladies and the local ladies hockey club, has been called off, owing to the fact that the Hamilton young ladies have found it impossible to induce all of their team to make the trip.

PORT HOPE VS. PETERBOROUGH.

Bills are out announcing a series of two matches between Peterborough and Port Hope for a $75 trophy. The first of these games will take place in the Brock street rink on Friday evening, and should attract a large crowd.

AN ENTHUSIAST.

One of the most enthusiastic supporters the T.A.S. hockey team has is Mr. Ab. Doris. He has been present at every match the cold water boys have played this season, and in view of the fact that he is in town to-day, although supposed to be employed 500 miles back north, the rumour has it that he came down for the express purpose of witnessing the Norwood-T.A.S. game this evening.

SPLENDID SUGGESTION.

The Sporting Editor of the Toronto Star in dealing with the matter of the goal keeper, the goal posts and the goal umpire says:—

"Again the unfortunate goal umpire!

"Last night at the O.H.A. game at the Mutual street rink objection was raised by the Marlboros to the decision of Umpire Nelson Patterson, of Belleville, who was stationed at the west end of the rink, in allowing Belleville the sixth goal, a long lift from the cover-point position.

"The goal keeper stopped the puck with his skates and cleared. The umpire's hand went up, and, despite the Marlboros' protests, a goal was allowed. Mr. Patterson stated that in his judgement the puck had passed between the goal posts, as Goalkeeper Gorrie's skates were behind the upright. The fact that Mr. Patterson was a Belleville man was used in evidence against him, and the referee, upon the request of the Marlboros, substituted another umpire.

"This incident illustrates a point The Star has emphasized on previous occasions, and that is the necessity of having a clear coloured line in the ice from post to post, so as to assist the umpire in determining whether or not a goal has been scored. Some goal-keepers we have seen have a habit of standing inside the posts, the better to brace themselves, so that when they do get a chance to make a stop the puck has in reality passed between the posts and a goal has been scored. The coloured line would also help the goal-keeper a lot, as it would show him at a glance where not to play the puck.

"The Barrie Gazettee reports an occurrence similar to last night's in this week's game between Barrie and Penetang Juniors. It says:—

"'The second goal given to Penetang struck the goal-keeper's foot and bounded out. Umpire Harvey Corbeau of Orillia put up his hand, and a perfect roar of protest followed. The crowd rushed on the ice, and it was several minutes before play resumed with a new umpire behind the net. In a minute, time expired without further score.'"

* * * *

Only 50 reserved seat tickets will be sold for the game this evening. They may be obtained at O'Brien's cigar store, Potvin's restaurant, the T.A.S. rooms or at the rink.

* * * *

The Port Hope Guide in referring to a ladies' hockey match in that town says:—"Miss Greta Symonds at centre, and Miss Eva Brown at cover point also played well and made several good attempts at combination work."

CURLING.

At the recent bonspiel held here, Orillia sent 5 rinks of curlers to take part in that notable event. In view of this the local Association have made out five rinks which will go to Orillia on the 8.20 train to-morrow morning and return on the 9 o'clock train that night. The following are the select few, who it is hoped will meet with as complete success as did the two rinks who visited Lakefield last week:

W J Thompson	R Waddell
J Crane	D Hall
G Matthews	R J Frost
W G Morrow, sk	R Neill, sk
J Bogue	M Tooley
T Brightman	H Snowden
D Davidson	A Blade
G Whiten, sk	T Rutherford, sk
H LeBrun	
V McGill	
C N Brown	
J S Knapman, sk.	

The honoured few will travel in a special car, but it is advisable that they all insure their lives before going.

RACING.

To the Sporting Editor of the Examiner:

Dear Sir,—I was very much surprised to see by Saturday's paper that Mr. Oliver Dusty knew so little about the rules which govern skating races as to doubt the decision of the judges. The spectators in general, too, claimed by their shouts of foul, that he fouled me. As to his challenge to skate me for fun, money or marbles, I will not skate for any one of the three. If however he can make arrangements with the rink management, and some of his backers, to put up a suitable prize, I will skate him a one mile race in heats, best two in three, any time, and as often, as he can make said arrangements. Thanking you, Mr. Editor, for your valuable space,

I am, yours truly,

WALTER E. JACKSON.

Peterborough, Feb. 23rd.

WRESTLING.

Mr. Jack McDonough is anxious to hear from Gauthier in reference to the challenge he issued for another wrestling bout.

LACROSSE.

GETTING READY.

All the members of the T.A.S. who are interested in athletic sports are asked to attend a meeting in the T.A.S. rooms to-morrow night at 8 o'clock, when the lacrosse outlook for the season will be discussed.

BASKETBALL.

The Intermediate Basket Ball League will draw to a close at the Y.M.C.A. on Saturday night next, when the two teams who have come through without a defeat, the Arrows and the Beavers, will strive for the mastery. Just here it might be said that these teams have met before, the Arrows never having won by more than one goal. Besides the basketball match, there will be an athletic programme consisting of gymnastics, tumbling, wrestling, etc., which should be of unusual interest. The evening programme will be run off in the usual first class style, and will be entirely informal. At the conclusion of the game the winning team will be presented with the trophy presented by the General Secretary. The public is cordially invited to be present.

Y.M.C.A. GYMNASIUM.

The senior gymnasium class is asked to attend in full numbers tomorrow night in preparation for the apparatus work and wand drills for the senior exhibition.

FENCING.

The members of the Fencing Club are asked to wear a heavy glove at the class next Saturday afternoon at the Y.M.C.A. gymn., as there will be regular attack and defence work from the start. All members should be present without fail.

KINGSTON RACES

Horsemen who have tried the kite-shaped track on the ice in the harbour say it is the finest of the kind they have ever gone over, says the Kingston Whig. It is as near perfection in shape and conveniences as could be reached.

A WOMAN OF THE DAY.

How E. R. V. Palmer Took the Man's Name, John Strange Winter.

M. A. P. says:—Henrietta Eliza Vaughan Palmer (John Strange Winter) was born at York in 1856, her father, formerly an officer in the Royal Artillery, being rector of St. Margaret's. According to herself, she was a "bad child," but probably she only suffered from a superabundance of animal spirits. She began writing at an early age, and was only eighteen when she had a story accepted by a York newspaper. True, it was never paid for, but the young writer did not mind that. Then she contributed to The Family Herald and London Society under the pseudonym of "Violet Whyte." John Strange Winter is the name of one of the characters in "Cavalry Life," her first book.

John Strange Winter.

When her publishers were bringing it out they insisted on her adopting a man's name, shrewdly arguing that a military book known to be written by a woman would stand little chance of success, and so "Violet Whyte" disappeared and "John Strange Winter" took her place. The criticisms on her books make amusing reading, insisting as they do on the author's "manliness." Even Ruskin was deceived, and a little disappointed when he discovered the truth. This is what he said in the course of a charming letter to her: "I had not the least thought of your being a woman (I ought to have had, for really women do everything now that's best, and they know more about soldiers than soldiers know of themselves.) But it had never come into my head, and I'm a little sorry that the good soldier I had fancied is lost to me, for I have many delightful women friends, but no cavalry officers . . . ." Mrs. Stannard treasures a now withered bouquet which Ruskin once sent to her.

Your Opportunity to get Well.

You are offered Dr. Chase's Nerve Food as the most perfect restorative, blood creator and system builder that was ever prepared. The name of the discoverer, Dr. A. W. Chase, is enough to guarantee this, and besides you have the testimony of scores and hundreds of cured cases in every part of Canada and the United States. You can use it, knowing that it is bound to do you good.

REACHING THE FINALS.

The Standing of the Clubs in the O. H. A.

Owen Sound Reaches the Finals of the Intermediate Series Without Winning a Match.

Toronto Star.

To-night's game at the Mutual street rink between the Wellingtons and Cornwall, will practically decide the senior championship of the O.H.A. The Iron Dukes hope to run up a score that Cornwall will have no chance to equal, even by victory on their own ice, which is a remote probability. The Wellingtons are in splendid condition, and will likely show Stanley Cup form. The subjoined table will show how the Wellingtons won the championship for the past three years. The first named team in each case is the winner, the second the loser:

'91, Ottawa, Queen's University, 4 to 1.
'92, Ottawa, Osgoode Hall, 10 to 4.
'93, Ottawa, Queen's University, 6 to 4.
'94, Osgoode Hall, Queen's University, 3 to 2.
'95, Queen's University, Trinity University, 17 to 3.
'96, Queen's University, Stratford, 12 to 3.
'97, Queen's University, Toronto University, 12 to 7.
'98, Osgoode Hall, Queen's University, 7 to 3.
'99, Queen's University, Toronto University, 19 to 11.
'00, Wellingtons, Queen's University, 6 to 4.
'01, Wellingtons, Queen's University, 7 to 12.
'02, Wellingtons, Cornwall, 12 to 6.

The huge intermediate list has been materially reduced, the following clubs being still in the race:

Paris.
Barrie or Owen Sound.
Marlboros or Belleville.

Owen Sound hasn't a chance on earth to win the round from Barrie. They enjoy the unique distinction of playing in the finals without winning a game. They drew a bye in the first round, played a tie with Orangeville, and then lost to that club, subsequently winning on a protest. Barrie ran up a big score at Owen Sound and will make it larger at Barrie on Monday night. The Belleville team will have great difficulty in reducing the Marlboros lead of 5 goals at Belleville on Monday, but they are going to make a great effort to do so. Paris qualified for the finals by defeating Galt, but it was a narrow squeeze, the Parisians only winning the round by one goal. The honour list:

1890, Frontenacs from Nationals, 5 to 2.
1897, Berlin from Frontenac, 3 to 0.
1898, Listowel from Waterloo, 10 to 4.
1900, London from Belleville, 3 to 1.
1901, St. George's from Port Hope, 10 to 8.
1902, Peterborough from Galt, 7 to 6.

The junior series has been narrowed down to these three clubs, one of whom will be found out of the race on Tuesday next.

Frontenac-Beechgroves, of Kingston.
Marlboros or Penetang.

The Kingston team will go into the finals with the winners of the other round, which will likely be Marlboros, as the Penetang team only beat the Toronto team one goal on Penetang ice. The return game will be played in Toronto on Tuesday night at the Mutual street rink.

The winner of the series:

1897, Wellingtons from Guelph Victorial, 10 to 8.
1898, U.C.C. from Stratford juniors, 8 to 2.
1899, St. George's, from U.C.C., 7 to 2.
1900, Stratford Juniors from Peterborough, 12 to 9.
1901, Peterborough from Stratford, 12 to 7.
1902, U.C.C. from Stratford, 11 to 10

OTONABEE COUNCIL MEETING

The Matter of Improvement of the Norwood Road.

Mr. Wm. Nelson was Appointed Arbitrator in School Matter—Correspondence and Accounts.

Thos. Fitzgerald was present requesting that a ditch be constructed along the road opposite lot 29, con. 9, to remove the water of his land.—Councillors Porter and Moore were appointed to examine and report to Council.

Dr. Harrison was appointed Medical Health Officer.

A petition was received from five ratepayers of Otonabee, asking to have an arbitrator appointed to look after the interests of the ratepayers of S. S. No. 15, in union with S. S. No. 10, Douro. As petitions have been presented to the councils of Douro and Dummer to form a union School Section out of portions of these municipalities, a number of lots to be taken out of No. 10, Douro, Wm. Nelson was appointed arbitrator.

A number of years ago Jas. Hayes was granted by the council the use of the concession line west of the north half of lot 25 con. 11, until required by the council. At Mr. Hayes request, Jas. Duffus was asked to give up possession of half of the road which he occupies. Jas. Duffis was present and stated that he and Hayes senior had by mutual consent agreed to each occupy half of the road allowance, and if Mr. Hayes was given all the road it would shut him out of the road to the north. The council will take no further action to compel Mr. Duffus to give up possession.

John Lang, S. Armstrong, and Wm. Brealey were present requesting that the council take steps to procure Otonabee's portion of the Ontario Government's million dollar grant for roads, and to request Mr. Campbell to visit the township, look over the roads, and address the people on the question. The council on motion decided to defer action for further consideration and until after the next meeting of the Legislature to see what action it would take in the matter.

A memorial was received from the Trent Canal Association to urge the Government to speedily complete the Trent Valley Canal. The reeve and Clerk signed it on behalf of the council.

A petition was received signed by a number of ratepayers of Otonabee, asking that Mrs. McDermott be paid for charity $5 per month, instead of $3.50, which she is now receiving. No action taken.

Councillor Fife was granted $50 to clay the first concession line at Fitzgerald's, omitted to be passed in 1902.

Application was made by J. Darling for the purchase of wood on the 6th line opposite lot 19. The council refused to sell it as it is not injuring the road.

Andrew Nelson, for pine trees on 3rd line, and John Harvie for the same on 1st line. Councillor Carey was appointed to see if the trees were injuring the road, if not, the council is opposed to selling any trees, as by doing so greatly detracts from the beauty of the country—they afford pleasant shade in summer and shelter in winter; helps to retain moisture.

The Clerk was instructed to ask for tenders for about 4,000 feet of 3-inch cedar plank for culverts.

The council discussed the advisability of using cement culverts instead of wood.

The following accounts were passed: Jas. F. Crowley, cedar, 40c.; W. B. Stewart, cedar, $3.78; Examiner Printing Company, $85.00; Municipal World, $1.00; R. B. McIntyre, care of hall, $3.00; J. M. Drummond, registrations, $22.00.

Council adjourned till March 16th.

THINGS ILLEGAL.

Acts of a Curious Nature That Are Contrary to Established Laws—Interference With a Marriage.

Last year an officer in a Royal regiment was arrested for attempting to get married, in spite of the fact that he and his bride-elect were eligible for the married state. As it happened, however, his relatives were opposed to the match and had recourse to a regulation which, although still in vogue, is seldom exercised, and which gives the Sovereign and War Office power to interfere in the matrimonial affairs of any officer in a royal regiment. It is, therefore, a crime for an officer thus placed to enter the bonds of matrimony against the wishes of the powers that be and one punishable with dismissal from the army and six months' imprisonment, but whether the individual in question was faithful to his vows or not the writer is unaware.

A Kisser Imprisoned.

A few months ago a young Englishman was sentenced to a fortnight's imprisonment for kissing his fiance on the streets of Odessa. It is strictly illegal for lovers to osculate in public in South Russia, and it was only after considerable trouble on the part of the British Consul that the too amorous youth was liberated at the expiration of three days' captivity and even then his sentence was commuted to a fine.

If you are given to political speaking, it would be as well to be careful where you hold your meetings, for there is one spot where such orations are considered treason, however loyal you may be at heart. This is within the mile radius of Westminster palace during a Parliamentary session and anyone urging a Government petition in the area named can be arrested and thrown into prison, the reason being that members of the House might be biased in their legislation thereby.

No Solid Food for Baby.

If you take your family with you on a holiday to France you should be very careful how you feed the baby during your sojourn. Our neighbors have made it a punishable offence for anyone to give solid food to an infant under a year old unless it has been prescribed by a medical man, and hundreds of people are prosecuted for breaking this law every year, while it is equally illegal for nurses to feed their charges from bottles having a rubber tube attached.

You must be very cautious how you treat your neighbor in Jersey, for he can have you arrested on the slightest pretext and if he has a grudge against you can bring about such a calamity by simply giving a fictional account of your misconduct to the nearest lawyer. The latter will demand a fine and should you decline to pay it he will cause you to be thrown into prison to await trial. Then, even if you are acquitted on the ground that the charge is unfounded, you have absolutely no claim against your persecutor, though you may have suffered a couple of months' imprisonment for nothing.

A Telephone Danger.

Similarly in Germany you must not insult your neighbor through the telephone or he will legally claim damages for libel because your uncomplimentary remarks may have reached other ears to the detriment of his character.

In a famous Scotch town you can be fined one shilling for throwing orange peel in the streets, or if you happen to be in Chester and omit to raise your hat when a funeral is passing any policeman who witnesses your disrespect can arrest you, inasmuch as you are breaking a regulation of that ancient city. But an even more peculiar law forbids you to sell your body to a hospital for dissection after death. Some people do so, certainly, but they could be punished if discovered, because your body legally belongs to your relatives and to sell it makes you guilty of fraud.—London Tit-Bits.

R. J. G. SUTHERLAND

Practical Plumber, Gas and Steam Fitter

A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT.
January 19th to 23rd.

Sealskin advanced from	20%	to 40%
Persian Lamb advanced from	10%	to 20%
Astrachan Lamb	"	10% to 25%
Racoon Skins	"	20%
Skunk Skins	"	15%
Mink	"	15%
Black Cattle Skins	"	10% to 15%
Wombat Skins	"	15%
Wallaby Skins	"	15%
Australian Coon	"	25%
Otter Skins,	"	10%
Opposum Skins,	"	15%
Marten Skins,	"	12%

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

Throngs all week long, with a bumper of a Saturday—the steadiest, heaviest day of Dry Goods selling that we have experienced in Peterborough.

The crowds all week long, though expected, were, we confess, much greater than anticipated, and Saturday's ever-continuous jam filled this store from morning till night.

From Day to Day

new price attractions on new lines of goods will be placed on the Bargain Tables during this sacrifice sale.

These goods and their prices must interest every Woman and continue to draw the immense crowds that have each day filled this store.

TRUSTWORTHY DRY GOODS UNIFORMLY RIGHT PRICES.

MOB OF VOLUNTEERS

War Secretary Brodrick's Reply to Sharp Criticism.

NEW ARMY PLANS ASSAILED.

Unionists Join With Liberals in Attacking Mr. Brodrick's Scheme—In Reply the Secretary of State For War Said Regular Army Is Now Above Strength in Every Branch But Infantry.

London, Feb. 24.—Criticisms of the British War Office culminated yesterday afternoon in a vote of censure on War Secretary Brodrick, moved in the House of Commons in the shape of an amendment to the address in reply to the speech from the throne, regretting the fact that the "organization of the army was not suited to the needs of the Empire, and that no proportionate gain in strength or efficiency had resulted from the recent increase of military expenditure."

The motion ran identical with an amendment moved by Mr. Henry Campbell-Bannerman, the Liberal leader, when Mr. Brodrick introduced his army reform scheme in 1901. Yesterday, however, the vote of censure was presented by Mr. Beckett, an influential Conservative, who was backed up by a considerable section of revolting Unionists.

In introducing the motion, Mr. Beckett declared Mr. Brodrick had deplorably neglected the greatest opportunity ever given to a Minister, and had produced a scheme which was not sound in principle, but was ruinous in practice, and enormously costly.

Major Zely (Conservative), Sir Charles Dilke (Advanced Radical), and others having spoken in denunciation of the War Office, declaring the country was "tired of its policy of mess and muddle."

Mr. Brodrick replied. He said he welcomed a direct attack and defended heatedly, if not very convincingly, the scheme for which he was responsible. He ridiculed the suggestion that Great Britain could depend on her citizen army, which he described "as a mob of volunteers" and pleaded to be given time to carry out his army corps scheme as the result of which "the army for the first time in living memory is above its supposed full strength in every branch, except the infantry."

Canada to Be Consulted.

London, Feb. 24.—Austen Chamberlain, the Postmaster-General, in behalf of his father, the Colonial Secretary, informed the House of Commons yesterday that the British Alaskan Commissioners will be selected after consultation with the Dominion Government.

STRUCK BY A TRAIN.

Michael Nagle Meets Death on the Etobicoke Bridge.

Toronto, Feb. 24.—Michael Nag'e, a laborer living at 60 Water street, was struck and killed on the Etobicoke bridge, two and a half miles from Mimico, by the Buffalo Express about 9.30 a.m. yesterday. It appears that Nagle was walking to Port Credit in company with two other men when the accident occurred. The body was taken to Port Credit and brought back to Toronto yesterday afternoon.

Horrible Murder by a Tramp.

Elmira, N.Y., Feb. 24.—A horrible murder was committed at Trowbridge, Pa., a small town about 12 miles from here, yesterday morning. Mrs. Rachel Payne, wife of George Payne, a farmer, was murdered by a tramp farm hand named Edward Mason, who dragged her to the barn and killed her with a manure fork, pounding her so hard that he broke the handle of the instrument. He then ransacked the house and stole $100 in money. He made good his escape, and the woman was found in a dying condition at 4.30 o'clock yesterday afternoon. Officers from four counties are on the murderer's trail.

Washington's Birthday.

London, Feb. 24.—The dinner given last night by the American Society in honor of Washington's birthday was the occasion for a brilliant assemblage. The Duke of Devonshire and Lord Londonderry, members of the Cabinet, officially voiced the good-will of the British Government. Ambassador Choate, in replying, declared that any kind of war on any kind of subject between Great Britain and America would be not only a great calamity, but an unspeakable crime.

Mr. Hanbury on Canada.

London, Feb. 24.—Hon. Mr. Hanbury, speaking to farmers at Preston, on Saturday, said he doubted if Canadian cattle would come in even were the ports opened. Canadians preferred feeding cattle at home to sending them over here to finish. He added: "Canada used to send 60,000 steers yearly. Now Ireland sends an additional 120,000, so it is not true, as it is sometimes said, that we are short of store cattle."

Guam Raised six Inches.

Honolulu, Feb. 24.—Naval Governor Seaton Schroeder of the Island of Guam, who has arrived here, reports the occurrence of severe and prolonged series of earthquakes, which have raised the level of the islands some six inches. The shocks were accompanied by loud subterranean rumblings.

Romaine Trial Commenced.

Toronto, Feb. 24.—Isaac Romaine appeared before Magistrate Denison yesterday morning to answer to the charge of murdering Louis Goldsmith on the night of Feb. 6. Mrs. Mary Goldsmith, the widow; Mrs. Jackson, Dr. Powell and John Jackson gave evidence similar to that brought out at the inquest. Several other witnesses for the Crown will be called on Friday, to which date the case was adjourned. The defence will endeavor to prove that the shots were self-inflicted during the scuffling.

Wife Wanted Husband Dead.

Quebec, Feb. 24.—John Guard, the young Englishman, who shot Charles Shirley, hotelkeeper, six weeks ago, yesterday, in Quebec, pleaded guilty, and declared that he and Mrs. Shirley had agreed to kill the husband of the latter. The woman was at once placed under arrest.

Five Killed Three.

Guthrie, Okla., Feb. 24.—By the burning of the residence of William Adams, of Hillside, I.T., during Saturday night, three of his children were killed. Two were burned to death in the house, while the mother rescued two others, one of whom afterwards died as a result of burns.

Stabbed by a Negro.

Wathena, Kans., Feb. 24.—Paul Grinstaed, editor of The Times, has been probably fatally stabbed by Frank Warner, a drunken negro.

Daily Canadian Wireless Messages.

London, Feb. 24.—Marconi has announced that he has made an arrangement with a London daily for wireless messages for every day from Canada.

NUCLEUS OF A FLEET

Canadian Pacific Railway Buys Beaver Line Vessels.

AN OFFICIAL ANNOUNCMENT.

Price Paid For the Steamers Not Made Public, But It Is Understood to Be About $7,500,000—Deal May Affect Fast Atlantic Contr ct—Views of Montreal Shipping Men—C.P.R.'s Advantage.

London, Feb. 24.—The negotiations for the purchase by the Canadian Pacific Railroad Company of fourteen Beaver Line steamers from Elder-Dempster & Co. were satisfactorily concluded yesterday morning. The price paid is not yet disclosed, but it is said to be about $7,500,000. The deal is regarded here as having an important bearing on the proposed fast mail service, as it will probably eliminate the tender of Elder-Dempster & Co. therefor, and leave the Canadian Pacific Railroad Company in a better position to secure the contract.

Details of the Fleet.

Montreal, Feb. 24.—Sir Thomas Shaughnessy, president of the C. P. R., yesterday confirmed the news cabled from London of the company's purchase of fourteen steamers of the Elder-Dempster Company, to be operated as an Atlantic steamship service of the railway company. The steamers purchased are:

	Year built.	Gross tons.
Lake Manitoba, twin	1901	8552
Lake Michigan, twin	1902	7000
Montreal, twin	1900	6870
Lake Champlain, twin	1900	6546
Lake Erie, twin	1900	7550
Milwaukee, single	1897	7319
Mount Royal, single	1898	7044
Monterey, single	1898	5443
Montcalm, single	1897	5466
Montfort, twin	1899	5481
Monteagle, twin	1899	5467
Montrose, single	1897	5431
Montezuma, twin	1899	7845
Mount Temple, twin	1901	7656

Montreal Shipping Men's Views.

H. Montague Allan, when told of the announcement and of the comment thereon by the London paper, said: "I fail to see how the fast line contract is affected, so far as we are concerned, it does not change our position in the least. As for the Elder-Dempster Company's tender, it all depends upon the conditions of the sale. If the steamship company agreed to go out of the North American trade, it changes the position so far as that company is concerned."

John Torrance of the Dominion Line seemed more pessimistic than Mr. Allan. He said: "The company will be able to quote rates that no other company can touch. The ultimate result will be that the other companies will be forced out. It gives the Canadian Pacific the inside track all over all other steamship companies and railways. This new arrangement will make Montreal a railway port, instead of a general port as at present. I suppose another result will be that the Grand Trunk Railway Company will be forced to establish a line of its own as well. Otherwise it will be soon be at the mercy of its great competitor."

D. W. Campbell, Canadian manager of the Elder-Dempster Line, in reply to a question put to him, said: "Yes, the deal by which the C.P.R. has taken over the Liverpool, London and Bristol services, comprising fourteen vessels, from the Elder-Dempster Line, was closed here. The fact is," said Mr. Campbell, "the Canadian Pacific Railway had decided to have an Atlantic service, and as it was evident, that they would specially oppose the Elder-Dempster Line to the different ports operated by us, it is only natural to suppose that this action would greatly minimize business. As the price is a fair one, I could not do otherwise than advice my principals to accept." Do you think that the Canadian Pacific Railway will increase the business to the St. Lawrence, queried the reporter, "I do not know what Sir Thomas Shaughnessy's plans are, but it appears to me that the C.P.R. will be forced to increase the line to most of the important trade centres in Great Britain and the Continent."

Memorizing.

To economize time in memorizing a poem it should be read as a whole—that is, entirely through each time. Tests made in psychological laboratories show that to memorize one verse at a time takes one-fourth longer.

Tissue Paper.

The filmsy paper called tissue paper was originally made to place between tissue, cloth of gold or silver, to prevent its fraying or tarnishing when folded.

TUESDAY, FEBRUARY 24, 1903.

HEELEY FALLS MEETING

Interest Shown in the Sugar Beet Industry.

The Chair Was Occupied by Mr. Robert Rutherford—Mr. J. A. Sexsmith and Others Spoke.

On Monday evening last a very successful meeting was held at Stanwood School House near Heeley Falls in the interest of the sugar beet industry. The meeting was addressed by Mr. John A. Sexsmith and Dr. W. H. Jeffs. The interest shown in the new industry was manifested by the number of people who turned out to hear the discussion.

The chair was occupied by Mr. Robert Rutherford, County Commissioner for the United Counties of Northumberland and Durham.

Mr. Rutherford was pleased to be present. He was always in favour of any industry that would help the farmers along. He hoped the time would soon come when there would be a sugar factory at Heeley Falls. There was good water power, a first-class country and the right kind of farmers to grow sugar beets. In the event of the electric railway going through there would be connection with the C.P.R. at Havelock and G. T. R. at Campbellford and then it would be on the Trent Canal system.

Mr. J. A. Sexsmith spoke very enthusiastically in favour of the sugar beet industry. In fact he was always interested in any industry that would help the farmers. He was greatly in favour of fostering any industry that would bring the farmer and manufacturer in closer relation to each other. He knew of no industry that would do this like the sugar beet industry. We consumed last year about $7,000,000 worth of sugar, and from tests made by the Ontario Government there was no reason why the farmers should not grow the beets to supply all this sugar. He believed in fostering an industry that kept the money in our own country. If we produced our own sugar the country would be richer by the amount of that production.

He referred to the time when there was only one cheese factory in this district, where now there were about seven. If growing sugar beets paid the farmer why there would be other factories built and where would there be a better location than at Heeley Falls, and then the farmers could get the pulp for feeding purposes without any trouble. Through the Farmers' Institute, he had been advocating that the farmers take an interest in the growing of sugar beets, and now he was devoting his time in the interest of the factory to help to get it started. He had succeeded already in getting in the neighbourhood of one hundred acres grown, and expected to get about two hundred acres as a number were already going to double the amount they had taken just to make sure that the factory was started and also to furnish them with a market for the beets.

Dr. Jeffs discussed it on lines already referred to in previous issues of this paper, and also said that the prospects were now quite bright for the factory, but he would like to have all those who have already subscribed to grow sugar beets do the same as those around Havelock and and Stanwood and double their acreage. This would show that they were really interested in getting a factory in their midst.

The meeting closed with a hearty vote of thanks to the chairman.

ELECTRIC ROADS.

Several Bills That Will be Introduced This Session.

(Monetary Times.)

Several bills in connection with electric railroads are announced to come up at the next session of the Ontario Legislature. The Toronto Suburban Railway wants to extend its line from some point on the Davenport Road branch to East Toronto. The North Lanark Railway Company wishes to extend its line eastward to Ottawa and westward to some point on the Saskatchewan river. A company will seek power to build lines from Stratford through Sebringville to Mitchell, from Stratford to St. Mary's, and to Embro. The City of St. Catharines wants power to manage the St. Thomas Street Railway, to issue debentures for the improvement of the system and extending to Port Stanley. The City of Ottawa will ask for authority to build, equip and operate a street railway through the city and adjoining municipalities, and to acquire existing lines. Confirmation will be asked for of an agreement between the Hamilton Electric Light & Cataract Power Company, and the Hamilton Cataract Power, Light & Traction Company, providing for the transfer of the undertaking and assets of the former company to the latter. The Huron, Bruce & Grey Electric Railway Company asks to have its original charter amended so as to change the name to Ontario West Shore Electric Railway Company, and its route to be defined as follows:—Dungannon to Lucknow, to Walkerton, also to Wingham to connect with the C.P.R.; also to London and from Parkhill to Sarnia.

THE NORWOOD BUDGET.

Some Personal Mention From the Village to the East—Other Notes.

Messrs. Roxburgh & Son shipped a car load of oats to Marmora on Thursday.

Mr. Thomas Wigmore, who has been in Oxbow, Assiniboia, for the last five years, is home at present. Tom was the stonewall for the Norwood football team for years.

Mrs. Platt, of Picton, is to give an address to the Methodist Ladies' Missionary Society next Sunday morning.

Rev. Kannawin, of Omemee, conducted the services in the Presbyterian church last Sunday.

Willie Curry, the five-year-old son son of Mr. Robert Curry, met with a serious accident while in the rink Wednesday. He was watching the boys practising hockey, when the puck struck him on the nose and breaking it. He was a plucky little chap; while the doctor was setting it he never cried.

A very interesting hockey match took place on Saturday afternoon on Norwood ice, between the Juveniles of Peterborough and Norwood, the score resulting 12—1 in favour of Norwood. The teams lined up as follows:—

Peterborough—Goal, G. McFadden; point, T. Conroy; cover point, O.Giroux; forwards, R. Galvin, R. Lynch, C. Conroy, E. Coughlin.

Norwood — Goal, S. McCraken; point, H. Puffer; cover point, D. Anderson; forwards, J. Downs, L. McNichol, F. Doherty, A. Curry.

Referee—J. F. Anderson. Umpires, W. Packenham, C. McNichol.

Mr. Conroy, of the National Hotel, Peterborough, coached the team.

The funeral of the late Mrs. Wm. Elliott took place from her late residence on Spring street, Sunday afternoon, at 2.30 o'clock. Rev. R. Taylor, Methodist minister, Norwood, and Rev. J. A. Foley, Methodist minister, South Dummer, officiated. The funeral was very largely attended. The deceased leaves a family of six sons and five daughters, viz.—William and Edward, of Boston; Rev. R. J., of Welman, Kansas; John, Asphodel, and George and Harold, of Norwood; Mrs. Wm. Spence, Norwood; Mrs. J. Ivey, Otonabee; Mrs. Alex. McGee, Asphodel; Mrs. P. Ternam, Township of Arthur, and Miss Mabel, who is at home. Her six sons acted as pall bearers.

Miss Lily Crawford, youngest daughter of Mrs. John Crawford, died Monday morning. The funeral will take place from the residence of Mrs. Crawford, King street, Feb. 25th.

The pupils of the Norwood High School held their annual "At Home" on Friday. It was a decided success, the receipts being about $50.00.

A NEW DEPARTURE.

A New, Effectual and Convenient Cure for Catarrh.

Of catarrh remedies there is no end, but of catarrh cures there has always been a great scarcity. There are many remedies to relieve but very few that really cure.

The old practice of snuffing salt water through the nose would often relieve, and the washes, douches, powders and inhalers in common use are very little, if any better, than the old fashioned salt water douche.

The use of inhalers, and the application of salves, washes and powders to the nose and throat to cure catarrh is no more reasonable than to rub the back to cure kidney disease. Catarrh is just as much a blood disease as kidney trouble or rheumatism and it can not be cured by local treatment any more than they can be.

To cure catarrh, whether in the head, throat or stomach, an internal antiseptic treatment is necessary to drive the catarrhal poison out of the blood and system, and the new catarrh cure is designed on this plan, and the remarkable success of Stuart's Catarrh Tablets is because being used internally, it drives out catarrhal infection through action upon stomach, liver and bowels.

Wm. Zimmerman, of St. Joseph, relates an experience with Catarrh which is of value to millions of catarrh sufferers everywhere. He says: "I neglected a slight nasal catarrh until it gradually extended to my throat and bronchial tubes, and finally even my stomach and liver became affected, but as I was able to keep up and do a day's work I let it run along until my hearing began to fail me and then I realized that I must get rid of catarrh or lose my position, as I was clerk in a store and my hearing was absolutely necessary.

"Some of my friends recommended an inhaler, another a catarrh salve, but they were no good in my case, nor was any thing else until I hear of Stuart's Catarrh Tablets, and bought a package at my drug-store. They benefitted me from the start and in less than three months I was completely cured of catarrh, although I had suffered nearly all my life from it."

They are pleasant to take, and so much more convenient to use than any other catarrh remedies that I feel that I cannot say enough in favour of Stuart's Catarrh Tablets."

Laxative Bromo Quinine Cures a Cold in One Day. Cures in 2 Days E. W. Grove on every box. 25c

HOPE FOR ITS SUCCESS.

Earl of Dunraven Speaks of Settlement of Irish Land Question.

London, Feb. 24.—The Earl of Dunraven was interviewed last night regarding the report of the Irish landlord and tenants' conference in Dublin, of which he was chairman. He spoke hopefully regarding the prospects of legislation, which he thought would end the difficulties of Ireland.

Lord Dunraven said: "The utterances of King Edward and of British public men, the temper of Ireland, the reception of the conference's report by the public, and the action of the Government since its publications, are all favorable indications pointing to the success of the Government's Irish Land bill, which, if it contains a just and generous offer, will make good the first impression, on which all depends. The bill, if drawn on the lines of terms of the report, will insure a final settlement, and remove the cause of friction in Ireland, which is reacting unfavorably, not only on Great Britain, but throughout the Empire, and on our kindred in the United States."

MARKET REPORTS.

CATTLE MARKETS.

Large Receipts at Chicago—Price Decline at Montreal.

Montreal, Feb. 23.—There were about 800 head of butchers' cattle, 100 calves, 50 milch cows and 20 sheep and lambs offered for sale at the East end Abattoir to-day. A large proportion of the cattle offered were good to prime animals, and the numbers were far too large for the first week in Lent, and prices declined fully half a cent per lb., and a considerable number will not be sold to-day. Prime beeves sold at form 4¾c to 5c per lb., medium beasts at from 3¾c to 4¼c, and the common stock, at from 2¾c to 3½c per lb. Calves sold at from $2.50 to $8 each, or from 4c to 5½c per lb. Sheep sold at from 3½c to 3¾c and lambs at from 4½c to 5c per lb. Fat hogs are advancing in price, good lots selling at from 6¼c to 6½c per lb., weighed off the cars. Milch cows sold at from $28 to $40 each.

EAST BUFFALO CATTLE MARKET.

East Buffalo, Feb. 23.—Cattle—Receipts, 3100 head; active; 25c higher; prime steers, $5.15 to $5.40; shipping steers, $4.85 to $5.10; butcher steers, $4.25 to $4.75; heifers, $3.75 to $4.75; cows, $4.25; bulls, $3 to $4.25; feeders, $3.75 to $4.50; stockers, $3.25 to $4; stock heifers, $2.75 to $3.25; fresh cows, strong; good to choice, $50 to $60; medium to good, $35 to $45; common, $20 to $30; springers, dull; good to choice, $40 to $50; medium to good, $28 to $35; common, $18 to $23. Veals, receipts, 400 head; 25c higher; tops, $9.25 to $9.75; common to good, $5.50 to $9.

Hogs—Receipts, 15,600 head; light grades slow; others active; heavy, $7.65 to $7.70; a few, $7.75; mixed, $7.50 to $7.60; yorkers, $7.40 to $7.45; pigs, $7.20 to $7.35; roughs, $6.40 to $6.75; stags, $5.50 to $6. Sheep and lambs—Receipts, 16,500 head; sheep strong; lambs 10c to 20c higher; top lambs, $7 to $7.10; culls to good, $4.50 to $6.90; yearlings, $5.50 to $6; ewes, $4.75 to $5; sheep, top mixed, $5 to $5.25; culls to good, $2.25 to $4.90.

CHICAGO LIVE STOCK.

Chicago, Feb. 23.—Cattle—Receipts, 25,000; strong to 10c higher; good to prime steers, $5.50 to $5.80; poor to medium, $3.25 to $4.50; stockers and feeders, $2.35 to $4.60; cows, $1.40 to $4.50; heifers, $2 to $4.75; canners, $1.40 to $2.60; bulls, $2.25 to $4.50; calves, $5.25 to $8; Texas-fed steers, $3.50 to $4.25.

Hogs—Receipts to-day, 44,000; to-morrow, 25,000; left over, 12,000; opened 5c to 10c lower; closed an another nickel decline; mixed and butchers, $6.85 to $7.20; good to choice, heavy, $7.25 to $7.45; rough, heavy, $6.90 to $7.25; light, $6.80 to $6.90; bulk of sales, $6.95 to $7.25.

Sheep—Receipts, 22,000; sheep steady; lambs steady to 10c lower; good to choice wethers $5 to $5.45; fair to choice mixed, $4 to $5; native lambs, $4.75 to $7.25.

When Life is not Life.

"Without health life is not life; it is only a state of languor and suffering—an image of death." The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and instils new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

Sunset Compete With Argentine Wheat.

Ottawa, Feb. 24.—A report has been received at the Department of Trade and Commerce from Weddel & Co., England, stating that the Pacific coast wheats are now too high in price compared with that from Argentine, to compete in the Australia market.

The King Goes to Prison.

Hermosillo, Mex., Feb. 24.—The Supreme Court of Mexico has affirmed the judgment of the Lower Court in sentencing Temberide, the first King of the Yaquis, and 18 members of the royal court to two years' imprisonment and the prisoners were brought here yesterday from Guaymas and placed in confinement in the penitentiary.

Winnipeg's Exposition.

Winnipeg, Feb. 24.—July 20 to 25, inclusive, will be the dates on which Winnipeg's next and thirteenth Industrial Exhibition will be held.

THE FINAL ACT.

Taff Vale Railway Co. Awarded $115,000 Damages.

London, Feb. 24.—In accordance with an arrangement arrived at between the parties to the suit, the court yesterday awarded the Taff Vale Railroad Company $115,000 damages against the Amalgamated Society of Railroad Servants.

After a long trial in the King's Beach Division of the High Court of Justice, the case of the Taff Vale Railroad Company against the Amalgamated Society of Railroad Servants, involving many questions of great importance to trades unionism, resulted December 19 in a verdict in favor of the plaintiff. The latter complained of malicious molestation, picketing, intimidation, etc., during the strike of 1900.

CRESCEUS' OWNER REFUSED.

Not a Kingdom But $100,000 For the Wonderful Horse.

Montreal, Feb. 24.—Geo. D. McCormick, of London, Ont., yesterday offered to George Ketchum, owner of the racer Cresceus, the sum of one hundred thousand dollars for the horse. The offer was declined. Cresceus will try to lower the world's record, 2.15, on ice here to-day and Saturday.

W. G. MORROW, Manager.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay money to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

I Will Cure You of

Rheumatism

Else No Money Is Wanted.

Any honest person who suffers from Rheumatism is welcome to this offer.

I am a specialist in Rheumatism and have treated more cases than any other physician, I think. For sixteen years I made 2,000 experiments with different drugs, testing all known remedies while searching the world for something better. Nine years ago I found a costly chemical in Germany which, with my previous discoveries, gives me a certain cure.

I don't mean that it can turn bony joints into flesh again; but it can cure the disease at any stage, completely and forever. I have done it fully 100,000 times.

I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism, and I will mail you an order on your druggist for six bottles of Dr. Shoop's Rheumatic Cure. Take it for a month at my risk. If it succeeds the cost is only $5.50. If it fails I will pay the druggist myself—and your mere word shall decide it.

I mean that exactly. If you say the results are not what I claim, I don't expect a penny from you.

I have no samples. Any mere sample that can affect chronic Rheumatism, must be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of the blood.

My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met. And in all my experience—in all my 2,000 tests—I never found another remedy that would cure one chronic case in ten.

Write me, and I will send you the order. Try my remedy for a month, as it can't harm you anyway. If it fails, it is free.

Address, Dr. Shoop, Box 47, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

REFERENDUM OFFENDER.

Judge McCrimmon Rules That a Case Was Made Out Against Caven.

Toronto, Feb. 24.—Before Judge McCrimmon yesterday morning, the trials of the referendum offenders were resumed. The case before the court yesterday was that of Thomas Caven, who was deputy returning officer at polling booth No. 26, South Toronto, when the vote was taken last December. He is charged with neglecting to administer the oath to certain persons when they tendered their votes under names not their own, and with neglecting to properly examine and count the ballots. After evidence, Judge McCrimmon ruled that a case had been made out, and Thomas Caven was sworn in his own behalf. He denied that he had refused to administer the oath, and said that he had sworn everyone whom he was asked to swear. Court adjourned till this morning.

ARREST OF CHIVERTON.

Man Who Distributed Poisonous Candies Under Suspicion.

Winnipeg, Man., Feb. 24.—The Gold Rock Chocolate poisoning case has taken a new turn. Chiverton was arrested at Wabigoon, Ont., on Sunday, and taken to Rat Portage to await Detective Emmons' investigation. Chiverton is the man who received the box and distributed candies. He is 22 years old, and hails from New Brunswick. He threshed in Manitoba during the fall, and worked in Rat Portage Lumber Company's camp all winter.

Sudden Death at Chatham.

Chatham, Feb. 24.—Death came very suddenly to J. A. McGarry, local agent of the Singer Sewing Machine Company, late yesterday afternoon. McGarry was out driving on Queen street with his son and complained of feeling ill. He was immediately driven to Dr. Rutherford's office, but death had occurred before medical aid was reached.

Toronto Accepts Carnegie's Money.

Toronto, Feb. 24.—Yesterday afternoon the city council accepted the offer of $350,000 from Andrew Carnegie, only three aldermen opposing it. The money is to build a central library and three branch libraries. The city is to furnish the sites and guarantee to spend in the maintenance of the libraries $35,000 annually.

Killed by Dynamite.

Connellsville, Pa., Feb. 24.—Two Italians were killed, two fatally injured and a number of others slightly hurt by an explosion of dynamite yesterday on the Baltimore and Ohio Railroad double-tracking operations, near Rockwood, Pa.

Lumber Dealers' Combine.

Winnipeg, Man., Feb. 24.—Mayor Arbuthnot, who is a lumber dealer, says he is under the ban of an association of lumber dealers, who have practically boycotted him. He intends taking the matter into court.

Now It Is Ed. Farrar, Jr.

Winnipeg, Feb. 24.—Ed. Farrar, Jr., of Montreal, has been appointed traveling passenger agent of the C.P.R. on the western division, and assumed his new duties yesterday.

SNOWDRIFTS IMPASSIBLE.

Food Reaches the Snowbound Passengers in the Interior of Newfoundland—Rails Coated With Ice.

St. John's, Nfld., Feb. 24.—The trains which were snowbound in the interior, having secured relief, are now moving backwards to their starting points, where ample food and accommodation for the travelers are available. It was impossible for the trains to attempt to cut their way through the snowdrifts across the summit of the island.

Another fierce gale raged Sunday night, adding to the snowdrifts. An eastern train with 43 passengers reached Norris Arm yesterday afternoon, and is now on its way to this city, but it is not known when it will reach its destination, owing to the rainstorms and the subsequent frost, which coated the tracks with ice. A train leaving St. John's yesterday morning was unable to proceed half a mile from the station, owing to the ice, and had to return, abandoning further attempt to leave until to-day.

The western snowbound Express is slowly retreating toward the Bay of Islands with 55 persons aboard. It was deemed unwise to keep the train near the summit, owing to a possible long delay before that section of the railroad is clear. The passengers will be housed at Bay of Islands, near which settlement the American herring fishing vessels are frozen in. The passengers of the Express which also carries large American and Canadian incoming mails, are likely to be detained at Bay of Islands for some time yet. Business is greatly inconvenienced by the delay in the arrival of the mails.

Three thousand seal fishers to man the sealing steamers for next month's fishing operations are awaiting the clearing of the railroad tracks to reach St. John's.

Fishers Carried to Sea.

Helsingfors, Feb. 24.—The ice along the coast of Finland broke Sunday. More than 250 fishermen on the ice near Somero were carried seaward on the drifting ice. Vessels sent to their assistance returned after hours of fruitless search. It is feared the men have perished.

HOW TO BE

Cured of Piles Without Pain.

First—Change from sedentary occupation to wisely chosen, more active work.

Second—From indoor to outdoor life.

Third—From wrong to right clothing.

Fourth—From unhealthy, rich living, to a mild hygienic diet.

Fifth, sixth and last—Use pyramid Pile Cure regularly and according to directions, for it is the right cure for the trouble, and will cure you as it has hundreds of others.

Don't wait until you are a helpless invalid, for a seemingly simple case of hemorrhoids, or piles, may, if neglected, rapidly lead to worse. The unnatural formations become tumorous and permanent, and the inflammation grows until abscesses form; the disease burrows into the tissues, forming tubular growths which discharge pus; cancerous conditions, and general gangrenous degeneration appear.

What is needed at the start, or at any stage, is something to soothe this inflammation, reduce the swelling and distension, and at the same time restores the diseased parts to normal condition. These three things are accomplished perfectly by the Pyramid Pile Cure. It checks all progress of the disease, and rapidly returns to affected parts to health, besides relieving at once the pain and fearful irritation.

"I began using Pyramid Pile Cure, and in order to make sure of a cure bought five packages; for the past six weeks I have not been troubled in the least, and I had been bothered for thirty-five years, and had spent more than fifty dollars for different remedies; this is the first permanent help I have had, and no one could feel more grateful than I do." L. M. Williams, Conneaut, Ohio.

Pyramid Pile Cure is sold by druggists generally for fifty cents a package, and we urge all sufferers to write Pyramid Drug Co., Marshall, Mich., for their valuable little book describing the cause and cure of piles.

MR. NORRIS' DEFENCE.

Complete Reply to Attack by Premier and Attorney-General of Manitoba on Department of Interior.

Winnipeg, Feb. 24.—On a straight party division in the Manitoba Legislature last night, Attorney-General Campbell's resolution, calling upon the Dominion Government to restore the rate of interest on school lands from 5 to 6 per cent., was adopted by a vote of 17 to 7. The Attorney-General and Premier Roblin seized upon the occasion to make a strong attack on the Department of the Interior over alleged irregularities in the sales of school lands.

Mr. Norris' Reply.

Mr. T. C. Norris, Lansdowne, in seconding an amendment to the resolution, made a vigorous fighting speech.

He justified the department and its officials from the reports of the commission, and pointing out that wherever there was any suspicion of crookedness the sales had been cancelled. Over two-thirds of the parcels sold had been bought by actual settlers and farmers, and Premier Roblin was bluntly charged with making sweeping accusations which were untruthful.

$200.00 IN GOLD, GIVEN AWAY FREE

LPAPE	NREGOA	UPNIL	ATOWRVRESR
OPANE	RCVRSH	VSRAPRORE	ERPA

Can you arrange the above sets of jumbled letters into the names of eight well known fruits. If so, YOU CAN SHARE IN THE DISTRIBUTION OF THE ABOVE PRIZE. It is no easy task. But by patience and perseverance you can possibly make out 5 or 6 of them. To the person who can make out the largest number we will give the sum of [illegible] dollars. To the person making out the second largest number the sum of Fifty Dollars. To the person making out the third largest number the sum of Twenty Dollars. Should two persons send answers equally correct, the first two prizes will be divided between them, (each receiving $75.00). Should three send in equally correct answers, the first three prizes will have to be divided, (each receiving $66.66). Should three persons send equally correct answers, the whole sum of $200.00 will be equally divided (each receiving $66.66), and so on in like proportion, provided there happens to be a similar condition among those who will guess as soon as answers are received. WE DO NOT WANT A CENT OF YOUR MONEY. You may be the lucky winner. ANSWER THIS ADVERTISEMENT. If you can make out anything like a complete list, write us at once enclosing 2-cent stamp for our reply. DO NOT DELAY. WRITE AT ONCE. Address, PARISIAN MEDICINE CO., LONDON, ONTARIO.

FOR DR. J. M. STEWART

Premier Ross and Mr. A. Pattullo, M. P. P., at Kincardine.

CAMPAIGN OF MAJOR CLARK.

Liberal Leader Declares Appeals Due Sympathy Are Without Argument—Mr. Pattullo Passes a Brilliant Eulogy on His Honored Leader—Resolution of Confidence in Government Passed.

Kincardine, Feb. 24.—Premier Ross and Mr. Andrew Pattullo, M. P. P., visited Kincardine last night and delivered eloquent and conclusive addresses in support of the candidature of Dr. J. M. Stewart in the Centre Bruce bye-election. The meeting was highly successful, and the addresses, having special reference to the peculiar conditions of the contest, were of unusual weight and cogency. Premier Ross was in excellent form, and while delivering hard blows, was ever courteous, and lightened his remarks by those frequent dashes of humor which make him the prince of Canadian platform speakers.

Mr. Pattullo, after doing what he called underbrushing, touched on several of the burning questions of the hour, and closed with one of the most eloquent perorations descriptive of Mr. Ross as a leader that has ever been listened to in the town. Mr. Pattullo's remarks were exceedingly well received.

The Premier's Speech.

When Premier Ross rose to speak he was greeted with a great outburst of cheering. He thanked them for their cordial reception, thanked Mr. Pattullo for his speech of so much energy and fairness and brilliancy, and proceeded:—I have to thank the people of Centre Bruce for having given the Liberal party in Ontario for some years fair support. Sometimes you do not do exactly right; I am afraid some of you are Methodists, you fall from grace now and then—(laughter)—but for the last four years you were very kind to me. You sent us Mr. Malcolm, and for a Scotchman Mr. Malcolm was a pretty good fellow. You know, Scotchmen have a sort of self-confident, stubborn way of thinking for themselves. (Laughter.) If a Scotchman is right he is very right; but if he is wrong, he is awful wrong. (Renewed laughter.) As a rule Mr. Malcolm was right. (A voice—Because he followed his leader.)

It is not the only way of being right, but it is a safe way as the leadership is constituted at the present time. (Applause.) I have to thank you for electing him, and for what he did while he was with us. We were happy to meet. We were sorry to part. And I do not know whether we may meet again in Parliament or not. I am very glad there is so much enthusiasm among the Liberals, and that there are no divisions among you, and I believe the Liberal candidate will be elected on Thursday by a large majority. You know it is very comfortable for a Government to have a majority which can be elective under the stress and strain of legislation. Sometimes, and it is only fair, supporters of the Government differ with the Government as to matters of policy, and we like to have a margin, a small margin, that when we have a great measure we can count on carrying it through. You know it was very small a while ago. It was down almost to the vanishing point. It is growing very nicely, and if we get Centre Bruce that will give us a majority of nine, provided we have no accidents anywhere else. (Laughter.)

Mr. Clark appeals for sympathy. I think it is the other man who has the right for sympathy. Dr. Stewart was jockeyed out of Centre Bruce last May, at least the courts held that Mr. Clark had not the right to the seat. I do not think that the stuff of which members of Parliament are made ought to be that weakly and tender and—shall I say—infantile—character that appeals to sympathy rather than to principle and party issues. We are full-grown men, and we appeal, not because we had our elbows skinned in the melee or tumbled and have hurt ourselves. We are not going to plead thus and so—"because I had bad luck send me to Parliament"—but because our candidate represents something, a policy that he can defend, a policy that his friends will come in and help him to defend. I am told Mr. Clark complains that a great wrong was done last summer when arrangements were made for the disposition of some election protests. He seems to have gone into the deal while I was in the old country, and expected this would be one of the protests dropped, but it did not work out as he expected. I cannot give the particulars, but I believe that Mr. Harcourt agreed that Centre Bruce should be paired off, that that agreement was not concurred in by the gentleman who was acting in behalf of the Liberal party. That was one of the difficulties. Another was that the people of Centre Bruce who had the right to ask that the protest should go on trial, would not agree to that arrangement. It was like a case where you had arranged with the parents of both sides for the marriage of two young people, and the young lady would not agree. (Laughter.)

A resolution of confidence in the Ross Government was unanimously passed on motion of Mr. John Tolmie, M.P., and Mr. J. D. Ferguson, and the meeting closed with cheers.

Pioneer to England.

London, Feb. 24.—Mr. Arthur Shepherd of Rothwell, Manitoba, the pioneer of 40 Canadian farmers sent out by the Dominion Government, has arrived in England, and yesterday attended Burton market. The object of the mission is to point out the advantages of Canada with her free gifts of land. Yesterday Mr. Shepherd received about 40 applications.

THE MARTINEAU FRAUDS.

Two Men Will Now Do Work Formerly Done by One.

Ottawa, Feb. 24. — Sir Frederick Borden had an interview with the Minister of Justice yesterday afternoon when the Martineau affair was talked over. It is learned at the Militia Department that the shortage has not yet amounted to $80,000, but all the actounts have not yet been examined. One result from the trouble is that a new method will be adopted in the accountant's branch. One man will look after depositing the cheques, while another clerk will check them upon their return with the bank statement. In addition to this the bank will be asked to send a duplicate statement of cheques to the Auditor-General as well as to the department. The Auditor-General has now got to wait for the statement until it is forwarded to him from the different departments.

MR. WHITNEY ON POWER.

Government Should Produce It or Control the Producers.

Newmarket, Feb. 24.—Mr. Whitney, leader of the Opposition, last night addressed a crowded and orderly meeting in the Town Hall. Mr. Lennox, the Conservative candidate, was not present. Mr. Whitney's speech was chiefly remarkable for a positive statement that he believed the Government should take up the power question, and either develop power itself or provide for the establishment of a union of municipalities for the development of power at Niagara Falls.

THE SULTAN'S ACCEPTANCE.

Turkey's Ruler Agrees to Adopt the Macedonian Reforms.

Constantinople, Feb. 24.—Tewfik Pasha, Minister of Foreign Affairs, notified the Austro-Hungarian and Russian ambassadors yesterday that the Sultan had agreed to adopt the scheme for reforms in Macedonia.

An Imperial irade has been issued, authorizing the Turkish Minister of War to purchase ten additional Maxim rapid-firing guns.

Increase Bank's Capital.

Montreal, Feb. 24.—At a special meeting of the shareholders of the Molsons Bank, held yesterday, authority was given to ask permission of Parliament to increase the bank's capital from $2,500,000 to $5,000,000.

Seeing is believing. Have a look, and invest a few nickels in these odd bits of writing pads at the cut rates.—A. H. Stratton & Co.

St. John's Church.

To-morrow being Ash Wednesday, services will be held in St. John's church at 11 a.m. and 8 p.m. The evening service will be the first of the course of the special services which are to be held during Lent, and which will be addressed by out-of-town clergymen. Rev. E. A. Daniels, of Port Hope, will preach to-morrow evening.

New Barber Shop.

We have started a new barber shop in W. O'Brien's cigar store, 423 George street. It is fitted with a handsome two-chair artistic mirror case and two pedestal base hydraulic chairs, which can be raised, lowered, revolved and reclined at will. The shop is neatly furnished with suitable floor and wall coverings, new shop furniture and fixings, cup cases, wash stands, a jacket heater for heating water and complete barbers' outfit.

Returned to Toronto.

Miss Noble, millinery buyer for the Turnbull Company, who has been attending the leading American marforms, informs her friends that she has secured a beautiful selection of New York novelties in ready-to-wears, which she will exhibit to her customers about March 10th. She has returned to Toronto, where she has had the privilege of looking over patterns a week previous to the general openings. Ladies who wish exclusive millinery should make a note of the above. 1d

Change of Business.

The subscriber begs to intimate that he has this day gone out of the retail meat business after 16 years in the trade. I have to thank my customers and the public generally for the kind treatment and liberal patronage I have received at their hands. All who are indebted to me will please call and settle as soon as possible. I will be at the old stand this week, and likely for some time on Saturday evenings. Members of the I.O.F. will find me at the old stand all this week and any Saturday evening from 7 to 9. Messrs. West & Co., who have bought me out, will keep a full line, and I recommend them to my friends.

G. W. POWELL.

FOR THE "SOO."

Mr. Allie Pearson, Formerly of Town, Appointed Secretary.

Word was received from the Provincial Committee of the Y.M.C.A. that Mr. H. A. Pearson, of the Training School for Y.M.C.A. officers at Toronto, had been appointed Secretary, pro tem, at Sault St. Marie.

It is a matter of great congratulation to the work in Peterborough that one of its members who was the first to enroll in the school has so pleased the faculty that they are placing him in the field before his course is completed. Mr. Pearson gives great promise in the work and his many friends in the local Association will give him their best wishes and prayers for a life of usefulness in work for young men.

Mr. Pearson leaves for the "Soo" this evening.

The Examiner is pleased to hear of the success of one of its ex-employees.

VISITING PETERBOROUGH.

A Deputation From Buffalo, Shown the Local Places.

A deputation of over a dozen gentlemen arrived in town at 7.45 o'clock last night from Buffalo, for the purpose of inspecting the Canadian Ultimator Company's mill Among those who accompanied the deputation were Mr. Ortman, Superintendent of the Urbin Mill, Buffalo; Mr. Parks, Editor of the Roller Miller; Mr. Oliver, Superintendent of the Thornton-Chester Mills, Buffalo; Mr. Knight, Superintendent of the Dominion Mill of Toronto.

The visiting gentlemen looked over the Ultimator Mill this morning, and were also shown the world famed lift lock, by Mr. C. B. McAllister.

This afternoon the deputation will visit the rink and other places of interest, while they will, this evening, dine with Mr. McAllister at "The Pines," Ashburnham.

NEVER LEARN CLUB.

Held Last of Their Fortnightly Series of Dances.

A special dance of the Never Learn Club took place in the Foresters Hall, Simcoe street last night, there being a very large attendance, who from all appearances thoroughly enjoyed themselves until the very last minute. Excellent music was supplied by Miss McCabe, while the ladies of the Club, in their usual characteristic manner, supplied most excellent light refreshments. Mr. A. L. Scott, the Hon. Secretary of the dance, did everything within his power to make the dance a complete success, and also to make the merry-makers quite at home, and in these respects he certainly succeeded admirably.

These dances have been regularly held once every fortnight, but this one, to the undeniable regret of all, is the last of the series.

MR. DAWSON INJURED.

Fell on the Sidewalk Yesterday Afternoon.

While walking in Ashburnham yesterday afternoon, Mr. Adam Dawson fell on the sidewalk, and injured himself by dislocating his hip bone. Although Mr. Dawson had a bad accident he is not expected to become lame through it.

This accident should certainly open people's eyes to the necessity of keeping their sidewalks perfectly clean.

DIED.

BECK — Suddenly, at Peterborough, the 24th day of February, 1903, Margaret Beck, widow of the late J. W. R. Beck, M. A., Rector of Peterborough, in her 77th year.

Funeral on Thursday at 2.45, p.m., from the residence of R. M. Dennistown to St John's church and afterwards to the Little Lake Cemetery.

McFARLANE — At 12 Bolivar street, on Tuesday 24th February, 1903, John Herbert, youngest child of Mr. John McFarlane, aged two years and five months.

Funeral on Wednesday, at 2 o'clock from the above address.

VERY SUCCESSFUL MEETING.

Evangelists at George Street Methodist Church.

A Stirring Address was Delivered by Rev. Mr. Turk—Meeting for Women.

In view of the coming departure of the evangelists Kerby and Turk, large crowds, who have hitherto held back, assembled in the George street Methodist church last night in order to hear Mr. Turk give an address. His subject was "A Message to Sleepers."

There will be a meeting for ladies only on Tuesday at 3 p.m Rev. Mr. Turk will speak on "The Twentieth Century Woman." Both the evangelists will sing by special request, "The Holy City." Rev. Mr. Kerby's subject will be "A Call to Young Womanhood." At this meeting a very large audience is expected.

LATE MRS. BECK.

Her Death Occurred Suddenly This Morning.

In the death of Mrs. Beck, widow of the late J. W. R. Beck, M. A., Rector of Peterborough, the town loses one of its most highly esteemed residents. Her demise, which was due to heart failure came very unexpectedly this morning at the residence of her son-in-law, Mr. R. M. Dennistoun, No. 748 Water street.

The late Mrs. Beck's maiden name was Margaret Brown, daughter of the late Allan Brown. She was born in the County Fermanagh, Ireland, in the year 1826 and was therefore 77 years of age. She came to Canada with her parents, in the year 1840, settling in Cobourg. She resided in Cobourg until 1866 when she was married to the late Mr. Beck and removed to Peterborough. Here Mrs. Beck has resided continuously, devoting her life to the work of the church and charitable undertakings.

Her husband predeceased her on December 7th, 1889. She leaves to mourn her demise two daughters,—Mrs. R. M. Dennistoun, with whom she has resided during the past few months, and Mrs. Arthur Stevenson, of town.

The funeral will take place on Thursday afternoon at quarter to three o'clock to St. John's church, where a funeral service will be held and thence to Little Lake Cemetery for interment.

The flag on St. John's church is floating at half mast out of respect to the memory of the late Mrs. Beck.

WILL RE-OPEN.

The Local Business College Will Resume Work Next Wednesday.

The Peterborough Business College, which has been closed for a week, will resume to-morrow morning at 9 o'clock. At the request of the Health authorities, the entire school has been disinfected twice, as a sanitary precaution. Although no trace of infectious disease can be traced to the College building the prompt action of the principal in closing down to assure the safety of the large number of students in attendance, was the best precaution that could have been adopted.

A CATHEDRAL WEDDING.

Nuptials of Mr. James E. Wall and Miss Grace Gibson.

A very pretty but quiet wedding took place on Monday at 8 p.m., at St. Peter's Cathedral, of Miss Grace Gibson, daughter of Mr. John Gibson, No. 544 Park street, to Mr. James E. Wall, son of the late Edward Wall, Esq., of Ashburnham.

The ceremony was performed by Rev. Father O'Brien, the bridesmaid being Miss Maggie Trayner, while the groom was supported by his cousin, Mr. Will McAuliffe, of Harwood.

The bride was attired most becomingly in pearl grey ladies' cloth, prettily trimmed with medallions of lace, and looked most attractive in a large black velvet picture hat. The bridesmaid wore a like costume.

At the conclusion of the ceremony the bridal party drove to the residence of the bride's parents where the wedding dejeuner was served.

Both bride and groom are well and popularly known among a wide circle of friends.

Hearty congratulations will be extended by all to Mr. and Mrs. Wall, coupled with wishes for much future happiness.

AT ST. LUKE'S.

Services to be Held To-morrow—Ash Wednesday.

To-morrow being Ash Wednesday, divine service will be held as follows: 10.30 a.m., Communion service; 8 p.m., Evensong and address, subject, "To-day if ye will hear His voice harden not your hearts."

The annual service of the W.A. will be held on Thursday, the 26th, at 2.30 p.m., in the church, at which the rector will speak. After the service the annual meeting and election of officers will take lace.

On Friday, Evenson will be held in the Sunday school house at 5 p.m.

The members and friends of St. Luke's are cordially invited to these services. On account of the Lenten services at St. Luke's there will be no cottage meeting at Auburn till after Easter.

SOCIAL AND PERSONAL.

Mr. Dickson Hall, of Richard Hall & Sons, has gone to Boston and New York on business for his firm.

Miss L. Quirk has returned from the west, where she has been visiting relatives and friends for the past two months.

10 CENT BAND CONCERT
Opera House
Tuesday Evening, 24th inst.
SPECIAL:
Entirely new Programme by Band, and "Joe" Halpany, Comic Vocalist, in New Songs and Dances.

INTERMUNICIPAL CONFERENCE.

It is a fortunate circumstance if, as would appear to be the case, we have Councils in Peterborough and Ashburnham both sufficiently sympathetically disposed towards municipal union, to be prepared to discuss and dispose of the subject upon its merits, without undue preconceptions or prejudices either for or against.

Like the building of the Trent Valley Canal the matter has hitherto been toyed with and evaded, rather than openly faced and honestly either undertaken or rejected. After submitting it to the people and receiving an affirmative vote in both municipalities the respective Councils, for reasons best known to themselves, failed to give effect to that vote, though, so far as we can recollect, no reasons were given to the public therefor on either side of the river. A straightforward dealing with and disposition of the subject is, however, undoubtedly the more manly and respectful course to pursue. If union would be to the interests of the two municipalities, by all means let us have the benefit of it as soon as possible, but if for good and sufficient reasons it should be found not to be realizable or advantageous, then the sooner it is dismissed as a factor from municipal politics the better.

The subject will, we trust, be approached by the conference committees of the Councils in a dispassionate and liberal spirit, and that no more petty jealousies or trifling differences may be permitted to determine the result.

A SOCIAL EVENING

Held in St. John's Schoolroom, Under the Auspices of the Young Men's Guild.

A most delightful social evening was held last night in St. John's school room, under the auspices of the Young Men's Guild. An excellent programme was provided mainly by the laudable exertions of Mr. J. Bell, on whose efforts the burden of the evening's success lay. Quite a number of the church congregation turned out, and the audience enthusiastically applauded the several items on the programme, which was constituted as follows: Instrumental duet by the Misses English; vocal solos by Miss Lillian Harcourt, Miss Sherwood, Mr. Stormer and Mr. Gray; recitations by Mrs. Davies, Miss Gertrude McClellan, Master Freddie Hooper and Master Chalmer Nicholls. Miss Sherwood's song was fully appreciated and heartily encored, and little Freddie Hooper, as usual, greatly distinguished himself. After this, light refreshment was served and games of different denominations played, Mr. R. Soanes meanwhile playing some pianola selections.

The very enjoyable event closed with the singing of the National Anthem.

A LARGE PERCENTAGE

Scored by a Local Young Lady in Recent Examination.

The heartiest of congratulations must be extended to Miss Abbie Robinson, daughter of Mr. T. W. Robinson, of town, for her remarkable success at the recent examinations for trained nurses at the New York city hospital.

Miss Robinson took a total of 95 per cent., and will graduate on Friday next, when the exercises in connection with the examinations will take place.

THE COAL SUPPLY.

Arrival of Eight Car Loads at R. Hicks and Co's Yard.

We beg to announce the receipt of a consignment of eight cars of best mined hard coal—the quality that gives satisfaction.

R. HICKS & CO.,

THE CHARITY BOARD

Met Last Night—Accounts Presented—Other Business.

A meeting of the local Charity Board was held last night in the town clerk's office. There were present Chairman, Mr. R. Innis, and Messrs. J. J. McBain, John Sawers, H. Rush, J. Batten and F. W. Miller.

The Minutes of the last meeting were read and confirmed.

The following statement of orders given was read:

	Since last meeting.
Groceries	$ 70 00
Wood	84 00
Sundries	25 45
	$179 45
	During 1903.
Groceries	$143 82
Wood	172 50
Sundries	37 00
	$353 32

The following accounts were presented:

John Wilson	$ 1 00
Wm. Buller	2 70
A. Allison	3 00
N. Routley	4 00
J. Sutherland	4 00
B. Cunningham	2 00
Waller & Co	2 00
J. J. Lynch	5 34
R. Carton	6 00
E. F. Mason	8 93
J. D. Tully	4 50
Jas. Edgcumbe	14 00
R. C. Braund	3 00
G. O'Brien	8 00
Curran & Gobeon	3 00
P. Conal & Son	6 00
F. J. R. Mitchell	4 09

On motion of Mr. McBain, seconded by Mr. Batten, it was resolved that all the accounts as presented be paid, except that of J. D. Tully's, and that it be paid when the orders are furnished and attached.

The Relief Officer reported that the Chamberlen estate had delivered 100 cords and 60 feet of wood — all good wood.

A letter was read from Mr. W. T. Elliott claiming that he had been unlawfully quarantined.

On motion it was resolved that the letter be referred to the Board of Health.

The Board then adjourned until Monday night, March 30th, at 7.45 o'clock.

TO-NIGHT'S CONCERT.

Excellent Programme to be Rendered by the 57th Band.

All lovers of music should certainly attend the band concert given in the opera house by the 57th Regimental Band to-night. An excellent programme has been arranged, and among the numbers will be Godfrey's Reminiscences of Ireland, which has never before been played in Peterborough. In view of this attractive feature a large number are expected to be present.

The following programme will be rendered:

March, El Capitan.....Sousa
Overture, Harvest Days...Von Titzer
Cake walk, Mississippi Bubble.....
Song.....Mr. Halpany
Concert Waltz.....
Reminiscences of Ireland.....Godfrey
Song.....Mr. Halpany
March, Great Captain.....Sweeter
God Save the King.

NEWS NUGGETS.

—There will be skating at the rink to-night.

—There will be no meeting of St. John's Girls' Guild this evening.

—The hockey match between the Hamilton and Peterborough ladies has been cancelled.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 190.

—Remember the pancake social, sale of work, and concert at St. Luk's to-night at 7.30. Admission, 10c.

—All Saints' church choir were entertained by Miss Chamberlen last night, and enjoyed themselves immensely.

T. A. S. BOYS DEFEATED NORWOOD.

An Exciting Game at Brock Street Rink.

THE SCORE WAS 6 TO 5.

One of the Largest Crowds of the Season.

Norwood had Splendid Combination—McCoy in Goal Played Brilliant Game for T. A. S.—Play was Very Even.

It was a fierce struggle that took place in the Brock street rink last evening, when St. Peter's T.A.S. hockey team met the Norwood septette in the finals for the championship of the Trent Valley League. About 1,500 people turned out to witness the contest, and excitement reached the fever heat notch, many times during the evening, as the friends and supporters of both teams went wild with enthusiasm, and at intervals sank back dejected and discouraged, as disaster came to their respective colours.

The game was a remarkable one in many respects, and although the total abstinence boys won out by a score of 6—5, still it must be admitted that they were decidedly off colour last evening, and did not dish up the quality of hockey that spread consternation in the Fenelon Falls rink a few evenings ago. But they won anyway, and their supporters are jubilant over the result.

The Norwood team is a remarkably fast bunch of skaters, and last evening their combination work excelled that of the T.A.S. at times, but they are poor shots and their defence was weaker than that of the locals. In weight the Norwood seven certainly had the advantage, and anyone who says that the septette cannot play hockey and good hockey at that, is certainly no authority on this popular winter sport.

Mr. Ernie Wasson was fearless in performing his duties as referee and during the evening he administered judgment with a hand of steel. Nearly all the T.A.S. players were given a siesta on the boards during the evening—in fact every man was off with the exception of McCoy, the goal keeper, while four Norwood players reclined on the thin end of the pines for infractions of the hockey commandments. At one time during the game three T.A.S. players adorned the fence at the same time, and it is no secret that the total abstinence boys and their supporters are dissatisfied with the referee's rulings. Truly the lot of a referee is a hard one.

Of the game a great deal might be written, but one remarkable circumstance in connection with the contest was the fact that Norwood never scored when the full team of the T.A.S. was on the ice.

The game started with the T.A.S. scoring three goals in succession, and then Billy Meagher was sent to the fence, and while there Norwood tallied two, making the score 3—2 at half-time in favour of the T.A.S.

THE SECOND HALF.

In the second half both teams went in to do or die, and to the finish it was a remarkably exciting struggle. The T.A.S. would lead by a goal, then Norwood would tie the score, and the T.A.S. would break the tie and lead. This was kept up until near the finish, when the T.A.S. notched a goal and kept in the lead until time was up. During the second half a lamentable accident occurred to Fred McGrath, a gritty T.A.S. forward. In a scrimmage with a Norwood player he was struck in the mouth, and as a result McGrath's lip was severely cut, and two teeth were knocked out. The cut is a severe one, and it required several stitches. The game was stopped for some minutes but Fred appeared on the ice again and was in the game to the last.

The game as a whole was not a brilliant exposition of hockey, although at times some brilliant work was done by both teams. Pearce of the Norwood defence, is a strong man and put up a splendid game last night. Their forward line was speedy and was always after the puck. But the player who came in for the bouquets last evening was "Galley" McCoy, the T.A.S. goalkeeper.

The teams were as follows:—

T.A.S.—Goal, McCoy; point, Meagher; cover point, W. Crowley; forwards, Lynch, George Parnell and McGrath.

Norwood — Goal, Fife; point, Pearce; cover point, Nicholl; forwards, Miller, Kempt, Rathwell and Pearce.

Referee, E. Wasson; umpires, J. McCabe and A. W. McPherson; timekeepers, Messrs. Turcott and ——.

The Norwood team was banquetted at Potvin's restaurant by the T.A.S. boys.

A NEW BAND.

The T. A. S. Will Have a Musical Organization.

Peterborough is to have another brass band. The announcement has been made that in the course of a month or two the Total Abstinence Society of Peterborough will possess a fully organized brass band of 40 pieces. For some time past the project has been under way and the committee which has had charge of the raising of the required amount of money has met with great encouragement.

It is understood that a band master has been engaged and that the new instruments will be here in the course of a few weeks.

Port Hope to Play Seniors on Friday Night.

T. A. S. Running Special Train to Norwood—Highest Curling Scores in Last Night's Point Games.

HOCKEY.

FRIDAY NIGHT'S GAME.

Friday night next is the date fixed for a match between Port Hope and the Peterborough seniors in the Brock street rink. The hockey season is rapidly drawing to a close, and one by one the games are becoming more and more interesting and exciting. The coming game, in which Port Hope and Peterborough figure so prominently, will be for a set of $70 trophies. Mr. H. Rose, of Toronto, will referee the game, which starts at 8.30 o'clock sharp. The plan of reserved seats will be open in Mr. F. Clarke's store on Thursday next, while tickets may be had at Ormond & Walsh's, Nugent's and Clarke's stores. On account of the magnificent prizes to be awarded the winners an exciting game is expected to take place, and a large audience it is expected will assemble to cheer on the local seven.

DID THEY FLUNK?

A wofully wrathful 'wood chopper," at the Canadian General, writes as follows:

Although fully aware that there was nothing to gain by playing the William Hamilton wood butchers, we, the wood butchers of the C. G. E. Co., who have a well established reputation, agreed to give them a practice match on Saturday evening and after going to the trouble of resurrecting our regalia we found that we had been dealing with a band of "flunkers." In the future when they run up against a "snag," as they did a week ago, they need not come to their brother "wood butchers" for sympathy. It is quite apparent that Mr. Emerson has not secured any pattern makers that could play hockey.

HOW THEY TOOK IT.

Fenelon Falls Star: This is the first defeat that our team has had this season, and the first time since their organization that they have been defeated on their own ice. We regret it exceedingly but the players were in bad shape on Tuesday, and did not put up their usual game. Besides this their opponents were splendid players. We hope the defeat will have the effect of waking our boys up to the fact that they must do their best for the rest of the season, if they wish to hold the cup and the championship.

OFFERS A CUP.

Mr. Joe Parkin manager of the Lindsay skating rink, says he will put up a cup to be competed for in a series of games between Lindsay and Fenelon Falls. As these two teams are evenly matched, many would like to see a few games arranged before the season closes.

* * * *

The senior team will hold a practice this evening. Full turn-out of players asked.

* * * *

The T.A.S. will run a special train to Norwood on Friday night for the purpose of taking their supporters to witness the return match in the finals between that town and themselves. The T.A.S. are eager to keep the lead they already have, while the Norwood seven seem determined to reverse last night's score if possible, consequently the match will be very exciting.

RACING.

DUSTY IS READY.

To the Editor of the Examiner.

Dear Sir,—In reply to Jackson's answer to my challenge to skate him for fun, money or marbles he says he will not skate for any of the three, but will skate for a suitable prize, best two out of three. I will put up ten dollars against the ring he won by a fluke and skate him any time he is ready and will pay half the expenses of the rink and printing, the winner to take all receipts. As I mean business, either put up or shut up and if the consideration is not acceptable to you name what you want to skate for and I will comply with anything you name. You say you were surprised that I knew so little about rules which govern skating races. Probably you are better posted than I am but I will not dispute on either of our judgments as regards rules of skating but will choose one judge, you choose the other and the two will choose the third and I will abide by their decision and not depend on the spectators as to who is right or who is wrong.

Yours etc.,
OLIVER DUSTY.

P. S.—My choice of judges will be men of sporting reputation such as Sam Ray or J. M. Brooks.

O. D.

CURLING.

The following are the three highest scores in the Points games which were played at the Charlotte street curling rink last night:

G. Giroux	34
D. Cameron	32
R. J. Frost	31

* * * *

A local bonspiel will be held for the cups and medals which are at the disposal of the Association. When full particulars are arranged it is to be hoped that a large number will enter for competition.

Nutrition for Nursing Mothers.

Malt Breakfast Food

Is a Marvellous Strength-Giver.

The large majority of our Canadian medical men are convinced that Malt Breakfast Food is the best morning diet for nursing mothers, as it provides a full measure of nutrition for the maintainence of health, strength and vigour. Malt Breakfast Food wonderfully increases the quality and flow of milk. Malt Breakfast Food is the most easily and most rapidly digested of all cereal foods, and no other so largely contributes to the health, comfort and happiness of mothers. Weak and frail women should use Malt Breakfast Food morning and night; it will quickly build them up, give them pure blood and a well regulated nervous system. Ask your grocer for Malt Breakfast Food.

ORIENTAL MAIL SERVICE.

The Curious System of the Land of Haroun-al-Raschid.

There is a glamour around Bagdad, a halo of mystery tinged with pomp and splendor. The home of Haroun-al-Raschid and the scene of his adventures, it is known as widely as the Thousand and One Nights, but like Constantinople, the capital of the empire in which Bagdad stands, it glitters from the distance, the nearer view dispelling many a cherished ideal. Still, even amid the strange hygiene, the quaint etiquette and odd ways of the place, the resident comes across scenes and incidents so odd as to make one believe it is yet the days of Haroun—that the sun of history has gone back many degrees on the dial. Some things cannot be compared with our institutions, and others can—the management of the mail is one of the latter.

There are two ways of sending this in Bagdad—one the Turkish, the other the British. Practically all letters going west go by the Turkish system. By this there are two routes, one by camels to Damascus, and thence to Beirut, whence it is transported by steamer to Brindisi, and afterward by rail; the other by camels to Mosul and then by mules and rail to Constantinople. Letters from Constantinople take some twelve days; not long ago the time suddenly jumped to forty-six days, and when the postoffice officials were asked to explain, they said: "Now the mail comes partly by rail. Hence the delay!" This is a sweetly oriental idea—a railroad to take thirty-four days longer than camels.

When your letters come depends upon when the mail arrives and may be any time of the day. Perhaps one of the most comical parts of the service is the fact that the carrier cannot read. At the office he is told what houses are to have letters. Then he slings his bag over his shoulder and trots off, hopping from side to side of the concavity that is gutter and street, and thus wends his tortuous way through the city till he arrives at a house for which he has mail. Upon entering he unslings his bag, opens it and pours the contents on the floor, at the same time telling you to pick out such letters as belong to you. There is a charming naivete and ingenuousness about the whole proceeding which strikes the westerner as irresistibly comic. When you have taken out your share, the remainder is bundled back, and off he goes to the next house.—New York Post.

MILBURN'S HEART AND NERVE PILLS

Make Weak Hearts Strong. Make Shaky Nerves Firm.

THEY CURE

Nervousness — Sleeplessness — Palpitation of the Heart—Nervous Prostration—Faint and Dizzy Spells — Brain Fag — After Effects of La Grippe—Anaemia—And all Troubles Arising from a Run-down System.

Read what T. L. Foster, Minesing, Ont., has to say about them:—I was greatly troubled with palpitation of the heart, a sudden blindness would come over me, and floating specks before my eyes caused me great inconvenience. Often I would have to gasp for breath, and my nerves were in a terrible condition. I took MILBURN'S HEART AND NERVE PILLS, and they have proved a blessing to me. I cheerfully recommend them to all sufferers from heart and nerve trouble.

Price 50c. per box, or 3 for $1.25; all dealers or The T. Milburn Co., Limited, Toronto, Ont.

The Chinese Art of War.

A novel method of testing new weapons of warfare is now in vogue in China. A large cannon of the latest type was recently imported from Europe, and when it was landed on the coast of Hainan the military mandarins of the district first inspected it closely and then resolved to test it.

They therefore procured a boat, which they anchored at some distance from the land, and then they loaded the cannon and fired a shot at it. To their surprise the shot did not hit the boat, but fell short in the water. They determined to try again, but did not want to miss a second time, and so they brought the boat to the very spot where the first shot had fallen and anchored it there.

Then they fired, and to their unbounded joy the shot went clean through the vessel. Evidently it never occurred to them that they could have attained the same end by aiming more carefully and slightly changing the position of the cannon, or, if it did occur to them, they thought that it was easier to move the boat than to so aim with the heavy cannon that they would be absolutely certain of not losing a second shot.

A Crying Necessity.

"What the world needs is more poets."

"More poets? Why, there are so many poets now that they can barely make a living."

"Yes; but if there were more of them they couldn't live at all."—Judge.

Ladies and Gentlemen All.

He—I kind o' think I've seen you before. Ain't you a shopgirl at Bargen's?

She—Sir! I'm a saleslady.

He—That so? I am an elevator gentleman at the same place.—Philadelphia Press.

All Gone.

"Did Johnson's purchase include also the good will of the business?"

"There wasn't any good will to it. It was a coal dealer that Johnson bought out."—Syracuse Herald.

ACQUITTAL OF THE HUMBERTS.

Verdict Hailed With Satisfaction—Severe Blow to the Cabinet.

Paris, Feb. 23.—The acquittal of the Humberts in the libel suit brought against them by M. Cattaui, the money-lender, and a former client of M. Valle, Minister of Justice, and the condemnation of M. Cattaui to pay the costs, is hailed with satisfaction in Paris, and has been for the last three days discounted as an expression of public opinion elicited by the evidence in the trial, revealing the true nature of usurious money merchants.

Saturday's verdict is unquestionably a severe blow to Premier Combes' Cabinet, for M. Valle is, as it were, between the devil and the deep sea. His resignation from the Cabinet would be interpreted as an admission of guilt, while his retaining office is felt to be a sort of defiance of public opinion. But all this, after all, is a mere side issue, and the sapient significant fact remains that the "inimitable Theresa" in this preliminary skirmish has won the sympathy of the Boulevards and has scored a signal victory.

WILL MOVE THE ADDRESS.

Mr. A. G. Mackay, M.P.P., North Grey, Has Been Selected.

Toronto, Feb. 23. — It is understood that Mr. A. G. Mackay, M.P. P., the new member for North Grey, will move the address in reply to the speech from the throne in the Legislature next month. This is an honor well deserved by this popular speaker, though in the selection Premier Ross doubtless suffered from an embarrassment of riches among his new supporters. The name of the seconder has not yet been selected.

Burglars Bound Him.

Quebec, Feb. 23.—At an early hour Saturday morning an ecclesiastic of the seminary named Maurice Lepalme, was found lying unconscious and tied securely to a stair case. He had been bound hand and foot, as well as gagged. The deed was done by two unknown men, whose evident intention was robbery.

Novel Ways of Having Stock.

The latest way of selling stock is by measuring with dollar bills. The other day a cow was sold in this manner and the price determined by measuring around the animal's body by $1 bills. It only required 11 bills to encircle the cow, and now there is one man in East Flamboro who will never sell that way again. Another game is to offer to buy a horse for the amount of money required to measure it from the tip of the nose to the end of the tail, but instead of measuring up over the head and along the back, the horses tail is drawn forward between his hind legs and his head backward between his forelegs, and it is found that the distance between the nose and the tail can sometimes be covered by one bill.

Rev. F. C. Steen Dying.

Montreal, Feb. 23.—Rev. F. C. Steen, assistant preacher of Christ Church Cathedral, whose name became so prominent a year ago in connection with a misunderstanding with Bishop Bond, is so low that his life is despaired of. In fact, the doctors said last night that the rev. gentleman will die before morning.

G.T.R. Brakeman Killed.

Brockville, Feb. 21.—George Lott of this town, a Grand Trunk brakeman, was killed at Gananoque yesterday morning by being struck by a passing train. He leaves a wife and family.

NERVOUS HEADACHE.

The Cause of Much Suffering to Women is Permanently Cured When the System is Built up by

Dr. Chase's

Headache powders relieve headaches, but they have never cured them, and they are not intended to make a lasting cure. Besides the risk run in using a drug that is strong enough to instantly stop pain, you may be sure that the reaction on the nervous system is most trying and injurious.

Mrs. Clancy, whose letter is quoted below, was subject to headaches for nineteen years, and in spite of all the headache remedies she used she could get no lasting benefit. She suffered so severely when the attacks would come on that she could not go about the house. She has restored her nervous system by the use of Dr. Chase's Nerve Food, and her headaches have entirely disappeared.

Mrs. Jas. Clancy, 714 Water street, Peterborough, Ont., writes: "I have used four boxes of Dr. Chase's Nerve Food, and found them an excellent medicine. I was troubled more or less for nineteen years with severe headaches, which made me useless as far as accomplishing my work was concerned.

"The Nerve Food seemed to build me up generally, and so made a thorough cure of my old trouble. I would not think of being without Dr. Chase's Nerve Food in the house and would strongly recommend anyone suffering as I did to give it a trial. It succeeded in my case after a great many remedies had failed."

To the thousands of women who are victims of nervous headaches this letter should prove of inestimable value. If they will but follow the advice of Mrs. Clancy they can be certain of great and lasting benefit.

FAT YEARS OF PLENTY.

Canada's Finances—Receipts Reach Their Highest Figure—Expansion in 25 Years—Deposits Grow Finely.

In the annual report on the public accounts of Canada for 1902, the Deputy Minister, Mr. J. M. Courtney, offers the following remarks:

"I find that this is the twenty-fifth annual report I have had the honor to present as Deputy Minister of Finance. At the time of the publication of my first report, the facilities for keeping in touch with the different parts of the Dominion were very different from what they are to-day. At that time it was a matter of as much difficulty to go from the eastern part of the Dominion to the western part as it is to-day to go from Ottawa to South Africa. The provinces have been moulded into one confederation. The Dominion of Canada has arrived at a stage of development that even the most sanguine Canadian of those days hardly dreamed of, and there is every likelihood that the progress of the coming years will be even greater.

"It has been my pleasant duty and privilege to have taken part during the past quarter of a century in solving many public financial problems, and looking back over the period I feel it can be said that, as a whole, the department has not been unsuccessful in its undertakings.

The Country's Expansion.

"As the business of the country increased the work of the department increased in like proportion. Some idea of this evolution may be inferred from the statement that on my entry upon the duties of the office of Deputy Minister the amount of Dominion notes in circulation of all kinds, large and small, was less than the circulation to-day of the notes of small denominations only ($1 and $2.) The total amount of Dominion notes in circulation has increased threefold. The deposits in the savings banks, both Government and postoffice, have increased sevenfold. Owing to the development of the banking facilities throughout the country, in consequence of the opening of the branches of the various chartered banks, the number of deposit entries for revenue received has very largely increased. The total absolute turnover in cash of the daily transactions of the department has advanced from $85,086,954 on June 30, 1879, to $223,091,827.04 on June 30,1902. All the work entailed by this expansion has been met without the slightest increase in the cost of the department.

"With advancing age, that necessarily prevents me taking up new financial problems, my official career must soon close. The department requires as its deputy head a younger and more active man, thoroughly well versed in the varied features of modern finance, who shall be able to give to the head of the department that advice and assistance which the intricate and important financial questions of the day demand.

Salaries of Officials.

"Perhaps, I might be pardoned if, at the close of my career, when my remarks cannot have any reference to myself personally, I suggest for the consideration of the Ministry whether, seeing the opportunities of betterment that are now presented throughout Canada to men of intelligence, good judgment and industry by reason of the development of the resources of the Dominion, the conditions of the public service are such at present as to attract the best men. Men of this class are needed to undertake the increasing quantity of high class work that the Dominion demands. The employment of the best class of men for the best class of work, at generous rates of remuneration, is the truest economy in the end. Resignations from the service are now of frequent occurrence, and something will soon have to be done to meet this new condition."

Biggest Receipts on Record.

The consolidated fund receipts for the year were $58,060,790, the largest the country ever knew. The expenditure on the same account was $50,759,391. The surplus of receipts over expenditure was therefore $7,291,398. Aside from this, however, there was an expenditure on capital account of $4,626,841 upon the Intercolonial, and $475,995 on the Prince Edward Island railway, of $7,217,528 upon the canals, of $2,100,125 upon public works, of $370,837 upon Dominion lands, of $299,627 upon militia, and of $2,093,939 upon railway subsidies. The sum of $791,089 was paid in iron and steel bounties and $247,741 in connection with the South African contingents and the Halifax garrison.

Increase in Deposits.

At the close of the fiscal year the balance at the credit of the depositors in the Postoffice and Government Savings banks amounted to $58,437,988, an increase of $2,389,029 over the balance held on June 30, 1901; part of this increase, $1,662,258 represents interest added to the various accounts, and the remainder, $726,771 the excess of receipts over withdrawals.

Dominion notes to the amount of $32,780,387 were outstanding on June 30, 1902, as against $27,898,509 on June 30, of the previous year, or an increase of $4,881,878.

The demand for $1 and $2 Dominion notes still continues, as will be seen from the following table, showing their circulation at the end of September and October for each year from 1894:

	1895.	1902.
September	$7,078,592	$11,293,752
October	7,312,917	11,511,447

The railway subsidies paid during the year amounted to $2,093,939.

Unexplored Canada.

You need not go to Africa to find unexplored territory. There is a lot of it on this continent. An attache of the Canadian geological survey recently discovered a new river, 300 miles long, emptying into Hudson Bay. He discovered several new lakes also. Enough unmapped territory remains to make its exploration worth while for those ambitious seekers after new things who do not want to hazard a trip to the north pole.

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

FANCY DRESS.

Chic Effects In Brocades and Quaint Satins.

At this season of the year there are sure to be many fancy dress parties. Some of these take the form of small dances. Last year there was a craze for fancy dress dinners, and this gave greater scope, as far as dress was concerned.

Naturally there are many classical frocks and draperies which look charming at a dinner, but which are rather impractical for dancing.

Perhaps the prettiest costumes are those of the Louis period, for so many

A SMART FUR SET.

people look their best poudre. There is a decided fancy for brocades just now; consequently if you go to a fancy dress ball as a lady of the French court you will be able to use your brocade afterward.

If a thick brocade is utilized, hardly any lining is needed, and it forms a very decided change from the limp fabrics which we are using at present and are likely to use for some time.

Old English and French brocades look extremely well in a brilliantly lighted hall, and with such a costume can be worn the coy single ringlet in the coiffure.

The cut shows a smart boa and muff of gray fox. The hat is of gray velvet and fur. JUDIC CHOLLET.

A Sense of Values.

Mother (to her seven-year-old son William, who has been growing free of speech)—Billy, dear, I will give you 10 cents a day for every day you don't say "darn fool."

Harold (little brother of five, with superior air)—Humph! If "darn fool" is worth 10 cents, I guess I know words that are worth a quarter!—Smart Set.

A Difference.

At a banquet in Ottawa a speaker was greeted with considerable applause. "This reception," he said, "reminds me of the little boy whose mother stepped to the door and called 'Willie! Willie!' After several calls the boy poked his head around the barn and said, 'Do you want me, ma, or are you only jes' hollerin?' "

The duel in the dark was a favorite with duelists. Two men were locked in a dark room and crawled stealthily from corner to corner, until some false step made one of them the target for bullet or blade.

Life is a duel in the dark with disease. One false step, one mistake, and the attack comes swift and sudden. The mistake which commonly opens the way for an attack by disease is neglect of the symptoms of stomach trouble. When eating is followed by undue fullness, belchings, sour or bitter risings, etc., disease is attacking the stomach.

The best way to frustrate such an attack is to use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, and makes the body strong and healthy.

"I was suffering very much with my head and stomach," writes Mrs. W. C. Gill, of Weldon, Shelby Co., Ala., "head was so dizzy when I would raise up in bed would fall right back. Could eat but very little, in fact scarcely anything, there seemed to be a heavy weight in my stomach so I could not rest; I had to belch very often and would vomit up nearly everything I ate. I was in a bad condition. I took four bottles of Dr. Pierce's Golden Medical Discovery and five of his 'Favorite Prescription' and am now well and hearty. I feel like a new woman and give Dr. Pierce's medicines credit for it all. I had taken medicine from physicians without any benefit as I could see."

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

BY THE LITTLE ONES.

A Number of Bright Sayings From the Lips of Youngsters.

Little Elsie—Harry, what is a versatile person?

Small Harry—Why, a person who makes verses, of course.

Teacher—How many kinds of force have we?

Bright Pupil—Three.

Teacher—Name them.

Bright Pupil—Bodily force, mental force and the police force.

Little Margie had been very naughty and her mother was mildly reproving her when the little miss exclaimed: "Mamma, for goodness' sake whip me and stop talking so much about it."

Elmer (aged five)—Mamma, my stomach says it's time for dinner.

Mamma—Well, dear, go and see what the clock says.

Elmer (a moment later)—The clock says my stomach is ten minutes fast.

"Have you made any good resolutions for the new year, Bobby?" asked the minister.

"Yes, sir; one," replied the little fellow. "I've resolved not to fight other boys."

"That's good," said the minister. "And how did you happen to make it?"

"'Cause," answered truthful Bobby, "I always get licked."—Chicago News.

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal. 24

Carefully Educated.

"So you want a job, do you?"

"Yes, sir," replied the boy.

"How long have you gone to school?"

"Ten years, sir."

"Can you read?"

"No, sir, but I can do drawn work and drop stitching."

"Can you write?"

"No, but I have a certificate for proficiency in china painting."

"Can you add a column of figures?"

"Not very well, sir, but I got the highest mark in my class for original research in last year's bird nests."

"What did you learn those ten years?"

"That's about all, sir. You see, I'm only fifteen."—Newark News.

A Billville Romance.

"To prove that I love you," wrote a Georgia swain to his sweetheart, "I'm about to drink carbolic acid for you, an' carbolic acid is the most painful of drinks."

To which the young woman replied briefly and with much sympathy:

"Ef you hain't already done drinked it an' yer mind is made up, why don't you come up to the house an' let dad's mule kick you? It's more sudden, an', what's more, you'd never know it."—Atlanta Constitution.

He Wanted a Chance.

A Scotch preacher who found his congregation going to sleep one Sunday before he had fairly begun suddenly stopped and exclaimed: "Brethren, it's na' fair. Wait till I gang alang, an' then, if I'm na' worth listenin' to, gang to sleep, but dinna gang before I get commenced. Gi'e a mon a chance."—American Weekly.

FIVE MINUTES AFTER APPLYING

Dr. Agnew's Catarrhal Powder you feel the improvement.

At once the new vitality that comes from proper breathing is felt. The cure is begun.

This is not a cheap remedy, but an inexpensive cure. Remedies are but remedies. If a CURE is what you desire, it is waiting for you.

You just drop the tube into the Powder, blow it into the nostrils, and begin to get well at ONCE.

W. ERNEST LEWIS, of West Flamboro, Quebec, states:—"I have been troubled with Catarrh for several years. It impaired the hearing of my right ear. I used Dr. Agnew's Catarrhal Powder and in a week found a marked improvement. I took three bottles and could hear as well as ever."

Dr. Agnew's Heart Cure

Feeds the nerves and the blood. It is LIFE in medicinal form. It transforms the weak and sickly into the well and healthy. It tones all the vital organs. It's the cure for you. 6

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of Itching, Bleeding and Protruding Piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto.

YARICOCELE NERVOUS DEBILITY CURED.

If you have transgressed against the laws of nature, you must suffer. Self abuse, later excesses and private diseases have wrecked thousands of promising lives. Treat with scientific physicians and be cured. Avoid quacks. E. A. Sidney, of Toledo, says: "At the age of 14, I learned a bad habit and at 19 contracted a serious disease. I treated with a dozen doctors, who all promised to cure me. They got my money and I still had the disease. I had given up hope when a friend advised me to consult Drs. K. & K., who had cured him. Without any confidence I called on them, and Dr. Kennedy agreed to cure me or no pay. After taking the New Method Treatment for six weeks I felt like a new man. The drains ceased, worthy veins disappeared, nerves grew stronger, hair stopped falling out, urine became clear and my sexual organs vitalized. I was entirely cured by Dr. Kennedy and recommend him from the bottom of my heart."

The following despatches have been received by E. M. Poussett & Co.:—

New York, Feb. 24.—Amns stocks in London weak throughout the holidays. No immediate bond issues by St. Louis and San Francisco contemplated. Revived rumors of dividend on Republic Steel Common. Saturday's poor bank statement unfavourably affected London market. Gold shipments on Thursday considered possible. Bankers expected harder money rates. People well informed on leather expected no capital adjustment plan at present.

DOW, JONES & CO.

Bank statement was so bad that its sentiment effect will in our opinion lead to further restrictions of bullish speculation and quite likely we will witness further scattered liquidation with the resumption of business and a lower range of values will in all probability be reached during the week. Foreign exchange is at gold shipping point and some probability of a shipment Thursday, together with the heavy load of stocks which various underwriting syndicates are carrying and the continued withdrawals of currency by Govt. on Customs payments together with constantly increasing stock and bond issues makes situation far from being an encouraging one.

M. & M.

New York, Feb. 24.—Republic Steel declared regular dividend 1 7-4 quarterly payable April 1st on preferred. London cable says the tone seems little better. Paris has ceased selling consols. So much uncertainty now attends the passage of Aldrich Bill that I would go slow in buying stocks. If the bill does not pass I should look for lower prices. Content buying C.P.R. foreign exchange about 487 3-4. Paris exchange on London 25 francs 16 centimes. There is no probability of any gold exports by to-morrow's steamers. It is thought that one or two houses were figuring on shipping some on Thursday.

Grain.—Liverpool opening, wheat 1-8 penny higher; corn, 1-8 penny higher; Car lots two days, wheat 21; corn 683; oats 263; 2 p.m.: wheat 5-8 higher; corn 7-8 higher. Strength of Liverpool a factor in grain; Wheat is very firm in Chicago, also corn shows stubbornness to react in the least.

M. & M.

Liverpool cable close wheat 1-4 to 1-2 higher; corn 3-4 to 7-8 higher than Saturday. Liverpool sentiment bullish broomhall cables as reported this a.m. Generally bullish feeling is prevalent in Liverpool and millers are commencing again to buy wheat. Heavier arrivals of wheat in United Kingdom. Wheat 48 964,000. Corn 10,481,000. Oats 5,974,000. Wheat Dec. 16,000. Corn Dec. 9,000. Oats increase 831,000.

M. & M.

OBITUARY.

The Late Miss Charlotte Brown, of Gore's Landing.

Cobourg Sentinel-Star.

We have this week to record the death of Miss Charlotte Brown, who was the last surviving member of the family of the late Colonel Brown, a gentleman who in the olden time figured prominently amongst the most respectable of the early settlers of Cobourg. The Colonel was an enthusiastic military officer, and in the rebellion of 1837 took a leading part in raising volunteer companies in this locality for service against the rebels about Toronto and on the Niagara frontier. The older settlers here will remember the many tales of the adventures of the gallant old colonel and the Cobourg Rifles. The family settled in this locality when Cobourg was but a straggling hamlet, but removed to Gore's Landing over fifty years ago, where he died, and where his wife also died. William Brown, brother of the deceased lady, for many years conducted the business of a grocery store, and was also postmaster, at Gore's Landing, where he and his now deceased sister were beloved and respected by all who knew them. Miss Brown was an amiable lady, and the family were warm adherents of the Church of England. She was over 78 years of age at the time of her death. The remains were brought here from Port Huron, Michigan, where she had been residing for some years at the home of her nephew, to Cobourg, on Saturday last, the funeral taking place from the G.T.R. station to Gore's Landing.

A GUARANTEED CURE
For all Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys.

"Money cheerfully returned if the sufferer is not relieved and improved after the use of one bottle. Three to six bottles effect astonishing cures. If not relieved and cured, you waste no money."

H. S. Macdonald, corner George and Hunter streets, Peterborough.

"Never Struck Better Shape"

That's the verdict of buyers at the sale of the Bradley stock. When you're down town come in and see for yourself. Men who want extra fine suit lengths for spring or summer, or spring overcoats or trousers; ladies who want handsome cloths suitable for skirts, costumes or jackets; boys, who want good suits for school or college—it's no trouble to sell, when everybody can see the cloth is worth so much more money. Stylish imported patterns—it's a mistake to miss them. Then the furnishings are so correct, and the prices so remarkably small. Do not let anything keep you from such surprising bargains. Remember that the stock was bought at 50 cents on the dollar, and it's a quick sale—can't last long at No. 353 George street.

Large Artificial Rubies.

At a recent meeting of the Academy of Sciences in Paris there was presented a paper by A. Verneuil describing his success in making artificial rubies weighing from 12 to 15 carats each by a new process of fusing aluminium. Each ruby at the close of the process splits in two, forming half spheres, which can be worked by lapidaries like natural stones. The color is fine, and lapidaries to whom they have been submitted say that these artificial gems have the same hardness and take the same polish as natural rubies. Unfortunately, or, as some may perhaps think, fortunately, many of the stones thus made, especially when of large size, have internal discolorations and bubbles. But M. Verneuil thinks further experimentation will enable him to avoid these defects.

HELD AN EXPERIENCE MEETING.

Beet Growers Discuss Past Season's Work.

BERLIN SUGAR FACTORY.

Not Discouraged, but Generally Satisfied.

That Beets can be Made a Profitable Crop—Farmers State Their Views on the Matter.

Berlin News-Record.

Now that the season of 1902 is past all the beets are sliced, and the campaign for 1903 nearly upon us, there is an opportunity for sugar beet growers to cast up their accounts and form some opinion of the value of this branch of industry to them. To the end that there might be a free discussion among the growers themselves, a meeting was called in the Berlin Council Chamber on Tuesday evening. The attendance was good, among those present being the following: Messrs. Fred Schaefer, Breslau; M. Cressman, N.Clemens, Lincoln Snider, W. Bielstein, — Byer, J. Musselman, Jacob Snyder, J. Y. Shantz, Isador Snyder, Jos. Snyder, Tilman Moyer, Frank Shantz, Wendel Shantz, Aaron Shoemaker, Allan Shantz, G. W. Rife, Hespeler; S. Detweiler, J. D. Moore, R. Reid, — Bricker, E. Kraft, R. Smyth, B. Hallman, Jos. Fehrenbach, G. Martin, E. Bowman, Bloomingdale, and others.

Nearly all the growers present related their experience during 1902. Every phase of the culture of the beets was touched upon, and some of the speakers went minutely into figures. On the whole it became clear that, although an unfavourable season and lack of experience had been heavy obstacles, the growers are far from being discouraged, and are satisfied that they can make sugar beets a very profitable crop.

Mr. J. D. Moore was moved to the chairman and briefly called upon the speakers.

Dr. Shuttleworth spoke first, explaining the object of the meeting. He pointed out that this is a new industry, and many things would be learned. The dairying business, now so well developed and profitable was in the same stage a few years ago, as the beet sugar industry in Ontario now. Some men learn more than others by observation. Each could help the other. Difficulties have been many, but the Berlin factory has had remarkable success for the first season. Everything has run smoothly and a good quality of sugar has been produced. He urged any of the farmers present who had made any money to tell the audience how they had done it and to throw out any helpful suggestions.

The programme had been arranged so that certain men would speak on the cost and profit of growing sugar beets and others on the culture, but it was soon apparent that these limits could not be observed.

MR. R. REID.

Mr. Reid, who was a big grower of beets, said he felt confident that beet growing was going to be a success. In the light of his experience he would do very different another year. He could keep down the cost of production. Cleaning was a big expense. It was better to prevent weeds than to get rid of them. Land should be well harrowed in the spring, to sprout the weeds, when they could be killed. He would not sow as early, and if the seed did not come up when it should run over with the harrow. He had done this ten days after sowing and got good results. The most was not taken out of the cultivators. The scuffler should be run as close as possible to save hoeing. He could have saved $300 on 100 acres by using the cultivator in this way. The scuffler should be run deep. The harvesting difficulties had been due to clay land and a wet season. Beets must be perfectly cleaned or the increased tare reduces the profit materially. Mr. Reid said he was sure a farmer could raise a few acres profitably and that he could raise 100 acres to advantage given a favourable season and suitable land near town. Mr. Reid's beets averaged 14.9 per cent. sugar and 87 purity.

MR. WENDEL SHANTZ.

Mr. Shantz said his land was not ploughed deep enough in the fall. Both his fall and spring work had been too shallow. Where he expected best beets he was disappointed. He had two acres that produced 33 1-3 tons. Seeding should not be too early say about May 15th, and don't sow until the land is in thorough condition. Sow plenty of seed. He put 20 lbs. to the acre on some hand and had good results. He put the cost of cleaning at $15 an acre, but if was a very exceptional season. He believed he could reduce the cost of harvesting, as it was costing him $2 less an acre at the last than at first. One five acres had yielded him exceptionally well. With five acres of first-class land carefully prepared as for turnips there would be good profits. His beets tested 15.2 sugar, but this could be improved too with experience.

MR. ALLAN SHANTZ, BERLIN.

This gentleman gave minute figures. He had 25 acres, and put the figures this was per acre: Seed, $2.25; seeding, 35c.; drilling, 10c.; cultivating, $1.60; thinning, $8.00; ploughing out, $1.25; pulling, topping, and covering up, $8.00. Total, $21.65. He put the hauling at 75c. a ton. His average yield was 12 1-2 tons per acre, which tested 14.1. Tare 11.5 per cent. Total expense $758.75. Profit $474. Mr. Shantz is well satisfied with the crop.

MR. ISADOR SNYDER.

Mr. Isador Snyder, who had been in partnership with Mr. Wendel Shantz, believed money could be made even with rented land. There had been inexperience, and any other branch of work will lose money if not understood. The speaker impressed the need of good self-thorough preparation and cultivation. Just as in gardening, 1-4 acres well cared for is more profitable than two acres indifferently tilled. His expenses on rented land had been $720.00, and the revenue $827.00. He had thus made 100s money on rented land, and had got a heap of experience. Next year he believed he could grow beets for 1-3 less, and and get a yield 1-3 greater. Considering then that the price will be a little better there should be good profits. He had charged the whole cost of implements to this year's crop.

The Sunshine of True Health and Life After Sickness and Suffering.

Paine's Celery Compound

Rescues a Sufferer Who Was in a Perilous Condition.

The liver, the largest and one of the most important organs of the body, is to thousands of young and old, a source of suffering. It has been truly said that a diseased liver means physical and mental tortures and dangers. The common symptoms of liver complaint are loss of appetite, nausea, vomiting, furred tongue, constipation, impure blood, headache, depression of spirits, and a host of other evils.

Are you a victim of liver complaint? Do you experience any of the symptoms noted above? If so, do not fail to make immediate use of Paine's Celery Compound, the only medicine that directly strikes the root of the evil, and that infuses new life into every inactive organ. Mrs. Rachel McRae, Guelph, Ont., cured by Paine's Celery Compound, writes thus:

"For nine years I have been troubled with liver complaint, and often had very bad spells from it. I called in a doctor who relieved me, but I remained weak, and could neither eat nor sleep, and suffered so much with my head that I procured a bottle, of Paine's Celery Compound, and before I had the contents used I could eat and sleep well, and the pain in my head was gone. I took the second bottle and have never been troubled with liver complaint since. Your compound has built me up and completely cured me.

HOLD YOUR ORDERS!
A DROP IN COAL!

Having received a message on Tuesday from Buffalo, will sell on arrival of coal here, Egg, Stove and Nut, at $6.50 per ton. Small nut $7.00. A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT.
January 19th to 23rd.

Sealskin advanced from	20%	to 40%
Persian Lamb advanced from	10%	to 20%
Astrachan Lamb	10%	to 20%
Racoon Skins	20%	
Skunk Skins	15%	
Mink	15%	
Black Cattle Skins	10%	to 15%
Wombat Skins	15%	
Wallaby Skins	15%	
Australian Coon	25%	
Otter Skins,	10%	
Opposum Skins,	15%	
Martes Skins,	15%	

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

SNOWBOUND TRAINS

Relief Trains With Provisions and Supplies Sent Out.

HAD TO TURN BACK TEN MILES

Present Situation of the Frozen-in Newfoundland Trains—No Cause For Anxiety—The Fact That the Greater Part of the Island Is Cut Off From St. John's.

St. John's, Nfld., Feb. 25.—The belated express trains are again snow bound. One train, after making sixty miles in the direction of St. John's Monday, found further progress impossible, and was sent back ten miles to a divisional point, where supplies of food and coal are stored, which will enable it to remain a long period without causing anxiety.

The other train on the western side of the plateau, in the middle of interior, was unable to retreat to the settlement of Bay of Islands, as had been planned. A working train, with two engines and a crew of fifty men, carrying a month's provisions, started last night in an attempt to cut the express clear and keep those aboard in provisions.

Meanwhile, the other sections of the road are also blocked, but as no trains are moving on them there is no cause for anxiety, except in the fact that the greater part of the island is cut off from St. John's. The first mail into the colony for nearly a fortnight, consisting of 400 bags of British, United States and Canadian mail, reached here last night by the steamer Damara from Halifax. The mails lay at Sydney for a week, awaiting the steamer Bruce, which, however, was frozen in the ice floes in the Gulf of St. Lawrence. They were then sent to Halifax and brought here by the Damara.

REFERENDUM PERSONATORS.

Cohen and O'Melia Sentenced to Fine and Imprisonment For Personation.

Toronto, Feb. 25. — The case against Thomas Caven, deputy returning officer at polling booth No. 26, on Dec. 4 last, charged with neglect of duty, was resumed before Judge McCrimmon at the City Hall yesterday morning. After hearing evidence and argument, Judge McCrimmon said that there was no evidence of willful neglect of duty, and in his opinion Caven acted in good faith. The case was dismissed on all charges.

David Cohen and Joseph O'Melia did not answer when their names were called, and their cases were proceeded with in their absence. It is said these two men have gone to the United States. Cohen was convicted on the charge against him and sentenced to pay $400 fine and serve one year's imprisonment with an additional three months in default of payment within one month.

The evidence in the case of Joseph O'Melia showed that he personated Archie McMaster of 10 Ontario street at Poll No. 7, and that he later returned to the poll and attempted to vote in the name of James Kelly of 9 Ontario street. O'Melia was fined $400 and one year's imprisonment on each of these charges. There are other charges against him, but could not be proceeded with because of his absence.

To Jail For Six Months.

Ottawa, Feb. 25. —Judge Deacon, of Pembroke, yesterday afternoon sentenced Dr. J. B. Hollingsworth to six months in jail and a $600 fine for voting twice at the referendum in December last.

DEATH OF REV. MR. STEEN.

Noted Controversial Clergyman Passed Away Tuesday Morning.

Montreal, Feb. 25.—Death, which has been hovering over Rev. F. J. Steen for the past few days, carried off the sufferer early yesterday morning. Thus has been removed a strong figure in the city's ecclesiastical life. His father a Swede and his mother an American he was born in New York in 1867. He was a professor in the Diocesan Theological College, but his resignation was asked for owing to his strong views on doctrinal points. About a year ago he was the centre of a fierce controversy which threatened the welfare of the Anglican church had not peace been restored. He preached his last sermon on Dec. 14.

Rector of St. Luke's Dead.

Winnipeg, Man., Feb. 25. — Rev. Waddington Clark, rector of St. Luke's Church, here, died from scarlet fever yesterday morning.

$9.45 PROFIT PER TON.

Coal Bought by Dealers For $5.30 Sold For $14.75 Per Ton.

Worcester, Mass., Feb. 25. — The Legislature's special commission to investigate the coal situation has already justified its appointment. Yesterday it was brought out in evidence that several dealers sold coal they bought for $5.30 per ton for $14.75 per ton, thus reaping a profit of $9.45 a ton.

PREMIER ON CIGARETTES.

Will Take Matter Into Consideration—Reply to Deputation.

Ottawa, Feb. 25.—Replying to the W.C.T.U. deputation which waited on the Government yesterday to ask for the prohibition of the manufacture and sale of cigarettes, Sir Wilfrid Laurier said that the facts were now for the first time laid before him, for not being a smoker himself and having no children his attention had not been attracted to the question. All reforms came slowly, he said, and he hoped his fair petitioners did not expect immediate legislation. The Government would take the matter into its serious consideration, probably they had heard that phrase before but they should not be disheartened by its use in this connection, as the matter would be taken up in Council. The Prime Minister reminded his hearers that legislative power was vested in Parliament and that most of the 213 M.P.'s were smokers. They might give up cigarettes but not pipes and cigars.

LICENSE INSPECTOR RESIGNS.

Demands That Rev. T. E. E. Shore Give Particulars of His Charges.

Toronto, Feb. 25.—On Feb. 22, Rev. T. E. E. Shore of Annette street Methodist Church, Toronto Junction, preached a sermon, in which he is reported to have said, "I have been told by a friend that the License Inspector rang up an hotel over the 'phone before making an official visit."

Yesterday J. J. Gearen, the West York License Inspector, wrote an open letter, stating that he has resigned, and demands that Mr. Shore give the particulars of the charge before the authority having power to investigate it.

Rev. T. E. E. Shore, when informed of the substance of Mr. Pearen's letter last night, replied, "I have nothing to say." "Will you accede to his request and make known your informant?" he was asked. "I have nothing to say," was the reply.

ARMY REFORM PLAN.

Winston Churchill Says It Is a Humbug and Sham.

DEBATE OF SIGNIFICANCE.

Premier Balfour Calls Indian Frontier the Key of Britain's Military Position—Should Russia Become Offensive—If House Desired Other Army Than One Required by Cabinet It Must Look to Another.

London, Feb. 25.—When the debate on Mr. Beckett's proposed amendment to the address, in reply to the King's speech at the opening of Parliament, was resumed in the House of Commons yesterday, the attack on War Secretary Brodrick was continued.

Winston Spencer Churchill (Conservative) declared Mr. Brodrick's expectations had only been realized in two directions, namely, in the decrease in the number of volunteers and in the increase of expenditure. There were, Mr. Churchill said, "fewer bayonets and sabers in the British army in proportion to the number of generals than in any army in the world, except the Venezuelan."

The speaker further declared that the whole army scheme was a "humbug, and sham, and was only introduced with the object of militarizing England." He asked where the Government expected the three army corps intended for foreign service were to operate? It was not in South Africa, and such a force was not needed on the Indian frontier, and they certainly could not contemplate the three army corps operating in Canada, for the United States was "no more prepared to invade Canada than Great Britain was prepared to invade the United States."

Mr. Churchill added, amidst cheers: "And long may that salutary neglect continue."

In the course of the debate the Liberal leader, Mr. Asquith, expressed the general feeling when he remarked that the debate was of greater significance than the division on it, and would be remembered long after the Six Army Corps had vanished into thin air.

Premier Balfour, in winding up the debate for the Government, complimented Mr. Asquith on going to the heart of the question, namely, whether the army was too large and costly for the Empire's needs. Of course, he said, the fleet stood first, but there were limits to the uses of a fleet. It was impossible to bring a war to an end with a fleet, which could not even strike a heavy blow at most enemies with which Great Britain might be engaged without a strong attacking force of soldiers, and it would be folly to deprive the country of a means of offensive action in the event of an emergency.

Mr. Balfour contended that three army corps were necessary for work outside the Empire. They had to consider the defence of India. He regarded a war between Great Britain and Russia as in the highest degree improbable, but it was impossible to forget that the Indian frontier was the key of Great Britain's military position in the event of such a war, and without being an alarmist he wished to impress upon them that events moved rapidly in Central Asia.

In conclusion, Mr. Balfour claimed that the Government deserved well of the country. The Government did not trim its sails to popular favor, and if the House desired an army on a scale that the Government thought inadequate, the House must look to another Government.

The House finally rejected by 261 votes to 145 Mr. Beckett's amendment to the address, the terms of which were tantamount to a censure on the War Secretary, Mr. Brodrick. The division revealed fewer defections in the Unionist ranks than had been expected.

Assaulted His Own Father.

Guelph, Feb. 25.—Wattie Cantwell, a well-known laborer in the city, is at St. Joseph's Hospital, and his son, Patsy, is in jail. The father, mother and son live together in a small house over the Dundas bridge. A quarrel arose between the father and son about half-past five last evening, and neighbors allege that Patsy threw the father out of the door, and he lay there for about half an hour. The authorities were notified. A physician found Wattie bleeding at the ear, with a few slight cuts on the face, but there may be a fracture of the skull. The patient is in a rather critical condition. Patsy is a hard case. He served a term in the penitentiary for an assault upon a little girl and four months in the Central for assaulting his father. Patsy was before Mr. Sanders yesterday morning and the case was remanded until Monday.

No Danger.

Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, has proved by analysis that "Sunlight Soap is a pure and well-"made soap, and has a thorough "cleansing power, without danger to "the clothing or skin."

Clothing is worn more in the wash than in use where common soaps are used, and the hands are liable to eczema. Try Sunlight Soap—Octagon Bar—next wash day, and you will see Prof. Ellis is right. No one should know better than he. 223

TO WORKING GIRLS

FREE MEDICAL ADVICE

Every working girl who is not well is cordially invited to write to Mrs. Pinkham, Lynn, Mass., for advice; it is freely given, and has restored thousands to health.

Miss Paine's Experience.

"I want to thank you for what you have done for me, and recommend **Lydia E. Pinkham's Vegetable Compound** to all girls whose work keeps them standing on their feet in the store. The doctor said I must stop work; he did not seem to realize that a girl cannot afford to stop working. My back ached, my appetite was poor, I could not sleep, and menstruation was scanty and very painful. One day when suffering I commenced to take **Lydia E. Pinkham's Vegetable Compound,** and found that it helped me. I continued its use, and soon found that my menstrual periods were free from pain and natural; everyone is surprised at the change in me, and I am well, and cannot be too grateful for what you have done for me."—MISS JANET PAINE, 530 West 126th St., New York City. — *$5000 forfeit if original of above letter proving genuineness cannot be produced.*

Take no substitute, for it is Lydia E. Pinkham's Vegetable Compound that cures.

Daily Examiner.

WEDNESDAY, FEBRUARY 25, 1903.

"SWEARS" HIMSELF.

How a Candidate Tries to Convince his Hearers.

Montreal Daily Star.

Mr. Herbert Lennox, the Conservative candidate in North York, introduced a new feature in the high art of stump speaking the other evening, by solemning taking a Bible from his pocket, and swearing that what he was saying was true. About the only excuse that could be offered for such a blasphemous proceeding, would be that the speaker was convinced of the necessity of such drastic measures. Down in wicked Quebec our politicians usually assume that their audiences will believe them—more or less—when they make a statement. They have no such poor opinion of their own reputation for veracity in the community as to carry about a copy of the Scriptures so that they may swear themselves whenever they wish to be believed.

But Mr. Lennox knows his own people and his reputation among them so much better than we can, that we do not feel like denying the necessity of the astounding step. He ought to be the best judge of that. About all we know of him is that he consented to a "saw-off" of a couple of election petitions, and pocketed $800 cash in that connection. His present campaign consists largely in assuring the people that he did this from motives of the highest honour; so it is not altogether wonderful that he feels the need of a pocket Bible to take the oath upon occasionally.

But wicked Quebec will marvel that Ontario, the Self-Confessedly Very Good, cannot find a candidate for a constituency almost at the church doors of Toronto, the Superlatively Good, who is at least personally under the delusion that he might be believed when speaking in public, without putting the oath to himself. It would be interesting to know what North York thinks of Herbert Lennox when he is out without his Bible—and, if elected, if he will swear himself every time he rises to address the Legislature. It might not be a bad plan up in Ontario for the Speaker to do this regularly as a means of recognizing the member who has the floor.

OMEMEE.

(From Our Own Correspondent.)

The village is about free from contagious diseases. There have been no fatal cases.

There is an unusual amount of timber coming in to the sawmill, and the logs are of the best quality.

J. D. Thornton, issuer of marriage licenses, reports quite a "Rush" this month.

Our Bible Society meeting, held in the Presbyterian church, was very largely attended, and the collections were good.

There was never, perhaps, a more interesting and more impressive service than that conducted by Mr. Potter, a missionary to the sailors and lumbermen. The collections were large. The Presbyterians are anxious for the return of this grand old man.

The Salvation Army amateurs put on the Prodigal Son, composed of twelve characters all made up of their soldiers. No amateurs ever appeared here to better advantage. They will repeat the play at Mount Pleasant.

There is a strong probability of having the Kawartha Navigation Co. extend their route and operation up the Pigeon River this season to Omemee. Tan bark, logs, and Buckhorn granite, towed on scows, will clear out the river in a few days.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects. 3p

HELD AN EXPERIENCE MEETING.

Beet Growers Discuss Past Season's Work.

BERLIN SUGAR FACTORY.

Not Discouraged, but Generally Satisfied.

That Beets can be Made a Profitable Crop—Farmers State Their Views on the Matter.

(Concluded from yesterday)

Now that the season of 1902 is past all the beets are sliced, and the campaign for 1903 nearly upon us, there is an opportunity for sugar beet growers to cast up their accounts and form some opinion of the value of this branch of industry to them. To the end that there might be a free discussion among the growers themselves, a meeting was called in the Berlin Council Chamber on Tuesday evening. The attendance was good, among those present being the following: Messrs. Fred Schaefer, Breslau; M. Cressman, N. Clemens, Lincoln Snider, W. Bielstein, — Byer, J. Musselman, Jacob Snyder, J. Y. Shantz, Isador Snyder, Jos. Snyder, Tilman Moyer, Frank Shantz, Wendel Shantz, Aaron Shoemaker, Allan Shantz, G. W. Rife, Hespeler; S. Detweiler, J. D. Moore, R. Reid, — Bricker, E. Kraft, R. Smyth, B. Hallman, Jos. Fehrenbach, G. Martin, E. Bowman, Bloomingdale, and others.

MR. P. K. WEBER.

Mr. P. K. Weber had one small piece, a little less than one acre, which yielded over 20 tons per acre. He had to sow some of his land twice, the second sowing being about May 25th. This gave good results.

MR. FRANK SHUH.

Mr. Frank Shuh had 20 acres, which averaged over 12 tons and some went over 16 tons. They tested 14.7 and 88 purity. Some land had been in roots before and was not suitable. The government, the company and the farmer must all work together. Foreign sugar should be kept out. He had paid out $335 and had left over $500, which allowed him rent on his land at $10 a nacre and himself good wages. He is ready to grow beets again.

MR. GEO. MARTIN.

Mr. Geo. Martin, of the House of Industry, spoke. His beets tested 15.8. He had learned not to sow beets until the land is warm. Owing to his having a good deal of free labour his figures were not so valuable, but he believes there is money in sugar beets, and pointed out that if a farmer always charged up his labour and rent against other crops as he has against this he would often be in debt. My field yielded me a large amount of cash returns.

MR. BEN. HALLMAN.

Mr. Ben. Hallman had a little less than 1 acre, 10-11 of an acre, and was paid for 16 tons, 400 lbs. He hired everything and had $32.00 left after paying all expenses, not including rent. His small piece had been a great success, and he believed money could be made in growing beets. His soil had been just right, and he got the cream of results.

MR. SAMUEL E. SHANTZ.

Mr. Shantz had 10 acres in all. On 3 acres that were manured he had 18 tons to the acre. The remainder had not been manured for five years. His average yield was 12 tons, test 14.9; tare, 9.6, and cheque $532.

MR. GEO. W. RIFE.

Mr. Geo. W. Rife, of Hespler, had grown 80 acres. He commenced to sow early to get through. With a big acreage one drawback in his case was that much labour was required at once, and this being scarce, some hoeing and thinning was too late. Early thinning gave best results. He had not been so successful as some of the others, yet he had every confidence in sugar beets. It was the best industry that had yet struck Waterloo County.

MR. E. BOWMAN.

Mr. F. Bowman, of Bloomingdale, said he had too many labourers to get best results from them. He thought money could be made on rented land, but should understand the condition of the land. It is a profitable crop to grow, though costs considerable. Yet money had been made more plentiful this winter than ever before.

ME. JACOB Y. SHANTZ.

Mr. Jacob Y. Shantz spoke on harvesting. Some of his land cost $7 an acre and some a little more, but with fine weather he could have reduced the cost $2 an acre. He pitted half of his, which cost a little more. He used tables in harvesting to good advantage. He believed they could be topped with a hoe. By lengthening the prongs on his lifter and elevating them behind, he had been able to raise the beets right out on the surface. He could reduce the cost of harvesting a good deal this year. He had invented a machine for bunching the beets, which did the work of 20 to 25 men, and by actual test gave better results than the hoe.

PULP A GOOD FEED FOR STOCK.

Some little discussion took place on the value of pulp for stock. Mr. Detweiler said he found the fresh pulp increased the flow of milk 25 per cent., and he got more butter.

Mr. Wendel Shantz said the pulp was destined to take the place of turnips and corn to a large extent. The general feeling of the meeting was that the experience with pulp was yet too limited to know its true value.

Messrs. R. Smyth and W. Collard spoke briefly on the benefits to the town and the labouring men accruing from the refinery.

NOTES.

Dr. Shuttleworth said best results from sod can be got by ploughing down clover sod in the summer preceding the crop of sugar beets.

All the farmers had charged a good stiff rent for their rent for their land and ample wages for themselves.

The point was brought out and emphasized that deep cultivation is necessary.

The Ontario Sugar Co. askes us to announce that pulp to the extent of 50 per cent. of the clean beets delivered will be given free to every beet grower.

To illustrate, a one acre contract yielding, for example, 10 tons of clean beets will be entitled to 5 tons of pulp, which is practically two wagon loads. To parties having no contract and wishing pulp a charge of $1.00 a ton will be made.

Beet growers who hold contracts and who may wish more tons of pulp than their entitled portion based on acreage and tonnage as is above explained will be charged only 25c per ton for pulp which is for their own use.

Do not grow corn, turnips, nor mangolds, put your labour on sugar beets.

LABOUR AND CAPITAL TRUSTS

A Perfect, Upright and Perfectly Capable Municipality.

Prof. Smart, of Glasgow University Contributes an Interesting Article.

(Insurance and Finance Chronicle.)

The question arising out of the modern combinations of capital, and the corelated one of combinations of industry, were recently discussed by Professor Smart, of Glasgow University. A very brief sketch is given in "The Review" of this lecture. The features of "Industrial Trusts" are, economy and monopoly. Two of his remarks are highly suggestive:—

"If we could be sure that these huge economies fell into the proper hands—say, a perfectly upright and perfectly capable municipality giving these economies to the people in the shape of cost prices—there would be little to be said against the idea of the trust. But it was not to be overlooked that such economies had a debit side, for works could not be shut down, workers turned off, employers crushed or bought out, and acquired skill made useless, without much individual suffering, and there would be this suffering into whatever hands the economies fell. There were some things in independence which were worth preserving for themselves—the struggle of the small man upwards made for character, resource and initiative. But, as a fact, this argument had practically got its death-blow from the working classes themselves, for the greatest foe of the small producer was the co-operative society."

Where is there a perfectly upright and perfectly capable municipality? Such a combination of perfect qualities never was known and never will be. To expect a City Council, selected at random, chosen for all manner of reasons except their expertness, experience as business managers, to be "perfectly capable" of managing a municipal industry is as irrational as expecting to pick out a dozen of the most learned men in a city by taking the first twelve that were met on the street.

The Professor's point about trades unions and co-operative societies having been the death-blow of the "independence" of the artisan class and "the greatest foe to the small producer," is one that will be vehemently attacked, but it is clear enough that individualism in enterprise and combination to control the prices and the production of labour as well as capital are directly antagonistic.

THINK IT OVER.

Something You can see in any Restaurant or Cafe.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men at the tables; men whose ages run from 60 to 80 years; many of them bald, and all perhaps gray, but none of them feeble or senile:

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavour to live upon bran crackers.

There is a certain class of food cranks who seem to believe that meat coffee, and many other good things are rank poisons, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not do so, and certain foods cause distress one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty because they supply just what every weak stomach lacks, pepsin, hydro-chloric acid, diastase and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus gives a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the travelling public for years have pinned their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages and any druggist from Maine to California, if his opinion were asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

Dropsical Swellings

Backache, deposits in the urine, pain, smarting and scalding when urinating, loss of flesh, rheumatic pains and headache are symptoms of

Kidney Disease

When the swelling takes place about the heart death usually comes suddenly and unexpectedly in the form of

Heart Failure or Apoplexy.

MR. TRENEMAN

The kidneys when in health filter from the blood the urea, which is in reality poisonous waste matter.

When the kidneys are weak and deranged the urea remains in the blood and causes it to become watery and deficient in nutritive quality.

Dropsical swellings are the result. At times the ill-effects are felt about the heart and death comes suddenly in the form of heart disease or apoplexy. With others the legs swell until they become of unwieldy proportions and require to be bandaged.

Dr. Chase's Kidney-Liver Pills prevent and cure dropsical swellings and all the dreadful symptoms of kidney disease. They cure thoroughly by striking directly at the root of the trouble and setting the kidneys right.

Mr. James Treneman, 586 Adelaide Street, London, Ont., states:—"Two years ago I was laid up with kidney disease and urinary troubles. Besides the pain and inconvenience caused by these troubles, I became dropsical, and **my legs would swell up so that I could scarcely go around** at all. Hearing of Dr. Chase's Kidney-Liver Pills, I procured a box, and continued the use of this valuable medicine until now I can say for a certainty that **I am entirely cured.** I never took any medicine that did me so much good, and am firmly convinced that if it had not been for this medicine I would not be working to-day."

Dr. Chase's Kidney-Liver Pills

Are wonderfully successful in curing all diseases which arise from uric acid in the blood. They act directly on the kidneys and liver, invigorate these filtering organs to health and activity and insure their perfect working. In thousands of homes in Canada and the United States they are kept constantly on hand as a preventative and cure for kidney and liver derangements, Bright's disease, dropsy, biliousness, stomach troubles and constipation. There is no medicine that is so prompt and thorough in removing backache, bodily pains and all the distressing accompaniments of kidney disease as Dr. Chase's Kidney-Liver Pills. One pill a dose—25 cents a box. At all dealers, or Edmanson, Bates & Co., Toronto.

MAKE THIS TEST

Allow some urine to stand for twenty-four hours in a glass or bottle. If at the end of that time it becomes cloudy or smoky, or if a sediment like brick dust forms in the bottom of the vessel you can be certain that the kidneys are deranged and diseased.

YEOMAN AT RIPLEY.

Premier Ross Clearly Outlines the Government's Position at Big Meeting of Farmers—Mr. Whitney at Sutton.

Ripley, Feb. 25.—Premier Ross' second address in Centre Bruce was a practical talk on the work of the Government to the electors of Ripley and vicinity. This is a small village in the southern part of the county, but the announcement of the Premier's visit drew hundreds of sturdy Scotch yeomen to town last night, and two meetings were necessary to accommodate the people. The main meeting, which was held in the Town Hall, was successful from every point of view. Many of the old pioneers who left the land of the heather fifty years ago to erect a home in the Canadian wilderness were present, and drank in the words of the Scotch-Canadian leader, who represents so fully the spirit and the ideals of their own native land, and who commands the respect and devotion of his party, as did that other Reform statesman of a generation ago, the Hon. George Brown. It was a great meeting, and the bright and optimistic manner in which Mr. Ross drives home the hard facts of political discussion found good ground in the hard-headed and sensible but appreciative minds of the Scotchmen. Mr. Ross made further reference to Mr. Clark's peculiar campaign, and scored when he said that with no announced policy the Conservative candidate could not be held accountable for what he did. This meeting concludes Mr. Ross' present program, and he will return to Toronto to-day.

Mr. Whitney at Sutton.

Sutton, Feb. 25.—Mr. Whitney was the sole speaker at a crowded meeting in Victoria Hall last night in Mr. Lennox's interest. Mr. Whitney followed somewhat closely the lines of his speech at Newmarket of the night before.

Speaker of Legislature.

Toronto, Feb. 25.—It was stated on the street yesterday that W. A. Charlton, M.P.P., will be chosen Speaker of the House.

KILLED NEAR KALADAR.

Man Thought to Be William Thompson Struck by Train.

Tweed, Feb. 25.—The westbound Canadian Pacific Express struck and killed an old man who was walking on the track about a mile east of Kaladar station yesterday. The man was seen about the station a short time before the train was due, but disappeared, and the next that was seen of him was when the express arrived with the body on the cowcatcher. The man's name has not been positively ascertained, but is thought to be William Thompson.

Killed at St. Thomas.

St. Thomas, Feb. 25.—Arthur Gagnon, a man in the employ of the Dominion Steel Bridge Company, was killed on the Wabash track at St. Thomas Monday night. Gagnon was walking on the siding when a car, which was executing that peculiar railroad manoeuvre known as a flying shunt, bore down on him. The switchman, D. M. McIntyre, shouted to Gagnon to get out of the way, but he did not hear, and was a moment later struck in the face by the car and killed instantly. Gagnon leaves a wife and one child. The body will be interred at Montreal.

ALBERT REAUME KILLED.

A Young Man Dropped Forty Feet From a Tree.

Tilbury, Feb. 25.—Albert Reaume, a young man, aged 20, residing on the St. Clair sideroad, Tilbury East, was killed Monday by falling from the limb of a tree. He had climbed the tree, which was a large one, and had chopped off a hollow limb in which a coon was hidden, when the falling limb struck the one on which he was standing. He fell to the ground, a distance of forty feet, and was killed by the fall. The accident was witnessed by his little brother.

ACCIDENTALLY SHOT.

John Merritt Killed While Hunting in East Flamboro

Hamilton, Feb. 25.—John Merritt, a former restaurant man in this city also a teamster, was killed by the accidental discharge of his gun while going out rabbit-shooting in East Flamboro' Monday. He was found dead in his sleigh. He was about 55 years of age, and had been living on a farm near Millgrove, East Flamboro.'

To Succeed Lord Minto.

Ottawa, Feb. 24. — The Evening Citizen says it was learned from an authoritative source yesterday that Lord Stanley, eldest son of the Earl of Derby, is a very likely candidate for the position of Governor-General of Canada in succession to Lord Minto, whose term expires next year.

To Improve Calcutta.

Calcutta, Feb. 24.—Speaking at the Bengal Chamber of Commerce anniversary dinner last night the Viceroy said a scheme was under consideration whereby the Government of India proposed to find £333,300 for the purpose of improving Calcutta.

10,000 Laborers Wanted.

London, Feb. 24.—Hon. G. W. Ross, Premier of Ontario, has cabled W. T. R. Preston, Canadian Commissioner of Immigration, to the effect that ten thousand farm laborers are wanted in Ontario as soon as possible.

A CHILD'S LIFE FOOD

Physicians speak of fat food as "life food" and say that all children ought to have it in abundance. They say too, that weak, thin, nervous children MUST have fat food and recommend Scott's Emulsion.

It promptly returns sickly; delicate children to rosy health. It is the life of flesh-creating food and keeps the scale of child-health evenly balanced.

Being prepared for easy digestion Scott's Emulsion is readily accepted by the stomach and quickly passed into the blood. There commences at once the repairing of wasted tissues, the enrichment of the blood and the strengthening of the whole system.

Any child who needs more and better nourishment than it seems to be getting from its ordinary food will be greatly benefited if given Scott's Emulsion:

We'll send you a sample free upon request.

SCOTT & BOWNE, 55 Front St., W., Toronto.

AT 3 DOMINION BYES

Two Liberals Were Elected and a Solitary Conservative.

GOVERNMENT NOT SHAKING.

Desjardins Defeats Masson, Terrebonne, by 282 Majority—Ethier Elected in Two Mountains by a Majority of 128—North Grey Contest One of the Most Sluggish Ever Witnessed in That Riding.

St. Jerome, Terrebonne, Que., Feb. 25.—The election yesterday in Terrebonne to fill the vacancy caused by the resignation of Hon. Raymond Prefontaine, Minister of Marine and Fisheries, who elected to sit for the County of Maisonneuve, resulted in the return of Dr. Desjardins, as follows, with St. Lucie to hear from:

Desjardins (Liberal) majorities: St. Jerome, town and parish, 223; St. Therese, 5; St. Agathe, 97; Cordan, 34; New Glasgow, 6; Ste. Anne des Plaines, 178.

Masson (Conservative) majorities: St. Janiver, 36; St. Jovite, 38; St. Adele, 41; St. Sauveur, 117; Piedmont, 9; Terrebonne, village, 10; St. Faustin, 5; Ste. Marguerite, 5.

Majority for Desjardins, 282.

Ethier Wins Easily.

Montreal, Feb. 25.—Corrected returns in Two Mountains show the election of Ethier, the Liberal candidate, by a majority of 128.

North Grey Contest.

Owen Sound, Feb. 25.—One of the most sluggish political contests North Grey has ever witnessed closed yesterday, with a majority adverse to the Liberal candidate of probably 100. Several causes tended to produce this result. The campaign was extremely short, and Mr. Matthew Kennedy who accepted the nomination on an hour's notice, had no opportunity of becoming acquainted with the electors of the townships, with whom his business has not brought him into recent contact. On the other hand, his opponent had been in the field nominally for months, and in reality for years. In Owen Sound, Mr. Kennedy's strong personality won for him a majority a trifle better than the average of recent years. The riding is not so favorable to a Liberal candidate in a Dominion contest as in a Local, and yet in the latter, since confederation, but two Liberals have carried the constituency. Never was the result of an election here so uncertain, even till the closing of the polls, it being the generally expressed opinion that, owing to the extreme lethargy manifested, either candidate might win. Mr. Thomson's extensive personal canvass for months was doubtless, however, the determining cause of the result, especially in the townships where it was impossible for the Liberal candidate to meet even one-tenth of the electors.

The majorities by municipalities will probably be somewhat as follows: Owen Sound, Kennedy 39 majority; Holland township, Thomson, 135 majority; Sullivan township, Thomson 65 majority; Keppel, Kennedy 15 majority; Sydenham, Kennedy 100 majority; Derby, Kennedy 15 majority.

A number of voters from the townships were in town to hear the results, the majority of whom compared the contest to a number of municipal fights, the general feeling among Liberals being that the result of the contest could not in any way be read as shaking the public confidence in the Government, especially as the Conservative candidate on every platform had urged the fact that the Opposition were too weak and should be reinforced.

The Figures.

Following are the results by municipalities:

Owen Sound—Majority for Kennedy, 37.

Sarawak—Majority for Thomson, 68.

Derby—Majority for Kennedy, 12.

Sydenham—Majority for Kennedy, 12, with three places to hear from, that will probably increase the figures by about 40.

Keppel—Majority for Kennedy, 2, with two places to hear from, that will increase the figures to about 20.

Sullivan—Majority for Thomson, 68.

Holland—Majority for Thomson, 136, with Walter's Falls to hear from, which will probably increase the majority to 165.

Argentine Cattle in England.

London, Feb. 25.—The first shipment of Argentine cattle, under the new regulations was heartily welcomed at Deptford. The market was decorated with Union Jacks, red ensigns, and all kinds of bunting. The consignment of 133 head was in fairly good condition, considering they had been 31 days on board. They fetched 3s. 10d. to 4s. 4d. per stone of eight pounds. The meat was being sold in Smithfield yesterday. The average weight of the carcases was 600 to 800 pounds.

When Life is not Life.

"Without health life is not life; it is only a state of langour and suffering—an image of death." The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and instils new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

Edwin Elcome

George Street Choir.

George street choir will practice to-morrow evening at eight o'clock sharp. On account of the interruption of the last two weeks every member is requested to be on hand to resume practice. A full attendance of choir members is also desired at the meeting to-night, also as many members of the other church choirs as can find it possible to attend.

Exclusive Millinery.

After visiting the leading American markets, Miss Noble, millinery buyer for the Turnbull Company, informs her firm that she has secured a beautiful selection of New York novelties in ready-to-wears, which will, on March 10th, be exhibited to customers. Miss Noble in addition has returned to Toronto where she has the privilege of looking over patterns a week previous to the general openings. A note of these facts should be made by the ladies who wish exclusive millinery.

The Firemen's Helmets.

A Kingston paper says that the majority of the firemen of that city do not want the new helmets that are to be purchased for their use to be of leather. They take the ground that aluminum helmets are the only ones that will combine the necessary protection with the element of lightness and convenience. There is some difference of opinion as to which helmets would be the more suitable. However, the matter is likely to be fully inquired into before any purchase is made.

BAND CONCERT

Given in the Opera House Last Night by 57th Regimental Band.

An excellent programme was rendered last night by the 57th Regimental Band in Bradburn's opera house, to a large and fashionable music-loving audience.

The concert was opened by Sousa's El Capitan, which brought back to the minds of many the opera of that name, which held sway in the same hall a few evenings ago. This number was enthusiastically received, as were also the numbers entitled "Harvest Days," and "Mississippi Bubble." Mr. J. Halpany, the well-known local entertainer, was in his usual amusing style, and his song, "Don't forget you're talking to a Lady," was enthusiastically encored. The concert waltz, entitled "Over the Waves," was one of the prettiest pieces given last night, but the real climax came when the band struck up "Godfrey's Reminiscences of Ireland," which had been looked forward to with enthusiasm. The singing of "Nancy Brown," by Mr. Halpany was well rendered.

The march entitled "The Great Captain," by Scantier, was a most pleasing wind up to the programme.

THE SUMMER MEET

Of the Peterborough Turf Club Association.

The summer meet of the Peterborough Turf Club will be held on the 5th and 6th of August next, the Belleville meet on the second week of August, the Napanee meet the third week, and the Kingston meet during the last week of the same month. At the local meet there will be two stake races of the 2.50 and 2.30 class each, for a prize of $500. The entries will close on the 15th April, and two per cent. of the entrance to be paid on the first of May, one per cent. on the first of June, and two per cent on the first of July, on which date the horses must all be named.

There will be many other class races. The Turf Club is sending invitations to all places from Newfoundland to Montana, from Ontario to Kentucky, and have asked for permission to use the "Lift Lock" envelopes. This would certainly be a great advertisement to the town, and the local powers could not do better than let the some 10,000 invitations be sent in these municipal envelopes.

PANCAKE SOCIAL.

Held in St. Luke's School House Last Night, was Successful.

The members of the "Mothers" meeting might well congratulate themselves upon the success they met last night at their social. The Sunday school was crowded with an appreciative audience. The tables were set in the infant class room, where pancakes and syrup, and cake and coffee, were served. The sales table was largely patronized, and almost all the articles were sold. Before the programme began Miss Florence Butcher and Messrs. Wilson gave delightful selections on piano, violin and cornet. About 9.30, Rev. E. A. Langfeldt, who acted as chairman, introduced the audience to Miss Dolly Harcourt and Mr. Bert Stuart, who entertained the audience charmingly, and whose selections were received with loud applause and encores.

The proceedings were brought to a close with the singing of the National Anthem. About $40 was realized.

Change of Business.

The subscriber begs to intimate that he has this day gone out of the retail meat business after 36 years in the trade. I have to thank my customers and the public generally for the kind treatment and liberal patronage I have received at their hands. All who are indebted to me will please call and settle as soon as possible. I will be at the old stand this week, and likely for some time on Saturday evenings. Members of the I.O.F. will find me at the old stand all this week and any Saturday evening from 7 to 9. Messrs. West & Co., who have bought me out, will keep a full line, and I recommend them to my friends.

G. W. POWELL.

WEDDING BELLS.

Nuptials of Miss Lottie Cameron, of Town, and Mr. E. Parker Crossley of Boston.

A very happy wedding took place this morning, at 793 George street, the residence of Mr. Duncan Cameron, the contracting parties being his daughter, Miss Lottie E., and Mr. E. Parker Crossley, of Boston, formerly of town.

Rev. D. O. Crossley, father of the groom, and Rev. J. P. Wilson, pastor of the George street Methodist church, officiated.

The bride looked charming, and had as her bridesmaid her sister, Miss Irene Cameron. Mr. Bruce McFarlane acted as groomsman.

The newly-married couple left for Belleville and ultimately are going to reside in Boston. The wedding was quiet, only the immediate relatives being present. The gifts, some of which came from out of town places, were most costly and useful, and showed how popular the young bride is with her many friends.

MEETING CALLED

Of Town Council and the Board of Trade.

A meeting of the Peterborough Board of Trade is called for Friday evening next in the town council chamber, when the matter of the proposition of the Peterborough Sugar Company will be further discussed. The meeting will be a joint one with the Town Council, and the developments promise to be most interesting. A full attendance is of course desired by the officers of the Board.

SOCIAL AND PERSONAL.

Mr. D. A. McIntyre, of Keene, was up to the Norwood-T.A.S. game on Monday night.

The Misses Hurley were in Lindsay on Monday evening, supplying music at the bankers' dance.

Mr. Henry Thompson, of the old firm of Lee & Thompson, of town, was in Peterborough to-day.

Mr. and Mrs. William Neild of Kamloops, B.C., is visiting friends in town after an absence of several years.

Mrs. James Kendrey and Miss Gertrude, are at the Welland House, St. Catharines, for Mrs. Kendrey's health.

The Rev. D. O. Crossley, formerly of Charlotte street Methodist church, now residing at Bowmanville, was in town to-day.

The many friends in Peterborough of Miss Gussie Daly, daughter of Mr. W. W. Daly, of Kingston, and formerly of town, will regret to learn that she is dangerously ill with typhoid fever.

NEWS NUGGETS.

—Read the "For Sale" advertisements on eight page.

—The choir of St. Paul's church will practice at 8 o'clock to-morrow night.

—There will be skating this evening and the band will be in attendance.

—There will be divine services in St. Luke's church this evening at 8 o'clock.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—There is a certain store on George street which, it is reported, is about about to change its name to Crushman.

—The Ontario Grand Lodge of Orangemen will meet in Peterborough in March. Those entitled to attend are the County Master, County District Master, the District Master and Deputy District Master.

—On account of the absence of the chairman, Mr. R. Neill, the meeting of the Board of Health, which was to have been held yesterday, was adjourned until to-morrow morning at 9.30 o'clock.

—There will be a meeting of Court Young Peterborough, C. O. F., this evening at eight o'clock in the Foresters' Hall, Simcoe street. All members are urgently requested to be present.

WEDDING BELLS.

Nuptials of Mr. R. N. Wyatt and Miss Bessie Wood, of Fraserville.

On Wednesday evening, February 18th, the home of Mr. David Wood, Fraserville, was the scene of much animation and festivity, being the occasion of the marriage of his only daughter, Miss Bessie, to Mr. R. N. Wyatt, of Melita, Manitoba.

The ceremony was performed by Rev. T. P. Steel, of Hastings, assisted by Rev. N. D. Drew, in the presence of a large number of the immediate relatives of the contracting parties.

The bride was attired in white silk organdie, and carried white carnations and ferns. She was attended by Miss Ruby Pue, who was dressed in white silk organdie, over blue and carried pink carnations and ferns.

Mr. Arthur Wood, brother of the bride, acted as groomsman.

The bride was the recipient of a large number of useful and valuable presents, among them a beautiful Bell organ presented by her father.

After a most sumptuous repast, and a very pleasant social evening, the company dispersed, leaving many hearty congratulations for the newly wedded pair. The five o'clock train next day bore the happy couple away to their new home in Melita, Manitoba, where Mr. Wyatt has by his industry and integrity, worked up a profitable business as builder and contractor. The bride is a universal favourite in this district and will be greatly missed.

Many friends and neighbours join with us in wishing Mr. and Mrs. Wyatt many years of happy wedlock.

Fraserville, Feb. 23rd.

GALLERY AMMUNITION.

It is notified in Militia orders that as all the gallery ammunition which is likely to be manufactured in the Government Arsenal, between now and the 31st of May, will be required for instructional purposes in camp and to fill the requisitions already received, no more requisitions for gallery ammunition either on re-payment or otherwise are to be forwarded until after the 30th of June, 1903.

A DEMONSTRATION

Of the Fire Brigade, to Take Place on July the First.

There was a meeting of the local firemen, together with Mr. J. M. Brooks, president of the Turf Club Association, held in the fire hall at 8 o'clock last night, for the purpose of arranging plans for a demonstration, which is to take place on July 1st in the Driving Park, and to which brigades from the outlying districts will be invited. Mr. J. Haggart was in the chair and Mr. Jack Gibbs acted as secretary.

The following committee was appointed for the purpose of inviting the neighbouring brigades to attend: Messrs. J. M. Brooks, A. Rountree, and R. Munroe.

In the forenoon there will be a public street demonstration, and in the afternoon the several brigades will give an exhibition of skill, while in the evening a display of fireworks will be given.

Fully five thousand people from the surrounding district are expected to attend, and from all appearances it looks as though the event will be a most successful one.

YESTERDAY'S FIRE.

The Brigade Called out to No. 356 Charlotte Street.

At 3.45 o'clock yesterday afternoon the fire bell tolled out its death-like note of warning. The brigade was called to 350 Charlotte street, to the grocery store owned by Miss N. Smith.

It appears that Mr. Smith was dangerously ill in bed, when the stove pipes caught on fire, and the rooms became filled with choking fumes. To prevent the smoke getting into the sick room Miss Smith opened the windows of the house. Some well-meaning person seeing smoke issuing from the windows, immediately sounded the fire alarm, and brought out the brigade.

WEDDING BELLS.

Nuptials of Miss Ada Fair, of Bensfort and Mr. Thomas Thorn, of Otonabee.

A very pretty wedding took place on Wednesday, Feb. 18th, at the residence of Mr. Robert Thorn, of Bensfort, the contracting parties being Miss Ada Fair, of South Monaghan, and Mr. Thomas Thorn, of Otonabee.

Rev. J. MacIntosh, of the Centreville Presbyterian church, performed the ceremony. Miss Minnie Fair, sister of the bride, and Mr. William McClellan, of Bensfort, respectively, performed the duties of bridesmaid and best man.

After the wedding, a social gathering was held and a very pleasant evening spent. The lucky couple truly received an overstock of the most handsome and useful presents, and will reside at Otonabee.

THE SECRET OF HEALTH

Is Pure, Rich, Red Blood and Strong Nerves.

You can always tell anaemic men and women. They are pale, weak and languid—the victims of headaches and backaches, easily tired and always averse to exertion. They can't eat or they can't digest what they doe at. Their unstrung nerves kill sleep; their temper is irritable; their vitality vanishes. And it all comes from poor blood and unstrung nerves. You can promptly banish anaemia by enriching your blood and toning up your nerves by Dr. Williams' Pink Pills. They bring good appetite, sound sleep, bright spirits and perfect health. They are incomparably the greatest health-giving medicine that science has yet discovered. All over the world, grateful people prove the truth of these statements. Miss A. M. Tuckey, Oxdrift, Ont, says: "I do not know what would have become of me had it not been for Dr. Williams' Pink Pills. My blood seemed to have turned to water and I was troubled with headaches, dizziness and general prostration. Eventually I became so weak I could scarcely move about. I tried several medicines but they did not help me. Then I was advised to try Dr. Williams' Pink Pills, and I soon began to find great benefit from them, and after taking them for a few weeks all my old strength and health returned."

Don't waste time and money experimenting with other medicines, when Dr. Williams' Pink Pills will surely make you well. You can get them from any dealer in medicine, or post paid at 50 cents a box, or six boxes for $2.50, by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont.

THE EVANGELISTIC SERVICES

Rev. Mr. Kerby in George St. Methodist Church.

An Eloquent and Interesting Address —The Few Remaining Services.

As the time draws near for the departure of the two evangelists, Kerby and Turk, numbers are grasping their opportunity and visiting the George street Methodist church, where the two divines have for the last week been giving their services, and where to-night for the last time, they will give a service to all who care to wish them success in their evangelistic work.

Last night, some time before the hour for the commencement of the service had arrived, the seating capacity was taxed to its utmost.

Rev. Mr. Kerby preached the sermon, with his usual amount of earnestness and eloquence, his subject being "The Five Steps to Christ," for which he took his text from St. Luke 13th chapter and 3rd verse, "I tell you, nay, but except you repent ye shall likewise perish."

The reverend gentleman declared in his opening remarks that if those who were not Christians would take these five steps they would be drawn to Christ. In dealing with the first step, he said it was the step of conviction, or the knowledge of sin; all might take that step, and yet conviction would not save a man. Felix and Agrippa were convicted, but we do not read of their being saved.

The second step is repentance, or sorrow of heart for sin—godly sorrow, which unlike the sorrow of the world, needeth not to be repented of. The sorrow of the publican when he prayed "God be merciful to me a sinner," was instanced, but yet weeping will not save a man.

The third step is the step of confession. There is hope for a man when he is willing to confess his sin. First we need to confess our sins to God, and then to one another, if we have done others injury. "He that covereth his sins shall not prosper; but whoso confesseth and forsaketh them shall have mercy."

The fourth step is the turning away from sin. It means that if you are a swearer or a drinker or are guilty of any other besetting sins, you will quit the sins—and stay quit.

Sin drove our first parents out of the Garden of Eden—closed the gate of heaven and opened the gate of hell. Sin has made you on bad terms with your neighbours, and is hurrying some of you on to an untimely grave.

Sin is a transgression of the law of the universe, of the law of society, of the laws of your own body. Sin is a transgression and rebellion against the father heart of God. Therefore turn away from sin.

There is one step more. If you take this step you are a Christian.

The fifth step is to turn to Christ and rest upon Him as your only hope of salvation.

If you have taken these steps then upon the authority of God's word you may claim the rights and privileges of citizenship in God's Kingdom, and sonship in God's family.

"Never Struck Better Snaps."

That's the verdict of buyers at the sale of the Bradley stock. When you're down town come in and see for yourself. Men who want extra fine suit lengths for spring or summer, or spring overcoats or trousers; ladies who want handsome cloths suitable for skirts, costumes or jackets; boys, who want good suits for school or college—it's no trouble to sell, when everybody can see the cloth is worth so much more money. Stylish imported patterns—it's a mistake to miss them. Then the furnishings are so correct, and the prices so remarkably small. Do not let anything keep you from such surprising bargains. Remember that the stock was bought at 50 cents on the dollar, and it's a quick sale—can't last long at No. 353 George street.

SOME HAPPENINGS AT KEENE

Agricultural Society's Successful Season.

Some Personal Mention in the Picturesque Village—Curlers Return from Toronto.

Two rinks of our curling club took part in the Governor General's Medal Competition in Toronto last week.

As our club has won the district cup two years in succession we are no longer eligible to play in that series, but must strike a pace in more expert company.

A number of our citizens are prey to to the prevalent cold—grip if you like.

The skaters' annual dance is becoming more popular each year and its assembly this season eclipses all former ones.

The Presbyterian choir drove up to Warsaw on Tuesday evening and took part in an entertainment there.

Mr. R. J. McCamus has returned from an extended visit to Toronto.

Mrs. McIntosh, of Cold Springs, is spending a few days here with her father, Mr. W. Newton.

Mr. Henry Newton, has rented the farm of Mrs. Robertson, in Smith, and has moved there this week.

The Buffers and Duffers will settle the question of superiority in hockey in the rink on Thursday night of this week. Don't fail to see this event. Jim Bryce, John McFarlane and Geo. Fife, the lightning forwards of the Duffers, are practising hard.

Quite a number will drive to Norwood Friday night to see the hockey match.

Doctor Echor, the Persian Medical Missionary, graduate of Queen's, gave a very interesting lecture here on Wednesday evening on the "Manners and Habits of the Persians." He will return at once to his native land to take up his life's work.

Mrs. Will Moin and boy Gordon, of Ashburnham, upont a few days of last week with Mrs. A. Campbell.

Miss Joe. Kennaley is spending a few holidays with her sister, Mrs. Whittie, in Sterling.

Mrs. S. E. Miller is spending a few weeks with her mother, Mrs. J. Hazlitt, Harvey street, Peterborough.

Miss Lottie Bell was in Toronto last week.

Warkworth juniors will play the local juniors a game of hockey here on Friday night.

They Y.P.S.C.E. will visit their brethren at St. Andrew's, Peterborough on Monday night.

Mr. James McNeil is recovering from a severe illness. We will be glad to see his genial face on the streets again.

A number of our citizens participated in the miraculous escape in the smash-up on the G.T.R. Saturday. Sam is quite shaky yet.

OTONABEE AGRICULTURAL SOCIETY

Below will be found a condensed statement of receipts and expenditures of the Otonabee Agricultural Society for the year 1902. This report will be of great interest to Examiner readers as it shows what a purely agricultural society can do. It is also well known that no fakirs are allowed on or near the grounds.

Receipts.

Balance on hand as per last report, including fees retained 1901	$400 59
Legislative Grant	107 00
Members' subscriptions	40 50
Donations	57 85
Prize moneys retained for membership fees for 1903	67 20
Admission fees to Exhibition	245 50
Rent of ground, etc.	[illegible]
Miscellaneous receipts	28 99
	$953 33

Expenditures.

By money paid up to December 31st for prizes awarded in 1902:—	
Horses	$ 146 00
Cattle	72 25
Sheep	49 00
Pigs	15 75
Poultry	7 00
Dairy products	5 25
Grain and Seeds	16 00
Roots and other hoed crops	19 15
Orchard and Garden products	17 25
Implements an general manufactures	19 35
Fine Arts	8 35
Ladies' work	33 50
Other objects on exhibition	2 95
	$416 70
Money paid for prizes awarded in previous years	$ 8 40
Rent, lighting and fitting up, etc.	87 65
Working expenses, etc.	60 92
	$517 67
Balance on hand	$445 57

This is a splendid showing especially when the Society has not received one cent from the County or Township.

The arrangements under way for next year point to a much larger fair than in the past. This happy result has been obtained by united and earnest work by the President, Executive Committee and especially our enthusiastic Secretary-Treasurer, Andrew Shearer.

PETERBOROUGH CHEESE BOARD

To Meet on Saturday Next, in Council Chamber.

The 26th annual meeting of the Peterborough Cheese Board will be held on Saturday, Feb. 28th, next, at 1 p.m., in the Town Council Chamber, Peterborough. Officers will be elected for the ensuing year, and the matter of the appointment of an instructor discussed as well as other important business. A full attendance of salesmen and cheesemakers is earnestly requested.

A SONNET.

Written for the Examiner.

To him who worked and waited many years
For Laban's lovely daughter, long ago,
The years were but as days; ah, even so,
Were but my cherished hopes unmixed with fears,
I could forget my struggles and my tears,
The years of waiting doubt has filled with woe,
And in the future fear not any foe,
But, dear, no word of yours the dark way cheers.
And though at times Hope's sunshine flashes bright
And in its warmth I sing a happy song,
Too soon the shadow of dread Doubt's cold night
Creep on, and dark than day appears more strong,
And, struggling more in darkness than in light,
Dear Love, I find the years of waiting long.

Alexander Clavering.

GENERALLY SPEAKING

THERE IS NO DENYING the fact that the letter which appeared in the Examiner a day or two ago, signed "Fiat Lux," in which the general management of the 57th Regiment was severely criticized has caused a considerable amount of gossip in local military circles, and has served as a sort of "Reveillie" for the coming season's operations. As to the general attack upon the regimental and other committees, we will say nothing, further than to assure our readers that there were made many statements that in the light of subsequent inquiry appear to be founded on anything but facts. Had "Fiat Lux" been a little more careful in the obtaining of his "data" and less moderate in his assertions, what honestly was no doubt, his object, viz:—"To endeavour to have the local unit of our auxiliary forces, on whom the country depends in time of trouble, rendered more capable and efficient," might have aroused more sympathy.

• • •

IT IS TO BE REGRETTED that the members of the regiment were not given an outing of some kind during the past season and it is, perhaps, unreasonable to expect young men to drill the season through for sentimental reasons only, without being given a sort of barn-storming expedition such as is customary in all city regiment. The men of city regiments each year look forward with enthusiasm to the occasion of their annual two or three days' trip, when they experience a real taste of military camp life and are able in years afterwards to recall pleasant reminiscences of their connection with their respective corps.

• • •

OF COURSE THE OFFICERS of the 57th Regiment are handicapped as are the officers of any regiment, in the matter of replying to letters in the press such as that signed by "Fiat Lux." It is not military etiquette and it is a breach of discipline so that there is the possible danger of men over fictitious names in the press, abusing their superiors. To maintain a city regiment necessitates a great deal of hard work amongst all ranks, but it needs harmony as well and the public of Peterborough will be sorry indeed to learn of any discord between officers and men.

• • •

THE EVANGELISTIC services, which have been in progress for the past two weeks in Peterborough, have proved to be very largely attended, and the efforts of Messrs. Turk and Kerby will undoubtedly be productive of good results. A noticeable feature of the services has been the absence of the old-time excitable methods, and the calm, deliberate appeal to the "unconverted." Many people who have heretofore been somewhat luke-warm towards so-called evangelists, have been favourably impressed with the sincerity of Messrs. Turk and Kerby, and the unemotional, though convincing, manner in which their services were conducted.

• • •

TO-DAY is Ash-Wednesday, the first day of Lent, and a day of special religious observance in the Anglican, Roman Catholic, Lutheran and many other great branches of the Church. In ancient times ashes were sprinkled on the heads of those who were put to public penace on this day—hence its name. Lent has been observed as a penitential season from the earliest times, though originally the period was shorter. About the seventh century it was extended to forty days in remembrance of Christ's temptation of forty days in the wilderness. The forty days ending with Easter, do not include the Sundays, which are fast days. The season is observed as one of penitence, self-discipline and increased religious devotion, and is marked, (in those churches which use it) by more frequent and solemn services and abstinence from luxuries and social gaieties. Bright colours in the churches give place to purple and violet. A sympathetic acquiescence in Lent is given by many who do not observe the season, and there is in consequence a perceptible lessening of social functions and amusements. The season also affects noticeably the grocery and provision trade, the demand for fish greatly increasing, and that for meat, fruits and sweetmeats correspondingly lessening.

The Beehive

"Whatever We Do, We Do It Well."

Free Lace Class

Our FREE Lace Class begins on **Monday, March 2nd,** and every lady is invited to attend.

All the latest and newest stitches will be shown and taught; also Tenneriffe Wheels and Lace Work.

A full stock of patterns is now in stock. Please make an early selection. At the last day or so it is always difficult for us to give to each one that careful and courteous attention which we always try to do.

The Embroidery Class which is now going on is the largest in the history of Peterough. Under the able tuition of our two competent teachers, all the pupils should make good progress in their work.

Telephone 330.

AN APPEAL TO SHARE IN THE PROFIT AT ROUTLEY'S.

STATIONARY, WALL PAPER, CROCKERY, JEWELRY, WINDOW SHADES.

The result of our Three Days' Sale—Monday, Tuesday and Wednesday—proved to me that we were not advertising in vain, as we have all been kept hustling selling Wall Paper, even although it is out of season. HARDLY WORTH THE PRICE.

Two Men Get Four-Year Sentences For Stealing Pies and Cakes.

Chatham, Feb. 25. — Fred Cook stole some cakes from the store of J. H. Bogart, Queen street. He asked Magistrate Housten to give him a light sentence. The magistrate replied. "You came to Sunday school and said you had reformed, but it seems that what you say is not any deeper than the lips, and that is not very deep." Cook was sent to the penitentiary at Kingston for four years.

Another term of four years at Kingston was imposed upon Albert Parker, a colored man, who stole some pies from Mrs. Moore's restaurant on Sunday night, and then went to the police station for a night's lodging. Parker has a very bad record.

Snow Storm Cost $200,000.

New York, Feb. 25.—It will cost the city about $200,000 for the removal of the snow that fell last Tuesday.

Prices of Iron Rise.

Berlin, Feb. 25.—The prices of iron are rising as a result of the American demand.

Ancient Manuscripts.

The earliest extant manuscript of the Hebrew Old Testament is a copy of the Pentateuch now in the British museum and assigned to the ninth century, and the earliest manuscript bearing a precise date is a copy of the prophets, at St. Petersburg, dated A. D. 916, while the majority of the manuscripts belong to much later periods.

IS THERE ANYTHING MORE UNSIGHTLY THAN TO SEE A PERSON WITH THEIR FACE COVERED WITH PIMPLES?

IS THERE ANYTHING MORE UNCOMFORTABLE AND PAINFUL THAN TO HAVE BOILS?

BAD BLOOD

is the Cause of Boils and Pimples.

Bad Blood can be Cured by

Burdock Blood Bitters.

Mr. Wm. O'Mallay, Madawaska, Ont., writes:—I used to be terribly bothered with boils and pimples, caused by bad blood and run-down system. I took two bottles of Burdock Blood Bitters, and it made my skin nice and clear, and built up my constitution. Any person using it will never be bothered with skin diseases.

MARKET REPORTS.

Grain Prices Are Easier—Visible Supply For the Week—Live Stock Markets —The Latest Quotations.

Tuesday Evening, Feb. 24.

Liverpool wheat futures closed ½d to ⅝d higher to-day than on Monday and corn futures ⅝d to ¾d lower.

At Chicago May wheat closed ½c below Saturday, May corn ⅛c lower and May oats ⅜c lower.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 16,000 bushels; corn decreased 9000 bushels; oats increased 881,000 bushels. Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week of last year:

	Feb. 24,'03.	Feb. 16,'03.	Feb. 22,'02.
Wheat, bu.	48,054,000	48,070,000	54,385,000
Corn, bu.	10,481,000	10,490,000	10,789,000
Oats, bu.	5,074,000	5,143,000	4,064,000

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 77,754,000 bushels, against 76,170,000 bushels a week ago, and 96,377,000 bushels a year ago.

Hogs, receipts, 4215; slightly easier; State hogs, $7.55; common, mixed western, $6.75; State pigs, $7.40.

County Constable Suspended.

Brantford, Feb. 25.—County Constable Armour of Onondaga has been relieved from duty till the June sittings of the General Sessions. He is alleged to have exacted money from certain persons under arrest.

Into Load of Sawlogs.

Delhi, Feb. 25.—The Wabash express, due here at 6.50, ran into a sleigh loaded with sawlogs, on a crossing, about three miles east of here. No damage was done beyond smashing the cow-catcher.

$250,000 to a Dancer.

Berlin, Feb. 25.—Isadora Duncan, the California dancer, has been supplied with $250,000 by subscriptions from her admirers with which to build a theatre to be called by her name.

For Willard Memorial.

Springfield, Ill., Feb. 25.—A bill appropriating $9,000 for a life-size statue of the late Francis E. Willard was passed by the Legislature yesterday. It will be placed in Statuary Hall at Washington.

Finnish Governors Dismissed.

St. Petersburg, Feb. 24.—The Czar has dismissed four Finnish governors for opposing the policy of Russia. The remaining three provinces of Finland will in future have Russian governors.

Four Mail Clerks Burned to Death.

Cleveland, O., Feb. 25.—As the result of a head-on collision between a west-bound passenger train and an east-bound freight train, a mile or two east of Bereau, Ohio, on the Big Four Railroad, Monday night, four mail clerks were burned to death and several trainmen were more or less seriously hurt.

Eczema and Itching Skin

Defied Many Expensive Remedies but Were Thoroughly Cured by

Dr. Chase's Ointment

It is a mistake to judge Dr. Chase's Ointment by the results obtained from the use of ordinary salves and ointments. It is not to be compared with any preparation on the market to-day.

Some of these remedies give temporary relief but they do not strike deep enough to eradicate disease. You need not be alarmed if Dr. Chase's Ointment causes a little irritation at first; this is necessary in order to root out the disease. When the cure is brought about the skin will be left smooth and clear, without scar and blemish.

Mr. Hiram Frey, Norwood, Ont., states: "I was troubled for ten years with eczema on one leg. The itching was terrible, and when scratched the blood would come. Fortunately I heard of Dr. Chase's Ointment, and its persistent use has completely cured me. There is now no trace of the disease left.

"My little girl, two years old, has also been cured of Eczema by Dr. Chase's Ointment. Her face was a mass of sores and we hand to bandage her hands to keep her from scratching it. To-day her face is clear of even the scars which the ugly sores made, and she is thoroughly cured. I am glad of an opportunity to let people know what a blessing Dr. Chase's Ointment has proved itself to us."

Miss Levina Diotte, Clarence Creek, Ont., writes: "I suffered with eczema for over a year and a half and tried all the remedies I could hear of, some of them costing considerable money, and not doing me any good. I was enduring great torture when I read an advertisement of Dr. Chase's Ointment, and resolved to give it a trial.

"I began using Dr. Chase's Ointment, and it has completely cured me. Though I do not need it any more I keep a box in the house in case of emergency. I hope that people who suffer as I did may read this testimonial and for this reason you have my permission to publish it. It is only just that such a good remedy for eczema and itching skin should be made known to those who suffer."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

A LEGACY TO CANADA

THE PRESENT ALASKA BOUNDARY DISPUTE OF LONG STANDING.

How the Dispute Originally Arose—What Is the Coast?—Determination of the Line Is a Legal Question—Law and Usage—The Area in Dispute—Canada's Chief Contention Is for an Outlet to the Sea.

Neither Canada nor the United States can claim to be an original party to the Alaskan dispute which is at last to go to a sort of arbitration. Uncle Sam bought his share of the contention from Russia; Canada received its portion as a legacy which British Columbia had inherited from British Governments.

How the Dispute Arose.

The boundary dispute takes us a long way back. One hundred and sixty-two years ago a Russian explorer named Behring accomplished a feat to which we now owe the present problem. He led an expedition to the north-eastern extremity of Siberia, crossed a narrow strait, which he named the Behring Strait, and reached the Continent of America at the north-westerly extremity. This new country he named Al-akshak, or "mainland," and that word has been corrupted into Alaska. Behring was followed by fur hunters, who found abundance of sea otter, seal, and beaver. After these came the great Russian-American Fur Company, the officers of which for 63 years were the lords of the North in that part of the world.

Meanwhile the British had invaded the district from the east, and were exploring and occupying the country through the agency of the North-West Trading Company, whose operations extended from the Arctic Ocean to the Gulf of California. It soon became necessary for Great Britain and Russia to fix the limits of their respective territories, which they attempted to do by the Treaty of 1825. This treaty is the basis of the present controversy. Its alleged inaccuracies and ambiguities have kept the boundary question unsettled during more than three-quarters of a century. In 1867 when the United States bought Alaska from Russia for $7,200,000, the Russian side of the controversy passed over to the Republic, and the same year saw the birth of the Dominion of Canada, which eventually took over the British side of the case.

What Is the Coast?

Many interesting points have been raised in connection with this particular treaty, but the most important, so far as the boundary is concerned, is "What constitutes the coast of the the ocean?" Under article III. the boundary line was to follow the summit of the mountains situated parallel to the coast. By article IV. it was provided that wherever the mountains were more than ten leagues (30 miles) from the coast the boundary shall follow the windings of the coast, but never exceeding ten leagues therefrom. Now several questions arise in this connection. Does the coast constitute the outer fringe if islands or does it begin with the mainland? If it is confined to the mainland, does the coast follow all the bays and inlets to their head even when that would carry the boundary far beyond the range of mountains? If it does, some very remarkable results are obtained. The Lynn Canal, which at its widest outlet is only four miles and three-quarters wide, would carry the boundary 70 miles inland, and then 30 miles beyond tidal waters. Another inlet, Glacier Bay, is only three and a half miles wide, and extends 45 miles inland. The contention of the United States is that the boundary follows the shores of these inlets as though they were the shores of the ocean. The effect of this contention of sustained would be to deny Canada any outlet to the Pacific along four or five hundred miles of coast where it has been specially agreed that there shall be free and uninterrupted traffic to and from the interior. It was stipulated by Russia in the Treaty of 1825 that Russians should always have the privilege of resorting to British harbors in case of necessity, yet, under the reading of the United States authorities, there are to be no British harbors whatever.

Law and Usage.

The determination of the coast line is a legal question on which there has been much controversy. Many authorities might be quoted to show that where the coast is identified with bays it is customary to draw an imaginary line from one promontory to the other. The law of some of the States of the neighboring Union is specific on this point. Some of them enact that "when an inlet or arm of the sea does not exceed two marine leagues in width (six marine miles) between its headlands, a straight line from one headland to the other is equivalent to the shore line." And this view has been sustained by the Supreme Court of the United States, which has declared that "bays wholly within the territory of a nation, and not exceeding six miles at the mouth, are part of the territory of the nation in which they lie." In this connection it is only fair to point out that the Lynn Canal has three ocean outlets caused by the islands that lie at its mouth, and that though no single outlet aggregates six miles, they all combined make eight miles. It has, however, always been judicially held that in such a case each island is considered as part of the shore.

The Area in Dispute.

So far as Canada is concerned, the main contention has been for an outlet to the sea. Indeed the Canadian Government offered on a recent occasion to abandon the claim to the greater portion of the territory, including Dyea and Skaguay, provided it was conceded that Canada had the right to Pyramid Harbor, which would afford it a highway into the interior. This proposal was declined. We fall back, therefore, on the territorial rights originally claimed, less the important concessions made in the new arrangement. Altogether the territory and inland water in dispute is about 320 miles from north to south, and 14 to 70 miles wide, It is a territory which is said to be rich in gold deposits. It has very valuable fishing grounds.

What It Means to Us.

But still more important is the fact that, according to the United States contention, it bars the way between the Canadian Yukon and the sea. This renders it possible for the United States to control the natural entrance to Canada's important gold fields. We have now in that far-off country, close to the Arctic Circle, a city in which twelve millions of Canadian capital have been invested. Dawson City is now a fixture, with all the adjuncts of a growing metropolis. Its trade and that of the surrounding country, which is serviceable for agriculture as well as mining, has to go through United States channels, and, to be subjected to all the inconveniences and expenses of passing through a foreign country. In a military sense the situation is embarrassing.

Uncle Sam has sought to corral the Canadian Yukon, and, now he has submitted his case to arbitration on terms however that are not above criticism.

Woman's Weakness

A woman's reproductive organs are in the most intense and continuous sympathy with her kidneys. The slightest disorder in the kidneys brings about a corresponding disease in the reproductive organs. IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto * * The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

H. F. LINDSAY,
District Manager.

OFFICE—226 Market Arcade Peterborough.

JUST A COLD SETTLED IN THE KIDNEYS, BUT IT TURNED TO DROPSY.

IT WAS CURED BY

DOAN'S KIDNEY PILLS.

Read of This Wonderful Cure. It May Do You or Your Friends Some Good to Know About It.

Miss Agnes Creelman, Upper Smithfield, N.S., writes:—About 18 months ago I caught cold. It settled in my kidneys, and finally turned into Dropsy. My face, limbs, and feet were very much bloated, and if I pressed my finger on them it would make a white impression that would last fully a minute before the flesh regained its natural color. I was advised to try DOAN'S KIDNEY PILLS, and before I had used half a box I could notice an improvement, and the one box completely cured me. I have never been troubled with it since, thanks to DOAN'S KIDNEY PILLS.

Price 50c. per box, or 3 boxes for $1.25; all dealers, or The Doan Kidney Pill Co., Toronto, Ont.

LONG BROS. TWO STORES—

Nos. 336 and 414 George-St.

Derivation of Word "News."

"News" is nothing more than a plural formed from the adjective "new," greated as a substantive. The singular was once spelled NEWE and the plural was once spelled NEWES. Each word was then regarded as a dissyllable, and was so pronounced. Like the word "tidings" the word "news" is now plural in form, but singular in sense. Though the latter contains the initial letters of the four points of the compass, the explanation usually given is only a fanciful way of deriving the word. The four cardinal points of the compass are North, East, South, West, not North, East, West, South.

"New" is from the same root as "now," and, as Professor Skeat observes, it means "that which is now," "news," therefore, is something recent, or something belonging to the present time.

Tess—He said I looked handsome in that gown, didn't he?

Jess—Not exactly. He said that gown looked handsome on you.—Philadelphia Press.

What He Stood On.

When Mr. Disraeli made his entrance into public life, he contested High Wycombe, and then, as ever, his ready wit helped him to success. His opponent, says Household Words, was a countryman of influence. In an address to the people this gentleman asserted that he was "standing for the seat upon the constitution of the country, upon the broad acres of his fathers, upon law, property and order."

"What does Mr. Disraeli stand upon?" demanded one of the county magnate's adherents, with somewhat of a sneer.

Disraeli instantly rose. "I stand upon my head," he answered, with a meaning glance at the portly person of his opponent. He proceeded to demonstrate it in a telling speech.

When a woman is nervous her imagination gives fantastic and threatening shapes to the most familiar objects. By day she starts in fear at every sudden or unfamiliar sound. By night the furniture of her room takes on affrighting forms of ghost or goblin. You can't reason with the nerves. Neither logic nor love can quiet them. They must be nourished and then the outcry of the nerves will cease as naturally as a hungry child ceases to cry when fed.

For nervous women there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It cures the diseases which produce nervousness in women, irregularity, debilitating drains, inflammation, ulceration and female weakness. It tranquilizes the nerves, encourages the appetite, and induces refreshing sleep.

"When I began taking your medicine I was not able to stand on my feet ten minutes at a time," writes Mrs. Hattie Borradaile, of 113 Spring Street, Nashville, Tenn. "Had falling of uterus, and kidney and liver disease, and was so weak and nervous I could not keep still. Would take nervous spells and almost die at times. I had several different doctors attending, but they could not do me any good. The last one I had said I would never get up again. Told him that I was taking your 'Favorite Prescription' and 'Golden Medical Discovery,' and he said, 'Might just as well take that much water each day.' But I thought I would give the medicine a fair trial. Before I had finished the first two bottles I was able to get outside the house and walk around the yard. I kept on taking the medicines and they cured me."

Dr. Pierce's Pellets cure biliousness.

UTILIZING WASTE FOR FUEL.

These Coal Famine Times Should Encourage the Use of Briquettes.

Among the several branches of German industry which deserve attention because of their economy, their recovery or utilization of some raw material which exists unused, or because they involve the most intelligent application of scientific knowledge to technical processes, may be reckoned the manufacture of briquettes from brown coal, peat and the dust and waste of coal mines. Canada is well prepared by nature to reduce this question to her material advantage.

Briquettes form the principal domestic fuel of Berlin and other cities and districts in Germany, they are used for locomotive and other steam firing, and are employed for heating in various processes of manufacture. For all these uses they have three tangible advantages: They are clean and convenient to handle; they light easily and quickly, and burn with a clear, intense flame; when made of lignite or peat they burn practically without smoke and are withal the cheapest form of fuel for most purposes, says Frank H. Mason in Cassier's Magazine for January.

Like most other important German industries, the briquette manufacture is controlled by a syndicate which includes among its members thirty-one firms and companies, or more than nine-tenths of all the producers in Germany, and regulates the output and prices for each year. From the official report of the syndicate for 1901, which has recently appeared, it is learned that the total output during the year was 1,566,385 tons, to which is to be added the product of makers outside the syndicate, consumed at works, small retail sales, etc., making a grand total of 1,643,416 tons.

It need hardly be said that the general use of briquettes for domestic fuel in a large, densely built city, as well as for generating steam in a number of electric generating plants and factories, must have a decided and beneficial influence in reducing the smoke, which in many places has become a persistent and oppressive nuisance. Berlin, although a busy manufacturing city, ranks as one of the cleanest and best kept in Europe.

The Troubles of a Judge.

In a moment of absent-mindedness we consented to officiate as one of the judges at the carnival last week, says the editor of The Aylmer, Ont., Sun. At that time we thought we knew all about fancy and comic costumes, and that it wouldn't take us two minutes to convince our confreres who should have the prizes. Before the work had been in progress two minutes, we were perfectly willing for the other fellows to do the judging, while we acted as secretary. They would not have it that way, and it took the three of us nearly two hours to award ten prizes. And it seems that there were at least a dozen in every class who should have had the prizes rather than the ones we picked out. The critic could not get at the other judges very well so we had to take all the abuse, which continued until the hockey match last night switched their attention. About 200 who were not in costume, but were waiting for a skate, have refused to recognize us since, while our little girl whom we left in the band room for the "few minutes" while we did the judging, got mad and went home, nearly frozen. 'Ever act as judge at a carnival? Try it some time, and then come to this office for sympathy.

The following despatches have been received by E. M. Pousett & Co.:—

New York, Feb. 25. — There is continued all round improvement in market. Americans hardening. South Africans up 1-8, other departments firm. It is now considered improbable that there will be any change in bank of England rate.

New York, Feb 25 (letter)— Wall street is looking to Washington now to pass the Aldrich Bill. Its passage is now regarded as necessary to stimulate confidence and prevent market from running into some weakness, as it is generally recognized that unless that bill or something like it is passed to help the money markets we will have a repetition this fall of acute money stringency experienced last autumn. The market closed firm yesterday, and there may be some further improvement to-day, but Wall street seems to centre its hopes in the Aldrich Bill and until something more definite is known of its fate, we look for a narrow market.

United States Leather meeting to-day. Labour situation on Wabash still critical. Reported J. P. Morgan going to Havana. Prospects for passage of Aldrich Bill considered very good. No truth in rumours association seaboard with Frisco. Some demand in loan crowd for S.P., U.P., B.O. and W.A. preferred. Advance in price of wire produce important help to U. S. steel earnings. Bank lost to sub-treasury since Friday, $1,150,000. Bankers expect hardening money up to end of March. C. P.R. earnings for 3rd week Feb. increase $66,000. International will probably issue bonds.

DOW, JONES & CO.

Messrs. Haight & Freese have received the following:—

New York, Feb. 24.—Unsettled opening is likely in stock market this morning. This is favoured by the very bad bank statement published on Saturday and the bears will probably take advantage of it to try to depress prices. Turkey having yielded to the powers regarding Macedonia that situation is temporarily removed from consideration, although the matter is not settled; attention will be turned again to the possibility of gold exports and the signs that money on time is likely to become tighter.

These features will probably operate for hesitancy in the stock market and we are inclined to look for irregularity to-day. Specialty advances will not be interferred with and we are bullish. London market for mornin gstocks was heavy.

New York, Feb. 24. — The faith syndicate, Morgan Baker and Stillman will, if necessary, resurrect the $50,000,000 confidence pool. These tip-top financiers pooh, pooh, however, the talk of tight money. They know the ingredients that enter into the weekly bank statements, and are not even mystified thereby. The rank and file of professionals are bearish on R. R. shares. Insiders are buying on B.R.T. on knowledge of an impending deal. Big short interest in N.Y.C. Temporarily trade except in industrials for quick profits but keep an eye on Washington for news on Aldrich bill. Buy U. Pac. or Atch. on early weakness. Hold leather and copper.

New York, Feb. 25. — The declining tendency received its first check at the very opening when although there was stocks of the St. Louis and San Francisco for sale at various moderate advances, the pressure to buy was so keen that the first price was 6 1-2 above the last previous price. The stock reacted somewhat later in the day, but retained a gain that could hardly exist were it not for the consumption of important matters affecting the company. A great deal has been said and printed of a war which exists between the Penna. R.R. and the Gould system regarding the latters access to the Atlantic seaboard.

New York, Feb. 25. — Sentiment seems to be a little more cheerful in spite of the tightening of money. This is largely based on the hope that the Aldrich Bill will pass which would effect to a large degree, the effect of strength in the money market by abolishing the sub-treasury drain. One thing that operates against extensive bullish manipulation at present is the probability that it would cause a stiffening of all money rates as well as time money.

The general list may drag somewhat to-day. Gold exports are averted for the present by the tightening of money.

Stocks ready for specialty advances are rubber goods Am. Copper and leathers preferred. Pending deals should send Frisco issues higher. London market for Americans irregular.

TOPICS.

Liverpool—Wheat, futures quiet, May 3-8 lower. Corn inactive, 1-4 lower.

Passage of Aldrich Bill looks probable. Sales on firm spots should be covered for quick profits. Big short interests Pin Penna., both Pacifics, and New York Central. Buy these on slight dips for a turn at least. Hold some copper. Keep long of steels. Mex. C. good for 35. Buy L. & N.

JOSEPH.

New York, Feb. 24.—Wabash issues were the feature of to-day's market. The preferred made considerable headway and a new record price. M.O.P., Texas Pacific were also heavily bought. Taking the day as a whole it was a good one for buyers. During noon hours market was inclined to dullness with prices holding firm. Even if dullness does prevail for the time being everything is working for a better and a broader market whenever the market leaders start the ball rolling. Despite the car shortage it is believed the receipts at primary points of wheat, corn and oats will be tremendous and will furnish excellent arguments for the bulls on the approach of spring. It will help in particular Atch.... U.P., M.O.P. The strength of the market is very noticeable in standard shares. Feel extremely bullish on the present situation and have no hesitation in advising our customers to enter the market as think now is an opportune time to make new committments. With the return of big professionals from the south the usual spring bull movement will be inaugurated. This generally is started about the 15 of March. Slight reaction occurred in the afternoon but of small consequence. Advise taking advantage of these slight set-backs to add to your holdings.

Chicago.—Wheat, after a decidedly strong opening and a good strength durin gthe early part of the session, market eased off a cent on profit-taking. Buying power seems somewhat limited at present writing although on any further decline think purchase of July option will show handsome returns. Corn remains steady.

Closing prices — Wheat, May, 77 1-8 a 1-4; corn, May, 45 3-4; Oats, May, 35 1-8; Pork, May, 17.65; Lard, May, 9.57 1-2 a 9.60.

Toronto.

REV. JAMES WALLACE M. A.,

Has Been Invited to Become Pastor of St. Andrew's, Lindsay.

A meeting of the congregation of St. Andrew's church, Lindsay, was held on Monday evening to moderate in a call to a minister. A resolution was unanimously adopted extending a call to Rev. Jas. Wallace, M.A., B.D., who is at present an assistant tutor in Queen's University, Kingston. The call will be presented to the Lindsay Presbytery at a meeting to be held at Uxbridge on Tuesday, March 17.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

LATEST IN SPORTING CIRCLES

Peterborough Curlers Defeated in Orillia.

Firemen to Play a Team From Lock Works—Port Hope vs Peterboroughs

CURLING.

CURLERS AT ORILLIA

The five rinks who went to Orillia yesterday, returned home this morning, in very dejected spirits at their defeat, but very enthusiastic over the hospitality of their opponents. After the games were over the vanquished and their conquerors went to the Orillia House, where they were given a most magnificent banquet. It is reported that both Mr. Robert Neil, of Peterborough, and Mr. J. Shepard, of Orillia, have each given $50 towards a trophy cup the possession of which will be each year contested by four rinks from Peterborough and Orillia.

* * * *

A rather exciting game for a medal was played last night at the Charlotte street rink, and Mr. C. N. Brown has the distinction of being the winner. The first game was as follows:

J. S. Knapman	C. Rutherford
C. N. Brown, sk...17	S. Ray, sk...10

The winner of the medal had then to be decided, and for this Messrs. Knapman and Brown played two ends, the score being 4 to 2 in favour of Mr. Brown, who is to be congratulated on his success.

HOCKEY.

T. A. S. VS. NORWOOD.

The public is reminded of the match at Norwood on Friday night next, when the T.A.S. will play the Norwood seven. A special train will be run down in order that the expected number of local supporters may be conveniently transported. This match should be most exciting as each team seems confident of victory.

LAST NIGHT'S GAME.

What proved to be an amusing contest was the hockey match between the Brownie and Harrier Basketball teams of the Y.M.C.A., which was played last night between 10 and 11 o'clock. The midgets had by no means an easy victory, although they had a mixture of bankers, Culls, and Colts. The Harriers had Dooleys, harnessmakers, druggists, etc., who were able to give a prescription hard to fill. The score at half time was 1 all, and 4—2 at full time in favour of the Brownies.

FIRE VS. STEEL.

The teams from the Lock Works and Fire Station have arranged to play a hockey match for an oyster supper. The event will take place to-morrow night at 8.30 sharp.

REVIEW VS. EXAMINER.

The Review has at last come up to the scratch. After standing a series of bluffs for the past two months, and after indirectly endeavouring to arrange a "saw-off," they have been forced to accept the challenege of the Examiner staff for a game of hockey. The event will take place on Saturday evening next, and promises to be the match of the season. "Premier" Ross, manager of the Examiner team is taking every precaution to prevent attempts at personation for it is whispered that Messrs. Moore, Bradburn and Jolliffe of the Review are looking for "doubles" who can play hockey, but of course handsome men are scarce now-a-days.

THE PIG IRON TIGERS.

The following has been contributed:

It was a very poor game. The Pig Irons won, but did not appreciate the glory that they gained by defeating the Sugar Barrels, or at least the Lobster Cans, for that is what they proved to be. Jack Cock's aggreagtion witnessed the game between the T.A.S. and Norwood, and when the time came for the second game between the Pig Irons and the Grocers, the former won by default of the latter. Dick Desautel, the lightning forward of the Grocers, was too fast to play, and stayed on the fence and watched the Tigers practice. Carlos Waller, the lion tamer, was afraid to tackle the job of taming those Tigers, which have been fed on Quaker Oats for the last two months, and were backed to a finish by Laird of the Cereal works and all the other employees. The Tigers' formidable line up badly frightened the Grocers.

The line up was as follows:

Tigers — Tix Morgan, centre, Moses Lowry, rover; Nicholls, right wing; Thornton, left wing; Squires, cover point; Brown, point; Best, goal.

Dinny Hobbins, Dagger McAuliffe, Sliver Matchett and Will Higgins were looking after their pets, the Pig Irons, who would like to arrange a game with the B. F. Ackerman team.

DIKE'S HAIR.

The most important event in Belleville last night, outside of the defeat of the Marlboros, says the Toronto Star, was the fact that "Dike" Maguire had had his hair cut. He wore a knitted cap all the first half and the astounding news was not broken to the spectators until the teams took the ice again. The cap was gone, and around the rink from mouth to mouth, like the muffled roar of a distant cannonading went the cry, "'Dike's' got a hair cut!" "'Dike's' got a hair cut!" Closer observation disclosed the fact that he had more than one hair cut, but that was a natural mistake, as there was still enough left to keep a couple of tonsorial artists busy for an hour or two.

RACING.

JACKSON'S REPLY.

To the Sporting Editor of the Examiner:

Dear Sir, — I think if Mr. O. Dusty is as anxious to skate a race with me as he said he was it would be more to the point if he would try and make arrangements with the rink company, instead of wasting time in newspaper talk. Even if he had to rent the rink for a night, it would be nothing more than I had to do for our first race. As to the prize, I think that if he is not satisfied with the door receipts, after the expenses are taken out, he is not very anxious to race.

I am, yours truly,
WALTER E. JACKSON

TURF.

HARWOOD'S WINTER MEET

The Harwood Turf Club, which has a good track on Rice Lake, will hold its winter meet on Thursday next, March 5th. There will be two races, best three out of five heats — the Free for All, for a $30 purse, and Green Race, for like amount. Purses are divided into $15, $10 and $5. Mr. P. Cluman, town, will act as starter. This will afford an excellent opportunity for an enjoyable drive, as the distance is only 15 miles from Peterborough.

LACROSSE.

TELEGRAM'S VIEWS

The Toronto Telegram says:—Peterborough will likely jump into C. L.A. lacrosse again this summer. The town league last year developed some good material and a strong intermediate team can be placed in the field. But how would Peterborough's return to the C.L.A. affect Port Hope? Glover and McCabe could hardly play with Port Hope if there was a team at home and the loss of these players would leave a bad hole in the Port Hope team. Of course Oshawa's old friend has Roach and Masterson to call on, but it's doubtful if even the National stars could fill the place of the Peterborough boys.

BASKETBALL.

BROWNIES HAD PRACTICE.

The Brownie Basketball team had a practice last night between seven and eight o'clock, and the Arrows will practice to-night between seven and eight in preparation for their game with the Beavers, who are certainly rounding in condition to put up a stiff fight for the Intermediate Championship of the Association, which will be decided next Saturday night. The Brownies hold the Junior championship of the Association here as well as the Canadian Associations at present, but will have to stand the challenge of the winners in Saturday's match. These games should be worth seeing, as they are so evenly matched, the game will be close. The teams for next Saturday will line up as follows:—

Arrows—Defence, Murray Miller, Alex. Gillespie; centre, Alf. Hodgson; forwards, Bruce Gillespie, W. Fitzpatrick.

Beavers—Defence, Gordon Thornton, F. Richardson; centre, Melvin Robinson; forwards, H. Cressman, Stewart Laing.

Before the game there will be a wrestling tournament, tumbling, and gymnastics which will liven the evening's programme.

MISCELLANEOUS.

The Senior Intermediates are asked to be present in full numbers on Thursday night next, at 8.15, when work for the closing exhibition will be taken up. There should be an attendance of at least 30. All old members should take it in as well as the new.

A Familiar Name

In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book auditor. He is blessed for the suffering he has relieved and the diseases he has cured; his remedies are used and endorsed by the best people in the land; they are popular because they cure when others fail.

If you want a real bargain in books, call at Sailsbury's

LUMBER WANTED

Highest prices paid for all kinds of lumber. Apply to H. C. STABLER, 294 George-st. or Box 436, Peterborough.

HOTEL PROPERTY AT FRASERVILLE C. T. R. DEPOT

1 acre lot, large house, and large stable all at half cost, on very easy terms or will exchange for house in town, as a store, grain and produce depot an active man should make money. House and lot near Electric Works, cheap and on easy payments. To rent for sale or exchange, 21 acres with buildings near town. Apply quickly to T. HURLEY, 282 Hunter street.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

LINDSAY & MIGHT

326 George Street.

A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT.
January 19th to 23rd.

Sealskin advanced from	30% to	40%
Persian Lamb advanced from	10% to	20%
Astrachan Lamb	10% to	25%
Raccoon Skins	20%	
Skunk Skins	15%	
Mink	15%	
Black Cattle Skins	10% to	15%
Wombat Skins	15%	
Wallaby Skins	15%	
Australian Coon	25%	
Otter Skins,	10%	
Opposum Skins,	15%	
Marten Skins,	12%	

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

THOS. BARRIE
Manufacturing Furrier.

A COLD WEATHER FRIEND.

RUBBER HOT WATER BOTTLES

"An ounce of prevention is better than a pound of cure"—a kettle of hot water and Rubber Bottle in the beginning of inflammation of any kind, will often check in a few minutes what otherwise might prove serious. Nothing better for cold feet at night. Price, according to size and qualities—from

60 Cents to $2.00 Each.

RUSSIA GIVES WARNING.

Official Notice That Revolutionary Methods Will Not Be Supported.

St. Petersburg, Feb. 26.—It is officially announced that the Russian Government has instructed its representatives throughout the Balkans to give the widest possible publicity to the warning that, while Russia is prepared to safeguard the interests of the Christians, she "will not sacrifice a single drop of Russian blood nor the smallest portion of the heritage of the Russian people if the Slav states should attempt by revolution or force to change the existing state of affairs in the Balkan peninsula."

GALE SWEPT LONDON

Wind Attains a Velocity of Between Sixty and Seventy Miles.

MONADNOCK DRIVEN ASHORE.

Fears That a Number of Vessels Have Been Lost—Crew of the Wrecked Vessel Rescued by Life Savers of the Isle of Man — Much Difficulty Was Experienced in Securing Their Safety.

London, Feb. 26.—A severe gale prevailed here and along the coast Tuesday night, causing much damage to property. In this city trees were uprooted, walls of buildings in course of construction were blown down, and many houses were unroofed.

The Chatham & Dover Railroad was blocked for a considerable time by a brick shed which had been blown across its tracks. It required several hours for workmen to remove the debris. It is estimated that the wind attained a velocity of between sixty and seventy miles an hour at times during the night. Yesterday morning, however, the gale was abating.

The gale was very severe along the coasts, and it is feared that a number of vessels have been lost. A telegram received early yesterday morning at Lloyds reported the first disaster. The British steamship Monadnock, Captain Woods, bound from Blythe for Boston, with a cargo of coal, was driven ashore on the Isle of Man. Her crew were rescued with much difficulty by the life-savers. The vessel is well up, and it is believed that she will be a total loss. She was of 2,792 tons net register.

75 POUNDS OF DYNAMITE.

Terrific Explosion on Grand Trunk Track Extension Three Miles From Port Hope—Two Badly Injured.

Port Hope, Feb. 26.—A few minutes saved many lives yesterday in a dynamite explosion near Port Britain, three miles from here. As it is, two men are perhaps fatally injured and two more had a most miraculous escape. The accident occurred at noon, and only four men were in the vicinity. Had it have happened fifteen or twenty minutes later thirty or more men would have been in the building, which was wrecked.

There is—or, rather, was—a workshop near the track, where the men employed on the construction congregate for their midday meal. Those nearest to the building had arrived and were opening their dinner pails, while a man had some sticks of dynamite thawing out near the boiler. Through some miscalculation the explosive became too hot and a terrible explosion of 75 pounds of dynamite followed. The building was reduced to ruins.

The four men who were commencing their meal were forcibly thrown against the falling walls of the building, but two of them were pinned, bleeding and unconscious, beneath the debris. The other two, by some fine streak of fortune, were only bruised a bit.

The injured men are Robert Hewson and Curtis Brownell, both of whom have families here. Hewson is at his home suffering from awful injuries to his head and face. There is a terrible wound in his right cheek, which makes his features almost unrecognizable. He is also otherwise injured, but Dr. Corbett, who is attending him, has hopes of his recovery.

Curtis Brownell was taken on the flyer to Toronto, and sent to the hospital by Dr. Powers. His face is very badly cut.

The accident happened on the new double track extension of the Grand Trunk line, where many workmen are engaged, and the dynamite is used for blasting.

Brownell in Toronto.

Toronto, Feb. 26.—Curtis Brownell was admitted to the General Hospital at 5 o'clock yesterday afternoon. He was badly injured about the face and was suffering severely from shock. At midnight he was resting quietly, and there are reasonable hopes for his recovery. He is said to be a Toronto man.

Met an Awful Death.

Sydney, N. S., Feb. 26.—Wm. Densmere, aged 19, a native of Newfoundland, met a terrible death at the blast furnaces yesterday. He was laying bricks on a platform when some metal was poured, a portion of which fell on him. In attempting to avoid it, he leaped some 40 feet into the slag pit, which was full of molten slag. When taken out a few seconds later, his body was almost burned to a char.

BYE-ELECTIONS TO-DAY.

Vote in North York and Centre Bruce Now Proceeding.

Toronto, Feb. 26.—Premier Ross and Hon. F. R. Latchford returned yesterday from Centre Bruce, where they had conducted meetings in behalf of Dr. Stewart, the Liberal candidate. Besides Mr. Ross' excellent meetings at Ripley on Tuesday, there were good audiences at Chepstow and at Paisley. Mr. Latchford and Mr. T. H. Preston, M.P.P., spoke at the former place, and Mr. C. J. Michle of Chesley, Mr. Andrew Pattullo, M.P.P., and Senator Landerkin at the latter place. The Ministers are hopeful of the result of today's voting in both Centre Bruce and North York.

THE TRENT VALLEY CANAL.

Port Hope People are Becoming Active.

An Association has Been Formed, and Will Push Port Hope's Claims.

A despatch from Port Hope says: "In anticipation of the Government deciding to complete the remaining section of the Trent Valley Canal from Rice Lake to Lake Ontario, the Town Council of Port Hope at its last regular meeting appointed a committee of prominent citizens to take the necessary steps to induce the Dominion Government to thoroughly investigate the advantages of an outlet via Port Hope. The committee met last night in the Town Hall and organized the Port Hope Canal Association. The following officers were elected:—

President—Dr. L. B. Powers.

Vice-Presidents—H. A. Ward, M.P., and J. F. Clark.

Secretary—H. Barrett.

Treasurer—Thomas Long.

Executive Committee—S. Purser, convenor; Mayor H. White, M. H. Burnham, Dr. R. A. Corbett, W. H. Giddy, R. A. Mulholland, J. H. Helm, S. S. Smith, D. H. Chisholm, John McMullen, John H. Walker, M. Farquharson, R. Gray, R. Henning, H. H. Walker, R. Deyett, Wm. McLean, L. H. Ambrose, F. Outram, J. W. Quinlan, Jas. McLean, J. H. Honor and T. B. Chalk.

The competitive route is via Trenton, which is distant from the mouth of the Otonabee River 58 1-2 miles, whereas to Port Hope from the same point is only 19 1-2 miles, a saving of 39 miles in Port Hope's favour. It was estimated by Chief Engineer Rubbidge that the cost via Trenton would be $3,387,302, and at the Government's request Mr. R. B. Rogers, engineer in charge, reported on Jan. 31, 1900, that the cost via Port Hope would be $2,100,000, a difference of $1,287,302 in Port Hope's favour, but the municipalities affected by the Port Hope route claim that the latter estimate is not entirely unbiased, and the association has been formed to urge an independent survey, which it is claimed, will be even more favourable to the Port Hope route. The Trenton route would cross four railways and involve considerable rock-cutting, whereas the Port Hope route is entirely free from both of these objections.

The meeting was very enthusiastic and largely attended, and fully resolved upon having the question of the outlet settled upon its merits."

LOCAL BOARD OF HEALTH.

An Adjourned Meeting was Held This Morning.

Wells in Central Part of Town to be Closed—Dr. Bingham's Salary.

The adjourned meeting of the Peterborough Board of Health was held this morning in the Town Clerk's Office, there were present, Mr. Robert Neil, chairman, and Messrs. A. Parker, Eyres, Schneider, and Drs. Burnham and McNulty.

The minutes of the last meeting were read and confirmed.

The Secretary, Mr. S. R. Armstrong, read communications from the following:—

From the Trades and Labour Council, asking for a thoroughly practical Sanitary Inspector.

Dr. Burnham moved that the Council be again requested to pass a by-law for the purpose of appointing such a man.—Carried.

On motion it was resolved that one or two condemned wells be closed.

A letter from Dr. Bingham, Town Physician, asking for an increase of $100.00 in salary, which had been laid over for further consideration, was read.

The chairman said that the small salary given to the Medical Health Officer was mean of the town, which was not a pauper.

Chief Roesel said that the work of Dr. Bingham had been most efficient.

On motion of Dr. McNulty, seconded by Mr. Eyres, it was resolved that the Town Council be recommended to grant Dr. Bingham an increase of $100.000 in salary.

From Mr. W. F. Elliott, complaining that he had been unlawfully quarantined. This was received.

From the Provincial Health Officer, giving the reports of the sanitary conditions of the water of several wells.

On motion of Dr. Burnham it was resolved that the wells from the C.P.R. to Brock street, and from Stewart street to the river be closed.

Mayor Roger said that he thought the town was as healthy as any other town in the province, but that the Health Officer be prepared to thoroughly investigate and report each case of contagion.

In reference to the general work of the Board Dr. McNulty remarked that the short comings of the Peterborough Board of Health were not so bad as many other Boards.

The Board then adjourned.

SUNLIGHT SOAP REDUCES EXPENSE

MINISTERS AND DIRECTORATES

It has been quite the fashion for the Ontario Tory organs to denounce the members of the Government because some of them are members of the directorates of companies doing business in the Province, and to aver that in Great Britain no such relations would be thought of. The other day in the British House of Commons evidence was produced to show that 33 ministers held 68 directorships. On a vote the House by a majority of 36 declined to declare it to be inexpedient that ministers should figure on directorates.

ONTARIO WANTS MEN.

Ontario, the most populous province in the Dominion, has joined in the cry for more men. The stringency in the labour supply has become general, both in the cities and in the country districts. The Colonization Department of the Government is constantly receiving applications both from farmers and from the heads of industrial enterprises for additional help. It is estimated that the province requires at least 15,000 immigrants to supply immediate demands. How to secure them is the problem the Government is now earnestly endeavouring to solve.

The reason for this lack of help may be briefly summed up in the increasing demand for labour, and a decrease in the supply, due to the steady exodus going from the older-settled portions of the province to New Ontario and the Canadian West. The rural districts have been subjected to a two-fold drain, from its population flocking into cities to work in the manufacturing establishments, and from other migrations to the west to take up land. As a result there is a great demand for labour in the agricultural industry, and the wages offered to farm hands have been increased more than one-third. On the other hand the exodus from the rural districts has not in recent years kept pace with the demands of rapidly extending industrial concerns, and several manufacturers in the province are in need of one hundred to two hundred men each. Although wages have been raised in almost every branch of employment this has not proved a sufficient lure to keep men from flocking to the new territories. Still another cause for the scarcity of workmen in the province is that of the incoming population from Europe, a very small percentage ultimately settle in Ontario. Last year there were 5,000 arrivals from foreign countries, but it is estimated that less than one-third of that number settled down, the remainder continuing their journey farther west.

The Ontario Government is dealing with the matter through the Colonization Department. They have laid the matter before the Immigration Department of the Dominion Government, and have asked that a large number of the immigrants now being brought to this country be sent to Ontario. In addition to this they are doing some missionary work in Great Britain on their own account and they expect that the immigration to the province will be at least doubled during the present year.—Montreal Herald.

BIG SEASON IN LUMBER.

The Cut has been Unusually Large in Georgian Bay District.

Ralph Loveland, vice-president of the Saginaw Lumber and Salt Company, and representing the N. W. Wright Co., the successors of the Cutler Co., of Spanish River, reports extensive operations in lumbering throughout the Georgian Bay District this season. There has been an exceptionally big cut this winter, the weather so far has been favourable, cold and with three feet of snow, and with five or six weeks more winter and snow, the biggest output that the Georgian Bay district has known, will be recorded. How much this will be can be understood when it is believed that there will be at least 550,000,000 feet of lumber, 85 per cent of which will be marketed in the United States. Mr. Loveland says that the concerns in which he is interested will produce and market 75,000,000 feet this year. Hardwood is now becoming a profitable marketable lumber on account of the demand for maple flooring for large business blocks and buildings. Hardwood limits that could be purchased for $4 or $5 dollars an acre seven years ago, are now selling for from $25 to $50 an acre.

THE LAKEFIELD LETTER.

Mr. Batten's Big Sale of Machinery—Interesting Curling Notes.

Mr. William Batten, the Dummer implement magnate, is in town distributing Massey-Harris machinery to his various customers.

Mr. Roy, of Peterborough, was in town on Wednesday to take a photograph of the array of machinery sold by Mr. Batten before distribution.

On Friday last two rinks of Peterborough curlers drove to Lakefield and played a friendly game with the local lovers of the roarin' game, but which resulted in a victory for the visiting teams. The players were as follows:

Peterborough.	Lakefield.
M Tooley,	Dr Baker,
D Hall,	R P Davidson,
T Rutherford,	J W Ridpath,
A Blade, sk...12	R C Strickland, sk...11
T Brightman,	A Northey,
T F Matthews,	J Craig,
R J Frost,	J P Strickland,
R Neill, skip.....13	L Payne, skip...13

Miss Murray, of Toronto, is the guest of Miss Blomfield, of this village.

Mrs. A. A. Cox, Mrs. Pierce, and Mrs. E. W. Cox, of Peterborough, drove to the village on Tuesday to visit friends.

The many friends of Miss Muriel Evans will be pleased to learn that she is recovering from her illness, and will soon be about again.

A most exciting game of curling took place here on Saturday night last, when two young and promising skips met in battle for a twenty-two end game. The struggle was fierce and loud, and at 11.30 o'clock the leading skip was praying that Sunday might hold off till he won the game; but time waits for no man, and the Sababth dawned in before the game was finished, and he had to go home with a heavy heart, consoling himself that if time had permitted he might have won. Another game is going to be played early in the week in order to finish before Sabbath.

Mr. Luke of Whitby, was in town on Wednesday.

SURPLUS OF $289,686.

The Manitoba Budget Brought Down by Provincial Treasurer Davidson.

Winnipeg, Feb. 26.—Provincial Treasurer J. A. Davidson brought his budget down in the Legislature yesterday afternoon. He claimed a surplus of $289,686 for last year. The revenue for the year was $1,890,720, being $669,780 in excess of the revenue for 1899, the last year of the Greenway Administration. This increase is made up of $224,000 received from the Dominion Government on school lands funds account, and $177,000 for H. & N. W. land sales acruing from the bargain made by the Greenway Government in 1899. The balance of $268,000 was derived from the increased revenue of land titles offices and other Provincial departments as a result of the increase in population and the great prosperity which has visited Manitoba during the last year.

James Watson to Be Extradited.

Guelph, Feb. 26.—The extradition proceedings in the case of the State of Illinois against James Watson for embezzlement and larceny of $1,100 came to an end yesterday morning, when the prisoner was committed to jail to await transfer to St. Louis, Ill., for trial. His Honor informed Watson that he would not be surrendered for 15 days and during that time he could apply for a habeas corpus writ and appeal to a higher court.

Laxative Bromo Quinine Cures a Cold in One Day, Grip in 2 Days — E. W. Grove — on every box. 25c

AT OXFORD.

What a Lindsay Man Thinks of the Old Place.

The following excerpt from an article on "Life in an Oxford College," contributed to the current number of The Varsity by Mr. F. J. Kylie, B.A., of Lindsay, suggests something of the prevading spirit of the old English college, where culture and scholarship are imbued as it were from the very atmosphere of the place. At the same time by comparison it suggests something of a corresponding lack in our own Provincial University, perhaps unavoidable in the new land still unmellowed by a rich and storied past, where commercialism is necessarily more pronounced than luxurious learning, and where the residence system does not yet provide a common centre for the development of the college spirit de corps. Mr. Kylie, speaking of the work done in the college class rooms, says:—

"The lectures are rarely very inspiring. One prefers to yield to the spirit of place. These grand old halls, with their lofty ceilings and their walls adorned with rich oak panelling, on which hang portraits of distinguished sons of the college, make the mind wander. A stray sunbeam steals through the stained-glass windows, and playing upon some painting, dimmed with age, makes the face it touches live again. The lecturer's voice itself seems to come out of the distance with a message from the past. The tutorial classes permit of no such dreaming. The small group of men—often three or four—whom the tutor takes, together meet him in his room. One reads an essay and the others criticize it; the tutor sums up the argument, corrects both readers and critics, and develops the whole subject. Undoubtedly these classes, which bring the men into close personal contact with the tutor, whose mastery of the subject enables him to bring out the weaknesses of each, and whose aim is to encourage original thought and expression, are, with the residence system, the essential and most praiseworthy features of Oxford life."—Toronto News.

A NEW DEPARTURE.

A New, Effectual and Convenient Cure for Catarrh.

Of catarrh remedies there is no end, but of catarrh cures there has always been a great scarcity. There are many remedies to relieve but very few that really cure.

The old practice of snuffing salt water through the nose would often relieve, and the washes, douches, powders and inhalers in common use are very little, if any better, than the old fashioned salt water douche.

The use of inhalers, and the application of salves, washes and powders to the nose and throat to cure catarrh is no more reasonable than to rub the back to cure kidney disease. Catarrh is just as much a blood disease as kidney trouble or rheumatism and it can not be cured by local treatment any more than they can be.

To cure catarrh, whether in the head, throat or stomach, an internal antiseptic treatment is necessary to drive the catarrhal poison out of the blood and system, and the new catarrh cure is designed on this plan, and the remarkable success of Stuart's Catarrh Tablets is because being used internally, it drives out catarrhal infection through action upon stomach, liver and bowels.

Wm. Zimmerman, of St. Joseph, relates an experience with Catarrh which is of value to millions of catarrh sufferers everywhere. He says: "I neglected a slight nasal catarrh until it gradually extended to my throat and bronchial tubes, and finally even my stomach and liver became affected, but as I was able to keep up and do a day's work I let it run along until my hearing began to fail me and then I realized that I must get rid of catarrh or lose my position, as I was clerk in a store and my hearing was absolutely necessary.

"Some of my friends recommended an inhaler, another a catarrh salve, but they were no good in my case, nor was any thing else until I hear of Stuart's Catarrh Tablets, and bought a package at my drug-store. They benefitted me from the start and in less than three months I was completely cured of catarrh, although I had suffered nearly all my life from it."

They are pleasant to take, and so much more convenient to use than any other catarrh remedies that I feel that I cannot say enough in favour of Stuart's Catarrh Tablets."

FROM MT. PLEASANT.

Death of Richard Coe, a Prominent Farmer of Cavan.

(From Our Own Correspondent.)

In your weekly issue of the 19th inst., a sad picture is brought before us of two boys from Anstruther, who were brought to Peterborough and placed in the Children's Shelter, to be cared for by the kind manager of the Shelter, Mr. Henry. It is painful to think that those boys should grow up in such ignorance within 25 or 30 miles of a town of churches, whose spires point heavenward. Can it be possible that the good people of that town hide their light under a bushel, so that its rays cannot reach out as far as Anstruther? We agree with that part of the article which says, "Missionaries are sent to all heathen countries of the world but surely something should be done for the social elevation of the neglected regions of Ontario. As for religion the children were painfully unconscious of it." Educate and Christianize the Canadians then. The words of Jesus are applicable in this case, who said, "The poor ye have always with you," and his reply to the Syrophonecian woman, "Let the children first be filled," also, "Go not in the way of the Gentiles, and into any city of the Samaritans enter ye not, but go rather to the lost sheep of the House of Israel." This is strong proof for home mission work, which has been and still is neglected in the year 1903.

With feelings of sadness we record the death of Mr. Richard Coe, of the township of Cavan. His death came unexpectedly and sudden, so we are reminded of the words of Jesus, who said, "Be ye also ready." We extend our sincere sympathy to the bereaved family in this their time of trouble.

GEORGE COCHRANE
License inspector West Peterborough

Heals and Soothes the Lungs and Bronchial Tubes. Cures COUGHS, COLDS, BRONCHITIS, HOARSENESS, etc., quicker than any remedy known. If you have that irritating Cough that keeps you awake at night, a dose of the Syrup will *stop* it at once.

USED FOR EIGHT YEARS.

I have used DR. WOOD'S NORWAY PINE SYRUP for every cold I have had for the past eight years, with wonderful success. I never see a friend with a cough or cold but that I recommend it.—M. M. Ellsworth, Jacksonville, N.B.

PRICE 25 CENTS.

Do You Know

What this Stamp or Trade Mark means —?

It means that if your Tea Set, Cake Basket, Butter Dish or similar articles have this trade mark on them, that they are the highest grade of Silver Plated Ware that can be bought.

They are made and Guaranteed by the

MERIDEN BRITANNIA CO.

THE LARGEST MANUFACTURERS OF SILVER PLATE IN THE WORLD

A CHEEKY MOTION.

The Newest Form the Annexation Idea Takes on in the Great United States of America.

Washington, Feb. 26.—Representative De Ansond (Mo.) yesterday introduced a concurrent resolution providing as follows:

"That the President be and is hereby requested to learn and advise the Congress upon what terms, if any, honorable to both inhabitants of the territory primarily affected, Great Britain would consent to cede to the United States all or any part of the territory lying north of, and adjoining the United States, to be formed in due time into one or more states and admitted into the Union upon an equality with the other states, the inhabitants thereof in the meantime to enjoy all the privileges and immunities guaranteed by the Federal constitution."

W. H. HARMER SAYS

He Used Dodd's Dyspepsia Tablets and was Cured of a Disagreeable Though very Common Complaint.

Were you ever troubled with food and gas rising in your throat? Have you ever had an evening spoiled by the objectionable matter coming between you and an agreeable conversation? When it is the greatest agony to keep it down, and the the height of bad breeding to do anything else?

Have you bewailed the fate that that doomed you to such torture? If you did you were wrong. It is not fate at all. It is your own stupidity. Others have been in a similar fix, and have got out of it. How? Simply by using Dodd's Dyspepsia Tablets. They are so pleased that they are telling others about it every day. W. H. Harmer, of Avonmore ,N.B., is one of them. Listen to what he what he says:

"I was troubled with gas and food rising in my throat. Dodd's Dyspepsia Tablets stopped it. Others around here hav used Dodd's Dyspepsia Tablets with equally good results."

He doesn't say much but it is to the point. If you are troubled with gas or food rising in your throat —if you are troubled with any of the pains or discomforts of Dyspepsia, use Dodd's Dyspepsia Tablets and the relief will be speedy, the cure permanent.

C.P.R. Earnings.

Montreal, Feb. 25.—The C. P. R. traffic for the week ending February 21 was $657,000; for the same week last year it was $592,000.

Will Float $100,000 in Bonds.

London, Ont., Feb. 26.—The Board of Directors of the Southwestern Traction Company met Tuesday afternoon and decided to send a representative to London, Eng., to direct the sale of the company's bonds, the sale of the company's bonds. Rumball leaves on Monday next, with full authority to arrange terms of sale.

G.T.R. Earnings.

Montreal, Feb. 26.—Grand Trunk Railway system earnings, Feb. 15 to 21: 1903, $562,765; 1902, $582,588, increase, $30,177.

FARMERS AGAINST IT

Admission of Canadian Cattle Debated in British Commons.

HANBURY'S EMBARGO STANDS

President of British Board of Agriculture Says He Will Not Abate a Particle of the Present Act—Would Create Bad Precedent and Give Us an Advantage Over Other Nations.

London, Feb. 26.—Mr. Price (Liberal) moved an amendment to the address providing for the repeal of the law excluding Canadian store cattle from British markets.

The debate on Mr. Price's amendment occupied the night session. Mr. Hanbury, President of the Board of Agriculture, opposed the amendment on the ground that it would be a dangerous precedent to admit Canadian cattle, thus giving them a preference over others.

He said he was anxious to meet the wishes of the colonies, but that 99 per cent. of the farmers in Great Britain were opposed to the admission of Canadian store cattle, and nothing would induce him to abate a particle of the present act.

The amendment was rejected by 190 votes to 38.

IRISH LAND QUESTION.

John Redmond Moves Amendment to the Address, But Withdraws It After Explanations by Mr. Wyndham.

London, Feb. 26.—The Irish leader, John Redmond, in the House of Commons yesterday moved an amendment to the address in reply to the speech from the throne, on the subject of the Irish land question. Mr. Redmond's speech was most conciliatory. He said the amendment was not intended as a hostile demonstration against the Government, but as a "friendly warning" to the Ministry that he and his friends believed the Government is engaged in framing a great measure of justice and appeasement for Ireland, which, in the words of the King's speech, will "complete the abolition of the dual ownership of the land." All he (Mr. Redmond) wanted was an assurance from the Chief Secretary for Ireland, Mr. Wyndham, that the Government is engaged in an honest attempt to solve the problem on the lines suggested by the report of the recent land conference, which, the speaker added, offered an unexampled opportunity to end the agrarian troubles and conflicts between classes in Ireland.

Mr. Wyndham, in replying, declined to commit himself to any wholesale official approval of the land conference report, which, he said, avoided or skirted many considerations which must be taken into account. He expressed the hope that the spirit of good sense and good-will animating the report would be enlisted by the House in its consideration of the forthcoming measure, which would make it possible for Ireland to lay the social foundations upon which it was alone possible to rear the fabric of healthy national life.

Mr. Redmond eventually withdrew his amendment.

Chamberlain Sails For Home.

Cape Town, Feb. 26.—Mr. and Mrs. Chamberlain embarked yesterday morning on the Union Line steamer Norman for Southampton. Immense crowds gathered at the docks and gave the Colonial Secretary an enthusiastic send-off. This motto he left with the colony: "One life, one flag, one fleet, and one Empire."

NANAIMO STRIKE ENDED.

Company's Proposal Accepted by the Men—Work Resumed.

Victoria, B.C., Feb. 26.—The Nanaimo strike has just been declared off. Yesterday morning posters were placed around the coal pit calling the men to a mass meeting at 3 o'clock. It was also learned that the Western Fuel Company has made a proposition, and that the miners' Executive were prepared to recommend its acceptance. This proved to be acceptable to the men, and last evening the announcement was made that the strike was terminated, and the men would start work in the morning. The news has created a feeling of the greatest relief in this city, as well as at Nanaimo, at which latter place some miners were beginning to leave for work in the mines of Washington State.

[illegible] in England.

Toronto, Feb. 26.—The Temiskaming & Northern Ontario Railway contract for 8,230 tons of 80-lb. steel rails has been awarded to Charles Cammell & Co., Limited, of Sheffield, Eng.

Hanged For Murder.

Stroudsburg, Pa. Feb. 25.—Charles Grather was hanged here yesterday for the murder of a constable who sought to arrest him in 1901 for robbery.

A Canadian's Success.

Baltimore, Md., Feb. 25. — Johns Hopkins University has conferred the degree of A. B. on Henry Novill Sanders of Trinity University, Toronto.

Hogs—Receipts, 4030; lower; State hogs, $7.30 to $7.40.

CHICAGO LIVE STOCK.

Chicago, Feb. 25.—Cattle—Receipts, 21,000, including 200 Texans; active, 10c to 15c lower than Monday; good to prime steers, $5.25 to $5.90; poor to medium, $3.25 to $4.75; stockers and feeders, $2.35 to $4.60; cows, $1.40 to $4.50; heifers, $2 to $4.40; canners, $1.40 to $2.50; bulls $2.25 to $4.25; calves, $3.25 to $4.75; Texas-fed steers, $3.50 to $4.50.

Hogs—Receipts to-day, 37,000; to-morrow, 5000; left over, 5000; mixed and butchers', $6.80 to $7.15; good to choice heavy, $7.15 to $7.35; rough heavy, $6.80 to $7.15; light, $6.45 to $6.80; bulk of sales, $6.90 to $7.15.

Sheep—Receipts, 23,000; sheep, steady; lambs, lower; good to choice wethers, $5 to $5.50; fair to choice mixed, $4 to $4.75; native lambs, $4.55 to $7; western lambs, $4.75 to $7.

Average Price About $60.

Guelph, Feb. 25.—Quite a large crowd of stock men are in the city to-day attending the sale of thoroughbred bulls at the Winter Fair building. Thomas Ingram, city, and George Jackson of Port Perry are taking charge of the selling. The average price was about $60 to $80. The crowd did not seem anxious to bid, the recent drop in beef prices, perhaps, having something to do with it, only about 25 animals being sold up to noon.

A RAILROAD BRIGADE.

Premier of Holland's Scheme to Counteract Striking Trainmen.

The Hague, Feb. 26. — Premier Kuyper introduced in the Second Chamber of the States General yesterday three bills in connection with the recent railroad strikes. The Government proposed to form a railroad brigade, to ensure a regular service of trains in case of need. The just complaints of railroad employes would be adjusted by a royal commission, which would be entrusted later with the settlement of the situation from a legal standpoint as well as regarding the conditions of service of the employes. It also would have to decide what constituted criminal acts. The Government did not desire to be reactionary. It only aimed at effecting social reforms.

One of the bills provides for a modification of the penal code with the object of affording a surer guarantee for the personal freedom of labor and preventing state officials from absenting themselves from their duties.

To Send Queen's Collection.

London, Feb. 26.—King Edward will send the late Queen Victoria's priceless collection of jubilee presents for exhibition at the Louisiana Purchase Exposition, as his personal contribution towards the success of the Exposition. The King personally announced this decision yesterday to D. R. Francis, president of the St. Louis Exposition.

Reaching the Stanley.

Halifax, N. S., Feb. 26.—A despatch from Pictou last evening says that the steamer Minto has succeeded in getting within a mile and a half of the Stanley and that there was a chance of the Minto reaching the other steamer.

Czar Is Suggested.

Washington, Feb. 25.—Mr. Bowen, the Venezuelan plenipotentary, has proposed to the allied powers that the Czar of Russia be asked to name the three arbitrators who, as The Hague Tribunal, shall decide the question of preferential treatment. The suggestion has been approved by the United States State Department. The proceedings at The Hague will be in English.

PROPERTY OF THE COMPANY.

This Company has secured 10,000 acres of the choicest wheat lands in Assiniboia, Canada, having paid to the owners in addition to cash, 60,000 shares of its Capital Stock, for which the owners are completely equipping the property with all the necessary buildings, steam plows, steam threshers, drills, wagons, tools, fences, and everything necessary to operate the said 10,000 acres.

The Company's property will always be equipped with all the latest improved necessary machinery to produce wheat at the lowest cost. It is the intention of the Company to have its own elevator, of a capacity sufficient to store its entire production, thus enabling them to take advantage of the highest market prices from time to time. The market for wheat is unlimited.

The Company also has an option on 10,000 additional acres of the same character of wheat land as the 10,000 acres above mentioned, the property being located seven miles from the Canadian Pacific Railway, where large elevators are ready to receive the product.

This is an investment that will enhance in value as time goes by, not only from the large production of wheat, but the increased value of the Company's lands from year to year.

DIVIDENDS

Dividends of 15 per cent. per year, it is estimated, can be paid semi-annually, December 1st and June 1st of each year. Outside of the amount paid in dividends, the surplus earnings will be accumulated, and will either be divided among the shareholders as extra dividends, or used to purchase new wheat territory; or be otherwise employed as may be hereafter determined.

Send for the Illustrated Prospectus and Maps of the Company's Property, which will be Mailed Free on Request.

SUBSCRIPTION TERMS

The full amount of $5.00 per share must accompany the order. The right is reserved to allot a smaller number of shares than the amount subscribed for, in which event the balance of the money will be returned with the shares allotted.

Application will be made for a settlement of these shares on the London, Montreal and Toronto Stock Exchanges in due course.

MONEY MAY BE SENT BY POST OFFICE ORDER, EXPRESS, REGISTERED LETTER, OR BY CHEQUE.

Address all Communications, Including Applications for Shares, to

The Trusts and Guarantee Company, Limited.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

For Charity's Sake.

The lecture in St. Peter's Cathedral on Sunday night by Rev. Father Fitzpatrick, of Ennismore, promises to be most interesting. Rev. Father Fitzpatrick will lecture on "Charity," his address being under the auspices of the St. Vincent de Paul Society, which has for its object the caring for the poor of the immediate vicinity. Rev. Father Fitzpatrick is a pleasing and interesting speaker, and as his address is in aid of a charitable cause, it is hoped that there will be a liberal response.

A Familiar Name

In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book auditor. He is blessed for the suffering he has relieved and the diseases he has cured; his remedies are used and endorsed by the best people in the land; they are popular because they cure when others fail.

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases. 2s

WEDDING BELLS.

Miss Aggie Tully and Mr. Edward Sanderson, Join in Holy Matrimony.

Last evening at 6.30 o'clock, a very pretty wedding took place at the residence of the late Andrew Tully, of Smith, father of the bride. The contracting parties were Miss Aggie Tully and Mr. Edward Sanderson, a prosperous farmer of the same township.

The newly-married couple are well-known by many residents of town, and all, it is assured, will join with the Examiner in wishing the newly-wedded couple a most happy and prosperous married life.

SOCIAL AND PERSONAL.

Miss Delaney is in Toronto, where she will have an opportunity of looking over the latest spring styles.

Mr. N. Y. Daubus and daughter were the guests of Mr. and Mrs. James Blackwell, Fowler's Corners, yesterday.

Mr. John Cochrane, one of the best known farmers in the neighbourhood of Round Lake, was in town to-day on business, looking as smart and lively as a young man of 21 years of age.

Mr. John Thomas Field, of Cobourg, has been appointed local Registrar, Clerk of the County Court and Registrar of the Surrogate Court for the united counties of Northumberland and Durham.

The Lindsay Post says: Mr. Geo. Smith, of the Lindsay gas works, was in Peterborough on Monday evening, and witnessed the hockey match between the T.A.S. and Norwood. Mr. Smith says it was one of the best games he has ever witnessed.....

Mr. E. A. Pearce, electrician, Peterborough, who has been visiting his parents at Fenelon Falls, was in town on Monday on his way home.

NEWS NUGGETS.

—A few more fine days will finish the sleighing in town.

—The curlers came back from Orillia without experiencing a collision.

—There will be service to-night in All Saint's church at eight o'clock.

—Mr. Alex. Gordon, butcher, has purchased a handsome team of black horses.

—The Town Auditors have finished the work of auditing the municipal books.

—Large quantities of ice for commercial purposes are being taken out of the Little Lake.

—St. Andrew's choir practice to-night at 8 o'clock. Full attendance earnestly requested.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—The citizens of Lindsay will hold a grand regatta at Sturgeon Point on July 11th next.

—Mr. A. C. Hawley, a resident of town, has purchased Mr. P. Collins' grocery store, 161 Hunter street.

—The Street Inspector has men at work making gutters along the sides of the main thoroughfares of the town.

—The ice in the Brock street rink is still in good condition and this evening there will be skating as usual.

Messrs. Jordan Bros. left in the Examiner office a lovely blooming heliotrope hyacinthe. It is very much appreciated by the staff.

—The St. Andrew's Junior Boy's Guild will meet on Saturday night from 7.15 to 8.15 o'clock instead of Friday night. A full attendance of all members is desired.

—The members of the Board of Trade are reminded of the joint meeting of the Town Council and the Board of Trade, which takes place to-morrow night to discuss the sugar beet industry.

—There will be a meeting of the Committees of the Ashburnham and Town Councils this evening in the Town Clerk's Office for the purpose of discussing the union of the two municipalities.

—George street, between Hunter and Brock streets, is becoming noted for its barber shops. Two such establishments, those of O'Brien & Webster and J. Cuttingham, near the Commercial House, have been recently added to the previous number.

AN IMPORTANT MANUFACTURING ENLARGEMENT.

Big Additional Buildings for C. G. E. Company.

HALF MILLION TO BE SPENT

Announcement That Will be Enthusiastically Received.

Buildings to be Erected in Peterborough to Employ 1,000 Additional Hands—Plans Nearly Ready—Building Operations to go on This Season.

The Canadian General Electric Company to spend half a million in Peterborough in new buildings and equipment the coming season, is a very pleasing proof that Peterborough's progress in manufacturing importance is by no means at an end.

Plans are being prepared and are almost ready for the erection of additional manufacturing buildings, and it is settled that at least $500,000 will be expended the coming season upon additional buildings and equipment.

These buildings will permit of a great expansion of manufacturing operations and will call for the employment of a thousand additional hands.

This expansion of premises and manufacturing facilities is rendered absolutely necessary by the large and active demand upon the present resources of the Works. If orders are to be filled promptly, additional facilities must be provided, and additional hands must be employed.

Even with the present premises and facilities it seems to be difficult to secure sufficient workmen. In one issue of the daily Globe there appeared in an advertising column no fewer than four short advertisements calling for an indefinite number of as many different kinds of skilled mechanics.

What this new departure means to Peterborough can be to some extent seen by the fact that the addition of 1,000 hands to the pay roll of the Canadian General Electric Company's works means the addition of at least that number to the population of the town within the next two years. Most of the additional employees will doubtless be heads of families and it is probable that very many of them will come from outside places; for the local supply of workmen such as the Company needs is far short of the demand, as the advertisements referred to show. These additional citizens will have to be housed and a large number of additional houses will, of necessity, be required.

Peterborough's good fortune or good management in securing the presence in the town of such an important labour-employing concern is a fair subject for congratulation.

IN ONE YEAR.

Magnets That are Attracting Capital—Western Canada has Easy Access to Every Continent on the Globe.

Made $2,097.85 in one year from 160 acres, besides paying for the farm, and its running expenses! This is the report of one farmer who has gone into the wheat raising business in Western Canada. Such returns are the magnets that are attracting capital into the country at a rate that is astonishing Canada and that promises a development unparalleled in any agricultural country. The risks attending investments in the western prairies for wheat raising are at a minimum. The soil is practically inexhaustible in fertility, the climatic conditions furnish all requisites for perfect maturing of crops, and make crop failures an impossibility. The railroads are keeping pace with the rapid increase in production and are making extensions into the newer districts. The Canadian wheat is of the best quality and commands first place in the markets. She can ship her products from two seaboards, and has easy access to every continent on the globe. Wheat raising on a large scale is attended by less expense proportionately than on the small farm. The figures given above are not exceptional and indicate the possibilities in the case of extensive operations. Great aggregations of capital are going into the country for this purpose. Investments are regarded as as safe as government bonds. One of the first companies to take advantage of the situation is the British-Canadian Wheat Raising Company, which represents 10,000 acres of the choicest wheat lands in Assiniboia, and is considering extensions. Its present holdings represent a wheat producing capacity of 300,000 bushels per year, and owing to the prolific nature of the Western Canadian soil, this product can be duplicated each year for a century to come.

HOLD YOUR ORDERS!

A DROP IN COAL!

Having received a message on Tuesday from Buffalo, will sell on arrival of coal here, Egg, Stove and Nut, at $6.50 per ton. Small nut $7.00. Also remember our Mixed Wood, Tamarac, Hardwood Limbs, at $4.00 per cord. Also in stock, first class long and short hardwood, which will be sold at lowest prices Wood cut and split as desired.—J. E. A. FITZGERALD.

REV. MR. WILSON TO STAY.

The Assistant Pastor of St. Paul's has Been Re-engaged.

It will be welcome news to the congregation of St. Paul's church to hear that Rev. J. A. Wilson, the assistant pastor, has been re-engaged for another year. Mr. Wilson during his stay in Peterborough has become very popular with the members and adherents of St. Paul's church.

TWO WEDDINGS.

Took Place at George Street Methodist Parsonage Yesterday.

A quiet wedding took place yesterday at the George street Methodist parsonage, the contracting parties being Mr. George Faulkner of Kinmount, and Miss Harriet Rebecca Evans, daughter of Mr. Alex. Evans, of town. Rev. J. P. Wilson officiated.

A second wedding at the George street Methodist parsonage yesterday was that of Mr. William Pamment to Miss Jennie Rowe, of Manvers.

NEW REGULATIONS.

Belleville Merchants Require a License to Sell Tobacco.

(Belleville Intelligencer.)

The police are at present busily engaged in notifying the various retail dealers in the city of the enactment of the new tobacco bylaw, which comes into force here on March 1st. By its provisions, cigarettes, cigars or cut tobacco cannot be sold in any store without a license having first been obtained. Plug tobacco can be sold without a license.

SPECIAL LENTEN SERVICES

Opened at St. John's Church Last Night.

An Interesting Service—Powerful and Earnest Address by Rev. E. A. Daniels, of Port Hope.

The first of the series of special services, which will be held throughout the season of Lent, in St. John's church, was held last night.

Special Psalms, prayers and hymns were offered, and Rev. E. A Daniels, M. A., of Port Hope, gave the address, in which he compared the words of the 7th verse of the 2nd chapter of Colossians, "Rooted and built up in Him, and stablished in faith," with those of the 15th verse of the 4th chapter of Ephesians, — "But speaking the truth in love, may grow up into Him in all things, which is the head, even Christ."

The reverend gentleman prefaced his remarks by commenting very favourably on the extent of the assembled congregation which, on such occasions was not always as large as might be desired.

To more fully illustrate his sermon, Mr. Daniels likened the human soul to a plant—if a plant is set in shallow and bad soil, that plant will not flourish—just so, with the soul. If planted in anything except the body of Jesus Christ that soul will not flourish; but if a tree is set in deep good soil that tree will grow and branches bringing forth good fruit will spring forth. In the same way the Christian soul if set in the body of the Lord Jesus Christ, that soul will flourish and be saved. When a soul is planted in the body of the Lord Jesus Christ it means that the whole soul must be devoted to the worship of the Lord Jesus Christ, and to be built up in Christ means an increase in the life of Christ, and a decrease in the life of self. If a person wished to improve the fruit of a wild tree, he must graft a new, pure life into that tree; in the same way in order that the fruit of life may be introduced we must graft ourselves with a new, pure life—graft ourselves with true Christianity. Anyone wanting to bring forth the true fruit of life must have his soul planted in the glory of the Lord Jesus Christ.

MARMALADE.

Fine bitter Oranges are now in. Also nice, bright skinned, sweet Oranges suitable for using with the bitter ones. These are very cheap. First-class cooking Figs at 5c per lb at S. A. OKE'S, 376 George street.

THE FAREWELL SERVICE

Held in George Street Methodist Church.

Sermon was Preached by Evangelist Turk—The "Holy City" Rendered by Special Request.

Last night Evangelists Kerby and Turk held their farewell meeting in the George street Methodist church, Rev. Mr. Turk preaching the sermon. The church was crowded, the congregation consisting of old and young, women and men, a large portion of whom had come time after time to these services, and also of many who had taken their last chance to hear the eloquent, powerful and persuasive men preach the Word of God. Many of the prominent clergymen of the town were present on the platform.

The service opened with the hearty singing of songs of praise, and by special earnest request the evangelists sang the "Holy City" with their usual amount of pathos.

Immediately before the address Rev. Mr. Kerby took the opportunity to thank the people of Peterborough for their kind welcome, and for the co-operation and sympathy; the choir for the excellent services and the press for its acurate reports of their services.

The Rev. Mr. Turk took as his text the 5th chap. of Daniel, 30 verse: "In that night was Belchazzar, King of the Caldeans slain."

The preacher gave a beautiful description of the city of Babylon and its hills and rivers, and of the gorgeous surroundings of its haughty King. He described the insults offered to the King of Kings by this autocrat at his great feast. His description of how he drank deeply of wine and in his drunken revelry he sees the handwriting on the wall. The preacher here gave a grand picture of Daniel's interpretation of the mystic handwriting and the visiting on him of the sin of the king's father—Nebuchadnezzar, and of his own sin, and of the downfall of his kingdom.

This brought him to the three thoughts expressed by this picture—

1st—God weighs men.
2nd—God warns men.
3rd—God judges men.

He showed how God weighed men. How many men were weighed and found wanting; that very often the woman instead of receiving the husband with kindness, the very reverse was the case, and very often drove the husband to the saloon. He showed how many a man by his cruelty and neglect had broken the heart of the woman he had promised to love and cherish.

God warns men. He warned Belchazzar, but the great king heeded not. God warned his father, Nebuchadnezzer, led him to feed with the beasts of the field, but all warning to both the king and his unworthy son went unheeded, until God had to drive both from their thrones and wrench their kingdom out of their hands.

The evangelists then showed how many warnings God had given to the young men and women of Peterborough. He warned the young men not to tamper with strong drink. Believing that the use of liquor was on the increase he cautioned the young women not to countenance the young man who used strong drink. Rev. Mr. Turk told many instances were young men were led to ruin by strong drink.

The last warning of God will come, may come soon, may come late, but come it will.

Judgment comes quickly, after many warnings, and the warnings of God to the world have been many, and the time draws near when all will appear before the judgment throne of the Almighty.

Hardwood Reduced 50c per Cord.

On account of hard coal coming forward more freely, we have decided to reduce the price of hard wood fifty cents per cord until further notice. Fresh shipments of egg, stove and nut coal, Butt's cannel coal for grates. Prices of superior grade soft coal reduced. R. Hicks & Co., corner Murray and Bethune streets. Phone 48.

A GRAND RECEPTION WAS GIVEN

To Peterborough Curlers at Orillia.

LOCAL MEN WERE DEFEATED

Visit of Peterborough Men Will be Long Remembered.

Handsomely Banquetted at the Orillia House—Valuable Trophy to be Played for—The Eastern League.

The Peterborough curlers who have been on a visit to Orillia returned home yesterday in high praise of the hospitality extended to them. An exceptionally friendly feeling has been springing up between the Orillia and Peterborough clubs for some years past and the visit of Orillia curlers to Peterborough has always been eagerly looked forward to. Local curlers have always endeavoured to use their guests most hospitably, but in this respect, they admit that the manner in which they were received in the Asylum town was far superior to that in which the Orillia men have previously been treated in this town.

Five rinks of the local curling Association went to Orillia per special car on Tuesday morning. They played two matches, both of which they lost by small margins. After the match the players of both clubs went to the Orillia House, where the Peterborough men were given a great surprise in the shape of a most magnificent banquet. The dining room was beautifully decorated with flowers and flags and the players sat down to a spread, better than which could not be desired. The tables, at which sat four men, two from each town, were set all round the room, and on each was placed a beautiful bouquet of fragrant flowers. The Shepard-Needler Cup, a handsome trophy lately won by the Orillia curlers from Lindsay, stood on the very centre table, at which sat Mr. J. Shepard and Mr. Robert Neill and an additional player from each club.

A NEW TROPHY.

Towards the middle of the banquet a great surprise was sprung upon the local men. The Peterborough men were congratulating their Orillia friends on winning such a handsome and valuable trophy, when Mr. Shepard, the well known Orillia curling enthusiast, rose and asked "Why cannot there be such another trophy as this to be competed for by the curlers of Peterborough and Orillia? There is a very friendly feeling between the two clubs, and I will 'go half' to purchase a trophy something similar to this one, to be played for twice during the winter—six rinks a side."

He had hardly sat down when Mr. R. Neill, President of the Peterborough Curling Association, jumped to his feet and declared—"I will 'go the other half to purchase a trophy to be competed for by the members of the curling associations of the two towns."

All present went wild with delight at the settled agreement and the applause was loud and continuous. All with one accord joined heartily in singing "They are Jolly, Good Fellows." The first match for the trophy will likely be played next week.

Messrs. John Crane, Walter Stocker, R. Neill, H. LeBrun, G. E. Whiten and many others upheld the honour of Peterborough in either songs or speeches, and the Peterborough curlers as a body say that never before have they been so well treated. They feel grateful indeed to the Orillia curlers for the handsome manner in which they were entertained.

During the course of the banquet the matter of an Eastern League was discussed and very favourably commented upon by the members of both clubs. More definate conclusions are hoped to be arrived at when the two clubs again meet next week. Curling, it was remarked, was a manly sport and a gentleman's game and the traits of a man's character are probably as likely to be learned in a curling match as in church. It was remarked by all the Peterborough curlers that never before had they, either individually or as a body, been treated in a more munificent manner than they were on Tuesday night by their fellow curlers in Orillia.

Mr. Roy D. Schooley Will Referee in Norwood.

Firemen Play Lock Works To-night—Review vs. Examiner Game—The Norwood Match.

There was a time when in a game of hockey that the team which indulged to the greatest extent in rough play, or, in fact, brute force, came out victorious. That day has passed, and the experience of hockey teams during the past few winters has demonstrated the fact that honest endeavours to adhere strictly to the rules of the game, and submit to the rulings of the officials during the progress of the game at least, is the team that has the brightest prospects of winning out. In the series in which it is placed providing, of course, the relative strength of the teams is somewhere nearly equal. This theory, of course, only applies to matches in which there is a strict referee and one who above all knows his business. A striking argument in favour of this theory apart from the fact that it is so conceded by all who are thoroughly versed on hockey matters, is the record of the Peterborough team last year. The locals, of course, carried off the championship of the Intermediate series of the O.H.A. and in order to do so they were compelled to climb over all kinds of teams and meet aggregations from every corner of the province. During the entire season they had only one man sent to the boards for an offence of any kind, that player, by the way, was Roy Armstrong. It is only necessary to mention the speedy little forward's name to convince the public that even this solitary penalty imposed upon Peterborough was not intentional, not the result of reckless checking, but, perhaps a miscarriage of justice, for who would suppose that the lightest, the youngest and the most gentle member of the Peterborough team would have had the nerve, had he even the desire, to use up a member of an opposing seven?

It cannot be denied that the team which honestly endeavours to play strictly in accordance with the rules, prospers.

CURLING.

LAST NIGHT'S GAME.

At the Charlotte street rink last night two scratch games were played, one of which was a very one-sided affair, although the opposing rink was composed of good "metal." The players were:

E Cox,	Geo Cox,
T Brightman,	E H D Hall,
C N Brown,	C Rutherford,
J Stanger, sk...21	G Giroux, sk...2
W G Ferguson, sk.10	S Clegg, sk.14

* * * *

There will be a meeting of the members of the Curling Association at the Charlotte street Rink to-night, for the purpose of arranging the rinks that will compete for the Shepard-Neill Cup in the contest between Orillia and Peterborough which is to take place next week.

HOCKEY.

SCHOOLEY TO ACT.

Mr. Roy D. Schooley, of Osgoode Hall, who is admitted to be one of the best referees in the province, will officiate at the game in Norwood on Friday night between the team of that town and the T.A.S. of Peterborough. In view of the keen rivalry that exists between these two clubs and the probability of a hotly contested game, it was thought by the management of the league that a man from outside the district had better officiate. Mr. Schooley was offered the job and to-day he notified Secretary E. S. Clarry, of the League, that he would be in Norwood on Friday night to referee the game.

THE NORWOOD MATCH.

The T. A. S. are running a special train to Norwood to-morrow night, in order that their supporters may witness the game in that place at the Norwood Palace Rink. This is a match in the final series of the Trent Valley League, and as both teams are very evenly matched a most exciting and fast game is expected to take place. The hockey series is quickly drawing to a close and all should take advantage of this opportunity of seeing what should prove to be a really good, clean, and exciting game.

THE FIREMEN'S MATCH.

Coal is scarce and expensive and why have a fire when the firemen are going to play a game of hockey with a seven from the Lock Works? Both teams are confident of success and considerable interest is being taken in the event. The match will be played this evening.

REVIEW VS. EXAMINER.

The interest keeps increasing concerning the match to be played between the teams of the Review and the Examiner, which is to take place on Saturday night between 10 and 11 o'clock. The Examiner staff during the past few weeks has been continually suggesting dates for this great event, but all have, for some unknown reason, unless it be "flunking," been quite unsuitable to the powers that be in the Review. In the early morning hours the Review team may be seen practising on the Hunter street sidewalk with great enthusiasm and energy, coached by the Devil. At that time of the morning the guests at the Oriental Hotel are awakened by the stern orders of Moore, the melodious voice of Jolliffe, and last but not least the shrill commands of South African Bradburn. The following it is expected, will be the team opposed to the Examiner's seven:

Quill Pusher Moore.
Glue Pot Jolliffe.
South African Bradburn.
Proof Press Garden.
Turn Rule McIntyre.
Machine Caps Smith.
Boiler Plate Mowry.

RUGBY.

THEY ARE READY.

The handsome photos by Mr. Whiten of the Peterborough Rugby team are now completed, and players can secure them at Mr. Whiten's studio, Hunter street.

LACROSSE.

PORT HOPE'S TEAM.

Replying to the Telegram's article in reference to the Port Hope lacrosse team, the Guide says:—

"The prospects for a splendid team this year are very bright, but the Telegram is quite right in saying that the loss of Glover and McCabe would leave a bad hole in the Port Hope team. The vacancies would indeed be hard to fill, but if either of these gentlemen take part in the national game this year it will be with Port Hope.

"Then the Telegram overlooked another of the Peterborough-Port Hope players, one of the cleverest stickhandlers in the province, Miles McDonough, but of course there is no danger of Miles wearing anything but the 'yellow and black.'"

TWO BIG TUESDAY FIRES.

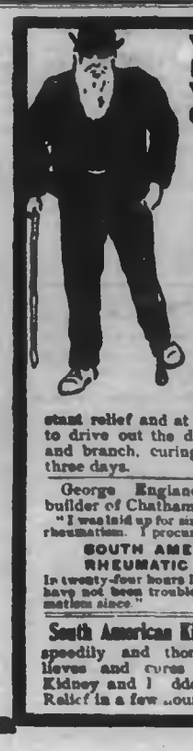
$40,000 Burning at Orangeville—Hotel and Several Stores in Ashes—Business Houses at Waterford Destroyed.

Orangeville, Feb. 25.—One of the most disastrous fires that has ever been witnessed in this town occurred at an early hour yesterday morning. From 2.30 until 9 o'clock the fire held high carnival, and as a result the fine buildings fronting on South Broadway, the main business street of the town, from Mills street east for fully 200 feet, are a mass of ruins. Tottering walls are all that remain of business places that a few hours ago were scenes of busy activity. The fire originated in Jackson, Brett & Co.'s large hardware store, and was discovered between 2 and 3 o'clock. The only place that escaped in the fire-swept area was Hugh Green's barber shop between the Gordon House and Brett's hardware store. The Gordon House was completely gutted.

The total loss is estimated from $35,000 to $40,000, insurance so far as can be ascertained at present is as follows: Jackson, Brett & Co., hardware stock, etc., $3,000, in the Equity Fire Insurance Company; T. T. King, on building $2,000, in Waterloo Insurance Company; J. L. Booth, liquor store stock, $1,750, in Royal, Orangeville; Mercer & Robinson, on stock, $1,500, in Economical; Thos. Robinson, household contents, $500, in Manchester; W. P. King, building, $2,300, in London, Liverpool & Globe; Middleton estate on Gordon House, $5,000, in London, Lancashire; H. B. Clarke, landlord Gordon House, $1,000, in Economical and $1,000 in British American.

Heavy Losses at Waterford.

Waterford, Feb. 25.—Fire broke out yesterday morning about 5.30 in the Duncombe building, occupied by Haddon, tailor; Hill, butcher; Perkins, shoemaker, and the office of Marlatt & Duncombe. The building and contents were totally destroyed. The buildings south, owned by Mrs. J. P. Dean and Shibldrick & Colvers, hardware merchants, were also totally destroyed. Calley's the shoeman's, premises were slightly damaged. Loss on block about $6,000; stock, about $10,000; partly covered by insurance.



You Pay—You Choose.

There is no case of Rheumatism that the Great South American Rheumatic Cure will not conquer in a few days—acute or chronic, muscular or nervous. It gives almost instant relief and at once begins to drive out the disease, root and branch, curing in one to three days.

George England, a ship builder of Chatham, writes: "I was laid up for six months with rheumatism. I procured a bottle of SOUTH AMERICAN RHEUMATIC CURE. In twenty-four hours I was well and have not been troubled with rheumatism since."

South American Kidney Cure speedily and thoroughly relieves and cures the worst Kidney and Bladder diseases. Relief in a few hours. 7.

$70,000 SECURED BY MARTINEAU.

In No Instance Was Forgery For Less Than $5,000.

Ottawa, Feb. 25.—Martineau defalcations will not exceed $70,000. In October last Martineau is alleged to have forged a cheque for $13,000. In another case the amount was for $12,500. In no instance was the amount of the forgery less than $5,000.

A number of misleading statements have been published as to the manner in which the discovery of the frauds came about. It was Mr. Holt, the Assistant Accountant, and not the Bank of Montreal, who first found that the balance to the department's credit had dropped to a surprisingly low figure. He then started to investigate, aided by Martineau himself, but found it a hopeless task, owing to the falsification resorted to by the latter. Mr. Holt then laid the matter before the Accountant, Mr. Borden. The two gentlemen themselves commenced a scrutiny, and discovered that four cheques had been paid to C. D. Cote in July last.

Mr. Borden went to the Bank of Montreal and found that the cheques made out in favor of C. D. Cote had come from the Sovereign Bank. A reference to the directory showed that no such person lived in Ottawa. The Sovereign Bank officials were asked to describe Cote, and the description corresponded to that of Martineau. The arrest of Martineau then followed.

Instruction For Cheesemakers.

Toronto, Feb. 25.—Government assistance in connection with an educational campaign was sought by the executive of the Western Dairymen's Association, which waited on Hon. John Dryden yesterday. They ask that the Government will aid the cheesemakers to maintain a corps of six or eight special instructors to give practical courses in the western cheese factories.

NIAGARA POWER.

Galt Public Meeting Passes a Resolution in Favor of Government Development or a Union of Municipalities.

Galt, Feb. 26.—A large and representative meeting of power users and business men was held in the Town Hall last evening. Mayor Cant occupied the chair. After a debate extending over two hours and a half, the following resolution was carried, without a dissenting vote, though some failed to stand yea or no:

Moved by R. McGregor, seconded by Robert Scott, "that this meeting would instruct its representatives at the convention in Toronto, re electric power, as follows:

That the work of developing and transmitting of electrical power from Niagara Falls should be undertaken by the Government, and should be supplied to users within a reasonable radius at a price that would completely cover all the expense, allowing for wear and tear, renewal, etc.

Should the Government refuse to take this action, our second instructions would be as follows: That the Government should be asked to allow municipalities to join together to develop and transmit this power, and that the Government should guarantee their bonds.

That the municipalities within a certain radius should be supplied with the power at the same price in proportion to the distance of transmission.

That the franchise should be granted with positive restrictions that all municipalities that came in and pay their share should be served on an equal basis.

Third—Instructions should be that franchises should be granted to all applicants who could comply with the terms laid down by the Government, and that the franchise before being granted by the Government should be hedged around with restrictions, only allowing those to whom the franchises are granted, permission to charge a reasonable percentage of the profit on the investment, and that all applicants within a certain radius should be entitled to the power on equal terms.

The discussion showed that Galt feeling favors the development of Niagara power by the Government.

Mayor Cant will attend the convention to-day as the representative of the municipality, and R. MacGregor as representative of the manufacturers.

Cattle Disease Inquiry.

Ottawa, Feb. 26.—Dr. J. G. Rutherford, chief veterinary inspector of the Dominion, left last night for Boston, where he is going to make a personal inquiry into the cause of the cattle disease in the New England States.

Quebec Legislature.

Quebec, Feb. 26.—The Provincial Legislature opens to-day. Private bills to be introduced number 105, the largest on record. There are many public measures as well.

Charged With Forgery.

Quebec, Feb. 26.—Albert Pare, aged 30 years, who returned from New York State to claim an estate of $5,000 left by a dead brother, was arrested yesterday on a charge of forgery. It is alleged that he forged the name of the Provincial Librarian to a note given in the street paving contract two years ago.

Eczema and Itching Skin

Defied Many Expensive Remedies but Were Thoroughly Cured by

Dr. Chase's Ointment

It is a mistake to judge Dr. Chase's Ointment by the results obtained from the use of ordinary salves and ointments. It is not to be compared with any preparation on the market to-day.

Some of these remedies give temporary relief but they do not strike deep enough to eradicate disease. You need not be alarmed if Dr. Chase's Ointment causes a little irritation at first; this is necessary in order to root out the disease. When the cure is brought about the skin will be left smooth and clear, without scar and blemish.

Mr. Hiram Frey, Norwood, Ont., states: "I was troubled for ten years with eczema on one leg. The itching was terrible, and when scratched the blood would come. Fortunately I heard of Dr. Chase's Ointment, and its persistent use has completely cured me. There is now no trace of the disease left.

"My little girl, two years old, has also been cured of Eczema by Dr. Chase's Ointment. Her face was a mass of sores and we hand to bandage her hands to keep her from scratching it. To-day her face is clear of even the scars which the ugly sores made, and she is thoroughly cured. I am glad of an opportunity to let people know what a blessing Dr. Chase's Ointment has proved itself to us."

Miss Lavina Diotte, Clarence Creek, Ont., writes: "I suffered with eczema for over a year and a half and tried all the remedies I could hear of, some of them costing considerable money, and not doing me any good. I was enduring great torture when I read an advertisement of Dr. Chase's Ointment, and resolved to give it a trial.

"I began using Dr. Chase's Ointment, and it has completely cured me. Though I do not need it any more I keep a box in the house in case of emergency. I hope that people who suffer as I did may read this testimonial and for this reason you have my permission to publish it. It is only just that such a good remedy for eczema and itching skin should be made known to those who suffer."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 3

TWO ALTERNATIVES

By W. Bert Foster

Copyright, 1902, by the S. S. McClure Company

"And now, Jack, what can I do? He follows me everywhere, and he stands around and ogles me with that detestable 'baby stare' of his, and—and—you're laughing, Jack! You are as mean as you can be to laugh when I come to you for advice."

Esther stamped her foot. Jack Ormsby leaned against the veranda railing and watched her with amused eyes.

"I can't help smiling, Esther, but I can appreciate the irritation poor Hallowell must cause you."

"Irritation!" A world of emphasis entered into the word. "And just because I was foolish enough to let him propose to me!" she wailed.

"Well, of course," Jack said slowly, "you must expect to have your scalps cost you a little something, Essie."

"He doesn't say anything," exclaimed the girl. "If he did, it would give me a chance to tell him what I think of his dogging my footsteps everywhere."

"It certainly is a case of 'the villain still pursued her,'" Ormsby said. "What do you want me to do, Essie—call him out and plug him full of holes?"

"Ugh! Don't be so vulgar! I don't want you to do anything but tell me what to do to get rid of him."

Jack was almost the only man she knew well who had not proposed to her. Men had fallen before her charms, had said their little piece (and some said it rather well, she had to admit to herself), and gone their way, and until now no man had really been able to trouble her serenity.

"Do think of something, Jack," she pleaded. "It's been three months now since he—he"—

"Since he said the momentous words which made him—not yours, eh?" And Ormsby laughed, but his hands trembled as he shifted the cane a little.

"Don't be absurd! He doesn't want me any more than other men do."

"Whew! Your serene conceit is certainly charming, Essie."

"Don't be unkind. You know it's true," she said calmly. "Any woman with fluffy hair and blue eyes can bring men to her feet. Only you don't get foolish and propose to me, Jack."

"No, I don't propose to you," he said quite calmly.

"And that's why I like you."

"Then I'll try not to make you dislike me. But what can I do to poor Hallowell? A cat may look at a king"— But Esther interrupted snappishly.

"That's no reason why a calf should look at me all the time!"

"Poor girl! You're finding it mighty hard getting away from the consequences of your own sin, eh?"

"What sin have I committed?" she demanded, with conscious innocence. "Is it a sin to refuse to marry a man you don't want?"

"No-o. But how about—well, not exactly leading him on to proposing—but"—

She favored him with a frigid look. "I beg your pardon, Mr. Ormsby," she observed.

"Well, you needn't," he said quietly. "You expect plain talk from people whose advice you ask, don't you? No man will ever ask a woman to marry him if she doesn't give him the opportunity."

"That is different; but such remarks as you are making now are hardly in the nature of advice, Jack."

"Well, I don't see that there's much you can do," he drawled, and his eyes began to twinkle. "There seem to be but two courses to pursue, and two only"—

"Oh, here's your Sultan and the runabout!" suddenly cried Esther, clapping her hands and springing up. "Are you going to take me to ride, Jack?"

"Well, it's what I came around for, but your tale of woe about knocked it out of my head."

The negro from the stable leaped out and held the big bay's head. Esther ran down to the gate, forgetting the beruffled parasol lying on the veranda. Ormsby followed lazily.

"Feeling pretty gay, isn't he, Jackson?" he asked, pulling on a glove and looking at Sultan, who danced charmingly to the accompaniment of little squeals of delight from Esther.

"Yes, sah; he do, sah."

"Hop in, Essie," Ormsby said, holding out his hand to assist her. Then he added, "Speaking of angels, there's Hallowell now."

A fresh faced young fellow cantered by on a fine horse and lifted his hat seriously. A little way beyond he pulled in the animal and dismounted as though he would come back to speak to the couple at the runabout.

"Do hurry up!" exclaimed Esther under her breath. "What shall I do to get rid of him, Jack? You said there were two ways. What are they?"

"Well," and Ormsby buttoned the glove slowly and put one foot on the step of the runabout, "you might marry him to get rid of him."

"No, thank you!" she exclaimed, pouting and tossing her head. Then she started and looked toward the house. "Oh, Jack—my parasol! I shall want it."

Ormsby had already leaned forward to seize the reins. He glanced at the colored man. "Miss Dingley's parasol is on the veranda, Jackson," he said.

The man dropped Sultan's bridle. Like a flash the bay threw up his head and started.

The lines had not been quite within Ormsby's grasp. His foot slipped from the step. He made a leap to reach the carriage, but Sultan swung into a long stride on the instant and fairly snatched the runabout from under his master's grasp.

"The reins, the reins! Quick, Essie!" Ormsby cried.

Thank God, she knew what he meant and seized the lines before they slipped over the dashboard to dangle about Sultan's heels and drive him mad with terror. But the horse knew instantly that an unfamiliar hand held the reins, and he increased his trot to a gallop.

Esther told herself that she would not be frightened, and she drew the lines in firmly and said "Whoa!"

But Sultan saw no reason for "whoaing" just then. There was a long stretch of dusty, sunlit road before him, and he seized the bit in his strong teeth and bolted. He flew by Hallowell's mount with a rush and set that creature to dancing. Hallowell hung on to the leather and stared with round eyes after the runaway.

His astonishment was vastly increased when a second whirlwind reached him. Ormsby went at him as though he was playing football.

He snatched the bridle from Hallowell's hand, and that young man was sent rolling in the dust as Jack leaped astride and set the now frightened animal after the bolting Sultan.

The road for a mile was clear, but where it joined the boulevard beyond Ormsby knew the runaway would burst into a tangle of carriages of all descriptions, and the end would be serious. He didn't know much about the soundness of Hallowell's mount, but he would have made an asthmatic old car horse do stunts just then.

Like the wind he rode, and his mount's nose soon came up to Esther's shoulder. Foot by foot he gained on Sultan, and then, with a swift dive, Ormsby seized the reins, which Esther had continued to cling to with all her little might. A strong pull on both horses, and Sultan instantly recognized the fact that all his fun was over.

He slowed down and in half a block, and just before the junction with the boulevard, stopped, as gentle as a lamb. For a minute they gazed at each other.

"Well," Ormsby said at last, "you came near escaping the pursuit of the villain that time, Essie, for good and all."

Esther's eyes grew luminous. "And you dared suggest that I marry him!" she said, catching her breath.

"Well, you know there was an alternative."

"And that is?" still looking at him.

"That you might marry me to get rid of him. That—that would be effectual, wouldn't it?"

Another breath of silence, and then Esther murmured, "Well, Jack, dear, we might try it!"

Neuralgia

is Rheumatism of the face. Uric Acid left in the blood by disordered kidneys lodges along the nerve which branches from the eye over the forehead, and across the cheek to the side of the nose. The cause is the same as in all Rheumatism—disordered Kidneys. The cure is likewise the same—

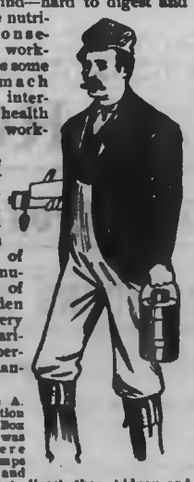
LONG BROS. TWO STORES—

Nos. 356 and 414 George-St.

The Dinner Pail

Of the American working man is generally well filled. In some cases it is too well filled. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition. As a consequence many a working man develops some form of stomach trouble which interferes with his health and reduces his working capacity.



Where there is indigestion or any other indication of disease of the stomach and its allied organs of digestion, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure.

Mr. Thomas A. Swarts, of Sub Station C, Columbus, O., Box 103, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. At last I had all the complaints at once, the more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had *given up to die*, thinking that I could not be cured. Then one of my neighbors said, 'Take my advice and take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles in about six weeks, I was weighed, and found I had gained twenty-seven (27) pounds. I am as stout and healthy to-day, I think, as I ever was."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent *free* on receipt of 31 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

Kipling Is Fond of Pie.

Rudyard Kipling, it appears, is fond of apple pie baked on the American system. To gratify his taste a glass rolling pin specially used in the manufacture of these pies has just been forwarded to the novelist from Wanamaker's. The glass rolling pin has among other advantages the merit of always being sweet and clean, and of being hollow so that it can be filled with ice to cool the pie crust. When Mrs. Kipling, who is an American, was in that country last summer, she greatly admired this contrivance, and knowing that her husband and children were fond of American pies, decided to get them the next best thing by having her pies made with an American rolling pin.

Drop Precedent.

"When you have a great reform to carry out, for God's sake drop precedent for the moment and come down to business."—Lord Rosebery.

EARTH ONCE LIKE A PEAR.

Theory That Globe Was Formerly of Different Shape.

J. H. Jeans, one of the greatest mathematicians that Cambridge University has produced in recent years, communicated a paper at the last meeting of the Royal Society, in which he made novel suggestions in regard to the figure of the earth. He said there was probably a time when the rigidity of the planet was so small that the configuration was pear shaped.

The transition from a pear shaped jelly to a steel like spheroid had taken place through a series of ruptures. Nevertheless, traces of the pear shaped configuration were still discernible. England, he said, is the centre of a hemisphere which is practically all land. This hemisphere represents a blunted pear. It is along the boundary of this hemisphere that earthquake attempts at the readjustment of form are and were most frequent.

"Tracing a circle about the globe," he said, "at a greater distance from England as the centre, we pass over a region of the deep seas of the Pacific, southern Atlantic, and Indian oceans. Along this circle there is the remains of the pear's stalk." If one accepts these views the existence of a large tract of land about the south pole becomes more doubtful than ever.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant.

Unfortunate Chickens.

A farmer who has tried Shanghai fowls and found them wanting gives the following account of their peculiarities. Their true name, he says, is "shank high," and he pronounces them rightly named.

They have no body at all, and when the head is cut off the legs come right apart. I don't see how they can sit on their eggs. My jackknife can sit as well as they can.

They don't sit on the roost the same as other chickens do; not a bit of it. When they attempt to sit as other chickens do, they fall off backward.

They sit when they eat, I know, for I've seen 'em do it. And I've seen 'em try to eat standing, but they couldn't fetch it, for when they peck at a grain of corn on the ground they don't more'n half reach it, but their head bobs right between their legs and makes 'em turn a complete somerset.

I'd as soon see a pair of tongs or compasses walking about my yard as these shank highs.

They crow, too, a long time before day, when it isn't day, probably because their legs are so long that they can see daylight long before a common chicken can.

The Best Side.

Cholly Masher (to the photographer)—Be sure and show the collar and eyeglass, and don't forget to give the cane the correct pose.

Photographer—Certainly not. Now, hold steady. All right! It's done, sir.

Cholly—Done, is it? Are you quite sure you have taken the best side of my head?

Photographer—Quite sure, sir. I took the outside.

Twin Mittens.

Hewitt—I proposed to twin sisters, and both gave me the mitten.

Jewett—Well, there's one consolation. Your mittens ought to be mates.—Brooklyn Life.

BLOOD DISEASED MEN

If you ever contracted any blood disease you are never safe unless the virus or poison has been eradicated from the system. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body eyes red and smart, dyspeptic stomach, sexual weakness—indications of the secondary stage. Don't ruin your system with the old fogy treatment—mercury and potash—which only suppresses the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantee are backed by bank bonds, that the disease will never return. Thousands of patients have been already cured by our New Method Treatment for over 20 years. No names used without written consent.

Mr. E. A. C. writes: "Your remedies have done me more good than Hot Springs and all the doctors and medicines I had previously tried. I have not felt any of those pains or seen any ulcers or blotches for over seven years and the outward symptoms of the loathesome disease have entirely disappeared. My hair has grown in fully again and I am married and happy."

The following despatches have been received by E. M. Poussett & Co.:—

New York, Feb. 26. — Senator Aldrich expects to take up his bill to-day. Senator Dubois absolutely denies the statement printed that he intends to lead opposition to the bill. He says he is not opposing it, and thinks it will pass. There will be several democratic speeches against, but it is not there intention to prevent it coming to a vote.

DOW, JONES & CO.

New York, Feb. 26. — Senator Aldrich will make another attempt to get up his financial bill to-day. He believes the democrats will filibuster against it as it has become more of a party measure. The general market conditions are dull and mostly professional. The Gould stocks have been supported by brokers who usually trade for the Gould interests and there has also been some support in Metropolitan lately and moderately good buying in St. Paul and R. I. Outside business very small and sentiment is depressed by the disappointing tone of market and the fear that the Aldrich bill will fail to pass, and the bank statement on Saturday will be bad and we will have a hard evening of money market and some enforced liquidation later as the consequence of it and the very low bank surplus reserves.

Grain. — Liverpool close, wheat, unchanged to 1-8 higher; corn 3-8 higher. The trade in corn has been very large this morning. Market maintains its strength although crowd inclined to take profits.

Cotton. — Cables close 10 to 11 points higher in Liverpool.

M & M.

New York, Feb. 26. — New York news bureau says the exact amount of gold coin that has been withdrawn from the local sub-treasury since the close of business last week $750,000 as against this the banks have received in gold from San Francisco approximately $700,000. One bank received $500,000 and another two lots of $100,000 each. The total amount received foots close up to one million.

New York, Feb. 26. — Barr and Ladenbourg sold Erie; J. W. Henning bought 1,500 R.I.; Webb and Pratt, Strouf, Sturgis and traders bought Atchison

M. & M.

The story of Rock Island deal has not caused much enthusiasm. It is generally supposed and taken for granted that it will go through as announced but the present money market conditions are regarded as very unfavourable for putting through such a deal at this time and rank and file of traders generally are disposed to wait the official details in the meantime the best classes of stocks are depressed with the general market, the narrowness of which can be readily seen from the fact that only 170 000 shares have been traded in during the first hour.

Messrs. Haight & Freese have received the following:—

New York, Feb. 26.— There seemed to be a rather powerful bear clique operating in M.R. and there was a revival of rumors although they were not of a dangerous character as those recently circulated. Traders say there was no real difficulty in borrowing stock at prevalent rates. Advance in sugar was checked when it became apparent that what few shorts there were in the market had covered. Leather was inclined to sell off as there seemed good evidence that any contemplated scheme for financing preferred dividends in arrears had been abandoned.

New York, Feb. 26. — Yesterday's market was a serious of ups and downs, leaving off about where it began. Pressure on the list was almost entirely confined to M.R. The action of the stocks yesterday pressage something more on the question.

New York, Feb. 26. — Traders are mixed the speculation will continue irregular. Specialties will be the order of the day. There will be ten points or more presently on the long side of Rock Island com. Insiders predict 60 or better within a very limited period.

Mr. Morgan's Southern trip which always precedes his annual European tour, will not interfere with the upward trend of steele or of Southern Ry. These should be bought on all little reactions or fractions. The short interest in Atch., N.Y.C., B.O., Pacifics is gradually increasing. These standard issues should be bought for a turn at least, but until the big men take hold the trading will be limited. Mex. C. U. S. Realty and copper are good to hold.

JOSEPH.

New York, Feb. 26. — There seems to be a fair sized bear party at work but stocks are apparently in good hands, and it is not believed that any considerable liquidation will be enforced. The high-priced issues are the best for the bears, while the low-priced stocks should be bought on weak spots after recessions. The outlook is not favouring anything. The advisability of taking moderate profits is apparent. We get some very strong bull points on sugar.

New York, Feb. 26. — Security prices while more or less irregular, fluctuate within narrow limits. There is an absence of any general public buying yet, no great selling pressure. The fact is there are several important factors working both for and against market activity. On the one hand we see an enormous trade movement and large corporate earnings. The commercial world is making money and this is a bull argument when considering the possibilities of the market. On the other hand however the monetary outlook is not conductive to any large commitments and the labour unsettlement tends to make capital unusually conservative. It seems to be good opinion that the favourable considerations out-weigh these that are unfavourable. Easier money should be witnessed by next April, if precedents count for anything.

Messrs. Dever & Co. have issued the following:—

New York, Feb. 25. — To-day's market was irregular and narrow with large number orders on both sides of market. The industrials were strong early while tractions were inclined to weakness. Noon-day session was rather dull with trading quite light. The erretic actions of Met. Ry. are very perplexing, appears to be very susceptible to bear attacks. Can see nothing in the situation at present to cause liquidation, except fears of tighter money. Some profit-taking in Wabashes. Sugar is being steadily accumulated and a sharp upturn is in prospect for this stock. Holders of stocks should not be influenced by present conditions to part with their holdings, still feel bullish. Next 30 days will in all probability see stocks selling considerable higher. Any of the standard rails could be picked up around present prices and on a scale down for handsome profits with stop orders about 2 points from purchase price which will reduce chances of loss to a minimum. Afternoon session was quiet heavy prices declining to about low point of the day, Met. Ry. being used by bears to cause liquidation in other parts of the list.

Chicago.—Wheat market was very narrow to-day. There was news of importance. Traders preferred to await developments. Weather remains favourable but there is some talk of government report for month of March showing reserves of grain in farmers hands being bearish. Seems to be little in sight just now to materially improve prices and nothing but a scalping market may be looked for. Corn showed good strength but hardly think will sell much higher for the present would prefer a reaction to about 45 cents before purchasing. Closing prices—Wheat May, 77 1-8 a 1-4; corn, May, 46 a 1-8; oats, May, 35 1-2; pork, May, 17.72 1-2; lard, May, 9.85.

SCOTTISH CURLERS IN CANADA.

What the Scotsman has to Say About the Visit.

PETERBOROUGH'S RECEPTION

They Claim That the Dogs Barked a Welcome.

The Reception in the Oddfellows Hall Results of the Curling Matches— The Visit to Lindsay.

The Scotsman, of a recent date, contains the following reference to the visit of the Scottish curlers to Peterborough:

With every pleasant recollection of their visit to the capital, the curlers left for Peterborough, their first stop after crossing into the great province of Ontario, and, notwithstanding the numerous ovations that had greeted them on their way, the Peterborough reception fairly "cowed a'." Headed by the 57th Regiment band the curlers of the city had marched to the station to extend their "caed millo failthe" to the Sons of Scotia and right royal was the welcome they gave. As the train rolled into the station the band struck up, and the curlers of Peterborough, Orillia, Cobourg, Norwood, Keene, Port Hope, Uxbridge and Lakefield, who had assembled there, raised cheers such as only curlers can give. Everywhere the feeling seemed to be that the visitors were welcome, and that the citizens of Peterborough were determined to let them know it. A procession was formed, headed by the band, followed by a long procession of curlers with brooms up. Next came the conveyances with the Scottish curlers, civic officials, and other prominent citizens, followed by several hundreds more of curlers and the public in general. It was like a Lord Mayor's procession, the streets being lined on both sides with spectators, who every now and then burst into cheers, even the dogs barked the welcomes. It was certainly a reception that for its heartiness will ever remain engraven on the hearts of those who received it.

AT LUNCHEON.

At the Snowden House luncheon was served, Colonel E. B. Edwards, K.C., to whom the credit for the complete arrangements for the visit of the team to the province of Ontario, was due, presiding, and thereafter several matches were played, the Scottish team winning one and losing three, thus showing that in the region of keenest ice they could snatch a victory at the outset. In his remarks Colonel Edwards said that recent history had made Canada a more prominent part of the Empire than it ever was before, and he was sure the visitors would return with a greater idea of the importance of this country, of the blessings, of the jollity, and the benefits of its winter climate, than they could have obtained in any other way. The Captain in reply delivered a message of greeting from the "auld mither club," the Royal Caledonian, and said the visit of the team was not made with the impression that they could give points to the Canadians at curling. There was too much winter in Canada, and too many opportunities for curling, for they in Scotland, with their fickle seasons and few chances, to think of such a thing. They came not in a spirit of rivalry, but of good fellowship, and the result of their visit so far had been beyond their highest anticipations. The usual supper and smoking concert took place in the evening. At the latter, Mayor Roger offered a welcome for the city. The team were driven through the city on Wednesday, and enjoyed seeing the electric works, the cereal works, and hydraulic lift lock; and after a match with the Peterborough Club, in which they made a good show, they went by special train to meet the Lindsay Club, which is perhaps the most renowned in Canada, so far as distinction in winning prizes goes, as was evident from the enormous display of silver on the table. This Club numbers 130 members, and at all times it is formidable. The Scottish team may, therefore, be said to have done splendidly, when, with all the odds against them; they were only defeated by 6 shots, the numbers being 38 and 32. The captain of the team had the honour of playing against Mr. J. D. Flavelle, the most renowned of Canadian skips, and this match attracted a great throng of spectators, who crowded the rink so much at the finish that it was difficult to see the end of the rink. So well did the captain and his rink show up against the renowned Canadian, that they led nearly till the close, but the difficulties made by the crowd caused the Scots to lose the last two ends, and left Flavelle 3 up, he acknowledging afterwards that the captain of the Scots had given him a bad fight. Mr. G. Dean Ritchie had the credit of being up against one of the best of the Lindsay rinks. Against Beaverton, the same evening, the Scottish curlers were 3 up, Mr. Cousin, skip; and against Bobcaygeon, 9 up, Ballantyne skip. At the banquet which followed it was suggested that the renowned Lindsay team should visit Scotland; and Mr. Flavelle, in reply, said he would consider the invitation, but from the narrow escape they had made that evening, he was afraid of what might happen if they met the Scotchmen at home.

—The members of the Lindsay Curling Club will attend divine service at the Cambridge Methodist church, next Sunday evening in a body, when Rev. G. W. Henderson, chaplain of the club, will preach the annual sermon.

LETTER OF CONDOLENCE

To Mrs. Wm. Creamer and Family, From Canadian Order of Oddfellows, No. 164.

At the last regular meeting of Loyal Peterborough Lodge, No. 164, C.O.O.F., the following letter of condolence was ordered to be forwarded to Mrs. William Creamer, on the death of her beloved husband:

Dear Mrs. Creamer, — The members of Loyal Peterborough Lodge, Canadian Order of Oddfellows, No. 164, desire to express our sympathy and condolence with you in the irreparable loss you have sustained in the death of your loving husband, who has passed peacefully away, we believe to reap his reward in that better land, where there shall be no more sickness, neither shall there be any more sorrow or death. This thought should, therefore, be a source of great comfort to you in this your day of tribulation; and at the time when human sympathies fail to support you we would gladly point you to a "Friend that sticketh closer than a brother." To Him who has trod afflictions path, and who alone is able to give grace that will enable you to say as one of old, "Thy will be done."

To the children we would also convey our sympathies and fervently pray that the vacancy caused by death shall be filled by the love of Christ, the fairest amongst ten thousand. May the God of comfort be ever near to you at this time, and may He long spare you to labour in His cause, which is more needful for us, and all who dwell in an empire wherein the truth has given us liberty of great price, and an open Bible and a pure-preached Gospel.

Signed on behalf of the Lodge,
ALEX. NESBITT,
Noble Grand.
ROBT. WILSON,
Rec.-Secretary.

LEGS SWELLED HURT TO STOOP.

Mr. Chas. Mueller Speaks of his Complete Recovery by using Dr. Pitcher's Backache Kidney Tablets.

The most serious kinds of kidney diseases and derangements, that other remedies seem powerless to benefit, are rapidly, completely and permanently cured by Dr. Pitcher's Backache Kidney Tablets.

Mr. Chas. Mueller, a resident of Waterloo, Ont., when spoken to about his case, made the following statement: "I could not stoop or lift anything without pain. To get about was difficult. The kidney secretions were not healthy and my limbs began to swell. Dr. Pitcher's Backache Kidney Tablets have acted well with me. I am able to stoop and move easily and the swelling of the limbs is gone. I am completely cured.

Dr. Pitcher's Backache Kidney Tablets are fifty cents a bottle or three for $1.25, at druggists or by mail. The Dr. Zina Pitcher Co., Toronto, Ont.

A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT.
January 19th to 23rd.

Sealskin advanced from	20%	to 40%
Persian Lamb advanced from	10%	to 20%
Astrachan Lamb	10%	to 25%
Raccon Skins	20%	
Skunk Skins	15%	
Mink	15%	
Black Cattle Skins	10%	to 15%
Wombat Skins	15%	
Wallaby Skins	15%	
Australian Coon	25%	
Otter Skins,	10%	
Opposum Skins,	15%	
Marten Skins,	12%	

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this anncuncement, as it is decidedly in their interest to do so at once.

DAVIS' BIG VICTORY.

Majority of the Commissioner of Crown Lands 463.

DOUBLE THAT OF LAST VOTE.

North York's Splendid Answer to a Campaign of Vilification and Slander—As the Minister Remarks, "The Protest Is Settled" — Major Clark Holds Centre Bruce by a Close Vote.

Hon. E. J. Davis (Liberal), majority, 463. Majority over same opponent in general election, 207.

Major Clark (Conservative), majority, 52. Majority over same opponent in general election, 5.

The party standing is 52 Liberals, including Mr. Gamey of Manitoulin, who has announced himself as an independent Government supporter, and 45 Conservatives. North Renfrew is open, and it is expected to return a Government supporter, making the Liberal majority eight, or seven with the Speaker in the chair.

MR. DAVIS' GREAT MAJORITY.

Newmarket, Feb. 27.—"Double the majority for Davis" was the watchword of the Liberals in the North York campaign, and the majority of 207 in May last has been more than doubled. The increase was general all over the constituency, but was more particularly noticeable in Mr. Davis' own polling subdivision, where Mr. Davis' majority was increased from 94 to 126, and in the Town of Aurora, the home of Mr. Lennox, where the voters converted an adverse majority of 43 to a majority of 8 for Mr. Davis. This turnover in Aurora is a significant feature of the campaign, and would seem to indicate that the Conservative candidate's campaign of personalities did not find favor in his own town. It also aroused Davis' neighbors, and caused them to return no uncertain verdict of disapproval. In Newmarket the Liberal majority is normally 100. In May last the 123 given for Davis was quite abnormal, and surprised the Liberals quite as much as it did the Conservatives. Last night Newmarket registered 104 for Davis, and the Liberals have no reason to feel ashamed. King Township increased its majority for Davis from 90 in May last to 167. Whitechurch advanced from 109 to 110. East Gwillimbury from 64 to 93. North Gwillimbury gave Lennox 31 in May last and Davis 21 yesterday. Georgina gave Lennox 60 in May, and only 31 yesterday. Stouffville increased its majority for Davis from 33 to 44. Holland Landing gave Lennox 29 yesterday and 32 in May, while Sutton, which gave Lennox 46 at the general election, gave him 38 yesterday.

The Protest "Settled."

Mr. Davis spent the day around King, and went to Newmarket on the evening train. When the result was known he was escorted to the Town Hall from the residence of Mayor Cane by a torchlight procession, the carriage being drawn by the willing hands of his friends. It was fully ten minutes before the crowd in the hall, which included hundreds of ladies, felt that they had done vocal justice to the victory. Mr. Davis' remarks consisted largely of happy commentary on the returns. He commenced by jocularly remarking that "the protest was settled," and drew attention to the manner in which his friends had resented the vilification to which he had been subjected.

This was especially apparent in Aurora, which town he expected to visit shortly and thank fittingly, and in King, where they evidently did not believe him to be the most corrupt politician outside of penitentiary walls. After thanking all his friends for their magnificent support Mr. Davis delivered the telephoned appreciation of Premier Ross and read congratulatory telegrams from a large number of friends.

Sir William Mulock wired: "My heartiest congratulations on your magnificent and well-earned victory."

T. H. Preston, M.P.P.: "North York has given a splendid answer to a campaign of vilification and slander."

Complete Returns.

The complete returns are:

Davies' majorities:	
King Township	179
Whitchurch Township	111
East Gwillimbury Township	95
North Gwillimbury Township	19

IN CENTRE BRUCE.

Chesley, Feb. 27.—In the bye-election here yesterday to fill the vacancy caused by the unseating of Mr. Hugh Clark for corrupt practices by agents, Major Clark was re-elected by a majority of 52 over Dr. J. M. Stewart, his opponent in May last. The majority at the general election for Major Clark was 5.

The complete returns are:

—Hugh Clark's Majorities.—

Majority for Clark, 52.

Semlin Wins in West Yale.

Vancouver, B. C., Feb. 27.—In West Yale bye-election for Provincial House returns give Semlin (Oppos.) 229; Sanson (Govt.) 152, and 30 small places to hear from, which will not materially change results.

Official Burrard Returns.

Vancouver, B. C., Feb. 27.—Returning Officer Mowat yesterday officially announced result of recent bye-election in Burrard as follows: McPherson, 2,108; Foley, 1,885; McInnes, 862; majority for McPherson, 223.

Victoria as a Host.

The London Chronicle says the announcement that the King of Italy will be the guest of King Edward VII this year recalls the visit paid by his grandfather, Victor Emmanuel, when he was King of Sardinia, to Queen Victoria. The king used to tell his friends for many and many a year afterward little stories to illustrate Queen Victoria's friendly and homely spirit. When his leave taking of the Queen and Prince Consort was formally over and he was in his apartment on the point of departure, the Queen knocked on the door and ran in alone for a last handshake with her gruff but greatly delighted guest.

THE BERLIN POLICY.

Municipalities a Unit in Decision to Carry It Out.

WILL VISIT PREMIER ROSS.

Deputations From Ontario Cities and Towns Will Wait Upon the Government Concerning the Use of Niagara Falls Power—Mayors and Representatives the Guests of Toronto City.

Toronto, Feb. 27.—Premier Ross will be waited upon at 11 o'clock this morning by a deputation representing Toronto and the western municipalities, who will discuss with him the development and distribution of electrical energy from Niagara Falls on the lines of the resolutions passed at the power conference in Berlin a week ago.

The delegates appointed at the conference arrived in Toronto yesterday morning, and at 2 p.m. were the guests of the city at luncheon. Acting Mayor Ward presided, and those in attendance were: Jacob E. Klotz, Preston; R. Macgregor, Galt; W. Snider, Waterloo; J. F. Housberger, John White, Woodstock; J. H. Hamilton, Guelph; L. Goldie, Guelph; M. L. Halloran, Brantford; J. F. M. Stewart, Toronto; P. W. Ellis, Toronto; C. F. Maxwell, St. Thomas; Hugh Cant, Galt; W. B. Burgoyne, St. Catharines; W. F. Merden, Hamilton; Henry Bertram, Dundas; E. W. B. Snider, St. Jacob's; D. B. Detweiler, Berlin; A. Beck, London; Controller Richardson, Controller Oliver, Ald. Spence, Ald. J. J. Graham, Ald. J. G. Ramsden, Ald. W. S. Harrison, J. S. Fullerton, K.C., and Assessment Commissioner Fleming.

After lunch, Acting Mayor Ward in a brief speech outlined the business before the deputation and expressed his pleasure on behalf of Toronto in having such a representative body of visitors as our guests. He favored the Government taking hold of the power and distributing it.

Ald. Spence, Chairman of the Toronto Electrical Energy Committee, said that Toronto only wanted to share with other municipalities what was clearly a benefit to everybody. They were combined in a movement in opposition to having the heritage of all turned over to a few. The best plan would be municipal ownership and Government control. The prosperity of Toronto depended upon the success of outside places and the success of outside places depends a lot on the prosperity of Toronto.

In reply, E. W. B. Snider of St. Jacob's was very brief and to the point. He thanked Toronto for its hospitality, and said the object of the deputation was to make one joint effort to further the cause they were all so deeply interested in.

The party then adjourned to the City Hall and talked over matters privately in Corporation Counsel Fullerton's office for two hours. The discussion was much along the lines of that of the Berlin conference, and it was decided to carry out the wishes expressed at Berlin. The meeting was unanimous.

A committee was appointed to wait upon Mr. Ross and ask that the Government undertake the transmission of power to municipalities, and that if that could not be taken up by the Government, to ask that the municipalities be given power to go into a plan by which the municipalities may be allowed to co-operate and transmit energy. The committee chosen is composed of Mayor Hamilton, Guelph; Mayor Cant, Galt; Mayor Housberger, Berlin; Mayor Maxwell, St. Thomas; W. Snider, Waterloo; T. H. Jones, Brantford; E. W. B. Snider, St. Jacob's; D. B. Detweiler, Berlin; F. W. Ellis, Toronto; Ald. F. S. Spence, Toronto.

An Island Fatal to Mice.

There is a small island named Papa Little, that lies in St. Magnus Bay, on the west side of Shetland. It gets his name in contradistinction to Papa Stour, or the Big Papa, another island in the same bay. Both names are of Norse origin, and signify Priest Islands, from the fact that they were colonized by the Irish Catholics who first introduced Christianity. There was a solitary croft on this island at one time, but all that now remains is a ruined homestead, for the place is used purely for grazing purposes. A striking feature of the isles is the fact that no mice can live there, and on various occasions, to test the truth of this, mice have been caught and slipped on the isle, but so uncongenial did its soil prove to their existence that in a short time they were dead. There are instances of crofters on the mainland, when troubled with mice, going the length of fetching earth from this isle and sprinkling it on the ground before building their stacks. This is said to have had the desired effect in all cases.

Result of New York Expert's Analyses of Canadian-Made Soaps.

Dr. Deimel Linen-Mesh Co. writes: "We sent samples of the leading "soaps made in Canada to an expert "in New York, and had them thor-"oughly analysed. As a result of "this analysis, we find your 'Sun-"light Soap' to thoroughly cleanse "without danger to the clothes, and "we are therefore pleased to recom-"mend wearers of the Dr. Deimel "Underwear to use Sunlight Soap "for washing."

ENGLAND AND IMMIGRATION.

England has immigration as well as emigration problems to worry over. A number of prominent English newspapers have been recently drawing attention to the pauper alien immigration that is pouring in from Europe. It is estimated that during the past two years thousands of these paupers have settled in London and in the larger cities along the east coast, where already there was a sufficiently large foreign element. As a rule immigrants from Europe make poor citizens. They are generally illiterate, and unfit to qualify for any labour but that of the most inferior kind and many of them do not care to do even this. The present British Government is under obligation to stop this alien immigration as its restriction was one of Premier Balfour's election promises in 1895. If this is done the trend of migration will, no doubt, turn towards America, where it is not more welcome, but rather less, than in Great Britain.

EDITORIAL NOTES

An exchange says that one by-election will neither seriously hurt the Liberals nor help the Tories.

The New York Herald proposes a bounty system as one way of increasing the birth rate of the United States. The Herald's plan is to pay $1 for the first child, $2 for the second, $4 for the third, $8 for the fourth and so on until the family limit is reached. It has the merit of simplicity.

North Grey elected a Conservative, Mr. Thomson, to the House of Commons yesterday, in place of the late Dr. Horsey. This is to be regretted, as the Liberal representation from Ontario in House of Commons is not as large as it ought to be, largely on account of the outcry against Mr. Tarte at the general election in 1900. In the two Quebec elections yesterday Liberals were returned in both Two Mountains and Terrebonne. — Hamilton Times.

GRAVE OF RICHARD CARVEL.

"What crimes our own revolution has been responsible for," said the keeper of the Literary Graveyard. "Look!" and he pointed out a small valley, filled with thousands of gravestones. "All historical novels, based on the American Revolution," and Washington is in every one of them. But come! I will show you the longest lived of any of them." The stone he pointed out bore this epitaph:

Here Richard Carvel rests from Strife,
After a much-editioned life;
A Crisis checked his long career
And Death soon laid him on his bier;
The malady that quenched his light is
Too-much-historic-novel-itis.

WANT TO BE OLD MAIDS.

English Women Form a Society of Indifference Toward Men.

Toronto World.

London, Feb. 26. — The unmarried women of the ancient town of Guildford, the county seat of Surrey, have leaped into fame. They have formed a society for "promoting man indifference among women," secured headquarters, which they have named "The Spinsters' Retreat," and have pledged themselves to assist "young women and those older in years, to withstand temptations to enter the marriage state." The rules of the society compel the members to have a wholesome contempt of love, to abhor marriage and to display the society's badge at least one day a week.

BOOKLET ON PATENTS.

Received at This Office From Messrs. Marion & Marion.

The Examiner has received from Messrs. Marion & Marion, Patent Attorneys, of Montreal an admirable compendium of condensed information on the subject of Patents and everyday statistical data. This little book, entitled "Invention," is just the proper size for the pocket, 2 1-2 by 4 1-2 inches, is bound in handsome celluloid covers, and contains not only quadrille-ruled blank pages for memoranda, but also 28 pages of interesting reading matter, including quite a surprising amount of novel and useful information not heretofore published. Among the items of information contained in this compact little volume, are graphically illustrated tables showing the growth of the United States and Canada Patent Offices, Geographical Distribution of United States and Canadian Patentees, Distribution of Canadian Patentees among the different countries, the inventiveness of Canadian Provinces, the Comparative Inventiveness of the United States and Canada, the World's Greatest Inventors, and legal markings for patented articles in addition to the very full and useful description of the mode of patent and trade mark procedure, and the extensive equipment of Messrs. Marion & Marion for their work. A full schedule of costs is also given, and a highly interesting list of some of the fields of invention in which they have obtained patents.

The book is prepared especially for the use of the technical and industrial clients off Messrs. Marion & Marion, and does this enterprising firm much credit. It is understood that it is to be had from them by the readers of this paper on request for ten cents.

IN MEMORIAM.

In Affectionate Remembrance of Alvin Everett, the beloved child of John and Eliza Martin, who died on Dec. 24th, 1902, aged 5 years and 6 months.

We had a little child so dear,
He was our grateful pride,
We loved him, ah! perhaps too well,
For soon he slept and died.

I was to my parents while I lived
A flower sweet and good,
And death, you see, soon called on me,
And nipped me in the bud.

Dry up your tears, and weep no more,
I am not dead but gone before,
Do not repine, but be content,
I was not yours—I was but lent.

Mourn not for me, my parents dear,
I am not dead, but sleeping here;
If life was short, I've longer rest,
God called for me when He thought best.

Com.

IRISH MUSIC.

Excellent Suggestion of Rev. Father Coleman, of Ottawa.

Rev. Father Ambros Coleman, who has taken a deep interest all his life in the revival of Irish music and song lectured before a very large audience in St. Patrick's Hall, last night, says the Ottawa Journal. Selections of ancient Irish music and songs were also rendered by well known vocalists and instrumentalists, on harp, vilon and piano.

These were used to demonstrate to the audience the character of music about which the lecturer spoke. There was a dolefulness and a weirdness about some of the selections that was remarkable. There were many of the older songs and dance music and marches given, some of which had more of modern melody, while the dance music kept the audience beating time unconsciously. Some of the pieces given were productions of the 15th century.

In the course of his remarks Father Coleman stated that among stage Irishmen there was a tendency to resent the silly caricatures of the Irish people, both regarding speech and nationality. Everything ridiculous in the papers was attributed to Irishmen, and this was particularly true in the United States. He hoped that his countrymen would be more particular in the future than they had been in the past.

Father Coleman advocated the formation of a society among the Irish of the city, where Irish song and music could be taught. Occasionally entertainments could be given that would be exclusively Irish in their nature. The Irish harp, which had so long been relegated to the back portion of the musical storehouses, would be brought forward, and seen more in public and in the Irish homes.

VILLIERS.

(From our own Correspondent.)

The cold snap is past again.

We advise the (good people) to put their searchlight a block farther south.

The farmers are busy drawing grain and getting out firewood.

Mr. J. Steele is hauling ice for cold storage.

One of North Dakota's prominent farmers paid a visit to our town last week.

On account of scarlet fever the Presbyterian church at Westwood was closed on Sunday.

Miss Jennie Weir of Lang, is visiting the Misses Robertson this week.

Miller's Compound Iron Pills, only 25 cents for 50 doses. For sale by all druggists.

$2,000,000 BURNED UP.

One Half of Square in Centre Business District of Cincinnati.

Cincinnati, O., Feb. 27.—This city was visited by a fire yesterday that destroyed one-half of a square in the centre of the business district and caused a loss of over $2,000,000. There are approximately 400 losers. The burning embers were carried for miles, the Kentucky suburbs being covered with them. The fire departments of Covington, Newport and other Kentucky towns came promptly to the scene, and it was noon before their combined efforts had the fire under control. A general conflagration was narrowly averted. It was thought for a time that the entire business section was doomed, and such would have been the case if there had been a brisk wind.

THINK IT OVER.

Something You can see in any Restaurant or Cafe.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men at the tables; men whose ages run from 60 to 80 years; many of them bald, and all perhaps gray, but none of them feeble or senile:

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavour to live upon bran crackers.

There is a certain class of food cranks who seem to believe that meat coffee, and many other good things are rank poisons, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not do so, and certain foods cause distress one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty because they supply just what every weak stomach lacks, pepsin, hydro-chloric acid, diastase and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus gives a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the travelling public for years have pinned their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages and any druggist from Maine to California, if his opinion were asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

Twenty Passengers Leave.

St. John's, Nfld., Feb. 27.—One of the two blockaded express trains is moving towards this city, and will probably reach here to-day or Saturday. The other snowbound train has not yet been moved. Twenty of the latter's passengers left the train Wednesday and traveled across thirty miles of unbroken snow fields, carrying food in knapsacks on their shoulders.

To Make Observations.

Ottawa, Feb. 27.—On the recommendation of W. F. King, chief astronomer, Hon. Clifford Sifton has appointed Otto Klotz and F. W. O. Werry to make scientific observations ofr the determination of longitudes along the line of the Pacific Cable in 1892.

Stanley Denies It.

London, Feb. 27.—Lord Stanley, eldest son of the Earl of Derby, former Governor-General of Canada, denies the recent published statement that he was to succeed Lord Minto as Governor-General of the Dominion.

A Familiar Name

In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book auditor. He is blessed for the suffering he has relieved and the diseases he has cured; his remedies are used and endorsed by the best people in the land; they are popular because they cure when others fail.

Adopted Without Amendment.

London, Feb 27.—The address in reply to the King's speech at the opening of Parliament was adopted by the House of Commons yesterday without amendment.

Brakeman Squeezed.

Port Arthur, Feb 27.—J. Dobin, a brakeman on the C. N. Railway, was squeezed between two cars at Hymers yesterday morning. It will be necessary to amputate his arm.

Sir John O'Brien Dead.

London, Feb. 27.—The death is announced of Sir John Terence Nicholls O'Brien, former Governor of Newfoundland, at the age of 73.

Oatmeal Bags.

To prepare oatmeal bags to use in the bath water make several little bags of cheesecloth and put in each about two tablespoonfuls of oatmeal. Throw one of these bags into the wash basin, and when the water becomes milky by squeezing the bag use it for both face and hands. The same bag may be used three or four times.

NO INTERRUPTION.

Care Taken in Removing the Postoffice Savings Bank.

The work of removing the material and staff of the present headquarters of the Postoffice Savings Bank in Queen Victoria street to the new and imposing building in West Kensington commenced on Tuesday, and will continue until the opening of the structure in April, says Lloyd's Weekly of the 4th Jan. This removal will require very careful organization to avoid any dislocation of the work, and consequent inconvenience to depositors using the bank, who number no less than 9,000,000, or one in every five of the population of the United Kingdom. The staff at headquarters consists of about 8,200 clerks, and the ledgers in which the depositors' accounts are kept are numbered by thousands.

Some 20 years ago the department had a similar experience, in having to remove from St. Paul's churchyard to the premises in Queen Victoria street. Five years after taking the building in Queen Victoria street another big block was built at the rear, abutting on Knightrider street. About six years ago another block, extending from Knightrider street to Carter lane, was taken, and since then further accommodation has had to be found in buildings situated in Addle hill and Dean's court.

A Colossal Building.

The building in West Kensington, which is to serve as the new Home of Thrift, is colossal. Three of its many rooms have each a length of no less than 350 feet. It has been erected on a site known as the Olympia annex. The front, which faces Blythe road, is in the Renaissance style, and built of Portland stone and red brick. In the centre, which is almost wholly of stone, is the main entrance, in the form of three arches, leading into the quadrangle beyond. On either side of the arches is a bay surmounted by a dome-topped tower, and between these towers is a space for a clock. The centre, with its towers and with its facade decorated with a considerable amount of carved work, makes the main feature of the building, from an architectural point of view, and breaks what would otherwise be a monotonous array of windows in so extended a front. In form, the building is a hollow square, with the north and south blocks continued on both sides beyond the east and west blocks, the projecting ends suggesting that the present structure, huge though it be, is only a portion of the complete design, to be continued, perhaps, as necessity requires.

"A little rain lays much dust."
A little finish covers much shoddy, in shoes.

MILITIA ON WAR STRENGTH.

Lord Dundonald Has Re Advised Minister —Parliament Will Decide.

Ottawa, Feb. 27.—The 28th annual meeting of the Dominion Artillery Association was held at 11 o'clock yesterday morning in the Railway Committee room of the House of Commons. Col. W. H. Cotton, Quartermaster-General, presided. The feature of the meeting was a speech by Lord Dundonald, in which he said he was one of those who believed in publicity, and the people should be told of the needs of the service in time, and an association of this kind, open and free, was the best means of informing them.

The people did not know their military needs. He had had lined up before him on Tuesday the Royal Military College Cadets, as fine a body of Britons as could be found anywhere. Of eighty students only three were down for permanent corps. Of the students 144 are serving in the Imperial army, fifteen in the militia and fourteen in the permanent corps. This could be remedied only by money. Some future must be found for the student.

He announced that there are now on order twelve 4.7 guns, two 6-inch howitzers. Lord Dundonald announced that he had recommended that all establishments be on war strength and that the Minister, subject to details, had consented. He would like to see a large central camp where all arms could work together, receiving mutual instructions. He hoped that would come.

HOW TO BE

Cured of Piles Without Pain.

First—Change from sedentary occupation to wisely chosen, more active work.

Second—From indoor to outdoor life.

Third—From wrong to right clothing.

Fourth—From unhealthy, rich living, to a mild hygienic diet.

Fifth, sixth and last—Use pyramid Pile Cure regularly and according to directions, for it is the right cure for the trouble, and will cure you as it has hundreds of others.

Don't wait until you are a helpless invalid, for a seemingly simple case of hemorrhoids, or piles, may, if neglected, rapidly lead to worse. The unnatural formations become tumorous and permanent, and the inflammation grows until abscesses form; the disease burrows into the tissues, forming tubular growths which discharge pus; cancerous conditions, and general gangrenous degeneration appear.

What is needed at the start, or at any stage, is something to soothe this inflammation, reduce the swelling and distension, and at the same time restores the diseased parts to normal condition. These three things are accomplished perfectly by the Pyramid Pile Cure. It checks all progress of the disease, and rapidly returns to affected parts to health, besides relieving at once the pain and fearful irritation.

"I began using Pyramid Pile Cure, and in order to make sure of a cure bought five packages; for the past six weeks I have not been troubled in the least, and I had been bothered for thirty-five years, and had spent more than fifty dollars for different remedies; this is the first permanent help I have had, and no one could feel more grateful than I do." L. M. Williams, Conneaut, Ohio.

Pyramid Pile Cure is sold by druggists generally for fifty cents a package, and we urge all sufferers to write Pyramid Drug Co., Marshall, Mich., for their valuable little book describing the cause and cure of piles.

Will Run Again.

Hamilton, Feb. 23. — Ex-Warden Binkley, who was unseated by Judge Snider's decision Friday, will run again for his seat in the County Council, but the Conservatives will put a candidate up against him.

MR. SISE ON TRIAL.

The Telephone Case in Court at Whitevale, Ontario County.

THE CONSPIRACY CHARGE.

Evidence of Subscribers to the Farmers' Co-operative Telephone Line—Agreement With C.P.R. Company Under Which Bell Telephone Company Claim Exclusive Right at Railway Stations Produced.

Whitevale, Feb. 27.—"Call Charles F. Sise," said Crown Attorney Farewell, as he looked over the crowded hall in the village at 1 o'clock yesterday afternoon, and the climax of the telephone war had been reached. Magistrate Davidson had called in to sit with him Magistrate Parker of Dunbarton. All parts of Ontario county were represented by the 300 people present, most of them the most prominent residents of the district. The trial will be concluded to-day.

Among the prominent citizens from the district were: Dr. Fish, Frank Gleeson, Michael Gleeson, John White, Donald Beaton, Alpheus Hoover, R. J. Green, Dr. Eastwood. Among the Bell agents were Special Agent Scott of Toronto, Agent Mason of Markham and District Agent Stringer. These three had arrived in response to subpoenas. Two hours before court convened the hall was well filled.

When the constable called "Charles F. Sise!" in response to the warning of the Crown Attorney, Lynch Staunton, K.C., of Hamilton, announced that he would appear for the defendant.

Will Abide by Court's Decision.

Mr. Staunton, when the preliminaries were being arranged, intimated to the court that his client, while not admitting that any jurisdiction was vested in the court, would abide by whatever order it might make.

Crown Attorney Farewell suggested that he hoped the trial would be pushed forward at once on its merits. Mr. Lynch-Staunton objected to any hearsay evidence touching the famous contract on which criminal complaint is based.

"Oh, that needn't bother you, for we have the contract here itself," and he exhibited a legal-looking document.

The Bell counsel asked to see it, and, with Special Agent Scott, Mr. Lynch-Staunton carefully inspected the contract.

The Crown Attorney received Wednesday a telegram from the C.P.R president, saying a certified copy of the contract would be handed to him by Agent Green of the Locust Hill Station before the trial opened.

The Complaint.

As a preliminary the complaint was read. It charged criminal conspiracy in that the Bell president had conspired with the C.P.R. officials to restrict trade in that part of Ontario County by entering into an exclusive contract for the use of all railway stations, the same being in violation of section 520 of the criminal code.

Mr. Farewell then began the people's side of the case.

Herbert J. Hurd, the constructor of the line, was the first witness. He testified that he built the line for the farmers, and swore to the complaint against President Sise when they refused to permit the line to enter the Locust Hill station.

The Bell barrister noted an exception to any evidence concerning the C.P.R. or the Bell Telephone Company since the charge was against Sise, the president, and not the company.

He testified that farmers and retail merchants composed the subscribers. The system is not completed because they can't put a telephone into Locust Hill station. He said the C.P.R. refused to admit them because of the exclusion contract with the Bell. This was objected to.

The Crown Attorney said: "We have a certified copy of the contract, and it was arranged with the Bell counsel to admit the evidence on the point without protest."

The effect of the exclusion contract was to constitute a conspiracy in the estimation of the Crown Attorney.

Alpheus Hoover was the next witness. He said: "We are in the milling business near Locust Hill. We ship via the C.P.R. The business here has been established many years. We have wanted telephone service a long time, but could get no satisfaction from the Bell, and last year we business men and farmers got together and built the Pickering and Markham Co-operative Telephone Company, of which I am president. We had some communication with the C.P.R. after we got our line up to the station. General Superintendent Timmerman did not know of any objections, and our request was forwarded to Montreal. We waited a long time, and then wired President Shaughnessy of the C.P.R. on the subject. He replied that he would be pleased to do so, but a contract with the Bell Company gave them the exclusive right to use the stations.

"We then asked General Agent Scott of the Bell if the company would grant the permission."

Mr. Lynch Staunton objected to the witness being permitted to repeat any conversation with Mr. Scott.

The witness said the inability to secure this connection does restrict trade throughout this community.

On cross-examination, Mr Hoover asserted that the whole rural district would be covered with Co-operative telephones on an economical basis if this exclusive contract can be abolished.

Why Farmers Didn't.

Mr. Staunton asked the witness why the farmers did not build a telephone station alongside of each railway station and instal a 'phone if they wanted to connect with the depots so bad.

Mr. Hoover replied that the railway company owned all adjoining land, and even if the farmers were able to go to such expense it would be wholly unfair to the people.

Magistrate Parker asked the witness if the farmers wanted this connection to facilitate the business transacted with the C.P.R.

He said they did. Concluding, he said the primary object of the construction of the line was to be able to do business direct with the Locust Hill station.

Agent Green of the Locust Hill station came next. He was handed a copy of the contract between the Bell and the C.P.R., which had been sent by President Shaughnessy. The witness identified the instrument, and it was filed as an exhibit with the court. He knew the people around through the country wanted to place a telephone in the station, and this would help business generally, he thought.

The Bell counsel declared that they would admit that the connection at Locust Hill was a great convenience for the rural district.

"It was the special request of the Bell Telephone Company that the Co-operative Company be not permitted to put a 'phone in the station," declared Agent Green, in explanation of why the C.P.R. refused this request of the district.

Green said Agent Mason of the Bell at Markham called on him one night and asked him if the farmers were going to put 'phones in his station. He said "Yes," The next day he was ordered not to permit it.

John A. White, drover, and cattleman, gave evidence of the benefit the telephone connection would be.

Dr. W. F. Eastwood of Claremont testified that he built 25 miles of private telephone. He connects with Brougham, Greenwood and some farmhouses. He is connected with the C.P.R. Station at Claremont, and has his own private 'phone in the depot.

When asked how he got it in, the witness mildly protested that he would not tell about his private business.

Again he refused point blank to tell how he got into the Claremont Depot. The court forced an answer. He then said the C.P.R. let him in, and that the Bell was not asked about it.

The Bell lawyer objected. He declared that it would be impossible to convict on the complaint, since it could not be established by the people, because the evidence was not forthcoming. The contract was made in Montreal, not in Ontario County.

The Crown Attorney protested against the scope being restricted.

Dr. Fish of Brougham explained the details by which he severed his connection with the Eastwood system.

Frank Gleeson of Brougham, proprietor of a general store, said he was a member of the Co-operative Company. He needed a connection with Locust Hill very much.

Mr. Gleeson, general merchant, of Greenwood, said he got all his goods at Locust Hill. It would be a decided benefit to the community to get a 'phone in the C.P.R. Station at Locust Hill.

At 5.40 o'clock court adjourned until 10.30 o'clock to-day, when Special Agent Scott and other Bell agents will be put on the stand. The case will be submitted to the court by the middle of the afternoon.

PROFIT HALF A MILLION.

Net Revenue of Bell Company in Canada Was $504,282 in 1902.

Montreal, Feb. 27.—At the twenty-third annual meeting of the Bell Telephone Company, held yesterday, the president, Mr. C. F. Sise, in presenting his report, stated that much progress had been made during the past year. Five thousand six hundred and twenty-three subscribers had been added during the year, the total number of sets of instruments now earning rental being 48,461; 2,655 miles of wire had been added in the long-distance system in 1902. Of these, 1,042 miles are in the Ontario department, 1,042 in the eastern department, and 373 in the north-western department. The long-distance lines owned and operated by the company comprise 26,848 miles. The total revenue was $2,085,134.26, and the total expenditure $1,580,851.39, leaving net revenue of $504,282.87.

Gatling Is No More.

New York, Feb. 27. — Dr. R. J. Gatling, the inventor of the Gatling gun, died in this city yesterday afternoon, at the home of his son, Hugh C. Pentecost. He was 85 years old.

Ask Tariff Readjustment.

Ottawa, Feb. 27.—A deputation of wallpaper manufacturers waited on Mr Fielding yesterday with a plea for readjustment of the tariff for their benefit.

KILLED FIVE WOMEN.

Albert Knapp, of Hamilton, Ohio, Makes a Revolting Confession.

Hamilton, O., Feb. 27.—Five murders, the victims of which were all women, and two of them his wives, is the revolting record of Albert Knapp, given yesterday in this sworn confession before Mayor Bosch:

"On Jan. 21, 1894, I killed Emma Littleman in a lumber yard in Cincinnati. On Aug. 1, 1894, I killed May Eckert in Walnut street, opposite the Y. M. C. A., in Cincinnati. On Aug. 7, 1894, I killed my wife, Jennie Connors Knapp, under a canal bridge in Cincinnati, and threw her into the canal. At Indianapolis, in July, 1895, I killed Ida Gebhard. On Dec. 28, 1892, I killed my wife, Annie Knapp, in Hamilton, and threw her into the river at Lindenwald. This is the truth. I make this statement by my own free will, and not by the request of any officer, or anyone else."

Knapp is now suspected of strangling three women at Evansville, Ind., and to have killed women elsewhere.

A formal charge of murder in the first degree has been filed.

Plans For U.S. Navy.

Washington, Feb. 27. — Senator Hale, from Committee on Naval Affairs, yesterday reported the naval appropriation. Provision is made for four first-class battleships of the general type of the Oregon, and two first-class armored cruisers of the type of the Brooklyn. The battleships are to cost not exceeding $3,200,000 each, and the cruisers $2,750,000. The battleships are to be of 12,000 tons' displacement, and the cruisers of 9,500 tons. The bill carries $81,277,281.

Shot Through the Heart.

Little Current, Feb. 27.—J. H. Thorburn, a prominent resident of Gore Bay, and Indian agent for Western Manitoulin, was found dead in his barn yesterday morning. He went to the barn at 8 o'clock, and was found shot through the heart, a repeating rifle lying beside him. It is supposed that he committed suicide.

Babies.

"Milk for babes but meat for men." When a man can no more eat a man's food, but exists on a milk and cracker diet he is gone back to babyhood. He may be a big man but he has a baby's stomach.

Success in life depends largely on the stomach. The man with the baby's stomach finds himself also with a baby's peevishness and perversity. He has the baby's exaggerated personal sensitiveness and jealousy. He is an annoyance to his friends and an anxiety to his family. No man can be stronger than his stomach. A weak stomach argues a weak man. And a "weak" stomach is the common starting point of most of the so-called "weaknesses" which affect the great organs—heart, lungs, liver, kidneys, etc. How can it be otherwise when the body and all its organs are dependent on the stomach for their nutrition? The "weak" stomach drags the organs down with it, because being weak it is unable to convert food into nutrition, and the organs of the body being starved, of necessity become weak, as a consequence of starvation.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It makes the weak body strong in the only way physical strength can be made, which is by food, properly digested and assimilated. The cures of "weak" lungs, "weak" heart, "weak" or sluggish liver, "weak" kidneys, etc., which follow the use of "Golden Medical Discovery," are all due to this perfect nutrition of the body, the proof of which is the remarkable gain of sound, solid flesh, which invariably marks the cure.

"STOMACH TROUBLE."

"About ten years ago I began to have trouble with my stomach," writes Mr. Wm. Connolly, of 525 Walnut Street, Lorain, Ohio. "It got so bad that I had to lay off quite often two and three days in a week, my stomach would bloat, and I would belch up gas, and was in awful distress at such times. I have employed and been treated by the best doctors in this city but got no help whatever. Some said I had cancer of the stomach, others catarrh, others dyspepsia. I have bought and tried everything I saw advertised for dyspepsia and stomach trouble, but continued to get worse all the time. About twelve months ago I was in such a condition that my friends had some fear about my recovering. I called a doctor and he found me in a very bad shape. Hands and limbs were cold and dripping with cold sweat. He told me that I had a very bad case of chronic indigestion. I was under his treatment until this spring (1902), but did not improve any. By some way or other I happened to get hold of a vial of your 'Pellets,' and I thought they helped me. It was then I wrote to you for advice. You told me that by my symptoms you thought I had liver complaint and advised the use of your 'Golden Medical Discovery' and 'Pleasant Pellets' in connection. These medicines I have taken as directed, and am very happy to state that I commenced to get better from the start, and have not lost a day this summer on account of my stomach. I feel tip-top, and better than I have for ten years."

GAINED SIXTEEN POUNDS.

"It was twelve years ago that I derived as much help from Dr. Pierce's medicines," writes Mrs. Olive Stevens, of North Harvey, Cook Co., Ill. "I was afflicted with a scrofulous tumor in the left side of my neck. It was fully as large as a large sized walnut, and so painful that I could get but little sleep at night. I doctored with several physicians but received no benefit. The tumor grew rapidly and became inflamed and my general health became impaired.

"I grew very weak. One physician said I would be in consumption in a very short time. Our home physician said I would have to have the tumor removed, but afterward told my husband that I had heart trouble and he would not dare give me chloroform or ether, so he told me to be very careful; gave me medicine but did me no good. I went to Michigan, was there three months, and while there took Dr. Pierce's Golden Medical Discovery and used 'Lagol's Solution,' as directed in your pamphlet. While away I gained sixteen pounds, the tumor became smaller, and less painful, and to-day there is not a sign of it. I feel confident I shall never be troubled with it again. We think there is no medicine like Dr. R. V. Pierce's, and we have recommended it to a great many who have taken it with very favorable results.

"The 'Golden Medical Discovery' cured my neck entirely."

Dr. Pierce's Pleasant Pellets cleanse and regulate the bowels.

DON'T TURN YOUR BACK On a Good Thing.

For sale by F. J. R. Mitchell, Alex. Elliott, and W. Collins, Ashburnham

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

LINDSAY & MIGHT

Real Estate and Insurance Agents
326 George Street.

This will be Championship Hockey.

LAID AT REST.

The Funeral of Late Mrs. Beck Took Place Yesterday Afternoon.

The funeral of the late Mrs. Beck, wife of the late Rev. J. W. R. Beck, M.A., a former Rector of St. John's church, took place at 2.30 o'clock yesterday afternoon, from the residence of the deceased's son-in-law, Mr. R. M. Dennistoun, Inverlea House, Water street. An exceptionally large number of Peterborough's business and professional men was present to pay their last tribute of respect to one whom they held so dear. The remains were conveyed to St. John's church, where a quietly solemn and impressive service was held. Rev. W. L. Armitage, Rector of All Saint's church, read the lesson, and Rev. E. A. Langfeldt read the special Psalm. The hymn "On the Resurrection Morning," was sung, whilst "Lord Lettest Thou Thy Servant Depart in Peace," was also sung, as the remains were borne from the church.

The edifice was filled with a reverend and sympathetic congregation, there being a large representation of the Woman's Auxiliaries of St. John's and All Saints' churches.

There were many floral tributes, amongst which were beautiful remembrances from the Woman's Auxiliary and other members of St. John's church and All Saints' church, the Girls' Guild of St. John's, as well as many other wreaths.

Rev. J. C. Davidson, Rector of St. John's church, officiated at the grave, the deceased being placed beside her husband, who was laid at rest in 1889.

The bearers were: Messrs. J. H. Burnham, H. Rush, G. W. Hatton, R. B. Rogers, Lieut.-Col. H. C. Rogers and E. A. Peck

The mourners were Messrs. R. M. Dennistoun and Arthur Stevenson, sons-in-law, and Messrs. H. T. Beck, of Toronto, and C. B. Beck, of Lennoxville, step-sons.

The flag was at half-mast at St. John's church, and the bell was tolled as the remains were taken to and from the church.

NEWS NUGGETS.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—The designs for the Shepard-Neill Cup to be played for by the curlers of Orillia and Peterborough have been sent for.

—Returns of the Norwood-T.A.S. game will be given out at the Port Hope-Peterborough game in the Brock street rink to-night.

—Mr. Thos. H. Rutherford, a farmer, of Verulam township, tripped over the tongue of a sleigh in the yard of Twomey's hotel at Fenelon Falls last Saturday and fell, breaking his right leg.

—A mass meeting will be held at the town hall, Norwood, on Saturday evening, for the purpose of discussing the advantage to the farmer of growing sugar-beets as a new branch of the farming industry in that district. Addresses will be delivered by Dr. W. H. Jeffs and others.

—Last week, as a result of a critical inspection conducted by Belleville Water Commissioners, it was discovered that a certain creek was being fed from the town mains. The leak was stopped, when the gauge disclosed that 80,000 gallons a day had been going to waste—for goodness knows how many years.

—Mr. P. B. McIlhargey, local stock buyer, shipped a carload of hogs to the Geo. Matthews Co., Peterborough, Thursday. He also consigned a car load of cattle to the Toronto markets. Among the latter were three fine steers which were purchased from a farmer named McClory. The aggregate weight of these was 3,185 pounds. The prices paid for hogs was $5.60, cattle $4 and sheep $3 per hundred live weight. — Lindsay Post.

—Dr. J. C. Moffat having declined the position of Medical Health Officer for the village for the current year, a special meeting of the council was held on the 11th inst., when that portion of by-law No. 269 relating to his appointment was repealed by the passing of another by-law which also confined the appointment of Dr. W. C. Redmond, of Westwood, as Medical Health Officer for 1903.—Register.

THE MATTER OF UNION

Was Discussed by a Joint Committee.

Resolution was Adopted Favouring the Union—Those who Were Present.

An important meeting of representatives of the Peterborough Town Council and the Ashburnham Village Council was held last night in the Town Clerk's Office, there being present, His Worship Mayor G. M. Roger, Aldermen B. Shortly, R. F. McWilliams and H. Best, and Reeve Adams, and Councillors W. Gibbs, Wm. Scott and William Faint, Ashburnham.

Representatives of the press were not admitted but it is understood that the matter of union was fully gone into and the following resolution was adopted:

"On motion of Mayor Rogers, seconded by Mr. Adams, it was resolved that these committees report in favour of the union of the municipalities, to take effect on Jan. 1st, 1904, the united municipality to take over the assets and assume the liabilities of the present town and village, and the village to form one ward, for all such purposes as wards now serve in the town or may hereafter serve in the united municipality, and in the event of a vote being taken upon the question in the town, it shall be taken upon a date agreed upon between the town and village councils so as to have the vote taken on the questions in the two municipalities on the same day; this to be without prejudice to any public works undertaken by either municipality in the meantime."—Carried.

CAPT. McPHERSON.

A Promotion That Will be Heartily Received by all.

The next issue of the Militia Gazette will contain the announcement of the promotion of Lieut. A. W. McPherson to the command of a company with the rank of captain. It is understood that Mr. McPherson will be given command of No. 7, one of the new companies to be raised in accordance with the new establishment. Mr. McPherson, or Captain McPherson, as he will be hereafter known in military circles, has had a very rapid promotion and there is reason to believe that No. 7 will be to the front as regards proficiency and strength. Mr. McPherson, it is said, has his Non-Commissioned Officers selected already, two of whom are Mr. Bob Henderson and Mr. H. E. Ayers. Mr. McPherson has heretofore been connected with No. 6 Company, commanded by Capt. J. M. Hayes.

NO OPERA HOUSE.

Peterborough Very Likely to be Left Without one of any Kind.

It is understood that the promoters of the local opera house scheme, who some time ago announced through the Examiner that they were going to erect a new opera house, which would be ready for next season's business, have re-considered the matter, and that no opera house will be erected by these gentlemen at least. It is scarcely probable that Peterborough will have a new opera house for several years yet, and it is even hinted that the present building, which is used as an opera house, will be closed down.

A HOME BEREFT.

Mr. E. Dyell, of Otonabee, Loses Two of His Children.

Much sympathy is expressed for Mr. Ernie Dyell, who resides on the River Road, Otonabee, six miles south of Peterborough, in the loss of two of his little sons, Fyrd, a lad of 5 years, and the other a child of only 9 months. The younger took scarlet fever on Wednesday of last week and died on the following Friday, while Fyrd, a very bright and attractive little fellow, was attacked by that disease on Saturday, of last week, and died last Tuesday. Both children were buried the day following their respective deaths, and Mr. and Mrs. Dyell have the sympathy of the entire community in their very sad bereavement.

OBITUARY.

The Late Mr. Thompson, of Ashburnham.

The death occurred yesterday at his late residence in Ashburnham, of Wm. Thompson, after an illness of one week of pneumonia.

The deceased was 83 years of age and was a native of the County of Antrim, Ireland. He came to this country when 27 years of age, and settled in the Township of Douro, where he followed the occupation of farmer. A few years latter he moved to Ashburnham, and has ever since resided in the village. He leaves to mourn his demise a wife and one son, Mr. Henry Thompson, of Ashburnham.

The funeral will take place at 2.30 o'clock to-morrow to Little Lake Cemetery.

COUNTY POLICE COURT.

Assault Case was Discharged on Payment of Costs.

At the County Police Court yesterday before County Police Magistrate Edmison, Joseph Finlay, of Ashburnham was charged with assaulting his wife on Feb. 17th last. During the course of the evidence it transpired that the accused went home the worse of liquor, and had some words with his wife, which afterwards led up to the assault, but on the request of the wife the prisoner was discharged, after being made to pay all costs.

The case of Susannah Dundas, Peterborough, against J. Morton, Cavan, which was tried by His Honour Judge Weller in June, 1901, and for which judgment was reserved, was again brought up at the County Police Court yesterday, judgment of $65 and costs being given for the plaintiff.

AT WORK.

The Dickson Company at Burnham's Point.

The Dickson Company this morning commenced operations again at Burnham's Point, and the work on the new mill will be pushed forward as quickly as possible. It is understood that negotiations which were pending, and which were accountable for the cessation of work for a few days, are off.

TO-NIGHT'S MEETING

Of the Board of Trade and the Town Council.

It is important that there should be a large attendance of the members of the Peterborough Board of Trade this evening, when that body will confer with the Town Council regarding the proposition of the Peterborough Sugar Company. As the council will be guided to a great extent by what action the meeting will recommend this evening, it is desirable that there should be given a careful consideration of this matter.

A WHITE MINK

Recently Captured in North Monaghan.

In North Monaghan, a few days ago some boys started a white mink on a creek. One of the boys had presence of mind enough to pull off his coat and throw it over the little animal, thus making it a captive. Mr. J. J. Cottingham of the Commercial Hotel, has bought the pretty little animal, and is going to have it on exhibition in the window of the barber shop (two doors south of the Commercial House) which is about to open to the public.

A white mink is a great rarity, and many people viewed the animal last night.

Spring Opening.

Queen Quality—the famous Shoes for women, on exhibition in both windows.

Telephone 330.

WEDDED IN TORONTO.

A Sister of Mrs. Dr. McCullough of Peterborough.

The Toronto Globe contains the following account of the marriage of Miss Isabel MacNeillie, sister of Mrs. Dr. McCullough:

At the residence of the bride's parents, 167 Borden street, yesterday, the marriage was solemnized of Miss Isabel MacNeillie, daughter of Thos. R. MacNeillie, to Mr. Lewis E. Strome, a former Torontonian, now of Richmond, Indiana, son of Mr. Menno Strome, of Berlin, Ont. The ceremony was conducted by Rev. Jas. Murray, pastor of the Erskine Presbyterian church, in the presence of the immediate family connections and a few friends. The bride came in leaning on the arm of her father, and wearing a tailor-made going-away gown of blue, carrying a bouquet of white roses. Miss Olive MacNeillie was a very pretty bridesmaid attired in blue, and carrying a bouquet of pink roses. The groom's present to the bride was a diamond ring and to the bridesmaid a handsome pearl brooch. The groom was supported by Mr. Finlay Weaver. After the wedding breakfast Mr. and Mrs. Strome left for Buffalo and other cities, previous to going to Richmond to reside.

THE NEW BRIDGE

Being Erected at Healey Falls Over the River Trent.

The Dickson Bros., who have the contract of constructing the bridge over the Trent River at Healey Falls have not been able to push along the work as fast as they expected, owing to delay in the shipment of the material, and a further delay in its transportation. One carload of iron has arrived, and three carloads are on the way somewhere between here and Portland, Maine, which should have arrived about three weeks ago. They gave their order to a firm in Montreal, and the material comes from England and Germany, and is shipped by way of Portland. The bridge will consist of ten spans, three of which the contractors expect to have erected by the Middle of March, before the ice on the river breaks up. The contract calls for the completion of the bridge by the 31st of March, and if there be no further delays they will not exceed that time probably more than two or three weeks.—Herald.

The fine weather calls for a new purse and a new shopping bag. You will get the best value in 25c and 50c lines at Sallsbury's. Their new lines are marvellous value.

THE CANADIAN GENERAL.

"The Man on the Street" Talks on its Finances.

Has Acquired the Canada Foundry Co. Amount of Reserve Funds.

"The Man on the Street," in today's Mail and Empire, says:

The outlook before the Canadian General Electric Company is very bright. The volume of business for the current year promises to be largely in excess of all former years. The statement presented at the annual meeting yesterday shows that the profits for the year 1902 were $430,863.10, out of which two half-yearly dividends amounting to $213,739.22, were paid. Of the balance $120,081.78 was written off for depreciation, $100,000 transferred to reserve, and $3,042.10 added to credit of profit and loss account, which now stands at $80,722.37. Balance at the credit of profit and loss December 31, 1901, was $612,028.94. To the $100,000 carried to the reserve fund from the manufacturing profits the sum of $522,000 being premium of new share capital, has been added, making a total addition to the reserve fund for the year of $422,000. The reserve fund is now $787,000 plus $100,000 at contingent account, and $80,722.37 balance at credit of profit and loss, making the total surplus $967,722.37. As the company's permanent investment in the Canada Foundry Company's plant is $858,322, it will be seen, adds the report, that the surplus is more than sufficient to entirely cover the cost of this asset.

Although dividends have been paid on the new capital stock issued last year, this new capital has not hitherto been productive, as it has been invested in the Canada Foundry Co's business, which has already reached large proportions, but upon which no profit has been taken into account, although a small profit has been earned.

In order to provide manufacturing facilities, commensurate with the growth of the company's business, the directors have decided to again provide for extensive additions to the company's plant and equipment, and plans are being prepared for this purpose. An agreement has been entered into for the purchase of the Northey Manufacturing Company, of Toronto, manufacturers of steam pumps and hydraulic machinery.

During the year the company has also acquired the Canadian patents of the Curtis steam turbine for both land and marine uses. The steam turbine will probably revolutionize present methods of producing steam power, and many advantages are expected from this acquisition. The United States patents for this invention have been purchased by the General Electric Company, of Schenectady, N. Y.

Arrangements are being made with the Canadian Shipbuilding Company, whose works are to be located on the Niagara River, near the International Bridge at Fort Erie, which will provide for the manufacture by the Canada Foundry Company of the marine engines, boilers, and other machinery required by the shipbuilding company.

The Brantford Street Railway, which was previously owned and operated by the company, has been sold, the company taking in payment therefor first mortgage bonds on the property for $120,000.

LEAVING TOWN.

Mr. R. H. Bradburn's new Position—In Ottawa.

Mr. R. H. Bradburn, manager of the local Opera House, has resigned that position and will leave on Monday for Ottawa, where he will assume a position in the engineering department of a large manufacturing establishment in that city. Mr. and Mrs. Bradburn will be greatly missed by a large circle of friends, all of whom will wish them much success in their new home.

LATEST IN SPORTING CIRCLES

Port Hope vs. Peterborough This Evening.

The Firemen and the Lock Works Last Evening.—Some Notes on Curling.

The existence of the Trent Valley Hockey League has proved so successful in developing Canada's national winter game in the district from which the League derives its name, that it is now proposed to organize a lacrosse league that will cover pretty much the same territory. The suggestion is an excellent one, as there are many teams in this district that dish up a good quality of Canada's national game.

* * * *

It is unfortunate that the Port Hope-Peterborough match here and the T.A.S.-Norwood game in Norwood, come on the same night. There are many who would like to take in both of these events, but they will, of course, have to take their choice of the two. There has never been, perhaps, so much interest displayed in a Trent Valley League game as the one that will be played in Norwood this evening.

* * * *

There can scarcely be any doubt as to which is the better team after to-night's game in Norwood, in view of the fact that Roy D Schooley will officiate as referee and that the rink specifications will be of no advantage to either team.

* * * *

In answer to an inquiry, we are authorized to state that President Kenner and Secretary-Treasurer McPherson were not ashamed to attach their names to the Port Hope-Peterborough bills. It was only an oversight that the names were left off.

HOCKEY.

TO-NIGHT'S MATCH.

What should be a most interesting and exciting game will be played in the Brock street rink to-night, commencing at 8.30 o'clock sharp. This game which is between Port Hope and Peterborough in a series of home and home games, should be largely attended. As the teams are very evenly matched against each other there is a considerable dubious sentiment as to the result, which of course everyone hopes will be in favour of the home team. The match will be for a $70 set of souvenirs, and tickets may be obtained from Ormond & Walsh's, J. Nugent's and F. Clarke's stores, and gallery tickets from Ormond & Walsh's only.

The two teams will likely be drawn up in the following manner:

Goal.	
Comstock	Mercer
Point.	
Glover	Welch
Cover Point.	
H. Armstrong	Brown
Rover.	
Whitcroft	Boney
Centre.	
Morgan	McMillan
Left Wing.	
R. Armstrong	Masterson
Right Wing.	
Cavanagh	McCarthy

No small amount of interest is being taken in the game. Mr. Hugh Rose, of Toronto, will officiate as referee.

LAST NIGHT'S GAME.

One of the most, if not the most, amusing matches of the season, was played last night in the Brock street rink. It was between teams from the Lock Works and the Fire Brigade. The final score was 6 to 3 in favour of the Lock Works aggregation.

The Lock Works seven were more or less able to keep upright on their feet, while the Brigade's gallant representatives continually succeeded in sweeping the ice with their bodies, and certainly had not what one might term a stable equilibrium. The grace with which the firemen's goal-tender knelt down to stay the course of the puck, was most sympathetic and effectual. One might safely say that this worthy gentleman had not had on his skates for at least a dozen years, and must have found his knees to be a blessing people. For other people it would not have been "a kneesy" thing to do. The referee was Bob Brown, who was very severe, opening the game by almost immediately sending seven men to the fence. Later on only the two goal tenders were left on the ice and they had of course quite an experience. At one time the whole of the Lock Works team was off, excepting the goal tender, and only the goal tender and C. Butcher were left to uphold the honours of the noble Fire Brigade. Mr. Butcher, whose skating, if one can call it such, resembled the gambollings of a young goat, managed to dribble up the puck (without falling more than a dozen times) and scored a most glorious goal. A remarkable feature of the match was the fact that during the greater part of the game the players on the boards were more numerous than those actually trying to hit the puck or keep their balance. At half time the score was 3 to 1 in favour of the Lock Works, who concluded the game by scoring 6 goals to 3 scored by the Brigade seven.

The teams were drawn up as follows:

Firemen — A. Metheral, A. Dunsford, A. Mitchell, A. Wringer, W. Parnell, C. Butcher, A. Moore.

Lock Works — T. O'Brien, Wm. McAuliffe, J. O'Brien, P. O'Brien, R. Humbers, W. Whaley, R. Storts.

REVIEW VS. EXAMINER.

Teams from the Review and Examiner will occupy the ice to-morrow evening between the hours of 10 and 11 o'clock. This match seems to be exciting its well deserved attention, and a large number of people are expected to be present.

WILL FIGHT.

The Belleville Ontario says:—Manager Burrell was served with the papers to-day notifying him of the protest entered by the Marlboros against Marks. He says he will fight the protest.

The O.H.A. has not notified him when the case will be tried. It is likely that the date will be fixed to-day and Manager Burrell will be notified to-morrow.

The protest was not made by any of the Marlboro team, but it is believed that it was entered by the father of one of the players.

In Toronto $10 and $20 were offered for affidavits that would disqualify Marks. Only one was received and it was from a man of no weight and it is said he was drunk when he made the affidavit.

The Belleville team have a good case and it is believed that they will get the cup yet.

* * * *

We hereby challenge the Butchers to a game of hockey to be played at a date suitable to both parties. In challenging them it is understood that we play the Butchers themselves and not their clerks or drivers.

THE TURNER FACTORY.

* * * *

The Auburn hockey team and a team from the C.G.E. works will play a game of hockey between five and six o'clock on Saturday afternoon.

* * * *

The Norwood Register says that a hockey match has been arranged to take place at the rink in Norwood on Monday evening at 8.30, between the Peterborough Colts and the Norwood Juniors.

BASKETBALL.

A BATTLE ROYAL.

Perhaps one game is more interesting than another, but the way in which the Intermediate championship is arousing interest, there will likely be a battle royal. The contesting teams, Arrows and Beavers, are certainly evenly matched. They have played several times, and the former only have won by a goal or two points. The teams have agreed on W. Campbell and Norman Miller to act as umpires, who will see that the game is played strictly according to rules. Besides the game there will be tumbling, wrestling, etc., besides musical selections.

* * * *

The Harriers will play the Maple Leafs at eight o'clock, on Saturday evening, before the Intermediate championship game.

CURLING.

LAST NIGHT'S GAMES.

At the Charlotte street rink last night the following scratch games were played:

J Bogue	G Cox
J Aylmer	H Foot
G Kerr	T Brightman
J Jeffreys, sk...14	C N Brown, sk...13
R C Winch	G Rogers
J Gibson	A Parker
H LeBrun	G Giroux
R Kerr, sk...19	E B Edwards, sk...8

RUGBY.

THE LARGE PHOTO.

The Peterborough Rugby Club has received the following communication:—

E. S. Clarry, Esq., Secretary-Treasurer Peterborough Rugby Club:

Dear Sir.—It gives me great pleasure to present to you and the Rugby Football Team of Peterborough, the large group photo I have lately finished. You are now champions of Ontario; I hope that next year you will be champions of the Dominion. With best wishes for your success, I remain,

Yours truly,
G. E. WHITEN,
Photographer.

Peterborough Feb. 27th, 1903.

It is scarcely necessary to say that the action of Mr. Whiten is very highly appreciated by the Peterborough Club. The group picture which Mr. Whiten has presented to the Club is a very handsome piece of work and may be seen on exhibition in the window of Messrs. A. H. Stratton & Co. Mr. Whiten's kind consideration towards the Club is recognized by every member.

BASEBALL.

FULL ATTENDANCE IS ASKED.

A full attendance of all senior Intermediates and members under 18, are asked to attend a meeting of baseball enthusiasts to form an Intermediate Baseball Club. The club has some extra strong players and should certainly do themselves credit again this year on the diamond. In all probability there will be another baseball league, and it behooves every member of the Y.M.C.A. Intermediate Department to turn out on Monday night at 7.30 sharp.

* * * *

There is some talk of forming a Canadian League with teams from Montreal, Peterborough, Toronto, London, Chatham and other cities.

LACROSSE.

THE ATHLETICS TO ORGANIZE.

A meeting of the Athletic Lacrosse Club will be held in the Y.M.C.A. on Friday evening next at 8 o'clock, when organization will be effected for the coming season. The Athletics had a most successful record last year, and are determined to enter the game with greater enthusiasm than ever. It is quite probable that the Athletics will enter the C.L.A.

WARSAW PRESBYTERIANS.

The Annual Tea Meeting and Entertainment a Great Success.

The Presbyterians of Warsaw, held their annual tea meeting and entertainment on February 24th. Tea was amply and well served by the ladies of the congregation in the town hall from 5 to 8 p.m., after which an adjournment was made to the church, where an excellent programme was rendered. Rev. W. L. Atkinson, the pastor, occupied the chair. Entertaining and profitable speeches were delivered by the following ministers: Rev. C. A. Campbell, Lakefield; Rev. D. D. McDonald, Keene; Rev. A. M. McQuade, (Methodist), Warsaw; Rev George Yule, Springville and Bethany; and Rev. A. E. Camp, Havelock.

The musical part of the programme was furnished by the choir of the Presbyterian church, Keene, who succeeded in captivating the audience. The anthems were suitably chosen and well rendered, as also was the solo of Miss Maggie Bryce, organist and leader.

The thanks of the congregation are due to the Keene friends and the reverend gentlemen, all of whom contributed to the success of the evening's entertainment. The event was one of the most successful in the history of the congregation. Receipts amounted to $81.

To the Public.

Here is a price list for the highest grade of Pure Candy Creams, Chocolates, etc., that can be manufactured. My Candy is guaranteed pure. I am a specialist in this line. Read the following price list:—

Advertise in the Examiner

Losing Flesh

That means a low condition of health; the body is poorly nourished and thinness follows. The system is then susceptible to disease—any one of a number of ailments finds easy access. Get plump.

How? Scott's Emulsion.

Plumpness and health go together usually; it's safer to be plump anyway. And in Scott's Emulsion there are the very elements that make new flesh and repair wasting.

We call Scott's Emulsion a food-medicine because it does so much through nourishment. When there is a loss of flesh and wasting conditions exist it is an evidence of starved tissues and nerves; flesh and blood are hungry. They want the nourishment and food principles so perfectly blended in Scott's Emulsion.

The whole body soon feels the influence of the new force and a noticeable change for the better takes place at once. That is why Scott's Emulsion is so good for those who are losing flesh or suffering from any wasting disease.

We'll send you a sample free upon request.

SCOTT & BOWNE, 55 Front St., W., Toronto.

Orders left at 356 Water street or 328 George street and by Phone 383, will receive prompt attention.

MINERS AND POLICE FIGHT.

Two Miners and a Deputy Marshal Killed —Six Men Fatally and Others Badly Wounded.

Charleston, W. Va., Feb. 26.—Two miners were killed, three fatally and three badly wounded, and one negro deputy marshal was shot to death in a pitched battle at Wright's coal works, Raleigh County, last night. Three officers were also fatally wounded.

The fight was between 100 deputy marshals and deputy sheriffs, under Chief Deputy Cunningham of Charleston and Sheriff Cook of Raleigh County, and 250 striking miners, who refused to permit Federal officers to serve injunction papers and who set a railway trestle on fire. The posse met a mob armed with rifles. The crowd defied arrest and service papers, and finally opened fire on the deputies. The battle lasted several minutes. Fifty-nine of the mob were arrested.

D. R. O.'S ACQUITTED.

Not Liable For Acts of Omission in Referendum Cases.

Toronto, Feb. 26. — Three more cases arising out of the referendum voting were disposed of before Judge McCrimmon at the City Hall yesterday. Martin Healy, who acted as deputy returning officer at polling booth 66, in South Toronto, was accused of neglect of duty. His Honor, after hearing the evidence, dismissed the case on the grounds that the act did not apply, and under it no penalty could be imposed. The cases against R. W. Doyle and T. W. Clarke were also dismissed on the same grounds.

A Famine in Finland.

To the political troubles from which the unhappy people of Finland are suffering in the loss of their ancient liberties is added a new calamity in a famine resulting from crop failure in the northern part of the country. Thousands of families are reported suffering from starvation and its attendant diseases. The distress has not been equaled since the great famine of 1868, when 100,000 persons perished.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto • • The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

H. F. LINDSAY,
District Manager.

OFFICE—326 Market Arcade Peterborough.

TO GET RID OF BORAX.

German Government to Shut Out Meat So Treated.

Berlin, Feb. 26.—In the Reichstag yesterday Herr Oertel, editor of The Deutsche Tages Zeitung, urged the Government to enforce with the utmost stringency the regulations against meat treated with borax, especially against meat so treated in the United States.

Home Secretary von Posadowski-Wehner remarked that the American House of Representatives had passed a bill prohibiting the export of, import of or internal trade of adulterated food or foods treated with unwholesome ingredients. A motion to except borax from this prohibition had been voted down in that House.

The Secretary added that the Government was determined to strictly enforce the regulations until borax was proved to be non-injurious by indisputable scientific authority.

W. H. HARMER SAYS

He Used Dodd's Dyspepsia Tablets and was Cured of a Disagreeable Though very Common Complaint.

Were you ever troubled with food and gas rising in your throat? Have you ever had an evening spoiled by the objectionable matter coming between you and an agreeable conversation? When it is the greatest agony to keep it down, and the the height of bad breeding to do anything else?

Have you bewailed the fate that that doomed you to such torture? If you did you were wrong. It is not fate at all. It is your own stupidity. Others have been in a similar fix, and have got out of it. How? Simply by using Dodd's Dyspepsia Tablets. They are so pleased that they are telling others about it every day. W. H. Harmer, of Avonmore, N.B., is one of them. Listen to what he what he says:

"I was troubled with gas and food rising in my throat. Dodd's Dyspepsia Tablets stopped it. Others around here have used Dodd's Dyspepsia Tablets with equally good results."

He doesn't say much but it is to the point. If you are troubled with gas or food rising in your throat—if you are troubled with any of the pains or discomforts of Dyspepsia, use Dodd's Dyspepsia Tablets and the relief will be speedy, the cure permanent.

G.T.R. May Rival C.P.R.

London, Feb. 26.—The officials of the Allan Line of steamships at Liverpool positively deny the rumor that the C. P. R. have entered into negotiations with that company looking to the acquisition of their line. It is understood here that the G. T. R. are determined to meet the competition of the C. P. R. at every point, even to the establishing of an ocean line of their own.

When Life is not Life.

"Without health life is not life; it is only a state of langour and suffering—an image of death." The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and instils new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

A Wonderful Athlete.

Some time ago we expressed astonishment at the performance of Prebendary Webb-Peploe, who in this month's Quiver, is said to have jumped from a sick-bed, won his event in the university sports, and then returned to bed, and "remained on his back for the next twelve months." A letter from Mr. Webb-Peploe assures us that this is in the main accurate, but an under-statement. He did it twice, and won the high jump and diving and swimming in the intervals of a three years' reclining—not exactly in bed, but on a sofa. "Where I went, the spinal couch went," writes Mr. Webb-Peploe. And to the spinal couch came even the Cambridge examiners to pass him through his examinations to his degree. It was a notable triumph of mind over matter, and we are glad to get confirmation of these extraordinary exploits from their doer.—London Chronicle.

BY MUNICIPALITIES.

Ownership Facts Laid Before Convention at New York.

BRITISH EXPERIENCE GIVEN.

In Great Britain Nearly All the Large Cities Operate Tramways—Advantages of Municipal Ownership as Compared to That of Private Companies—Two Forms of Profit —An Enormous Profit.

New York, Feb. 26.—The convention on municipal ownership and franchises, which is to continue until Friday, opened here yesterday. The delegates were welcomed by John G. Agar, who said conditions in American cities are such as to make the thoughtful and patriotic seek some method of improvement. The convention was called, he said, for the purpose of furnishing facts and information and of organizing a permanent bureau for the collection and distribution of municipal statistics relating to the best method of supplying commercial wants.

Clinton Rogers Woodruff of Philadelphia opened the discussion of recent history of municipal ownership in the United States. He said in part:

"The undeniable growth of popular interest in the municipal ownership of public service franchises is primarily due to the popular indignation felt at the corruption and degradation incident to the policy of private ownership. The people are awakening to an appreciation of the dangers lurking in the shadows of such relationship as now exists between city governments and private corporations. The compensation of private corporations must be limited to a fair return for the services rendered, and no more."

Mayor Urquhart of Toronto referred to the success of municipal ownership of the waterworks in his city. A paper prepared by Robert P. Porter, director of the eleventh census of the United States, was then read.

A paper on "Recent British Experience of Municipal Ownership," by Robert Donald, editor of The Municipal Journal, of London, was read by the secretary. Mr. Donald said, in part:

"Almost all the large cities (Great Britain), not only own, but operate their own tramways. The London County Council is operating 72¼ miles, and is building 100 miles. Glasgow owns and operates 103 miles, Liverpool 90. Edinburgh owns lines, and a company operates them. Companies are confined to the smaller towns in England and Scotland. One of the elements which helped forward the municipilization movement, was the bad management of companies, which allowed their undertakings to become dilapidated towards the latter end of their leases. They paid their workmen so disgracefully that there were serious strikes. Cars were dirty, horses bad, service irregular.

The advantages of municipal ownership are considerable. It regulates fares, provides for workingmen's cars, and fair treatment to employes. All this, besides a yearly rental when the lines are leased. Local civic pride and jealousy, however, prevent co-operation between municipalities on a large scale. In Glasgow, the aim of the municipality has not been to make a profit in relief of local taxation, but to carry the greatest possible number of persons the longest distance possible at the lowest possible fare. By the end of the present year, most of the municipalities will have complete systems of electric traction, and, in almost all large centres of population, municipal ownership of street railways is likely to be extended. The scope for private enterprises will be confined chiefly to linking towns together, and opening up rural districts."

C. R. Belamy, general manager of the Municipal Street Railways in Liverpool, spoke in favor of municipal ownership. He said:

"There are two forms of profit attending a municipal undertaking—the profit that results to the individual by reason of increased facilities or better articles at lower rates, and the profit that stands out as a net balance after all financial obligations have been met. The latter is unimportant, if the first is considerable, but both are substantial under municipal management."

He referred to the criticisms by Americans, and added: "Our American cousins are kindly offering us assistance in dealing with questions of transport in London, although the requirements in New York strike me as being more pressing."

In conclusion he said: "The municipalization of tramways in large towns can be carried out with perfect security and to the lasting advantage of the whole country."

Mr. Charles Tyerkes' paper on "Municipal ownership and franchises" was then read by the secretary.

Edward M. Shepard spoke on city owning and leasing, and explained the method that had been taken with the construction of the Rapid Transit Subway. Mr. Shepard said: "Those who criticize the leasing of the Rapid Transit road for 50 years must remember, that until three years ago there was not a railroad or financier who would undertake to build the road.

"To-day the profit in sight on the contract is $50,000,000, and I believe it may be $50,000,000. Hereafter municipal construction in the transit lines would be carried on."

Our Coal Supply.

T. K. Adams, a mine inspector of Mercer county, Pa., says that the last lump of coal will be mined in the United States in the year 2053. He said there is about enough coal in the United States to last 700 years at the present rate of consumption, but points out that the demand doubles every sixteen years, and should the ratio be continued the coal will be exhausted within the next 150 years.

HAMILTON HOTEL INVADED.

Bold Attempt to Rob a Barroom—Desperadoe Used Pistol.

Hamilton, Feb. 26.—This city had a little touch of wild western life about 7 o'clock last evening, when a hold-up was attempted at the muzzle of a revolver. It occurred in the Red Light Hotel, corner of Bay and Barton streets. According to the story of the hotel people, two strange men entered the hotel and ordered drinks. While they were being served a third stranger entered and stood at the further end of the counter. One of the original pair threw down 25 cents with which to pay for the drinks, and as the proprietor's son Fred, who was tending bar, went to make change at the till, the third stranger whipped out a revolver and ordered Fred to throw up his hands. Instead of complying with the order Fred started toward a door leading into the house, and called for his father, Thomas J. Littlewood, proprietor of the hotel, and Fred's brother John. One of the pair of strangers, who had first arrived on the scene, tried to intercept him, and Fred hit him with a bottle. Then he threw a glass at the "man behind the gun," who fired a shot in the bartender's direction, the bullet being afterwards recovered. By this time Proprietor Littlewood and his son John were on hand, and a well-directed glass from Fred hit the man with the revolver on the side of the head. This practically put him out of business, and the father finished the work by striking him and getting him down on the floor, assisted by the two sons. In the meantime glasses were flying, and Fred Littlewood was cut on the nose. The would-be robber had shot a second time, but no person was hit. He was held till Constable Cameron arrived, and placed him under arrest. The other two strangers made their disappearance long before this. The prisoner, who appears to be about 22 years of age, and is clean-shaven, gave his addres as Matthew Thomas, of New York.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrn Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

BEN HOLMAN ARRESTED.

Alleged Shortage in Accounts of Agent of Express Company.

Windsor, Feb. 16.—Ben Holman, city agent of the Canadian Pacific Railway and the Dominion Express Company here, was arrested yesterday morning at the instance of F. J. McKay, route agent and auditor of the express company, on a charge of stealing $805 from the company. Holman asked for an audit of the books, and an investigation was made, with the above result. Holman was committed for trial and gave bail in the amount of $1,000.

Local Registrar Appointed.

Toronto, Feb. 26.—J. T. Field of Cobourg, has been appointed by the Ontario Government local Registrar, Clerk of the County Court and Registrar of the Surrogate Courts of Northumberland and Durham Counties, in room of John Hall, deceased.

Do You Look on the Dark Side?

Are You Blue, Discouraged Irritable and Depressed?—It may be Your Nerves are Exhausted and You Need

Dr. Chase's Nerve Food.

Irritability and mental depression, sometimes amounting to melancholy and despondency, are marked symptoms of nervous exhaustion.

In the beginning you feel languid and tired, find it impossible to concentrate your thoughts. The tasks of the day are put off till the morrow, little things worry you, you forget your blessings and look on the dark side of things.

At times there may be nervous headaches, spells of dizziness, indigestion, sleeplessness and general weakness of the body. You dread what the future may bring to you and feel the work and responsibilities of life more than you can bear.

Mrs. M. A. Sharp, 346 Dublin street, Peterborough, Ont., states:

"For some years I was troubled with indigestion which developed into nervous dyspepsia and besides suffering from nervousness, strange, dizzy spells would come over me. Hearing of the good results obtained from Dr. Chase's Nerve Food I decided to try it. After a pretty thorough test of this medicine I can say that I never used anything that did me so much good. It seemed to be the very treatment that I needed and as a result of its use I am quite restored to health."

The wonderful medicinal power of Dr. Chase's Nerve Food has been demonstrated in thousands of cases. Gradually and certainly it creates new nerve cells, builds up the system, and overcomes the weakness which gives rise to nervous ailments and feelings of depression and despondency. New hopes, new confidence, new vitality are instilled into the body and health and strength take the place of disease.

Dr. Chase's Nerve Food, 50 cents a box, six boxes for $2.50. At all dealers or Edmanson, Bates and Co., Toronto.

DOAN'S KIDNEY PILLS

CURE

All Forms of Kidney Trouble from Backache to Bright's Disease.

If you have a Backache, Sideache, Scanty or Highly Colored Urine, or anything wrong with your Kidneys take

Doan's Kidney Pills.

They cured Mr. T. Lour, Bathurst Village, N.B.—they will cure you. He says.—I was very much troubled with severe pains in the small of my back, just over the kidneys. A friend told me about Doan's Kidney Pills, so I procured two boxes, and before I had used them all I was completely relieved of all pain. There is nothing like them.

Select Reading for Annexationists.

Note: The following selections from papers of the southern States appear in connection with an article in The Globe of the date above mentioned, and entitled "Select Reading for Annexationists."

Slaves—Slaves. The undersigned keeps constantly on hand a well assorted lot of slaves for sale. We will receive and sell slaves for our friends on commission. We will pay cash for 20 or 25 slaves. We invite our friends and the public generally to give us a call when they have business in our line, O. F. Hatches & Co'y, 195 Gravier street.

Slaves for Sale. An exceedingly fine assortment of Virginia and Maryland negroes are offered for sale, corner of Esplanade and Moreau streets. They were purchased with care, have just arrived, and will give general satisfaction to buyers. W. L. Campbell, Slaters old Stand.—From The Globe of Jan. 27, 1858.

Sues For $30,000.

Toronto, Feb. 26.—Mrs. Quinn is suing the Grand Trunk Railway Company for $30,000 damages for the death of her husband, Russell Quinn, who died at the Victoria Hospital a short time ago from injuries received in the wreck at Wanstead.

Still Seeking Trains.

St. John's, Nfld., Feb. 26.—One of the snow-bound expresses was moved some miles yesterday, but the other is still blocked, and it is likely to continue so for several days. Relief trains are actively engaged in trying to free the latter.

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The original is safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the name to be careful about—

D-O-D-D-'S KIDNEY PILLS

DR. A. W. CHASE'S CATARRH CURE ... 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanantly cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

Just within her grasp is safety—but she does not see it; she is looking the wrong way. There's many a woman struggling in a sea of disease who is doing the same thing—looking the wrong way—snatching at medicinal straws when the life buoy, Dr. Pierce's Favorite Prescription is within her reach. Many a woman has testified: "I know I should not be alive to-day but for Dr. Pierce's Favorite Prescription." This famous medicine establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

Weak and sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I take pleasure in writing to let you know the great good I received from your 'Favorite Prescription' and your 'Pleasant Pellets,' says Mrs. Nora Gaddie, of Rio, Hart Co., Ky. "I took seven or eight bottles of 'Favorite Prescription' and one or two vials of the 'Pellets.' Think I would have been in my grave had it not been for your medicines. It has been about four months since I took the medicine. I was all run down, had loss of appetite, could not sleep at night, was nervous, had backache, black spots on my limbs, and sick headache all the time. I have not had sick headache since I took your medicine."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets cure dizziness and sick headache.

OUR SERVICE

LITTLE TOUCHES.

They Are the Making of a Smart Gown.

It is the little touches in the evening gowns which make them so perfect, like a black satin bow tied flat in the back of the waist with a paste buckle and a beautiful vest coming from beneath a bolero of lace formed of narrow rows of velvet radiating to a point in the center. All these several velvets

OLD ROSE SILK VEILING.

are apparently drawn from beneath the bolero into a bow of ends and loops at the top of the decolletage. Many of the sleeves open on the outside of the arm down to the elbow, where they end in ruffles.

Veiling plays its part, and a good part, too, in the evening fashions. It falls so softly and forms such a good background for silver decoration.

A gown recently arrived from Paris in a deep tone of blue velvet sparkles with paillettes that shine like a star in the heavens. It is neither very full nor has it the appearance of being much trimmed. A perfect figure molded in it could hardly be shown to greater advantage.

The smart dress here shown is of old rose silk veiling over silk of the same shade. JUDIC CHOLLET.

Startled the Tailor.

A London tailor was once measuring Dr. Parker, who had a quaint sense of humor, for an overcoat, when suddenly the doctor broke forth in his most sepulchral voice:

"Can you measure the ineffable?"

The assistant looked up and saw that the doctor was extremely grave. He said:

"I beg your pardon, sir?"

The doctor raised both his hands with a grand upward sweep and said:

"Can you measure the ineffable? Can you comprehend the infinite?"

"We'll make you a nice coat, sir," returned the puzzled assistant. Tapping the doctor's shin, he said:

"That's about the length, sir?"

"Longer!" ejaculated the doctor in determined tones.

"There, sir?"

"Longer!" thundered the great man.

The tailor remonstrated. As a technical professional he could give points on tailoring to any preacher that ever wore a head.

"If you have it any longer, you won't be able to walk," he remarked conclusively.

The doctor looked on him compassionately and, once more extending his arms toward the skies, said confidentially:

"I don't want to walk; I want to soar!"

"I FORBID THE BANNS."

Engagement Moore's Successful Story After Seventeen Years of Waiting.

In the course of an interesting sketch of Mr. F. Frankfort Moore, the novelist, M.A.P. says:—

"He may take a certain honest pride in his hard-won success, but vanity is not to be laid to his charge. 'Swelled head' is a disease which rarely attacks those who have thoroughly 'been through the mill.' If he displayed a literary bent at an early age, he received no encouragement to pursue it. Indeed, as he has related in his autobiography, his father, on discovering the MS. of an Arctic novel, promptly burned it. However, if nominally engaged in the study of the higher mathematics, he continued to write in secret, and eventually sold an epic to Messrs. Smith and Elder.

Leaving home he became a journalist, and traveled widely in Africa and India, writing books at the same time, but it was only after seventeen years of unremitting toil that 'I Forbid the Banns' placed him where there is always room—at the top. The day he finished 'I Forbid the Banns' he said to someone beside him, 'I have written a curious sort of book, but, whether it is good or bad, it will make my fortune.' His faith in his own judgment wavered, however, when the reviews appeared. With one exception, all were unfavorable. But in the end his critics were confounded."

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo-Quinine Tablets. This signature E. W. Grove on every box. 25 cents.

Hot Baths.

A German physician advocates in a German paper the frequent taking of hot baths. These, he urges, are much more healthful than the cold plunge, which he thinks few systems can stand. The water should be at a temperature in the beginning of 108 degrees F., this to be increased until the water is as hot as can be borne. The length of the first bath should not be more than five minutes, and at no time should it be longer than is agreeable with no sense of discomfort apparent.

The writer cites in support of his theory the practice common in Japan among all classes of its people of taking these hot baths. The porter walking along with his load and fatigued to the point of exhaustion, drops it for ten minutes while he takes a hot bath at some public bathhouse. He emerges refreshed and strengthened and goes on his way rejoicing.

The writer considers that there is no danger of taking cold after a hot bath and does not even advocate the use of a cold shower to follow the bath. Hot water is known to be an excellent cosmetic for the face, and it is only fair to assume that its revival of skin tissue is not confined to that part of the body.

Sir Redvers Not Vindictive.

Sir Redvers Buller has had some hard knocks from the press, but apparently he does not harbor any animosity against journalists as a class. At the recent Devonian dinner, a young journalist wanted to get into a small gallery overlooking the scene, instead of sitting with his colleagues down below, the more particularly as he was suffering from dyspepsia, and the good things provided were forbidden him. But the door leading to the gallery was locked, and none of the officials would produce the key or even listen to his appeals. Presently Sir Redvers appeared on the scene, and the journalist, taking his courage in both hands, as the French say, went up to him and said: "Pardon me, Sir Redvers, but I am a poor, unfortunate journalist in a fix. Will you help me?" "Well, what is it?" asked Sir Redvers. The scribe explained, and in a very few minutes Sir Redvers himself conducted him to the gallery and unlocked the door.—London M. A. P.

BAD BLOOD.

Miss Mary M. Allan, Aylmer, Ont., says:—For nearly a year I was troubled with pimples on my face. I tried several remedies but none of them seemed to help me until I got Burdock Blood Bitters. I think it is a great remedy for bad blood, and take pleasure in letting you know that it did me more good than all the other remedies I tried.

B.B.B. Cures Boils, Salt Rheum, Erysipelas, and all Skin Diseases.

DYSPEPSIA.

Miss Alberta Murray, Campbellton, N.B., says:—For five years I was troubled with Dyspepsia, and whenever I ate anything I suffered untold agony. My parents got numerous medicines for me but they did me no good. I saw Burdock Blood Bitters advertised and something seemed to say, "get a bottle." I did so, and to my surprise before I finished the bottle I felt relief. I took all told 3 bottles, and have had no return of the trouble.

B

HEADACHES.

Miss. Peter Henderson, Glen Levit, N.B., says:—It is with pleasure and gratitude that I can testify to the wonderful power of Burdock Blood Bitters. My daughter was ailing for three years with headache and run down system. I tried several kinds of medicine but to no effect. At last a friend urged me to try B.B.B. for her, and after using five bottles she was like another being. I can never praise it enough. It is a God-send to all.

CONSTIPATION.

Miss Hollie Haggan, Montgomerie, N.S., says:—I was troubled with constipation for a year and tried different medicines, but they did me no good. I then took Burdock Blood Bitters and it cured me so that I have not been troubled since.

Mr. Wheaton Bartley, Morrisburg, Ont., says:—I took three bottles of Burdock Blood Bitters for constipation and found a complete cure effected.

Sales to noon, 234,100
Split

Messrs. Haight & Freese have received the following:—

New York, Feb. 27. — The stock market is discounting an unfavourable bank statement. Prices ought to harden today. Those who have been following the policy of confining short sales to high-priced issues have reason to congratulate themselves. Likewise those who have purchased low-priced stocks for fair returns. Money governs. Fear that the Aldrich bill may not get through congress at this session caused the weakness yesterday afternoon. The latest private advice from Washington to the effect that the Cuban bill might no tpass, caused selling in sugar. The short interest in the general market is large. The selling has been professional. A moderate decline at this time of year is usual. On further reactions we advise the purchase for moderate profits of copper, B.R.T., rubber, and the Atchisons.

London for American stocks weak.

TOPICS.

New York, Feb. 27. — Bright and early this morning Attorney Gen. Knox will file necessary papers for expediting the Governments case against the Northern Pacific Merger and if no obstacles are met with the supreme court is expected to render a decision in Feb. 1904. It seems like counting misfortune to worry over this subject. Advices from Washington say the Aldrich financial bill is sure to pass. Market is oversold, but professionals are not bullishly inclined. Hold some copper, I.R. and steels

New York, Feb 27. — It is to be noted that throughout the weakness of the general list yesterday the steel stocks maintained a strong front. There is no doubt but that the prosperity of this great industry is not only fully maintained, but showing signs of a fresh revival in many directions. There was some little disappointment that the Directors of St. Paul took no action at yesterday's meeting on subscription rights. The next meeting will act upon the semi-annual dividends and any rights which may be declared hereafter will not share in the dividend.

The Aldrich bill is likely to become a law before congress adjourns next Wednesday. It assures abundance of money at all times and at easy rates and should prove a strong tonic to the market, but will not necessarily mean a bull campaign right away. The large bond issues both recent and prospective tend to check an investment demand for stocks and act as a distinct damper against bulls speculation. Bonds should become stronger and much more active before much advance in stocks. Another uncertain feature is the reserves to be required of the trust companies. This will be quite a serious matter on the supply of money available for Wall street all these little financial clouds could be quickly dissipated by a favourable breeze. A very favourable factor for th erailroads is the new Elkins bill just passed, preventing large shippers from obtaining rebates. The railroads have for years been paying out money in this way which will now be saved and net earnings should show it. Wheat outlook is highly satisfactory.

RIDGLEY.

Buy sugar on dips. Take on a little N.Y.C. and Erie preferred.

JOSEPH.

Ex. div. Ca. 2 1-2.. Liverpool wheat opened inactive 1-8 lower; corn 1-8 lower.

The following despatches have been received by E. M. Poussett & Co.:—

New York, Feb. 27. — The steadier tone for the market as against the weak and lower London is on the covering of shorts and buying by traders. There is some slight selling pressure on opening but this has given way to covering of shorts.

Liverpool close, wheat unchanged, corn 1-8 lower than yesterday's close. car lots wheat 7, corn 291, Oats 109, The Senate is going ahead with Naval appropriation bill. Prospects not good for the Aldrich bill owing to bill coming up to-day. Aldrich is working hard on it however.

There is much uncertainty felt over fate of the Aldrich bill that generality of traders are loath to increase their holdings one way or other pending further developments. Our latest private advices from our correspondents are to effect that Aldrich is confident that the bill will pass.

GOSSIP.

New York, Feb. 27. — According to preliminary estimates of week's movements in cash, compiled by Evening Post, returns as collected from banks they have apparently lost between eight million and nine million. Close to five million of this lost to subtreasury, most of which was on withdrawal of heavy custom payments. The rest was lost on interior movement with Chicago taking several millions.

Traders selling stocks on expectation of bad bank statement, stop orders broke St. Paul.

Messrs. Dever & Co. have issued the following:—

New York, Feb. 26th., 1903.—To-day's stock market was somewhat irregular and erratic with pronounced dullness at times. After a slight rally it eased off and market became quite dull during noon-day session. U.S.S. held firm not being influenced to any great extent by the other market. Immediate market depends a great deal upon legislation at Washington. Passage of Aldrich bill would probably be the signal for a strong upward movement. Until that time look for market to ease off somewhat in which case it would be good policy to pick up some of the standard issues, as well undoubtedly start bull movement ere long. Wabash were in active demand. Some talk being revived of absorption of T. C. I. by U. S. S. Present action of market indicated that strong interests are behind it. Railway stocks fairly firm and inactive. It will pay to buy any of the rails on any further recession and hold for better prices which are to come within the next 30 days.

Chicago.—The whole showed a better feeling prevailing in all the pits. Wheat was taken in hand early and lifted as well as provisions. Advise taking advantage of closing long wheat on any bulge. Sentiment bullish.

Closing prices—Wheat, May, 77 1-4; corn, May, 46 1-2; oats, May, 35 5-8; pork May, 17.85; lard, May, 9.65.

W. F. DEVER & CO.

SOMETHING OF VALUE.

The American Cereal Company Have Issued a Neat Folder.

The American Cereal Company have issued a very interesting folder, which they have gotten up for the benefit of the farmers of the district. It would be well for the farmers to note in particular what the company says in regard to the selection of oats for seed. The Cereal Company says:

"As the time of year is fast approaching when our farmer friends will be busy preparing the soil and seeding for another harvest, we wish to once more draw their attention to the necessity of drawing special attention to the selection of seed oats, as we are large consumers of milling oats.

"In the markets of the Old World Canada is coming to the front with her pea fed bacon, her cheese, her butter and eggs, and why? Because the Government has spent large sums of money educating an intelligent farming community, as to the requirements of the old world markets, and year after year shows steady gains in our exports of these commodities. Why should it not be the same with cereal products? And so it will with your hearty co-operation in furnishing us with oats suitable for our requirements. We particularly recommend 'White Siberian' or 'Banner' oats as two varieties especially suitable for milling purposes.

"Please see that your seed oats are free from barley, wild oats and other foreign grains. If the crop is well taken care of and the season is favourable for the harvesting of the same, the farmer will be assured of a steady market for his oats at the highest prices obtainable at all times, by growing choice oats and marketing them with the American Cereal Company, Peterborough.

"We have equipped our elevator with three modern automatic grain dumps for the accommodation of farmers delivering grain, which is a great improvement on the old-style methods."

Wheatine.

If you want a really good cereal food try WHEATINE, a delicious nutty flavour, cheap and recommended by the medical profession. All leading grocers. 6d47

BIRTHS.

DOUPE — At 179 Doublin on Thursday February 26th, 1903, to Mr and Mrs. P.B. Doupe, a son.

DIED.

THOMPSON. — In Ashburnham on Thursday, 26th of February, 1903, William Thompson, Sr., aged 83 years.

The funeral will take place on Saturday, at 2.30, from the family residence, Dickson street, Ashburnham.

A $9 A WEEK BARBER.

Wahoo Sam Crawford's Sudden Jump Into Fame.

He was Lathering Farmers and Shaving the Stubble off Nebraska.

Ren. Mulford, Jr., of Cincinnati, writes of Sam Crawford, formerly of Chatham of the Canadian Baseball League, who has signed with Detroit in the American League for the coming season: The fact that a few years ago Wahoo Sam Crawford was lathering farmers and shaving the stubble off Nebraska weather beaten mugs at $9 a week must not be taken as any reflection upon him. "Abe" Lincoln split rails in the days of his youth; James A. Garfield was a canal boat boy, and U. S. Grant worked in a tannery. That isn't saying that Crawford has given any evidence of budding statesmanship, but is merely run in as a side remark to emphasize the fact that in this glorious land of ours the man who starts in cowhide boots has just as much chance as the exquisite in patent leathers and velvet trousers.

Some very interesting treasures in the way of autograph letters were turned up last week. A John Greenleaf Whittier collection was sold in the east and brought big money, and somebody on the Omaha World, out in William Jennings Bryan's state, resurrected a five-year-old letter from Sam Crawford. In '98 $9 a week in a Nebraska barber shop just about filled "Wahoo Sam's" idea of what constituted prosperity. The letter shows that the golden boundaries of Crawford's expectations did not stop outside his native state. From a $9 a week barber to a $5,000 outfielder is quite a jump.

L. P. Covington of Wymore, Neb., claims to be the earliest of Crawford's baseball managers. He had heard of the Wahoo boy and offered him a place on the Wymore team, and that year Crawford

"SHAVED THE WYMORIANS"

and served southpaw slants as the pitcher of that town's team.

I have an idea that I missed a great chance to bring Sam Crawford into greater prominence. The pointer came to me from Joe Schrall, who was then in Canada.

"There's a Nebraska jack rabbit up here," wrote Schrall to me, "who is murdering the leather. Just as sure as my name is Schrall Sam Crawford is going to break into fast company some day. Put the Cincinnati club on to his curves. He'll bear watching."

That prophecy was fulfilled. Tom Loftus nailed him from Canuckland, and the next fall the Reds secured him. Wahoo Sam is not yet quite as polished as a Beau Brummel, but he knows a lot more than he did when he came to redland. Shortly after he joined the Reds, Frank Bancroft took him on a swing around the barnstorming circuit. One afternoon they were to play at Wheeling, and old St. Switbin had everybody on the hose reels at work. It was pouring too hard to think of play, and someone suggested a visit to the theater.

"What are they playing?" was asked.

"I don't know, but I'll find out," answered Crawford, and he started on his tour of investigation. In a moment he returned, with the information: "There's a play on I never about, called 'Repertoire.'"

"That's just the play you'll like," declared Frank Bancroft. "There are Indians with long knives and a war dance in it."

After the show Wahoo Sam hunted up the old war horse and with a look of mild reproach in his eyes he said: "What kind of a game was that you steered me up against? There were no Indians there and they played a piece called 'Hazel Kirke.'"

Since those days Wahoo Sam has taken many a dramatic degree, but the Wheeling episode will long be recalled as one of those closely associated with his early education as a Thespian devotee.

POLICE COURT.

A Number of Cases Disposed of This Afternoon.

At the police court this morning several cases were brought before Police Magistrate Dumble. A large number of people was present.

George Wright was charged with being able to work, and support his wife and family, but not doing so. The prisoner pleaded not guilty.

Mrs. Wright, the wife of the prisoner was the first witness, and said that she suffered from rheumatism. She had only received $7.50 from her husband since Christmas. The accused's defence was to the effect that he was physically unable to work, and Dr. Amys gave evidence in which he said that the prisoner had sprained his wrist, and was unable to work. The Police Magistrate discharged the case.

Patrick Boulton was charged with wilfully assaulting his father, Michael Boulton. The complainant recited such a thrilling tale that the Police Magistrate, judging him to be under some delusion, enlarged the case for a week, in order that the complainant might receive some mental treatment.

A young man of respectable family and appearance was charged with obtaining liquor at a certain hotel on Saturday night during prohibited hours. In answer to the charge the accused pleaded "not guilty." He said that he and two other men had bought soft drinks at the hotel, but did not obtain intoxicating liquor. The Magistrate discharged the case.

A charge of a breach of the License Act was laid against the proprietor of the Queen's Hotel, but was dismissed.

HOLD YOUR ORDERS!
A DROP IN COAL!

Having received a message on Tuesday from Buffalo, will sell on arrival of coal here, Egg, Stove and Nut, at $8.50 per ton. Small nut $7.00. Also remember our Mixed Wood, Tamarac, Hardwood Limbs, at $4.00 per cord. Also in stock, first class long and short hardwood, which will be sold at lowest prices Wood cut and split as desired.—J. E. A. FITZGERALD.

ANNUAL MEETING

Of the Woman's Auxiliary for Foreign Missions, Yesterday.

The annual meeting of the Woman's Auxiliary for Foreign Missions was held yesterday in St. Luke's school house. A large number of members was present. The reports showed the Auxiliary in a prosperous condition, and indicated that much had been done in aiding the missionary cause by sending clothing, etc., to the North-west Mission Stations and other places, and contributing money. The election of officers resulted as follows:—

Hon. President—Mrs. E. A. Peck.
President—Mrs. W. J. Scott, (re-elected.)
1st Vice-President—Mrs. E. A. Langfeldt.
2nd Vice-President — Mrs. Jos. Phillips.
Rec. Secretary-Treasurer — Mrs. Jos. Kidd.
Cor. Secretary—Mrs. McGregor.
Dorcas Secretary — Mrs. F. J. Jamieson.
Board of Management, appointed by the Rector—Mrs. G. F. Warde, Mrs. Stephen Gaskins.

After the meeting, the Auxiliary was entertained at the Rectory by Mrs. Langfeldt to afternoon tea.

The members of Sunnyside Branch were also present.

TWO MONUMENTS.

By Jean Blewett.

Two men were born the self-same hour;
The one was heir to untold wealth,
To pride of birth and love of power;
The other's heritage was health.

A sturdy frame, an honest heart,
Of human sympathy a store,
A strength and will to do his part,
A nature wholesome to the core.

The two grew up to man's estate,
And took their places in the strife;
One found a sphere both wide and great,
One found the toil and stress of life.

Fate is a partial jade, I trow;
She threw the rich man gold and fame,
The laurel wreath to deck his brow,
High place, the multitude's acclaim.

The common things the other had—
The common hopes to thrill him deep,
The common joys to make him glad,
The common griefs to make him weep.

No high ambition fired his breast;
The peace of God, the love of friend,
Of wife and child, these seemed the best,
These held and swayed him to the end.

The two grew old, death's clear call
Came to them both the self-same day;
To him whose name was known to all,
To him who walked his lowly way,

Down to his grave the rich man went,
With cortege long, with pomp and pride,
O'er him was reared a monument
That told his virtues far and wide;

Told of his wealth, his lineage high,
His statesmanship, his trophies won,
How he had filled the public eye—
But empty praise when all was done.

The other found a narrow bed
Within God's acre, peaceful, lone;
The throng cared not that he was dead,
A man uncultured and unknown.

But in the house that he had left
A woman whispered through her tears:
"Christ comfort me, who am bereft
Of love that failed not through the years."

And oft his stalwart sons and tall
Would murmur as their eyes grew dim:
"A useful life is best of all;
God grant we pattern after him!"

A sick man sighed: "I'll miss his smile;"
A shrivelled crone did shade her head
And mutter to herself the while
How oft his hand had given bread.

A maimed child sobbed: "He carried me
To gather blossoms in the wood,"
And more than one said, brokenly:
"A man who always did me good."

One came at twilight to the grave,
And knelt and kissed the fresh-turned sod;
"Oh, faithful soul!" she cried, "and brave,
'Twas you that led me back to God!

"Back from the sin, the shame, the snare,
Forget your trust and faith?—not I;
Each helpful word, each tender prayer,
I will remember till I die!"

Two men that sleep—above the one
The monument an artist's hand
Has fashioned from the block of stone,
A thing of beauty, tall and grand;

Above the other naught—what then?
Ere he did fold his hands for rest,
He builded in the hearts of men
The fairest monument and best.

When children are pale, peevish and restless at night they require a dose or two of Miller's Worm Powders. For sale by all druggists.

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

"Hardwood Reduced 50c per Cord.

On account of hard coal coming forward more freely, we have decided to reduce the price of hard wood fifty cents per cord until further notice. Fresh shipments of egg, stove and nut coal, Butt's cannel coal for grates. Prices of superior grade soft coal reduced. R. Hicks & Co., corner Murray and Bethune streets. Phone 48.

MARMALADE.

Fine bitter Oranges are now in. Also nice, bright skinned, sweet Oranges suitable for using with the bitter ones. These are very cheap. First-class cooking Figs at 5c per lb. at S. A. OKE'S, 376 George street.

A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT.
January 19th to 23rd.

Sealskin advanced from	20%	to 40%
Persian Lamb advanced from	10%	to 20%
Astrachan Lamb	10%	to 25%
Racoon Skins	20%	
Skunk Skins	15%	
Mink	15%	
Black Cattle Skins	10%	to 15%
Wombat Skins	15%	
Wallaby Skins	15%	
Australian Coon	25%	
Otter Skins,	10%	
Opposum Skins,	15%	
Marten Skins,	12%	

During this month we have determined to put on a **Big Reduction Stock-taking Sale.** This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this anncuncement, as it is decidedly in their interest to do so at once.

Close of Our Fire Sale To-night.

The Golden Lion winds up its interesting Fire Sale to-night. The success of this event has been away beyond our expectations. Its incidental advantages to us and to shoppers cannot be discounted.

LET US SHAKE HANDS

Mr. and Mrs. Customer, and mutually congratulate each other on the gratifying results. It wasn't a case of "just swapping dollars"—it was a "dollar breeder."

Going to be very busy from now on—getting ready for the new season.

ONLY A SPAN TO SPRING.

We begin opening up New Spring Goods. Each department in the Golden Lion takes on new life, waiting, as it were, for the wise women who, with their early purchases, harbinge the approach of the season.

In a few days, the new Silks and Dress Goods, the new Cotton Weaves, the new styles in outer garb—new merchandise from all over the store will welcome you.

There will be opportunities offered for a while yet to buy at Fire Sale prices. Come and make enquiries and pick over among the assortments still left. We can afford to sell a good many goods yet at swift clearing prices.

A SAD DEATH.

Miss Annie Archambault of Town Passes Away.

The sad death of Miss Annie Archambault, a young girl of 13 years of age, occurred this morning at 3 o'clock, from inflamamtion of the brain. The deased was taken to St. Joseph's Hospital on Monday last.

The young girl was the eldest daughter of Eugene Archambault, of 71 Elm street, town. The funeral will take place on Monday next at 9 o'clock to St. Peter's Cathedral, and thence to the Roman Catholic Cemetery.

The deceased was a very clever and attractive young girl, and had distinguished herself greatly at school taking first class honours in almost everything, and one thing above all which makes the gap in the family all the harder for the parents, was the loving nature of the daughter to each of her parents. Mr. and Mrs. Archambault have the sympathy of the community during this their time of trouble and bereavement.

THE SPRING DRILL

Of the Fifty-seventh Regiment to Begin Shortly.

Other city regiments are preparing for their spring drill already, and it is hinted that Peterborough ought to do likewise. But it may please some people to know that the 57th Regiment as a whole is not as backward as is generally understood, and the non-coms. have been asked to report at the drill shed on Wednesday night next, a result of which, it is expected will be the early preparations for the spring drill.

The following orders have been issued:

Headquarters, Peterborough,
Feb. 27, 1903.

Orders by Lt.-Col. J. W. Miller, Commanding 57th Regiment, Peterborough Rangers.

All non-commissioned officers will parade at the drill shed at 8 p.m. on Wednesday, March 4th, 1903, and on each subsequent Wednesday, at the same hour, until further notice, for the purpose of being instructed in the revised drill.

By order,
D. WALKER,
Captain, Adjutant.

SUGAR CO'S PROPOSITION CONSIDERED

At Joint Meeting of Board of Trade and Council.

REFERRED TO COMMITTEE.

Attitude of Pres. Dumble, of the Board of Trade.

Mr. Garvin Says Sugar Company Will be of More Benefit to Community Than Cereal Company—Mr. Hughes-Charles' Speech.

A joint meeting of the Peterborough Town Council and the Peterborough Board of Trade was held last night, when the matter of the town assisting the Peterborough Sugar Company to the extent of taking $50,000 worth of stock in the concern, secured by first mortgage bonds, was fully discussed.

Representatives of the Peterborough Sugar Company were present and explained their position in regard to the scheme. After the matter had been gone into at considerable length it was on motion referred to the Committee of the Whole Council to deal with and it is altogether likely that the Council will take some definite action in the matter inside of the next two weeks.

THOSE PRESENT.

The chair was occupied by His Worship Mayor G. M. Roger and there were present the following members of the Council,—Aldermen H. Best, J. Corkery, James Finnie, H. Rush, R. F. McWilliams, M. E. Morrison, Wm. Edgecombe and D. O'Connell.

The following members of the Board of Trade were in attendance,—Messrs. D. W. Dumble, President; A. C. Quartermain, Secretary-Treasurer; E. J. Toker, D. Hughes-Charles A. L. Davis, Wm. Might and Peter Campbell.

The Peterborough Sugar Company was represented by Mr. T. E. Bradburn, J. W. Garvin and A. P. Poussette.

His Worship Mayor Roger invitvited the members of the Board of Trade to express their views on the matter.

MR. DUMBLE SPEAKS.

Mr. D. W. Dumble, the President of the Board of Trade, was the first speaker. He began by stating the position a Board of Trade of any town should occupy towards a Council of such a municipality. The Board of Trade really meant the citizens of the town banded together in an association in order that they may be able to consider matters of public interest and to counsel with those of more official importance on matters of public importance that may come before them. It was not their desire to in any way usurp any of the functions of the Town Council.

Taking up the question as to what assistance the Town Council should give the Sugar Company, Mr. Dumble said that it was nothing but right that they should assist in any fair way possible in promoting industries that would tend to keep our money at home, by way of manufacturing the goods we consume, or otherwise. The question is: "Shall the town yield to the request of the promoters of the scheme and invest $50,000 in the venture?" Generally, it is not considered sound business in municipalities entering into commercial enterprises. But they were called upon now to consider whether or not they would take the chances of success or failure of the present scheme. Is the time ripe for an establishment of this kind in Peterborough? He had given the matter a careful study and he had come to certain conclusions, and what he said was his own particular views, and not those perhaps of any other member of the Board of Trade. Continuing Mr. Dumble went into matters pertaining to the success of the industry generally in Ontario, dealing chiefly with Berlin's experience. Berlin had succeeded this year, but will this success continue year after year? It has not been demonstrated that the present amount of labour is adequate, and under these circumstances, the speaker said, he would be inclined to hold on to our money until it was proven beyond a doubt that it was a success elsewhere. We should consider very carefully, it being a commercial affair, as to whether the capital was sufficient, and the stock-holders, of which the town would be one, must know whether they were on the ground floor or not. He believed, personally, that if they attempted to grow beets this year and rush up a factory, they would be making haste too rapidly, and it would be injudicious; make sure that the venture has no more capital than is justified under the circumstances. He cautioned the council to go into the matter with no uncertainty as to the ultimate fate of the company. He thought that there was no need for haste. He had heard of one place in Canada where, for want of labour, sixty acres of beets had to be left in the ground. With the great demand for labour, we will find it difficult, perhaps, to grow the required quantity of beets. In this matter Mr. Dumble said he was speaking on sound conviction, for himself, and he was not personally prepared to ask the council to make the investment, but to hold back until they are satisfied that there was no failure in the enterprise.

MR. GARVIN EXPLAINS.

Mr. J. W. Garvin, one of the promoters of the Beet Sugar Company, was asked to explain the position of the company. He prefaced his remarks by stating that the President of the Board of Trade was careful to state that he was not expressing the opinion of the Board, and Mr. Garvin contended that whether was he speaking in accordance with his remarks at the last meeting of the Board of Trade, the opinions expressed by the members of the Board who spoke at said meeting. Mr. Garvin then went into his subject, in which he endeavoured to show that Peterborough had in the past assisted industries which had located here, and why not the Peterborough Sugar Company, of whose success there was no doubt? He declared that there was need for haste in the matter. The company had entered into a contract by which it is proposed to commence active operations by April 1st. Matters had now gone too far to recede or hold back. Mr. Dumble had said that Berlin had made a success of it. As a matter of fact Berlin had entered into the project with enthusiasm. "So are we," declared Mr. Garvin. We have more time at our disposal than had Berlin. They built their factory and secured their acreage in six months. Besides this, Peterborough possessed many advantages that Berlin did not. Berlin had 5,000 acres under contract, and succeeded in getting all but 60 acres of that in the first year. He went on to point out that the local company was asking the farmers to sign only small contracts each, so that there would be no difficulty about securing the required amount of labour. Figures were here quoted by Mr. Garvin to show the great growth of the sugar beet industry in Germany and in the United States. The factories in the States paid 15 and in some cases 20 per cent. The Peterborough company in their prospectus had moderately estimated the earning capital at 10 per cent, which, he held was a low estimate. He felt sure that the factory would pay in Peterborough, and it might be asked then why did they not go along themselves and build the factory? He would answer this question by stating that to raise half a million dollars was no easy matter. Speaking as to the amount of money the company would pay the farmers, he claimed that the company would pay out $1000,000 a year for beets. Mr. Garvin at some length went into figures in his desire to show that the Sugar Company would be of greater benefit to the community than the American Cereal Company, which had received assistance from the town which he figured out to be equal to a bonus of half a million dollars. The Sugar Company was asking not one-tenth, not even one-twentieth of this amount. Mr. Garvin said that the construction of the buildings and plant would mean an outlay in Peterborough of seventy-five or one hundred thousand dollars.

Is it desirable for a town to take stock in a commercial concern? This is not a bonus, he said, but was merely a loan of money for which ample security will be given. It may also be asked whether the town can afford to add to the town's debt. He held that it could where it was shown that the investment of the money was a good one. This has been demonstrated elsewhere. In conclusion Mr. Garvin claimed that they were only asking for them to treat this company, which was formed of local capitalists, as they would treat outsiders. The matter has gone too far to recede. It must go through if at all possible.

MR. DUMBLE AGAIN.

Mr. Dumble arose to say that he must not be misunderstood. It is a valuable industry, no doubt, for the farmers if it can be operated successfully. The only thing he wanted them to be careful about was the granting of the money to a factory here, when there were four other factories experimenting at the present time. Let the others do the experimenting.

THAT RESOLUTION.

Mr. Garvin reminded Mr. Dumble that at the last meeting of the Board of Trade the Board had adopted a report of the Manufacturers' Committee favourable to the proposed assistance to the Sugar Company.

MR. POUSSETTE.

Mr. Poussette said in reply to Mr. Dumble's suggestion that we should allow the four companies already started to do the experimenting, that the industry had been tried in Michigan and had proved most successful, and the conditions were the same in Ontario as in Michigan, excepting that our natural advantages were superior.

Mr. Poussette then read communications from various sugar companies, to show that it was almost impossible to purchase stock in any sugar company in Michigan, which only went to show the nature of the investment. He contended that Peterborough should be to the front in the matter of having a factory. He believed that it was a safe investment. They had been offered large inducements to go to other municipalities, but it was not their desire to go elsewhere if they could get reasonable inducements here.

Ald. O'Connell — Do you know of any other instance in which a municipality has been called upon to act in this manner?

Mr. Poussette explained that Wallaceburg, Wiarton and other towns had heavily bonussed their factories. Cayuga, a town of 1200, had recently voted in favour of taking stock in a company locating there to the extent of $25,000.

Ald. McWilliams asked Mr. Poussette if he could give any relative idea as to the labour market in Michigan and Ontario?

Mr. Poussette said he could not, but he explained that in the case Mr. Dumble had recited, of a certain farmer having had to leave 60 acres in the ground, that the farmer in question had undertaken too much. He had tried to raise 450 acres of beets.

Ald. O'Connell — How many acres will you require?

Mr. Poussette — 3,000 acres.

Ald. O'Connell — How many acres have you under contract already?

Mr. Poussette — About 1,000.

Ald. O'Connell — That is just one-third of the amount. Would it not have been better to come here after you had secured your acreage?

Mr. Poussette contended that they had not had time yet to get the required amount of acreage, but from the encouragement they had received they felt certain they would have the 3,000 acres.

Ald. O'Connell — As far as I can see I think that this is a serious objection—the fact that you have only one-third of the required acreage. I suggest that you exercise yourselves for the next two months, obtain the 3,000 acres, and then come back to the council.

Mr. Poussette said that that was a matter for the council to say. It would be a serious disadvantage, however, for them to wait two months.

In reply to Ald. Clinkskale Mr. Poussette said the contract for beets covered three years.

Ald. Morrison inquired into the bonds, etc., concerning which details have from time to time been published in the Examiner.

Mr. Poussette mentioned that they were being offered inducements elsewhere, which they might accept if Peterborough turned them down.

Mr. Garvin quoted statistics from the Agricultural College of the State of Michigan to show that the pulp was valuable as food for cattle, being equivalent to $5 a ton on ordinary fodder.

Mr. D. Hughes-Charles said that as a member of the Board of Trade, he could say that they did not recommend to the Council to take the stock. They merely acted as an Advisory Board. He would like to see the industry established in Peterborough. As a member of the Board, however, he thought it was well to make haste slowly. Had they gone into the details of the organisation? They should make sure that they were going to get one hundred cents on the dollar. We should be careful to see whether or not we are getting good security. They should have a first mortgage on the bonds, and the stock held by the "company" should all be purchased. Mr. Hughes-Charles gave his experience of an attempt to locate a sugar beet factory in Galt, and the reason it failed it failed which was because the promoters wanted to count the machines as a portion of their stock. He was favourable to assisting the promoters if they could prove to the council that the security was sound.

Upon motion of Ald. Shortly, seconded by Ald. Rush, the matter was referred to the Committee of the Whole Council to consider.

BOARD OF TRADE

Will Meet on Tuesday, March the 3rd Next.

The annual meeting of the Board of Trade will be held in the Town Council Chamber on Tuesday next, at 8.30 o'clock. The election of officers for the ensuing year will take place and other business transacted. Notices to this effect have been posted to the different members by Mr. T. C. Quartermaine, the secretary, asking for the attendance of all concerned.

RUSH OF IMMIGRATION.

Great Possibilities of Western Canada—Wheat Returns Have Raised Interest to the Point of Enthusiasm.

Her great wheat crops have turned out to be seven-league boots in the march of Western Canada towards prosperity, and the rush of immigration in that direction during the past year indicate that our neighbours and friends desire a share in that prosperity. The estimates approximate 65,000 as the number of people who have gone to Western Canada in the past year. The record crop of 1901 fastened attention on the great possibilities of that vast prairie country, and the returns of 1902 have raised interest to the point of enthusiasm. That this enthusiasm has a solid basis only a glance at the official figures will demonstrate. The wheat crop for 1902 is officially estimated at 60,000,000 bushels. 40,000,000 will be exported. 54,000,000 was produced by Manitoba alone, and 2,000,000 of the 2,5000,000 acres under cultivation are located in that province. But the region for 300 miles west of Manitoba and for four hundred miles north of the Canadian Pacific Railway is capable of the same results. The average yield of wheat per acre in these districts this year is nearly thirty bushels. Such figures have made Western Canada look very attractive in the eyes of farmers wishing to better their condition, and Mr. E. F. Stephenson, inspector for the Department of the Interior, reports 14,725 entries of land sales for the fiscal year ending June 30, 1902. The total area disposed of Mr. Stephenson estimates at 7,000,000 acres. A part of this of course represents the large holdings of companies organized for carrying on the industry of wheat raising on an extensive scale. The British-Canadian Wheat Raising Co. is one of the large corporations of this character.

OBITUARY.

The Late Mr. Joseph Fitzgerald, of Lakefield.

The death of Mr. Joseph Fitzgerald, an old and highly respected resident of Lakefield, occurred on Saturday evening last, after a few days illness. Deceased, who was in his 71st year, was born in the Township of Smith, and has resided in the township and Lakefield all his life. Almost forty-seven years ago he was united in marriage to Miss Martha Nelson, sister of Mr. Samuel Nelson, of this place. He leaves a widow and six children to mourn his loss, Enoch, of Iowa City, Iowa; Wellington, who resides in the North-west; Albert, of St. Paul, Minn; Mrs. Alex. Richardson, of Lakefield; Mrs. Thos. Polson, of Fenelon Falls, and Miss Minnie, who resides at home. The funeral took place on Tuesday to the Lakefield Cemetery, and was largely attended.—Lakefield News.

Positive Proof of Pinkham Cures

The wonderful power of **Lydia E. Pinkham's Vegetable Compound** over the diseases of womankind is not because it is a stimulant,—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the whole uterine system, positively CURING disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures, and physicians who have recognized the virtue in **Lydia E. Pinkham's Vegetable Compound** and are fair enough to give credit where it is due.

One of Many Women Cured by Lydia E. Pinkham's Vegetable Compound, Without Submitting to an Operation, Writes:—

"DEAR MRS. PINKHAM:—I was a great sufferer for three years, had some of the leading physicians, and they all said nothing but an operation would cure me, but to that I would not submit.

"I picked up a paper and saw your advertisement and made up my mind to try your medicine. I had falling and inflammation of the womb and a flow of whites all the time, pains across small of back, severe headache, did not know what it was to be without a pain or an ache until I used your medicine. After three months' use of it, I felt like a new woman. I still sound the praise of **Lydia E. Pinkham's Vegetable Compound.**"—MRS. WM. A. COWAN, 1804 Bainbridge St., Philadelphia, Pa.

A Graduate Nurse, Convinced by Cures, Endorses Lydia E. Pinkham's Vegetable Compound. She Writes:—

"DEAR MRS. PINKHAM:—Ministering to the sick I have had numerous chances to compare **Lydia E. Pinkham's Vegetable Compound** with other medicines in cases of diseases of women, and the number of cures recorded where your medicine was used convinced me that it is the safest and surest medicine for a sick woman. Doctors certainly must know the value of **Lydia E. Pinkham's Vegetable Compound.** I am convinced that you deserve the splendid record you have made.—Yours very truly, MRS. CATHERINE JACKSON, 769 Beaubien St., Detroit, Mich." (Graduate Nurse and President Detroit Emergency Association.)

Many Physicians Admit that no Medicine Known to the Profession Equals Lydia E. Pinkham's Compound for the Cure of Woman's Ills, and We are Permitted to Publish the Following:—

"DEAR MRS. PINKHAM:—It gives me great pleasure to state that I have found **Lydia E. Pinkham's Vegetable Compound** very efficacious, and have often prescribed it for female difficulties.

"My oldest daughter found it very beneficial for uterine trouble some two years ago, and my youngest daughter is using it for female weakness, and as a tonic, and is slowly but surely gaining strength and health.

"I freely advocate it as a most reliable specific in all disorders which women are subject to, and give it honest endorsement.—Yours very truly, SARAH C. BRIGHAM, M.D., 4 Brigham Park, Fitchburg, Mass."

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe **Lydia E. Pinkham's Vegetable Compound** in severe cases of female ills, as they know by experience that it can be relied upon to effect a cure.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking **Lydia E. Pinkham's Vegetable Compound**, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. No living person has had such a vast and successful experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice.

PUBLIC SCHOOL EDUCATION.

Not only should a rudimentary education be within reach of every child, but an obligation devolves upon the parents and the community to see that adequate facilities for instruction are provided. There should be no legal or other barriers placed in the way of any child acquiring that knowledge which is essential to success in life and a preparation for good citizenship. In view of the present situation of a portion of the population in regard to education, this self-evident proposition may bear repeating.

The aim of public school education is to develop the intellect and character of the child. Both are in the adolescent state and therefore easily molded. The aim is not only to teach how to read and write, but the advantages of being honest and industrious. A knowledge of facts and figures is not more important than the acquirement of rational views of life and conduct, for the child is the future citizen. Public school instruction is not final, but is rather the first preparation for a life time of learning.—Montreal Herald.

A RUNAWAY

In Which Two Young Ladies Figured Prominently.

(Lakefield News.)

On Friday of last week Miss Hampton, of Smith, and Miss Westlake, of Chandos, met with an exciting experience. The young ladies were enjoying a drive to Peterborough, and when a short distance from the Black Bridge something gave way on the harness, the cutter striking the heels of the horse, and causing it to start on the run. Miss Westlake jumped out of the cutter, and in falling struck her head against the end of the bridge. The shock rendered her unconscious for a short time and she received a severe cut on the head. Miss Hampton escaped with a bad scare and a shaking up. The cutter was considerably damaged.

A POWER COMMISSION

Hon. Geo. W. Ross Declares the Government's Policy.

PROMISES TO A DEPUTATION.

Municipalities Will Have Privileges at Niagara—Will Control Rates—Will Have Right to Develop, Transmit, Distribute and Sell—Answer to Representatives of Berlin Conference at Toronto.

Toronto, Feb. 28.—The deputation representing municipalities of western Ontario presented their power development ideas to Premier Ross yesterday and received from him a most pronounced statement of the Government's intentions. A bill will be introduced as a Government measure soon after the opening of the session providing for the appointment of a commission with power to develop, transmit, distribute and sell electrical energy, the commission to be under the control of the municipalities and to have power to fix rates.

The deputation consisted of Mayor Hamilton, Guelph; Mayor Cant, Galt; Dr. Housberger, Berlin, Mayor Maxwell, St. Thomas; William Snider, Waterloo; T. H. Jones, Brantford; E. W. B. Snider, St. Jacob's; D. B. Detweiler, Berlin; P. W. Ellis, and Ald. F. S. Spence, Toronto; Mr. H. P. Dwight, general manager of the G.N.W. Telegraph Company; Assessment Commissioner Fleming and Mr. E. A. C. Pew of the company which proposed to develop power from the Welland River, were also present.

The Ministers present besides the Premier were Hon. J. R. Stratton, Hon. John Dryden and Hon. F. R. Latchford.

The Deputation Speaks.

E. W. B. Snider of St. Jacob's, who presented the case, urged the necessity of using the electrical energy of Niagara to place the municipalities of Western Ontario in a position to retain the manufacturing pre-eminence of this portion of the province. The general feeling had been that the Government should undertake the work. If they could possibly see their way clear the municipalities would be only too glad to see them do so. If the Government have decided to do in two forms. First, as to Toronto, I might state that Toronto was the first municipality to submit a proposition to the House in regard to the generating of power. The bill submitted by Toronto was rejected, but I feel confident that had it been submitted in the form in which you presented your case to-day, it would have gone through. We were not prepared to give Toronto the right to make and distribute electricity to other municipalities, nor power to go into the generating of electricity without reference to the ratepayers, for the expense was too great to incur without the people having expressed themselves in the matter. However, if Toronto had then asked for what now seems its wish, it would have been granted. If Toronto wants to go into the enterprise we will give it the power, of course, reserving the right of the municipalities to such power as Toronto will not use. The expense involved should be subject to the will of the ratepayers; that is the fundamental principal of municipal law.

Secondly, if Toronto wishes to enter into a combination with other municipalities or other municipalities want to be independent of Toronto, provision should be made for this, stating what it is proposed to do, and a bill to that end will be ready soon after the House meets. Every opportunity will be offered the municipalities to assist in perfecting the bill.

The next point is: How is that to be worked out? Of course it might seem simple to think that the Government should do this of its own motion. That is a difficult question. We must make provision to have it controlled by the municipalities and formed to serve municipalities. You cannot expect the Government to appoint a commission to serve the municipalities: that would be assuming a responsibility for the success or the failure of the scheme, which would not be the case if appointed by the municipalities. The men to spend the money should be under the control of the municipalities whose money they spend and we see our way clear to furnish you with a commission to be appointed through yourselves to receive your money and to spend it as may be agreed upon. That will involve that the combined municipalities should get the power to develop or to transmit and to distribute or to do as the commission of their own appointment might consider best.

The next point is: Is the power available? I gave instructions ten days ago to the chairman of the Niagara Park Commission to prepare a report as to the extent of the power available, and I am informed that the municipalities will not for a quarter of a century utilize the full power that has already been given out to private corporations. I will not say off-handed that a power as large as that already given out is available, although I am told that several powers are available just as good. In a short time we will know what power is available and the relative cost of transmitting electricity for many years to come. When that report is down we will see where we are. Secondly, the experts will make a report as to the cost of transmission, and when it is completed we will have an idea of that and then the municipalities will be in a better position to see what burden they are prepared to take in the matter.

You will then be in a position to negotiate with the present franchise holders or develop it yourselves, or to take power from them or transmit it for yourselves and distribute it among the consumers in your own way. The machinery is somewhat large, but electric energy requires a great deal of machinery, and so do municipalities. So far as I can see there will be no difficulty in working the thing out. The whole thing is: You supply the money and you control the commission; they will serve you satisfactorily, and if not you can change them; you will be responsible yourselves for the success of the scheme, and, of course, there is no doubt about it being a success, and you will have the opportunity in your various municipalities of encouraging consumers of power to encourage the scheme in order that the price will be reduced to the lowest figure possible. We will be very grateful for any advice in working this out, and most pleased to receive your assistance. The bill will be a Government bill, and open to criticism by the press and by members on both sides of the House, and we hope, with your ingenuity and the information we have on the matter, to have it so as to cause the satisfaction of all.

The members of the deputation seemed pleased as to the result of their visit, and at an informal meeting in the corridor a small committee was appointed to keep the matter alive.

The delegates left for their homes in the evening.

G. T. R. PACIFIC SUBSIDY.

Messrs. Hays and Wainright Wait on the Government.

Ottawa, Feb. 28—General Manager C. M. Hays and Assistant General Manager Wainwright of the Grand Trunk came up by special private car yesterday morning and had an interview with the Prime Minister, Sir Richard Cartwright, Hon. Clifford Sifton, Hon. W. S. Fielding and Hon. Charles Fitzpatrick.

Various propositions were made, but nothing of a decisive nature was done. It seems to be clear that no land grant will be given, but the promoters of the project, according to report, would like a cash subsidy or a guarantee of the interest on their bonds. The interview was confidential and is likely to be repeated at a later date.

HOLD YOUR ORDERS!

A DROP IN COAL!

Having received a message on Tuesday from Buffalo, will sell on arrival of coal here, Egg, Stove and Nut, at $8.50 per ton. Small nut $7.00. Also remember our Mixed Wood, Tamarac, Hardwood Limbs, at $4.00 per cord. Also in stock, first class long and short hardwood which will be sold at lowest prices Wood cut and split as desired.—J. E. A. FITZGERALD.

A MOTHER'S TRIBUTE

Mrs. J. Wilson, Guelph, Tells How She and Her Little Ones Were Cured by the Infallible Remedy, Powley's Liquified Ozone.

The Mother Is Cured of Eczema, One Son of Consumption, Another of a Stubborn Stomach Trouble, and the Baby of Congestion of the Lungs.

Mrs. Wilson Is Now an Ozone Enthusiast, and Unites With Other Mothers in Pronouncing Ozone the Greatest Household Remedy in the World To-day.

Guelph, Jan. 30, 1903.

THE OZONE CO., Limited, Toronto, Ont.

Gentlemen,—I have intended writing you for a long time regarding your preparation, Powley's Liquified Ozone. I think it is a grand remedy, as I am certain it has been the means of preventing myself and children from having that dread disease, consumption. We first commenced using it when my dear daughter had consumption in a very advanced stage, but she was too far gone to save her life. How I wish we had known of Ozone earlier, for I am sure if we had she would have been alive to-day. She was much troubled with her stomach, being unable to digest her food, so rapidly became worse. She was sick nearly a year before we heard of Ozone and decided to try it. It helped her and I know prolonged her life, but the disease had reached her bowels and it was impossible to save her. When she was in pain Ozone would give her almost instant relief, and I shall ever feel grateful to it for alleviating my poor child's suffering.

At the time, through overwork in caring for her, I was in very poor health myself, but Ozone built me up and restored my health. Last winter my baby, always a delicate little thing, had congestion of the lungs, and I am sure that Ozone saved her life.

Later I had eczema, when my leg was much swollen and inflamed I took Ozone internally and applied it externally and in a short time all trace of the disease was gone. One of my boys showed every indication of being likely to have consumption, his symptoms being similar to those of his poor sister. Ozone restored him to health and also cured his brother of a bad stomach trouble which the doctors could not help.

I am an enthusiast regarding Ozone and have every reason to be for it did much to relieve the suffering of myself and little ones. As a family medicine it has no equal and I would not feel safe without it in the house at all times. In cases of grippe it is particularly good, giving prompt relief and effecting a speedy cure. I have recommended it to many others, who in turn are now sounding its praises.

Yours truly,
MRS. J. WILSON,
12 Pearl Street, Guelph.

Ozone Is a Great Household Remedy For Just One Reason, viz: "It Cures Disease by Destroying Disease Germs Wherever Located."

"For a long time," writes one correspondent, "I was opposed to the use of Powley's Liquified Ozone because I regarded it as a cure-all. That was before I understood Ozone as well as I do now. I could not understand how one remedy could cure so many widely different diseases. I did not know then what I have since learned by experience, that is that Ozone cures disease by destroying the germs that cause it."

No extravagant claims are made for Ozone and Ozone will not work miracles, although some of the cures it effects may appear almost miraculous. The only claim made for it is that it destroys disease germs and that it does speedily and thoroughly.

Doctors, Druggists and Clergymen Endorse Ozone.

The doctors, druggists and clergymen of the Dominion have long recognized the fact that Ozone possesses exceptional merit. The following are samples of the many letters we have received:

DR. SHIER, LINDSAY, ONT.

Powley's Liquified Ozone is a preparation I respect and of which I have seen good results. D. W. SHIER, M.D., Lindsay, Ont.

A. BOYCE, SYDENHAM, ONT.

For a small place like this town the sales of Powley's Liquified Ozone are good and the prevailing opinion of its merits are such that in almost every case the customer comes back for more. One customer received great benefit in a case of lung trouble and gives it great praise. In my own family my wife and daughter, after suffering from a bad cough nearly all last winter, were cured of it early in the spring with one large bottle in a surprisingly short time. ALBERT BOYCE, Druggist.

REV. EDWARD SOFTLEY, GRIMSBY, ONT.

I have pleasure in giving my testimony to the value of Powley's Liquified Ozone, which cured my daughter of nervous debility with insomnia when ordinary medical assistance failed to do so.

I consider it fully entitled to public confidence as a valuable remedy.

(Signed) REV. EDWARD SOFTLEY.

WARNING In buying be sure to get Powley's Liquified Ozone. As a safeguard to your own good health it will pay you to exercise this precaution. Powley's Liquified Ozone is sold only by reliable dealers and is never peddled. Price, 50 cents and $1.00 per bottle.

TEACHER OF ART.

MRS. L. McCARTHY will open a class in Oil and China Painting, Studio—405 Dentonia street. Terms moderate.

Accept My Help.

And Get well without the Risk of a Penny.

You can secure the utmost that medicine will do by simply writing a postal card, or sending me the coupon below.

All I ask is your name and address, and to know the book you need. I will then mail you an order on your druggist for six bottles Dr. Shoop's Restorative. You may take it a month on trial. If it succeeds, the cost is $5.50. If it fails, I will pay the druggist myself. And the sick one's mere word shall decide it.

You will realize that this offer would be impossible if I did not know that my Restorative will cure. A man doesn't take a risk involving $5.50, and with hundreds of thousands of people, without knowing what a remedy will do.

I spent a lifetime in perfecting my Restorative before such an offer was possible. I tested it thousands of times, in hospitals and homes, in cases as difficult as physicians ever meet.

Then I let the world know of it. For twelve years I have offered it on terms so fair that no reasonable sick one could neglect it. About 550,000 people have accepted that offer, and 39 out of each 40 have paid for it gladly, because they got well.

My success comes from strengthening the inside nerves. My Restorative brings back this power which alone operates the vital organs.

The common way is to doctor the weak organ itself, and many of you know how temporary are the results. I give the weak organ power to do its duty, and the results are not only sure but enduring.

In little troubles my Restorative is the quickest help. In difficult troubles it is usually the only way to a cure.

CUT OUT THIS COUPON.

For we all resolve to send for something, but forget. Mark the book desired and mail this with your name and address to

Dr. Shoop, Box 47 Racine, Wis.

Book 1 on Dyspepsia	Book 4 for Women.
Book 2 on the Heart	Book 5 for Men (sealed).
Book 3 on the Kidneys	Book 6 on Rheumatism.

Mild cases, not chronic, are often cured by one or two bottles. At all Druggists.

STRIKE ON C. P. R.

Company Refused to Reinstate an Employe Dismissed for Cause.

Vancouver, B.C., Feb. 27.—All clerks in the telegraph, freight and passenger departments, checkers and truckmen, numbering 150, in the C. P. R. in Vancouver went out on strike here at noon to-day.

It is stated that all clerks between Vancouver and Winnipeg are out.

The company's version is that the Brotherhood demanded the reinstatement of an employe who was dismissed for cause, which the company refused.

The strikers assert their stand was taken on account of threatenings of dismissal of individual members of the brotherhood.

A NEW DEPARTURE.

A New, Effectual and Convenient Cure for Catarrh.

Of catarrh remedies there is no end, but of catarrh cures there has always been a great scarcity. There are many remedies to relieve but very few that really cure.

The old practice of snuffing salt water through the nose would often relieve, and the washes, douches, powders and inhalers in common use are very little, if any better, than the old fashioned salt water douche.

The use of inhalers, and the application of salves, washes and powders to the nose and throat to cure catarrh is no more reasonable than to rub the back to cure kidney disease. Catarrh is just as much a blood disease as kidney trouble or rheumatism and it can not be cured by local treatment any more than they can be.

To cure catarrh, whether in the head, throat or stomach, an internal antiseptic treatment is necessary to drive the catarrhal poison out of the blood and system, and the new catarrh cure is designed on this plan, and the remarkable success of Stuart's Catarrh Tablets is because being used internally, it drives out catarrhal infection through action upon stomach, liver and bowels.

Wm. Zimmerman, of St. Joseph, relates an experience with Catarrh which is of value to millions of catarrh sufferers everywhere. He says: "I neglected a slight nasal catarrh until it gradually extended to my throat and bronchial tubes, and finally even my stomach and liver became affected, but as I was able to keep up and do a day's work I let it run along until my hearing began to fail me and then I realized that I must get rid of catarrh or lose my position, as I was clerk in a store and my hearing was absolutely necessary.

"Some of my friends recommended an inhaler, another a catarrh salve, but they were no good in my case, nor was any thing else until I hear of Stuart's Catarrh Tablets, and bought a package at my drug-store. They benefitted me from the start and in less than three months I was completely cured of catarrh, although I had suffered nearly all my life from it."

They are pleasant to take, and so much more convenient to use than any other catarrh remedies that I feel that I cannot say enough in favour of Stuart's Catarrh Tablets."

Takes Back His Story.

Montreal, Feb. 27.—The parish priest of St. Eustache is authority for the statement that Belanger, the murderer of Seguin, has declared that his confession to Detective McCaskill was quite untrue.

Pope Has Severe Cold.

Rome, Feb. 27.—Notwithstanding a severe cold, which affected his voice, he Pope to-day received the diplomats, who congratulated him upon his jubilee.

BENEATH THE WAVES

Vessel Driven on the Rocks at Fuentenot Broke and Sank.

30 PEOPLE WERE DROWNED.

Furious Gales Swept Britain and Ireland —Church Lifted From Its Foundation and Thrown to the Ground—Storm Was Cyclonic and Death-Dealing in Its Force — Train Blown Over.

Brest France, Feb. 27.—The steam collier Otter Cape, from Newcastle-on-Tyne, was driven on the rocks at Feuntenot last night and broke up and sank immediately. It is believed that the crew and passengers, numbering 30, perished. Up to the present seven bodies have been washed ashore.

CYCLONE IN ENGLAND.

Several Fatalities and Great Damage Caused by Friday's Violent Storm.

London, Feb. 27.—A gale of almost unprecedented violence swept Great Britain thruout the night and did considerable damage. Telegraphic communication northward of Leeds was entirely interrupted, the continental service was interfered with, seek shelter in the harbors. Many minor wrecks occurred, and the lifeboats and rocket appuratus were busy all along the coasts.

There were several fatalities inland caused by falling chimneys and debris. Many houses were unroofed. The wind in the North of England blew with cyclonic force. The Lancashire mills and churches suffered greatly. The grand stand of the Lancaster Football Club was lifted bodily and deposited outside the grounds. Scores of shop windows at Liverpool were blown in and the goods scattered about the streets.

Great damage is reported from the coast resorts. A newly-elected church at Holyhead was lifted from its foundations and fell in a heap of ruins. A number of the supports of the suspension bridge over the Menai Straits, separating the Island of Anglesea from the Welsh coast, were carried away, and traffic over the bridge has been stopped.

At Ulverston, Lancashire, a passenger train was blown over, a number of passengers were injured, and ten cars were wrecked.

The gale swept over Ireland from north to south. At Cork, a three-storey building collapsed, burying fifteen persons in the ruins. One of them was killed and one fatally injured. Various coast points report vessels ashore. The rivers in the interior are flooding.

BRITAIN BUYS FOUR WARSHIPS.

Battleships and Cruisers to Be Added to the Fleet.

New York, Feb. 28.—The Herald has the following from London: A despatch to The Central News from Rome states that the Argentine Minister there has notified the shipbuilding firm of Ansaldo Brothers, at Genoa, that the armored cruisers Rivadavia and Moreno, now under construction there for Argentina, have been sold to the British Government. It is also announced in Rome that Chili has sold to England the two battleships in course of construction to the order of the Chilian Government at the shipyards of Armstrong & Co., and Vickers' Sons & Maxim.

No confirmation has been obtained here. Questions will be asked in Parliament next Monday as to the correctness of the report.

Why Papa Would Let Her Go.

Edith—Richard, this would be a good time to apply to papa for his consent. Richard—Is he in a particularly good humor? Edith—By no means. He is very angry over my dressmakers' bills, and would be glad of almost any excuse to get rid of me.—Sydney Town and County Journal.

SLAUGHTER IN CHINA.

All of 500 Soldiers Killed and Many Arms Taken.

Pekin, Feb. 27.—Advices received here to-day show that 500 imperial troops were caught on February 16 in an ambush in the Yang Ung Pass by the rebels of the Province of Kwang-si, South China.

All the soldiers were killed and the rebels captured large supplies of arms, which the troops were taking to the besieged garrison of Chi Yuen.

The official reports admit that the rebellion in Kwang Si is increasing and has spread over the border into Hunan. The viceroy of Hunan has sent troops to the boundary to check the rebels' advance.

MUNICIPAL OWNERSHIP.

Toronto's Mayor Says It Is Growing—The New York Conference.

New York, Feb. 27.—The second day's session of the national convention on municipal ownership and public franchises began yesterday with a discussion on "Municipal ownership of electric lighting plants." The affirmative was taken by Victor Rosewater of The Omaha Daily Bee, and the negative side by Lieut. Cahoon, Secretary of the National Electric Association. In the discussion that followed the debate, Edward B. Ellicot, city electrician, of Chicago, said the most important difference in conditions between public and private ownership is that a municipality does not have to earn dividends for stockholders, and, in most instances, on a greater valuation than the actual money invested would warrant.

Joseph E. Lockwood, President of the Michigan Electric Company, said: "Detroit's municipal electric lighting plant has been in operation seven years. Except Chicago, it is the largest municipal plant in this country. It will have paid for itself in the next three years, based on the lowest ten-year contract offer from a private company. Great improvement in the service is effected."

Mayor Urquhart of Toronto, said: "My impression is that public ownership views are being rapidly adopted. The corporations are alive to this fact, and are making strenuous efforts to combat them. Paid servants are attacking the principle in the press and on the platform.

In Toronto we have owned and operated our Waterworks for over a quarter of a century. A few years ago, after paying all expenses, including interest, Sinking Fund, and a considerable capital expenditure, there was a large surplus revenue, and it was decided to cut the rates in half, and, to-day, we have not only the cheapest, but the best water on the continent.

While nominally, the result shows a small loss, yet, if we eliminated capital expenditure, charged against rates, and certain other charges which should not be made against the water revenue, there really would be no loss. No one would think of handing over our water supply to a company.

Our Street Railway was taken over some years ago by the city, and a franchise or lease granted to a company for a period of 30 years. Last year, the city received $235,000 as a revenue from this source, besides taxes, and yet the company, although we have comparatively low fares, paid 5 per cent. dividend on over five millions of watered stock.

The city owns the Cattle Market, which is a source of revenue, is the largest owner of real estate within its limits, owns most of its wharves, is looking toward municipalizing the gas plant, and is taking up the question of developing and transmitting electric energy from Niagara Falls.

Toronto is alive to the benefits which will flow from public ownership of franchises.

NATURE'S BLESSING

Is Found in Health, Strength and Freedom From Pain.

The Gift is Meant for All—On it the Happiness and Usefulness of Life Depend—Without it Life is an Existence Hard to Endure.

Health is nature's choicest gift to man and should be carefully guarded. Ill health is a sure sign that the blood is either insufficient, watery or impure, for most of the diseases that afflict mankind are traceable to this cause. Every organ of the body requires rich, red blood to enable it to properly perform its life-sustaining functions, and at the first intimation that nature gives that all is not well, the blood should be cared for. Purgative medicines will not do this—it is a tonic that is needed, and Dr. Williams' Pink Pills have been proved, the world over, to surpass all other medicines in their tonic, strengthening and health-renewing qualities. From one end of the land to the other will be found grateful people who cheerfully acknowledge that they owe their good health to this great medicine. Among these is Mr. Elzear Robidoux, a prominent young man living at St. Jerome, Que. He says:—"For some years I was a great sufferer from dyspepsia. My appetite became irregular and everything I ate felt like a weight on my stomach. I tried several remedies and was under the care of doctors but to no avail and I grew worse as time went on. I became very weak, grew thin, suffered much from pains in the stomach and was frequently seized with dizziness. One day a friend told me of the case of a young girl who had suffered greatly from this trouble, but who, through the use of Dr. Williams' Pink Pills had fully regained her health and strength, and strongly advised me to try these pills. I was so eager to find a cure that I acted on his advice and procured a supply. From the very first my condition improved and after using the pills for a couple of months I was fully restored to health, after having been a constant sufferer for four years. It is now over a year since I used the pills and in that time I have enjoyed the best of health. This I owe to that greatest of all medicines, Dr. Williams' Pink Pills, and I shall always have a good word to say on their behalf."

Through their action on the blood and nerves, these pills cure such diseases as rheumatism, sciatica, St. Vitus' dance, indigestion, kidney trouble, partial paralysis, etc. Be sure that you get the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on every box. If you dealer does not keep them they will be sent post paid at 50 cents a box or six boxes for $2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

THE STABBING CASE.

Coroner's Jury on Death of North Bay Man Renders Verdict.

North Bay, Feb. 27.—The adjourned McDonald inquest was held this afternoon. The jury found, after viewing the body and hearing Constable Kinsella and Dr. Smith, who made the postmortem examination, that John McDonald came to his death by blood poisoning, superinduced by a knife in the hands of George Williamson, E. H. Shepherd, proprietor of the Queen's Hotel, was foreman of the jury.

Impersonators Sentenced.

Toronto, Feb. 28.—The referendum impersonation trials were resumed yesterday. Judge McCrimmon found a conviction in the case of Samuel Lewis, charged with impersonating Thomas Corbett, and imposed a penalty of one year in prison, with a fine of $400. Lawrence Shea, proprietor of the Windsor Hotel, was acquitted. The charge was that he procured Bernard Tyrrell to vote. Judgment was given in the case of J. D. Coulter, who was tried on Friday on the charge of procuring Robert Raynor to impersonate a voter. A fine of $100 and costs was imposed or three months' imprisonment in default of payment within 30 days.

Succumbed to Injuries.

Toronto, Feb. 28. — Mrs. John Hunt, 63 Elliott street, who was severely burned by the explosion of a lamp Thursday night, died at the General Hospital about 10 o'clock yesterday morning.

A Familiar Name

In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book author. He is blessed for the suffering he has relieved and the diseases he has cured; his remedies are used and endorsed by the best people in the land; they are popular because they cure when others fail.

PROPERTY OF THE COMPANY.

This Company has secured 10,000 acres of the choicest wheat lands in Assiniboia, Canada, having paid to the owners in addition to cash, 60,000 shares of its Capital Stock, for which the owners are completely equipping the property with all the necessary buildings, steam plows, steam threshers, drills, wagons, tools, fences, and everything necessary to operate the said 10,000 acres.

The Company's property will always be equipped with all the latest improved necessary machinery to produce wheat at the lowest cost. It is the intention of the Company to have its own elevator, of a capacity sufficient to store its entire production, thus enabling them to take advantage of the highest market prices from time to time. The market for wheat is unlimited.

The Company also has an option on 10,000 additional acres of the same character of wheat land as the 10,000 acres above mentioned, the property being located seven miles from the Canadian Pacific Railway, where large elevators are ready to receive the product.

This is an investment that will enhance in value as time goes by, not only from the large production of wheat, but the increased value of the Company's lands from year to year.

DIVIDENDS

Dividends of 15 per cent. per year, it is estimated, can be paid semi-annually, December 1st and June 1st of each year. Outside of the amount paid in dividends, the surplus earnings will be accumulated, and will either be divided among the shareholders as extra dividends, or used to purchase new wheat territory; or be otherwise employed as may be hereafter determined.

Send for the Illustrated Prospectus and Maps of the Company's Property, which will be Mailed Free on Request.

SUBSCRIPTION TERMS

The full amount of $5.00 per share must accompany the order. The right is reserved to allot a smaller number of shares than the amount subscribed for, in which event the balance of the money will be returned with the shares allotted.

Application will be made for a settlement of these shares on the London, Montreal and Toronto Stock Exchanges in due course.

MONEY MAY BE SENT BY POST OFFICE ORDER, EXPRESS, REGISTERED LETTER, OR BY CHEQUE.

Address all Communications, including Applications for Shares, to

The Trusts and Guarantee Company, Limited.

IMPERIAL LIFE.

A Year of Unexceptional Prosperity and Achievements.

Toronto • • The Executive Officials of the Imperial Life Assurance Company of Canada, report that the year just ended has been one of exceptional prosperity and achievements. It is a well known fact that the Imperial Life's past record has been unequalled in life assurance experience in Canada, but the most sanguine of its numerous policy-holders and active representatives throughout the Dominion will be surprised to learn of the following magnificent results:—Applications for assurances aggregated over $4,500,000; the policies actually issued exceeded the large amount of $4,000,000; cash income totalled over $500,000; the accumulated assets reached $1,650,000, while the entire policies of assurance in force exceed $13,500,000. It was also stated that the interest income from investments was again more than sufficient to pay all of the death claims of the year.

H. P. LINDSAY,
District Manager.
OFFICE—336 Market Arcade Peterborough.

UNION LABEL

Daily Examiner.

SATURDAY, FEBRUARY 28, 1903.

Notice!

I will be in the office at the old stand, 686 George street, from 11 to 12 o'clock each morning next week. All accounts must be settled at once to save costs. G. W. Powell. 1d

To be Ordained.

The Presbytery of Peterborough will meet in St. Paul's church on Tuesday, March 3rd, at 9 a.m. In the afternoon at 3 o'clock, T. W. Goodwill, M.A., a licentiate of the church, will be ordained to the Gospel ministry.

All Saints' Church.

There will be a celebration of the Holy Communion at 8.30, a.m., Sunday. Rev. W. L. Armitage will begin the morning series of Lenten Sermons on "Our Lord's Temptation." In the evening the subject will be "Christ Increasing—Self Decreasing."

Laid at Rest.

The funeral of Miss Betsy Knox took place yesterday afternoon from her brother's residence in Otonabee, to Little Lake Cemetery, and was largely attended. Rev. J. A. Wilson of St. Paul's church, conducted the service, Rev. D. D. McDonald, of Keene, also taking part.

Miss Delaney's New Millinery.

In addition to her regular expert staff of millinera, Miss Delaney has engaged the services of Miss Wright from the city. She comes specially recommended for her originality and style in artistic trimming and is conversant with the treatment of American ideas of millinery construction.

SOCIAL AND PERSONAL.

Prof. Goodwin left for Belleville, on the 2.05 train.

Mr. W. S. Stubbs, of the S. P. S., Toronto, is in town over Sunday.

Mr. Wes. Milburn, of Trinity Medical College, is spending a few days in town.

Miss Florence Miller will sing at both services at St. Andrew's tomorrow.

Miss A. M. Smith, of Montreal, is visiting at the home of Mrs. John Delaney, corner Brock and Downie streets.

Mr. Fred J. Sullivan, of Sullivan Bros., Mount Pleasant, Michigan, is on a visit to Peterborough, after an absence of a number of years.

Miss Delaney returned home from a business visit to Toronto on Friday, and intends leaving for New York on Monday, where she will be absent for two weeks.

NEWS NUGGETS.

—The Junior Boys' Guild of St. Andrew's church, meets to-night at 7.15.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—A regular meeting of the Board of Education will take place at the Board Room on Monday next, March 2nd, at 7.45 o'clock.

—Mr. George Lee will lead the meeting at the Y.M.C.A. on Sunday at 4 o'clock. Subject, "The Greatest Hero." All men cordially invited.

—Mrs. Waddell's class of St. Andrew's Sunday School will hold its annual 17th March entertainment, when an excellent programme will be given.

—Letters of administration have been granted to the Trusts and Guarantee Company, Limited, in the estate of William Walker Greenwood, late of the city of St. Catharines, who died in December last. Mr. Greenwood was a druggist in St. Catharines and left an estate of about $25,000, consisting of his business, real estate and mortgages.

Sermon to Children.

At St. Paul's church to-morrow morning there will be a special sermon to the children.

New Spring Veilings.

Miss Delaney has opened out some pretty and striking novelties in new spring veilings. Ladies are invited to call and see them. dtf

W. C. T. U.

The Monthly meeting of the W. C. T. U. will meet on Monday, the 2nd of March, at half past 3 o'clock, in the Y.M.C.A. building. All members requested to be present.

George Street Methodist.

There will be a fellowship meeting in George street Methodist church to-morrow morning at 10 o'clock. All are welcome. Enrollment of new members immediately after morning service.

Charlotte Street Methodist.

The Rev. S. L. W. Hearton, of Toronto, will preach to-morrow morning. In the evening the pastor will take for his subject "Revivals." Special meetings during the week at 7.45 p.m. All are welcome.

St. Luke's Church.

The Rector will preach at both services to-morrow. The subject for the morning sermon is,—"Christ the Evangelist," for the evening sermon, "True Freedom vs. False Freedom." The course of evening addresses which Mr. Langfeldt intends giving are especially helpful and prepared for young people. The members of the W. A. will attend Holy Communion to-morrow in a body at noon. Next week the Rector begins special services to be held in the School House every evening at 8 o'clock, except on Monday and Saturday.

Remember Your Sunday Reading.

In addition to an attractive selection of Sunday reading to-night at the Peterborough Bookstore, shoppers are reminded that the March numbers of the new illustrated periodicals and newspapers, are bright and interesting. The following are among the new books that are selling well:

Sons of the Sword, by Margaret L. Woods.

By Dulvercombe Walter, by Harold Dallings.

A Coin of Edward VII, by Fegus Fume.

Under the White Cockade, by Hellivel Sutcliffe.

A. H. Stratton & Co.

PETERBORO' DEFEATED PORT HOPE.

Exciting Game Played Last Night.

THE ICE WAS VERY HEAVY

The Individual Play of the Home Team.

Whitcroft Left the Ice With a Sprained Knee—The Referee—Large Number of Spectators Was Present.

A most exciting and clean game of hockey was played in the Brock street rink last night between Port Hope and Peterborough.

It was the first of a series of home and home games between these two teams for a $70 trophy. The score at half time was 1 to 0 in favour of the home team, and that aggregation increased its score to four goals while the visitors tallied only one.

Although other matches at the Brock street rink, with, perhaps, more at stake, have had a larger attendance, the number of spectators was most encouraging, and enthusiastic in applause when ever deserved, either by a local or a visiting player.

On account of the considerable rise in temperature the ice was rather soft, and greatly hindered the velocity of the shots, which the home team kept on making, but in spite of this serious drawback, the game was fast, and above all, as clean as one might wish to witness. The Peterborough team played with confidence and an earnest desire to win, and for the fulfilment of this wish dished up a very neat combination game.

Taking the Peterborough team, one might say that Comstock, in goal, played a good clean game, whenever his services came into use, which was, however, not often. Glover, at point, played a brilliant game, clearing time after time, and stopping many dangerous rushes. H. Armstrong, as cover point, played his usual, hard, steady game, and as has been always the case, proved to be one of the main props of the home team. Whitcroft, who had to leave the ice during the first half on account of a sprained knee, was doing very aggressive work up until his retirement. Morgan was to the front with his usual steady game, and starting a combination whenever there was the slightest chance. Cavanah played a strong, steady game, and used his weight with great effect. His following up on two occasions resulted in a score. Roy Armstrong was, perhaps, the star of the Peterborough team. His individual rush in the second half resulted in a score.

The Port Hope team played a good, steady, energetic, defensive game, and their goal keeper, Mercer, is to be congratulated on the magnificent battle he put up throughout the evening.

Mr. Hugh Rose of Toronto, officiated as referee in a most satisfactory manner.

Continued and loud applause was heartily given to the boys on the magnificence of their victory and play.

The following are the names of the players:

Goal.
Comstock ..... Mercer
Point.
Glover ..... Roach
Cover Point.
H. Armstrong ..... Brown
Rover.
Whitcroft ..... Boney
Centre.
Morgan ..... McMillan
Left Wing.
R. Armstrong ..... Masterson
Right Wing.
Cavanagh ..... McCarthy

NOTES.

It is admitted by every one who witnessed the game, and also by the vanquished team that Mr. H. Rose, as a referee was most impartial and just, and that it was the better team of the two that came out victorious.

Mr. Hugh Rose, who refereed the Port Hope-Peterborough game, while in town, displayed much interest in the Trent Valley League game, which was in progress in Norwood last night. Mr. Rose asked if the Trent Valley series was going to last until July 12th.

To balance the teams, Brown, of the Port Hope team, went off the ice after Whitcroft retired on account of the sprained knee.

The game at certain periods was a lifting competition between Roach, the visitors' point, and H. Armstrong, the cover point of the home team, and one in which the two players were very evenly matched.

After the match had been concluded members of both teams had an excellently served supper at Harry Long's.

Roach gave an exhibition of, perhaps, the best lifting defence ever witnessed on the local ice.

Owing to the soft spell the ice was so sticky that the handling of the puck was quite out of the question.

The gate receipts of the game were more than expected.

The performance of one of the goal umpires, whenever the puck ventured near that sanctum, was most amusing, it reminded one of a cat trying to walk on hot bricks.

PETERBOROUGH MARKETS.

A Very Poor Market on Account of the Weather.

Owing to the inclemency of the weather and the bad condition of both town and country roads, farmers were unable to come to town in their usual strength of numbers, and consequently the market this morning was a very small and poor one. There not being much opposition prices were on the whole rather higher than usual. Eggs were from 15c to 16c, turkey from $1.50 to $2.50, geese from 90c to $1.00. Butter was considerably higher than last week, as much as from 22c to 25c being asked for it. If the weather changes for the best, the markets next week, it is expected, will be much better than to-day's.

LATEST IN SPORTING CIRCLES

Norwood vs. T. A. S. Tie May be Played Here.

St. John's Choir Boys Defeated by Grove School—Review vs. Examiner Match Postponed—Other Sports.

The result of the game in Norwood last night leaves Peterborough T.A.S. and Norwood a tie, so far, in the Trent Valley League series. Should T.A.S., as is most likely, defeat Fenelon here on Monday night, and should Norwood succeed in winning from Fenelon in the Cataract town on Thursday night of the same week the two teams will still be a tie for the championship of the League. At an executive meeting of the League a week or two ago it was decided that in the event of a tie between T.A.S. and Norwood, the final sudden death game should be played in Lindsay. The Examiner is in a position to state however, that the tie will most likely be broken in the Brock street rink, Peterborough. The Secretary of the League this morning opened negotiations with Norwood with a view of having the match played here and while all the details of the proposition have not been settled, it is quite certain that the big event will be pulled off here.

The reasons advanced for the change are that Norwood can bring more supporters to Peterborough than to Lindsay; the size of the ice is nearer that of the Norwood rink than it is the size of the Lindsay rink, and there will be larger gate receipts. By long odds the event of the season in hockey circles is yet to come.

HOCKEY.

FENELON FALLS VS. T.A.S.

The result of the championship of the Trent Valley League depends a good deal on the result of the game between Fenelon Falls and the T.A.S., of Peterborough, which is to take place in the Brock street rink on Monday night next at 8.15 o'clock. It is absolutely necessary for the T.A.S. team to win this match if they wish to carry off the championship. If the individual players play up to their usual mark the two teams will be very evenly matched and the game should be a most exciting and fast one. On account of the interest attached to the game a very large number of spectators is expected to witness the local team either win or lose, as the case may be. Unless Fenelon Falls springs a surprise in shape of some exceptionally good new player it is thought in local sporting circles that the T.A.S will uphold their honour, regain their somewhat marred prestige and ultimately win the championship in the Trent Valley League.

REVIEW VS. EXAMINER MATCH.

A representative from the Review came into the Examiner office this morning, asking that the match between the two printing establishments be postponed. The reason given was the bad condition of the ice, but the Review has "flunked" so often that the reason stated is not, in this office, looked upon as being very satisfactory. The Review Devil is reported to have given up his position as trainer, because he was not allowed to run the sporting column.

CHOIR BOYS' MATCH.

At the Brock street rink on Thursday afternoon an exhibition game was played between The Grove Preparatory School, Lakefield, and the local St. John's choir boys' team. The ice was in first class condition, and for such a game the number of spectators was comparatively large. For youngsters the game was a very good one indeed; individual play was good, but combinations were, if anything, few and decidedly weak. At half time the score was 3 to 2 in favour of the visitors, and the northern boys succeeded in scoring a final victory by 5 goals to 4.

The following are the names and positions of the players:

Lakefield — Goal, Casey; point, Pearce; cover point, Van Allen; forwards, Hunter, Anderson, Seagram, Strickland.

Peterborough — Goal, F. Sawers; point, Mulbern; cover point, R. Hall; forwards, E. Weller, J. Seymour, C. Ray, A. Campbell.

Mr. J. A. McPherson of the local Bank of Montreal, handled the bell with remarkable precision and impartiality.

CURLING.

LAST NIGHT'S GAMES.

The ice at the Charlotte street curling rink was not in as bad a condition as might have been expected, but owing to other attractions in the shape of hockey matches and the like, the number of players was few but the enthusiasm displayed was the same as ever.

The two following scratch matches were played:

G. Kerr,	C. Winch,
	H. Snowden
T. Rutherford,	A. Blade,
R. J. Frost, sk...10	Dr. Greer, sk.9
G. H. Giroux,	J. Bogue,
R. H. Bradburn,	D. Hall,
J. Jeffries,	W. G. Morrow,
R. Kerr, sk.....14	T. Brightman, sk.9

The probabilities indicate another cold spell and the ice is expected to be in the best of condition for play on Monday night.

BASKETBALL.

At the Y.M.C.A. to-night there will be two matches. The Maple Leafs will play the Harriers, and for the Intermediate championship, the Arrows and the Beavers will be matched against each other. Before the game there will be tumbling, wrestling, etc., and some musical selections. The umpires will be Mr. W. Campbell and Mr. Norman Miller.

"Hardwood Reduced 80s per Cord.

On account of hard coal coming forward more freely, we have decided to reduce the price of hard wood fifty cents per cord until further notice. Fresh shipments of egg, stove and nut coal, Butt's cannel coal for grates. Prices of superior grade soft coal reduced. R. Hicks & Co., corner Murray and Bethune streets. Phone 48.

The fine weather calls for a new purse and a new shopping bag. You will get the best value in 25c and 50c lines at Salisbury's. Their new lines are marvellous value.

THE CANADA LIFE.

On Another page will be found the report of the fifty-seventh annual meeting of the Canada Life Assurance Company, held in Toronto this week.

The report furnishes ample evidence of another year of steady progress, even when measured by the Canada Life's high standard. The actual business done footed up the largest in the company's history — representing $8,500,000 of new assurances. The total assurances now in force amount to nearly $90,000,000, being an increase during the year of $4,765,802.

Turning to the assets of the company, we find an increase during 1902 of $1,423,009, and the total now stands at $25,965,009. After providing for reserves and all other liabilities, except capital stock, there is a surplus on policy-holding account of $1,631,718, being an increase during the year of $483,012.

Altogether the business of this splendid Canadian company continues to be of the most gratifying character. The president, Hon. Geo. A. Cox, made the striking statement at the meeting that, after the payment of all expenses of management and taxes, the company had paid or credited to policy-holders, since its inception, over $6,730,000 in excess of the amount actually paid by them.

Leaving Town.

Mr. W. H. Gordon, grocer, corner George and Brock streets, is selling out his whole stock, preparatory to leaving town. Handbills, announcing the sale, state that he has other interests out of town pressing for his personal attention. The sale offers some splendid chances to by groceries and provisions cheap.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

DISTINGUISHED GUEST.

Chief Justice Moss has Accepted Local Invitation.

Chief Justice Moss, Vice-Chancellor of Toronto University, has accepted the invitation of the local Toronto University Alumni Association to be present at their dinner on Friday evening next.

Special Meetings.

Special meetings will be held at the Park street Baptist church, commencing on Monday, March 2nd. Rev. Mr. Phillips of Toronto, will preach every evening during the first week, and for the second week Rev. A. E. St. Dalmas will be present to assist. All who may be able to attend these meetings will be heartily welcome each evening. The meetings will open at eight o'clock, and will be held each evening except Saturday. To-morrow the pastor will preach in the morning, and in the evening Rev. Mr. Bastow will conduct the service. All are welcome.

Physicians say nothing is so helpful for throat and lung troubles, whether acute or chronic, and for wasting diseases, as Angier's Petroleum Emulsion with Hypophosphites. It is pleasant to take and agrees with the stomach.

It relieves congestion and irritation, soothes and heals the bronchial tubes, makes breathing easy, changes the character of expectoration, and cures the cough. Its effects are rapid. It aids digestion, helps assimilate the food, and has a healthful action upon the bowels. Pills and aperients are unnecessary.

I was troubled with bronchitis for ten years, being frequently unable to work for months at a time. I tried many remedies with poor results. I used Angier's Petroleum Emulsion, and feel like a new man. I have not been so well for many years. Albert Welz, Toronto, Canada.

Angier's Petroleum Emulsion is sold by druggists everywhere. Remember the name and refuse anything but Angier's. Large size, $1.00. Small, 50c.

ANGIER CHEMICAL COMPANY, BOSTON, MASSACHUSETTS, U.S.A.

NORWOOD DEFEATED T.A.S. BOYS

Good Game in the East Riding Capital.

HOCKEY ON A RAINY NIGHT

The Score at Full Time Was Seven Goals to Four.

Special Train From Town Brought Down 300 Passengers—A Large Crowd Present at the Rink.

Between three and four hundred people accompanied the T.A.S. hockey team to Norwood last evening by special train and saw their team go down to complete defeat at the hands of the husky septette of the East Riding Capital.

The Palace rink in the village, which by the way is a large one and affords poor seating, or even standing accommodation for spectators, was packed to the entrance with a gathering of all ages and sexes. Contingents were present from all the surrounding villages, side-lines and concessions. Young men were there with their sweethearts, and grey haired old men occupied positions of prominence and gazed with open-mouthed astonishment, at what was no doubt the first game they ever witnessed. And they all supported Norwood colours, and when the villagers scored, and they did that same seven times, the rink rang with whoops and cheers.

To the victors belong the spoils, and Norwood in winning out by a score of 7-4, deserved the victory. They played superior hockey, and their combination work was of the 18-karat order. Their forwards were liberal in their distribution of the puck, and their rushes were cleverly manipulated, and genarally resulted in a game. The exercise of good judgment and the display of clever generalship on the part of the players told wonderfully in their favour. True they had the advantage to a certain degree owing to the soft condition of he ice, and being the heavier team, but it must be conceded by all that they won because they played the better hockey.

The T.A.S. team last night relied too much on individual work, which is only a waste of energy and time when two fast hockey teams are battling for honours. The forwards indulged in too much puck-hugging and individual work, and did not pass when splendid opportunities were presented for them to score. The local seven will certainly have to discard individualism and adopt more effective combination work in the future if they wish to figure in the coming contests. The day of one-man play has been relegated to oblivion as far as hockey is concerned, and the team that adopts this style of play is bound to go down to defeat. True, the T.A.S. team changed their tactics in the last half, and excelled their opponents in good scientific hockey, in which excellent combination work figured, still it was too late to redeem the mistakes of the first half. The boys took their defeat philosophically and with good grace, and feel confident of coming out all right should the series result in a tie.

As regards the game it was certainly not a brilliant and scientific one and could not compare with the contest last Monday evening on the Brock street rink. This can probably be accounted for from the fact that the ice was not nearly so good for hockey. In the first half Norwood brought joy to the hearts of their rooters by going in to score from the face-off, and the way they located the nets made the supporters of the red and black wear anything but a cheerful countenance, and it certainly looked as if a huge score would be run up, as the first half ended 6-2 in favour of Norwood.

In the second half the things assumed a different aspect and a better class of hockey was put up by both teams. Norwood was only able to score once in this half while the T.A.S. septette added two more to their pile. When time was up and the struggle ended the score stood 7-4 against the locals.

The game was a clean one in every particular, although several players on both teams decorated the uprights during th estruggle for being too zealous in their efforts to bring fame to their colours. It is not very often a goal keeper is given a rest, but last evening Fife who guards the nets for Norwood assumed an attitude in the nets which brought down upon his head the punishment of the referee. He get down on his knees to block with the hockey stick stretched across the nets, which is a violation of the rules.

Referee Schooley's work last evening is deserving of every praise. This gentleman has achieved a provincial reputation for being a fearless and honourable official and he certainly added to his good record by his splendid work in Norwood. Both teams were delighted with his rulings and decisions and the spectators showed their appreciation of his efforts to foster good clean hockey by cheering him occasionally during the evening.

The following was the line-up:—

T.A.S.—Goal, McCoy; point, Meagher; cover point, W. Crowley; forwards, Lynch, George Parnell and McGrath.

Norwood — Goal, Fife; point, Pearce; cover point, Nicholl; forwards, Miller, Kempt, Rathwell and Pearce.

The T.A.S. and Fenelon Falls play Monday night in Brock street rink and should the Total Abstainers win and Norwood prove the victors over Fenelon Falls in the Cataract Village, they tie in the race for the championship with T.A.S.

AS TOLD BY ANOTHER.

The Examiner's Norwood correspondent sends up the following account of the game:—

The second match of the finals in the Trent Valley League was played in Norwood last night between T. A. S. Peterborough and Norwood. A special train of seven coaches came down from Peterborough bearing the T.A.S and their supporters which numbered not a few. The train was rather late in arriving, consequently the puck was not faced off till 9.15 o'clock. There were about 700 people witnessed the match, including people from Peterborough, Havlock, Hastings, Norwood, Warsaw and Keene. The receipts were about $164.00. The ice was in very good condition, considering the softness of the weather. The score at half time was 6-2 in favour of Norwood, whilst the score at full time was Norwood 7—T.A.S.

The excitement was at fever heat when the bell rang and as the players started to rush after the puck. The spectators however gradually collected themselves enough to watch and cheer when their respective sides did any brilliant playing, especially so if the brilliant playing landed th epuck in the nets. The playing in the first half was principally around Peterborough goal. The T.A.S. seemingly could not work a combination affording no opportunity to test the ability of the Norwood goal keeper. After a few momments playing Miller passed the puck to Kempt and Kempt passed it to the nets counting one for Norwood. It scarcely seemed any time till Miller got the puck and put it by the goal tender again. Score No 2; T. A. S. 0. The T.A.S. tried to stop this sort of work but failed. Rathwell passed the puck to Miller, who with another brilliant shot scored the 3rd for Norwood. At this juncture Meagher of the T.A.S. decorated the fence for violating the rules. Peterborough at last came in for a small finger in the pie, landing the puck safely in Norwood goal. Here Nicholl had to be deciplined and while under the ban, Kempt with the aid of Rathwell again did the trick. In less than a minute Miller scored still again. The play now got down around Norwood goal and for a breach of the rules the Norwood goal keeper became a spectator. Before half time was up Parnell tallied for Peterborough and Norwood scored once more, making the score at half time 6-2. In the second half the T.A.S. men started out when determination to do or die, and for some time kept Norwoods defence busy. T.A.S. got a little more science in their play and worked in some pretty combination work also; the forwards making several brilliant rushes, but they were checked hard and close by Norwood defence. Miller broke his skate and McGrath went off till the damages were repaired.

The third game for the T.A.S. was scored by a piece of combination work Lynch passing to George who placed it in the net. Norwood's point man, Pearce, was given a short vacation for missing the puck and getting the man. Then again Norwood added another to their score.; and shortly after Parnell scored again for T.A.S., ending the game the score being 7-4 at the finish. Both teams were in good form, but Miller is deserving of special mention. The Referee gave entire satisfaction.

"77" FOR GRIP

"77" PREVENTS PNEUMONIA

The effective treatment of an ordinary "Cold" is a matter of a day or two against a possible subsequent sickness for weeks.

The indications of a severe attack of influenza are headache, chilliness, general muscular pains, fever, sore throat, cough and systematic lassitude.

It is folly to risk Grip or Pneumonia, when the use of Dr. Humphreys' "SEVENTY-SEVEN" will prevent and cure Grip and Colds. The best results are obtained by keeping "77" handy (it fits the vest pocket) Taken early, it cuts it short promptly. Taken during its prevalence, preoccupies the system and prevents its invasion. Taken while suffering, relief and cure are speedily realized. At Druggists, 25c., or mailed.

Humphreys' Homeopathic Medicine Co. Corner William and John streets, New York.

GENERALLY SPEAKING

THE BOARD OF HEALTH has done well in its action in dealing with the contagious diseases provisions of the Health Act but they must not conclude that with the stamping out of contagious diseases, they have earned a holiday. There is much serious work yet to be done. The deep-lying sanitary conditions of the town must receive attention. Defective and unsanitary plumbing is a most fruitful source of disease, all the more dangerous because its work is silent, and insidious, and may be done with fatal effect before the sufferers are aware of the lurking danger. The Board should stir up the Council to action in the direction of enacting an effective and modern plumbing bylaw, fully abreast of the latest improvements in sanitary appliances. So long as hap-hazard plumbing work is allowed, so long the penalty of cheap plumbing—without regard to durability and effectiveness — unsanitary conditions — ill-health, disease, be exacted. This is a most important matter in which, not only, the comfort, but the health and life of our citizens are at stake.

• • •

THE TOWN is getting at that stage of growth and importance that it is necessary to provide for the conditions created by larger population. Though we are only a town in name, yet in reality — in population, in commercial and industrial importance — we are a city, and we must provide for city conditions. The methods, in many respects, which were permissible, in our town stage of life, are unsuitable in our enlarged condition. Those who have grown up with the town do not, perhaps, realize the change, but the change has come, and whether we realize it or not, Peterborough is, in reality, a city, with city needs—needs for city standards of civic requirements. This condition brings up for solution several problems which our aldermen have to deal with, and as pointed out above, one of the most obvious is to provide as perfect sanitary conditions as possible. The better the town is in these respects —the better its attraction as a residence, the greater the influx of population.

• • •

MUNICIPAL UNION has again become a live question, all the more important because it involves the question of Peterborough becoming an incorporated city. Whether it is wise to take this step is a question to be considered and decided. And this, of course, involves the question of the union of Ashburnham and the town. With this effected, we should have a population of 13,039. And when we consider the large increase of population to come from the enlargement of the works of the Canadian General Electric Company — about 1,000 within the next year or two—we shall have a total population of about 15,000, with which to enter cityhood, if the assumption of such a dignity is considered by the interest concerned, to be desirable.

• • •

ASHBURNHAM may not be willing; it is known that some of the citizens do object and for not very good reasons. Some shy,—"We're afraid if we join Peterborough the town will raise our taxes." "Our taxes!" There won't be any "our" or "your" in the matter of the municipalities. Like man and wife they will be one, with common interest, common privileges and no distinctions. Our manufacturers need expansion. With the new sites for factories that will be added to Peterborough, if Ashburnham is united, there will be room for expansion. The available sites for factories on this side of the river are pretty well taken up, while there are plenty on the other side of the river, with which Peterborough, in the present state of municipal relations, can have nothing to do.

• • •

THE ACCIDENT to ex-Alderman Dawson shows that the slippery condition of the streets leads to dangerous happenings, and the more the streets are allowed to be used for coasting, the greater the danger. It may be argued that there is no necessity to take action in this direction because there is so little of the winter remaining—a specious argument. Mr. Dawson went safely over the slippery streets all the past months of the winter, but at a time when it was thought the period of danger is past, he becomes incapacitated for months. The practice of coasting is dangerous both to the boys and the public. Not only is the street or walk made dangerously smooth, but there is danger of serious collisions. A coasting-boy coming at break-neck speed down a hill may easily crash into a passing vehicle at a street intersection, with decidedly serious results. Because the winter is nearly over is no reason why action should not be taken.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 36

Odd Lots Writing Pads Cheap.

Have you seen our north window? Don't let such a chance pass. Silurian paper in pads, former price 15c, now only 5 cents. Letter paper pads, former price, 25 cents; now two for 25 cents. Seeing is believing. Have a look, and invest a few nickels in these odd bits of writing pads at the cut rates.—A. H. Stratton & Co.

MARMALADE.

Fine bitter Oranges are now in. Also nice, bright skinned, sweet Oranges suitable for using with the bitter ones. These are very cheap. First-class cooking Figs at 8c per lb. at S. A. OKE'S, 376 George street.

QUEEN'S UNIVERSITY ALUMNI

Association was Organized Last Evening.

Professor Goodwin Dean, o the School of Mining.

The graduates and friends of Queens University in this vicinity met last night for luncheon in Harry Lang's parlors to meet Professor Goodwin and to organize an association.

Those present were Hugh Waddell, Esq. and Mrs. Waddell, R. M. Dennistoun, Dr. Harrison, Rev. J. W. McIntosh, Donald Potter, Miss I. M. Best, Rev. Wm. Kannawin and Mrs. Kannawin, Lewis Thornton, R. M. Waddell, George Cowan, C. F. Henderson and Rev. J. G. Potter, Mr. R. E. Wood, Crown Attorney, representative Toronto University.

Regrets were received from Hon. J. R. Stratton, member of the Advisory Council, of the School of Mining, Kempton, Dr. Bingham, Dr. McGrath, Dr. Amys and Rev. Messrs. D. D. McDonald and Chas. Campbell.

After luncheon Mr. R. M. Dennistoun as chairman expressed his pleasure at the presence of so many graduates and friends of Queen's, and referred in happy terms to the presence of lady graduates and the company of Mr. R. E. Wood.

Mr. Potter was then called upon and explained the purpose of the gathering. He spoke in warm terms of what had been done for the University by Principal Grant and Professors Dupins and Goodwin with other associated professors and made reference to the stately pile of buildings that now covered the campus.

He paid some tribute to the generosity of Mr. Hugh Waddell, who had assisted materially in building up the University in example and practice.

Professor Goodwill then occupied the time in discussing the question of Forestry and its relation to University Education and to the country at large.

At the conclusion of the address the meeting expressed its hearty approval of the Professor's visit and on motion by Rev. Mr. Kannawin the enthusiastic appreciation of the Alumni was shown.

Organization was then proceeded with and the following officers were elected:—

Hon. President—Principal Gordon.

Hon. members—Mrs. Hugh Waddell, Miss I. M. Best, B.A., Mrs. Wm. Kannawin, B.A.

President—Hugh Waddell, Esq.

Vice-President—Rev. J. W. McIntosh, M.A.

Secretary-Treasurer—Rev. J. G. Potter, B. A.

Executive—R. M. Dennistoun, B.A., D. Amys.

It was unanimously resolved to send the greetings of the infant organisation to Principal Gordon.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

STRICKEN WITH PARALYSIS

Could scarcely walk or talk—Legs and arms were paralyzed—Could do no work of any kind—

NERVOUS SYSTEM COMPLETELY EXHASUTED

People surprised to see him around again, a living witness to the marvellous up-building influence of DR. CHASE'S NERVE FOOD.

MR. JAS. A. DEAL

Mr. Jas. A. Deal, a respected resident of Bridgewater, N.S., writes:—"About a year ago I suffered a stroke of paralysis, which left me in a very bad state of health. To add to my troubles, last winter I took la grippe, which completely exhausted my nervous system. I could scarcely walk or talk, my legs and arms were partially paralyzed, my blood did not circulate properly, and I could not do any work. In fact, I was so bad that the **doctors gave me up and thought I could not live through the summer.**

"I began the use of Dr. Chase's Nerve Food, and persevered in the treatment, until now I am at work again. The change in my condition has been most remarkable. It is a surprise to everyone to know that I am able to be around again. My nervous system has been **built up wonderfully** by this remedy. I am able to rest well, my circulation is normal, and my general health good. My appetite is first-class, and I have **gained considerably in flesh**

"The results I have obtained from Dr. Chase's Nerve Food have been most gratifying, and I have no hesitation in stating that I believe I owe my life to this preparation. I am willing that you publish this letter, with the hope that it may be the means of helping others to regain their health."

DRUGGIST CERTIFIES.

MR. B. H. PORTER, Druggist, Bridgewater, N. S., certifies to this extraordinary cure by Dr. Chase's Nerve Food and states that at one time **"no one expected Mr. Deal to live for a month."**

DR. CHASE'S NERVE FOOD

Like other nervous diseases paralysis and locomotor ataxia are slow in coming on and dreadful in results. The warning comes by way of headache, sleeplessness, twitching of the muscles, irritability, nervousness, impaired memory, inability to concentrate thoughts, and general weakness. Then is the time to prevent the further development of nervous exhaustion by the use of **Dr. Chase's Nerve Food.** By increasing the quantity and quality of the blood it

CREATES NEW, VITAL NERVE FORCE,

adds firm flesh and muscle and builds up the system. Patient treatment is necessary for all nervous diseases, but by weighing yourself while using this great food cure you can prove its marvellous power as a restorative. 50 cents a box, 6 boxes for $2.50. At all dealers, or EDMANSON, BATES & CO., TORONTO.

JUDGMENT RESERVED

Case Against Bell Telephone Company's President.

THE EVIDENCE CONFLICTING.

What Were the Terms Offered by the Company?—Movement to Indict the Bell Telephone Company on Strength of the Testimony Adduced Against Mr. Sise at Whitevale.

Locust Hill, Ont., Feb. 28. — The case against President Sise, of the Bell Telephone Company, went on yesterday morning before Magistrates Davidson and Parker.

Col. Farewell, after reviewing the evidence, held that the people had made out a case and asked for the committal of President Sise to a higher court.

Mr. Lynch-Staunton, K.C., replied for President Sise. He said he could scarcely believe that the Crown Attorney was serious in asking for committal. The proposition was absurd. Throughout he insisted that the evidence was entirely irrelevant to the charge.

The First Witness.

"The impression I got from Mr. Scott was that if we got a line from them we would have no trouble getting into Locust Hill station," was what A. C. Reesor said of his conversation with Mr. Scott, the Bell Company's special agent. "If we did not get a 'phone from them we would not get in, I understood."

Mr. Staunton, who appeared for Mr. Sise, asked if shippers were not always notified by postcard when their cars arrived, and the reply was that it took a day and a half at least for the postal to travel.

"Better indict the Postmaster-General," said Mr. Staunton.

Thomas Beare, reeve and general merchant at Whitevale, and another independent telephone subscriber, said that Special Agent Scott had given them to understand that their independent line would be of no use as they could not get connection at Locust Hill or Markham. "The inference was," said Mr. Beare, "that it would be all right if we let them build that line for us, the agreement between the Bell Company and the C. P. R. not being mentioned." Mr. Beare said a postcard addressed at Locust Hill to Whitevale went first to Toronto, then back to Markham, and then to Whitevale, so that a postal service would not do in place of a telephone.

Harriston Johnston, proprietor of the Whitevale hotel, and the owner of one of the independent telephones, said that he and Mr. Hurd took over a telephone to install it in the C. P. R. station, but they were not allowed to do so. The agent said the authorities would not allow it. The 'phone was used once at Locust Hill, being carried out of the station and attached to the wires. A telephone was greatly needed at Locust Hill, as there was more business at that point than at any place between Toronto and Havelock.

Special Agent Scott's Evidence.

W. C. Scott, of Napanee, special agent for the Bell Telephone Company, gave formal evidence as to the connection of President Sise. Mr. Scott did not know anything about the monopoly agreement between the Bell Telephone Company and the C. P. R. He did not know who had charge of vetoing the operation of independent lines.

"There used to be a society in the United States called the 'Know Nothings,'" commented Crown Attorney Farewell, "and they all died."

Mr. Scott said he had told Messrs. Hoover, Reesor and Beare that his company would sell them material for the line they proposed to build, and advised them as to making arrangements giving them connection at Locust Hill station with the Bell line at Markham.

"Then," said Mr. Scott, "I learned that they were already committed to another company, Mr. Hurd's presumably."

Mr. Scott denied having ever said that if the subscribers did not arrange with his company they would not be allowed connection with Locust Hill Station. And he had no knowledge of the reason why a line was not allowed there. The arrangement with Dr. Eastwood said nothing about his line going into Claremont station.

The Crown Attorney appealed for further information. "I'm afraid you are too deep in the hole to be helped out," said Mr. Scott. He said he had had no communication with President Sise.

"What are the only terms upon which these people can have connection with the Locust Hill station?" demanded Col. Farewell angrily.

"I know absolutely nothing about that," was the answer. Mr. Scott said it was impossible to connect the co-operative line with the Bell line and get an efficient service. He did not know who had tampered with the independent line; it might have been done for the purpose of saying it had been done.

The Eastwood Line.

"Did you not tell them they could get enter the C.P.R. station at Locust Hill?"

"I don't think—no, I did not."

"Surely all these gentlemen would not falsify?"

"Well, I swear positively that I never made such a statement."

"Now, about Eastwood's line and the 'phone put in the C.P.R. station at Claremont. What of it?"

"I arranged the deal with Dr. Eastwood, but it does not cover entrance to the station."

"How did he get his private line in?"

"I don't know."

"The mailed hand was for a time withdrawn?" facetiously enquired the Crown.

"I can't say."

"But you know how these connections are secured. Tell these people how to do it."

"That is not in my department. I close the contract, that is all."

Agent Scott's Opinion.

"Would this 'phone at the station be a facility for transporting or supplying or dealing in articles of commerce?"

"I can't answer that, as it is merely an opinion."

"You refuse to answer the question?"

"I cannot state an opinion."

"Answer the question or refuse."

"Well, I will say a connection would be a convenience to the people."

"What correspondence have you had with your officials in refusing this connection?"

"Don't know. I had nothing to do with it. I am only in the headquarters once a month. The secretary would know."

"Then, I am to understand that the only way the people can get into depots is to buy the equipment from you?"

"I did not say that."

"What are the terms they can get in on, then?"

"I don't know."

"Will you answer the question?" and Col. Farewell spoke sharply.

"Well, I should arrange it thru my head office."

The Exclusive Contract.

"You are a mighty busy man, doing nothing. Now, about this exclusive contract?"

"I never knew it existed."

"What, you never knew of it?"

"No. I never came in contact with it."

"Well, did it ever come in contact with you? You were in contact with this contract when you had the conversation with Hoover and others in this co-operative company?"

"No."

"Did you ever write or tell a railway agent not to permit an independent line to put a phone in a station?"

"No."

"Are your duties laid down in a book? What do you do? Who would know anything about your company—the general overseer of these railway agents?"

"I don't know: can't tell you."

"Oh, you can't! Well, that will do then." and Crown Attorney Farewell turned away with an air of great disgust.

On cross-examination, Mr. Scott said it would not be possible to connect the Bell system with this rural line, but failed to say why. He said another independent line, Dr. Eastwood's, worked with the Bell system because it had Bell instruments, etc.

The court inquired: "Have you instructions preventing you connecting these lines with the Bell?"

"No."

The court: "Can this company secure a connection with the Bell lines?"

"Yes, on our own terms. The Bell has no feeling in this matter, I am sure."

"You mean, when they buy all the material from you at your own prices?"

"Not exactly."

Agent Mason's Evidence.

R. A. Mason, a druggist of Markham and agent of the Bell Company, was an important witness. He said he was the Markham agent of the Bell. The question of the Locust Hill connection was familiar to him. He had talked the matter over. He admitted that the depot connection would be a good thing for the people in the rural district. He mentioned the case to Agent Stringer of the Bell. He told Stringer about the private line, and that they wanted Bell connections, but could not say what Stringer's reply was. There was no communication from the head office of the company. Mason denied that he told C.P.R. Agent Green the 'phone should not go into Locust Hill depot. Green had testified that one night Mason asked him if the rural 'phone was to be put in the depot. He said it was, and that the C.P.R. had not objected. The next day Green got positive instructions not to let the 'phone.

Mason said he went to see Agent Green on Masonic business, but Green, a brother Mason, had flatly contradicted Bell Agent Mason. The Crown Attorney read Green's evidence of Thursday to Mason, and asked him sharply to explain the discrepancy. The statement was: "Mr. Mason called one afternoon and asked 'Is the rural 'phone coming into your depot?' I said, 'Yes.' The next day I got a letter from my superior saying no 'phone must go into the depot on my existence." Mason said he did not recall the conversation.

Chaffey W. Stringer, district manager at Peterboro for the Bell, looked at the exclusive contract, and said he had never seen the instrument before, and had never heard of it until Thursday. He did not know of anything but Bell 'phones in the C.P.R. stations. He did not know why. The witness had never heard of the Locust Hill row until two weeks ago. He had nothing to do with the affair.

In Rebuttal.

Anthony Forster of Markham Township said he was a farmer, residing 1½ miles from Locust Hill Station. He is a member of the Co-operative Company, which he said he joined in order to be connected with Locust Hill Station; they expected also to get communication with Markham. The witness swore that the business of the section was being seriously restricted by the refusal of the Bell Company to permit the Locust Hill connection, and gave instances of the hardship this refusal entailed. He lost money and time frequently.

Albert Reesor was recalled and asked what Mr. Scott said concerning the exclusive contract and said: "We, the Bell Co., have a contract with the C.P.R. involving millions, and this phone can't go in the station without our consent. This was at the time Scott, the Bell special agent, was urging Hoover and the rest of us interested in the rural line, to let the Bell handle it and supply the material." Mr. Scott did not have the witness cross-examined.

Thos. Beare, the Whitevale merchant, was recalled to substantiate the same point about what Scott said about the exclusive contract. He recalled that Scott referred to a "contract or agreement with the C.P.R. involving millions, which would keep the rural line out of the Locust Hill Station, except with the consent of the Bell Company, and they could not be had unless Mr. Scott's company supplied the material and controlled the line."

Alpheus Hoover, president of the Co-operative Company, was recalled and verified the report of Scott during the talk the Bell agent had with Messrs. Beare, Reesor and himself. He said the talk lasted about an hour. Scott and Mason, the Bell men, had come to them to discuss the purchase of material for the line and the question of admission to the Locust Hill Station. As to the terms on which the Bell company would let the rural line into the depot, Scott had told them that had the rural company bought its supplies from the Bell Company it would have been granted entrance to the depot. "Scott also said there was an agreement with the C.P.R., made by the Bell Company, involving millions, which would exclude all other telephone lines except with the Bell's consent." Stringer and Mason, Bell agents, called at my office two weeks ago. Mason said: "How would it be if the Bell Company would now give the rural company a switch at Markham and let them into the Locust Hill Station?" I told him that was what we wanted at first, but now it was too late; that we would press this case. Mason also said to me that no independent 'phone could go into the same building with the Bell telephone. I asked, as an illustration, about Agent Scott: "If I should call up Mr. Henderson, who is in charge of our office at Markham and call up Grain Agent Cavanaugh at Toronto, what he could pass a car of grain at Locust Hill for, how he, Scott, or the Bell Company could prevent such communication? Scott said the Bell could and would find a way to prevent messages coming off of the rural line being transmitted over Bell lines to Toronto points or elsewhere."

The magistrates conferred several minutes and announced that they would deliver their decision at noon Thursday at Pickering.

BEFORE THE GRAND JURY.

Farmers Are Now to Proceed Against the Company Itself.

A sensational feature developed as soon as court adjourned in an impromptu gathering of the many farmers present, and the determination to at once prepare to carry before the Ontario grand jury a similar charge against the Bell monopoly as a company. The Crown Attorney was consulted, and the farmers exhibited every disposition to prosecute the case in this direction. As a leading citizen remarked, "We would have proceeded against the company instead of its president primarily, but the law will not permit such a charge before a magistrate, so we will force action before the grand jury."

When Life is not Life.

"Without health life is not life; it is only a state of langour and suffering—an image of death." The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and instils new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

New Railway Car.

A new type of railway carriage was inspected at Newcastle, England, the other day. The dusty, cushioned, padded seats have been replaced by light cane armchairs, comfortably cushioned, four each side, easily removable and permitting of speedy and thorough cleaning of the compartments. The carriages will be put into three trains between Newcastle and Carlisle.

DON'T FORGET THE OLD FOLKS.

Nay, don't forget the old folks, boys,—
they've not forgotten you;
Though years have passed since you were
home, the old hearts still are true;
And not an evening passes by they
haven' the desire
To see your faces once again and hear your
footsteps nigher.

You're young and buoyant and for you
Hope beckons with her hands,
And life spreads out a wireless sea that
laps but tropic strands;
The world is all before your face, but let
your memories turn
To where fond hearts still cherish you
and loving bosoms yearn.

No matter what your duties are nor what
your place in life,
There's never been a time they'd not assume your load of strife;
And shrunken shoulders, trembling hands,
and forms racked by disease,
Would bravely dare the grave to bring to
you the pearl of peace.

So don't forget the old folks, boys—they've
not forgotten you;
Though years have passed since you were
home, the old hearts still are true:
And write them now and then to bring
the light into their eyes,
And make the world glow one again and
bluer gleam the skies.

—Will T. Hale.

BRIGHT BABIES.

Only Those Perfectly Well are Good Natured and Happy.

When a baby is cross, peevish or sleepless, the mother may be certain that it is not well. There are little ailments coming from some derangement of the stomach or bowels which the mother's watchful eye may not detect which nevertheless makr themselves manifest in irritability or sleeplessness. A dose of Baby's Own Tablets given at such a time will speedily put the little one right, and will give it healthy natural sleep, and you have a positive guarantee that there is not a particle of opiate or harmful drug in the medicine. Thousands of mothers give their children no other medicine, and all mothers who have used the Tablets praise them. Mrs. A. McDonald, Ont., says: "Baby's Own Tablets are the best medicine for little ones I have ever used, and I always keep them in the house in case of emergencies." Good for children of all ages from birth upward. Sold at 25 cents a box by medicine dealers, or sent postpaid by writing direct to the Dr. Williams' Medicine Company, Brockville, Ont.

Dangers of Eye Brightness.

Methods for beautifying the eyes have long been in vogue among women of fashion, and not a few resort to those which ultimately injure the organs and the general health. Atrophine is a most common drug for making the eyes look large and lustrous, but the continuous use of it so weakens and paralyzes the muscles that weak eyes come on early in life. An eminent oculist claims that the widespread disease of weak eyes among women is largely due to the tampering with these organs for making them more beautiful than nature intended.

Care of China.

You can keep your china in perfect condition for a number of years if you insist upon its being washed carefully. All dishes should be scraped clean and then rinsed off in clear water. Wash them in soapy water, rinse in clear hot water and drain and wipe. Do not place one dish upon another as they are wiped; spread them out to cool, then put them together. In this way you will avoid cracking the glaze. Put only a few dishes in the pan at a time. Use very little soap on good china.

For the Sewing Room.

In the sewing room of a house (and every house should have one) the housekeeper should have a set of shelves built, separated into compartments of varying sizes, which is pointed out to visitors as the "piece bag." Into these receptacles go all the odds and ends that are usually put into a large basket or made into bulky rolls.

Theater Waists.

In selecting a bodice for theater wear it is well to think of the lights. Shades that are very pretty by daylight are not at all so when seen in a brilliant glare. The wise woman will remember that a color that gave her a rosette sunlight may make her ghastly by artificial light.

BACK PAINED SO BAD COULDN'T TURN IN BED.

A citizen of Trenton, Ont., who suffered agony with his back and kidneys, tells of his rapid and complete restoration to health by the use of Dr. Pitcher's Backache Kidney Tablets.

We desire to present to you the history of the case of Thomas Douglas, of Trenton, Ont., whose occupation is that of carter for the Gillman Co., an avocation which involves heavy lifts and frequent exposure to wet and cold—all hard on the kidneys. That Dr. Pitcher's Backache Kidney Tablets could so quickly cure a case so severe as that of Mr. Douglas is a splendid tribute to their rapid-acting, thorough-going curative qualities.

MR. DOUGLAS TELLS HIS STORY.

"I had been a very healthy man until a few months ago, when I was taken with a very severe pain across the small of the back. As I had a slight cold, I attributed the pain to that, and commenced using liniments, which I found gave me no relief.

"Seeing the testimonial of Mr. Kobold, a Trenton gentleman, who had used Dr. Pitcher's Backache Kidney Tablets, I made up my mind to try them. I had used very few Tablets before I found relief, and I can tell you I was very thankful for this, as I had been so bad that I had to lay off work for days, and at nights I could not turn in bed. Dr. Pitcher's Backache Kidney Tablets have made a perfect and thorough cure in my case. I am at work every day before 7 a.m., and work hard all day, and I can assure you my work is not easy, as I have a great deal of heavy lifting to do, and the constant stooping is a great strain on the back, but I am thankful to say I have never had a twinge of pain, nor has my back bothered me since Dr. Pitcher's Backache Kidney Tablets cured me."

(Signed) THOS. DOUGLAS.

MRS. DOUGLAS CONFIRMS IT.

"I gladly endorse all my husband says about Dr. Pitcher's Backache Kidney Tablets. They acted splendidly in his case and have inspired me with such confidence of their efficacy that I am using them now myself.

"I have been troubled for some time with sick headache, weak spells, tired feelings, and generally run down. I have used the Tablets only for a short time, but feel so very much better already that you may be sure as soon as I have taken another bottle or two of the Tablets, you will hear from me.

"I tell all my friends that Dr. Pitcher's Backache Kidney Tablets have done splendidly for us, and both Mr. Douglas and myself have no hesitation in allowing you to use our names in endorsation of such a reliable remedy."

(Signed) MRS. THOS. DOUGLAS.

SO DOES MR. SHURIE, DRUGGIST.

"I am well acquainted with Thos. Douglas, of this town, who is a teamster in the employ of the Gillman Co.

"He is a hard-working and respectable citizen, and I have no hesitation in endorsing the statement he gives of his cure by Dr. Pitcher's Backache Kidney Tablets, as it was from my store the Tablets were purchased, and I know the condition he was in prior to taking them, and that he is now, to the best of my knowledge, working hard every day without any trace of his former trouble."

(Signed) JAS. SHURIE.

Dr. Pitcher's Backache Kidney Tablets are 50c. a bottle or 3 for $1.25, at all druggists or by mail. The Dr. Zina Pitcher Co., Toronto, Ont.

PRESCRIPTIONS UTTERLY FAIL

To cure itching and disfiguring skin diseases. But

DR. AGNEW'S OINTMENT CURES

no matter what other or how many other applications have failed.

Madam used it and got well, and she keeps it for her friends and her children, having learned it is a neverfail in the treatment of piles, and in tetter, salt rheum, ringworm, eczema, barber's itch, and all skin eruptions. Price, 35c.

The Sisters at St. Joseph's Infant Home, South Troy, N.Y., state:

"Many children come to our home covered with eczema. We would like to buy your ointment by the pound."

Dr. Agnew's Liver Pills are the most effective pills—while milder in action, more quickly setting free the digestive canal. 40 doses, 10c.

A LAMB IN REPOSE. A LION IN ACTION.

BRITISH PREMIER BALFOUR AT WORK AND PLAY.

His Early Nickname, "Clara," a Clear Misnomer—His "Spineless Prostration," His Favorite Attitude in the House. Gives Way to Undoubted Energy When He Is Called by Duty to Act.

Cable advices intimate that Mr. Balfour, the British Premier, has need of a temporary respite from the exhausting demands of his important duties. His indisposition happily, is not such as to justify any alarm, for it is one that will readily yield to the sovereign cure of rest.

It was one of the remarkable peculiarities of Mr. Balfour's predecessor, Lord Salisbury, that most of the illnesses by which he was afflicted, and they were numerous, were so timed as to be of service to the nation. If there was a crisis in which Great Britain wished to delay action and gain time, the Premier was sure to fall ill, and his physicians to insist on immediate rest. At the proper time Lord Salisbury would recover, when Great Britain would be heard from. Hence the "diplomatic" illnesses of Lord Salisbury have won a place in history. Yet, in fact, the late Premier suffered for many years, and finally fettled from the same cause that menaces Mr. Balfour's health, namely, poor assimilation of food. It is the penalty of overwork and worry, and a warning to lighten the mental burden.

Mr. Balfour as "Clara."

In all human probability, Mr. Balfour, who is only in his fifty-fifth year, has yet a long official career ahead of him. If he is not strikingly robust, he is a man of great nervous energy and active habits. His personality is decidedly interesting and attractive.

Picture a tall, slender, willowy, distinguished man, with a philosopher's head and a scholar's stoop, and you have Mr. Balfour. Those grey eyes, peering at you in a mildly contemplative way through the invariable spectacles, and the demeanored modesty and yielding gentility have induced mistaken critics to nickname Mr. Balfour "Clara," but never was there a greater misnomer. A lamb in repose, but a lion in action, would more fittingly describe the chief adviser of the Crown, the real ruler of Great Britain.

Like many other British statesmen, Mr. Balfour's tastes are refined. He is a great lover of music, can sing a sentimental song, and plays with much skill on the piano. He is an ardent golfer.

A Parliamentary Leader.

In the House of Commons Mr. Balfour has shown a remarkable capacity for leadership and direction, though if one were to make the mistake of judging from appearances, little would be expected from him. There he sits on the Ministerial bench, in the midst of his colleagues, the very picture of indolence and listlessness. His favorite posture has been described as one of "spineless prostration," and the description, if overdrawn, is not inapt. With head sunk on chest, arms dangling lifelessly at his side, and feet braced against the edge of the table, he suggests to the casual observer a man in a state of collapse.

But mark the transformation when he springs forward to meet an opponent! Now he is all energy, of that intense nervous kind that bears down all resistance. While he gesticulates passionately, and his voice vibrates with feeling, he does not for a moment lose that perfect mental control that enables him to direct his retorts and his logic with unerring accuracy. Therein lies the chief power of the man. Whatever he attempts he does with all his might. When the bolt has been driven home he again collapses, and recuperates for the next great effort.

Unbusinesslike Habits.

Most people judge a man from the surface. If he is dull, methodical, orderly, and caroful of insignificant details, he is reputed to be thorough and businesslike. Yet in the majority of cases method, however valuable it may be, is resorted to as a prop to the mind. In the matter of method and arrangement Mr. Balfour is the most unbusinesslike leader the House of Commons has ever seen. He is not bound by the necessities that would surround an ordinary man. His brilliancy needs no scrap-book to feed upon. The secret of Mr. Balfour's hold upon the House has been summed up in these words: "He is a gentleman to the finger tips—cultivated, refined, well bred, unobtrusive, superior, fascinating." After all John Bull dearly likes a gentleman, and Mr. Balfour comes very near to his ideal.

Ireland Made Balfour.

It was as Chief Secretary for Ireland from 1887 to 1891 that Mr Balfour made the reputation on which his political success has been based. On that occasion he threw off the affectation of languidness and grappled with the situation so resolutely as to reveal the great power he can at a crisis command. Whatever may be said of Mr. Balfour's administration of Ireland, it cannot be asserted that for a moment he showed weakness. His energetic and unflinching defence of the Irish officials against all attacks in the House established his prowess as a Parliamentarian.

As Premier it was predicted that he would be lost in the shadow of Mr. Chamberlain. Mr. Balfour, however, has not suffered, but has rather been helped by the great strength of his leading colleague. His advance did not arouse jealousy, or antagonism, but instead enthusiastic support on the part of the man whom many expected to succeed to the Premiership. Already the Government under its new pilot has been safely navigated through one of the most dangerous storms aroused by the Education Bill that England has witnessed in recent times. Its Premier, Mr. Balfour, has scored a success which it is to be hoped he will long live to enjoy.

Wealthy and Studious.

Mr. Balfour is not in politics for money. He has a private income of about $100,000 a year. He is a close student of literature and the arts. For one picture, "The Legend of the Brier Rose," which Mr. Balfour purchased from Burne-Jones, he paid $75,000. Seasickness prevents him from traveling abroad. The secret of Mr. Balfour's bachelorhood has never been revealed. It is said that at one time he offered his heart and hand to a captivating lady, who did not accept the honor, and henceforward, though an admirer of the sex, he has been invulnerable to Cupid's arrows.

BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. It's Impure Blood.

"What is it?" asks the mother as she notices the smooth skin of her child marred by a red or pimply eruption. It is impure blood, and the child needs at once to begin the use of Dr. Pierce's Golden Medical Discovery, the best and surest remedy for impurity of the blood. It entirely eradicates the poisons which corrupt the blood and cause disease. It cures scrofula, boils, pimples, eczema, saltrheum and other eruptive diseases which are the direct result of impure blood. It enriches as well as purifies the blood.

"Dr. Pierce's medicine has not only benefited me greatly, but it has done wonders for my two sons," writes Mrs. M. Hartrick, of Demster, Oswego Co., N. Y. "Both had scrofula. I have lost two daughters in less than five years with consumption and scrofula. My eldest son was taken two or three years ago with hemorrhage from the lungs. It troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery, and has not had a hemorrhage in over a year. My younger son had scrofulous sores on his neck; had two lanced, but has not had any since he commenced to take your medicine."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

A 1008 page book, free for the asking. You can get the People's Common Sense Medical Adviser, the best medical book ever published, *free* by sending stamps to pay expense of customs and mailing *only*. VENEZUELA STORIES.

Sidelights on Present Affairs in Some M.P.'s Yarns.

Two members of Parliament have quaint stories to tell of adventures in Venezuela in times past.

An honorable baronet, while on a visit to the Republic, had interviews with certain members of the Government. He dined with them in the evening, and retired at a late hour. He was awakened from his sleep by a noise in his room, and saw, as he thought, one of his hosts disappear through the bedroom window leading to the verandah.

Concluding that this was a polite custom in the country, the visitor returned to sleep, but in the morning he found his trousers upon the floor, their pockets turned inside out. His old-fashioned, highly decorated chain purse was gone, but its contents were on the ground. His gold-edged cigar case and some gold charms attached to his fob had also vanished.

The Englishman went straight to the seat of Government, and complained to one of the Ministers, who expressed his dismay, and was thereupon informed that the person seen in the room bore a resemblance to himself.

"Very strange," replied the Minister, "for there is no one alive who resembles me."

"In that case," rejoined his visitor, drily, "you should have no difficulty in securing the restoration of my property."

Later in the day the Englishman discovered an anonymous package upon his room table. Opening the cover he found all the missing articles save the gold-edged cigar case and one of the charms—a little goddess in diamonds and emeralds.

Labby's Experience.

Mr. Henry Labouchere went through a revolution in Venezuela some years ago.

"A battle took place on the Plaza one afternoon," said Mr. Labouchere in telling his story, "and I watched it from a grass hammock on the terrace in front of my hotel. The Government forces were put to flight, and I was joined by my revolutionary friends keen from the fight.

Later one of the fallen Ministers visited us and said he could show us where 250,000 silver dollars were hidden. He was as good as his word, and patriotism being sunk by my friends in obedience to the comforting moral of the place: 'Be kind to ourselves,' it was proposed to divide the swag.

"I said: 'No, don't do that; it might offend the people. Play for it!' Which was agreed to. The Government man was allowed to come in, and we played and the Government man won it all to the last dollar. So after all no harm was done."—London Mail.

Over 500 Students.

President Mills of the Agricultural College, Guelph, reports that during the month of January there have been no less than 554 students on the roll, divided as follows among the different courses: Regular students, 210; short course in poultry-raising, 14; short course in stock judging, 220; dairy school, 50; special weekly lectures on domestic science, 60 ladies.

PAINE'S CELERY COMPOUND

Rapidly Repairs Wasted Tissues, Puts it in Firm Condition and Expels Waste Poisons From the System.

The tissues of the human body are rapidly wasted by fevers, and great quantities of waste matter are poured into the blood. The rapid break down of tissue and the charging of the blood with poisons, brings unfortunate victims to a condition of weakness and helplessness that is pitiable to behold. Thousands of young and old who have just passed the critical stages of typhoid, inflammatory, gastric, typhus, intermittent and other forms of fevers, demand the closest attention and best treatment, if life is to be saved.

With true candour, honesty and earnestness, we suggest and urge the use of nature's nerve food and nourisher, Paine's Celery Compound, the only medicine in the world that has proved its value as a builder of wasted tissue, bracer of weak and irritated nerves, a never failing blood purifier and enricher. Paine's Celery Compound has made tens of thousands well and strong; it has saved afflicted ones from the grave when everything else has failed. No other medicine so quickly fortifies feeble men and women; it gives them that robust health that makes life a joy.

A History Making Trifle.

It was but a trifle that gave Spain for so many generations the lordship of the new world and enabled her by the wealth which she derived from that source to become the most powerful nation in Europe. It is well known that Columbus, discouraged with the refusals which he met at so many courts, dispatched his brother Bartolomeo to ask aid from Henry VII. of England. But on the way the messenger fell into the hands of pirates, and by the time he reached London was so destitute that he had to try to earn the money to clothe himself in proper style before he could be presented at court. But by that time it was too late. Even the fact that Ferdinand and Isabella furnished the funds to equip the expedition was mainly due to the accident that Juan Peres de Marchena, the queen's confessor, happened to be passing when the weary mariner was knocking at the door of La Rabida monastery to beg a little bread and water for his boy Diego and was impressed with the noble face of the dusty traveler. Had Bartolomeo reached London in time, had Columbus been a little later or earlier at the monastery door, the fate of Europe might have been changed and the destiny of the Anglo-Saxon race altered.

Victoria's One Joke.

Queen Victoria's one recorded joke is a good one and should be preserved. The aged Duke of Wellington having paid his sovereign a visit on a very wet day, she anxiously inquired what boots he was wearing.

"The people call them 'Wellingtons,'" said the duke.

"What nonsense!" exclaimed the Queen. "Where, I should like to know, could you find a pair of Wellingtons?"

Monkey Brand Soap removes all stains, rust, dirt or tarnish — but won't wash clothes.

Nursing Infants.

The theory is now advanced that the milk of the cow is not adaptable to the stomach of the infant because it quickly forms curds which do not digest readily, whereas the natural food of the babe, the mother's milk, is not only rich in lecithin, which goes to nourish the brain and nerves, but it is of a softer consistency and more easily digested. This idea is supported by the argument that the milk of the cow contains more protein and is intended for the calf, which grows and gains strength much faster than the child. This is one more thought urging the mother to nourish her own child if possible.

The Double Chin.

For a double chin try massage fifteen or twenty minutes daily. Place the forefingers of both hands under the chin and rotate outward or toward the shoulders, kneading deeply. Then place a bandage saturated with an astringent under the chin and tie on top of the head. Do this at night, of course. One-half ounce of powdered alum to one pint of water makes an astringent solution.

PHIL MAY.

Punch's Cartoonist Is Very Friendly to the London "Force."

In an appreciative sketch of Mr. Phil May, the famous cartoonist and humorist artist, M.A.P. tells the following:—Mr. May's friendliness with "the force" is of old standing, and there is hardly a policeman in his district who does not think of him whenever any very funny experience is encountered. Only the other day a constable accosted the artist in the street to tell him a "good story for Punch." A moment or two later a second bobby came on the scene for the same purpose, and, turning round a corner in St. John's Wood, Mr. May found himself supported on either side by an eager raconteur in blue. He then came face to face with a lady of his acquaintance, and, as he tells it himself: "She looked at me with such sympathy and an expression that so plainly said, 'Don't make a fuss, better go quietly with them,' that even the bobbies had to smile at the situation!"

The "Dottyville" Drawings.

The series of "Dottyville" drawings in Punch is well known to Mr. May's artist friends, one of whom brought him a letter from an inmate of Hanwell Asylum, which said: "I greatly resent those sketches. You apparently do not understand your subject, for you have drawn the head of an idiot and labelled it a lunatic. You ought to know the difference, but you don't—and I am not surprised, for, although I have never seen you, I am very familiar with pictures of you, and in all drawings and photographs I have noted that yours is the head of an idiot." Mr. May records against himself the fact that, having proceeded thus far with the letter, a listening friend who did not mean to be uncomplimentary broke in: "Oh, the man who wrote that letter was no lunatic," a remark that naturally upset the gravity of the party and covered the speaker with confusion.

A GUARANTEED CURE For all Forms of Kidney Disease.

We the undersigned druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys.

"Money cheerfully returned if the sufferer is not relieved and improved after the use of one bottle. Three to six bottles effect astonishing cures. If not relieved and cured, you waste no money."

Tempting Fritters.

If you desire fritters to tempt the most exacting taste, take three eggs, two tablespoonfuls of sugar, a pint of sour milk, a teaspoonful of soda, a pinch of salt and flour enough to make a stiff batter. Beat this well, drop in hot lard and roll in powdered sugar.

Wrinkled Silk.

Flimsy silk that has gone into a multitude of age wrinkles may be smoothed out and restored to something like its original freshness by sponging it with gum arabic water. Sponge the right side of the silk, and when it is almost dry iron the wrong side.

A Mattress Cover.

A mattress cover is made of two layers of light weight unbleached muslin with wadding between. Quilt on the machine and bind the edges with tape. It can go through the wash like a sheet.

Marion Harland's advice to young cooks relative to their failures is: "Never let a spoiled dish be seen, much less tasted. Get rid of it, even if you have to bury it."

Lounging chairs are out of place in a room where visitors are formally received, but the chairs should be large and comfortable to sit on.

Insist upon proper appliances to work with. A housekeeper's tools must be good and kept in good order.

A piece of camphor put in the reservoir of a lamp will improve the light.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

LINDSAY & MIGHT

Real Estate and Insurance Agents

DR. WOOD'S

NORWAY PINE SYRUP

CURES

Coughs, Colds, Bronchitis, Pain in the Chest, Croup, Hoarseness, Sore Throat, Asthma, Whooping Cough, Quinsey, and all Throat and Lung Troubles.

It is pleasant to take and is soothing and healing to the lungs. There is nothing to equal it for stopping that tickling sensation in the throat, and the persistent cough that keeps you awake at night.

Price 25c. at all Dealers.

QUICKEST AND MOST EFFECTIVE.

I have used Dr. Wood's Norway Pine Syrup in my family for the last six years, and have found it the quickest and most effective medicine for all kinds of coughs and colds I have ever used. My little boy had a severe attack of bronchitis, but before using half a bottle of the Syrup he was completely cured. I cannot praise it enough.

ARE YOU A PRISONER?

THOUSANDS of men are prisoners of disease as securely as though they were confined behind the bars. Many have forged their own chains by the vices of early youth, exposure to contagious disease, or the excesses of manhood. They feel they are not the men they ought to be or used to be. The vim, vigor, and vitality of manhood are lacking. Are you nervous and despondent? tired in the morning? have you to force yourself through the day's work? have you little ambition and energy? are you irritable and excitable? eyes pimples, depression and haggard looking? memory poor and brain fagged? have you weak back with dreams and losses at night? deposit in urine? weak sexually?—you have

Grain.— Liverpool, corn 1-4 higher; car lots wheat 19; corn 332; oats 160; corn very strong, expect to see May around 50 cents soon, buying yesterday of very best character.

M. & M.

It is generally recognized that if it comes to a vote in Senate to-day bill will be passed and application of cloture ruled in House could jam it through that body in less than a day. Impression prevails that force of public opinion and necessity of passing for general business reasons may have weight with those who are obstructing it in Senate and cause bill to come up to-day and vote being taken on it. This may help to aver depressing influence of expected bad settlement and help general market somewhat.

W. H. HARMER SAYS

He Used Dodd's Dyspepsia Tablets and was Cured of a Disagreeable Though very Common Complaint.

Were you ever troubled with food and gas rising in your throat? Have you ever had an evening spoiled by the objectionable matter coming between you and an agreeable conversation? When it is the greatest agony to keep it down, and the the height of bad breeding to do anything else?

Have you bewailed the fate that that doomed you to such torture? If you did you were wrong. It is not fate at all. It is your own stupidity. Others have been in a similar fix, and have got out of it. How? Simply by using Dodd's Dyspepsia Tablets. They are so pleased that they are telling others about it every day. W. H. Harmer, of Avonmore, N.B., is one of them. Listen to what he says:

"I was troubled with gas and food rising in my throat. Dodd's Dyspepsia Tablets stopped it. Others around here have used Dodd's Dyspepsia Tablets with equally good results."

He doesn't say much but it is to the point. If you are troubled with gas or food rising in your throat —if you are troubled with any of the pains or discomforts of Dyspepsia, use Dodd's Dyspepsia Tablets and the relief will be speedy, the cure permanent.

CHURCH CHIMES.

ST. PETER'S CATHEDRAL—At St. Peter's Cathedral there will be three masses celebrated—at 8 a.m., low mass; children's mass at 9.15 a.m.; high mass at 10.30. Vespers at 7 p.m., with Sermon.

MARK ST. METHODIST CHURCH.—Rev. C. L. Thompson, pastor. Services at 11 a.m. and 7 p.m. Sunday school at 2.45 p.m. Epworth League on Monday evening at 8 p.m. Prayer meeting on Wednesday evening at 8 p.m.

BETHANY TABERNACLE— (George street, between Brock and Murray) — Rev. T. H. Robertson, pastor. Services on Feb. 8th, conducted by pastor. Sunday School at 3 p. m. Young People's Meeting Tuesday evening at 8.00 p.m. Prayer meeting and Testimony meeting Thursday at 8 p.m. Seats free. All are welcome.

MR. HOPKINS HAS ISSUED A WRIT.

Alleged Injuries Received by Fall.

LAST EVENING'S MEETING.

The C. P. R. and the Railway Committee

Of the Privy Council to Discuss Matter of More Tracks Across Bethune Street.

After the Board of Trade and the promoters of the Peterborough Beet Sugar Factory had concluded their conference with the Town Council last night, Council took up regular business.

COMMUNICATIONS

were received and disposed of as follows:—

From the Hon. Secretary of the Union of Canadian Municipalities, asking that the Council nominate some one to replace ex-Mayor Denne, who was Vice-President of the Association.—Received.

From Collingwood Schreiber, Deputy Minister of Railways and Canals, stating that a Railway Committee of the Privy Council would hold a session on Wednesday, March 4th, when the following matters affecting the Town of Peterborough, would be considered: Application of the Canadian Pacific Railway Company for approval of the place and mode of crossing the G.T.R. at Bethune street, Peterborough. Application of the C.P.R. for approval of the construction of additional tracks near the streets crossed by that portion of its line extending from Townsend street to Chamberlin street. — Referred to the Finance Committee with power to act.

From Messrs. Jas. A. Hall and George K. Martin, Town Auditors, stating that they had examined all the accounts of the Town Treasurer, the Town Trust, Water Commissioners, Treasurer Board of Education, Treasurer of the Nicholls Hospital, and the Assessment and Collector's roll and found them correct.—Received, and the auditors were ordered to be paid.

From W. H. Moore, Chairman of the Commissioners of the Town Trust, asking for the approval of the Council to build additions to the market block to the rear of the Bell Telephone Company and McCallum's restaurant.—Received.

From Dr. Bingham, asking for an increase of salary as Medical Health Officer.—Finance Committee.

From the Turf Club, stating that they intend giving a race meet this summer and asking the town to furnish them with 10,000 lift lock envelopes, claiming that the town would receive a great deal of advertising —Manufacturers' Committee, with power to act.

From the Board of Health, enclosing a resolution, asking the Council to appoint a sanitary inspector.

MAYOR ROGER.

Upon motion, His Worship Mayor G. M. Roger was nominated as vice-president of the Union of Canadian Municipalities, to succeed ex-Mayor Denne.

The matter of the request of the Water Commissioners for the approval of the Council to build an addition to the Market Hall, was left over until the next meeting of the council in order that the members may have an opportunity of looking into the plans.

The Clerk announced that the corporation had been served with a writ in an action that is being brought against the town by W. G. Hopkins, to recover $500 for injuries alleged to have been received through a fall on the sidewalk. The matter was referred to the Legal Committee.

A representative of the Canada Rubber Company was present, and was given a hearing. He claimed that his company had never received fair treatment from Peterborough. Although they had tendered for hose this year, and their tender was lower than the other company tendering, still his firm did not get the contract. He held it was because our chief for some reason recommended adverse to his company.

The gentleman was told that the Fire, Water and Light Committee, was reconsidering the tenders.

FINANCE COMMITTEE.

The finance Committee reported as follows:

To the Council of the Town of Peterborough:

Gentlemen, — Your Finance Committee beg leave to report and recommend as follows:

1. That the debentures authorised by Bylaw No. 1010 be printed in denominations to be fixed by the Mayor and chairman of this committee, and that the Mayor and chairman be authorized to sell them.

2. That the following accounts be paid:

H. LeBrun	$130 00
W. H. Higgins	8 00
R. Hicks & Co.	61 85
Mail and Empire	1 32
Ormond and Walsh	2 25
R. H. Bradburn	20 00
Examiner	21 40
Adam Hall	13 29
Alexander & Miller	88
J. & W. Metherall	5 75
R. Hicks & Co.	31 85
J. E. A. Fitzgerald	69 80
A. H. Stratton & Co.	4 20
W. J. McCallum	4 00
F. Burnett	150 13
H. S. Macdonald	2 50
Review	8 33
George Hutchinson	1 55
R. Gibbs	2 50
R. A. Jones	1 25
C. B. Rootley	5 00
W. Madill	2 50
Express charges	1 00

H. RUSH, Chairman.

On motion of Ald. Rush, seconded by Ald. Morrison, the report was adopted.

The council then adjourned.

Wheatine.

If you want a really good cereal food try WHEATINE, a delicious nutty flavour, cheap and recommended by the medical profession. All leading grocers. 6d47

Canada Life

56th Annual Report

THE YEAR'S BUSINESS. The applications for new assurances received were 5,022 in number, and $16,687,572 in amount. The number of policies issued was 4,736, representing assurances of $9,734,002. Two hundred and seventy applications for an aggregate $712,306 were declined—the lives not coming up to the Company's high standard; and the balance were deferred or incomplete at the close of the year. As compared with the previous year, there was an increase of 1,077 in the number of policies issued, and $1,972,871 in amount. The new policies actually paid for in cash again show a satisfactory increase over previous year. These were 4,103 in number, representing new assurances of $8,398,880, constituting the largest year's business in the Company's history. The total assurances now in force amount to $89,170,574, being an increase of $4,745,602 during the year.

THE INCOME. The net premium and annuity income amounted to $2,615,171.81, and the income from interest to $1,098,968.07, including $14,085.58 profit on sale of securities, making a total net income (exclusive of payments on account of Capital Stock) of $3,714,139.88—an increase of $196,522.65, as compared with 1901.

THE PAYMENTS. The death claims paid during the year amounted to $1,179,370, an increase of $16,272 over those paid in 1901. Including bonus additions, the death claims, endowments, and annuities paid in 1902 amounted to $1,442,920.85, while $162,457.04 was paid as surrender values and cash dividends to policyholders, making total payments to policyholders $1,605,377.89.

THE ASSETS. The total assets at 31st December, 1902, as shown by the balance sheet amount to $25,964,932.50, being an increase of $1,460,142 over 1901 —deducting the $37,000 received from calls on Capital Stock, the natural increase is $1,423,142—a growth which your Directors think is very satisfactory.

THE LIABILITIES. The valuation of the Company's liabilities was again made on the *Institute of Actuaries Hm.* 3 1-2 per cent. table for all business secured prior to the 1st January, 1900, and on the same table with 3 per cent. interest for policies issued since the 31st December, 1899. In valuing on this conservative and stringent basis the Canada Life retains its unique position among the older established companies of having accomplished the necessary change to the higher standard of Reserves. After provinding for these Reserves, and all other liabilities, except Capital Stock, there remains a surplus on policyholders' account of $1,831,718—an increase of $483,012 during the year.

REVIEW. The year just closed has been one of progress and advancement in all branches of business, and that this Company has fully participated in the general growth is clearly evidenced by the figures which the Directors are able to submit for your approval. The increases in assets, interest, and premium income, and in assurances in force, are very satisfactory, while the larger amount of assurances applied for indicates the growing popularity of the Company in the different fields in which it is represented. While no new territory has been entered during the year, considerable progress has been made in extending and improving the organization in those States and Provinces where we were already licensed to do business. Arrangements were also completed during the year to commence business in Great Britain on the 1st January, 1903, and having secured suitable offices in London, and selected a manager, we confidently look forward to satisfactory results.

Financial Abstract

As at 1st January, 1903.

Assets

Government, Municipal, and other Bonds, Stocks, etc.	$13,483,722 16
Mortgages on Real Estate	3,651,739 18
Loans on Bonds, Stocks, Policies, etc.	5,573,289 73
Real Estate Owned (including Company's buildings in Toronto, Hamilton, Montreal and Winnipeg)	1,662,122 56
Premiums in Transit and Deferred (new) and Interest accrued	656,057 25
Other Assets (including cash in banks)	799,001 56
	$25,964,932 50

Liabilities

Reserve Fund (Hm 3½ per cent. for all business prior to 1st January, 1900; Hm 4 per cent. for Policies issued since then)	$23,077,612 00
Other Liabilities, except paid up capital	255,602 26
Total Surplus on Policyholders' Account (Hm 3½ per cent. and 3 per cent. basis)	1,831,718 24
	$25,964,932 50

Receipts

Premium and Annuity Income (net)	$2,615,171 81
Interest, etc.	1,098,968 07
on Capital Account	37,000 00
	$3,751,139 88

Payments

Paid to Policyholders	$1,605,377 89
All other Payments	774,332 17
Excess of Receipts over Payments	1,371,429 82
	$3,751,139 88

The President, Hon. Geo. A. Cox, in moving the adoption of the report, spoke in part, as follows:

For the first time in our history, the proposals for assurance submitted to the Directors exceeded in amount ten and a half millions of dollars, and showed an increase over those offered in the previous year of $2,220,429. It is gratifying to note that over one-third of this increase was derived from our Canadian Agencies.

The actual claims incurred in 1901 amounted to $1,256,206, including bonuses, while those of 1902 amounted to $1,110,006, also including bonuses, a decrease of $146,200. Our actual death claims for 1902 were materially lower than we were led by the Table of Mortality to expect. This, I am sure, will be most satisfactory to the policyholders and shareholders alike, emphasising, as it does, the great care which has always been exercised in the acceptance of proposals for assurance.

I take this opportunity of pointing out a fallacious method frequently used by inexperienced persons in comparing the death rates of different companies—that is by comparing the average number of deaths per thousand, without regard to the age of the company, or the duration of the risks. Without an actuarial investigation of the claims expected at each age, and a comparison with the claims actually incurred at each age, it is impossible to tell whether one company has had a more favourable mortality than another. In fact a well managed and old-established company, with a mortality rate of 13 per thousand, may experience a much larger relative saving in mortality than a young Company, with an average death rate of 7 per thousand.

In connection with payment of death claims, it may be interesting to mention, that since the inception of the Company, the total claims incurred, including bonus additions, amount to $16,257,923.39. In addition to profits paid with claims, a further sum of $7,130,163.50 has been returned to policy holders as dividends; while other items, such as annuities and surrender values, increase the grand total of payments to policy holders and their heirs to $25,318,545.86; and we hold for the security of our policyholders to-day, cash assets of $25,964,932.50. After the payment of all expenses of management and taxes the company has paid or credited to policyholders $6,731,843 in excess of the amount actually paid by them.

As stated in the Report, our policy liabilities have again been valued upon the Company's severe standard—the rate of interest used being 3 1-2 per cent for all business up to the end of 1899, and 3 per cent. for business issued since that date.

Since the Report was issued, we have received an official certificate from the Commissioner of Insurance for the State of Michigan, and it will, no doubt, be of interest to compare this official certificate with the valuation made by the company's own Actuarial Department, as follows:

Valuation of Policies on Company's own standard	$23,877,512
Valuation by Michigan Insurance Commissioner	22,485,879
Difference	$ 1,391,733

It will thus be seen that the Company holds reserves of almost $1,400,000 in excess of those required by the American standard. This large difference is accounted for by the fact that the company uses 3 and 3 1-2 per cent. rate of interest in its [illegible] while the American law requires only 4 per cent.

Once in five years the Dominion Insurance Department values our policy liabilities, and it will be remembered that a year ago we were able to make comparisons of our own [illegible] with the valuation made by the Dominion Department, when it was shown that we held Reserves of $2,555,196 in excess of the Dominion Government standard, which requires a 4 1-2 per cent. interest basis for business up to the end of 1899, and 3 1-2 per cent. after that date. As intimated in the Report, the Company continues to hold the unique position of being the only old-established Company in Canada or the United States that has succeeded in transferring the whole of its policy liabilities to the new and higher standard of Reserve.

In the history of the Company January 1st, of 1903, will mark an epoch as being the date when the Company opened business in Great Britain, with Head Office at 14 King William street, London, England. I am pleased to be able to say that already we have agencies established in many of the leading centres in England, Ireland, and Scotland, and we already have had a substantial amount of business, from our branch in Great Britain, where the Canada Life has been long and favourably known in Insurance circles.

At the close of the meeting, the following Directors were re-elected:—Hon. Wm. Gibson, A. Bruce, K.C.; Z. A. Lash, K. C.; Dr. John Hoskin, K.C., and E. W. Cox. At a subsequent meeting of the Directors, Hon. Geo. A. Cox was re-elected President, and F. W. Gates, Vice-President.

A NOTE OF WARNING and A NOTE OF ADVICE!

BIG REDUCTIONS IN PRICE OF Furs!

February Stock-taking Sale.

Intending purchasers of Furs should note well the fact that **all Raw Fur Skins have taken a very marked advance** in the January London Sales. This means that all Manufactured Fur Garments will be from 10 to 35% higher priced next winter than during this season.

SAVE MONEY BY BUYING NOW.

LONDON SALES REPORT. January 19th to 23rd.	
Sealskin advanced from 20% to 40%	
Persian Lamb advanced from 10% to 20%	
Astrachan Lamb	10% to 20%
Racoon Skins	20%
Skunk Skins	15%
Mink	15%
Black Cattle Skins	10% to 15%
Wombat Skins	15%
Wallaby Skins	15%
Australian Coon	25%
Otter Skins,	10%
Opposum Skins,	15
Marten Skins,	12½

During this month we have determined to put on a Big Reduction Stock-taking Sale. This gives everyone an opportunity to supply all Fur wants at big reductions on this season's prices—a clear saving of 25% to 40% when one considers the prices of next season.

No better investment for money can possibly be made than this sale affords.

We bought extra heavily on skins a year ago. This places us in a position to-day to give quotations that are absolutely impossible if present market prices had to be met. We therefore advise all our many patrons and the public generally to give attention to this announcement, as it is decidedly in their interest to do so at once.

Close of Fire Sale

The success of our Fire Sale has been away beyond our expectations. Its incidental advantages to us and to shoppers cannot be discounted.

LET US SHAKE HANDS

Mr. and Mrs. Customer, and mutually congratulate each other on the gratifying results. It wasn't a case of "just shopping dollars"—it was a "dollar breeder."

Going to be very busy from now on—getting ready for the new season.

ONLY A SPAN TO SPRING.

We begin opening up New Spring Goods. Each department in the Golden Lion takes on new life, waiting, as it were, for the wise women who, with their early purchases, harbinge the approach of the season.

In a few days, the new Silks and Dress Goods, the new Cotton Weaves, the new styles in cape garb—new merchandise from all over the store will welcome you.

There will be opportunities offered for a while yet to buy at Fire Sale prices. Come and make enquiries and pick over among the assortments still left. We can afford to sell a good many goods yet at swift clearing prices.

CANADIAN'S REWARD

Mr. Thos. Tait Will Take Charge of Australian Railways.

WORKED WAY UP STEADILY.

An Important Position For a Young Man of 36 Years of Age—Is Transportation Manager of C.P.R., Which He Will Leave on May 1 to Organize the Commonwealth's Railways of Nearly 10,000 Miles.

Montreal, March 1.— (Special.) — Thomas Tait, general manager of the transportation of the C.P.R., will go to Australia on May 1 to become head of the railways of the Australian Commonwealth. Negotiations looking toward this end have been going on for three months, Mr. Tait being in cable communication with Premier Barton at frequent intervals. The negotiations came to a head to-day, when Premier Barton cabled the Canadian offering him the position of superintendent and general manager—in short, Great Mogul—of the railways of the Commonwealth. Mr. Tait replied accepting the offer. It is understood that the salary attached to the position will be in the neighborhood of $50,000 a year. The offer is looked upon as the biggest thing of its kind that ever came to a Canadian railway man. He will organize the whole systems of state owned railways, and will be given a free hand.

Thomas Tait was born at Melbourne, P.Q., not quite thirty-nine years ago, and entered railroad work in the audit office of the Grand Trunk at the age of 16. After two years' experience in several capacities he became private secretary to the vice-president and general-manager of the Canadian Pacific.

In 1887 he became assistant superintendent at Moose Jaw, N.W.T. From this position he rose rapidly, his duties making him familiar with Canada from the Atlantic to the Pacific, till in 1897 he became manager of the company's lines east of Fort William; later he was made general manager of transportation for the whole system, with head office at Montreal.

He is a son-in-law of G. R. R. Cockburn of Toronto.

With the exception of some eighty odd miles of private road in New South Wales, and half a dozen miles of private tramways, all the railroads in Australia are owned by the Commonwealth, and Thomas Tait will be the cynosure of the world's observation as the highest railroad official in a land that knows nothing of the tangible griefs of railroad monopolies.

The government roads of Australia pay a dividend of from 3 to 4 1-2 per cent, and the people have the satisfaction of knowing that this is all used "pro bono publico."

In New South Wales there are 3022 miles of government railways, and 104 of government tramways. In Victoria the government mileage is 3221, in South Australia 1736, and in West Australia 2143.

The affairs of the state railways have been heretofore managed by a commissioner of railways in each state, but since the formation of the Commonwealth all the roads will come under one central management, which will be presided over by Thomas Tait.

THE AMERICAN INVASION.

Tents Provided for the Expected Rush of Immigrants in Spring.

Winnipeg, March 2.—The Immigration Department has already ordered sixty large tents in preparation for the rush of American immigrants in the spring, and more will be in use before the season is over. Everything points to a tremendous building business in the spring, and contractors are arranging for a heavy campaign.

The combine of a few of the large firms of contractors has been completed in all details, and the independent contractors are arming to repel the threatened danger. The combine is an organization of a few rich firms to freeze out the small men in the business. Already Mayor Arbuthnot has made public protest against the imposition and the authority of the Legislature may be appealed to.

HAVE SELECTED EXPERTS.

Will Report on Niagara Power Sites and Cost of Transmission.

Toronto, March 2.—The Niagara Falls Park Commission held an important meeting at Niagara Falls on Saturday, the Chairman, Mr. J. W. Langmuir, presiding. Prompt action was taken towards obtaining further information respecting the remaining available power and its cost. The commission decided to submit the names of two electrical experts, who will be asked to report on the cost of constructing a transmission line to Toronto, also the cost of operating it. They also selected the names of two hydraulic experts, as requested by Premier Ross, who will be delegated to report upon the available power sites remaining. The names of these experts could not be made public last night.

Mildest February Since 1892.

Toronto, March 2. — The past month has been the mildest February since 1892. The average temperature was 25.1 degrees, nearly 8 degrees higher than the average for the past 62 years, and 3½ degrees higher than the average for the same month of 1902. Saturday morning the thermometer registered 43.6, which was the highest temperature during the month. On Feb. 17, at 9 a.m. it was 6 degrees below zero, and this was the coldest day during the winter. During the month there were 107 hours of sunshine against 144 hours in February of last year. There was more rain than the average, but not so much as in 1902.

Charged by His Father.

Winnipeg, March 2.—A small boy, Iver Brickson, aged about 13 years, charged by his father with the theft of a letter containing $5, was sentenced Saturday to six months in the Manitoba Reformatory for boys. He had been arrested for theft previously, and he had got beyond his parents' control.

Toronto Woman Gets Damages.

New York, March 2.—Mrs. Hannah Hyman was awarded a verdict of $1,500 in this city Saturday in a suit against the Brooklyn Heights Railway Company to recover $10,000 damages for personal injuries received. Mrs. Hyman came to this city in August, 1901, from Toronto, Canada, to visit her brother, John Keefer.

Admiralty Denies Report.

London, March 2.—The British Admiralty Saturday denied the reports that the Government had purchased the two cruisers under construction at Genoa, Italy, for Argentina, and the two warships being constructed in England for Chili.

Phippe Giving Away Money.

Calcutta, March 2.—Henry Phippe, a director of the Carnegie Steel Company, has handed to Lord Curzon, the Viceroy, the sum of $50,000 for the promotion of agricultural and scientific education in India.

Fined For Not Going to Church.

To such an extent does religion prevail at Gonoatoa, in the south seas, that every man, woman and child on that island who does not go to church at least three times a week is liable to be arrested and fined, the fine going to the king.

Whalebone.

Whalebone may be easily cut if it be laid for a few minutes in hot water.

A LIMITED DERAILED

G. T. R. First Day Coach Leaves Rails at Battle Creek, Mich.

OTHER FATAL RY. ACCIDENTS.

At Battle Creek One Was Killed and Two Were Seriously Injured — Six Deaths Caused Near Lenoir City by Spreading Rails—Half a Dozen Were Seriously Hurt in a Head-On Collision.

Battle Creek, Mich., March 2.—One man was instantly killed, one was fatally injured, and several more seriously hurt by the derailment here Saturday of the Grand Trunk west bound limited. Dead, Miss U. Parker, Battle Creek. Seriously injured, Brakeman Cowles, Battle Creek, will die, and Flagman Dixon, one leg amputated, will recover.

The first day coach left the rails and swept broadside across Jefferson avenue. Flagman Dixon was standing in the street and was carried under the car. The passengers all escaped with very slight injuries.

Spreading Rails Caused Six Deaths.

Knoxville, Tenn., March 2.—A fast passenger train which left Chattanooga at midnight, was wrecked near Lenoir City early Saturday, through the spreading of the rails. Six persons were killed and several were injured.

Six Seriously Hurt.

Brownsville, Pa., March 2.—Six persons were seriously injured and a number slightly hurt yesterday in a collision on the Monongahela division of the Pennsylvania Railroad between a local and a light engine. The collision was head-on. Several coaches were derailed, and the passengers badly jolted.

Horse Was Killed.

Montreal, March 1.—Two freight cars on the Canadian Pacific collided near St. Rose to-night and were wrecked, but no lives were lost. Some of the cars caught fire and were burned. A race horse, which was in one of the freights coming from Ottawa, was killed.

ALFRED JEFFS' DEATH.

Freight Brakeman of G.T.R. Accidentally Killed Friday.

St. Catharines, March 2. — Alfred Jeffs, a freight brakeman in the employ of the Grand Trunk Railway, was accidentally killed at the station here between 8 and 9 o'clock Friday night. It appears that Jeffs was in the act of coupling a crippled car to the locomotive when the accident occurred. His neck was broken and he expired almost immediately. He resided in Sarnia, but his friends live in Eastwood. He was unmarried. The coroner did not deem it necessary to hold an inquest.

70 Years a Citizen.

Toronto, March 2. — Yesterday death claimed one of the oldest and best known residents of Toronto, in the person of R. G. A. Paton, late of His Majesty's Customs at Toronto who was rather suddenly called away at the ripe old age of 78 years. Mr. Paton was born at St. Andrew's, Fifeshire, Scotland, on March 10th, 1830, and came to Little York, now Toronto, with his mother, two sisters and brother in 1833. He attended Hodgson's school on Market-lane (now Colborne street.) He was first employed by Scoble and Balfour, British Colonist office and on March 18, 1852, he entered the service of Her Majesty's Customs, where he remained until superannuated at his own request a few years ago.

Hon. Mr. Foster in Bed.

Toronto, March 2. — Hon. G. E. Foster is lying in bed with a bad attack of influenza following the grip. This has kept him from carrying on the campaign in Northern Ontario. Last Monday he was nearly over his attack of grip, and insisted on going to a meeting. He returned, very ill with influenza, but the doctor says there is no danger and that he will be around very shortly.

Called an Embezzler.

Hamilton, March 2.—John, better known as "Reddy" Dimmick, one of the best known shoe clerks in the city, was arrested Saturday night on a most serious charge. It is alleged that he embezzled $450. He had been employed until about a week ago by H. A. Soper, who runs a boot and shoe store. He had been employed there for many years.

To Release Mme. Humbert's Sister.

Paris, March 2.—It is believed that Marie Daurignac, the sister of Mme. Humbert, now under arrest here in connection with the Crawford swindle, will be released soon. Medical experts regard her to be mentally irresponsible

Eve Tempted Adam.

And Adam has been tempting Eve ever since. Imagine a man selling a woman rancid butter while keeping her attention fixed on a "prize" given with the rancid butter! A woman may be tempted by "prizes" to buy common soaps, that she may not know will soon ruin her clothes and hands. But she soon finds out the difference between common soaps and Sunlight Soap. She finds Sunlight Soap—Octagon Bar—a prize in itself. Her clothes last longer, and her hands are saved from eczema.

CHANGES OF ADVERTISEMENTS

Advertisers whose contracts permit of changes in the DAILY EXAMINER, are requested to send in their copy the evening previous to the day on which they wish their advertisements to appear.

THE EXAMINER cannot guarantee that changes will be made unless this request is complied with. A little attention to this matter will save disappointment.

J. R. STRATTON.

Daily Examiner.

London (England) office—149 Fleet street, E. C., Central Press Agency Limited, Special Agents.

MONDAY, MARCH 2, 1903.

EXTRAVAGANT TALK.

What the Saturday Night Thinks of Leader Whitney's Style.

The Toronto Saturday Night says: Leader Whitney, in one of his North York speeches this week, make reference to Judge Morgan's connection with the Davis-Lennox saw-off, and according to the newspaper reports of his remarks, he concluded his comments in these words:—

"I do not intend to say much about it to-night. I may in the future say more, and take some action in another place about it. The people of this province must consider this seriously. We have had to fight for the last five years against an unlimited quantity of money, against ballot-thieves, against ballot-switchers and destroyers of ballots, against perjury and subornation of perjury, against false testimony given by convicts sifted out of the Central Prison and the penitentiary of Ontario, and now, if in addition to these obstacles, we are to have to fight the judiciary, God help the people of the Province of Ontario."

This is a fair sample of the wild talk that has damaged the leader of the Opposition in the estimation of moderate and fair-minded people. It is not so much what Mr. Whitney says as the way he says it, and it is the extreme and immoderate language in which he allows his tongue to run riot that has given the gentleman a reputation for lack of ballast and ungovernable partizanship. Mr. Whitney may have a good cause and greater capacity than he has been credited with, but if so, he is unfair to himself and unfair to his cause in that he habitually does violence to the general sense of proportion. To suggest that the Conservative party has had to fight the judiciary or is likely to have to do so is both unwarrantable and absurd. How can Mr. Whitney hope that such an idea will be seriously accepted by anyone? Saturday Night is not one of those papers that have bowed down before the bench as infallible and beyond criticism. But the judiciary, though human, ought not even by suggestion to be brought into contempt by a public man of Mr. Whitney's standing and responsibility. The judiciary have done nothing in the long series of election trials to warrant an imputation against the integrity of Canadian courts. Judge Morgan ought to have been too wary to mix himself up with any such matter as the private settlement of an election petition. He must heartily wish himself out of the miserable entanglement. Those who know the judge best, however, will not harbour the thought of his acting from an improper motive or in any other spirit than that of his habitual kindness and desire to accommodate his fellow-citizens. Probably Judge Morgan, who has been dragged through a bitter party contest, will never repeat his mistake, nor will any other Canadian judge, in view of Judge Morgan's experience, be likely to repeat such an experiment. But there is no occasion yet for Mr. Whitney to call on God to help Ontario, on account of an unfair, partisan or venal judiciary.

HAGGART'S AUCTION SALES.

Wednesday, March 11th — Michael Flaherty, Con. 4., Lot 1, Township of Ennismore.

March 13th—Auction sale of farm stock and implements of Mr. J. H. Fowler, lot 1, in 2nd concession of Smith. Sale at 12.30 o'clock.

March 19th—Auction sale of horses, cattle, sheep and hogs of Mr. David Guiry, lot 7, in 6th concession of Ennismore. Sale at 1 o'clock.

March 21st—Auction sale at the Munro House, of three parcels of land in North Monaghan. Sale at 2 o'clock.

See posters.

MEN NEEDED FOR THE FRONT

An Appeal Made to Young People for the West.

Emergency of the Methodist Church—The Church's Opportunity.

(Christian Guardian.)

When the war in South Africa was at its height and the necessity for pouring troops into that country was imperative, points at home were deprived of their usual quota of garrisoning regiments in order that every available man should be sent to the front. As the stringency grew greater, an unprecedented, and what some considered an alarming diminution of the forces at the centre took place in order that the forces on the field might be adequate for the unprecedented emergency. As we have said, alarmists not a few, spoke in strong depreciation of that course, and discoursed gravely of the danger of leaving the home centres unprotected. But it was realized by those who knew best that the chief danger point of the Empire was not at Aldershot or London, but in South Africa, and that the thing to do—the only and all-important thing to do—was to get as many troops as possible on the fighting line with the least expenditure of time. This was done, and that saved the situation, relieved the crisis, extended the empire, and established the national prestige.

A similar policy, as it seems to us, may be called for in respect of the present emergency in the North-West. Dr. Woodsworth and the missionary secretaries on the field, are calling loudly for men. They declare, and they give ample reason for the statement that the need is pressing, and that if it be not met, and adequately met, the loss will be inevitable, and irreparable. Meanwhile the ordinary sources of supply are not capable of meeting the emergent demand. Men are not forthcoming—in the ordinary course of events they are not likely to be forthcoming—in sufficient numbers to supply the North-West promptly and fully. Yet, if Methodism is to hold its own among the fast-increasing population of that great country, reinforcements must be sent forward without delay and in adequate numbers. It may come to this, that a doubling up may be necessary in some points near the centre. The home garrisons may have to be reduced that the requisite aid may be sent to the front. Adjacent small missions may have to be united, and the ground covered by one man, instead of two, in order that the second man may be set free to do God's work, where God needs him more. Of course, souls are as precious in Ontario and in Nova Scotia as they are in Manitoba and the North-West, but these provinces are in the critical formative period of their growth, and they are growing at a rate beyond all precedent. The genius of Christianity is service and sacrifice, and it would be altogether in the line of essential Methodism for the crying need of the North-West to be met at the expense of self-sacrifice on the part of points less needy.

More men and more money. That is the imperative call of this emergency. Are we going to obey it? When the call came from South Africa the empire grudged neither men nor money. It was the Empire's emergency, and the Empire met it in an imperial spirit. This is the Methodist Church's emergency. It is also the Methodist Church's opportunity. Shall we meet it in the petty, pitiful, parochial spirit, or in the continental, connexional, Christly spirit? According to our faith it shall be done unto us.

SUICIDE ENCOURAGED.

What the Insurance and Finance Chronicle Says Regarding the Matter.

Whether intentional or not there have been decisions given recently by Courts in the United States which are decidedly encouraging to those whose criminally morbid natures incline them to commit suicide in order for their heirs to secure money for life policies by such fraudulent action. It has been contended that the act of suicide is proof of dementia, of such a disorder of the reasoning faculties as to render the sufferer irresponsible. The plea reminds us of a phrase used by Judge Bramwell. A prisoner pleaded irresistible impulse as an excuse for his crime. Baron Bramwell said: — "Precisely so! this Court is established in order to deal with those who are so afflicted, I therefore sentence you to three years hard labour in the penitentiary, which treatment will, I trust, effect a cure." If suicide inevitably voided a life policy there would be a decrease in this crime. A case is reported by a contemporary, which shows how American Courts seem to regard insurance companies as outlaws, as having no claim to equity or justice.

The suit of V. M. Warrick, of Kansas City, against the Fidelity & Casualty Company for $5,000, contested by the company on the ground that the insured committed suicide, has been decided in favour of the beneficiary under the policy. The company claimed that its policy contained a clause exempting it from liability for a sum in excess of $500 in the event the insured committed suicide. The court held that the policy is good for its maximum amount, although death may result from self-destruction.—Insurance and Finance Chronicle.

LIVE LAKEFIELD.

The Cement Co. is Building a Large Addition.

(From Our Own Correspondent.)

The work on the enlargement of the Cement Company's Works is going on rapidly. As the stone and cement walls of the big addition go up, the extent of the company's increased manufacturing facilities becomes more apparent. It would appear as if preparations were being made for almost doubling the capacity.

The Lakefield Canoe Company are as busy as ever. The new spring work is coming in unusually early, and indications point to a larger booking of orders for this company's superior canoes than ever. Among a lot of beautifully constructed boats ready for shipment is a big 25-foot canoe for the Gold Coast, to be used for patrolling the streams by a Government official. It is specially constructed, extra strong in all its parts, and calculated to carry twenty men, if necessary.

Messrs. R. Graham & Son have just completed the remodelling of their millinery department up-stairs. A neatly-constructed new workroom has been fitted up, the walls of the show room treated to artistic new designs of wall paper and the floor completely covered with a bright new pattern of linoleum. Mr. and Mrs. W. Graham left for Toronto on a business trip.

The Canadian Order of Foresters held an at home on Thursday evening in the court room. Everything passed off successfully.

Mr. W. J. Leahy drove to Apsley on Thursday and Friday, and the town looked lonesome.

HOLLAND'S GRAVE FEARS.

General Railway Strike to Be Ordered—Socialists to Be Prosecuted.

The Hague, March 2.—There are grave fears of a serious recrudescence of Socialist trouble in Holland. Saturday night a committee consisting of the leaders of the labor unions, representing 90,000 workingmen of all branches, met at Utrecht and resolved upon the utmost possible action against the proposed bills which forbid strikes. They determined to proclaim a general railway strike on Monday or Tuesday, which will last, according to reports, until the Ministers withdraw the bills. This, it is said, will never be done, and the resolution, if acted on, and fully supported, therefore, means something near a revolution.

The Government will probably answer by the proclamation of martial law, as it has already indicated that it will firmly maintain order. All means have been taken to preserve the troops from infection by Socialist leaders, and any one distributing revolutionary pamphlets in the barracks will be prosecuted.

Prof. Vandergoes, lecturer on Socialism at the Amsterdam University, who, in addressing the meeting, advised the soldiers to "shoot in the right direction," is to be prosecuted, as will the Socialist paper, Volk, which published a secret circular addressed to the stationmasters containing rules how to act in the case of a strike.

MUTINY ON THE MAINE.

One Seaman Has Been Shot by a Guard of the Marines.

Newport News, Va., Feb. 28.—Trouble on board the battleship Maine, which is lying in dry dock here for repairs, culminated to-night in the shooting of one seaman by a guard of the marines. It is reported that the wounded man died shortly afterward. All information relative to the affair is refused. It is reported that Capt. Leutze has had difficulty in maintaining discipline on the ship. The officers on board virtually isolated her, denying outsiders access to the ship's yard. Twenty-three men have deserted the Maine in the past week.

Died in Windsor.

Windsor, March 2.—T. M. White of Windsor, who was stricken with paralysis on Tuesday, died Friday night. Mr. White was one of the best-known men in Windsor. Some twenty years ago, he came to Windsor from Exeter, established The Review newspaper, which he conducted up to nine years ago, when he was forced to retire from active work, owing to illness. Mr. White was 47 years old, and is survived by a widow and two sons.

Canada's Customs Receipts.

Ottawa, March. 2. — The customs revenue of the Dominion for the eight months of the fiscal year, ending Feb. 28, are $23,434,042, an increase of $2,756,832 over the eight months of the previous year. For the month the collections were $2,681,176, an increase of $359,844.

To Reduce Military Service.

Paris, March 2.—The Senate, which has been debating for several weeks a Government measure reducing the period of military service to two years, Saturday passed the bill through the first stage by a vote of 336 to 33.

Duke of Newcastle in Canada.

Montreal, March 2.—The Duke of Newcastle arrived in the city Saturday night from New York. He is in America for the purpose of amalgamating the High Church Societies of England and America.

Jameson Off For Africa.

London, March 2. — Dr. Jameson has started again for South Africa, and does not expect to return for a year.

IN A GOLDEN CASKET.

City of London's Welcome to Colonial Secretary Chamberlain.

London, March 2. — Secretary Chamberlain's tour of South Africa has come to an end. He is now on the voyage home. He returns to England with a greatly enhanced reputation. He has crowded an enormous amount of work into the time he has spent in South Africa, and has done all in his power to heal the wounds inflicted during the war. He has been more successful than his most sanguine friends expected in conciliating those to whom his name, before they met him, was synonymous with everything that is harsh, tyrannical, and overbearing. When he arrives in England he will be received with the utmost enthusiasm and applause. The City of London, which only a little more than a year ago paid him a signal honor, will repeat the compliment and present him with an address in a golden casket and entertain him at a magnificent banquet.

Mr. Chamberlain, in short, will be in fact, though not in name, Premier of England. His conduct in South Africa has silenced his political opponents here; as for his friends, they are comparing him to the greatest figures of history. Already he is acclaimed as first in peace, first in war, first in the hearts of his countrymen. Of course, those who say these things do not intend to make the object of their exaggerated phrases ridiculous, but ridiculous is the only term to apply to such grotesque comparisons. Chamberlain is a man of extremely great shrewdness and ability, but his is not one of those natures which magnetize a people. His talents command admiration, but his character does not inspire affection. In the hour of his greatest triumph all he will enjoy will be the popularity which attends a successful statesman, not the love and veneration which are the reward of those rare natures in whom the profoundest political sagacity is associated with the noblest moral attributes.

HOLD YOUR ORDERS! A DROP IN COAL!

Having received a message on Tuesday from Buffalo, will sell on arrival of coal here, Egg, Stove and Nut, at $3.50 per ton. Small nut $7.00. Also remember our Mixed Wood, Tamarac, Hardwood Limbs, at $4.00 per cord. Also in stock, first class long and short hardwood which will be sold at lowest prices. Wood cut and split as desired.—J. E. A. FITZGERALD.

When Life is not Life.

"Without health life is not life; it is only a state of languor and suffering—an image of death." The use of Dr. Chase's Nerve Food gives the weak, languid and discouraged a new hold on life. It makes the blood pure and rich, creates new nerve force and instils new energy and vitality into the whole being. It makes weak and sickly people strong and well by building up the system.

Face and Throat.

Six drops of olive oil used every third night to massage the lower face and throat will long keep off the first throat and chin wrinkles that all women dread. Use the tips of the fingers and stroke the oil in gently, yet firmly. Leave it on over night, washing it off in the morning with hot water and without soap. If it is found that every third night keeps the skin a bit too oily the interval may be a little lengthened.

They are made and Guaranteed by the

MERIDEN BRITANNIA CO.

THE LARGEST MANUFACTURERS OF SILVER PLATE IN THE WORLD

WANT HAZED TO STAY.

British Authorities Aim to Smooth Over Guards' Scandal.

London, March 1.—Rear Admiral Cochrane announces that the War Office has asked his nephew, J. H. Leveson-Gower, one of the victims of the hazing practices in the Grenadier Guards, to withdraw his resignation and has offered to reinstate him in another Guards regiment. Leveson-Gower has refused this proffer.

To Keep the Crop Down.

Hamilton, March 2.—The tomato growers and the canners are still at war. The growers met again Saturday afternoon, and decided to cut down the production of tomatoes to about half of what it usually is. They say that they can dispose of at least 70,000 bushels under contract at 25 cents a bushel to a new concern in Burlington, and to one of the factories here that is not a member of the Canners' Association. The beet sugar factory project seems to be off at present, at least.

Protest Against Quarantine.

Washington, March 2.— Secretary Wilson had a conference with the President Saturday respecting the quarantine which has been placed by the Department of Agriculture on New England wool to prevent the spread of the foot and mouth disease. Large holders and owners of wool in New England, particularly in Massachusetts, have protested against the quarantine regarding it as unnecessary hardship.

Uniform Time in South Africa.

Cape Town, March 1.—The clocks in the Orange River Colony, the Transvaal, Rhodesia, Portuguese East Africa and the Cape Colony were advanced half an hour at midnight, thus making them correspond with the time of Natal, which is two hours ahead of Greenwich time. Henceforth there will be uniform time thruout South Africa, with the exception of German territory.

Interest on Sultan's Debt.

Constantinople, March 1.—The Sultan disputes the right of the Council of Administration, which supervises the Turkish revenues in the interest of European bondholders, to increase the rate of interest on Turkish debts. The matter has been referred to arbitration.

Died at Glencoe.

Glencoe, March 2.—After an illness of nearly three months duration, John Watterworth, ex-M.P.P., passed peacefully away at 2.30 yesterday afternoon.

Murder and Suicide.

Jonesboro, Ga., Feb. 28.—William Farmer, deputy sheriff of Clayton County, has shot his father-in-law to death here, mortally wounded his wife and then committed suicide.

Etruria Floated Again.

New York, March 2.—The Etruria, which went aground, was floated at 8.40 p. m., headed seaward, and passed out Gedney Channel on her voyage to Liverpool, Saturday.

Formed New Cabinet.

Lisbon, March 2. — Senor Ribeiro has completed the formation of a new Cabinet.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all druggists. Testimonials free.

Hall's Family Pills are the best.

THE N. B. ELECTIONS.

The Parties in the New House Will Stand 24 to 11.

GOVERNMENT IS VICTORIOUS.

A Surprise to Both Sides—Labor With Government—St. John City Elects All Four Government Men — Premier Tweedie's Narrow Majority in Northumberland—An Opposition Disappointment.

St. John, N.B., March 2. — The Provincial elections on Saturday were quite a surprise to both sides. While it was admitted that the Government would be returned, it was thought the Opposition would make more gains than it did. This feeling seemed to prevail regarding St. John City, where the Opposition expected to carry two if not three of the four candidates. Early in the day, however, it was quite apparent that the labor ranks had been broken into by the Government, and as the day advanced the Government seemed to pull ahead considerably, and when the poll closed they had carried their four men, although one Government candidate was only 24 votes ahead of the highest Opposition man. A heavy rainstorm prevailed all day, but the workers managed to bring out a larger vote than at the former Provincial contest:

In Northumberland County Premier Tweedie failed to carry his ticket, but he managed to be elected himself, being third on the list.

Charlotte County was also a surprise. The combination ticket of four beat the Government ticket.

Hazen, leader of the Opposition, carried Sunbury.

In Carleton County the Opposition elected two candidates and the Government one.

The Opposition expected to carry Westmoreland, where they held two seats, but they met with a sad disappointment. The Government won by about 700 majority. The parties stood last night 31 Government, 11 Opposition and one independent.

In St. John City McKeown, Robertson, Purdy and Lantalum, Government, were elected.

In St. John County, Dunn and Ruddick, Government, elected.

In Albert County, Osman and Ryan, Government.

In Carleton County, Fleming and Smith, Opposition; Jones, Government.

In Charlotte, Hill Independent; Clarke, Grimmer, Hart, Opposition.

In Kent, Barnes and Johnston, Government.

In Kings, Pugsley, Scovil and King, Government.

In Madawaska, Clair and Gagnon, Government.

In Northumberland, Morrissy, Loggie, Morrison, Opposition; Tweedie, Government.

In Queen's, Farris and Carpenter, Government.

In Restigouche, Labillois and McLatchey, Government.

In Sunbury, Mason and Glaster, Opposition.

In Westmoreland, Robinson, Sweeney, Copp and Leger, Government.

In York, Whitehead, Campbell, Allen and Burden, Government.

Laforest, Madawaska County, who was elected at the last general elections as an Independent, and, after supporting the Government, went over to the Opposition, was defeated in Saturday's contest.

The election in Gloucester County will be held on Monday, and as the six candidates in the field are all supporters of the Government three more will be added to the majority, giving the Ministerial party 24 straight supporters out of 46 members.

POPE SPOKE 30 MINUTES.

Against His Physician's Advice, He Received Cardinals on Sunday.

Rome, March 1.—Dr. Lapponio, the Pope's physician, made this morning a last effort to induce His Holiness to renounce his reception of the cardinals, but without avail.

The audience was held in the Pope's private library, and Leo XIII. spoke continuously for half an hour with the forty-two cardinals present. No address was delivered.

The Pope, in the course of his remarks, referred to his approaching end. The cardinals greeted this reference with a chorus of noes and with exclamations of, "We have all come to wish you a long life."

By this time the excitement of the reception had improved Pope Leo's appearance. When he entered the library his form was bowed and trembling, but he now seemed to have acquired strength and animation.

Before retiring he presented to each cardinal a richly bound pamphlet, reviewing the chief events of his pontificate, and containing a Latin poem of his own composition, and five of his most important encyclicals.

IN NEWFOUNDLAND.

One Snowbound Express Retraces Its Way to St. John's.

St. John's, Nd., March 2.—One of the two snowbound express trains returned here yesterday. It left this city seventeen days ago, and only succeeded in getting half way across the island. The other express is still stuck fast, but the passengers left it and walked across thirty miles of snow fields to an open section of the line, and will reach here the middle of the week.

Metric System Inevitable.

Paris, March 2.—Mr. Elihu Root, Secretary of War, in a letter in which he acknowledges the receipt of the resolutions adopted by the Paris Chamber of Commerce, favoring a metric system, says he considers that the universal adoption of the system is inevitable within a short time, and adds that it would have been adopted before but for the habit attached to the old system.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects.

BIG BLAZE AT HALIFAX.

Total Loss Is Placed at From $150,000 to $200,000.

Halifax, N.S., March 1.—One of the most disastrous fires that have happened in Halifax for fifteen years broke out a few minutes after 6 o'clock Saturday evening in Moir, Son & Co.'s bakery and confectionery establishment, and in less than half an hour the place was a mass of flames. The entire fire department was called out, but fanned by a terrific hurricane from the northeast, it soon got beyond control of the firemen. A call for assistance was sent to Dartmouth, and was promptly responded to, the Dartmouth firemen coming over with their engines and doing good work in preventing the spread of the flames. At one time it looked as if the entire block, between Duke and George-streets, would go. The military were also called out and assisted in saving property.

Firemen's Narrow Escape.

The reflection of the fire was visible for ten miles. No lives were lost, and no one was injured, altho some of the firemen had close calls from falling walls. Three Dartmouth men were on an extension ladder, trying to put out the fire on the City Hall, when the ladder, which was up three storeys, fell over with them. Their escape from death was miraculous.

THE ATLANTIC GALES.

Steamers Have Rough Time—Vessels Arrive Battered by Storm.

London, March 1.—The gale over the British Isles continued Saturday night and to-day, but with less violence. Vessels are still taking refuge in the ports and arrive battered by the storm. Others have gone ashore. A quantity of wreckage has been seen off the coast of Northumberland, and the indications point to the wreck of the British ship Cambrian Prince.

The British steamer Pharsalia went thru a terrible experience. She left Boston January 30, for Leith, calling at St. John, N. B. The hurricane struck her on February 24 and the heavy seas flooded her hold, damaged her cargo, smashed the bridge and almost all the deck fittings, stove in the boats and swept the binnacle overboard. The captain and several of the crew were injured. The Pharsalia was obliged to put into Queenstown.

The British steamer Cebrian, from London, February 13, for Boston, also put back to Queenstown, after being seventeen days out at sea. She only got seven hundred miles west of Ireland, and experienced repeated hurricanes. The decks were swept of everything moveable, and the boats damaged. The captain thought the steamer would never weather the storm.

THE FEAR OF HUMBUG

Prevents Many People From Trying a Good Medicine.

Stomach troubles are so common and in most cases so obstinate to cure, that most people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humbugged, especially in medicines.

This fear of being humbugged can be carried too far, in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable, and so universally used, as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines, for the reason that they are not a secret patent medicine; no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, Bismuth, Hydrastis and Nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles, because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half-digested is poison, as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh, and appetite, and many other troubles which are often called by some other name.

They are sold by druggists everywhere at 50 cents per package.

Too Much Laudanum.

Toronto, March 2.—Andrew O. Stuttaford, Sr., died at his home, 183 Church street, yesterday evening about 6 o'clock. He had been suffering for some time from insomnia and had been in the habit of taking laudanum to induce sleep. Yesterday morning he unfortunately took an overdose of the drug. The deceased gentleman was 74 years of age and was the husband of the late Madame Stuttaford, a well-known opera singer.

An Act of Courtesy.

Rome, March 2.—Replying to an interpellation in the Chamber of Deputies Saturday, the Under Secretary for Foreign Affairs denied that Italy contemplated ceding any portion of her Somaliland possessions to land British troops at Obbia, he explained, was merely an act of courtesy.

Origin of Hobson's Choice.

Mr. Harper tells us all there is to be told about Thomas Hobson, the famous carrier between London and Cambridge, who died in 1631. It was from him that the proverb of "Hobson's choice," arose, meaning, of course, a choice which is no choice. "The saying arose from the livery stable business carried on by Hobson at Cambridge, in addition to his carrying trade. He is, indeed, said to have been the first who made a business of letting out saddle horses. His practice, invariably followed, was to refuse to allow any horse in his stable to be taken out of its proper turn. 'That or none' was his unfailing formula, when the Cambridge students, eager to pick and choose, would have selected their own fancy in horseflesh. Every customer was served alike, without favor."—London Telegraph.

HON. T. M. DUFFY DINED.

Declared For Racial Freedom and For Larger Provincial Subsidies.

Montreal, March 2.—Hon. H. T. Duffy, Treasurer of the Province of Quebec, was the guest of honor at a banquet given Saturday night by the Reform Club of this city. Many prominent Liberals were present, and the affair proved to be a most happy reunion. Mr. J. A. Drouin, President of the club, occupied the chair, and Mayor Cochrane sat in the vice-chair. Among those present were Hon. J. P. B. Casgrain, Hon. Homer Gouin and Hon. R. Dandurand.

The returns from New Brunswick were received with cheers. Senator Casgrain saw in them appreciation of the work of the Dominion Government.

Mr. Duffy made a happy speech, in the course of which he declared for racial freedom, and said that he intended to fight for larger Provincial subsidies.

The other speakers were Messrs. J. L. Decarrie, Victor Geoffrion, M.P., Drouin and S. B. Jacobs.

FAST ATLANTIC SERVICE.

Hon. Mr. Fielding and Sir Thomas Shaughnessy of the C.P.R. Confer.

Montreal, March 2.—Hon. W. S. Fielding spent a few hours in the city yesterday, and had a conference with Sir Thomas Shaughnessy just prior to the latter's leave-taking for England. Neither of these gentlemen was prepared to make a statement, but it is believed matters were discussed bearing on the proposed fast Atlantic service.

Granting Hydraulic Claims.

Victoria, B.C., March 2.—At Saturday night's session of the Mining Convention, a resolution favoring the Crown granting of hydraulic claims was passed unanimously. Premier Prior was present and announced that the Government would pay the expenses of a commission, named by the convention, to proceed to Fernie and endeavor to settle the miners' strike. The announcement was received with cheers. The convention meets again this morning.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E.W. Grove's signature is on each box. 25c.

A Familiar Name

In the homes of Canada and the United States there are few names more familiar and none more reverently spoken than that of Dr. A. W. Chase, the great physician and receipt book auditor. He is blessed for the suffering he has relieved and the diseases he has cured; his remedies are used and endorsed by the best people in the land; they are popular because they cure when others fail.

Come and Enjoy the Luxury of

A Delightful Spray

Next time you want a Shave, Hair Cut or Shampoo, come to LeGros' Barber Shop and enjoy the luxury of a delightful spray.

I have just installed the **COMPRESSED AIR SPRAYING APPARATUS**, with a distributing cock connected with each of my six chairs. It is used for spraying perfumes, bay rum, witch-hazel, etc., drying the face after shaving, drying the hair after a shampoo, and blowing away the loose hair after a cut.

Gives the most exquisite finishing touches.

CLOTHIERS, HATTERS, SHOEMEN and GENTLEMEN'S FURNISHERS.

"Throw-Down."

Before we inaugurate regular Spring trade, we will throw down Winter Clothing prices unmercifully.

Just to see how flattened-out figures will help to reduce our still-too-large stock of Winter Suits, Overcoats and Ulsters, we'll make an especial deep cut as follows for a few days longer:

WINTER'S LAST WHIRL.

All Overcoats, regular price $5, now $3.95
All Overcoats, " $6.50 " $4.00
All Overcoats, " $8.00 " $5.00
All Overcoats, " $10, " $6.50
All Overcoats, " $12, " $7.00

Fully as great reductions in all the higher-priced grades.

Boys' Overcoats all reduced.

$10.00 SUITS AT $6.75

Strictly All Wool, tailored and trimmed first class. They're our regular $10.00 Suits. t should be recommendation enough.

FOR SPRING—New Hats, Hosiery, Neckwear, Shirtings and Gloves.

WE'RE MAKING THINGS HUM AT GOUGH'S ! ! !

MONDAY, MARCH 2, 1903.

SOCIAL AND PERSONAL.

Mr. W. A. Stratton, K.C., returned from British Columbia on Saturday.

Rev. J. C. Davidson, Rector of St. John's church, has gone to Lakefield for a few days.

The Hon. Senator Geo. A. Cox, spent Sunday in town, the guest of his son-in-law, Mr. A. L. Davis.

Mr. J. F. Best left town to-day for Belleville to take charge of the clothing department of the Ritchie Company.

Mr. Frank Walsh, formerly of the Review staff, now a resident of Gloversville, U.S.A., is in town visiting friends.

Miss Pearl Hamilton has accepted a lucrative position, as stenographer in Eaton's private mail department, Toronto.

Miss Bertha Kennedy and Miss Ruth Dawson, of Richard Hall's millinery department, are in Toronto attending the wholesale millinery openings.

The engagement is announced of Miss Lillian H. Rush, daughter of Mr. and Mrs. T. O. Rush, to the Rev. W. Leslie Armitage, Rector of All Saint's.

Mr. Robert Fair spent Sunday in Millbrook at the home of his parents. His mother is at present not enjoying her usual good health, although her family are not apprehensive of any serious results at present.

Miss Neild and Miss Armstrong, of Robt. Fair & Co's, have returned from New York where they have been engaged in securing leading American novelties for the early spring, for their respective departments.

Miss Florence Miller sang at both services in St. Andrew's church yesterday. Miss Miller has an exceedingly rich, clear voice, and the ease and distinctness with which she sings make it a great pleasure to hear her.

NEWS NUGGETS.

—It looks as if the sleighing for this winter will soon be over.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 'phone 199. d

—There will be a meeting of the Board of Education to-night and the Board of Trade to-morrow night.

—Remember the match between Fenelon Falls and T.A.S. team this evening at the Brock street rink.

—At 7.30 o'clock to-night there will be a meeting of the Legal and Market Committees, and at 8 o'clock of the Committee of the Whole Council.

—The William Davies Company, Limited, of Toronto, pork packers and export provision merchants, are opening up a branch of their business in Belleville.

—The members of the Woman's Mission Circle of the Baptist church, Murray street, cordially invite all ladies interested in missions, to attend their annual meeting on Tuesday, (to-morrow) afternoon, at half-past three o'clock.

The fine weather calls for a new purse and a new shopping bag. You will get the best value in 25c and 50c lines at Sailsbury's. Their new lines are marvellous value.

PETERBOROUGH CHEESE BOARD

The Annual Meeting Held on Saturday Afternoon.

The annual meeting of the Peterborough Cheese Board was held in the Town Council Chamber on Saturday afternoon. The chair was occupied by Mr. J. M. Drummond, and there was a fairly large attendance of buyers and salesmen.

Messrs. Carlow and Whitton, of the Eastern Dairymen's Association, were present, and delivered short addresses on the matter of forming a syndicate of the Board as has been done in other places for the purpose of employing an instructor for the patrons and an inspector for the benefit of the cheesemakers to be appointed by the Government. Both these gentlemen dealt exhaustively and ably with the subject and it was decided to acquire the services of an instructor and inspector.

The old officers were re-elected with the exception of the Vice-President, Mr. Geo. Stewart, he declining on account of other business, to accept the office again, Mr. E. M. Elliott being appointed in his place.

The officers are as follows:—
President — J. M. Drummond, Keene.
Vice-President—E. M. Elliott, Peterborough.
Secretary—John Riddell, Bensfort.
Treasurer—Mr. Galvin, Lakefield.

ANOTHER PROMOTION.

Lieutenant R. F. McWilliams to be Captain.

The next number of the Militia General's Orders will announce the promotion of Lieutenant R. F. McWilliams to a captaincy. It is understood that Mr. McWilliams will have command of No. 8 Company, one of the new companies that is being organized under the new establishment. Mr. McWilliams has been connected in the past with No. 3 Company, being of valuable service to the company's commander, Captain Mills.

Mr. McWilliams' friends will be pleased to hear of his promotion, and feel certain that he will be successful in raising a good live company in the 57th Regt.

MONTHLY MEETING

Of the Ministerial Association of Peterborough.

The regular monthly meeting of the Ministerial Association was held in the Y.M.C.A. this morning, the president, Rev. J. P. Wilson, in the chair. There were also in attendance, Rev. J. A. Wilson, secretary, Rev. W. J. Jolliffe, Rev. W. L. Armitage, Rev. J. H. Hannah, Rev. J. G. Potter, Rev. J. Bastow. Rev. Wm. Bennett, and Rev. George Yule, of Bethany.

Considerable business of a private nature was disposed of, after which Rev. J. Bastow read a very interesting paper, on "The Evangelistic Pastor." Discussion followed the reading of the paper.

POSTPONED LECTURES

Of the Fortnightly Club to Take Place Shortly.

Two meetings of the Fortnightly Club were postponed this winter owing to circumstances over which the officers had no control. One lecture was to have been given by Prof. Wrong, but was postponed, owing to an accident to that gentleman. However, arrangements have been made whereby two lectures will be given during this month: one lecture by Prof. Wrong and the other by Professor Young. The dates of these lectures will be announced in the course of a few days.

Miss Delaney's New Milliner.

In addition to her regular expert staff of milliners, Miss Delaney has engaged the services of Miss Wright from the city. She comes specially recommended for her originality and style in artistic trimming and is conversant with the treatment of American ideas of millinery construction.

LATE MR. WILLIAM LECH

Passed Away at the Family Residence, Yesterday.

There passed away at the family residence, corner Hunter and Rubidge street, on Sunday afternoon, in the person of Mr. William Lech, on of Peterborough's oldest and most respected citizens.

The deceased, who was of German parentage, was born at Pr Eylau, Germany, on the 4th of March, 1825, and would have been 78 years of age on Wednesday of this week. Mr. Lech came to New York in 1854. He remained in that city for some years, coming to Peterborough in 1861, where he commenced business for himself, 42 years ago. In 1894 he handed over his successful business to two of his sons, Messrs. K. G. and W. E. Lech, which business is still being successfully conducted by them.

Mrs. Lech predeceased her husband by a little over one year, having died in September, 1901.

The deceased leaves five daughters and three sons, Mrs. Zachau, of Syracuse, N.Y.; Mrs. Graham, Peterborough; Mrs. F. G. Gneedinger, Monteal; Mrs. Stooving, London, England, Mrs. E. F. Waller, Montreal. The sons are Messrs. K. G., A. E., and W. E., of town.

The deceased has many friends in Peterborough, and was well known to the early settlers throughout the whole of the Haliburton district, where every year he made frequent visits to the fur-producing districts, and by the early settlers of Haliburton his regular visits were looked forward to as occasions for a general distribution of large sums of money for furs in that locality.

In local matters Mr. Lech took considerable interest, and his frequent letters in the newspapers exhibited a keen interest in the welfare of the town. He had always a hopeful outlook for the future of Peterborough, which he saw was materialising in his advancing years.

His demise removes one of Peterborough's exemplary citizens. His business life was marked by honesty and integrity, such as won for him the esteem of his fellow citizens.

The funeral will take place from the family residence on Wednesday at three o'clock. The bearers will be: Messrs. Jas. Stevenson, Thomas Allum, R. Walton, A. A. Cox, John McClelland and D. W. Dumble.

OBITUARY.

Sad Death of Miss Gussie Daly, Formerly of Town.

Miss Gussie Daly, the beautiful 14-year-old daughter of Mr. and Mrs. W. W. Daly, formerly of Peterborough, now of Kingston, died yesterday morning from an attack of typhoid fever.

The deceased young girl was a very pretty, loving and clever daughter, and was held in high esteem by those with whom she come in contact. The Examiner with many friends, both in Kingston and in this town, sympathize with the parents in this, their time of grief and loss of such a loving child.

The time and place of the funeral has not, as yet, been given out.

MR. GARVIN'S SUCCESSOR.

Mr. R. F. McWilliams Enters the Life Insurance Business.

Mr. J. W. Garvin on Saturday severed his connection with the North American Life Insurance Company. During the past number of years that Mr. Garvin has held the position of manager of the North American Life for Central Ontario he has been successful in building up a large business for his company, and has carefully safeguarded its interests.

It is announced to-day that Mr. Garvin's successor will be Mr. Roland F. McWilliams, barrister-at-law, who will enter upon his duties forthwith. Mr. McWilliams will close out his practice and devote his time entirely to his new position.

The Peterborough agency is one of the most important agencies the North American Life Insurance Co. possesses, and the position of manager at this point is an important and lucrative one. The North American Life is to be congratulated upon having secured the services of so energetic and capable a man as Mr. McWilliams.

AT ST. PETER'S.

Rev. Father Fitzpatrick Delivered a Very Interesting Address.

St. Peter's Cathedral was filled to the doors last night to hear Rev. Father Fitzpatrick's lecture on "The Life and Labour of St. Vincent de Paul." The lecture was given under the auspices of the St. Vincent de Paul Society in connection with St. Peter's Cathedral, which has for its object the caring for the poor of the parish. Rev. Father Fitzpatrick, who is an eloquent and earnest speaker, made a most interesting address which closed with an appeal for aid to the Society. The result was that there was a more liberal response than has ever before been given in St. Peter's for the same noble purpose.

A REGATTA

To be Held at Sturgeon Point, July the 11th.

A meeting was held in Lindsay on Wednesday night last for the purpose of making arrangements for the coming regatta on July 11th. After some discussion a resolution was unanimously passed, that the offer of the Toronto Canoe Club to attend the regatta be accepted, and that the Orillia, Barrie, Peterborough, Bobcaygeon, Fenelon Falls and Beaverton Clubs should be invited.

A committee was appointed to take charge of the necessary preliminary arrangements for the event, which will take place at Sturgeon Point.

It is proposed that excursions be run so that the event may be well attended by excursionists, and there is a prevalent hope in Lindsay that the regatta become an annual affair.

PROFESSOR DAVIES RESIGNS.

Has Been Organist for St. Andrew's for Two Years.

Professor Alfred Davies, who for the past two years has filled the position of organist and choirmaster to St. Andrew's Presbyterian church, has resigned. It is not give nout what St. Andrew's purpose doing in the future.

BEAUTIFUL CALENDAR

Sent by Old Ashburnam Boy From Kansas City.

Mr. Charles Crowe, an old Ashburnham boy, now with the Armour Packing Company, of Kansas City, U.S.A., has mailed one of the Examiner staff a beautiful "Matinee Girl" calendar, for the ensuing year, gotten out by the Armour Packing Company. The calendar is composed of [illegible] large leaves on each of which is a girl watching either, comedy, melodrama, tragedy or the like. The expression in each case is very life-like, and fully represents each title.

THE FIRE BRIGADE

Was Called out on Saturday Afternoon.

At 4.30 o'clock on Saturday afternoon, the Fire Brigade was called out to the corner of Park and Sherbrooke streets. To the disappointment of the firemen, who experienced considerable difficulty in attaining a high rate of speed, owing to the slushy condition of the roads; it was only a chimney that had caught fire, and was not serious enough for to need the operations of the brigade.

Wheatine.

If you want a really good cereal food try WHEATINE, a delicious nutty flavour, cheap and recommended by the medical profession. All leading grocers. 6d47

A. H. STRATTON & CO.
PETERBOROUGH BOOKSTORE.

Richard Hall & Son

PETERBOROUGH'S MODERN STORE.

READY-TO-WEAR **SUITS AND SKIRTS**

Stocks are now almost complete in our Ready-to-wear Dept. There are some decidedly new features in the styles this season, which you must see. You'll find our assortment large—our styles the very latest, and the workmanship of our garments is the best can be had. Prices very reasonable.

LADIES' TAILOR-MADE SUITS

Our assortment comprises some very stylish new garments in Norfolk Suits, Russian Blouse Suits and Eton Suits, with special features that are only to be seen here. We would be pleased to show them to you.

SEPARATE SKIRTS

All the new styles to be seen here. Slot seams, habit backs and buttons down the back, and a wonderful variety to choose from. Separate Skirts are a big item in our Ready-to-wear Department. Prices range from **$2.00** to **$15.00** each. SEE THEM.

NEW FLAKE SUITINGS

We have just received another large shipment of the popular Flake Suitings in Imported Tweeds, **Scotch and German Made**, special designs that are only to be had at this store. Come in and see them before they are all sold. They cannot be replaced later.

NEW FLAKE CANVAS CLOTH

This week we show a new line of Flake Canvas Cloth in four different grounds—Navy Blue, Mid Blue, Dark Gray and Resida Green, 44 inches wide, all wool. Our price **60 Cents** per yard. Splendid value at 75 cents.

NEW WASH DRESS GOODS

It's really surprising the quantity of Wash Dress Goods we are selling at this early date. Among the latest arrivals are English Mattings or Vestings, a decidedly new thing, coming in White, Pale Blue, Resida and Grey, and considered the correct thing for Shirt Waists. Also a new line of Linen Crash in Blue and Green, very nobby, Also new Flake Zephyrs in Blues, Pinks and Greens. Visit our Wash Goods Section and pick out some of the novelties before they all go.

DRESSMAKING

Our two Dressmaking Departments are running full blast again. Leave your orders early, or call and have a place reserved for you before it is too late.

RICHARD HALL & SON DIRECT IMPORTERS, 120, 122, 124 SIMCOE STREET

THE STORE THAT NEVER DISAPPOINTS

To Our Customers And Friends

The unfortunate fire of three weeks ago left us with a salvage stock to dispose of. Two positions presented themselves. First to make radical reductions on all goods in stock and sell them as rapidly as possible, taking perhaps a month or six weeks to do so. The Second was to make the reductions not only radical, but sensational and put the prices where two weeks would clean up the stocks. Taking all points of the situation into consideration we decided on the latter course, and to-day, the contractors are in possession of both stores, and will be able to give us the premises in re-modelled shape in time for Spring Trade.

Our Millinery work-room is already in shape to work in and our staff will be at work this week. Our old country purchases for our new stock have been completed and will be rushed forward.

The Montreal, Toronto and New York markets will be visited personally and by our department hands, during the next three weeks, and we have confidence in asking our customers to await the arrival and opening up of our New Stocks.

We regretted much during the rush of our clearing out sale, our inability to handle the daily crowds more satisfactorily. We adopted the only means possible under the circumstances and done the very best we could to distribute the stock to as many as possible.

We assure our customers and friends that no effort will be spared in re-stocking and re-furnishing our stores to make them attractive and inviting.

Cressman

285 AND 287 GEORGE STREET. 'PHONE 171.

PORT HOPE KNITTING WORKS

Telephone 220.

TRENT CANAL.

A Conservative Elector Makes a Suggestion—Wants Mr. Tarte.

To the Editor of the Examiner:

Dear Sir, — Just now, when the Trent Canal is receiving considerable attention, and a strong effort is to be made to have the Government put the remaining unfinished sections under contract, allow me to offer a suggestion which I think would materially help us in the matter. It is no new notion that a friend at court is desirable, and while our able and genial member, Mr. Kendry, is doing all he can for us, yet he is on the wrong side of Mr. Speaker to have very much influence with our present rulers. Governments are human, and ours is very human, and while we send men to Parliament to antagonize them, we can't expect many favours, or even fair treatment. This may be "Gamey" politics, but who can gainsay it? At the same time we must not lose sight of the fact that we are a manufacturing centre, and as such our manufacturers must be protected. Even the Reformers see the necessity of it; as evidence, note the deputation that waited on the Government a few days ago re duty on binder twine.

Now, it is an understood thing that Mr. Kendry will not offer himself for re-election. Then, cannot the two parties unite, and tender the nomination to a man that will have influence with the Government, and at the same time see that our manufacturers do not suffer for protection? Can such a man be had? Yes; Hon. J. Israel Tarte. Mr. Tarte is a friend of Peterborough. He is a mighty power in the politics of today, and will be a mightier one in the next Parliament. He is a leader of a strong Reform element that have the same principles as the great Conservative party. In his following are such men as Richardson, Innis, Hon. G. W. Ross, and many men in the House of Commons. He is a factor to be reckoned with in the present Parliament, and I believe will hold the balance of power in the next Parliament. Then why not have him as our representative? He would do us more good in Montreal than the whole Montreal Board of Trade. He is an aggressive fighter, and the foremost man on the transportation question in the whole Dominion.

I believe Mr. Tarte would feel honoured to be asked to represent an Ontario constituency, and I also believe that West Peterborough could not have a better representative in the House of Commons. Let the two parties get together for once; throw away your bickerings and strife, and for the common good of the town and country unite, and tender Mr. Tarte the nomination. If he accepts, invite him to a banquet, confirm the nomination, and have his influence for the rest of the life of this Parliament, as well as that of our present member, Mr. Kendry, and you will have taken a long step in doing something for the Trent Canal. We want some one to NATIONALIZE the Trent canal, and who can do it better than Hon. Mr. Tarte?

Thanking you, Mr. Editor,

CONSERVATIVE.

ST. LUKE'S CHURCH.

Special Services to be Held This Week.

The Rector will begin this week special services in the Sunday School, which will be held on Tuesday, Thursday and Friday, at 3 p.m. On account of Rev. Dr. Symonds coming to Peterborough on Wednesday to preach in St. John's, there will be no service at St. Luke's that evening, so that his former parishioners might hear him at St. John's. Last night, after the service, the story of the cross was sung. — Mr. J. J. Turner taking the tenor solo in excellent voice. A large number of young people were in the church to hear the Rector's discourse on "True Freedom vs. False Freedom." The Sunday evening services during Lent are specially prepared for young people.

Odd Lots Writing Pads Cheap.

Have you seen our north window? Don't let such a chance pass. Silurian paper in pads, former price 15c, now only 5 cents. Letter paper pads, former price, 25 cents; now two for 25 cents. Seeing is believing. Have a look, and invest a few nickels in these odd bits of writing pads at the cut rates.—A. H. Stratton & Co.

LATEST IN SPORTING CIRCLES

Fenelon Falls and T. A. S. Play Here To-night.

Two Basketball Matches Played in Y.M.C.A. on Saturday Night—Some Curling and Other Sports.

HOCKEY.

TO-NIGHT'S GAME.

In the Brock street rink this evening there will be a match between Fenelon Falls and T.A.S., in the finals of the Trent Valley League. From all appearances the two teams seem to be very evenly matched and the game is expected to be a good fast one. Jack Frost has benevolently come to the rescue and the ice is in grand condition for play, which certainly should be of the very best class. If the T.A.S. wish to win the championship of the League they will certainly have to win this game, and it is hoped that the home team will realize the true state of affairs and come out victorious in this and all other matches of the season.

WILL SETTLE IT TO-NIGHT.

The executive committee of the Ontario Hockey Association met on Saturday afternoon in the Telegram office, Toronto, for the transaction of business, the most important item being the hearing of the protest of the Marlboros, against the amateur status of John Marks of the Belleville team. The case will be further heard at a meeting to-night by which time the committee will be in possession of evidence that will decide whether or not Marks is an eligible player.

REVIEW VS. EXAMINER.

Arrangements have been made whereby the Review and the Examiner will play their game off between 10 and 11 o'clock to-morrow night.

AT LAKEFIELD.

An exciting game of hockey was played in Lakefield Friday night between Lakefield and the Quakers of Peterborough. The Quakers were defeated, but nevertheless they are loud in praise to the Lakefield boys for the excellent manner in which they were treated. The Quakers were to play the juniors, but found, when they arrived at the rink, four senior men on the Lakefield team. The teams lined up as follows:—

Lakefield—Goal, Wagner; point, Quigley; cover point, Murduff; forwards, Quinn, Simpson, Kennedy, Col. Redpath.

Quakers—Goal, Fitzgerald; point, Duncan; cover point, Bartley; forwards, Byers, Long, Simpson, Ellis.

Referee, H. Stabler. Umpires, C. Pens, and R. Reid.

* * * *

The St. Andrew's Junior Guild Hockey team do hereby challenge the Young Men's Guild of St. Andrew's to a game of hockey, to be played as soon as the ice can be secured, Young Men's Guild to bar all [illegible] men.

CURLING.

SATURDAY NIGHT'S GAME.

The ice in the Charlotte street curling rink was in a very bad condition for satisfactory games on Saturday night, but in spite of the "stickyness" some enthusiasts were able to throw their stones over the hog. Only one scratch game was played, that between T. Brightman and J. Stanger, in which the former scored 14 to the latter's 8. The ice will be in grand condition for curlers to-night, and it is the hope of all that a large number of members of the Assoc. will turn out in order that all the available rinks may be brought into use.

BASKETBALL.

At the Y.M.C.A. on Saturday night two basket-ball games were played. The first one was played between the Harriers and the Maple Leaves. The teams were composed of the following:—

Harriers:—Dobbin, Richardson, Campbell, Laing, Kemp.

Maple Leafs:—Merrill, Jones, Seaton, Losie, Hall.

At half-time there was a wrestling match between Norman Hendren and Robet McQuay, but neither scored a fall. The game concluded 24 to 11 in favour of the Harriers.

After the match about fifteen young men gave a tumbling exhibition, in which some very difficult feats were performed.

The second basket-ball match between the Arrows and the Brownies for the Intermediate Championship was the chief feature of the evening. The teams were composed as follows:—

Arrows:—Gillespie and Miller, defence; Hodgson, centre; Fitzpatrick and B. Gillespie, forwards.

Beavers: Cressman and Thornton, defence; Robinson, centre; Richardson and Laing, forwards.

The game was very closely contested, the score being a tie until a few minutes of the close of the game, when Hodgson, by pretty combination, succeeded in scoring three baskets in succession, the final score being 16 to 10 in favour of the Arrows.

During the interval at half-time of this game, R. McQuay and R. Watson had a wrestling match, in which McQuay got a fall.

The proceeds of the games went to the aid of the gymnasium fund.

* * * *

The Brownies will practice to-morrow night between seven and eight in preparation for their two big matches with the Harriers and the Arrows who have made arrangements for match games. The Arrows are bound to give the Canadian champions a run for honors.

TURF.

The Peterborough Turf Club received their charter on Saturday admitting them to the membership of the American Racing Association, whose headquarters are at Hartford, Con. Napanee had dropped out of this circuit, but Ottawa has been admitted. The circuit will now consist of Peterborough, Belleville, Kingston and Ottawa.

LACROSSE.

SPORTS WILL BOOM IN LINDSAY.

Cricket and lacrosse will surely boom in Lindsay this coming summer, says the Lindsay Post. We understand that the L. C. I. Cricket Club have completed arrangements for a coach. Mr. W. Sheldon, an Englishman, who coached for T. C. S. team, of Port Hope, has been secured. L. C. I. had a winning team last year, but this year they will be able to trim Woodbine, Parkdale or any other crack team. Lacrosse is being talked up quietly among some of the enthusiasts, and we expect in a couple of weeks a meeting will be called for re-organizing the club. It is likely a team will be entered in the C. L. A.

BASEBALL.

The Intermediate Gymnasium Class will meet to-night at 7.30, at the Y. M.C.A. for the purpose of organizing a baseball club for the coming season.

LATE MRS. BECK.

Mentioned in the Sermons at St. John's Church.

At St. John's church yesterday morning the Rector spoke at some length on the sad death of the late Mrs. Beck, widow of the late Rector of Peterborough. A memorial anthem entitled "Crossing the Bar," was rendered with much pathos by the choir.

The following memorial paragraph to the honour of the esteemed lady is to be found in the St. John's Parocial letter:—

A TRIUMPHANT LIFE.

"The sudden death of Mrs. Beck, the highly esteemed widow of the late Rector of Peterborough, occurring as we go to press, casts a gloom over the Parish and town. The flag at once raised to half-mast on St. John's tower was the first general intimation of the earthly ending of a life nobly spent in useful ministrations. It would be impossible to compute the extent or value of the manifold services of Mrs. Beck to this Parish. In times of difficulty she was one of its chief bulwarks, and all through her long life was an honoured leader and devoted labourer in charitable work connected with the Parish and community. A woman of striking character and individuality and of unbounded activity in the practical affairs of life, her career has been one of splendid usefulness and the memory and inspiration of it will long remain.—R. I. P."

OBITUARY.

The Late Richard Coe, of Cavan Township.

The very sudden and unexpected death of Richard Coe, of Cavan, came as a distressing shock to the community on Saturday last. After only some twenty-four hours of illness, during all of which he was unconscious, he was called upon to leave the activities of this world and enter into his reward. He was not feeling well early in the week, but on Friday he was better, and started to the mill with a load of grain, and just as he arrived at the mill he was seized with severe illness and convulsions, and remained unconscious until the last. Deceased was well and favourably known throughout the township and county, having represented his municipality for years as councillor and deputy reeve, where he was noted for carefulness and good judgment. As was said by a neighbour of the deceased, Richard Coe was a good neighbour, a respected citizen and a beloved father and husband, and as such he fulfilled the highest duties required by Him whom he followed in his Christian walk and conversation, and now he has laid down his weapons of conflict and we shall see him no more. The funeral took place on Monday last to St. John's cemetery, in the family plot, very many sorrowing friends being present to join in the last tribute of respect. The whole community joins in sincere sympathy to the bereaved widow and family.—Millbrook Reporter.

The Beehive

"Whatever We Do, We Do It Well."

LUXURIOUS.

This is the word that describes our stock of Silk Ready-to-wear Goods. They are very beautiful—just from fashion's mould.

Raw Silk Suits are going to be quite the tone this year, in pretty fawn shade, trimmed with groups of fine perpendicular tucks, flare trimmed, with medallions and straps. The waist is trimmed with medallions and box pleats, with the very latest sleeve, for Suit..... $18.00

ON SUNDAY SCHOOL WORK

Interesting Article About Sunday School Organization.

Work Which the Township Associations Should do—As to the Provincial and State Union.

In the County of Peterborough there is a County and several Township Associations, i.e., in Belmont, Asphodel, Smith, North Smith, Dummer, Otonabee and City of Peterborough. The membership of the Township Associations comprises all of the Sunday Schools in that township.

Each township organization meets annually in convention, the attendance at which is derived from the membership of the individual schools in the municipality where the convention is being held. Each of these schools appoints as many delegates as they deem best, who are thus members of the convention, entitling them to vote on any subject, or motion before the convention, and, of course, conferring on them the privilege of speaking on any question before the convention or the introducing of any question bearing on the work they may wish. They also are elegible for any office in the Association for which they may be fitted for by nature or education or better by both. Besides these all who are interested in Sunday School work are invited to attend and take part in the discussions, but cannot vote or work on a committee that belongs to duly appointed delegates and officials.

Then all persons, members of churches or otherwise who are interested in the building up of a healthy, moral and sturdy home-life are invited to be there, also every one concerned in the development of all improved and robust citizenship is welcome and given the right hand of good fellowship with the privilege of speaking in open meetings.

TOWNSHIP ORGANIZATIONS.

These township organizations are presided over by an executive committee composed of a President, a first Vice-President, and for second Vice-Presidents, all the ministers in that municipality, a Secretary-Treasuror, and where the following departments are recognised there is a Superintendent appointed to overlook that especial department in the township, to see that as far as it can be, that work is recognized in each school therein. The departments are,—The Primary, including the Cradle Roll, the Home Class Department, and the Normal Department of Modern Sunday School organized work.

Acting with these officials is a committee of management composed of one representative from each school in the municipality.

The duty of the Township Executive Committee is to co-operate with the Executive Committee of the County S. S. Association for the furtherance of the best interests of the life and work of Sunday School organisation in the township and county.

The Township Association's duty privilege is to also look after and help their own schools, keeping an oversight, helping the weak, re-associating those that lapse and to organize a new school at any point where such may be needed. There is a field of usefulness, not much used, i.e., that is for the executive to arrange with the superintendents of the Sunday schools in the township to exchange every quarter on review Sunday, they reporting to the executive as to the efficiency of the schools reviewed. By so doing it would level up the general efficiency of the work and foster a spirit of fraternity, getting out of that tendency to narrowness fostered by living to one's self and surrounded only by local interests.

This executive should arrange for local institutes to be held in every Sunday school for the interests of Primary Work, Normal Work, and to show the importance of a Home Class in every Sunday school and the better ways of working them.

These are some of the ways in which the township organizations can an do help on the great work of Sunday school organization, which is the individual school, with gathered force in the township association, then concentrated in the County Association, intensified in the Provincial Work, reaching a still higher level in the International Association, composed of the Provincial and State Associations of North America, finding its climax in the World's Sunday School Association composed of the Schools of Europe and America, with their millions of workers. Some other time will be explained County organization, then Provincial, their work and aims.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 36
